COLOSSUS Memo #

TO: Distribution
FROM: N. Brodeur
DATE: April 27, 1970
SUBJECT: Revisions 102 through 104

Revision 104 was good.

The following changes were incorporated into revs 102 through 104:

- 1.
2. A correction was made to the restart logic of P15.
- 3.
4. P29 (Time of longitude program) was deleted (PCR 1034).
5. Three needed registers were made available in Bank 5 by:
 - a) the deletion of unused constant OCT 7777,
 - b) the use of EBANK3 instead of constant STARTEB to set EBANK in STARTSUB.
 - c) the use of a BANKCALL to call RESTARTS directly (ACB 114)
