

Pay attention to the following eight points at Home

if someone in your family/household have had close contact with the COVID-19 case or is infected with COVID-19

1

Segregate the patient / close contact from other family members.

2

Have one specific person take care of the patient / close contact, if possible

3

Wear a mask

4

Wash your hands frequently.

5

Ventilate rooms.

6

Disinfect shared surface commonly touched by hands.

7

Wash dirty bed linen and clothes.

8

Throw away garbage in a tightly sealed plastic bag.

All family members should stay in separate rooms, even when eating!
