Contents

Journal of Computers

Volume 13, Number 9, September 2018

Real-Time Pen Input System for Writing Utilizing Stereo Vision
Fadi Imad, Sharifah Mumtazah Syed Ahmad, Shaiful Hashim, Khairulmizam Samsudin, Marwan Ali
1000

Applying Computational Intelligence Techniques to QoS Time Series Forecasting in Services Computing
Yang Syu, Yong-Yi FanJiang
1010

Research on Clustering and Classification for the Green Edition of Southern Weekend
Sheqi Zhang, Xiangmei Dou
1027

Privacy-Preserving Group Matching Protocol
Takuya Ibaraki, Yoshifumi Manabe
1037

Design and Implementation of A Cross-Database Query Tool on Multi-Source Databases
LiangLiang, Zhu Guangxin, Li Yuqian, Hu Junjun
1042

Distortion Free Database Watermarking System Based on Intelligent Mechanism for Content Integrity and Ownership Control
Saad M. Darwish, Hosam A. Selim, Mohamed M. Elsherbiny
1053

Handwritten Digit Recognition by Elastic Matching
Sagnik Majumder, C. von der Malsburg, Aashish Richhariya, Surekha Bhanot
1067

Designing A Novel Hybrid Algorithm for QR-Code Images Encryption and Steganography
Mohammad Soltani, Amid Khatibi Bardsiri
1075

Forex Trading Robot with Technical and Fundamental Analysis 1089
Luciana Abe dnego, Cecilia Esti Nugraheni, Irvan Rinaldy

A Model Based Testing Approach for Java Bytecode Programs 1098
Safaa Achour, Mohammed Benattou

Soft Switching Model Predictive Control with An Increase in the Security of Calculations and Information 1115
Hamidreza Iranmanesh, Ahmad Afshar

Dynamic Models for Entity Trajectory Prediction Using Deep Learning 1127
Dhanya Raghu, Apoorva K H, Anjana Anil Kumar, S Natarajan
