

**Class A**

**Class B**

**Class C**

**Class D**

A diagram showing four classes arranged in a 2x2 grid. Each class is represented by a gray square with a dashed border, containing its name. The classes are Class A (top-left), Class E (top-right), Class C (bottom-left), and Class D (bottom-right). The grid is defined by solid black lines.

Class A

Class E

Class C

Class D

Class A

Class B  
(80%)

Class E  
(70%)

The diagram consists of a large white rectangle divided into four quadrants by a horizontal and a vertical line. In the top-right quadrant, there is a gray rectangle labeled 'Class B (80%)'. Overlapping the bottom-left corner of the gray rectangle is a blue rectangle labeled 'Class E (70%)'. The gray rectangle has a dashed border, and the blue rectangle has a dotted border.

Class	Percentage
Class B	80%
Class E	70%

Class E  
(70%)

The diagram shows a 2D coordinate system with a horizontal x-axis and a vertical y-axis. A gray square, labeled 'Class A', is positioned in the upper-left quadrant. The square's bottom-left corner is at the origin (0,0). The x-axis is divided into three equal segments by a tick mark at the square's right edge. The y-axis is divided into two equal segments by a tick mark at the square's top edge. The square is shaded gray and has a dashed border. The text 'Class A' is centered within the square.

Class A

Class A (70%)

Class B (25%)
