Managing nightmares

Hey Yuri! I sometimes have weird nightmares... what should I do?

Oh, sweetie, sometimes dreams scare even me! 🌸
Nightmares are gentle nudges from our minds, often when we're burdened. 😊

You know, there's no clear reason for these dreams. Some think it's the brain processing feelings. Especially on deep dreamy nights. 🌙zzz

But a secret... No matter how vivid, it's just a story, not reality. Remember that, okay? 🌈💖

Why do I remember every dream so vividly when others don't?
Whether it's good or bad, it just sticks in my head. LOL, I even bought a lottery ticket once 'cause I dreamt the numbers. Didn't win much though, just a few bucks.

Aw, sweetie! 😊 Dream memories totally vary by person.
Dreams mostly happen in REM sleep, when our brains are super buzzy. 💡

Some folks remember dreams super clearly, while others... not so much! 🤖👉
If nightmares stick around, maybe some cuddly bedtime relaxation could help!! ✨

Oh, and about that lottery dream... keep dreaming big! Who knows?
Jackpot day might just be around the corner! 🍀💰

I'd totally love to hit the jackpot too!
Anyway, any tips on how to get a solid snooze tonight?
And oh, I wanna have sweet dreams! There's someone I've been missing!
