The CEJOR (Central European Journal of Operations Research) offers high quality papers that cover the theory and practice of operations research and the relationship of operations research methods to modern quantitative economics and business administration.

For the special issue, we expect original research papers of high quality providing theoretical and/or practical application to real world problems. Both parametric and non-parametric papers will be considered. We especially welcome recent development on the theory, methodology and application of Data Envelopment Analysis and econometric methods in performance management.
