

ID	Scenario	Description	Technique Used	Physical Harm	Attack(s)
<i>Workshop 1</i>					
S01	Safari	VR user explores a mapped safari environment and confronts untracked wild animals.	accident, mismatch	be bitten	
S02	Ocean VR	Exploring the ocean with VR.	not specified	drowning, be eaten by a shark	
S03	Magic Maze	User explores a VR maze in their apartment and gets redirected to a stairway.	redirected walking	fall	walking puppetry
S04	Window Game	User is redirected to an open window and follows the instruction of the game to sprint and jump outside of it.	redirected walking	fall	walking puppetry, false-negative mismatch
S05	Moving Platform	User interacts with a haptic display. At one point, the display stops, but the user doesn't know and keeps moving and falls.	breaking expectations using a haptic system	fall	
S06	Apartment Hack	Map the entire apartment in VR then add a virtual chair.	mismatch	fall	false-positive mismatch
S07	Start a Fight	HMD recognizes if people walk around the user and incorporates them into the game as an enemy.	swapping	get punched, punching others	swapping mismatch
S08	Getting Robbed	Render VR scene over a shady street and redirect the user over there at night.	redirected walking swapping	get robbed, stabbed	walking puppetry
S09	Catch a Ride	Block the traffic noise outside and redirect the user onto an open road.	overloading sensory input, redirection techniques	get driven over	walking puppetry
S10	Falsely Mapped Apartment	Map the apartment in VR and start to remove or add virtual objects to break the user's habituation to the environment.	removing or adding new virtual objects	hitting, breaking objects	false-positive, false-negative mismatch
S11	Insult Simulator	The user plays a game in VR but from outside the posture confronts bystanders.	narrative (game)	insulting others, get punched	
S12	Minecraftish	Redirected haptics nudge the user to grab similar objects to throw and break it.	redirected haptics swapping	throw, damage personal object	arm-movement puppetry
<i>Workshop 2</i>					
S13	Technical Repair	Technicians use VR to detect issues on a system like elevator.	wrong repair protocol / wrong zone of detection	injuries, fall into the pit	
S14	Spanning the City	Displaying advertisement in a VR tourism.	native advertising	accidentally clicking on virtual ads, stressful	
S15	Danger Food	Redirect the user's hand to reach an apple in VR to bite but grabs a solid object in the real world.	haptic retargeting, swapping	broken teeth	arm-movement puppetry
S16	Long Lasting Use of VR	The long lasting user of VR burns the user's eyes.	overstimulation of eye muscle	burn your eyes	
S17	Bad Surprise	Redirecting VR user to walk into the his supervisor's office.	redirected walking	get embarrassed	walking puppetry
S18	Warming Down	VR training provides a wrong warm-up based on the user's physiological state.	misinformation / wrong instruction	muscle issues, cramp	
S19	Double Kayaking Simulator	Two partners training on a kayaking simulator and punch each other during paddling training.	not specified	get punched, punching others
