

Name of Program(s): LUMINARY 1B
Originator: C. Schulenberg
Organization: MIT/IL
Date: 7/26/69

Description of Change:

Change the displays at the end of descent and ascent guidance to be "non-R" type displays.

Reason:

Prevent needless use of an extra VAC area and save the amount of time needed for executive overhead.

Assigned to: D. Eyles, L. Berman
