Figure 1: Corrected Figure 12(b): #Questions vs Recall for Places

We discovered that there was a duplicate figure in our paper. We accidentally put Figure 13(b) for Figure 12(b). We have provided the correct Figure 12(b) above (See Figure 1). Figure 1 plots the recall of various strategies as a function of the number of questions asked for Places dataset. There was no error in the discussion in our paper (See Section 6.2.1 in our paper for more details).
