

-12

This is a circular astronomical image, likely a deep-field exposure. The image is predominantly blue, indicating a color scale where darker shades represent lower intensity and lighter shades represent higher intensity. A bright, irregular ring of light is visible, surrounding a central dark region. The ring has a mottled appearance, with some brighter spots and some darker areas. The overall shape is roughly circular, with some irregularities at the edges. In the top right corner, there is a small white box containing the text "-12".
