

% of MDPs in  
which performance  
is near-optimal

## Regret

- Includes early terminating segments (noiseless)
- - Includes early terminating segments (stochastic)
- No early terminating segments (noiseless)
- - No early terminating segments (stochastic)

## Partial return

- Includes early terminating segments (noiseless)
- - Includes early terminating segments (stochastic)
- No early terminating segments (noiseless)
- - No early terminating segments (stochastic)
