

# UBC Library Strategic Framework

UBC Library's Strategic Framework will guide the future work and strategic direction for the library, in alignment with the UBC Strategic Plan.

## Commitments

We will transform our work by embedding commitments into the implementation of our Strategic Directions.

## Core Areas

The success of the Library's strategic framework depends on investing in people, technology and assessment.

## Vision

We are a globally influential research library, leading and partnering with the University and communities in the creation, stewardship, exploration and discovery of knowledge.

## Values

Our values guide and support every aspect of our work and are expressed with integrity and authenticity.

## Strategic Directions

The Library's work will focus on the following Strategic Directions to move towards our vision, using our values and commitments to guide us.

### ADVANCE RESEARCH, LEARNING AND SCHOLARSHIP

The evolving information landscape challenges us to be leaders and experts in a growing range of services that advance all forms of scholarship.

### ENGAGE WITH COMMUNITIES

The Library will actively foster opportunities for meaningful engagement and knowledge exchange with campus and community partners.

### CREATE AND DELIVER RESPONSIVE COLLECTIONS

The Library will strengthen and promote its print, digital, and special collections and provide powerful tools for research, synthesis and discovery.

### INSPIRE WITH INNOVATIVE SPACES AND SERVICES

We will continue to evolve physical and virtual spaces to meet the diverse needs of Library users, and ensure services contribute to both academic excellence and the literacies needed to navigate today's world.

### STEWARD THE ORGANIZATION

We will plan and manage our resources effectively and position the organization for sustained change and growth.

**OPENNESS**

We remove barriers and expand access to resources for research, teaching, and learning.

**BELONGING**

We create and sustain an inclusive environment where everyone is respected and welcome.

**CONNECTION**

We build strong relationships and bring people together around shared goals.

**CURIOSITY**

We ask and invite questions to cultivate a spirit of exploration, inventiveness, and growth.
