

Problem:

Given the sentence

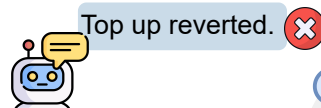

"I'm trying to load my card and it wont top up! I desperately need the money either on my card or in my bank, where is it?",
which of the options is more likely to be the inquiry's intent?

high similarity

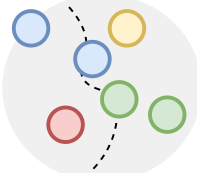

Pending top up	Top up failed	Top up reverted
Atm support	Exchange rate	Transfer timing
Change pin	Card linking	Refund not showing up
Age limit	Card arrival	...

... (68 options omitted)

numerous options (e.g., 77)

① **Ambiguous decision boundary**

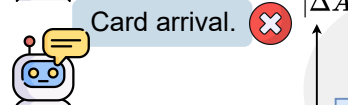

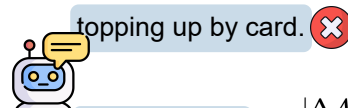

token preference

topping up by card.

Pending top up	Top up failed	Top up reverted
Atm support	Exchange rate	Transfer timing
Change pin	Card linking	Refund not showing up
Age limit	Card arrival	...

position preference
(e.g., 8th position)

② **Inherent bias**
