

Schematic Sensitivity Calculation

$$n_s^{90\%CL} : \int_{TS}^{\infty} D(TS \mid n_s = n_s^{90\%CL}) dTS = 90\%$$

- $D(TS \mid n_s = 0)$
- $D(TS \mid n_s \geq 1)$
- $D(TS \mid n_s = n_{s, sensitivity}^{90\%CL})$
- $D(TS \mid n_s = n_{s, lim}^{90\%CL})$
- $D(TS \mid n_s = N_{max})$
