AREA OF INTEREST

VISITOR PROFILE

FARMER'S MARKET

Where Freshness Abounded!

Hosted by the Organic Farming Association of India (OFAI), this special area was a treasure trove of delightful organic products. It provided a unique opportunity for our visitors to connect directly with Farmer Producer Organizations (FPOs) and Agripreneurs, making the event an interactive farm-to-table experience!

AROMATIC ADVENTURES AT APEDA PAVILION

Brew-tiful Moments!

The APEDA pavilion was brewing with excitement as visitors experienced the live demonstration of Indian organic Tea and Coffee. Additionally, the live demo of millet-based recipes added a dash of innovation to the mix, introducing the attendees to the delicious and healthy millet consumption options.

CONFERENCE SESSIONS

Unleashing wisdom in every session!

Packed with presentations, discussions, and insights from global industry experts, the conference sessions catered to the diverse needs of the organic, natural, and millet industry segments. It was a houseful and attendees left enlightened and inspired by the wealth of wisdom shared.

NATURE'S NEW AND NOW

Unveiling the Trends of 2023!

This new special area dazzled visitors by showcasing the trends of 2023: "Traditional Re-imagined", "Social Impact", and "Marketing Innovation". Exhibitors whose products and innovations aligned with these trends not only garnered attention but also educated visitors, becoming beacons of insight and innovation.

"India is producing a variety of organic products, and Indian startups and MSMEs are exceeding expectations. Direct purchases from farmers and FPOs, as well as cooperatives, are actively taking place. APEDA and BIOFACH INDIA are effectively raising awareness and providing a unique platform. I am confident that this market holds tremendous potential, not only for domestic supply but also for exports. BIOFACH INDIA serves as the central hub for the organic industry, with over 200 brands participating, along with numerous international buyers and a sizable delegation from Vietnam, Germany, and other countries. I am confident that this Buyer-Seller meet will significantly promote our organic products worldwide."

Shri Sunil Barthwal, Commerce Secretary, Department of Commerce, Ministry of Commerce and Industry, Government of India

"BIOFACH INDIA provides a very unique platform for all exhibitors to learn from each other, establish their branding, promote their products, and maintain the integrity of organic practices. They also have the opportunity to meet not only buyers from India but also international buyers, gaining insights into their requirements concerning labeling, value chain integrity, and other industry needs. This exposure enables them to grow and connect with a larger buying ecosystem, strengthening their brand and supply chain. Therefore, I believe this is a truly exceptional and valuable platform, which has been thriving since 2013. I hope that the exhibition, currently featuring 200+ brands, will reach more than 1000 brands in the next 5 years, allowing us to bring the entire organic industry in India onto this platform."

Shri Rajesh Agrawal, Additional Secretary, Commerce Secretary, Department of Commerce, Ministry of Commerce and Industry, Government of India

"We have witnessed a substantial participation from organic brands from various Indian state governments at the 15th edition of BIOFACH INDIA. India currently holds a share of \$ 700 million within the vast untapped market, estimated at around \$ 130 billion globally. During our interactions with exporters, valuable concerns and suggestions were raised, forming a foundation for expanding our organic footprint both nationally and internationally. We look forward to continuing our collaboration with NürnbergMesse India to further increase the organic production and exports."

Shri Abhishek Dev, IAS Chairman, Agricultural and Processed Food Products Export Development Authority

"We are delighted to be back at BIOFACH INDIA. Last year, we participated for the first time, and BIOFACH INDIA provided us with the platform to interact and connect with individuals engaged in the organic industry, including farmers, FPOs, processors, traders, government agencies, certifying bodies, and all other stakeholders. BIOFACH INDIA offered us the opportunity to enhance our understanding of the organic market and network, making it the ultimate one-stop platform for the industry."

NIMIT DOSHI, AMUL (GCMF)

"I am genuinely delighted to be back at BIOFACH INDIA once again. It provides the ideal platform to engage with industry stakeholders. This year, in particular, we noticed significant interest from visitors in our organic business model and the impressive quality of organic produce that the North East region is developing and supplying to the rest of the country. It was a fantastic experience."

MAYANK SINGH PARIHAR, SIKKIM IFFCO ORGANICS LTD

"Our experience at BIOFACH INDIA has been excellent. We have been participating in BIOFACH INDIA since 2017. This platform is crucial for us, as it allows us to connect with existing clients, potential clients, suppliers, and stay updated on market trends every year."

DEVANSH ASHAR, PASCATI FOODS INDIA LLP

"BIOFACH INDIA is a meticulously curated exhibition that establishes a gold standard for organics in India, and I am delighted to be a part of this platform. As a retailer, we are planning to expand not only in the South but also across India. After attending BIOFACH INDIA, we are very optimistic about the enthusiastic atmosphere and the energy in the market here."
