

$$\Sigma_{\phi}^{2\text{loop}} =$$

The equation shows the sum of four two-loop diagrams for the self-energy of a scalar field ϕ . The diagrams are separated by plus signs. Each diagram is a diamond shape with two external legs on the left and two on the right. The external legs are labeled with G_x^0 and G_y^0 . The internal lines are labeled with G_{ϕ}^0 .

- Diagram 1: Top-left leg is G_x^0 , top-right is G_x^0 , bottom-left is G_y^0 , bottom-right is G_y^0 .
- Diagram 2: Top-left is G_x^0 , top-right is G_y^0 , bottom-left is G_x^0 , bottom-right is G_y^0 . A vertical wavy line connects the top and bottom vertices, labeled G_{ϕ}^0 .
- Diagram 3: Top-left is G_x^0 , top-right is G_x^0 , bottom-left is G_y^0 , bottom-right is G_y^0 . A wavy line connects the top two vertices, labeled G_{ϕ}^0 .
- Diagram 4: Top-left is G_y^0 , top-right is G_y^0 , bottom-left is G_x^0 , bottom-right is G_x^0 . A wavy line connects the bottom two vertices, labeled G_{ϕ}^0 .
