

Schematic Upper-Limit Calculation

$$n_{s,\text{lim}}^{90\%CL} : \int_{TS_{\text{obs}}}^{\infty} D(TS \mid n_s = n_{s,\text{sensitivity}}^{90\%CL}) dTS = 90\%$$

- $D(TS \mid n_s = 0)$
- $D(TS \mid n_s = 1)$
- $D(TS \mid n_s = n_{s,\text{lim}}^{90\%CL})$
- $D(TS \mid n_s = N_{\text{max}})$
