

## Optimal window in time, frequency and phase space

Time

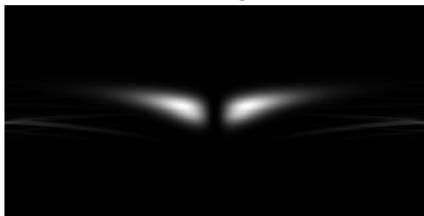

$$v_K(B) = 7.8855.$$

Frequency

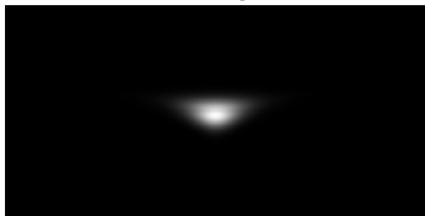

$$v_K(A) = 0.14638.$$

Phase space

Phase space

$$|(B - e_K(B))^2 K|$$

$$v_K(A) + v_K(B) = 8.0318.$$

$$|K|$$
