The 2022 Graduation Survey: Method and Process

The **Graduation Survey** is administered by the University Career Center & The President's Promise (the Center). The survey captures career-related outcomes of bachelor's degree level graduates, as well as data on participation in co-curricular and extracurricular activities during the graduate's tenure at the University of Maryland, College Park. This year's report captures outcomes of bachelor's level graduates within the 2021-2022 academic year including August 2021, December 2021 and May 2022 cohorts.

Method

The 2022 Graduation Survey followed the same process and incorporated the same survey items as the 2014-2021 surveys, which were based on standards established by the National Association of Colleges and Employers (NACE). Survey data collection was conducted electronically through an instrument created in Qualtrics. In addition to responses on the survey, data were also collected via other channels including social media profiles (primarily LinkedIn), information from college/department staff, reports from employers and data from the National Student Clearinghouse.

Survey Pool

Initial survey invitations were sent prior to each graduation to a list of students who had applied for graduation in that semester (list obtained from the University of Maryland Data Warehouse). The Office of the Registrar completed degree clearances and conferred degrees approximately one month after graduation, at which point the survey pool was limited to only those students that had in fact earned a degree in the 2021-2022 academic year.

Time Frame

Based on NACE standards, data collection is normally conducted within a window of time starting with each graduation and ending six months after May graduation. Data gathering was extended up until March 2023. Collection efforts were rolled out in three phases:

Phase One

Initial emails were sent to students intending to graduate approximately three weeks before commencement. Graduates continued to receive weekly reminders until a few weeks after graduation. After that point, additional reminders were sent on a bi-weekly basis.

Phase Two

At the three-month post-graduation mark, requests to complete the survey were again emailed to graduates that had not yet responded. Students that responded in PHASE ONE and reported an *unplaced* status were resurveyed and asked to update their outcome.

Phase Three

Toward the end of the survey window (mid-November through December) the Center shared with colleges/departments lists of their graduates that had not yet completed the survey or had reported an *unplaced* status. Colleges/departments were asked to supply any additional student outcome information of which they had knowledge (e.g., a department administrative assistant that received a personal email from a graduate related to a recently landed job). Additional outcome data were sourced from searches on LinkedIn and other social media sites, conducted either by the colleges/departments or by Center staff. The Center also obtained information about enrollment in graduate-level programs from the National Student Clearinghouse via assistance from the Office of Institutional Research,

Planning and Assessment. Data received from channels other than the survey were coded to identify the source and legitimacy.

Definitions

Graduates could report one of nine career outcomes; for the purpose of this report outcomes are generally divided into the following categories:

Placed includes **employment** (either full or part-time), **continuing education** (of any type – graduate school, second bachelor’s degree, certificate programs, etc.), **starting a business/organization**, participating in a **service or volunteer program** (such as the Peace Corps) or **military service**.

Unplaced includes graduates that reported **actively seeking employment** as well as graduates that reported an **intention to pursue a graduate degree but had not yet been accepted or admitted**.

Unresolved includes students that responded to the survey during *Phase One* and reported an Unplaced status, but for whom no additional information could be collected in subsequent phases—neither through eventual response to the survey, lookups on social media sites, reports from employers, information from schools/colleges, nor the National Student Clearinghouse. In other words, the only information available was the intent of the student to commence a job search or graduate school application process, but not about the conclusion; hence the term, “unresolved.”

Not Seeking includes students that reported they were not seeking employment or continuing education. These students were omitted from the calculation of placement rates.

Other Clarifications

Some assumptions were inherent in interpreting data collected from sources other than the official *Graduation Survey* instrument.

☺ **Employment**

For outcome data collected from social media sites, graduate profiles indicating post-graduate employment were employed full-time unless information about part-time status was explicitly provided or available.

☺ **College and Department Surveys**

The Center received data from some colleges/departments that conducted internal surveys containing career outcome questions. Of note, in some cases these surveys were conducted significantly prior to the Graduation Survey data collection timeframe initiated at graduation. When appropriate, data was integrated into the official reporting database during *Phase Three* data collection efforts. However, responders to pre-graduation college/department surveys that reported an unplaced status were still classified as non-responders unless they also responded to the official Graduation Survey.

☺ **Volunteer/Service**

Students that reported a status of *Employed* but indicated their employer as Teach for America, Peace Corps, AmeriCorps, City Year or one of many well-known volunteer/service programs were re-coded in the *Volunteer/Service* category for purposes of this report.

☺ **Employment vs. Continuing Education**

Some *Phase Three* data collection efforts overlapped with each other. There were instances where a report of a graduate's employment was obtained from one source, but simultaneously a report of continuing education was obtained from the National Student Clearinghouse. Reports regarding employment were given precedence over continuing education information received from the Clearinghouse, with the assumption that the graduate would be attending the continuing education program part-time.

☺ **Clearinghouse vs. Other Reports**

In the cases where report of a graduate pursuing continuing education was obtained from both the National Student Clearinghouse and another source, but details about that enrollment were in conflict (program, school, etc.), the Clearinghouse data were considered the most accurate.

☺ **Social Media Profiles**

When conducting research on graduates via social media sites, staff were instructed to identify how recently the profile appeared to have been updated.

- Students were recorded as *Unplaced* if their profile summary or headline referenced their recent graduation and that they were actively seeking employment.
- For *Employment*, any work-related position reported in the profile with a start date **after** the individual's graduation date was considered post-graduate employment.
- If a position listed on the profile indicated a start date prior to graduation but contained clear evidence that the profile had been updated since graduation, the position was recorded as post-graduate employment. If there was no evidence that the profile had been updated, the employment was not recorded.
- Staff were asked to record URLs of student profiles for later review and verification.

Tabulations

Each graduate was counted only once in the University-wide report section. Graduates with double majors and/or double degrees were counted in their respective college reports; however, if the second degree occurred within the same college, the graduate was only counted once in the college-specific report. Graduates that participated in the Honors College or College Park Scholars programs were included in those reports in addition to being included in specific college report(s) as appropriate. In addition, although Letters & Sciences students ultimately select majors and are counted in the various college reports, a separate report was generated to include graduates who at any point in their University of Maryland tenure were Letters & Sciences students.

In some cases, percentages do not sum to 100%. For questions where graduates could "check all that apply," denominators are based on total number of graduates completing that question, not on total number of checks reported for all categories in that question. A student checking three (3) response categories would count only once toward the denominator, not three times. For other questions, the difference between the sum and 100% should be small (+/- 1%) and is attributable to rounding error. All rounding was done on final calculations/results. Most values in the report were calculated via Microsoft Excel and full decimal places were retained in intermediate steps.

The order of college reports that follows is based on how the colleges appear in the University of Maryland Data Warehouse reports.

University of Maryland

2022 University-Wide Graduate Survey Report

As of March 2023, data from 6,172 of **8,232** graduating students receiving a bachelor's degree from the University of Maryland between August 2021 and May 2022 had been collected, via the survey or other means, resulting in a knowledge rate of 75%. Most graduates were entering the workforce.

Method Used to Find Employment

Items entered for “Other” included applying online directly with employer websites and events or cold emails; social media (e.g., LinkedIn, blogs, discord chats etc.); college Listservs/blogs/digest/newsletters; referrals; college/clubs/mentorship; recruiters; Handshake, Intern for a Day, and internships.

TOP EMPLOYERS

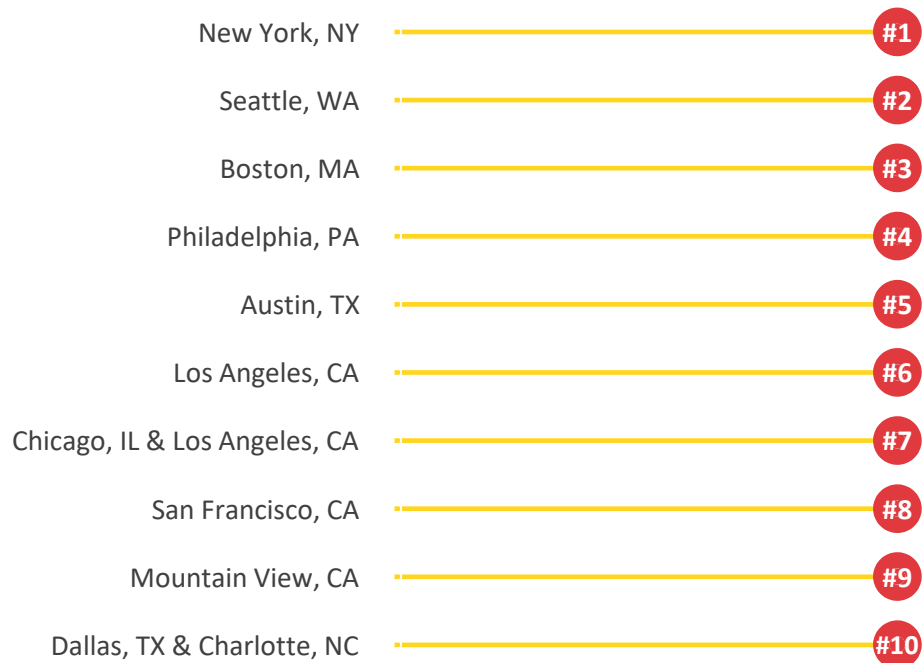

EMPLOYMENT LOCATIONS

Employment locations were identified for 3,804 graduates. Of the total, 67% (2,562) reported employment in the region: 39% in Maryland (1,502), followed by 16% in Virginia (609), and 12% in Washington, DC (451).

TOP 10 CITIES OUTSIDE OF MD/DC/VA

STARTING A BUSINESS/ORGANIZATION

Forty (40) graduates started their own business or organization based on surveys and social media searches. Not all that indicated starting a business provided names or descriptions. The following were verified via internet searches:

Club Eleven	<i>A creative studio business that helps athletes and brand engage, unite, and connect with soccer audiences across North America</i>
Cyber Ads Club	<i>A coaching business that develops, optimizes and manages advertising campaigns and social media accounts for partnered businesses</i>
Eternally Chic Boutique	<i>A fashion brand that offers high end, culturally inclusive women's clothing, and accessories</i>
Holistic Lola	<i>A brand that embodies women empowerment, prioritizing mental health and physical wellbeing through sea moss gel</i>
ISCreative Inc	<i>A business focused on providing contract work in various creative outlets in areas of video, editing, and production</i>
Luminous Themes	<i>A business that empowers Weebly users with premium Weebly themes and templates</i>
Media Monsters	<i>A pop culture podcast focusing on movies, TV, comics, games, and all else media</i>
Mindgrasp	<i>An app that instantly creates accurate notes and answers questions from any document, PDF, YouTube Video, Zoom Meeting, and more</i>
Omega 3 Nutrition	<i>A nutritional food brand empowering the brain and mental wellbeing through nutritional products</i>
Rockit	<i>A platform providing cutting edge technology solutions, expert guidance, and personalized 24/7 support to their client's business to accelerate growth to unprecedented levels</i>
Stoxy	<i>An app that allows users to subscribe to premium investors for exclusive market insights and verified positions in the stock and crypto markets</i>

SERVICE/VOLUNTEER PROGRAMS

Twenty-seven (27) graduates, based on survey and other data, plans to participate in a service or volunteer program after graduation. Programs reported include:

- ☑ AmeriCorps (3)
- ☑ Peace Corps (3)
- ☑ Fulbright (2)
- ☑ Others (19) including Teach for America (1); Jesuit Volunteer Corps (1); Teacher Fellows Program (1); Fellowship of Catholic University Students (1); Teaching Assistant Program in France (1)

CONTINUING EDUCATION

One thousand, two hundred and eighty-four (1,284) graduates would be continuing their education as their main pursuit after graduation based on surveys, clearing house and other data. The most popular areas of study include engineering, law, computer science, finance, physical therapy, public health, medicine, speech/language pathology, nursing, accounting, public policy and international relations.

OUT OF CLASSROOM EXPERIENCE

Based on 2,901 survey responses. *

**Graduates could select as many items as applied, unless they selected “none of the above.”*

Those respondents selecting “Other” most commonly wrote in items relating to “Greek” life (fraternity/sorority); research; teaching assistant or resident/research assistantships; fellowships; internships; participating in clubs or in honor societies, and sports; QUEST; and ROTC.

INTERNSHIP PARTICIPATION

Results in this section are based on 2,943 responses to the internship participation section of the survey. Seventy-five percent (75%) of respondents (2,197 graduates) reported having at least one internship during their time at University of Maryland. Among those graduates who reported having had internship experience, the majority completed two or more internships.

NUMBER OF INTERNSHIPS

Results are based on the total number of responders who provided additional details in this section survey: 76% of respondents who participated in internships reported having had at least one **paid** internship and 34% reported having had at least one internship for **academic credit**.

*Most internship experiences graduates reported having had with the University of Maryland were research related.

INTERNSHIP EXPERIENCES REPORTED BY GRADUATES

Among the 2,197 graduates who reported having an internship, a total of **4,491 internship experiences** were reported. However, results in this section are based on 3,143 internship experiences analyzed from 1,623 respondents, for which additional details were provided.

Of those internship experiences reported, 23% were academic credit-earning activities. Additionally, 67% were paid, while 32% were unpaid, and 1% earned the participant some benefit (such as travel/parking stipend), but not full payment.

Of the 1,438 experiences that paid an hourly wage, the average reported income was \$20.08 per hour and the median reported income was \$18.00 per hour.

Out of the total number of **internship experiences** reported, a significant proportion (83%) did not result in full-time positions with one or more of their host employers. However, among the internships aimed at converting into full-time positions, 90% received at least one offer (regardless of whether they accepted it). The chart below offers a detailed breakdown of all reported internship outcomes, reflecting the total number of internship experiences.

OUT OF CLASSROOM EXPERIENCE

Based on 125 survey responses. *

*Graduates could select as many items as applied unless they selected "none of the above."

Those respondents selecting "Other" most commonly wrote in items relating to ARMY ROTC, internship, peer mentor (employment), and volunteering.

INTERNSHIP PARTICIPATION

Results in this section are based on 122 responses to the internship participation section of the survey.

Seventy-three percent (73%) of respondents (90 graduates) reported having at least one internship during their time at University of Maryland. Among those graduates who reported having had internship experience, the majority completed two or more internships.

Results are based on the total number of responders who provided additional details in this section of the survey: 93% of respondents who participated in internships reported having had at least one **paid** internship and 54% reported having had at least one internship for **academic credit**.

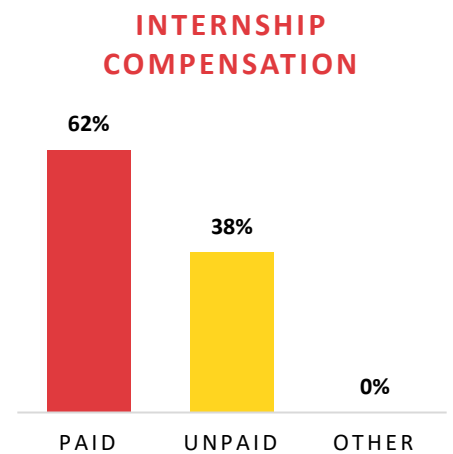

INTERNSHIP EXPERIENCES REPORTED BY GRADUATES

Among the 122 graduates who reported internships, a total of **185 internship experiences** were reported.

Of 161 internship experiences reported, 30% were academic credit-earning activities.

Additionally, of 161 internship experiences reported, 62% were paid, while 38% were unpaid, and 0% earned the participant some benefit (such as travel/parking stipend), but not full payment.

Of the 79 experiences that paid an hourly wage, the average reported income was \$14.64 per hour and the median reported income was \$15 per hour.

EMPLOYMENT LOCATIONS

Employment locations were identified for 379 graduates. Of those, 60% reported employment in the region: 32% in Maryland (123), followed by 20% in Washington, DC (75), and 8% in Virginia (29).

STARTING A BUSINESS/ORGANIZATION

Five (5) graduates reported that they started their own business or organization. Not all that indicated starting a business provided names or descriptions. The following were verified via internet searches:

ISCreative Inc A business focused on providing contract work in various creative outlets in areas of video, editing, and production

Media Monsters A pop culture podcast focusing on movies, TV, comics, games, and all other media

SERVICE/VOLUNTEER PROGRAMS

Five (5) graduates reported plans to participate in a service or volunteer program after graduation. Programs reported include:

- ☑ **Fulbright (1)**
- ☑ **Teach for America (1)**
- ☑ **Teaching Assistant Program in France (1)**

CONTINUING EDUCATION

One hundred and twenty-nine (129) graduates reported that they would be continuing their education as their main pursuit after graduation based on survey, clearing house and other data. The most popular areas of study include law, music, business and management, history, curriculum and instruction, public policy, education, medicine and international relations.

OUT OF CLASSROOM EXPERIENCE

Based on 284 survey responses. *

*Graduates could select as many items as applied unless they selected "none of the above."

Those respondents selecting "Other" most commonly wrote in items relating to "Greek" life (fraternity/sorority), being a Teaching Assistant, volunteering, and GVPT honors program.

INTERNSHIP PARTICIPATION

Results in this section are based on 282 responses to the internship participation section of the survey.

Seventy-three (73%) of respondents (205 graduates) reported having at least one internship during their time at University of Maryland. Among those graduates who reported having had internship experience, the majority completed two or more internships.

Number of Internships

Results are based on the total number of responders who provided additional details in this section of the survey: 74% of respondents who participated in internships reported having had at least one **paid** internship. 63% reported having had at least one internship for **academic credit**.

INTERNSHIP EXPERIENCES REPORTED BY GRADUATES

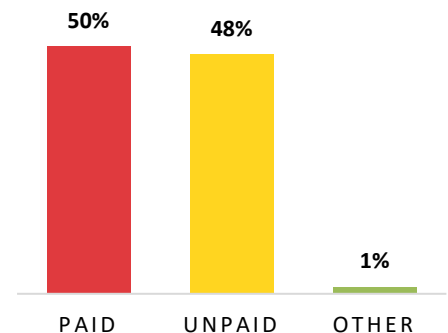

Among the 205 graduates who reported internships, a total of **448 internship experiences** were reported.

Of 357 internship experiences reported, 40% were academic credit-earning activities.

Additionally, of 365 internship experiences reported, 50% were paid, while 48% were unpaid, and 1% earned the participant some benefit (such as travel/parking stipend), but not full payment.

Of the 108 experiences that paid an hourly wage, the average reported income was \$16 per hour and the median reported income was \$15 per hour.

EMPLOYMENT LOCATIONS

Employment locations were identified for 258 graduates. Of those, 73% reported employment in the region: 28% in Virginia (73), followed by 26% in Maryland (68), and 18% in Washington, DC (47).

STARTING A BUSINESS/ORGANIZATION

Two (2) graduates reported that they started their own business or organization. Not all that indicated starting a business provided names or descriptions.

Luminous Themes *A business that empowers Weebly users with premium Weebly themes and templates*

SERVICE/VOLUNTEER PROGRAMS

One (1) graduate reported plans to participate in a service or volunteer program after graduation. The program name was not reported.

CONTINUING EDUCATION

Twenty-eight (28) graduates reported that they would be continuing their education as their main pursuit after graduation based on survey, clearing house and other data. The most popular areas of study include information management, business analytics, IT-software engineering, law, and human-computer interaction.

OUT OF CLASSROOM EXPERIENCE

Based on 110 survey responses. *

*Graduates could select as many items as applied unless they selected "none of the above."

Those respondents selecting "Other" most commonly wrote in items relating to clubs, freshman connection and summer job.

INTERNSHIP PARTICIPATION

Results in this section are based on 110 responses to the internship participation section of the survey.

Sixty-nine percent (69%) of respondents (76 graduates) reported having at least one internship during their time at University of Maryland. Among those graduates who reported having had internship experience, the majority completed two or more internships.

Results are based on the total number of responders who provided additional details in this section survey: Ninety-seven percent (97%) of respondents who participated in internships reported having had at least one **paid** internship. 14% of respondents reported having had an internship for **academic credit**.

INTERNSHIP EXPERIENCES REPORTED BY GRADUATES

Among the 76 graduates who reported internships, a total of **140 internship experiences** were reported.

Of 109 internship experiences reported, 13% were for academic credit-earning activities.

Additionally, of 110 internship experiences reported, 81% were paid, while 19% were unpaid, and none of the participants received other benefits (such as travel/parking stipend).

Of the 69 experiences that paid an hourly wage, the average reported income was \$20.96 per hour and the median reported income was \$18.00 per hour.

Those respondents selecting “Other” most commonly wrote in items relating to varsity athletics, fellowship, and sports.

INTERNSHIP PARTICIPATION

Results in this section are based on 176 responses to the internship participation section of the survey.

Sixty-three percent (63%) of respondents (111 graduates) reported having at least one internship during their time at University of Maryland.

Results are based on the total number of responders who provided additional details in this section survey: Forty-five percent (45%) of respondents who participated in internships reported having had at least one **paid** internship. Fifty-three percent (53%) reported having had at least one internship for **academic credit**.

INTERNSHIP EXPERIENCES REPORTED BY GRADUATES

Among the 111 graduates who reported internships, a total of **208 internship experiences** were reported.

Of 144 internship experiences reported, 39% were academic credit-earning activities.

Additionally, of 147 internship experiences reported, 35% were paid, while 62% were unpaid, and 3% earned the participant some benefit (such as travel/parking stipend), but not full payment.

Of the 26 experiences that paid an hourly wage, the average reported income was \$15.98 per hour and the median reported income was \$15.00 per hour

Employed PT	98	6%
Continuing Education	299	19%
Volunteering or in service program	7	0%
Serving in the Military	17	1%
Starting a business	9	1%
Unplaced*	9	1%
Unresolved	70	4%
Total	1584	100%
Not Seeking	23	

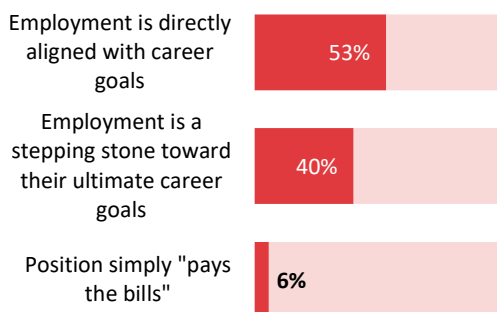

*Includes graduates who are restarting job search

NATURE OF POSITION

Based on the 486 & 484 survey responses respectively:

94% of employment is either directly aligned with their career goals (53%) or is a stepping stone (40%) toward their ultimate career goals.

96% of employment is either directly related to their field of study/major (64%) or utilizes knowledge, skills, and abilities gained through their study (32%).

SALARY

Salary information was reported by 450 graduates entering full-time employment. Of these, 161 indicated they were receiving some type of first year bonus (median bonus \$5,391.50).

Reported Salaries	25 th Percentile	50 th Percentile	75 th Percentile
450	\$ 50,937.31	\$ 68,264.65	\$ 81,127.23

EMPLOYMENT SEARCH

Method Used to Find Employment

Items entered for “Other” included applying online directly with employer social media (e.g., LinkedIn, Twitter); college Listservs/newsletters/; alumni referrals; classmate; recruiter; word of mouth; and faculty contact.

EMPLOYMENT LOCATIONS

Employment locations were identified for 1,016 graduates. Of the total, 69% reported employment in the region: 43% reported employment in Maryland (440), followed by 14% in Virginia (147), and 11% in Washington, DC (112).

STARTING A BUSINESS/ORGANIZATION

Nine (9) graduates reported that they started their own business or organization. Not all that indicated starting a business provided names or descriptions. The following were verified via internet searches:

Cyber Ads Club	<i>A coaching business that develops, optimizes & manages advertising campaigns and social media accounts for partnered businesses.</i>
Holistic Lola	<i>A brand that embodies women empowerment, prioritizing mental health and physical wellbeing through sea moss gel</i>

SERVICE/VOLUNTEER PROGRAMS

Seven (7) graduates reported plans to participate in a service or volunteer program after graduation. Programs reported include:

- ☑ **AmeriCorps (1)**
- ☑ **Council of International Education Exchange (CIEE) (1)**
- ☑ **Fulbright (1)**

CONTINUING EDUCATION

Two hundred and ninety-nine (299) graduates reported that they would be continuing their education as their main pursuit after graduation. The most popular areas of study include law, engineering, business and management, finance, nursing, psychology, and medicine.

TYPE OF DEGREE/PROGRAM	#	%
Associate's	12	4%
Second Bachelor's	7	2%
Health Professional (MD, DO, Pharm.D, Au.D, etc.)	5	2%
Law (JD)	20	7%
Masters/MBA	202	67%
Ph.D. or Doctoral	18	6%
Certificate	2	1%
Non-degree Seeking (Post-bac., Cont. Edu. Credits)	1	0%
First Professional	21	7%
Unspecified	11	4
TOTAL	299	100%

OUT OF CLASSROOM EXPERIENCE

Based on 679 survey responses. *

*Graduates could select as many items as applied unless they selected "none of the above."

Those respondents selecting "Other" most commonly wrote in items relating to "Greek" Life (fraternity/sorority), Freshman Connection, being a Teaching Assistant, NAVY ROTC, participating in clubs and sports, and via internships.

INTERNSHIP PARTICIPATION

Results in this section are based on 694 responses to the internship participation section of the survey.

Seventy-one percent (71%) of respondents (496 graduates) reported having at least one internship during their time at University of Maryland. Among those graduates who reported having had internship experience, the majority completed two or more internships.

Results are based on the total number of responders who provided additional details in this section survey: Seventy-two percent (72%) of respondents who participated in internships reported having had at least one **paid** internship. Thirty-one percent (31%) reported having had at least one internship for **academic credit**.

INTERNSHIP EXPERIENCES REPORTED BY GRADUATES

Among the 496 graduates who reported internships, a total of **948 internship experiences** were reported.

Of 651 internship experiences reported, 22% were academic credit-earning activities.

Additionally, of 660 internship experiences reported, 63% were paid, while 34% were unpaid, and 2% earned the participant some benefit (such as travel/parking stipend), but not full payment.

Of the 290 experiences that paid an hourly wage, the average reported income was \$18.19 per hour and the median reported income was \$17.00 per hour.

Undergraduate Studies

Survey Response Rate
50%

Knowledge Rate
79%

As of March 2023, data from 11 of 14 graduating students receiving a bachelor's degree from the University of Maryland between August 2021 and May 2022 had been collected, via the survey or other means, resulting in a knowledge rate of 79%. Most graduates were entering the workforce.

2022 GRADUATE OUTCOMES	#	%
Employed FT	7	64%

APPENDIX I

GRADUATION SURVEY QUESTIONNAIRE 2021-2022 VERSION

The University Career Center & The President's Promise uses Qualtrics and load information about graduating students as a panel for the survey. University identification numbers will link responses to records.

Post-Graduation Information:

1. Which of the following best describes your status AFTER graduation?

(Choose the one option that BEST describes your status)

- a) Employed full-time (on average 30 hours or more per week) [\(GO TO EMPLOYMENT\)](#)
- b) Employed part-time (on average less than 30 hours per week) [\(GO TO EMPLOYMENT\)](#)
- c) Starting my own business/organization [\(GO TO ENTREPRENEUR\)](#)
- d) Participating in a volunteer or service program (e.g., Peace Corps) [\(GO TO VOLUNTEER\)](#)
- e) Serving in the U.S. Armed Forces (any branch) [\(GO TO MILITARY\)](#)
- f) Accepted into a program of continuing education (e.g., Graduate School) [\(GO TO STUDY\)](#)
- g) Actively seeking employment or starting job search [\(GO TO EXPERIENCES\)](#)
- h) Applied to graduate school/continuing education but not yet accepted [\(GO TO EXPERIENCES\)](#)
- i) Not seeking employment or continuing education at this time [\(GO TO NOT SEEKING\)](#)

IF PLACED (a, b, c, d, e or f from above):

When did you accept/confirm your post-graduation plans?

- a) Before graduation
- b) Within one month after graduation
- c) Within three months after graduation
- d) Later than three months after graduation

2. What is your post-graduation email address? <<EMAIL INPUT>>

Employment After Graduation:

3. Which of the following categories BEST describes your employment:

- a) Employed on a full-time or part-time basis as an employee of a company/organization
- b) Employed in a temporary work assignment
- c) Employed on a freelance basis
- d) Employed in a postgraduate internship or fellowship

4. Which of the following BEST describes the nature of your employment:
- a) Employed in a position that is directly aligned with my career goals
 - b) Employed in a position that is a stepping stone toward my ultimate career goals
 - c) Employed in a position that just “pays the bills”
5. How is your employment related to your field of study/major?
- a) Directly related to my field of study/major
 - b) Utilizes knowledge, skills and abilities gained through my study at UMD, but not directly related
 - c) Not at all related
6. Name of Employing Organization
<< PICKLIST – EMPLOYING ORGANIZATION >>
OR: other: **<<TEXT BOX>>**
7. Position Title: **<<TEXT BOX>>**
8. Position Location – city, state, and country
<<PICKLIST - LOCATIONS>>
9. Annual Base Salary amount in U.S. Dollars - not including bonuses, commission, or overtime:
<<PICKLIST – SALARY RANGES>>
10. Guaranteed first-year bonus amount in U.S. Dollars, if you are receiving one (e.g., sign-on and/or year-end):
<<PICKLIST – RANGE OF AMOUNT>>
11. How did you obtain your post-graduate employment? (*Select ALL that apply*)
- a) On-Campus Interviews
 - b) Previous Internship/Co-op
 - c) Career Fairs – on campus
 - d) Career Fairs – off campus
 - e) UMD online job site (e.g., Careers4Terps, HireSmith)
 - f) Non-UMD online job site
 - g) Contacts from faculty member
 - h) Contacts from family/friends
 - i) Currently employed with organization
 - j) Other: **<<WRITE IN>>**
12. How many job offers did you receive? **<<NUMERICAL INPUT>>**

Experiences while at UMD (EXPERIENCES)

31. How many internships did you have while at UMD? <<NUMERICAL INPUT>>

32. Which of the following experiences did you participate in while enrolled at UMD?

(Mark ALL that apply)

- | | |
|---|---|
| a) Part-time employment – on campus | k) Study abroad |
| b) Part-time employment – off campus | l) Work abroad |
| c) Full-time employment – both on or off campus | m) Community service learning/volunteer work |
| d) Federal Work-Study | n) Student group leadership |
| e) Research program(s) – on campus (e.g., GEMSTONE, FIRE) | o) Student group membership |
| f) Research project(s) – on campus (faculty driven) | p) Living-learning community (e.g., Honors, Scholars, Beyond the Classroom, Language House) |
| g) Summer research program(s) | q) Terrapin Teachers |
| h) Co-op(s) | r) Other: <<WRITE IN>> |
| i) Student teaching | s) None of the above |
| j) Clinical or hospital rotation | |

If respondent selects options (a), (b), (c), or (d) in question 31, display question 33:

33. How many hours, on average, did you work per week? <<PICKLIST – HOUR RANGES>>

If respondent selects option (p) “None of the above” in question 32, display question 34:

34. What prevented you from participating in any of those experiences while enrolled at UMD?

(Choose all that apply)

- a) Was not interested
- b) Academic workload
- c) Financial constraints
- d) Not sure how/where to find information
- e) Did not have reliable transportation
- f) Commuter/distance to campus
- g) Family responsibilities
- h) Other: <<WRITE IN>>

Internships while at UMD

This section is displayed if the respondent indicates a number for internships in Question 31 that is greater than zero. The section (questions 35 through 41) is repeated for each internship up to a total of 10.

You indicated that you participated in [fill # internships] internship(s) while at UMD.

We will ask questions about each internship in turn.

Please answer the questions on this page about your [fill ordinal number] internship.

35. For your [fill ordinal number] internship, what was the name of the business or organization you worked for? <<TEXT BOX>>

36. What was your title or job function? <<TEXT BOX>>

37. Was your [fill ordinal number] internship paid?

NOTE: Other refers to internships that did not provide a salary, hourly wage, or monetary stipend, but did provide benefits such as housing, travel, etc.

- a) Yes, I received an hourly wage
- b) Yes, I received a monthly salary
- c) Yes, I received a stipend
- d) No
- e) Other

If respondent selects “yes” in question 37, display question 38:

38. How much were you paid for this internship? (Please indicate hourly wage, salary, or stipend amount) <<TEXT BOX>>

39. Did you receive academic credit for this internship? <<YES/NO>>

40. In what semester did you participate in this internship? <<PICKLIST – SEMESTER AND YEAR>>

(if the internship continued throughout more than one semester, list the last semester you participated in this internship)

41. As a result of THIS internship:

- a) I accepted full-time employment with this organization.
- b) I received an offer for full-time employment with this organization but did not accept it.
- c) I applied for full-time employment with this organization but did not receive an offer.
- d) I did not apply for full-time employment with this organization.

END OF SURVEY

2022 Graduation Survey Report Bachelor's Level Graduates

Compiled by the University Career Center & The President's Promise

Report Design & Layout

Evelyn Hausler & Sharon Ousman

Cover Design

June Pham, Graduate Assistant

UNIVERSITY OF
MARYLAND

The **Graduation Survey** is administered by the University Career Center & The President's Promise (the Center). The survey captures career-related outcomes of bachelor's degree level graduates, as well as data on participation in co-curricular and extracurricular activities during the graduate's tenure at the University of Maryland, College Park.
