ICSE 2019 is the premier international conference for professionals interested in all aspects of software engineering research. ICSE attracts over 1,500 participants from 50 countries around the world — academic, industrial, and governmental researchers and advanced practitioners, of which over 30% are senior graduate students.

ICSE is a week-long event comprising workshops, co-located conferences, tutorials, keynotes, paper presentations, interactive sessions, networking events, and posters.

Industry Days

ICSE 2019 will introduce a number of program elements that are intended to appeal to advanced software professionals:

- Hands-on tutorials
- Highlighted conference tracks and sessions that showcase industrially-relevant research, talks, and interactive sessions
- Student/industry networking luncheon
- Exhibitor tables for recruiting and networking
- Resume database
