ANLP 2000–PREFACE

131 papers were submitted to ANLP-2000. 46 were accepted for presentation at the conference.

Papers came from 24 countries: fifty eight from the United States of America, eleven each from Germany and United Kingdom, nine from Canada, eight from Japan, four each from Italy and Spain, three each from France, Korea and Switzerland, two each from Australia, China, The Netherlands and Sweden and one each from Czech Republic, Denmark, Finland, Greece, India, Hong Kong, Malaysia, Norway, Russia and Taiwan.

40 papers were submitted from industry. 85 papers came from academia.

2 papers were submitted from government organizations and four submissions were combined.

The reviewing process was supported by a web-based reviewer interface developed by Elisha Kane at New Mexico State University's Computing Research Lab. Linda Fresques of CRL coordinated the refereeing process.

I would like to express my gratitude to and appreciation of the Program Committee members responsible for the six areas:

Lynn Carlson, Tools and Resources for Developing NLP Systems Subcommittee
Eduard Hovy, Integrated NLP Systems Subcommittee
Richard Kittredge, Multilingual Text Processing Subcommittee
Ray Perrault, Spoken Language Systems Subcommittee
Oliviero Stock, Monolingual Text Processing Systems Subcommittee
John White, Evaluation Subcommittee

The following colleagues did the bulk of the reviewing:

Doug Appelt	Igor Boguslavsky	David Carter
Fabio Ciravegna	Jim Cowie	Ido Dagan
Robert Dale	John Dowding	Andreas Eisele
Michael Elhadad	Jim Glass	Oren Glikman
