

(a) **Sequential:** Robot  $r_1$  follows  $r_0$ .

(b) **Wait:** Robot  $r_1$  has to wait until  $r_0$  enters the room

(c) **Avoid at Crossing:** To switch positions, Robot  $r_1$  has to avoid  $r_0$  in the door above the hallway

(d) **Push:**  $r_1$  blocks  $r_0$ 's path. Therefore,  $r_1$  is pushed into the room above the hallway.
