- Directors (2) **Mateo Valero Cortés, Josep Maria Martorell**
  - Directors Office (15)
    - Assistants (3)
    - Research Fellows / Strategy advisors (2)
    - Education & Training (5) **Maria Ribera Sancho**
    - Latinamerican Relations (-) **Ulises Cortes**
    - European Relations (3) **Fabrizio Gagliardi**
    - Computational Social Sciences Programme (2) **Mercè Crosas**
  - Project Management, Innovation & Dissemination (35) **Eugene Griffiths**
    - Dissemination (7) **Renata Gimenez**
    - Project Management Office (24) **Marta Rosselló**
    - Project Innovation Management Unit (3) **Vanessa Iglesias**
  - Business Development and innovation (10) **Mariona Sanz**
    - Technology Transfer (7) **Anna Escoda**
    - Business Development (2)
  - Computer Sciences (342) **Eduard Ayguadé**
    - Programming Models (10) **Xavier Martorell**
      - System Tools and Advances Runtimes (11) **Vicenç Beltran**
      - Microserver architectures & system software (4) **Paul Carpenter**
      - Accelerators for HPC (8) **Antonio J. Peña**
      - Predictable Parallel Computing (17) **Eduardo Quiñones**
      - System software for Energy Management in HPC (6) **Julita Corbalán**
    - Workflows and Distributed Computing (18) **Rosa M. Badia**
      - Data-driven Scientific Computing (2) **Yolanda Becerra**
      - Distributed Object Management (5) **Anna Queralt**
      - Data Centric Computing Area (17) **Ramon Nou**
    - Performance Tools (8) **Judit Gimenez**
      - Best Practices for P&P (12) **M.García / X. Teruel**
      - Mobile and embedded-based HPC (10) **Filippo Mantovani**
      - Compilers and Toolchains for HPC (5) **Roger Ferrer**
    - General CS (4) **Eduard Ayguadé**
      - High Performance Artificial Intelligence (HPAI) (4) **Ulises Cortés**
        - Artificial Intelligence Research (11) **Darío García**
    - Computer Architecture for Parallel Paradigms (24) **A. Cristal / O. Unsal**
      - Computer Architecture / OS Interface (CAOS) (41) **F. Cazorla / J. Abella**
      - High Performance Domain-Specific Architectures (19) **Miquel Moretó**
      - Memory systems for HPC (7) **Petar Radojkovic**
      - Software research and development vehicles for New Architectures (16) **Marc Casas**
    - SIM: Simulation Infrastructure and Methodologies (9) **Adrià Armejach**
      - Microarchitecture Design and Implementation (36 total) **Luis Plana**
        - CORE (14) **Jonnatan Mendoza**
        - VPU (8) **Francesco Minervini**
        - UNCORE: Cache hierarchy and interconnects (8) **Lluc Álvarez**
        - Integration (5) **Xabier Abancens**
    - Validation (12) **Oscar Palomar**
      - FPGA Technologies (5) **Behzad Salami**
      - Synthesis and Physical design of Ics (15) **Patxi Moll**
      - Technical Management HW eng. (6) **Teresa Cerveró**
  - Life Sciences (189) **Alfonso Valencia**
    - Computational Biology (30) **Alfonso Valencia**
      - Social Link Analytics (4) **María José Rementería**
      - Genome Informatics (2) **Miguel Vázquez**
