Assembly Control Board Request

No. 45

Name of Program(s): LUMINARY IC

Originator: Craig Schulenberg

Organization: MIT

Date: 8/25/69

Description of Change: Fix bug in P70/71 preferred orientation logic. (Found by K. Krause at TRW). Due to UNFC/2 not being a half-unit vector. There is no problem as long

Reason: AS COSTHET1 = 0.

UNFC/2 was unitized at ANG-ICHEX.

Assigned to: D. Desmarre
