

$$\Sigma_x^{G^0 W^0} = \text{Diagram 1}$$

Diagram 1: A Feynman diagram consisting of a horizontal line at the bottom labeled  $G_y^0$  and a wavy line at the top labeled  $G_\Phi^0$ . The two lines are connected by a vertical line on the left and a vertical line on the right, forming a closed loop.

$$\Sigma_y^{G^0 W^0} = \text{Diagram 2}$$

Diagram 2: A Feynman diagram consisting of a horizontal line at the bottom labeled  $G_x^0$  and a wavy line at the top labeled  $G_\Phi^0$ . The two lines are connected by a vertical line on the left and a vertical line on the right, forming a closed loop.
