SOLIDARITY

We, the Dockers' Union of Marseille, the second largest port in France, send you our solidarity and support to the 16 other unions in your struggle against the company, Golden Gate Bridge District that refuses to negotiate a new contract, for over one year.

We wish you a grand success on this May Day for your demonstration.

We, French workers, faced the same attack on the part of the French government. So, we organized strikes and demonstrations to fight against the evil moves directed against the workers. We understand from our experience that this is the only thing that the bosses understand.

Victory to the Golden Gate Bridge Workers in your struggle !!!!!

General Secretary,
Daniel MANCA
