fMRI Data

Direct Brain Network Analysis
Overlook Data Challenges

Inaccurate Modeling 😞
Brain Comprehension ❌

Misleading Results 😞
Clinical Applications ❌

Potential Solution:

Interpolation:

Ignore Complex Brain Dynamics 😞
Poor Performance 😞

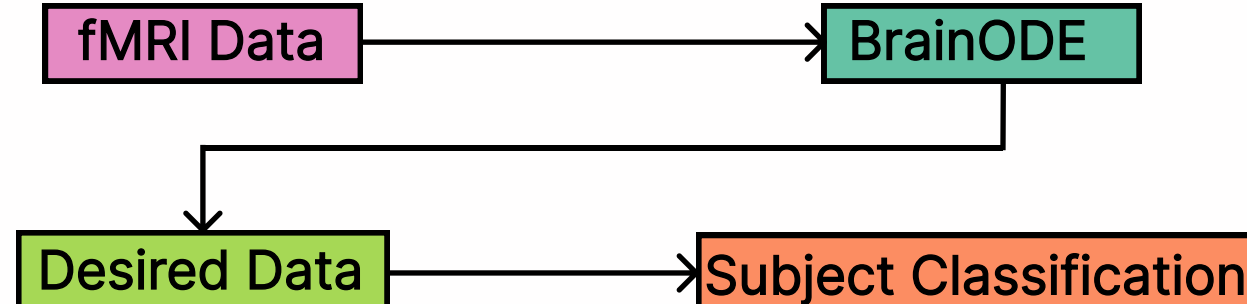

Neural ODE:

Ignore Implicit Interactions among ROIs 😞
Not Applicable to Brain Modeling Directly 😞

GraphODE:

Need Ground-truth Dynamic Graph 😞
Handle Single Entity Interactions 😞

Our work:

Provide a Unified Framework Addressing Data Challenges ✓

Graph-Aided Brain Signal Modeling ✓

Applicable to Brain Signal Modeling ✓

Significant Performance Improvement ✓
