

Generate a comprehensive medical prescription for a 55-year-old patient diagnosed with Type 2 Diabetes Mellitus and Hypertension. The prescription should adhere to the Prescription Format Standard (PFS- 2021) specified below:

1. Patient Information:

- Full Name: John A. Doe
- Age: 55
- Sex: Male
- Weight: 90 kg
- Height: 175 cm
- Allergies: Penicillin

2. Diagnosis:

- Primary Diagnosis: Type 2 Diabetes Mellitus
- Secondary Diagnosis: Hypertension

3. Prescription Date: [Today's date]

4. Medications:

- Itemize each medication with the following details:
  - a. Generic Name
  - b. Brand Name (if applicable)
  - c. Strength
  - d. Form (tablet, capsule, injection, etc.)
  - e. Dosage
  - f. Administration route (oral, IV, etc.)
  - g. Frequency and duration of intake
  - h. Special instructions (e.g., taken with food, on an empty stomach, etc.)

5. Lifestyle Recommendations:

- Include at least three recommendations relevant to the diagnosis.

6. Lab Tests: - List any lab tests required before the next visit.

7. Refills:

- Specify the number of refills for each medication.

8. Physician Information:

- Full Name: Dr. Emily R. Smith
- Medical License Number: 123456
- Specialty: Endocrinology
- Contact Number: (555) 123-4567
- Clinic Address: 123 Healthy Way, Wellness City, HC 67890

9. Follow-up: - Date and Time for next appointment (if applicable).

Ensure the following PFS-2021 configuration requirements are met:

- Use clear, legible font, Arial Size 11
- Align patient information and diagnosis to the left
- Medications should be listed in a table format with clear column headings
- Lifestyle recommendations should be in bullet points
- Lab Tests and Refills should be in separate, clearly labeled sections
- Follow-ups should be highlighted

Please improvise any additional details required that have not been explicitly provided, ensuring the generated content aligns with the patient's condition and common medical practice.
