- Women's and Gender Studies, Minor (p. 1333)

## Requirements

The degree requirements in the College of Letters and Science build on the University General Education Requirements to provide a broad base of knowledge as well as an array of skills cited by employers as critical to professional success: critical thinking, problem solving, oral and written communication, ability to work well with others, and adaptability to change.

For both the Bachelor of Arts (B.A.) and the Bachelor of Science (B.S.), you must complete the English Composition requirement, the Math and Formal Reasoning requirement, the Breadth requirement, the International requirement, and the Research requirement. The Breadth requirement (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>) ensures that you take classes in a wide variety of subjects, across humanities, natural sciences, and social sciences. The International requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) develops your potential for cross-cultural understanding in a globalizing world. The Research requirement (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>) calls for you to build your critical thinking and oral and written communication skills through conducting an independent research project, usually in your major.

For the Bachelor of Arts (B.A.) you will also complete the Language other than English requirement, to further develop your understanding of cultures through language.

For the Bachelor of Science (B.S.) you will complete additional coursework in Advanced Natural Science (<https://catalog.uwm.edu/letters-science/approved-courses-advanced-natural-science/>).

Below are the details of the degree requirements in the College of Letters and Science.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	

*Part B*

Course designated as OWC-B; may be completed through a major-specific course requirement

### Quantitative Literacy

#### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

#### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

### Arts

Select 3 credits 3

### Humanities

Select 6 credits 6

### Social Sciences

Select 6 credits 6

### Natural Sciences

Select 6 credits (at least two courses including one lab) 6

### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

## II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	

Code	Title	Credits
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

## III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

## IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

## V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area.\*

12

**Cultural Diversity**

Complete 3 credits in a course with Cultural Diversity (CD) designation.\*\*

3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

**VI. The Major**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement**

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

**VII. The Minor**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

**Course of Study – Bachelor of Science Degree**

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated Advanced Natural Science courses (<https://catalog.uwm.edu/letters-science/approved-courses-advanced-natural-science/>). The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

**University General Education Requirements (GER)**

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		
<i>Part B</i>		
Course designated as QL-B; may be completed through a major-specific course requirement		
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Select 6 credits		6
<b>Social Sciences</b>		
Select 6 credits		6
<b>Natural Sciences</b>		
Select 6 credits (at least two courses including one lab)		6
<b>UWM Foreign Language Requirement</b>		
Complete Foreign Language Requirement through:		
Two years (high school) of a single foreign language		
Two semesters (college) of a single foreign language		
Or equivalent		
<b>UWM Cultural Diversity Requirement</b>		
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement		

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) placing beyond English 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

Code	Title	Credits
MATH 211	Survey in Calculus and Analytic Geometry I	4
MATH 213	Calculus with Life Sciences Applications	4
MATH 221	Honors Calculus I	5
MATH 231	Calculus and Analytic Geometry I	4

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including laboratory or field courses from three different curricular areas. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to

select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

## VI. The Major

The College requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

## VII. The Minor

The College requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation.

Courses Approved for the L&S Breadth Requirement (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>)

Courses Approved for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>)

Courses Approved for the L&S Research Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>)

Courses Approved for the L&S Advanced Natural Science Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-advanced-natural-science/>)

## Graduate Policies and Regulations

The Graduate School policies and regulations can be found at Graduate School Policies (p. 31). Please refer to the specific program for program policies and regulations.

## Undergraduate Policies and Regulations Semester Course Load (UWM Policy)

Students in Letters and Science may carry a maximum of 18 credits in a regular semester. In extraordinary circumstances, an overload may be granted to a student with a high GPA who has no outstanding incompletes. Students should contact their Letters and Science advisor for instructions on requesting an overload. Additional fees are assessed for credits beyond 18.

## Bachelors of Arts and Bachelors of Science Degree Requirements (Letters & Science Policy)

Specific degree requirements for the Bachelor of Arts and Bachelor of Sciences degrees are listed on the individual pages for those majors.

Students are cautioned to meet with their advisor(s) regularly to ensure they understand all requirements they need to complete in order to graduate, including major requirements, UWM general education requirements, Letters and Science breadth requirements, and Letters and Science degree requirements. Students should not rely on pre-printed sample plans as those are intended as samples only and may not apply to every student's exact circumstances.

## Declaration of an Intended Major (Letters & Science Policy)

Students who are not yet eligible to declare a major formally may declare an intended major in an academic discipline of interest to them. The declaration of an intended major is encouraged as soon as a student finds they are interested in a particular area. This action permits the department to identify students to whom to send information concerning programs, scholarships, opportunities (e.g., internships), and other matters relating to the area of study. Students may declare an intended major by completing a brief form available online ([http://uwm.edu/letters-science/wp-content/uploads/sites/255/2016/05/Intended\\_Major\\_Form.pdf](http://uwm.edu/letters-science/wp-content/uploads/sites/255/2016/05/Intended_Major_Form.pdf)) or from the L&S Advising Office (HLT 142).

## Declaration of a Major (Letters & Science Policy)

Students must declare a major by contacting the appropriate academic department or program. Specific information on how to declare a major can be found on that program's web site. Failure to declare the major before 75 credits have been earned may result in a delay of graduation. Some departments or programs specify course and/or GPA requirements that students must satisfy prior to declaring the major.

## Major GPA Requirement (Letters & Science Policy)

The College requires that students attain at least a 2.0 GPA in all credits in the major, including courses attempted at UWM and courses taken elsewhere and transferred to UWM. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other than the home department. Contact your major faculty advisor for information on whether those credits will count as part of the major GPA.

## Cumulative GPA Requirement (UWM Policy)

To be eligible for a bachelor's degree, students must attain a cumulative GPA of 2.0 on all credits that count toward a degree, including any transfer work.

## Major and Minor Residency Requirement (Letters & Science Policy)

The College requires that students complete at least 15 credits of their major in upper-division (numbered 300 or above) courses at UWM in order to earn that major from UWM.

The College requires that students complete at least 9 credits of their minor in upper-division (numbered 300 or above) courses at UWM in order to earn that minor from UWM.

## Degree Residency Requirements (Letters & Science Policy)

In order to provide maximum flexibility while preserving the institutional identity of a UWM degree, the College requires students to:

1. Take the last 30 credits of their program at UWM, or
2. Take 45 of the last 60 credits at UWM, or
3. Take at least 90 of the 120 credits needed for a degree at UWM

Credits earned through credit-by-examination, retroactive credit in foreign languages, and the College Level Examination Program do not count toward residency, but they also do not interrupt residency.

## Transfer Credit Limitations and Requirements (Letters & Science Policy)

Students who transfer to UWM from a UW two-year college, Milwaukee Area Technical College, Madison Area Technical College, or Nicolet Technical College may transfer up to 72 credits taken at a two-year school.

Students who transfer to UWM from a junior college outside Wisconsin must earn the final 48 credits at UWM or in another bachelor's-degree-granting college or university in accord with the requirements stated above.

## Research Requirement (Letters & Science policy)

Within their major, students must complete a research experience approved by the L&S Faculty.

## Major Requirements (Letters & Science policy)

To complete a major, students must satisfy all the requirements of the major as stated in the department or program entry in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## Minors (Letters & Science Policy)

The completion of a minor is optional. The College requires that students attain at least a 2.0 GPA in all credits in the minor, including courses attempted at UWM and any courses taken elsewhere and transferred to UWM for the minor. Individual departments may require higher GPAs for graduation. Students must complete at least 9 credits of upper-division (numbered 300 or above) courses in the minor at UWM in order to earn the minor from UWM.

## Minimum Number of Cumulative Credits (UWM Policy)

To complete a bachelor's degree, 120 degree credits are required.

## Other Credit Requirements and Limitations, Bachelor of Arts (Letters & Science Policy)

For the Bachelor of Arts degree, as part of the 120 total credits needed, students must complete at least 36 credits in upper-division (numbered 300 or above) courses offered by the College of Letters and Science.

### Limitations:

- At least 90 credits of the 120 total credits must be completed in courses offered by the College of Letters and Science, allowing students to take as electives up to 30 credits in courses offered by

other schools and colleges at UWM. There is no limit to the number of credits that may be taken in one department.

- No more than 6 credits from a single course outside the College may be counted toward the degree.
- A maximum of 12 credits in military science courses may be counted toward the degree as non-L&S electives.
- No more than 6 credits of field experience taken outside the College may be counted toward the degree.
- No more than 6 credits in sport and recreation courses may be counted toward the degree.
- No "life experience" credits may be counted toward the degree.

## Other Credit Requirements and Limitations, Bachelor of Science (Letters & Science Policy)

For the Bachelor of Science degree, as part of the 120 total credits needed, students must complete at least 36 credits in upper-division courses (numbered 300 or above) offered by the College of Letters and Science. At least 30 of these 36 credits must be from natural science curricular areas or other courses approved as advanced natural sciences (<http://uwm.edu/letters-science/advising/degree-requirements/ls-degree-requirements-fall-2013-current/fall-2013-bachelor-of-science-bs-degree-requirements/advanced-natural-science-approved-courses-list/>).

### Limitations:

- At least 90 credits of the 120 total credits must be completed in courses offered by the College of Letters and Science, allowing students to take as electives up to 30 credits in courses offered by other schools and colleges at UWM. There is no limit to the number of credits that may be taken in one department.
- No more than 6 credits from a single course outside the College may be counted toward the degree.
- A maximum of 12 credits in military science courses may be counted toward the degree as non-L&S electives.
- No more than 6 credits of field experience taken outside the College may be counted toward the degree.
- No more than 6 credits in sport and recreation courses (in the curricular areas SPT&REC or FITWELL) may be counted toward the degree.
- No "life experience" credits may be counted toward the degree.

## Eligibility for Prior Degree Requirements (Letters & Science Policy)

A student who declares their major within five years of entering the UW System as a degree candidate at any campus may choose to satisfy the requirements in force at the time of the declaration of major. Alternatively, a student may choose to satisfy any set of requirements that was in place at any time since they first entered the UW System as a degree-seeking student. Students are advised to consult with their advisor to determine whether an earlier set of requirements would be more advantageous.

Similarly, returning students who have been out of school for a long amount of time, should consult their advisor about which set of requirements may apply and which would be the best path for their specific circumstances.

## Second Baccalaureate Degree Requirements (Letters & Science Policy)

Students who already hold a bachelor's degree from another university, or from UWM but any school or college other than L&S, can earn a second

baccalaureate degree by satisfying all current requirements for that undergraduate degree in the College of Letters and Science.

Students who have been awarded a Bachelor of Arts by the UWM College of Letters and Science are not eligible for a second BA degree from L&S. Those who have earned a UWM Bachelor of Science in L&S are not eligible for a second L&S BS degree. Instead, students in this situation can add a postbaccalaureate major which will be certified on a UWM transcript.

The university wide general education requirements are assumed to be satisfied, but students must still fulfill these L&S-specific requirements:

- Math Proficiency
- Formal Reasoning
- English Proficiency
- International Requirement
- L&S Breadth Requirement
- L&S World Languages Requirement
- L&S in-residence Upper-division courses Requirement
- For the BS, the L&S Advanced Natural Sciences Requirement

Coursework previously completed, whether at UWM or elsewhere, may be used to satisfy requirements for the second bachelor's degree. Students must complete a minimum of 30 credits at UWM after the date upon which the first degree was awarded. If more than 30 credits are needed to complete all degree requirements, the last 30 credits must be completed at UWM. Of these 30 credits, at least 24 must be in courses offered through the College of Letters and Science. At least 20 of the 30 credits must be in upper-division courses, numbered 300 or above. Students must satisfy the current requirements for the chosen major.

### **Post-Baccalaureate Second Major or Additional Major Requirements (Letters & Science Policy)**

Students who already hold a bachelor's degree from UWM or from another university who wish to add an additional major to their credentials can do so by completing only the requirements for that major. Students are not required to complete an entire second degree. Students who opt for this path will leave UWM with certification that they have completed an additional major that can then be listed on a resume along with their original degree (e.g. "Bachelor of Arts with a psychology major from the University of Illinois, with a second major in sociology from UWM").

All credit and grade point average requirements currently in effect for the selected major are enforced. This means that students must complete a minimum of 15 advanced credits (numbered 300 or above) at UWM, and they must complete the version of the major in effect at the time of declaration. Students participating in the program must provide transcripts of all prior non-UWM work. Those with a prior degree are admitted with senior standing. Completion of the major is certified by the major department and recorded on an official UWM transcript.

### **Changing Majors (UWM Policy)**

Current UWM students with a major outside of the College of Letters and Science who wish to change to a major within the College of Letters and Science, may do so at any time as long as they are in good academic standing (minimum 2.0 GPA). Complete this form ([http://uwm.edu/letters-science/wp-content/uploads/sites/255/2016/05/Change\\_Of\\_Program\\_Form.pdf](http://uwm.edu/letters-science/wp-content/uploads/sites/255/2016/05/Change_Of_Program_Form.pdf)), schedule an appointment with a Letters and Science advisor by calling (414) 229-4654, and bring the form to your

appointment. Students should carefully note that degree requirements differ significantly between the different Schools and Colleges at UWM and a thorough discussion with an advisor is recommended before making this change, especially if the student is several years into their college career.

If you are not currently in good standing, you may still make an appointment with an advisor to discuss ways to raise your GPA and classes you can take prior to transferring into L&S.

### **Make a Program Change (Add, drop, withdraw, etc.) (Letters & Science Policy)**

Many changes can be made on a self-service basis directly in PAWS up to two weeks after the start of a class. After that point in time, students should consult the Letters and Science advising website (<http://uwm.edu/letters-science/advising/answers-forms/>) for instructions on how to make a program change; there are different instructions depending on how many weeks have past since the start of the semester.

### **Grade Appeal Policy (Letters & Science Policy)**

Students should review the Letters and Science policy for grievances and grade appeals (<http://uwm.edu/letters-science/advising/answers-forms/policies/appeal-procedure-for-grades/>).

### **Academic Probation and Academic Drop (UWM Policy)**

Students with a cumulative GPA below a 2.0 are placed on academic probation. While on academic probation, if the next semester's GPA remains below a 2.0, the student will be dropped for one semester. However, if the student's semester GPA is at least a 2.0 but the cumulative GPA remains below a 2.0, the student may continue attending UWM on probation. The probation status will be removed when the cumulative GPA rises to a 2.0 or higher.

### **Return from Academic Drop (UWM Policy)**

Students may appeal to return after being dropped by contacting their advisor. Appeals will only be considered if significant and extenuating non-academic reasons can be presented. Students may be asked to provide verifiable documentation of medically-related or other circumstances.

A student who is allowed to return will be placed into a final probation status. A student who is on final probation who earns a semester GPA of at least 2.0 will be allowed to continue on final probation until the cumulative GPA rises above a 2.0. However, if a student fails to earn at least a 2.0 semester GPA, they will be dropped for two years.

### **Incomplete Policy (Letters & Science Policy)**

Students should review the Letters and Science policy for incompletes (<http://uwm.edu/letters-science/advising/answers-forms/policies/incomplete-policy/>).

### **Concurrent Enrollment (Letters & Science Policy)**

Students should review the Letters and Science concurrent enrollment (<http://uwm.edu/letters-science/advising/answers-forms/policies/concurrent-enrollment-policy/>). Concurrent enrollment refers to taking classes at both UWM and another university during the same semester. Permission is required for Fall and Spring concurrent enrollment; permission is not required to concurrently enroll in more than one university during the summer.

## Repeat Policy (UWM Policy)

Students should review UWM's policy on repeats (p. 25).

## Academic Advising and Admissions Advising

The College of Letters and Science provides general academic advising for all students with a major in the College, particularly as it relates to campus' general education requirements and the College's degree requirements. We also provide specialized advising for pre-professional students (pre-med, pre-dental, pre-pharmacy, etc.) regardless if their major is in Letters and Science or not. Prospective students, including high school students and students seeking to transfer to a program in Letters and Science may also receive advising from our admissions counselors.

Upon admission, students are assigned an advisor in the College advising office. Academic advising is available Monday through Friday from 8:30 a.m. to 4:30 p.m. by appointment. Appointments outside of these times may be available and phone appointments are available for online students. The advising office (<https://uwm.edu/letters-science/students/current-undergraduate-students/advisors/>) is located on the first floor of Holton Hall. Current students should call (414) 229-4654 to schedule an appointment or use the Student Success Collaborative website (<https://uwmilwaukee.campus.eab.com/>) to make an appointment with your assigned advisor; online scheduling is only available if you already have a Letters & Science advisor assigned to you. Prospective students should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

When students declare a major, they will receive an additional faculty advisor located within the major department who will assist with requirements for that major. Students should read the "Declaration of Major" information on the website of the major that they are interested in. In some cases, the student will need to choose a faculty advisor as part of the declaration process.

All students are cautioned to consult their Letters & Science academic advisor AND their major advisor prior to each registration period to ensure they understand all requirements. Do not rely on pre-printed sample plans, as they are intended to be samples only and may not be right for your particular situation.

## Undergraduate Opportunities

### Online Coursework and Online Majors

The College of Letters and Science offers a variety of coursework online or in a blended format (partially online and partially in-person). No distinction is made between an "online" student and an "in-person" student; students register for any combination of course formats that they wish to take. Almost all students choose to take at least one online class during their college career. All coursework is taught by the same faculty members and is of the same rigor whether it is online or in-person.

As of January 2018, there are six majors and minors available entirely online: communication, history, Jewish studies, political science, psychology, and sociology.

### Independent Learning Program

The University of Wisconsin System offers online independent learning opportunities (<https://il.wisconsin.edu/>) to students at all campuses whereby they can earn college credit.

Letters and Science students may take advantage of this program in one of two ways:

1. Students who meet the following criteria may be able to take a UW Independent Learning course for free:

- enrolled full-time in either fall or spring semester
- will also enroll in one or more UW Independent Learning course during the first two weeks of the fall or spring semester
- will complete the UW Independent Learning course during fall or spring semester rather than completing it at-your-own-pace
- will be taking a class or classes through UW Independent Learning that are not offered by UWM online (for example, foreign language courses)

If you meet these criteria, you should petition to take a UW independent Learning course for free by contacting the Assistant Dean for Student Success and Academic Services, Jennifer DeRoche at [jderoche@uwm.edu](mailto:jderoche@uwm.edu). Include in your email your name, student ID, and information about the class(es) you seek to take through the UW Independent Learning program.

2. Students can also choose to pay out-of-pocket for UW Independent Learning courses if they are part-time students or wish to take an Independent Learning course during summer term or UWinteriM term. Letters and Science imposes a one-year time limit to complete any UW Independent Learning class to have it count for credit.

All students should consult with their advisor prior to registering for a UW Independent Learning course to make sure they understand any other restrictions related to repeating a course that was previously taken or our concurrent enrollment policy (<http://uwm.edu/letters-science/advising/answers-forms/policies/concurrent-enrollment-policy/>).

### Credit for Demonstrated Equivalent Preparation (non-foreign language)

Under certain circumstances, a department may grant credits toward graduation for knowledge or abilities attained through previous work, i.e., coursework or other systematic study as determined by the department. Although the College of Letters and Science places no limit on the number of credits that may be obtained in this way, departments, if they choose to do so, may set limits on the number of credits they will grant.

Departments other than foreign language departments may grant a student credits toward graduation for a University course in which they request and pass a special University examination. An examination for credit must be based on work equivalent to a course given at UWM, and the credits granted will be for the corresponding course. In order to justify the request for an examination for credit, the student must present evidence of previous preparation to the department. Permission for such examinations must be secured in advance from the Dean of the College upon recommendation of the department chair. Examinations for credit will be taken at a time specified by the department. In general, a student may not take such an examination if any previous enrollment in the target course appears on the student's record, whether or not the course was completed.

### Credit for Demonstrated Equivalent Preparation (retro credits for foreign language)

Foreign language departments may allow students to receive credit for prerequisite language courses at the 100 and 200 level upon completion

of higher-level entry courses in that language. For example, a student whose placement test score allows them to start at the Third-Semester Spanish, for example, would receive the credits for First-Semester Spanish and Second-Semester Spanish if they successfully complete Third-Semester Spanish with a B or better. As a general policy, a grade of B or above is required, but individual departments may set a higher grade requirement. Only the grade in the completed course is computed into the grade point average; no GPA points are calculated for the retro credits. A student who earns below the required grade in the starting course becomes, thereafter, ineligible for "retro" credits in the language involved.

The number of credits that can be earned in this way is limited to a maximum of 16 in any one language.

Credits granted for the courses skipped will be equal to the credit value of those course(s) or a maximum of 4 credits for each, whichever is smallest. Students may not be granted "retro" credits for courses at the 300 level and above, except where the fourth-semester course in a regular language sequence is numbered 300 or above.

In the foreign languages, retro credits also may be granted to transfer students under the following circumstances:

- Retro credits granted by another institution will be accepted at UWM if they were granted based on a course that generates retro credits at UWM and if the student has earned the grade that is required at UWM.
- A transfer student coming from an institution that does not grant retro credits but who took a foreign language course that transfers as a qualifying course at UWM may apply for retro credits if the student satisfies UWM standards for receiving retro credits.

In both cases, the number of retro credits awarded will be limited to the number of credits students at UWM are granted for each prerequisite course.

Students who want more information should contact the chair of the appropriate language department.

## First-Year Seminars

The First-Year Seminar Program gives freshmen the opportunity to participate in a small learning community during their first semester, helping to ease the transition to college.

Limited to just 20 first-year students, each seminar provides a unique opportunity for students to get to know their professors and fellow students. In this small seminar setting, the professor serves as a mentor, coaching and helping students to achieve success. First-year seminars emphasize the development of collaboration, teamwork, written and oral communication skills, creative and analytical thinking, and skills for college success.

Seminars are offered in a wide variety of interest areas across the natural sciences, social sciences, and humanities. Most first-year seminars are offered for three credits and can be applied to degree requirements. See the Schedule of Classes (<https://www4.uwm.edu/schedule/>) for a list of first-year seminars taught in the current semester.

For more information, contact your advisor or our admissions counselors at (414) 229-7711 or [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Independent Study

Certain departments allow qualified students to register for independent study. Credits are awarded for academic activities pursued outside the formal classroom setting under the supervision of a member of the Letters and Science faculty or instructional academic staff. The activities may include reading, research, or special projects. In most departments, independent study is offered at the lower (course number 199) and upper levels (course number 699), although both levels are not available in all departments.

In order to apply for lower-level independent study, students must have a 2.5 GPA or above on all credits attempted at UWM. The upper-level independent study course carries a prerequisite of junior standing and a 2.5 UWM GPA. Departments may opt to set higher GPA prerequisites. To ascertain class standing and cumulative GPA for new transfer, special, and summer-only students, a transcript of all previous college work must be submitted. Some independent study courses may have departmental prerequisites in addition to these college-wide prerequisites. Departments do not have the authority to waive college-wide prerequisites. To see if a particular department offers independent, see that department's course listings in this catalog.

Students interested in an independent study should work with the individual they have chosen as their supervising instruction to prepare a study proposal describing the plan of study. The study proposal must be approved by the department chair and forwarded to the Office of Student Academic Services via your Letters and Science advisor.

## Internships and Experiential Opportunities

Students are strongly encouraged to enhance their classroom knowledge with experiential knowledge gained through work, volunteer, and internship experiences. These experiences are vital to career exploration and for building a resume prior to graduation.

Students find internships through a variety of sources: some use their own network to find opportunities, some majors provide assistance or host a job board, and some organizations will post opportunities with the UWM Career Planning and Resource Center (<http://uwm.edu/careerplan/>). Students should explore all avenues, including speaking with both their major advisor and their Letters and Science advisor, to find experiential learning opportunities.

Some internships may be available for college credit or for pay, or a combination of both. Students should inquire of all details and arrange for proper registration for credit if that is an option with their major advisor.

## Research Experience (Office of Undergraduate Research (OUR))

Many programs in the College of Letters and Science work closely with the Office of Undergraduate Research (OUR) to offer research experiences for undergraduates. Research spans the natural sciences, social sciences, and humanities and highly-motivated students can contribute to the creation of knowledge, sometimes even achieving professional publication alongside of faculty members.

As early as the first year in college, students can work side-by-side with faculty members and graduate students on research projects. Opportunities can include credit, pay, or a combination of both.

OUR staff will help students identify possible research projects and arrange for students to meet with the faculty members. Students can browse current opportunities at their website (<https://uwm.edu/our/>).

### Certificate Programs

Certificates are similar to minors in terms of the number of credits required. Where a minor consists of all coursework from the same department, a certificate draws on classes from multiple areas all centered around a common theme such as Asian Studies.

All certificate programs are open to current students pursuing a degree in any area, including areas outside of the College of Letters and Science. Some certificates are also open to non-degree seeking students or students who already hold a bachelor’s degree either from UWM or from another university. Interested students should check with the director of the certificate program to learn about any prerequisites or other requirements.

### Scholarships

The College as well as its many individual programs and departments have a limited number of scholarships and awards for high-achieving students. Students should visit our scholarship page (<http://uwm.edu/letters-science/scholarships/>) to learn more about available scholarships and deadlines. In general, new freshmen scholarships are given out between December and February for the following Fall (e.g. January of 2018 for a Fall 2018 start date). Many continuing student scholarships are given out 4 to 6 months ahead of the term in which the student will receive the funding (e.g. April of 2018 for the Fall 2018 semester).

## African and African Diaspora Studies

African and African Diaspora Studies is the discipline that studies the cultures, societies, and political economies of people of African descent in the United States and throughout the world. African and African Diaspora Studies uses both quantitative and qualitative methods of inquiry to describe, explain, evaluate, and predict the lived experiences of people of African descent. The major in African and African Diaspora Studies thus educates students in the best traditions of the liberal arts and sciences, providing them with a sound knowledge of the past, present, and future roles of people of African descent in structuring life in diverse societies. The department’s courses are designed to satisfy the needs of students who desire to specialize in African and African Diaspora Studies or whose career objectives make it desirable to have knowledge of the people of African descent in the United States and throughout the world.

Students thinking of majoring or minoring in African and African Diaspora Studies are encouraged to contact the department for assistance at [uwm.edu/african-diaspora-studies/contact-us](http://uwm.edu/african-diaspora-studies/contact-us) (<http://uwm.edu/african-diaspora-studies/contact-us/>).

### Programs

- African and African Diaspora Studies, BA (p. 834)
- African and African Diaspora Studies, MA (p. 837)
- African and African Diaspora Studies, Minor (p. 839)
- African and African Diaspora Studies, PhD (p. 839)

## African and African Diaspora Studies, BA

African and African Diaspora Studies examines cultures, societies and political economies of peoples of African origin and descent. This includes not just peoples of the African continent but everyone with African roots around the globe, often referred to as the African diaspora. The study of African and African Diaspora Studies is relevant to everyone, regardless of race, gender, ethnicity, nationality or religion. You will find value in the program if you are interested in working within the U.S. or internationally in health services, education, journalism, social work, politics, law, business, the non-profit sector, trade, the arts and government agencies.

Through coursework in history, literature, political science, economics, and more, students will examine a variety of issues and themes through an African-centric lens. Along the way, they will be honing their skills in communication, information analysis, and research - all skills cited by employers as critically important in their hiring process.

### Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

#### *Part B*

Course designated as QL-B; may be completed through a major-specific course requirement

#### **Arts**

Select 3 credits 3

#### **Humanities**

Select 6 credits 6

#### **Social Sciences**

Select 6 credits 6

#### **Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

#### **UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

#### **UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

### College of Letters & Science Requirements

#### **I. English Composition Requirement**

Students must satisfy the English Composition Requirement with one of the following options:

1) Completing ENGLISH 102 with a grade of C or higher; or

2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or

3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

## II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	

PHILOS 211	Elementary Logic
POL SCI 390	Political Data Analysis
POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

## III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

## IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

## V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12

**Social Sciences**

Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. \* 12

**Natural Sciences**

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. \* 12

**Cultural Diversity**

Complete 3 credits in a course with Cultural Diversity (CD) designation. \*\* 3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

**VI. The Major**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement**

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

**VII. The Minor**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

**African and African Diaspora Studies Major Requirements**

All majors must be accepted by the department, and their programs must be arranged with a departmental advisor. To be retained as majors, students must maintain a GPA of 2.0 or better in African and African Diaspora courses attempted at UWM. In addition, students must attain a 2.0 GPA in all major courses attempted, including any transfer work. A total of 30 credits is required to complete the major; 15 credits at the 300 level or above must be taken in residence at UWM.

Code	Title	Credits
<b>African and African Diaspora Studies Requirements</b>		
AFRIC 215	Introduction to Black Social and Cultural Traditions	3

AFRIC 220	Introduction to Statistics in African and African Diaspora Studies <sup>1</sup>	3
AFRIC 228	Introduction to Black Political Economy	3
AFRIC 301	Research Methods in African & African Diaspora Studies <sup>2</sup>	3

Select 18 elective credits in African and African Diaspora Studies. At least 12 credits must be at the 300-level or higher. One course must fulfill the Research Requirement (see below). No more than 6 credits may be at the 100-level. <sup>3</sup>

**Courses that fulfill the Research Requirement**

Select one of the following:

AFRIC 300	Urban Violence	
AFRIC 319	African American Urban History	
AFRIC 320	Black Cultures in Latin America and the Caribbean	
AFRIC 321	Black Workers in the 21st Century	
AFRIC 326	Economic Problems of Black Business	
AFRIC 329	Economic Growth and Sustainable Development in Africa	
AFRIC 341	Black Politics and City Government	
AFRIC 344	Global Black Social Movements	
AFRIC 352	Extended Families in Black Societies	
AFRIC 372	African-American Literary Movements: The Harlem Renaissance	
AFRIC 414	The Black Woman in America, Africa, and the Caribbean	
AFRIC 418	Race, Class, and Gender in Latin America and the Caribbean	
AFRIC 699	Independent Study <sup>4</sup>	

**Total Credits** **30**

<sup>1</sup> With departmental approval, the statistics requirement may be satisfied with another statistics course.

<sup>2</sup> With departmental approval, the research methods requirement may be satisfied with another methods course.

<sup>3</sup> AFRIC 100 is highly recommended. Though not required, 100-level courses prepare students for higher-level African and African Diaspora courses. No more than 6 credits of 100-level courses can count toward the major.

<sup>4</sup> With departmental approval, students can complete 3 credits in AFRIC 699 that involves completion of a research experience designed according to departmental standards.

**Cross-Listed Courses**

The following courses offered by other departments may be used to satisfy the requirements of the undergraduate major or minor in African and African Diaspora Studies.

Code	Title	Credits
ENGLISH 381	World Literatures Written in English: (African Fiction)	3
ENGLISH 517	Studies in African-American Literature:	3
ENGLISH 631	Seminar in African-American Literature:	3
FILM 301	Film Art for Non-Majors (Radical Black Film)	3

PORTUGS 225 Understanding Brazil: (African Presence in Brazilian Culture and Literature) 3

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## African and African Diaspora Studies, MA

*Effective Fall 2022, the African and African Diaspora Studies MA has suspended admission.*

This interdisciplinary program is designed to give graduates an understanding of the African and African diasporic experiences in both local and global contexts and incorporate culturally distinct perspectives in analysis of social and cultural phenomena. Upon completion of the program graduates will be able to analyze and compare knowledge systems and practices within African and African diasporic populations. MA graduates will gain skills in critiquing policies with respect to impacts upon communities of African descent both currently and in historical contexts. The MA will teach students to reflect upon and apply awareness of African and African diasporic experiences and theory to individual professional practices, communications, and interactions. Furthermore, MA graduates will gain quantitative and qualitative methodological skills for identifying and examining challenges affecting people of African descent as well as strengths and resources within African and African diasporic communities. Finally, students will utilize theoretical frameworks from Black Studies to design research-based strategies, programs, and recommendations to address challenges affecting people of African descent.

## Admission Requirements

*Effective Fall 2022, the African and African Diaspora Studies MA has suspended admission.*

## Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

## Credits and Courses

The MA in African and African Diaspora Studies is designed to be completed in two years and consists of 30 graduate-course credits. These 30 credits comprise 24 credit hours of advanced coursework, followed by 6 credit hours of thesis or project work. At least 15 credits of overall coursework must be taken at the 700 level or above.

Code	Title	Credits
<b>Core Coursework</b>		<b>12</b>
AFRIC 700	Foundations and Theories in African & African Diaspora Studies	
AFRIC 701	Theories and Methods in Empirical Research in African & African Diaspora Studies	
AFRIC 705	Classic Works: Intellectual Production in Africa and the Diaspora I	
AFRIC 708	Black Literary Theory and Cultural Studies	
<b>Additional Coursework</b>		<b>12</b>
<i>Complete 12 credits from the following list:</i>		
AFRIC 300	Urban Violence	
AFRIC 311	African Religious Thought and Social Organizations	
AFRIC 319	African American Urban History	
AFRIC 321	Black Workers in the 21st Century	
AFRIC 322	Order and Disorder: The Quest for Social Justice	
AFRIC 325	Africa/China Relations	
AFRIC 326	Economic Problems of Black Business	
AFRIC 329	Economic Growth and Sustainable Development in Africa	
AFRIC 344	Global Black Social Movements	
AFRIC 350	The Black Family	
AFRIC 450	Cultural Transmissions: Black Africa and Black America	
AFRIC 451	Rites of Passage in Black Societies	
AFRIC 497	Study Abroad:	
AFRIC 545	Raising Children, 'Race-ing' Children	
AFRIC 565	Selected Texts/Topics in African & African Diaspora Studies:	
AFRIC 706	Classic Works: Intellectual Production in Africa and the Diaspora II	
AFRIC 709	Critical Literary Theory II: Modern Concepts in the African World	
AFRIC 799	Graduate Independent Study	
AFRIC 800	Introduction to Qualitative Research Methods in African & African Diaspora Studies	
AFRIC 804	Qualitative Interviewing and Grounded Theory	
AFRIC 812	Political Economy: Conceptual	
AFRIC 814	Public Policies, Development, and Underdevelopment in Africa & the Diaspora	
AFRIC 816	Political Economy of Development in African Countries	
AFRIC 817	Political Economy of Development in African Countries II	
AFRIC 818	Race Matters: Government and Politics in Latin America and the Caribbean	
AFRIC 820	Political Economy of Income and Wealth Inequality	

AFRIC 821	Race and Inequality	
AFRIC 834	Seminar on Slavery	
AFRIC 836	Comparative Social Institutions in African World Communities	
AFRIC 837	Memory and Tradition: Identity-Making and Memory in the African Diaspora	
AFRIC 840	Healing Traditions in the African Diaspora	
AFRIC 845	Race/Ethnicity and the Psychology of Oppression	
AFRIC 851	African-American Literary Theory and Criticism	
AFRIC 852	Folklore in the African World:	
AFRIC 862	Development of African-American Children in Urban and Rural Areas	
AFRIC 865	The Quest for Pan-Africanism	
AFRIC 866	Black Power Reconsidered	
AFRIC 867	Problems in African American Urban History	
AFRIC 868	Black Intellectuals and the Public Sphere	
AFRIC 880	Seminar on Issues in African & African Diaspora Studies:	
<b>Thesis Research or Project</b>		<b>6</b>
<b>Total Credits</b>		<b>30</b>

## Additional Requirements

### Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. The Graduate Committee assigns a faculty advisor as a necessary prerequisite to admission.

### Time Limit

Student must complete all degree requirements within five years of initial enrollment. It is expected that a full-time student will normally complete all of the requirements for the degree within two years.

### Exit Requirement Thesis

Students must prepare and defend a formal thesis reporting the results of their research.

### Project

Students will, in consultation with their major professor, develop a significant research project, rather than a formal thesis as would be appropriate for a student continuing on to a PhD.

### Comprehensive Exam

Students may choose to take the comprehensive exam as an option for attaining the exit requirement for an MA degree. Students seeking the option of using the Comprehensive Exam for the MA exit requirement are still required to fulfill the remaining six credits from graduate courses in African and African Diaspora Studies instead of the thesis or project credits.

## African and African Diaspora Studies, Minor

African and African Diaspora Studies examines cultures, societies and political economies of peoples of African origin and descent. This includes not just peoples of the African continent but everyone with African roots around the globe, often referred to as the African diaspora. The study of African and African Diaspora Studies is relevant to everyone, regardless of race, gender, ethnicity, nationality or religion. You will find value in the program if you are interested in working within the U.S. or internationally in health services, education, journalism, social work, politics, law, business, the non-profit sector, trade, the arts and government agencies.

Through coursework in history, literature, political science, economics, and more, students will examine a variety of issues and themes through an African-centric lens. Along the way, they will be honing their skills in communication, information analysis, and research - all skills cited by employers as critically important in their hiring process.

### Requirements

The purpose of the minor is to expose students to a range of concepts, theories and phenomena that ground the discipline of African and African Diaspora Studies. Students are required to take 18 credits, 9 of which must be completed at or above the 300 level. Up to 6 credits at the 100 level may count toward the minor. Nine credits at the 300 level or above must be taken in residence at UWM. The College of Letters and Science requires that students attain at least a 2.0 GPA on all minor credits attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

### Cross-Listed Courses

The following courses offered by other departments may be used to satisfy the requirements of the undergraduate major or minor in African and African Diaspora Studies.

Code	Title	Credits
ENGLISH 381	World Literatures Written in English: (African Fiction)	3
ENGLISH 517	Studies in African-American Literature:	3
ENGLISH 631	Seminar in African-American Literature:	3
FILM 301	Film Art for Non-Majors (Radical Black Film)	3
PORTUGS 225	Understanding Brazil: (African Presence in Brazilian Culture and Literature)	3

### Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive

as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact let-sci@uwm.edu.

## African and African Diaspora Studies, PhD

*The African and African Diaspora Studies PhD program will accept applications in the fall of 2023 for admission in fall 2024.*

The PhD in African and African and Diaspora Studies is grounded in the axiomatic assumption that, as the imperatives of global integration significantly transform human relations, the twenty-first century will witness an exponential expansion of the institutional delivery of Africological knowledge. Across the planet today, Africa remains the only continent with a vast store of natural resources (e.g., uranium, oil, copper, nickel) that are underutilized. With the demand for energy increasing exponentially worldwide, knowledge and understanding of the cultures and political economies of African countries and societies clearly are in the self-interest of the global community. Because of this twenty-first century imperative, the Department of African and African and Diaspora Studies has designed the PhD degree around two concentrations: Political Economy and Public Policy, and Culture and Society: Africa and the African Diaspora.

The fields of concentration are the substantive core of the PhD program. Political economy entails the normative and empirical relations of political and economic phenomena in given sociocultural contexts. Public policy entails the making of binding, authoritative decisions that produce, allocate, reproduce, and reallocate societal resources. Political, economic, cultural, and social elements interact continually in every political economy, and public policy substantially frames their patterns of interaction. Through a range of research methods and techniques, the concentration in political economy and public policy grounds students in local, national, and transnational political economies and public policies. Relevant courses and seminars in such fields as economics, political science, sociology, urban planning, geography, and history will be utilized.

All cultures share in common at least eight attributes. These are species life, species being, language, religion, food, literature-art-science-technology, institutions, and transgenerational memory. Systematic comparisons of these elements of cultures in Africa and in the African Diaspora worldwide afford sound explanations of, and novel insights into, the behaviors of Africans and their descent. This concentration in comparative cultures will enable students to scrutinize rigorously exchanges, admixtures, fusions, retentions, and disappearances of cultural elements in Africa and the African Diaspora in regard to their contemporary significance. Relevant courses and seminars in English, foreign languages and literatures, history, and sociology will complement those offered in the department.

### Admission Requirements

*The African and African Diaspora Studies PhD program will accept applications in the fall of 2023 for admission in fall 2024.*

## Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

## Admission

To be considered for admission, an applicant must meet UWM Graduate School requirements for admission plus the departmental requirements listed below. A master's degree is not a prerequisite for this Ph.D. program.

1. Possession of an overall undergraduate grade point average of 3.33 (B+)
2. Submission of three letters of recommendation from individuals who are familiar with the applicant's academic work
3. Submission of a writing sample (10-15 pages) of the applicant's written work, signaling one's aptitude for graduate study

The GRE is recommended but not required to be considered for admission to this Ph.D. program.

Normally, students are admitted only for the fall semester. However, in extraordinary circumstances, a student may be permitted to begin Ph.D. studies in the spring semester.

Admission to the graduate program is based on a careful review of the applicant's academic qualifications and is highly competitive. Successful candidates usually have a high grade point average (GPA) in their undergraduate majors, as well as overall. There are, of course, a variety of factors that come into play over the years of an applicant's studies, and so the admissions committee will consider closely a student's academic profile, as well as accomplishments that are germane to their application.

*It is the policy of the Graduate Faculty that "Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses.*

*The student is expected to satisfy deficiency requirements within three enrolled semesters. No course credits earned in making up deficiencies may be counted as program credits required for the degree."*

## Language or Mathematics/Statistics Proficiency

Students are expected to enter the Ph.D. program with proficiency in a language other than English and/or in mathematics/statistics. Students may satisfy the language requirement by passing a translation examination administered by a faculty member, or by completing, with a grade of C or better, the final course in a four-semester sequence in a language approved by the department. Native speakers of a departmentally approved language may petition the graduate advisor for an exemption to the foreign language requirement.

Proficiency in mathematics/statistics is indicated by completion of two courses at the upper-division level (numbered 300 and above or requiring junior standing) with at least a B average. Students who have not completed this requirement in the context of their undergraduate (or master's degree) studies must take courses to satisfy the requirement during their Ph.D. studies.

Credits earned in satisfying this requirement do not count toward the required credits for the Ph.D. degree. The language or mathematics/statistics proficiency requirement must be completed prior to the

doctoral preliminary examinations. Students are encouraged strongly to have the proficiency requirements completed by the time they take the comprehensive examination.

## Credits and Courses

The PhD degree requires completion of at least 54 graduate credits—48 credits of coursework, and 6 dissertation credits. Students may count up to a maximum of 6 credits in dual level undergraduate/graduate courses toward the degree. Precise numbers of credits and actual course requirements will be determined after review of the applicant's previous coursework.

## Required

During the first three semesters in the program, the following courses in Forms of Reasoning are required:

Code	Title	Credits
<b>Core Courses</b>		
AFRIC 700	Foundations and Theories in African & African Diaspora Studies	3
AFRIC 701	Theories and Methods in Empirical Research in African & African Diaspora Studies	3
AFRIC 705	Classic Works: Intellectual Production in Africa and the Diaspora I	3
AFRIC 708	Black Literary Theory and Cultural Studies	3
<b>Area of Concentration/Electives</b>		<b>36</b>
<b>Dissertation</b>		<b>6</b>
AFRIC 990	Dissertation Research	
<b>Total Credits</b>		<b>54</b>

## Fields of Concentration

Following completion of the core courses, students must select one of two concentrations. The Department of African and African Diaspora Studies has been structured conceptually and empirically around two fields of concentration: Political Economy and Public Policy, and Culture and Society: Africa and the African Diaspora. Students will select one of these concentrations by the end of their comprehensive exams and will work with their faculty advisor to develop an appropriate program of study. In consultation with their faculty advisor, students may elect to take a concentration of 6 to 9 credits outside of the Department.

## Additional Requirements

### Major Professor as Advisor

Upon admission to the program, students are required to consult with the Director of Graduate Studies about the department's expectations of them, as well as elucidate their own expectations of the department. Soon afterward, students must secure individual advisors, drawn from the department's faculty.

### Residence

The student must complete at least half of the graduate credits required for the Ph.D. in residence (<http://uwm.edu/graduateschool/doctoral-requirements/#residence>) at UWM in doctoral status. In addition, the student must complete at least 8 graduate credits in each of two consecutive semesters, or 6 or more graduate credits in each of three consecutive semesters, exclusive of summer sessions.

## The Comprehensive Examination

Prior to the end of each entering student's third semester of enrollment, they are required to take and pass the department's graduate student comprehensive examination (written and oral) in order to continue their studies toward the Ph.D. degree. There are no exceptions to this requirement. The comprehensive examination is administered in the spring and fall semesters of each academic year.

The examination will be administered by three (3) members of the department's faculty, who will grade the written work and conduct the orals. Members of the examination committee rotate each academic year. Students must pass the written examination to be eligible for the oral examination.

Students who pass the comprehensive examination are permitted to proceed toward the Ph.D. degree. The comprehensive examination is not repeatable. Failing the examination will result in a recommendation by the department to the Graduate School for the student's dismissal from the doctoral program, at which point the student may choose to continue in the MA track toward completion of the requirements for the MA degree in African and African Diaspora Studies.

Upon passing the exam, students continue to take courses in the concentrations in preparation for the doctoral preliminary examinations and independent research.

## The Doctoral Preliminary Examinations

Students will take written and oral doctoral preliminary examinations in two of their three fields of concentration, which they will select.

To be eligible to take the preliminary examinations, which are administered in the fall and spring semesters of each academic year, students must:

- Be registered.
- Have an overall GPA of at least 3.0 (B), at the time of the examination.
- Have completed all coursework—there shall be no incompletes (Is) at the time of the examination.
- Have satisfied the foreign language or mathematics/statistics requirement.
- Have made one presentation to the department's faculty as a whole in the Departmental Faculty Colloquium Series. The purpose of the presentation is to: refine a student's knowledge of a given subject; socialize students in the rigors of making scholarly presentations on one's research before future peers; and prepare students for the demands of interviews for future jobs. A student will not be judged to either have passed or failed the presentation. Rather, they will be given constructive comments concerning the substance and style of their presentation. Generally, each colloquium will last for two (2) hours.
- Have fulfilled all residency requirements.
- Have secured, in addition to their primary departmental advisor, a secondary advisor from outside the department should they plan to use their extra-departmental field of concentration as one of the two written-examination fields.

Those who pass the written examinations with a grade of at least a B on each shall then proceed to take the oral examination. Should a student fail one of the two written examinations, they upon petition to the Director of Graduate Studies and the Graduate Studies Committee may be permitted to retake it at the next scheduled examination cycle.

Students who fail both written examinations will not be permitted to retake them.

*Failure of both written examinations, or the retake of a written examination, or the oral examination, will result in a recommendation to the Graduate School for the student's academic dismissal. Students who pass the preliminary examinations shall proceed to prepare a dissertation prospectus.*

The preliminary examinations must be taken within five years of enrollment in the Ph.D. program.

A student's dissertation committee shall consist of four (4) graduate faculty members, including their major professor. At least three (3) of the four members must be from the Department of African and African Diaspora Studies.

## Dissertation Prospectus (Proposal Hearing)

Prior to undertaking research for the dissertation, a student is required to prepare a dissertation prospectus, with the advice and consent of their advisor and Dissertation Committee. Acceptance of the dissertation proposal establishes an agreement between the student and the Dissertation Committee as to the nature and scope of the research to be conducted, and the procedure for completing the dissertation. Prior to the Dissertation Committee's approval of the prospectus, research involving the use of human subjects must receive the approval of the Institutional Review Board.

## Dissertator Status

Specific requirements which must be completed before a doctoral student qualifies for dissertator status are described on the Graduate School Doctoral Requirements (<http://uwm.edu/graduateschool/doctoral-requirements/>) page.

## Dissertation

The dissertation is a major piece of original research representing a substantial contribution to an existing body of knowledge. The original research findings embodied in the dissertation should be acceptable for publication in a refereed journal. The student's advisor and Dissertation Committee provide guidance in completing the dissertation. Once a student's dissertation has been approved by their advisor and Dissertation Committee, the document, in approved Graduate School format, is ready to be filed with the Graduate School.

## Time Limit

It is expected that students entering the program with a baccalaureate degree should normally complete their Ph.D. degree within six (6) years. However, because circumstances beyond a student's control may prevent completion of requirements according to this timeline, students will be granted a maximum of ten years to complete the degree.

## American Indian Studies

The American Indian Studies Program offers an undergraduate major through the Committee Interdisciplinary Major and an undergraduate certificate in American Indian Studies. These academic programs draw primarily on courses from anthropology, history, literature, sociology, and education to help students develop a depth of knowledge about — and methodological skills for studying — the life experiences, culture, and languages of the native peoples of the Americas. Although interdisciplinary, American Indian Studies encompasses a distinct body of knowledge. The program's faculty and staff members are involved

in ongoing research and publication in this discipline as well as related academic disciplines.

There are two distinct features that distinguish UWM's academic programs in American Indian Studies. The Electa Quinney Institute (<https://uwm.edu/eqi/>) is a campus resource that facilitates the development of new programs, services, and research opportunities in

partnership with the American Indian community. UWM also is home to more American Indian faculty than any other school in the UW System.

Michael Wilson	Associate Professor of English	PhD	Cornell University	✓	

## American Indian Studies, Undergraduate Certificate

The American Indian Studies program provides students with a thorough understanding of the Native American tribal nations in North America and their influence and impact in today's culture and society.

Our program embraces everyone interested in understanding the treaties, history, cultures, and politics that shaped the formation of North America and continue to have relevance today. While UWM does attract a number of students with Native American ancestry to the program, our classes are full of people from all types of backgrounds. They all share a common interest in understanding the past in order to impact the present. There are 565 tribal nations in the U.S., and 12 are located in the state of Wisconsin. UWM is a national driving force in this academic area because of our location; we have the most Native American faculty of any other UW school in Wisconsin.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

## Eligibility

The American Indian Studies Certificate is intended to enhance a bachelor's degree. The certificate is available to all students seeking a bachelor's degree from UWM and to students who previously have received a bachelor's degree from UWM or any other accredited college or university.

## Requirements

To obtain the certificate, the student must complete, with a minimum grade point average of 2.0, at least 18 credits in approved American Indian Studies courses, of which 12 must be earned in residence at UWM. Of these 12 residence credits, nine must be taken at the 300 level or above. Twelve of the 18 required credits must be in the College of Letters and Science, with at least 6 of these at the 300 level or above. No more than 9 credits from any one department may count toward the certificate. A maximum of 6 credits of independent study may count toward program requirements. Courses for the certificate may not be taken on a credit/no credit basis.

Independent study courses focusing on the American Indian experience may be accepted with the approval of the Certificate Program Coordinator. If the core course is not offered in the years an undergraduate student is pursuing the certificate, the student can petition the Certificate Program Coordinator to accept another course in its stead. Other courses not on this list but relevant to the study of American Indians may be accepted with the approval of the Certificate Program Coordinator.

Credits earned at other institutions equivalent to courses in the certificate program may be accepted in partial fulfillment of the program requirements, subject to review by the Certificate Program Coordinator. Students currently enrolled at UWM who have fulfilled some of the program's requirements prior to the program's approval may have their credits applied retroactively to the certificate program.

The following are required:

Code	Title	Credits
<b>Core</b>		
AIS 101	Introduction to American Indian Studies	3
<b>Electives</b>		
Select 15 credits from the list of approved courses <sup>1</sup>		15
<b>Total Credits</b>		<b>18</b>

<sup>1</sup> Students may petition the AIS Coordinator for approval of appropriate courses not on the approved list.

## Approved Courses

Code	Title	Credits
AIS 105	Anishinaabe Ethnobotany: Plants in Anishinaabe Culture	3
AIS 106	Anishinaabe Ethnobotany: Plants in Anishinaabe Philosophy	3

AIS/HIST 475	American Indian History, Law, and Government	3
AIS/ENGLISH 520	Studies in American Indian Literature:	3
AIS/ENGLISH 632	Seminar in American Indian Literature:	3
ANTHRO 213	American Indian Peoples of Wisconsin	3

## Ancient and Modern Languages, Literatures, and Cultures

The Department of Foreign Languages and Literature, formed in 1996, teaches modern and ancient languages, their literature, and the linguistic and philological study of these languages. The broad departmental structure encourages the development of cross-disciplinary academic undertakings.

The University's Foreign Language course requirements may be satisfied through coursework in the following curricular areas:

### Arabic

Arabic courses may be of particular interest to students in the Certificate in Middle Eastern and North African Studies, the International Studies major, the Linguistics major, and the Global Studies degree program. A minor in Arabic is also offered.

### Chinese

Courses in Chinese also may be of interest to students pursuing the Asian Studies Certificate, the International Studies major, and the Bachelor of Arts in Global Studies. A Chinese major can be completed through the Committee Interdisciplinary major; a Chinese minor is also available.

## Classics

The Classics program offers instruction in the ancient Greek and classical Latin languages and literature and in the civilizations of Greece and Rome. Courses offered in the area of classical civilization do not require a knowledge of Greek or Latin.

Students planning to pursue graduate study in classics and related disciplines, or teaching certification in Latin, should consult with the Classics Program coordinator early in their undergraduate career. Students interested in a Classics major may also want to consider the Ancient Mediterranean Studies Certificate.

## German

Students who have had no previous training in German should enroll in German 101. Those who have studied German in high school should take the placement exam in German, administered by the Testing Center, before enrolling; the exam is required for those who have had two or more years of high school German. After consultation with the department, a student may enroll in a course one level higher or lower than the one recommended by the placement examination. Both a German major and a minor are available.

## Hebrew

A four-semester sequence in Hebrew is offered by the department. All courses are available online. There is also an accompanying Jewish Studies program offered by the College of Letters and Science.

## Japanese

Courses in Japanese may be of interest to students pursuing the Asian Studies certificate, the International Studies major, and the Bachelor of Arts in Global Studies. A Japanese major can be completed through the Committee Interdisciplinary major; a minor is also available.

## Korean

Courses in Korean may be of interest to students pursuing the Asian Studies Certificate and/or the International Studies major. The Department offers a four-semester sequence in Korean.

## Slavic Languages

The Slavic Languages program offers coursework in Polish and Russian. Through the study of these languages, students gain exposure to the literature and culture of the eastern European areas in which these languages are spoken. The program offers a major in Russian. In addition, the Slavic languages are an integral part of the Russian and East European Studies Certificate Program.

## Programs

- Business German, Minor (p. 845)
- Chinese, Minor (p. 846)
- Classics, BA (p. 847)
- Classics, Minor (p. 851)
- Committee Interdisciplinary Major, BA: Chinese Language and Culture (p. 852)
- German, BA (p. 856)
- German, Minor (p. 859)
- Korean Studies, Minor (p. 861)

• Russian and East European Studies, Undergraduate Certificate (p. 861)

• Russian, BA (p. 863)  
• Russian, Minor (p. 866)

## Faculty

Jason Williamson	Senior Lecturer (German)	PhD	University of Texas at Austin		
Xue Xia	Senior Lecturer (Chinese)	PhD	University of Hawaii		

## Business German, Minor

German is the third most studied foreign language in the world, and, at UWM, we offer more than just instruction in language. In addition to German fluency, students learn how to apply that fluency by studying German culture, literature, customs, and history.

Wisconsin has a strong German heritage and many students find it both professionally useful and personally satisfying to explore the State's German influences. Many may come into college having already taken German in high school. Students can take a placement test to determine their starting course and may be able to earn retroactive credits if they place above the level of GERMAN 101.

Fluency in German can provide a career advantage in all types of industries where Germany and other German-speaking countries are leaders: finance, marketing, manufacturing, politics, government work, electronics and technology, chemical and biochemical, environmental science, and architecture. At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of German in order to successfully apply their fluency.

A general minor in German is available, and there is a minor in Business German. The Business German minor is ideal for students interested in German business concepts, perhaps in preparation for an international business career. In addition to German language and culture classes, students take accounting or marketing classes from UWM's Lubar School of Business.

Students are encouraged to participate in UWM's well-established study abroad (<http://uwm.edu/cie/study-abroad/>) program. Destinations are available in more than 70 sites around the world and vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

## Requirements

The College of Letters and Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. Substitutions for some course requirements are possible and may include internships with firms doing business in German-speaking countries. Students also have the option of completing

a Certificate in Business German offered by the *Goethe Institut*. For further information, consult the German Program Coordinator.

The business German minor consists of a minimum of 21 credits. At least 12 of these credits must be at the 300 level or above and taken in residence at UWM.

Code	Title	Credits
GERMAN 204	Fourth-Semester German	3
GERMAN 331	German Grammar in Practice	3
GERMAN 332	Presentation and Composition	3

Select one of the following:		3-4
BUS ADM 201	Introduction to Financial Accounting	
BUS ADM 330	Organizations	
BUS ADM 360	Principles of Marketing	
<b>Total Credits</b>		<b>21</b>

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Chinese, Minor

Each year more and more students are joining the ranks of the 1.4 billion people who speak Mandarin, the official language of the People's Republic of China and of Taiwan. Many students now can find Chinese instruction in their high schools. At UWM, students can continue their high school studies or begin from the first semester of Chinese language instruction. We offer eight semesters of Chinese language, and equally as important, we offer an array of classes on Chinese culture. Students can explore classes in Chinese art, Chinese film, the use of Chinese in business settings, Chinese and Asian history, and the politics and religions of the region. While the study of any Asian language is challenging for native English speakers because of their vast differences from English, students often find it is less difficult than they

lead themselves to believe. Successful students of Chinese will dedicate the necessary daily time to practice and repeat...and practice and repeat.

The Chinese minor is ideal for students looking to gain a competitive advantage in the job market by combining Chinese language skills with their primary major. Students in the Chinese minor take a series of intermediate level language courses and must complete at least one additional elective course.

Students are encouraged to participate in UWM's well-established study abroad (<http://uwm.edu/cie/study-abroad/>) program. Destinations are available in more than 70 sites around the world and vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

## Requirements

The College of Letters and Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

The minor in Chinese consists of 21 credits distributed as follows:

Code	Title	Credits
CHINESE 201	Third Semester Chinese	5
CHINESE 202	Fourth Semester Chinese	5
CHINESE 301	Fifth Semester Chinese	4
CHINESE 302	Sixth Semester Chinese	4
Select one of the following:		3
CHINESE 320	Contemporary Chinese Societies through Film	
CHINESE 330	Chinese Language and Culture	
CHINESE 343	Chinese Martial Arts Fiction	
CHINESE 353	Popular Culture, Entertainment, and China's Modernization	
CHINESE 401	Seventh Semester Chinese	
CHINESE 402	Eighth Semester Chinese	
CHINESE 441	Business Chinese	
CHINESE 497	Study Abroad:	
CHINESE 699	Advanced Independent Study	
<b>Total Credits</b>		<b>21</b>

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive

as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact let-sci@uwm.edu.

## Classics, BA

Classics is the study of the literature, languages, cultures and societies of ancient Greece and Rome. It is one of the oldest of the liberal arts disciplines.

The popularity of movies like *300*, *Gladiator*, and *Troy*, have renewed students' interest in mythology and the study of classics.

Whether you choose to major in Classics or just take a few classes of interest, students in this field are exposed to the history, literature, art and architecture, archaeology, language, and religion of ancient times. Many classes are in English but some offer the subject matter in its original format of Greek or Latin. Many pre-med majors also find that an introduction to Latin vocabulary serves as an exceptional preparation for medical school where much of the terminology originated from Latin.

What can you do with a Classics major? Classics is an original liberal arts field and is designed to prepare students for any type of profession that emphasizes critical analysis, reading of dense texts, and oral and written communication. Law school is a popular destination after college, though certainly not the only option. A student's career choices after college will be guided by how they applied their coursework to real world applications during college. A student who volunteered and interned in museums and galleries may find work in that industry. A student who obtained work experience during college in library reference may pursue that line of work after graduation. The possibilities are numerous, and all students are encouraged to gain practical experience that complements the major.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	

### Part B

Course designated as OWC-B; may be completed through a major-specific course requirement

#### Quantitative Literacy

##### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

##### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

#### Arts

Select 3 credits 3

#### Humanities

Select 6 credits 6

#### Social Sciences

Select 6 credits 6

#### Natural Sciences

Select 6 credits (at least two courses including one lab) 6

#### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

- Two years (high school) of a single foreign language
- Two semesters (college) of a single foreign language
- Or equivalent

#### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or

3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

## II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	

POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

## III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

## IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

## V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		

Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. \*

**Natural Sciences**

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. \*

**Cultural Diversity**

Complete 3 credits in a course with Cultural Diversity (CD) designation. \*\*

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

**VI. The Major**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement**

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

**VII. The Minor**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

**Major Requirements**

There are three major concentrations:

- Classical Civilization
- Ancient Greek Language and Literature
- Classical Latin Language and Literature

Students who major in a Classics Program concentration must complete at least 15 credits of the major in 300 level or above courses in residence at UWM. All students must complete a research experience in their major. The College requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM, including any transfer work.

**Classical Civilization Major Concentration**

This concentration is intended for students who wish to study classical literature and culture without a focus on the original languages. Courses

in ancient Greek and Latin are optional and may count toward fulfilling major requirements. A total of 15 credits of all courses in the major must be at the 300 level or above taken in residence at UWM.

Students must complete the L&S research requirement in the context of a Classic, Greek, or Latin course of their choosing at the 300 level or above, under the supervision of the instructor of that course. The student should inform the instructor of their intention to use the course for the L&S research requirement at the start of the course.

Completion of the major requires a minimum of 30 credits distributed as follows:

Code	Title	Credits
<b>Required</b>		
<i>Choose one from the following 100 level courses:</i>		3-4
CLASSIC 101	Words Matter: How Greek and Latin Shape Our Language	
CLASSIC 170	Classical Mythology	
GREEK 103	First Semester Greek	
LATIN 103	First Semester Latin	
<i>Choose two from the following 200 level courses:</i>		6
CLASSIC 201	Introduction to Greek Life and Literature	
CLASSIC 202	Introduction to Roman Life and Literature	
CLASSIC 211	Alexander the Great to Augustus	
CLASSIC 274	Ancient Egyptian Civilization	
<i>Select 9 additional credits in Classic, Greek, or Latin courses at the 300 level or above. Examples include the following:</i>		9
CLASSIC 301	The Life and Literature of Classical Athens: Herodotus and Dramatists	
CLASSIC 302	War and Politics in Ancient Greece	
CLASSIC 303	The Life and Literature of the Roman Empire	
CLASSIC 304	The Graeco-Roman World:	
CLASSIC 312	Ancient Epic Oral Traditions	
CLASSIC 351	Ancient Greek Religion	
CLASSIC 370	Hittite Myth and History	
CLASSIC 390	Egyptian Mythology	
GREEK 306	Readings in Ancient Greek Literature:	
GREEK 501	Readings in Classical Greek Prose:	
GREEK 502	Readings in Ancient Greek Poetry:	
LATIN 306	Readings in Latin Literature:	
LATIN 501	Readings in Latin Prose:	
LATIN 502	Readings in Latin Poetry:	
<b>Electives</b>		
<i>Select at least 12 credits (see below)</i>		12
<b>Total Credits</b>		<b>30-31</b>

**Electives**

For the remaining 12 credits, students may choose from among any Classic, Greek, or Latin courses or approved courses in related disciplines. Of these elective 12 credits, up to 9 credits can be taken in approved courses from the list below and at least 6 credits must be in courses at the 300 level or above.

Code	Title	Credits
<b>Approved courses in related disciplines</b>		
ANTHRO 305	The Celtic World	3
ANTHRO 306	European Archaeology	3
ARTHIST 312	Minoan and Mycenaean Art and Archaeology	3
ARTHIST 313	Greek Art and Archaeology	3
ARTHIST 314	Art and Archaeology of the Ancient Near East	3
ARTHIST 315	Art and Archaeology of Ancient Egypt	3
ARTHIST 316	Roman Art and Archaeology	3
ARTHIST 412	Cities and Sanctuaries of Ancient Greece	3
ARTHIST 413	Greek Sculpture	3
HIST 201	The Ancient World: The Near East and Greece	3
CLASSIC/HIST 274	Ancient Egyptian Civilization	3
HIST 202	The Ancient World: The Roman Republic and Empire	3
HIST 303	A History of Greek Civilization: The Greek City-State	3
HIST 304	A History of Greek Civilization: The Age of Alexander the Great	3
HIST 307	A History of Rome: The Republic	3
HIST 308	A History of Rome: The Empire	3
HIST 370	Topics in the History of Religious Thought: (Paganism in the Ancient World)	3
HIST 371	Topics in European History: (Rome in the Age of Constantine – Society and Culture)	3
HIST 398	Honors Seminar: (Pagans and Christians in the Roman Empire or Medicine and Healing in Ancient Greece and Rome)	3
PHILOS 430	Great Thinkers of the Ancient Period	3
PHILOS 551	Aristotle	3

## Ancient Greek Language and Literature Major Concentration

The Ancient Greek Language and Literature major concentration requires the completion of 33 credits, including the following. A total of 15 credits of all courses in the major must be at the 300 level or above taken in residence at UWM.

Students must complete the L&S research requirement in the context of a Classic, Greek, or Latin course of their choosing at the 300 level or above, under the supervision of the instructor of that course. The student should inform the instructor of their intention to use the course for the L&S research requirement at the start of the course.

Code	Title	Credits
<b>Required</b>		
GREEK 103	First Semester Greek	4
GREEK 104	Second Semester Greek	4
GREEK 205	Third Semester Greek (or equivalent)	4
CLASSIC 201	Introduction to Greek Life and Literature	3

<b>Electives</b>	
Select four additional courses in Greek at the 300 level or above	12
Select six additional credits chosen from Greek, Latin, and/or Classic courses	6
<b>Total Credits</b>	<b>33</b>

## Classical Latin Language and Literature Major Concentration

The Classical Latin Language and Literature concentration requires the completion of 33 credits, including the following. A total of 15 credits of all courses in the major must be at the 300 level or above taken in residence at UWM.

Students must complete the L&S research requirement in the context of a Classic, Greek, or Latin course of their choosing at the 300 level or above, under the supervision of the instructor of that course. The student should inform the instructor of their intention to use the course for the L&S research requirement at the start of the course.

Code	Title	Credits
<b>Required</b>		
LATIN 103	First Semester Latin	4
LATIN 104	Second Semester Latin	4
LATIN 205	Third Semester Latin (or equivalent)	4
CLASSIC 202	Introduction to Roman Life and Literature	3

<b>Electives</b>	
Select four additional courses in Latin courses at the 300 level or above	12
Select six additional credits chosen from Latin, Greek, and/or Classic courses	6
<b>Total Credits</b>	<b>33</b>

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with

a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

The Undergraduate Faculty Advisor for Classics is Associate Professor Elisabetta Cova, [covae@uwm.edu](mailto:covae@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Classics, Minor

Classics is the study of the literature, languages, cultures and societies of ancient Greece and Rome. It is one of the oldest of the liberal arts disciplines.

The popularity of movies like *300*, *Gladiator*, and *Troy* have renewed students' interest in mythology and the study of classics.

Whether you choose to major or minor in Classics or just take a few classes of interest, students in this field are exposed to the history, literature, art and architecture, archaeology, language, and religion of ancient times. Many classes are in English but some offer the subject matter in its original format of Greek or Latin. Many pre-med majors also

find that an introduction to Latin vocabulary serves as an exceptional preparation for medical school where much of the terminology originated from Latin.

Classics is an original liberal arts field and is designed to prepare students for any type of profession that emphasizes critical analysis, reading of dense texts, and oral and written communication. Law school is a popular destination after college, though certainly not the only option. A student's career choices after college will be guided by how they applied their coursework to real world applications during college. A student who volunteered and interned in museums and galleries may find work in that industry. A student who obtained work experience during college in library reference may pursue that line of work after graduation.

## Requirements

There are three minor concentrations:

- Classical Civilization
- Ancient Greek Language and Literature
- Classical Latin Language and Literature

Completion of the Classical Civilization minor concentration requires a minimum of 18 credits, while completion of either the Ancient Greek or Classical Latin minor concentration requires a minimum of 21 credits. At least 9 of the credits in the minor must come from upper-division courses (300 level and above) completed in residence at UWM. The College requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

### Minor Concentration in Classical Civilization

The Classical Civilization minor concentration requires completion of a minimum of 18 credits, including the following:

Code	Title	Credits
<b>Choose one from the following 100 level courses:</b>		<b>3-4</b>
CLASSIC 101	Words Matter: How Greek and Latin Shape Our Language	
CLASSIC 170	Classical Mythology	
GREEK 103	First Semester Greek	
LATIN 103	First Semester Latin	
<b>Choose two from the following 200 level courses:</b>		<b>6</b>
CLASSIC 201	Introduction to Greek Life and Literature	
CLASSIC 202	Introduction to Roman Life and Literature	
CLASSIC 211	Alexander the Great to Augustus	
CLASSIC 274	Ancient Egyptian Civilization	
<b>Select nine additional credits in Classic, Greek, or Latin courses at the 300 level or above. Examples include the following:</b>		<b>9</b>
CLASSIC 301	The Life and Literature of Classical Athens: Herodotus and Dramatists	
CLASSIC 303	The Life and Literature of the Roman Empire	
CLASSIC 304	The Graeco-Roman World:	
CLASSIC 312	Ancient Epic Oral Traditions	
CLASSIC 351	Ancient Greek Religion	
CLASSIC 370	Hittite Myth and History	
CLASSIC 390	Egyptian Mythology	

GREEK 306	Readings in Ancient Greek Literature:
GREEK 501	Readings in Classical Greek Prose:
GREEK 502	Readings in Ancient Greek Poetry:
LATIN 306	Readings in Latin Literature:
LATIN 501	Readings in Latin Prose:
LATIN 502	Readings in Latin Poetry:

**Total Credits** **18-19**

### Minor Concentration in Ancient Greek Language and Literature

The Ancient Greek Language and Literature minor concentration requires completion of a minimum of 21 credits, including the following:

Code	Title	Credits
GREEK 103	First Semester Greek	4
GREEK 104	Second Semester Greek	4
GREEK 205	Third Semester Greek (or equivalent)	4
Select 6 credits in Greek at the 300 level or above		6
Select 3 credits in Greek or Classic at the 300 level or above		3

**Total Credits** **21**

### Minor Concentration in Classical Latin Language and Literature

The Classical Latin Language and Literature minor concentration requires completion of a minimum of 21 credits, including the following:

Code	Title	Credits
LATIN 103	First Semester Latin	4
LATIN 104	Second Semester Latin	4
LATIN 205	Third Semester Latin (or equivalent)	4
Select 6 credits in Latin at the 300 level or above		6
Select 3 credits in Latin or Classic at the 300 level or above		3

**Total Credits** **21**

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Committee Interdisciplinary Major, BA: Chinese Language and Culture

The Committee Interdisciplinary Major with a focus in Chinese language and culture is a vital program with growing importance and value as China expands its role as a super power in world economics, manufacturing, technology, and politics.

Each year more and more students are joining the ranks of the 1.4 billion people who speak Mandarin, the official language of the People's Republic of China and of Taiwan.

Many students now can find Chinese instruction in their high schools. At UWM, students can continue their high school studies or begin from the first semester of Chinese language instruction. We offer eight semesters of Chinese language, and equally as important, we offer an array of classes on Chinese culture. Students can explore classes in Chinese art, Chinese film, the use of Chinese in business settings, Chinese and Asian history, and the politics and religions of the region.

While the study of any Asian language is challenging for native English speakers because of their vast differences from English, students often find it is less difficult than they lead themselves to believe. Successful students of Chinese will dedicate the necessary daily time to practice and repeat...and practice and repeat.

Students are encouraged to participate in UWM's well-established study abroad (<http://uwm.edu/cie/study-abroad/>) program. Destinations are available in more than 70 sites around the world and vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	

*Part B*

Course designated as OWC-B; may be completed through a major-specific course requirement

**Quantitative Literacy**

*Part A*

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

*Part B*

Course designated as QL-B; may be completed through a major-specific course requirement

**Arts**

Select 3 credits 3

**Humanities**

Select 6 credits 6

**Social Sciences**

Select 6 credits 6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**College of Letters & Science Requirements**

**I. English Composition Requirement**

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	

SOCIOL 261	Introduction to Statistical Thinking in Sociology
------------	---

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *	12
--	----

### Cultural Diversity

Complete 3 credits in a course with Cultural Diversity (CD) designation. **	3
---	---

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Major Requirements

The Chinese Language and Culture program requires completion of 30 credits in approved Chinese and related courses. Students in the major must complete the fifth- through eighth-semester Chinese courses as the core of the program. In addition, culture-related courses that are taught using the target language are required. Students must complete 30 credits to graduate, at least 15 of them at the advanced level (300 and above) taken in residence at UWM. The major requires a minimum of 18 credits at the 300 level or above taught in Chinese. The College requires that students attain at least a 2.0 GPA on all major credits attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

Code	Title	Credits
<b>Required <sup>1</sup></b>		
CHINESE 301	Fifth Semester Chinese	4
CHINESE 302	Sixth Semester Chinese	4
CHINESE 401	Seventh Semester Chinese	3
CHINESE 402	Eighth Semester Chinese	3

Select one of the following:	3
CHINESE 320 Contemporary Chinese Societies through Film	
CHINESE 330 Chinese Language and Culture	
CHINESE 441 Business Chinese	
<b>Capstone</b>	
AMLLC 699 Advanced Independent Study (satisfies the research requirement of the L&S degree)	3
<b>Electives (see list of approved electives below) <sup>2</sup></b>	
Select 10 credits	10
<b>Total Credits</b>	<b>30</b>

<sup>1</sup> Students whose language skills allow them to begin their study of Chinese beyond the fifth semester course must discuss with the advisor appropriate substitute courses in order to complete the required 30 credits.

<sup>2</sup> The courses listed below are already approved electives. Other variable content courses with appropriate subtitles may be approved on a semester-by-semester basis to count toward the major.

### Electives

Code	Title	Credits
ARTHIST 380	Chinese Painting	3
ARTHIST 382	Chinese Art and Architecture	3
ARTHIST 481	Topics in Chinese Art:	1-3
CHINESE 150	Contemporary Chinese Society and Culture	3
CHINESE 160	A Taste of China: Learning Chinese Culture and Society through Cuisine	3
CHINESE 200	Chinese Calligraphy	3
CHINESE 220	Introduction to Chinese Poetry	3
CHINESE 320	Contemporary Chinese Societies through Film (if not selected above)	3
CHINESE 330	Chinese Language and Culture (if not selected above)	3
CHINESE 343	Chinese Martial Arts Fiction	3
CHINESE 353	Popular Culture, Entertainment, and China's Modernization	3
CHINESE 397	Study Abroad:	3
CHINESE 441	Business Chinese (if not selected above)	3
CHINESE 489	Internship in Chinese, Upper Division	3
CHINESE 497	Study Abroad: (highly encouraged)	3
CHINESE 699	Advanced Independent Study	1-3
COMPLIT 230	Literature and Society: (Chinese Literature before the 20th Century)	3
COMPLIT 360	Seminar in Literature and Cultural Experience: (Modern Chinese Literature)	3
ECON 193	First-Year Seminar: (Growth and Development in China, Japan, and Korea)	3
ENGLISH/COMPLIT/FILMSTD 316	World Cinema: (Hong Kong Cinema)	3

HIST 175	East Asian Civilization to 1600	3
HIST 269	Asian Americans in Historical Perspective	3
HIST 376	Premodern China	3
HIST 377	Modern China	3
HIST 378	Revolution in China	3
PHILOS 204	Introduction to Asian Religions	3
POL SCI 314	Chinese Politics and Foreign Policy	3

### Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

### College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## German, BA

German is the third most studied foreign language in the world, and, at UWM, we offer more than just instruction in language. In addition to German fluency, students learn how to apply that fluency by studying German culture, literature, customs, and history.

Wisconsin has a strong German heritage and many students find it both professionally useful and personally satisfying to explore the State's German influences. Many may come into college having already taken German in high school. Students can take a placement test to determine their starting course and may be able to earn retroactive credits if they place above the level of GERMAN 101.

Fluency in German can provide a career advantage in all types of industries where Germany and other German-speaking countries are leaders: finance, marketing, manufacturing, politics, government work, electronics and technology, chemical and biochemical, environmental science, and architecture. At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of German in order to successfully apply their fluency.

Students are encouraged to participate in UWM's well-established study abroad (<http://uwm.edu/cie/study-abroad/>) program. Destinations are available in more than 70 sites around the world and vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		
<i>Part B</i>		
Course designated as QL-B; may be completed through a major-specific course requirement		
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Select 6 credits		6
<b>Social Sciences</b>		
Select 6 credits		6
<b>Natural Sciences</b>		
Select 6 credits (at least two courses including one lab)		6
<b>UWM Foreign Language Requirement</b>		
Complete Foreign Language Requirement through:		
Two years (high school) of a single foreign language		
Two semesters (college) of a single foreign language		
Or equivalent		
<b>UWM Cultural Diversity Requirement</b>		
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement		

### Oral and Written Communication

#### Part A

Achieve a grade of C or better in the following course:

ENGLISH 102	College Writing and Research (or equivalent)
-------------	--

#### Part B

Course designated as OWC-B; may be completed through a major-specific course requirement

### Quantitative Literacy

#### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

#### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

### Arts

Select 3 credits	3
------------------	---

### Humanities

Select 6 credits	6
------------------	---

### Social Sciences

Select 6 credits	6
------------------	---

### Natural Sciences

Select 6 credits (at least two courses including one lab)	6
---	---

### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		

AFRIC 220	Introduction to Statistics in African and African Diaspora Studies
ANTHRO 568	Introduction to Anthropological Statistics
BIO SCI 465	Biostatistics
ECON 210	Economic Statistics
GEOG 247	Quantitative Analysis in Geography
HIST 595	The Quantitative Analysis of Historical Data
MTHSTAT 215	Elementary Statistical Analysis
PHILOS 211	Elementary Logic
POL SCI 390	Political Data Analysis
POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences

(SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

## VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

## VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Major Requirements

All majors are required to take an advanced language proficiency exam, normally during the semester in which they complete 24 credits in the major. The College of Letters & Science requires that students attain at

least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

Majors must register with the program at the beginning of their candidacy.

The major requires a minimum of 30 credits. At least 18 of the 30 credits must be at the 300 level and above and taken in residence at UWM. No more than 18 credits will be accepted from study abroad.

Code	Title	Credits
<b>Required</b>		
GERMAN 204	Fourth-Semester German	3
GERMAN 331	German Grammar in Practice	3
GERMAN 332	Presentation and Composition	3
GERMAN 333	Texts and Contexts	3
GERMAN 334	Introduction to German Studies	3
Select 1 course fulfilling the research requirement		3
Select 6 credits from courses taught in the German program numbered between 470 and 488		6
Select 6 credits from courses in German at the 300-level and above; OR 3 credits from courses in German at the 300-level and above and 3 credits from pre-approved electives listed below		6
<b>Total Credits</b>		<b>30</b>

## Research Experience

The College of Letters & Science requires students to complete a research experience in their major. Students fulfill this requirement in the context of the following courses. Depending on the course chosen, the research course can also count for the requirement for a 300-level and above course or for a course numbered between 470 and 488, but cannot count for both.

Code	Title	Credits
GERMAN 371	German Phonetics	3
GERMAN 474	German for Professional Purposes	3
GERMAN 475	Seminar on the History and Structure of German	3
GERMAN 478	Reading Older German Handwriting	3

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;

- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Accelerated Program Option

This program is offered as part of an accelerated graduate program. For more information, see Accelerated Graduate Degrees (p. 37).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## German, Minor

German is the third most studied foreign language in the world, and, at UWM, we offer more than just instruction in language. In addition to

German fluency, students learn how to apply that fluency by studying German culture, literature, customs, and history.

Wisconsin has a strong German heritage and many students find it both professionally useful and personally satisfying to explore the State's German influences. Many may come into college having already taken German in high school. Students can take a placement test to determine their starting course and may be able to earn retroactive credits if they place above the level of GERMAN 101.

Fluency in German can provide a career advantage in all types of industries where Germany and other German-speaking countries are leaders: finance, marketing, manufacturing, politics, government work, electronics and technology, chemical and biochemical, environmental science, and architecture. At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of German in order to successfully apply their fluency.

Students are encouraged to participate in UWM's well-established study abroad (<http://uwm.edu/cie/study-abroad/>) program. Destinations are available in more than 70 sites around the world and vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

## Requirements

The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. The minor in German requires a minimum of 21 credits. At least 12 of these credits must be at the 300 level or above and taken in residence at UWM.

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned.

These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Korean Studies, Minor

BTS, Blackpink, *Squid Game*, and *Parasite*. They are successful Korean entertainers or cultural products. The *New York Times* has said that Korea has become a cultural juggernaut. With the 10th largest economy, Korea is playing a significant role in international political and economic arenas. Thus, there is a high demand for people who are equipped with Korea language ability and cultural understanding.

The Korean Studies Minor is designed to help students understand Korean culture, society, and people as well as provide language training. Upon completion of the program, students should be able to (1) read, write, and speak fluently; (2) understand key concepts of culture and current affairs in the context of history; and (3) apply their cultural knowledge and language ability in their profession.

## Requirements

The minor in Korean consists of at least 22 credits. The College requires that students complete at least 9 credits of their minor in upper-division (numbered 300 or above) courses in residence at UWM to earn a minor at UWM. The College also requires that students attain at least a 2.0 GPA on all minor credits attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

Students entering with no previous Korean language experience should enroll in KOREAN 101. Students entering with previous knowledge of, or high school preparation in, Korean, or transfer students who have studied Korean in other colleges, are assigned to courses on the basis of a departmental placement consultation with the Korean program coordinator. Students placed into a course beyond the 101 level who complete their first course with a grade of at least a B may receive retroactive credits earned at the 200 level or above to a maximum of 16 credits, for the courses leading to the one into which they are placed.

Those who are able to begin their study of Korean by placing into KOREAN 202 or above will take sufficient elective credits, approved by the Korean coordinator, to complete at least 22 credits in the minor with 9 credits at the 300 level or above.

The following (or equivalent or exemption) are required:

Code	Title	Credits
<i>The following language courses (or equivalents)</i>		
KOREAN 201	Third Semester Korean	5
KOREAN 202	Fourth Semester Korean	5
KOREAN 301	Fifth Semester Korean	3
KOREAN 302	Sixth Semester Korean	3
<i>Required core course in Korean culture and society</i>		
KOREAN 221	Korean Culture and Society	3
<i>One of the following:</i>		
KOREAN 489	Internship in Korean, Upper Division	3

KOREAN 497	Study Abroad:
KOREAN 699	Advanced Independent Study
HIST 372	Topics in Global History: (with topic: The Korean War)
POL SCI 345	Korean Politics and Foreign Policy
Or other 300- or higher-level course focusing on Korea, subject to the approval of the coordinators	
<b>Total Credits</b>	<b>22</b>

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Russian and East European Studies, Undergraduate Certificate

The purpose of the Russian and East European Studies undergraduate certificate is to enable students to take a coordinated series of courses and to receive a formal certificate signifying this specialization.

In recent years, Russia has become an even larger global influence on politics, the economy, security, and international trade. Understanding the language and culture of Russia has become increasingly important, and the value of knowledge and skills in this area is anticipated to continue to grow.

Only about 15% of the colleges and universities in the U.S. are able to offer a Russian major, and UWM is among this small group. This Slavic language is growing in importance and in value as the political and economic dynamics of Russia and the region are evolving. Russian is one of the five official languages of the United Nations and has more than 200 million speakers around the world. The U.S. State Department has deemed Russian to be a "critical language" and has many programs to encourage students to join this needed area of study.

At UWM, students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of Russian in order to successfully apply their fluency. Students are also encouraged to participate in UWM's study abroad program with destinations including Saratov, Moscow, St. Petersburg, and Vladimir. Some students choose just a short immersion while others go abroad for a semester or even a full year. Because of the complexities of planning a study abroad

experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

## Eligibility

The Russian and East European Studies Certificate Program is open to all students seeking a bachelor's degree from UWM, to those who previously received a bachelor's degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this topic. To be admitted as non-degree students, individuals must meet regular University admission requirements. Students currently involved in baccalaureate studies who successfully complete the requirements of the program will be awarded the certificate at the time of graduation. Students who already have a bachelor's degree and non-degree students receive the certificate upon completion of the program requirements. All students are required to complete an exit survey before the certificate is awarded.

## Requirements

To obtain the certificate, students must complete at least 18 credits including the requirements in either of the following two tracks. In both tracks, students must achieve a minimum grade point average of 2.75 in all courses taken for the certificate, including language courses. Students should be aware that not all certificate courses are taught regularly. They are advised, therefore, to plan ahead in choosing courses needed for the certificate. A maximum of 3 credits in advanced independent study courses (699) may be applied toward completion of certificate requirements. Other appropriate courses taught by the area faculty, but not on the list, may be taken with the approval of the Chair of the Russian and East European Studies Committee. For courses to count towards the REES certificate, at least one third of the content must be related to the regions of Eastern and Central Europe, Russia, Eurasia, and/or Central Asia. For pre-approved courses, see the list of approved courses. When necessary, requests for other substitute courses will be considered by the committee, provided they are made well in advance of graduation.

### Track One (with language study)

1. 9 credits in approved upper division courses in area history, political science, area studies, and foreign languages and literature, or substitutes as approved by the Committee.
2. Demonstrated proficiency in one of the languages of the region: four semesters of language study or its equivalent. Students with language proficiency gained in contexts other than classroom instruction should consult the REES advisor about proficiency testing options.

### Track Two

1. 18 credits from the approved list of courses in area history, political science, area studies, and foreign languages and literature, or substitutes approved by the Committee. At least 9 credits must be upper division.

At least 9 credits must be completed successfully at UWM for both tracks.

## Courses Approved for the Certificate Program

Code	Title	Credits
<b>Geography</b>		
GEOG 330	Europe: East and West	3
<b>History</b>		
HIST 239	Poland and its Neighbors, 1795-1914	3
HIST 248	The First World War	3
HIST 249	The Second World War in Europe	3
HIST 295	Historical Encounters: (with Russian and/or East European subtitle)	3
HIST 341	Imperial Russia	3
HIST 343	Russia Since 1917	3
HIST 346	Poland and Its Neighbors, 1914-1945	3
HIST 348	Poland and Its Neighbors, 1945 to the Present	3
HIST 363	Germany: Hitler and the Nazi Dictatorship	3
HIST 364	The Holocaust: Anti-Semitism & the Fate of Jewish People in Europe, 1933-45	3
<b>Jewish Studies</b>		
JEWISH 358	The Jews of Modern Europe: History and Culture	3
JEWISH 421	Introduction to Yiddish Literature:	3
<b>Political Science</b>		
POL SCI 302	Politics of Eastern Europe	3
POL SCI 310	Russian and Post-Soviet Politics	3
POL SCI 312	The Politics of Authoritarian Regimes	3
POL SCI 333	Seminar in Comparative Politics: (with Russian and/or Eastern European subtitle)	3
POL SCI 371	Nationalism and Ethnic Conflict	3
<b>Polish</b>		
All courses. The following Polish courses are offered regularly:		
POLISH 101	First-Semester Polish	4
POLISH 102	Second-Semester Polish	4
POLISH 236	Polish Culture in its Historical Setting	3
<b>Russian</b>		
All courses. The following Russian courses are offered regularly:		
RUSSIAN 101	First-Semester Russian	5
RUSSIAN 102	Second-Semester Russian	5
RUSSIAN 201	Third-Semester Russian	4
RUSSIAN 202	Fourth-Semester Russian	4
RUSSIAN 310	Advanced Russian Reading and Conversation:	3
RUSSIAN 311	Contemporary Russian Language:	3
RUSSIAN 419	Introduction to Translation: Russian to English	3
<b>Courses taught in English:</b>		
AMLLC 240	Vampires: From Slavic Village to Hollywood	3
RUSSIAN 245	Russian Life and Culture	3
RUSSIAN 260	Topics in Slavic Culture:	1

## Russian, BA

In recent years, Russia has become an even larger global influence on politics, the economy, security, and international trade. Understanding the language and culture of Russia has become increasingly important, and the value of knowledge and skills in this area is anticipated to continue to grow.

Only about 15% of the colleges and universities in the U.S. are able to offer a Russian major, and UWM is among this small group. This Slavic language is growing in importance and in value as the political and economic dynamics of Russia and the region are evolving. Russian is one of the five official languages of the United Nations and has more than 200 million speakers around the world. The U.S. State Department has deemed Russian to be a "critical language" and has many programs to encourage students to join this needed area of study.

At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of Russian in order to successfully apply their fluency.

Students are also encouraged to participate in UWM's study abroad (<https://uwm.edu/cie/study-abroad/>) program with destinations including Saratov, Moscow, St. Petersburg, and Vladimir. Some students choose just a short immersion while others go abroad for a semester or even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		

ENGLISH 102	College Writing and Research (or equivalent)
-------------	--

*Part B*

Course designated as OWC-B; may be completed through a major-specific course requirement

**Quantitative Literacy**

*Part A*

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra

Or equivalent course

*Part B*

Course designated as QL-B; may be completed through a major-specific course requirement

**Arts**

Select 3 credits 3

**Humanities**

Select 6 credits 6

**Social Sciences**

Select 6 credits 6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or

3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

## II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	

POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is **NOT** the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

## III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

## IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

## V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		

Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. \*

**Natural Sciences**

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. \*

**Cultural Diversity**

Complete 3 credits in a course with Cultural Diversity (CD) designation. \*\*

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

**VI. The Major**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement**

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

**VII. The Minor**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

**Major Requirements**

Majors must complete at least 15 credits in advanced-level courses (300 and above) in residence at UWM; at least 9 of these credits must be in the Russian curricular area. Students must attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, the College of Letters and Science requires that students attain a 2.0 GPA on all major credits attempted, including any transfer work. Major courses taken outside the Russian curricular area count in the major GPAs.

Students are strongly encouraged to pursue study abroad in Russia and may apply transfer credits from an approved study abroad program toward their degree requirements. Students interested in doing extensive study abroad should contact the program coordinator to discuss the college's residency requirement.

The Russian major requires completion of four semesters of college-level Russian (through RUSSIAN 202) or equivalent preparation. Credits earned at UWM in satisfying this requirement count in the major GPA. In addition, individuals must complete 18 credits as follows:

Code	Title	Credits
<b>Core</b>		
RUSSIAN 310	Advanced Russian Reading and Conversation:	3
RUSSIAN 311	Contemporary Russian Language:	3
Select 12 additional credits in Russian		12
<b>Electives</b>		
Select 12 additional credits <sup>1</sup>		12
<b>Research Requirement</b>		
RUSSIAN 391	Russian Literature and Culture in Translation: <sup>2</sup>	3
or RUSSIAN 699	Supervised Individual Reading	
<b>Total Credits</b>		<b>33</b>

<sup>1</sup> Selected from Russian and/or cross-listed and related courses (see the two lists below). A maximum of 3 credits from the list of related courses can count toward this requirement.

<sup>2</sup> As part of their required credits, all students must complete a research experience as required by the College. Students will satisfy this requirement in the context of RUSSIAN 391 or RUSSIAN 699.

**Cross-listed Courses**

The following courses are approved to satisfy the requirements of the Russian major and minor. Please contact the program coordinator for the most up-to-date list of approved courses or to request approval for Russian-related courses not on this list.

Code	Title	Credits
ENGLISH 316	World Cinema: (Russian Cinema)	3
ETHNIC 250	Selected Topics in Ethnic Studies: (Gender and Ethnicity in and After the USSR)	3
HIST 341	Imperial Russia	3
HIST 343	Russia Since 1917	3
INTLST 550	Senior Seminar in International Studies: (Russia in Transition: Media and Values)	3
POL SCI 310	Russian and Post-Soviet Politics	3

**Related Courses <sup>1</sup>**

The following courses are approved to satisfy the requirements of the Russian major. Please contact the program coordinator for the most up-to-date list of approved courses or to request approval for Russian-related courses not on this list. Majors may count a maximum of three credits from the following list toward the major requirements:

Code	Title	Credits
HIST 249	The Second World War in Europe	3
HIST 375	Contemporary European History, 1945 to the Present	3
POL SCI 302	Politics of Eastern Europe	3

<sup>1</sup> Students may enroll in and complete all advanced-level courses with the subject code LINGUIS and all courses under the subject code POLISH.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Russian, Minor

In recent years, Russia has become an even larger global influence on politics, the economy, security, and international trade. Understanding the language and culture of Russia has become increasingly important, and the value of knowledge and skills in this area is anticipated to continue to grow.

Only about 15% of the colleges and universities in the U.S. are able to offer a Russian major, and UWM is among this small group. This Slavic language is growing in importance and in value as the political and economic dynamics of Russia and the region are evolving. Russian is one of the five official languages of the United Nations and has more than 200 million speakers around the world. The U.S. State Department has deemed Russian to be a "critical language" and has many programs to encourage students to join this needed area of study.

At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of Russian in order to successfully apply their fluency.

Students are also encouraged to participate in UWM's study abroad (<https://uwm.edu/cie/study-abroad/>) program with destinations including Saratov, Moscow, St. Petersburg, and Vladimir. Some students choose just a short immersion while others go abroad for a semester or even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

## Requirements

At least 9 credits must be completed in advanced-level courses in residence at UWM; at least 6 of these credits must be in the Russian curricular area. Students must attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, the College requires that students attain a 2.0 GPA on all minor credits attempted, including transfer work. Minor courses taken outside the Russian curricular area count in the minor GPAs.

Students are strongly encouraged to pursue study abroad in Russia and may apply transfer credits from an approved study abroad program toward their degree requirements. Students interested in doing extensive advanced-level coursework at a Russian university should contact the program coordinator to discuss the College's residency requirement.

The Russian minor requires completion of four semesters of college-level Russian (through RUSSIAN 202) or equivalent preparation. Credits earned at UWM in satisfying this requirement count in the minor GPA. In addition, minors must complete 18 credits as follows:

Code	Title	Credits
<b>Core</b>		
RUSSIAN 310	Advanced Russian Reading and Conversation:	3
RUSSIAN 311	Contemporary Russian Language:	3
Select 6 additional credits in the Russian curricular area		6
<b>Electives</b>		
Select 6 credits in Russian and/or courses selected from the list of cross-listed courses below		6
<b>Total Credits</b>		<b>18</b>

### Cross-listed Courses

The following courses are approved to satisfy the requirements of the Russian minor. Please contact the program coordinator for the most up-to-date list of approved courses or to request approval for Russian-related courses not on this list.

Code	Title	Credits
ENGLISH 316	World Cinema: (Russian Cinema)	3
ETHNIC 250	Selected Topics in Ethnic Studies: (Gender and Ethnicity in and After the USSR)	3
HIST 341	Imperial Russia	3
HIST 343	Russia Since 1917	3
INTLST 550	Senior Seminar in International Studies: (Russia in Transition: Media and Values)	3
POL SCI 310	Russian and Post-Soviet Politics	3

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor"

### Faculty

Name	Rank	Degree	School	Graduate Faculty	Emeritus Faculty

button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact let-sci@uwm.edu.

## Anthropology

Anthropology is the study of human beings and their cultures, past and present, throughout the world. The discipline examines and compares the world's culture patterns in all their variety and studies humans as biological organisms. Through archaeology, it attempts to shed light on the long history and evolution of humans and their ways of life. In these pursuits, anthropologists favor comparative and evolutionary perspectives. As a result, anthropological studies are wide-ranging with respect to topic and far-reaching with respect to both space and time.

## Anthropology, BA

Anthropology is the scientific study of human beings and their cultures across time and space. In the broadest sense, anthropology is about how the human species came to be, how it developed myriad ways of living in the world, and how those ways may change in the future. It is the major most closely associated with archaeology.

Anthropology is a unique field that combines elements of social science and natural science. Students will find themselves in all types of settings - out in the field collecting physical samples, in a lab analyzing fossils and specimens, interviewing individuals and groups to collect oral histories, in the library and community researching, and in the classroom learning how to fit all of the pieces of evidence into a cohesive theory.

Students at UWM will be exposed to all types of anthropological work. Some may find themselves more drawn to the "people" side of things and gravitate more towards electives that focus on culture and societal structures. Social anthropologists may examine issues such as workplace behavior, religious rituals, art, family structures or gender relations. Others may find linguistic anthropology - the study of the development of languages - more interesting. Students who have always envisioned themselves digging up artifacts will find archaeology or biological anthropology of most interest.

Regardless of specialization, hands-on experience is critical. UWM offers all types of field experience and research opportunities, locally and at spots around the globe.

### Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they

entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		

#### Part A

Achieve a grade of C or better in the following course:

ENGLISH 102	College Writing and Research (or equivalent)
-------------	--

#### Part B

Course designated as OWC-B; may be completed through a major-specific course requirement

### Quantitative Literacy

#### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

#### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

### Arts

Select 3 credits	3
------------------	---

### Humanities

Select 6 credits	6
------------------	---

**Social Sciences**

Select 6 credits 6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**College of Letters & Science Requirements**

**I. English Composition Requirement**

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

**III. Foreign Language Requirement**

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

#### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		
	Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above	9
	Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.	
	Complete 9 credits in combination of the two options above.	

#### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
	Select 3 credits	3
<b>Humanities</b>		
	Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *	12
<b>Social Sciences</b>		
	Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *	12
<b>Natural Sciences</b>		
	Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *	12
<b>Cultural Diversity</b>		
	Complete 3 credits in a course with Cultural Diversity (CD) designation. **	3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

#### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College

requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

#### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

#### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Anthropology Major Requirements

Students majoring in anthropology can select from a wide variety of courses organized under three subfields:

- Sociocultural Anthropology
- Archaeology
- Biological Anthropology

Although majors take some coursework in each of the three subfields, they are encouraged to shape their own programs to meet individual needs and interests. Students majoring in anthropology must earn a GPA of 2.0 or better in anthropology courses attempted at UWM. In addition, the College of Letters and Science requires that students attain a 2.0 or better GPA in all anthropology courses attempted, including any transfer work. The major in anthropology requires 36 credits within the department. At least 15 credits in advanced-level courses (numbered 300 or above) must be taken in residence at UWM.

Code	Title	Credits
<b>Required</b>		
ANTHRO 101	Introduction to Anthropology: Human Origins	3
ANTHRO 102	Introduction to Anthropology: Culture and Society	3
ANTHRO 103	Digging Up the Past: Approaches to Archaeology	3
ANTHRO 460	Anthropological Theory <sup>1</sup>	3
9-15 credits satisfying the following requirements <sup>2</sup>		9-15
1 methods course		
1 course satisfying the research requirement		
1 course in each of the three subfields		
6-15 additional ANTHRO credits		6-15
<b>Total Credits</b>		<b>36</b>

<sup>1</sup> Only seniors may enroll in ANTHRO 460, and it is recommended that they do so after having completed all other anthropology course requirements.

<sup>2</sup> Methods courses and research requirement courses may overlap with each other or with one of the three ANTHRO subfields. See tables below for additional details.

**Methods Courses**

Code	Title	Credits
ANTHRO 405	Forensic Anthropology <sup>1</sup>	3
ANTHRO 497	Study Abroad: <sup>1</sup>	1-12
ANTHRO 525	Zooarchaeology: Analysis of Faunal Remains <sup>1</sup>	3
ANTHRO 535	Analysis of Archaeological Ceramics <sup>1</sup>	3
ANTHRO 560	Introduction to Research Methods in Anthropology <sup>1</sup>	3
ANTHRO 561	Techniques and Problems in Ethnography	3
ANTHRO 562	Techniques and Problems in Archaeology	3
ANTHRO 566	Archaeological Analysis and Report Preparation: <sup>1</sup>	3-6
ANTHRO 567	Archaeological Field School	3-6
ANTHRO 568	Introduction to Anthropological Statistics	3

<sup>1</sup> This course may also satisfy a research and/or subfield requirement in the Anthropology major. However, no single course may count for more than two requirements.

**Research Requirement Courses**

Code	Title	Credits
ANTHRO 401	Primate Populations <sup>1</sup>	3
ANTHRO 497	Study Abroad: <sup>1</sup>	1-12
ANTHRO 525	Zooarchaeology: Analysis of Faunal Remains	3
ANTHRO 535	Analysis of Archaeological Ceramics	3
ANTHRO 560	Introduction to Research Methods in Anthropology	3
ANTHRO 566	Archaeological Analysis and Report Preparation: <sup>1</sup>	3-6

<sup>1</sup> This course may also satisfy a methods and/or subfield requirement in the Anthropology major. However, no single course may count for more than two requirements.

**Three Anthropology Subfields****Biological Anthropology**

Code	Title	Credits
ANTHRO 301	Human Evolution and Variation	3
ANTHRO 401	Primate Populations <sup>1</sup>	3
ANTHRO 402	Primate Evolution	3
ANTHRO 403	The Human Skeleton	3
ANTHRO 404	Human Biological Variation	3
ANTHRO 405	Forensic Anthropology	3
ANTHRO 406	Evolutionary Biology & Human Diseases	3
ANTHRO 407	Neuroanthropology	3
ANTHRO 408	Hormones and Behavior	3

<sup>1</sup> This course may also satisfy a methods and/or research requirement in the Anthropology major; however, no single course may count for more than two requirements.

**Archaeology**

Code	Title	Credits
ANTHRO 304	Violence and Warfare in Prehistory	3
ANTHRO 305	The Celtic World	3
ANTHRO 306	European Archaeology	3
ANTHRO 307	World Archaeology: Foundations of Civilization	3
ANTHRO 308	Archaeology of North America	3
ANTHRO 309	Archaeology of Central and South America	3
ANTHRO 310	Archaeology of Middle America	3
ANTHRO 311	The World of the Ancient Maya	3
ANTHRO 313	Archaeology of the American Southwest	3
ANTHRO 420	Power and Ideology in Archaeology	3
ANTHRO 421	Cities in the Ancient World	3
ANTHRO 424	Ethnoarchaeology and Experimental Archaeology	3
ANTHRO 425	Hunter-Gatherer Lifeways: Past and Present	3
ANTHRO 426	Who Owns the Past?	3
ANTHRO 465	Historic Preservation in Archaeology	3
ANTHRO 466	Historical Archaeology	3
ANTHRO 501	Archaeology of Death	3
ANTHRO 502	Lithic Analysis: Stone Tools and Human Behavior	3
ANTHRO 525	Zooarchaeology: Analysis of Faunal Remains <sup>1</sup>	3
ANTHRO 535	Analysis of Archaeological Ceramics <sup>1</sup>	3
ANTHRO 565	Seminar in Regional Archaeology:	3

<sup>1</sup> This course may also satisfy a methods and/or research requirement in the Anthropology major; however, no single course may count for more than two requirements.

**Sociocultural Anthropology**

Code	Title	Credits
ANTHRO 302	Anthropology and Popular Culture	3
ANTHRO 314	American Indian Societies and Cultures	3
ANTHRO 320	Peoples and Cultures of Africa	3
ANTHRO 322	Europe in Anthropological Perspective	3
ANTHRO 325	Japanese Culture and Society	3
ANTHRO 326	Peoples and Cultures of South Asia	3
ANTHRO 328	Comparative Studies of Music, Race, and Gender in Nationalism	3
ANTHRO 335	American Indians of the Southeast	3
ANTHRO 340	Cultures of Online Games and Virtual Worlds	3
ANTHRO 349	Seminar in Ethnography and Cultural Processes	3

ANTHRO 351	Anthropological Theories of Religion	3
ANTHRO 354	Anthropology, Aesthetics, and Art	3
ANTHRO 355	Globalization, Culture, and Environment	3
ANTHRO 400	Human Sociobiology	3
ANTHRO 431	Cities and Culture	3
ANTHRO 439	Culture and Global Health	3
ANTHRO 440	Medical Anthropology	3
ANTHRO 441	Nature, Knowledge, and Technoscience in Anthropological Perspective	3
ANTHRO 442	Humanitarianism in Global Perspective	3
ANTHRO 443	Medicine and Pharmaceuticals in the Global Age	3
ANTHRO 445	Psychological Anthropology	3
ANTHRO 446	The Child in Different Cultures	3
ANTHRO 447	The Global Politics of Human Rights	3
ANTHRO 448	Cultural and Human Ecology	3
ANTHRO 449	The Human Economy	3
ANTHRO 450	Political Anthropology	3
ANTHRO 540	Applications of Anthropology	3
ANTHRO 543	Cross-Cultural Study of Religion	3
ANTHRO 544	Religious Giving in Anthropological Perspective	3
ANTHRO 649	Ethnography of Institutions	3

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and

- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Accelerated Program Option

This program is offered as part of an accelerated graduate program. For more information, see Accelerated Graduate Degrees (p. 37).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Anthropology, Minor

Anthropology is the scientific study of human beings and their cultures across time and space. In the broadest sense, anthropology is about how the human species came to be, how it developed myriad ways of living in the world, and how those ways may change in the future. It is the major most closely associated with archaeology.

Anthropology is a unique field that combines elements of social science and natural science. Students will find themselves in all types of settings - out in the field collecting physical samples, in a lab analyzing fossils and specimens, interviewing individuals and groups to collect oral histories, in the library and community researching, and in the classroom learning how to fit all of the pieces of evidence into a cohesive theory.

Students at UWM will be exposed to all types of anthropological work. Some may find themselves more drawn to the "people" side of things and gravitate more towards electives that focus on culture and societal structures. Social anthropologists may examine issues such

as workplace behavior, religious rituals, art, family structures or gender relations. Others may find linguistic anthropology - the study of the development of languages - more interesting. Students who have always envisioned themselves digging up artifacts will find archaeology or biological anthropology of most interest.

Regardless of specialization, hands-on experience is critical. UWM offers all types of field experience and research opportunities, locally and at spots around the globe.

## Requirements

The anthropology minor requires 18 credits within the department, including the following:

Code	Title	Credits
ANTHRO 101	Introduction to Anthropology: Human Origins	3
ANTHRO 102	Introduction to Anthropology: Culture and Society	3
ANTHRO 103	Digging Up the Past: Approaches to Archaeology	3
9 credits at the 300-level or above		9
<b>Total Credits</b>		<b>18</b>

Students must earn 9 credits in advanced-level courses (numbered 300 or above) taken in residence at UWM. The College requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. If the student is interested in transitioning from a minor to a major, courses that satisfy the methods and/or research requirements in the major have been marked in the subfield tables below.

### Three Anthropology Subfields

#### Biological Anthropology

Code	Title	Credits
ANTHRO 301	Human Evolution and Variation	3
ANTHRO 401	Primate Populations <sup>1</sup>	3
ANTHRO 402	Primate Evolution	3
ANTHRO 403	The Human Skeleton	3
ANTHRO 404	Human Biological Variation	3
ANTHRO 405	Forensic Anthropology	3
ANTHRO 406	Evolutionary Biology & Human Diseases	3
ANTHRO 407	Neuroanthropology	3
ANTHRO 408	Hormones and Behavior	3

<sup>1</sup> This course may also satisfy a methods and/or research requirement in the Anthropology major; however, no single course may count for more than two requirements.

#### Archaeology

Code	Title	Credits
ANTHRO 304	Violence and Warfare in Prehistory	3
ANTHRO 305	The Celtic World	3
ANTHRO 306	European Archaeology	3
ANTHRO 307	World Archaeology: Foundations of Civilization	3
ANTHRO 308	Archaeology of North America	3

ANTHRO 309	Archaeology of Central and South America	3
ANTHRO 310	Archaeology of Middle America	3
ANTHRO 311	The World of the Ancient Maya	3
ANTHRO 313	Archaeology of the American Southwest	3
ANTHRO 420	Power and Ideology in Archaeology	3
ANTHRO 421	Cities in the Ancient World	3
ANTHRO 424	Ethnoarchaeology and Experimental Archaeology	3
ANTHRO 425	Hunter-Gatherer Lifeways: Past and Present	3
ANTHRO 426	Who Owns the Past?	3
ANTHRO 465	Historic Preservation in Archaeology	3
ANTHRO 466	Historical Archaeology	3
ANTHRO 501	Archaeology of Death	3
ANTHRO 502	Lithic Analysis: Stone Tools and Human Behavior	3
ANTHRO 525	Zooarchaeology: Analysis of Faunal Remains <sup>1</sup>	3
ANTHRO 535	Analysis of Archaeological Ceramics <sup>1</sup>	3
ANTHRO 565	Seminar in Regional Archaeology:	3

<sup>1</sup> This course may also satisfy a methods and/or research requirement in the Anthropology major; however, no single course may count for more than two requirements.

#### Sociocultural Anthropology

Code	Title	Credits
ANTHRO 302	Anthropology and Popular Culture	3
ANTHRO 314	American Indian Societies and Cultures	3
ANTHRO 320	Peoples and Cultures of Africa	3
ANTHRO 322	Europe in Anthropological Perspective	3
ANTHRO 325	Japanese Culture and Society	3
ANTHRO 326	Peoples and Cultures of South Asia	3
ANTHRO 328	Comparative Studies of Music, Race, and Gender in Nationalism	3
ANTHRO 335	American Indians of the Southeast	3
ANTHRO 340	Cultures of Online Games and Virtual Worlds	3
ANTHRO 349	Seminar in Ethnography and Cultural Processes	3
ANTHRO 351	Anthropological Theories of Religion	3
ANTHRO 354	Anthropology, Aesthetics, and Art	3
ANTHRO 355	Globalization, Culture, and Environment	3
ANTHRO 400	Human Sociobiology	3
ANTHRO 431	Cities and Culture	3
ANTHRO 439	Culture and Global Health	3
ANTHRO 440	Medical Anthropology	3
ANTHRO 441	Nature, Knowledge, and Technoscience in Anthropological Perspective	3
ANTHRO 442	Humanitarianism in Global Perspective	3
ANTHRO 443	Medicine and Pharmaceuticals in the Global Age	3
ANTHRO 445	Psychological Anthropology	3

ANTHRO 446	The Child in Different Cultures	3
ANTHRO 447	The Global Politics of Human Rights	3
ANTHRO 448	Cultural and Human Ecology	3
ANTHRO 449	The Human Economy	3
ANTHRO 450	Political Anthropology	3
ANTHRO 540	Applications of Anthropology	3
ANTHRO 543	Cross-Cultural Study of Religion	3
ANTHRO 544	Religious Giving in Anthropological Perspective	3
ANTHRO 649	Ethnography of Institutions	3

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Anthropology, MS

The Department of Anthropology offers programs of graduate study designed to provide a broad background in all significant facets of the discipline—biological as well as cultural, analytic as well as descriptive—while still encouraging specialization. It provides training both for students interested in an academic career in anthropology and for those concerned with practical issues approached from the integrative perspective of anthropology.

The department, in cooperation with the Milwaukee Public Museum, also offers a program leading to a Certificate in Museum Studies. The Milwaukee Public Museum, the fourth largest natural history museum in the country, is the site for methods courses that provide the student practical experience in museum work and for courses in the history and theory of museum exhibits. Each student's program of studies includes training in anthropological theory and methods, issues and problems in cultural anthropology, archaeology, anthropological linguistics and physical anthropology, as well as topics that focus on the student's area of particular interest.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found

by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements to be considered for admission to the program:

1. An undergraduate major in anthropology comparable to that at UWM.
2. Reason Statement.
3. Three letters of recommendation.
4. A writing sample such as a relevant term paper, article submission, etc.

Applicants without an undergraduate major in anthropology can meet the first requirement in either of two ways:

1. By having completed junior-level courses in three of the four subfields of anthropology (archaeology, biological anthropology, cultural anthropology, or linguistics) with grades of B or better. These courses may be taken at any accredited college or university if they were not part of the applicant's undergraduate career. Applicants also may take them as special students at UWM. Applicants planning to take such courses should check with the Director of Graduate Studies to verify that the courses will be acceptable.
2. Applicants lacking courses in anthropology may be admitted to the program and be allowed to take the core classes and advanced seminars without deficiencies under certain conditions. For example, an applicant with an outstanding GPA who has an undergraduate major closely related to their proposed field of specialization could be admitted under this option.

Application deadlines for admission to the program are January 15th for the following Fall semester and September 15th for the following Spring semester. Applicants requesting financial assistance may have other deadlines to be considered eligible. Contact the department's Director of Graduate Studies for specific financial aid deadlines.

## Credits and Courses

Students in the Master's degree program in Anthropology are required to take a minimum of 30 credits, 15 of which must be obtained in courses numbered 700 or above. Required courses differ by concentration (requirements for students seeking to acquire a Certificate in Museum Studies are listed on that page).

### Archaeology Concentration

### Anthropology MS with Museum Studies Certificate

Students completing any of the three above concentrations can also earn the Graduate Certificate in Museum Studies as outlined below. The student must select methods, advanced seminar, and electives courses appropriate to their concentration in consultation with their advisor. 21 credits are required for the Anthropology, MS<sup>1</sup>, and 18 credits must be completed for the Certificate program, for a total of 39 credits.

Code	Title	Credits

<b>Museum Studies Internship (or alternative course)</b>		
ANTHRO 621G	Internship in Museum Studies	3
<b>Total Credits</b>		<b>39</b>

<sup>1</sup> Students may request a waiver for any of the above required courses for the Anthropology MS degree except the advanced seminar. To request a waiver, a student must submit a letter to the Graduate Studies Committee. Requests must be accompanied by documentation demonstrating that the student is competent in the subject area of the course for which the waiver is sought. A waived course must be replaced by an anthropology course numbered 700 or above. Museum Studies courses cannot be waived.

Students must maintain a B (3.0) average or better overall. The three core courses must be completed with an average of 3.0 or better. Students with a grade below a B in a core course subsequently accepted into the PhD program must retake the course until they achieve a grade of B or better.

A thesis is required of all students; students may apply up to 6 credits of Research/Thesis courses toward meeting the minimum credits for the degree. The thesis must be formatted in accord with Graduate School requirements. Students will submit an electronic copy of the thesis to the

Graduate School and a signed, unbound “hard” copy to the Department of Anthropology.

## Additional Requirements

### Major Professor as Advisor

The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. A student selects an advisor, in consultation with the Director of Graduate Studies, by the end of the first semester of the program.

### Thesis Defense

The student must pass an oral thesis defense. The examination committee must consist of at least three individuals, with a majority being members of the Anthropology Department.

### Time Limit

The student must complete all degree requirements within five years of initial enrollment.

## Accelerated Program Option

This program is offered as part of an accelerated graduate program. For more information, see Accelerated Graduate Degrees (p. 37).

## Anthropology, MS/Library and Information Science, MLIS

In collaboration with several other academic units at UW-Milwaukee, SOIS offers students the opportunity to obtain two Master’s degrees concurrently—one in Library and Information Science (MLIS) and one in a subject area.

## Degree Requirements

- The number of degree credits needed for each of the coordinated programs is usually 12 fewer than the sum of the two programs if they were not taken simultaneously. *All degree requirements of each component must be satisfied.*
- The MLIS portion of the coordinated degrees can be completed online.
- Prerequisite to the award of either degree in this program is the simultaneous award of its counterpart degree.

### MLIS Component

The Master of Library and Information Science (MLIS) component of each of the coordinated programs includes 30 credits of SOIS courses. These include the MLIS core courses (12 credits). The remaining 18 MLIS credits are selected from the School’s offerings in accordance with the student’s goals in the coordinated degree program.

### MLIS/MS Anthropology

The MLIS/MS Anthropology Coordinated Degree Program (51 credits) prepares students for positions as curators of museum libraries; and as information specialists and researchers for local history collections and state historical societies.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet the UWM Graduate School requirements plus all admission requirements of both the School of Information Studies and the coordinated degree department. Please review the admission details of each program and contact an advisor with any questions.

### Degree Requirements

Students enrolled in this program concurrently pursue the MS degree in Anthropology (p. 874) (21 credits in Anthropology—9 fewer elective credits) and the MLIS degree (p. 493) (30 credits in SOIS). Candidates for the coordinated degree program will be expected to fulfill the degree requirements of both programs. Degrees will be awarded simultaneously.

## Credits and Courses

Students in the Master’s degree program in Anthropology are required to take a minimum of 30 credits, some of which are obtained by taking required courses. Required courses differ by concentration (requirements for students seeking to acquire a Certificate in Museum Studies are listed on that page).

## Important

You must refer to the catalog pages of both individual master's programs to ensure that you meet all requirements for both degrees.

## Anthropology, PhD

The Department of Anthropology offers programs of graduate study designed to provide a broad background in all significant facets of the discipline—biological as well as cultural, analytic as well as descriptive—while still encouraging specialization. It provides training both for students interested in an academic career in anthropology and for those concerned with practical issues approached from the integrative perspective of anthropology.

The department, in cooperation with the Milwaukee Public Museum, also offers a program leading to a Certificate in Museum Studies. The Milwaukee Public Museum, the fourth largest natural history museum in the country, is the site for methods courses that provide the student practical experience in museum work and for courses in the history and theory of museum exhibits. Each student's program of studies includes training in anthropological theory and methods, issues and problems in cultural anthropology, archaeology, anthropological linguistics and physical anthropology, as well as topics that focus on the student's area of particular interest.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus the following departmental requirements to be considered for admission to the program:

1. A general master's degree in anthropology or equivalent preparation without the master's degree. An applicant with a master's degree in another field may be admitted if the student has a grade point

average of 3.0 (4.0 scale) in graduate work and is approved by the departmental Graduate Admissions Committee.

2. Reason Statement.
3. Three letters of recommendation.
4. A writing sample such as a relevant term paper, article submission, etc.

Applicants are accepted into the PhD program only if a faculty member agrees to serve as major professor. Applicants are encouraged to contact the faculty member they wish to work with prior to applying to the program. The applicant's statement of purpose should identify their proposed major professor.

Application deadlines for admission to the program are January 15th for the following fall semester and September 15th for the following spring semester. Applicants requesting financial assistance may have other deadlines to be considered eligible. Contact the department's graduate advisor for specific financial aid deadlines.

## Reapplication

A student who receives the master's degree must formally reapply for admission to the Graduate School before continuing studies toward the PhD.

## Credits and Courses

Minimum degree requirement is 54 graduate credits beyond the bachelor's degree, at least 27 of which must be earned in residence at UWM. A student lacking any of the courses (or equivalents taken elsewhere) required to attain a Master's degree in their major area of concentration must complete these courses as part of their PhD work.

Code	Title	Credits
<b>Core</b>		
ANTHRO 801	A Survey of Physical Anthropology	3
ANTHRO 802	Perspectives on Prehistory	3
ANTHRO 803	Survey of Cultural Anthropology	3
<b>Methods</b>		
Select one of the following:		3
ANTHRO 380	Anthropological Applications of GIS	
ANTHRO 501	Archaeology of Death	
ANTHRO 525	Zooarchaeology: Analysis of Faunal Remains	
ANTHRO 535	Analysis of Archaeological Ceramics	
ANTHRO 560	Introduction to Research Methods in Anthropology	
ANTHRO 561	Techniques and Problems in Ethnography

ANTHRO 566	Archaeological Analysis and Report Preparation:	
ANTHRO 567	Archaeological Field School	
ANTHRO 568	Introduction to Anthropological Statistics	
ANTHRO 768	Topics in Advanced Research Design in Anthropology	
Other courses with the approval of the advisor and Director of Graduate Studies		

## Advanced Seminar

Select one of the following: 3

ANTHRO 940 Seminar in Problems in Cultural Anthropology:

ANTHRO 942 Seminar in Prehistory and Archaeology:

Other courses with the approval of the advisor and Director of Graduate Studies

## Foreign Language/Specialization

A foreign language or specialized scholarly skill

**Total Credits** 15

## Foreign Language or Specialized Scholarly Skill

The candidate may satisfy this requirement by demonstrating one of the following:

- Proficiency in a foreign language useful in the student's career.
- Proficiency in mathematical, statistical, or computer skills.
- Proficiency in other skills that meet departmental approval.

## Additional Requirements

### Doctoral Preliminary Examination and Dissertation Proposal Defense

The candidate must pass an oral doctoral preliminary examination as one of the qualifications for achieving dissertator status. Candidates choose two to four topics in consultation with their advisor for the Preliminary Examination. The topics must be broader than, but related to, the focus of the candidate's proposed dissertation research. The topics must be approved by the Department's Graduate Studies Committee and the Department faculty. The preliminary examination must be passed within five years of initial enrollment for a student to be eligible to continue in the program.

The candidate must pass a formal dissertation proposal hearing prior to starting dissertation research.

### Dissertation

The candidate must prepare a dissertation reporting in the candidate's own style the results of an original research investigation representing a substantive creative contribution.

The dissertation must be formatted in accord with Graduate School requirements. Students will submit an electronic copy of the dissertation to the Graduate School and a signed, unbound "hard" copy to the Department of Anthropology.

### Dissertation Defense

As the final step toward the degree, the candidate must pass an oral examination before their doctoral committee in defense of the dissertation.

### Residence

The student must meet minimum Graduate School residence requirements.

### Time Limit

All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.

## Death Investigation, Undergraduate Certificate (College of Letters and Science, Department of Anthropology)

The Biomedical Sciences Program, Criminal Justice Program, and Departments of Anthropology and Chemistry cooperate in offering three certificates in the area of forensic sciences. Sponsored jointly by the College of Letters and Science, the College of Health Professions and Sciences, and the Helen Bader School of Social Welfare, these certificate curricula are designed to train students in basic skills that will provide the foundation for careers in the fields of law enforcement, death investigation, pathology, and toxicology. Certificates are offered in Death Investigation, Forensic Science, and Forensic Toxicology. Where applicable, the curriculum meets the criteria required for professional certification examinations (Medicolegal Death Investigation, Toxicological Chemist).

### Eligibility

Undergraduate students who pursue a forensic sciences certificate maintain their identity as majors in their home departments and continue to progress toward a baccalaureate degree while in the certificate program. Courses include lecture presentations and laboratory experiences that cover fundamental areas of forensic science and provide unique instruction on techniques that are essential in the specific certificates. Students are given instruction by faculty members at UWM and forensic professionals in the Milwaukee community. Any of the programs may be pursued as a post-baccalaureate educational certificate. Individuals who are not enrolled in a degree program at UWM, but are seeking continuing education for career development, may be admitted to courses in the certificate programs by meeting prerequisites with equivalent experience or consent of the instructor.

### Requirements

To receive a certificate in Death Investigation, Forensic Science, or Forensic Toxicology, students must complete at least one half of the required credits on the UWM campus. A minimum grade point average of 2.500 must be achieved on the required credits. All options within the certificate require at least a basic knowledge of chemistry and biology. To meet this requirement, prior to registering themselves in the Forensic Sciences Certificate Program, students must successfully complete CHEM 100 or equivalent and BIO SCI 100 or equivalent.

The following courses must be completed successfully to obtain a Certificate in Death Investigation:

Code	Title	Credits
ANTHRO/BMS/CHEM/ CRM JST 281	Dead Men Do Tell Tales: An Introduction to Forensic Science	3
ANTHRO/BMS/CHEM/ CRM JST 285	Medicolegal Death Investigation	3
ANTHRO/BMS/CHEM/ CRM JST 481	Criminalistics	3
ANTHRO 403	The Human Skeleton	3
ANTHRO 405	Forensic Anthropology	3
CRM JST 110	Introduction to Criminal Justice	3
CRM JST 480	Criminal Evidence and Investigation	3

BMS 610 or HCA 212	Pharmacology Drugs Used and Abused	3
<b>Total Credits</b>		<b>24</b>

Additional courses with forensic content are listed below. Check prerequisites or consult the instructor for eligibility. These courses are recommended, but are not required, for the Certificate in Death Investigation:

Code	Title	Credits
ANTHRO/BMS/CHEM/ CRM JST 585	Internship in Forensic Toxicology	1-3
ANTHRO/BMS/CHEM/ CRM JST 589	Internship in Death Investigation	1-3
ANTHRO/BMS/CHEM/ CRM JST 594	Internship in Forensic Science	1-3
ANTHRO 404	Human Biological Variation	3
BIO SCI 539	Laboratory Techniques in Molecular Biology	4
CHEM 194	First-Year Seminar:	3
CHEM 524	Instrumental Analysis	3
CHEM 602	Biochemistry: Cellular Processes	3
BMS 555	Toxicology and Therapeutic Drug Monitoring	1
BMS 560	Molecular and Genetic Diagnostics	2
BMS 561	Molecular Diagnostics Laboratory	1

## Digital Cultures, Graduate Certificate

The graduate certificate in Digital Cultures enhances digital literacies at the graduate level through a program that engages with critical approaches across disciplines in the humanities, social sciences, and professions. Enrollment in the certificate is open to any student who has been admitted to a UWM graduate program.

The certificate is managed by an interdisciplinary committee with representation from Anthropology, History, English, the Center for 21<sup>st</sup> Century Studies, and the UWM Libraries Digital Humanities Lab, among other related areas.

For more information, please contact the program director, Dr. Stuart Moulthrop (moulthro@uwm.edu).

### Admission Requirements

#### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

#### Admission

Students wishing to pursue the Digital Cultures certificate must apply using the Graduate School's online admissions application system. There will be two admissions cycles per year, with deadlines of December 15 and June 1. Only students concurrently enrolled in a UWM graduate degree program and those who already hold a UWM graduate degree may be admitted to the certificate.

## Application

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (<https://graduateschool-apply.uwm.edu/>).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted into a certificate program.

## Credits and Courses

The Digital Cultures certificate requires completion of a minimum of 15 graduate credits.

Students must complete at least 6 credits of Required Core Courses, listed below. Students must take DAC 700 once, and must take DAC 701 and DAC 788 at least once each. Students will repeat either DAC 701 or DAC 788 one additional time to complete the 6 required core credits. Students may take additional repeats of DAC 701 or DAC 788, but credits in those courses will not count toward the required or elective credits for the certificate.

In addition, students must complete an additional 9 credits selected from the list of eligible elective courses below. Of those electives, at least 3 credits must be at the 700-level or above and students must take at least two different course numbers to complete their electives. Up to 3 credits of independent study may be approved by the director of the Digital Cultures certificate for inclusion among the electives. Approval should be noted on the student's program of study before application for certificate conferral.

Elective course substitutions may be approved by the certificate director on a case-by-case basis.

Code	Title	Credits

URBPLAN 792	Using Urban Geographic Information Systems (GIS) for Planning
WGS 500	Advanced Social Science Seminar in Women's and Gender Studies: (Topics: Digital Cultures and Sexualities)

**Total Credits** **15**

NOTE: Once approved, the courses FILM 763, FILM 764, and FILM 782 will replace the subtopics of FILM 420 at the graduate level. Additional 700-level Film courses will be proposed for two remaining subtopics of FILM 420, Filmscapes/Landscapes and Appropriated Media.

## Additional Requirements

### Transfer Credit

Outside transfer credits (graduate level work taken outside of UW-Milwaukee) are not permitted to count for this certificate program. However, based on the current UWM Transfer Credit Policy rules, UWM graduate courses may be eligible to:

1. Transfer into this certificate if they have not been used to satisfy any degree or certificate requirements, OR
2. Double-count toward a UWM graduate degree program and this certificate, OR
3. Double-count between this certificate and one other UWM graduate certificate.

### Grade Point Average Requirement

Students wishing to earn a Digital Cultures certificate must complete the required 15 graduate credit hours with an overall GPA of 2.75 or better.

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

### Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
  - Degree programs must approve the courses from certificates that can double count toward the degree.
  - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in PhD programs must still complete the minimum residency requirements)
  - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

### Time Limit

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

## Forensic Science, Undergraduate Certificate (College of Letters and Science, Department of Anthropology)

The Biomedical Sciences Program, Criminal Justice Program, and Departments of Anthropology and Chemistry cooperate in offering three certificates in the area of forensic sciences. Sponsored jointly by the College of Letters and Science, the College of Health Professions and Sciences, and the Helen Bader School of Social Welfare, these certificate curricula are designed to train students in basic skills that will provide the foundation for careers in the fields of law enforcement, death investigation, pathology, and toxicology. Certificates are offered in Death Investigation, Forensic Science, and Forensic Toxicology. Where applicable, the curriculum meets the criteria required for professional certification examinations (Medicolegal Death Investigation, Toxicological Chemist).

### Eligibility

Undergraduate students who pursue a forensic sciences certificate maintain their identity as majors in their home departments and continue to progress toward a baccalaureate degree while in the certificate program. Courses include lecture presentations and laboratory experiences that cover fundamental areas of forensic science and provide unique instruction on techniques that are essential in the specific certificates. Students are given instruction by faculty members at UWM and forensic professionals in the Milwaukee community. Any of the programs may be pursued as a post-baccalaureate educational certificate. Individuals who are not enrolled in a degree program at UWM, but are seeking continuing education for career development, may be admitted to courses in the certificate programs by meeting prerequisites with equivalent experience or consent of the instructor.

### Requirements

To receive a certificate in Death Investigation, Forensic Science, or Forensic Toxicology, students must complete at least one half of the required credits on the UWM campus. A minimum grade point average of 2.500 must be achieved on the required credits. All options within the certificate require at least a basic knowledge of chemistry and biology. To meet this requirement, prior to registering themselves in the Forensic Sciences Certificate Program, students must successfully complete CHEM 100 or equivalent and BIO SCI 100 or equivalent.

The following courses must be completed successfully to obtain a Certificate in Forensic Science:

Code	Title	Credits
ANTHRO/BMS/CHEM/ CRM JST 281	Dead Men Do Tell Tales: An Introduction to Forensic Science	3
ANTHRO/BMS/CHEM/ CRM JST 481	Criminalistics	3
CRM JST 110	Introduction to Criminal Justice	3
CRM JST 480	Criminal Evidence and Investigation	3
ANTHRO 403 or ANTHRO 404	The Human Skeleton Human Biological Variation	3
BMS 610 or HCA 212	Pharmacology Drugs Used and Abused	3

Select one of the following:

3-4

BIO SCI 539	Laboratory Techniques in Molecular Biology
CHEM 602	Biochemistry: Cellular Processes
BMS 560 & BMS 561	Molecular and Genetic Diagnostics and Molecular Diagnostics Laboratory

**Total Credits****21-22**

Additional courses with forensic content are listed below. Check prerequisites or consult the instructor for eligibility. These courses are recommended, but are not required, for the Certificate in Forensic Science:

Code	Title	Credits
ANTHRO/BMS/CHEM/CRM JST 285	Medicolegal Death Investigation	3
ANTHRO/BMS/CHEM/CRM JST 585	Internship in Forensic Toxicology	1-3
ANTHRO/BMS/CHEM/CRM JST 589	Internship in Death Investigation	1-3
ANTHRO/BMS/CHEM/CRM JST 594	Internship in Forensic Science	1-3
ANTHRO 405	Forensic Anthropology	3
CHEM 194	First-Year Seminar:	3
CHEM 524	Instrumental Analysis	3
BMS 555	Toxicology and Therapeutic Drug Monitoring	1

## Forensic Toxicology, Undergraduate Certificate (College of Letters and Science, Department of Anthropology)

The Biomedical Sciences Program, Criminal Justice Program, and Departments of Anthropology and Chemistry cooperate in offering three certificates in the area of forensic sciences. Sponsored jointly by the College of Letters and Science, the College of Health Professions and Sciences, and the Helen Bader School of Social Welfare, these certificate curricula are designed to train students in basic skills that will provide the foundation for careers in the fields of law enforcement, death investigation, pathology, and toxicology. Certificates are offered in Death Investigation, Forensic Science, and Forensic Toxicology. Where applicable, the curriculum meets the criteria required for professional certification examinations (Medicolegal Death Investigation, Toxicological Chemist).

### Eligibility

Undergraduate students who pursue a forensic sciences certificate maintain their identity as majors in their home departments and continue to progress toward a baccalaureate degree while in the certificate program. Courses include lecture presentations and laboratory experiences that cover fundamental areas of forensic science and provide unique instruction on techniques that are essential in the specific certificates. Students are given instruction by faculty members at UWM and forensic professionals in the Milwaukee community. Any of the programs may be pursued as a post-baccalaureate educational certificate. Individuals who are not enrolled in a degree program at UWM,

but are seeking continuing education for career development, may be admitted to courses in the certificate programs by meeting prerequisites with equivalent experience or consent of the instructor.

### Requirements

To receive a certificate in Death Investigation, Forensic Science, or Forensic Toxicology, students must complete at least one half of the required credits on the UWM campus. A minimum grade point average of 2.500 must be achieved on the required credits. All options within the certificate require at least a basic knowledge of chemistry and biology. To meet this requirement, prior to registering themselves in the Forensic Sciences Certificate Program, students must successfully complete CHEM 100 or equivalent and BIO SCI 100 or equivalent.

The following courses must be completed successfully to obtain a Certificate in Forensic Toxicology:

Code	Title	Credits
ANTHRO/BMS/CHEM/CRM JST 281	Dead Men Do Tell Tales: An Introduction to Forensic Science	3
ANTHRO/BMS/CHEM/CRM JST 481	Criminalistics	3
CHEM 524	Instrumental Analysis	3
BMS 610	Pharmacology	3
CRM JST 110	Introduction to Criminal Justice	3
CRM JST 480	Criminal Evidence and Investigation	3
ANTHRO 403 or ANTHRO 404	The Human Skeleton Human Biological Variation	3
<b>Total Credits</b>		<b>21</b>

Additional courses with forensic content are listed below. Check prerequisites or consult the instructor for eligibility. These courses are recommended, but are not required, for the Certificate in Forensic Toxicology:

Code	Title	Credits
ANTHRO/BMS/CHEM/CRM JST 285	Medicolegal Death Investigation	3
ANTHRO/BMS/CHEM/CRM JST 585	Internship in Forensic Toxicology	1-3
ANTHRO/BMS/CHEM/CRM JST 589	Internship in Death Investigation	1-3
ANTHRO/BMS/CHEM/CRM JST 594	Internship in Forensic Science	1-3
ANTHRO 405	Forensic Anthropology	3
BIO SCI 539	Laboratory Techniques in Molecular Biology	4
CHEM 194	First-Year Seminar: (with forensic subtitle)	3
CHEM 602	Biochemistry: Cellular Processes	3
BMS 555	Toxicology and Therapeutic Drug Monitoring	1
BMS 560	Molecular and Genetic Diagnostics	2
BMS 561	Molecular Diagnostics Laboratory	1

# Museum Studies, Graduate Certificate

The Museum Studies Program was established in 1963 as a cooperative venture between UW-Milwaukee and the Milwaukee Public Museum. The goal of the program is to provide, in a museum environment, the basic scholarship and functional training to equip the student with the skills necessary to assume professional entry-level museum positions in:

- museums
- galleries
- archives
- historical societies
- related institutions

Coursework is structured to develop a high degree of professionalism and responsibility, skills in problem solving, critical thinking and evaluation, writing, oral presentation, decision-making, and teamwork.

The program stresses professional museum standards and ethics and proper care and interpretation of collections while providing the opportunity for the development of expertise and special skills. The program is designed to be practical and realistic.

The Certificate in Museum Studies must be completed in conjunction with a UWM graduate degree program. The certificate is designed to supplement a student's graduate discipline and assumes that each student will have a firm footing in his/her academic field.

The program is listed and administered through the Anthropology Department at UW-Milwaukee and taught off-campus at the Milwaukee Public Museum (MPM) by museum professionals. All applicants to the Museum Studies certificate program must comply with a background check as required by Milwaukee Public Museum policy. Individuals with criminal records cannot be admitted to the program.

Regular individual academic advising and career planning are important features of the program. The majority of graduates of the program find a paid position in a museum within one year of graduation. Graduates of the program have assumed responsibilities in museums and related institutions across the country as directors, curators, collections managers, registrars, educators, and more.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

Students must complete a minimum of 15 credits to earn the Museum Studies Graduate Certificate. Those interested in attaining the Certificate must indicate this in their application to their chosen graduate degree program in addition to completing a separate application for the Certificate. Students deciding to pursue the Certificate after having started a graduate degree program must both notify in writing the Director of Graduate Studies of their chosen graduate program and complete the Certificate online application.

## Application

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (<https://graduateschool-apply.uwm.edu/>).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted into a certificate program.

## Credits and Courses

The certificate program consists of a minimum of 15 credits at the graduate level. ANTHRO 620 is the required gateway course for the certificate, but may be taken prior to admission to the certificate program for undergraduate credit. If ANTHRO 620 is taken for undergraduate credit, then 15 graduate credits are required for the certificate. If ANTHRO 620 is taken at the graduate level, a total of 18 credits are required for the certificate.

In all cases, the course prerequisites will be enforced, as the curriculum is sequenced.

Code	Title	Credits
ANTHRO 620	Museum Fundamentals	3
ANTHRO 621G	Internship in Museum Studies	3
ANTHRO 720	History and Theory of Museums	2
ANTHRO 721	Administration and Organization of Museums	3
ANTHRO 722	Visitor Experience Design in Museums	3
ANTHRO 723	Museum Collections Management and Curation	3
ANTHRO 725	Professionalism Capstone in Museum Studies	1
<b>Total Credits</b>		<b>18</b>

<sup>1</sup> With approval of the program director an elective may be substituted for 621.

Anthropology, Art History, History, and Educational Psychology all offer courses that supplement the Museum Studies curriculum and such courses will count as electives. The structure and scheduling of the coursework requires at least two years for completion, since each course is taught only once a year and courses must be taken in sequence.

## Additional Requirements

### Transfer Credit

No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

## Grade Point Average Requirement

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

## Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
  - Degree programs must approve the courses from certificates that can double count toward the degree.
  - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in PhD programs must still complete the minimum residency requirements)
  - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

## Time Limit

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

## Faculty

Name	Rank	Degree	School	Graduate Faculty	Emeritus Faculty
Michael Aschenbrenner	Senior Lecturer	MA	University of Wisconsin-Milwaukee		
Jocelyn Boor	Lecturer	PhD	University of Wisconsin-Milwaukee		
Derek Counts	Professor	PhD	Brown University	✓	
Jennifer Johung	Associate Professor	PhD	University of California, Berkeley	✓	
Richard Leson	Associate Professor	PhD	Johns Hopkins University	✓	
David Pacifico	Assistant Professor and Director, Emile H. Mathis Gallery and UWM Art Collection	PhD	University of Chicago	✓	
Sarah Schaefer	Assistant Professor	PhD	Columbia University	✓	
Tanya Tiffany	Associate Professor	PhD	Johns Hopkins University	✓	
Ying Wang	Associate Professor	PhD	University of Pittsburgh	✓	
Katharine (Kay) Wells	Assistant Professor	PhD	University of Southern California	✓	

## Art History, BA

Students interested in examining history through the lens of paintings, sculptures, film, architecture, graphics, and decorative arts will find Art History to be an ideal major. Throughout time, humans have expressed their emotions, beliefs, and ideals through these mediums, and today's

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

## Art History

The history of art is the study of humanity's efforts to express its ideas, experiences, and beliefs in visual and graphic form: in painting, sculpture, architecture, graphic art, design, film, and performance arts. It also is the historical study of the attempt to reorder the physical environment through urban and architectural planning. Courses in the Department of Art History are designed to train students to deal with such studies in the context of the cultural, social, political, economic, and religious climates of different historical eras, as well as to foster an understanding of the specific development, materials, theory, and parameters of art. Internships and colloquia in art museum studies afford qualified students more specialized experience in connoisseurship, curatorial practices, and arts management.

Students in Art History at UWM have unique access to thousands of pieces of artwork. The Emile H. Mathis Art Gallery contains over 7,000 objects covering Western and non-Western art and spanning a time frame from ancient to contemporary art. Notable artists represented in the Gallery include Jean Arp, Joan Miro, Henry Moore, Victor Vasarely, Alexander Calder, and Pablo Picasso. Check out the video of the Mathis Gallery (<https://www.youtube.com/watch?v=7CfNKGnwnoQ>).

## Programs

- Art History, BA (p. 884)
- Art History, MA (p. 889)
- Art History, MA/Library and Information Science, MLIS (p. 891)
- Art History, Minor (p. 892)

students can use these objects to understand culture, society, politics, economies, and religions and apply the lessons learned to modern issues.

What can you do with an Art History major? The answer turns out to be quite a bit. Art History majors follow a variety of career paths, and their skills are applicable to many types of jobs. Popular careers include teacher or professor, museum or gallery curator, art dealer, arts administrator, art appraiser, and historic preservation consultant, some

of which require education beyond a bachelor’s degree. Other students choose to branch out into related fields that require a broad knowledge of culture and communication such as journalism, law, marketing, administration, interior design, photography, library science, and cultural/heritage studies. Much of what happens after college depends on what a student does during college. A student who wants to work in a gallery should ensure the s/he gains hands-on experience during college through internships, volunteer work, and part-time jobs. Experiential learning is critical - it grounds what a student learns in the classroom with the real world.

Students who are more interested in the production of art (such as becoming a film maker or artist) should explore the majors offered through UWM’s Peck School of the Arts (p. 100) within the College of the Arts & Architecture.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	

Or equivalent course	
<i>Part B</i>	
Course designated as QL-B; may be completed through a major-specific course requirement	
<b>Arts</b>	
Select 3 credits	3
<b>Humanities</b>	
Select 6 credits	6
<b>Social Sciences</b>	
Select 6 credits	6
<b>Natural Sciences</b>	
Select 6 credits (at least two courses including one lab)	6
<b>UWM Foreign Language Requirement</b>	
Complete Foreign Language Requirement through:	
Two years (high school) of a single foreign language	
Two semesters (college) of a single foreign language	
Or equivalent	
<b>UWM Cultural Diversity Requirement</b>	
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM’s Cultural Diversity requirement	

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3

MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is *NOT* the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways: 0-18		
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		

Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition,

students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Art History Major Requirements

The major in art history consists of 30 credits in the department.

Code	Title	Credits
<b>Required</b>		
ARTHIST 101	Ancient and Medieval Art and Architecture	3
ARTHIST 102	Renaissance to Modern Art and Architecture	3
ARTHIST 104 or ARTHIST 105	African, New World and Oceanic Art and Architecture Asian Art and Architecture	3
<i>L&amp;S research requirement</i>		
ARTHIST 501	Colloquium in Method and Theory <sup>1</sup>	3
<b>Distribution</b>		
3 credits in each of 5 of 6 Art Historical areas: Ancient, Medieval, Renaissance/Baroque, Modern (19th/20th Century), Non-Western, Film. At least 12 of 15 credits must be at 300 level or above.		15
<i>Ancient</i>		
ARTHIST 210	The Art and Architecture of the First Cities: A Global Perspective	
ARTHIST 312	Minoan and Mycenaean Art and Archaeology	
ARTHIST 313	Greek Art and Archaeology	
ARTHIST 314	Art and Archaeology of the Ancient Near East	
ARTHIST 315	Art and Archaeology of Ancient Egypt	
ARTHIST 316	Roman Art and Archaeology	
ARTHIST 412	Cities and Sanctuaries of Ancient Greece	
ARTHIST 413	Greek Sculpture	
<i>Medieval</i>		
ARTHIST 220	Introduction to Medieval Art and Architecture	
ARTHIST 324	Early Christian and Byzantine Art and Architecture	
ARTHIST 325	Early Medieval Art in the West	

ARTHIST 327	Caliphs, Emirs, & Kings: Art & Architecture of Medieval Spain
ARTHIST 328	Frankish Art of the Crusader Period in the Levant
ARTHIST 329	Late Medieval Art and Architecture
ARTHIST 425	
ARTHIST 426	
<i>Renaissance/Baroque</i>	
ARTHIST 237	Northern Renaissance Art
ARTHIST 240	Introduction to Prints and Printmaking: History and Techniques
ARTHIST 241	Introduction to Baroque Art
ARTHIST 255	Survey of Italian Renaissance Painting and Sculpture
ARTHIST 333	High Renaissance Art in Italy
ARTHIST 342	Art and Society in Renaissance Florence
ARTHIST 343	Art and Culture of Spain and Latin America, 1500-1750
ARTHIST 431	Renaissance Architecture in Italy
<i>Modern</i>	
ARTHIST 240	Introduction to Prints and Printmaking: History and Techniques
ARTHIST 250	Introduction to American Art
ARTHIST 261	Modern Art
ARTHIST 349	American Postmodernism 1960-2000
ARTHIST 353	American Art: Colonial Period - 1870
ARTHIST 354	American Art: 1870 - Present
ARTHIST 355	American Folk Art
ARTHIST 357	Rococo to Revolution: European Art, 1750-1850
ARTHIST 358	Realism to Post-Impressionism: European Art, 1850-1900
ARTHIST 364	Modernism and the Avant-Garde, 1900-1960
ARTHIST 365	History of Photography
ARTHIST 366	German Painting, 1800-1933
ARTHIST 367	Latin American Modernisms
ARTHIST 368	History of Modern Design
ARTHIST 369	Introduction to Contemporary Art
ARTHIST 370	Trends in Contemporary Architecture
ARTHIST 447	Topics in Early Modern Art:
ARTHIST 458	A Comparative History of Architecture and Urbanism:
ARTHIST 462	Frank Lloyd Wright
ARTHIST 463	Cubism and its Inheritance
ARTHIST 465	Dada and Surrealist Art
ARTHIST 469	American Artists Revealed:
ARTHIST 470	Topics in American Art:
ARTHIST 472	
<i>Non-Western</i>	
ARTHIST 105	Asian Art and Architecture
ARTHIST 251	Introduction to the Art and Architecture of Latin America

ARTHIST 270	Pre-Columbian Art, Myth, and Legacy	
ARTHIST 281	Modern and Contemporary Chinese Art	
ARTHIST 367	Latin American Modernisms	
ARTHIST 371	African Art	
ARTHIST 372	Art of the Inca and their Ancestors	
ARTHIST 373	Art of Ancient Mexico and Central America	
ARTHIST 375	Art of the Aztec Empire	
ARTHIST 382	Chinese Art and Architecture	
ARTHIST 383	Japanese Art and Architecture	
ARTHIST 384	Art and Immortality in Ancient China	
ARTHIST 386	Art, Ritual, and Ethnicity of China	
ARTHIST 387	Buddhist Art and Architecture	
ARTHIST 474	Maya Art	
ARTHIST 480		
ARTHIST 481	Topics in Chinese Art:	
ARTHIST 482	Topics in Non-Western Art:	
<i>Film</i>		
ARTHIST 111	Entertainment Arts: Film, Television, and the Internet	
ARTHIST 205	History of Film I: Development of an Art	
ARTHIST 206	History of Film II: Development of an Art	
ARTHIST 307	Film Directors:	
ARTHIST 308	Film Styles:	
<b>Elective</b>		
3 credits at any level		3
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> Taken during their junior or senior year with permission from the instructor.

The major is intended for students who are interested in obtaining a well-balanced approach to the study of art history. It provides an introduction to most major areas of inquiry in art history and to different scholarly approaches to study in this field. It is recommended especially for students who wish to continue into graduate studies in art history and to pursue careers in college teaching or museum or gallery work.

A minimum 2.0 GPA is required in all ARTHIST courses attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Fifteen credits at the 300 level or above must be taken in residence at UWM.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Accelerated Program Option

This program is offered as part of an accelerated graduate program. For more information, see Accelerated Graduate Degrees (p. 37).

## Honors in the Major

Art history majors who meet the following criteria are awarded honors in the major:

1. 3.500 cumulative GPA in all UWM graded credits;
2. 3.500 GPA in all credits that count toward the major;
3. 3.500 GPA in all advanced credits that count toward the major;
4. Completion of one of the following:
  - Six credits of an art historical language, at 200 level or above, with grades of B or better. Art historical language must be approved by a relevant faculty member; or
  - The Art History Department's translation exam with passing grade;
5. Completion of ARTHIST 501 with grade of A- or better.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Art History, MA

The Department of Art History offers a graduate program leading to a Master of Arts degree. The graduate program prepares students for either a career in the arts or for PhD-level work at other universities. Course offerings cover the full range of western art, including film studies and electronic arts. Non-western courses in Pre-Columbian, Asian, Islamic, and African art are also offered.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements to be considered for admission to the program:

1. A minimum of 15 credits in Art History.
2. Two letters of recommendation from persons familiar with applicant's academic or professional activities and potential.
3. A writing sample to the Department of Art History, for example, an undergraduate art historical term paper.
4. Strongly recommended, though not required: background in languages, history or classics. Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses.

The student is expected to satisfy deficiency requirements within three enrolled semesters. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

## Credits and Courses

### Thesis Track: MA in Art History with an Emphasis on Methods and Criticism

Minimum degree requirement is 30 graduate credits in Art History, of which a minimum of 21 credits must be 700- to 900-level courses, as follows:

Code	Title	Credits
ARTHIST 700	Proseminar in Art History <sup>1</sup>	3
ARTHIST 891	Art Museum Internship	3
6 credits of ARTHIST 990 Thesis Research		6
9 credits of other 700- to 900-level Art History courses (excluding ARTHIST 703 and ARTHIST 704)		9
9 credits of additional graduate-level Art History courses		9
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> Must be taken in the student's first fall semester.

Of the total 30 credits, 12 credits must be distributed across three of the following four areas: Ancient-Medieval; Early Modern; Modern (1850-the Present including Film); and non-Western. At least 9 of these credits must be taken in courses numbered 700 or above.

The following courses may not be used to satisfy the distribution requirement, although they will count toward the overall number of credits needed to graduate:

Code	Title	Credits
ARTHIST 703	Introduction to Art Museum Studies I	3
ARTHIST 704	Introduction to Art Museum Studies II	3

Under special circumstances, 3 credits in 700- to 900-level work may be substituted for 3 of the 6 credits of thesis research. In addition, students may take a maximum of 6 credits of independent research (890, 891 and/or 999); however, these credits may not be taken in the first 6 credits of graduate work in the Department, and not until all deficiencies (if any) have been satisfied. Furthermore, they may not be counted toward the required 21 credits of 700- to 900-level courses. They will count, however, toward the overall number of credits needed to graduate. Upon petition to the director of graduate studies, a student may be permitted to take up to 6 credits in appropriate areas outside Art History (e.g., anthropology, literature, history, music history, philosophy, film).

### Thesis

In addition to completing all the coursework required for the degree, the student must write a thesis on a subject selected in consultation with the advisor. This study must demonstrate the student's ability to organize material and their familiarity with relevant research methods and art-historical literature. The student must pass an oral defense of the thesis.

### Curatorial Track: MA in Art History with an Emphasis on Museums and Curatorial Practice

Minimum degree requirement is 30 graduate credits in Art History, of which a minimum of 27 credits must be 700- to 900-level courses, as follows:

Code	Title	Credits
ARTHIST 700	Proseminar in Art History <sup>1</sup>	3
ARTHIST 891	Art Museum Internship	3

ARTHIST 703	Introduction to Art Museum Studies I	3
ARTHIST 704	Introduction to Art Museum Studies II	3
6 credits of ArtHist 991 Thesis Exhibition		6
12 additional credits in 700- to 900-level courses		9
3 additional credits in graduate-level Art History courses		3
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> Must be taken in the student's first fall semester.

Of the total 30 credits, 12 credits must be distributed across three of the following four areas: Ancient-Medieval; Early Modern; Modern (1850-the Present including Film); and non-Western. At least 9 of these credits must be taken in courses numbered 700 or above.

Under special circumstances, 3 credits in 700- to 900-level work may be substituted for 3 of the 6 credits of thesis research. In addition, students may take a maximum of 3 credits of independent research (890, 891 and/or 999); however, these credits may not be taken in the first 6 credits of graduate work in the Department, and not until all deficiencies (if any) have been satisfied. Furthermore, they may not be counted toward the required 27 credits of 700- to 900-level courses. They will count, however, toward the overall number of credits needed to graduate. Upon petition to the graduate advisor, a student may be permitted to take up to 3 credits in appropriate areas outside Art History (e.g., anthropology, literature, history, music history, philosophy, film).

### Exhibition

The student on this curatorial track must also organize an exhibition accompanied by a scholarly catalog on a subject selected in consultation with the advisor. This exhibition must demonstrate the student's ability to organize material and their familiarity with relevant research methods and art historical literature. The exhibition is considered the equivalent of a formal thesis and the accompanying written work must be submitted to the Graduate School in appropriate format.

## Areas for Distribution Requirement

Code	Title	Credits
<b>Courses by Distribution Area</b>		
<i>Ancient-Medieval</i>		
ARTHIST 312G	Minoan and Mycenaean Art and Archaeology	3
ARTHIST 313G	Greek Art and Archaeology	3
ARTHIST 314G	Art and Archaeology of the Ancient Near East	3
ARTHIST 315G	Art and Archaeology of Ancient Egypt	3
ARTHIST 316G	Roman Art and Archaeology	3
ARTHIST 323G	Age of Apocalypse: Western European Art after the First Millennium	3
ARTHIST 324G	Early Christian and Byzantine Art and Architecture	3
ARTHIST 325G	Early Medieval Art in the West	3
ARTHIST 326G	Chivalry and Spirituality: French Gothic Art and Architecture	3
ARTHIST 327G	Caliphs, Emirs, & Kings: Art & Architecture of Medieval Spain	3
ARTHIST 328G	Frankish Art of the Crusader Period in the Levant	3
ARTHIST 329G	Late Medieval Art and Architecture	3

ARTHIST 412G	Cities and Sanctuaries of Ancient Greece	3
ARTHIST 413G	Greek Sculpture	3
ARTHIST 720	Colloquium in Medieval Art/Architecture:	3
<i>Early Modern</i>		
ARTHIST 333G	High Renaissance Art in Italy	3
ARTHIST 341G	Art of the Dutch Golden Age	3
ARTHIST 342G	Art and Society in Renaissance Florence	3
ARTHIST 353G	American Art: Colonial Period - 1870	3
ARTHIST 357G	Rococo to Revolution: European Art, 1750-1850	3
ARTHIST 431G	Renaissance Architecture in Italy	3
ARTHIST 447G	Topics in Early Modern Art:	3
ARTHIST 730	Colloquium in Renaissance/Baroque Art/Architecture:	3
<i>1850 to the Present (including Film)</i>		
ARTHIST 307G	Film Directors:	3
ARTHIST 308G	Film Styles:	3
ARTHIST 349G	American Postmodernism 1960-2000	3
ARTHIST 354G	American Art: 1870 - Present	3
ARTHIST 355G	American Folk Art	3
ARTHIST 356G	American Architecture	3
ARTHIST 358G	Realism to Post-Impressionism: European Art, 1850-1900	3
ARTHIST 364G	Modernism and the Avant-Garde, 1900-1960	3
ARTHIST 365G	History of Photography	3
ARTHIST 366G	German Painting, 1800-1933	3
ARTHIST 368G	History of Modern Design	3
ARTHIST 369G	Introduction to Contemporary Art	3
ARTHIST 376G	History and Theory of New Media Art	3
ARTHIST 377G	Art and Performance	3
ARTHIST 462G	Frank Lloyd Wright	3
ARTHIST 463G	Cubism and its Inheritance	3
ARTHIST 465G	Dada and Surrealist Art	3
ARTHIST 469G	American Artists Revealed:	3
ARTHIST 470G	Topics in American Art:	3
ARTHIST 750	Colloquium in American Art:	3
ARTHIST 760	Colloquium in Modern Art/Architecture:	3
ARTHIST 761	Colloquium in Film History, Theory, Criticism:	3
<i>Non-Western</i>		
ARTHIST 343G	Art and Culture of Spain and Latin America, 1500-1750	3
ARTHIST 367G	Latin American Modernisms	3
ARTHIST 371G	African Art	3
ARTHIST 372G	Art of the Inca and their Ancestors	3
ARTHIST 373G	Art of Ancient Mexico and Central America	3
ARTHIST 375G	Art of the Aztec Empire	3
ARTHIST 380G	Chinese Painting	3
ARTHIST 382G	Chinese Art and Architecture	3

ARTHIST 383G	Japanese Art and Architecture	3
ARTHIST 384G	Art and Immortality in Ancient China	3
ARTHIST 386G	Art, Ritual, and Ethnicity of China	3
ARTHIST 387G	Buddhist Art and Architecture	3
ARTHIST 474G	Maya Art	3
ARTHIST 481G	Topics in Chinese Art:	1-3
ARTHIST 482G	Topics in Non-Western Art:	3
ARTHIST 740	Colloquium in Latin American Art:	3
ARTHIST 770	Colloquium in Non-Western Art:	3

## Additional Requirements

### Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. A student who is not assigned to an advisor at time of admission should immediately contact the Graduate Advisor.

### Language Requirement

Students must demonstrate a reading knowledge of one art historical language, e.g. French, German, Italian, Spanish or other language as appropriate. Students must take the departmental reading exam in the language of their choice at least once by the time they have completed 9 credits. If they do not pass the exam on the first attempt, they will be expected to enroll in an appropriate language course. Students may not enroll in thesis research (990) unless they have passed the language examination.

### Thesis or Exhibition

The student must either write a thesis or organize an exhibition accompanied by a scholarly catalog on a subject selected in consultation with the advisor. This study or exhibition must demonstrate the student's ability to organize material and familiarity with research methods and art historical literature pertinent to the student's topic and area of interest. The exhibition is considered the equivalent of a formal thesis and the accompanying written work must be submitted to the Graduate School in appropriate format.

### Time Limit

The student must complete all degree requirements within five years of initial enrollment. It is expected that a full-time student will normally complete all of the requirements for the degree within two years.

## Accelerated Program Option

This program is offered as part of an accelerated graduate program. For more information, see Accelerated Graduate Degrees (p. 37).

## Art History, MA/Library and Information Science, MLIS

In collaboration with several other academic units at UW-Milwaukee, SOIS offers students the opportunity to obtain two Master's degrees concurrently—one in Library and Information Science (MLIS) and one in a subject area.

## Degree Requirements

- The number of degree credits needed for each of the coordinated programs is usually 12 fewer than the sum of the two programs if

they were not taken simultaneously. *All degree requirements of each component must be satisfied.*

- The MLIS portion of the coordinated degrees can be completed online.
- Prerequisite to the award of either degree in this program is the simultaneous award of its counterpart degree.

### MLIS Component

The Master of Library and Information Science (MLIS) component of each of the coordinated programs includes 30 credits of SOIS courses. These include the MLIS core courses (12 credits). The remaining 18 MLIS credits are selected from the School's offerings in accordance with the student's goals in the coordinated degree program.

### MLIS/MA Art History

The MLIS/MA Art History Coordinated Degree Program prepares students for positions as art librarians, as curators of rare books and special collections, and as archivists, registrars, and collections managers in art museums.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

Students are admitted to both graduate programs separately, and admission requirements are consistent with those specified by the UWM Graduate School, the Art History MA of the College of Letters and Science, and the Library and Information Science MLIS of the School of Information Studies.

## Credits and Courses

The MA in Art History normally has a minimum requirement of 30 credits from Art History courses. For the coordinated MA Art History/MLIS degree program, however, students can substitute 6 credits in Information Studies courses for 6 credits of Art History courses. This program, therefore, requires a total of 54 credits. Students must complete the 30 credits required for the MLIS component and the 24 credits in Art History courses as specified below.

### Basic Required MLIS Courses

Code	Title	Credits
<b>Core Courses</b>		
INFOST 501	Foundations of Library and Information Science	12
INFOST 511	Organization of Information	
INFOST 571	Information Access and Retrieval	
INFOST 799	Research Methods in Information Studies	
<b>Other MLIS courses</b>		<b>18</b>
<b>Total Credits</b>		<b>30</b>

### Art History Courses

Minimum degree requirement is 24 credits in Art History, of which a minimum of 18 credits must be 700- to 900-level courses. To fulfill the

Distribution Requirement, students must complete at least 3 credits in each of the following four areas 1) Ancient/Medieval, 2) Renaissance/Baroque, 3) Modern/Contemporary, and 4) Non-Western. At least 6 of these credits must be fulfilled at the 700-level or above.

Code	Title	Credits
<b>Core Courses</b>		
ARTHIST 700	Proseminar in Art History (Must be taken in the student's first fall semester)	3
ARTHIST 891	Art Museum Internship	3
ARTHIST 990	Thesis Research	6
<b>Distribution Requirement</b>		<b>12</b>
<b>Total Credits</b>		<b>24</b>

### Important

You must refer to the catalog pages of both individual master's programs to ensure that you meet all requirements for both degrees.

## Additional Requirements

### Thesis

A thesis, on a subject selected in consultation with the advisor. This study must demonstrate the student's ability to organize material and her/his familiarity with relevant research methods and art-historical literature. The student must pass an oral defense of the thesis.

### Language Translation Exam

The student must pass a language translation exam.

## Art History, Minor

Students interested in examining history through the lens of paintings, sculptures, film, architecture, graphics, and decorative arts will find Art History to be an ideal major. Throughout time, humans have expressed their emotions, beliefs, and ideals through these mediums, and today's students can use these objects to understand culture, society, politics, economies, and religions and apply the lessons learned to modern issues.

What can you do with an Art History minor? The answer turns out to be quite a bit.

Alumni follow a variety of career paths, and their skills are applicable to many types of jobs. Popular careers include teacher or professor, museum or gallery curator, art dealer, arts administrator, art appraiser, and historic preservation consultant, some of which require education beyond a bachelor's degree. Other students choose to branch out into related fields that require a broad knowledge of culture and communication such as journalism, law, marketing, administration, interior design, photography, library science, and cultural/heritage studies.

Much of what happens after college depends on what a student does during college. A student who wants to work in a gallery should ensure the s/he gains hands-on experience during college through internships, volunteer work, and part-time jobs. Experiential learning is critical - it grounds what a student learns in the classroom with the real world.

Students who are more interested in the production of art (such as becoming a film maker or artist) should explore the majors offered through UWM's Peck School of the Arts (p. 100).

## Requirements

Students should declare the minor in art history after they have completed 15 degree credits, and before they have earned 75 degree credits. A minimum 2.0 GPA must be maintained in all Art History courses attempted at UWM. In addition, students must attain a 2.0 GPA in all minor credits attempted, including any transfer work. It requires at least 18 credits in the department, including the following:

Code	Title	Credits
ARTHIST 101	Ancient and Medieval Art and Architecture	3
ARTHIST 102	Renaissance to Modern Art and Architecture	3
Select 9 credits in ARTHIST at the 300 level or above in residence at UWM		9
Select 3 additional credits in ARTHIST		3
<b>Total Credits</b>		<b>18</b>

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact let-sci@uwm.edu.

## Asian Studies, Undergraduate Certificate

The Asian Studies Undergraduate Certificate combines the study of Asian languages, culture, politics, and history, and is particularly well-suited to majors from business, global studies, international studies, journalism and advertising, the visual and performing arts, communication, economics, the natural sciences, political science, or any discipline that involves interactions with the Asian world.

Students who obtain this certificate are better equipped to work in global industry and business, international politics, technology, tourism, and media because they're able to better analyze Asian societies and act with cultural awareness and understanding. Students can choose to obtain the certificate with or without an Asian language focus, with the latter requiring more language classes. The certificate is interdisciplinary with coursework from economics, history, comparative literature, anthropology, political science, sociology, and art history.

## Eligibility

The Undergraduate Certificate in Asian Studies is open to all students seeking a bachelor's degree from UWM, to those who previously received a bachelor's degree from UWM or any other accredited college or university, and to people who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject area.

## Requirements

Students enrolling in the Asian Studies Certificate Program are required to earn a minimum of 18 credits, at least 9 of which must be completed at UWM. Of the 18 credits, at least 12 credits must be taken in courses in the College of Letters and Science, and 9 of those must be at the upper level (numbered 300 and above). Of the required credits, at least 9 must be at the 300 level or above, of which 6 credits must be non-language courses. Courses counting for the certificate may not be taken on a credit/no credit basis. Students must achieve a grade point average of 2.700 or above in all courses counting toward the certificate. A maximum of 6 credits in a combination of approved independent study and/or relevant Asia-focused courses from other schools and colleges may count toward the requirements of the program.

To earn the Certificate in Asian Studies, students must fulfill the requirements for one of two tracks:

- Track A (22 credits): 6 courses, including 2 courses in a single Asian language (10 crs.), 1 gateway course (3 crs.), and 3 upper-level electives (9 crs.); or
- Track B (18-22 credits): 6 courses, including 1 gateway course (3 crs.) with the remaining courses chosen from the list of electives. Students must take a minimum of 3 upper-level courses (9 crs.), and no language courses are required. However, as electives, students may choose to take a course in any single Asian language or 2 courses (up to 10 crs.) in any combination of Chinese, Japanese, or Korean.

Students majoring or minoring in Chinese or Japanese may only earn the Asian Studies Certificate through Track B. Interested students should contact the Asian Studies Program Advisor as soon as they decide to pursue the certificate. The advisor's role is to help the student design a program of study from the among the available courses and to guide the student in completing that program.

## Biological Sciences

Biology is the study of life. Biologists analyze organism functions at the cellular and molecular levels using genetics, biochemistry, and microscopy. They also study interactions between organisms and with the environment by examining behavior, morphology, physiology, and genetics. Students can take a broad curriculum within Biological Sciences or focus on specific areas, such as ecology, evolution and behavior, cell and molecular biology, or microbiology.

Studies in Biological Sciences have applications across many areas including agriculture, medicine, and the environment. Biological Sciences is a popular choice for students preparing for careers in healthcare, agriculture, natural resources and environmental sciences, food management, bioremediation, as well as the biomedical and biotechnology fields. A degree in Biological Sciences also prepares students for professional careers in medicine, dentistry, pharmacy, veterinary science, and education, and graduate studies in the life sciences.

## Field Stations

Pigeon Lake Field Station is a natural laboratory sponsored by the 14 campuses of the University of Wisconsin System, located in the Chequamegon National Forest, 30 miles from Lake Superior in northern Wisconsin's Bayfield County. Pigeon Lake Field Station offers summer programs in a variety of disciplines, including biology. Work completed

at Pigeon Lake is credited as resident study by UWM. For additional information, contact the Biological Sciences Department office.

The UWM Field Station is an area of almost 2,500 acres devoted to the study of natural history and biology. Located about 25 miles north of campus on the Cedarburg Bog in the Town of Saukville, the station includes a wide variety of natural areas ranging from old-growth forest to acid bog and several lakes. Many biological sciences courses use the Field Station for instruction and to provide hands-on research opportunities. The Field Station provides internship and independent study opportunities for biology students; it also offers short courses for credit through the department. For additional information, contact the Biological Sciences Department office.

## Programs

- Biological Sciences, BA (p. 896)
- Biological Sciences, BS (p. 902)
- Biological Sciences, Minor (p. 908)
- Biological Sciences, MS (p. 909)
- Biological Sciences, PhD (p. 910)
- Microbiology, BS (p. 912)
- Neuroscience, BS (Department of Biological Sciences) (p. 916)

## Faculty

Name	Rank	Degree	School	Graduate Faculty	Emeritus Faculty
Filipe Alberto	Associate Professor	PhD	University of Algarve, Portugal	✓	
Sonia Bardy	Associate Professor	PhD	Queen's University, Ontario	✓	
John Berges	Professor	PhD	University of British Columbia	✓	
Gerald Bergtrom	Professor	PhD			✓
Martin Boraas	Associate Professor	PhD			✓

Dazhong (Dave) Zhao	Professor	PhD	The Chinese Academy of Sciences, Beijing, China		✓

## Biological Sciences, BA

Biology is the study of life. Biologists analyze organism functions at the cellular and molecular levels using genetics, biochemistry, and microscopy. They also study interactions between organisms and with the environment by examining behavior, morphology, physiology and genetics. Students can take a broad curriculum within Biological Sciences or focus on specific areas, such as ecology, evolution and behavior, cell and molecular biology, or microbiology. Studies in Biological Sciences have applications across many areas including agriculture, medicine, and the environment. Biological Sciences is a popular choice for students preparing for careers in healthcare, agriculture, natural resources and environmental sciences, food management, bioremediation, as well as the biomedical and biotechnology fields. A degree in Biological Sciences also prepares students for professional careers in medicine, dentistry, pharmacy, veterinary science, and education, and graduate studies in the life sciences.

### Related Areas of Study

The Conservation and Environmental Science (p. 968) major is an alternative, interdisciplinary program for students with specific interests in conservation or environmental science.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		

Course designated as OWC-B; may be completed through a major-specific course requirement

**Quantitative Literacy**

*Part A*

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

*Part B*

Course designated as QL-B; may be completed through a major-specific course requirement

**Arts**

Select 3 credits 3

**Humanities**

Select 6 credits 6

**Social Sciences**

Select 6 credits 6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**College of Letters & Science Requirements**

**I. English Composition Requirement**

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	

SOCIOL 261	Introduction to Statistical Thinking in Sociology
------------	---

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *	12
--	----

### Cultural Diversity

Complete 3 credits in a course with Cultural Diversity (CD) designation. **	3
---	---

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

### Declaring the Major

To declare the major in Biological Sciences, a student must first complete BIO SCI 150 successfully with a grade of C or better.

### Biological Sciences Major Requirements

The Biological Sciences major requires the following:

- A minimum of 34 credits in Biological Sciences, of which 26 must be at the advanced (300 and above) level.
- At least 15 of the advanced credits must be taken in residence at UWM.
- Completion of four (4) laboratory courses.
- A GPA of 2.0 in Biological Sciences courses attempted at UWM.
- A GPA of at least 2.0 in all major credits attempted, including any transfer work.

No more than eight (8) credits in 100-level courses in Biological Sciences may be applied toward the major, and students may not combine BIO SCI 150, BIO SCI 202, and BIO SCI 203 for more than 9

credits toward the major. A combined limit of 6 credits in the following list count towards the major:

Code	Title	Credits
BIO SCI 290	Independent Study and Research:	
BIO SCI 489	Internship in Biological Sciences, Upper Division	
BIO SCI 695	Independent Study in Freshwater Sciences for Biological Sciences Students	
BIO SCI 697	Independent Study in Cell and Molecular Biology	
BIO SCI 698	Independent Study in Microbiology	
BIO SCI 699	Independent Study	
HONORS 686	Research in Honors	
HONORS 687	Senior Honors Project	
HONORS 689	Senior Honors Thesis	

At least 20 credits at the advanced level (300 and above) must be taken in the BIO SCI courses.

Students who plan to attend graduate or professional schools are advised to take the one-year sequence of Organic Chemistry with lab, a course in Biochemistry (CHEM 501), and two semesters of Calculus. For those pursuing the General or Cell and Molecular Biology option, CHEM 501 will also count towards the major.

Listed below are the foundational requirements for the three options, followed by the Biological Sciences major requirements for the three options:

Code	Title	Credits
<b>Math Foundation</b>		
MATH 105	Introduction to College Algebra (or equivalent)	3
<b>Physics Foundation</b>		
For students choosing the General Biology Option or the Cell and Molecular Biology (CMB) Option, take these courses:		9-10
PHYSICS 120	General Physics I (Non-Calculus Treatment)	
PHYSICS 122	General Physics II (Non-Calculus Treatment)	
PHYSICS 121	General Physics Laboratory I (Non-Calculus Treatment) (at least one semester)	
or PHYSICS 123	General Physics Laboratory II (Non-Calculus Treatment)	
For students choosing the Ecology and Evolutionary Biology (EEB) Option, select at least one of the following options:		3-5
GEOG 120	Our Physical Environment	
GEO SCI 100	Introduction to the Earth	
GEO SCI 102	Principles of Historical Geology	
GEO SCI 108	A History of Life	
GEO SCI 150	Introduction to Ocean Sciences	
PHYSICS 120 & PHYSICS 121	General Physics I (Non-Calculus Treatment) and General Physics Laboratory I (Non-Calculus Treatment)	

PHYSICS 122 & PHYSICS 123	General Physics II (Non-Calculus Treatment) and General Physics Laboratory II (Non-Calculus Treatment)
---------------------------	--

<b>Chemistry Foundation</b>	
<i>Part A:</i>	
For all Biological Sciences majors	
CHEM 102	General Chemistry
CHEM 104	General Chemistry and Qualitative Analysis
<i>Part B (required for students choosing the General Biology Option or the Cell and Molecular Biology (CMB) Option):<sup>1,2</sup></i>	
Select one of the following options:	
Option 1:	
CHEM 341	Introductory Survey of Organic Chemistry
CHEM 342	Introductory Organic Chemistry Laboratory
Option 2:	
CHEM 343	Organic Chemistry
CHEM 344	Organic Chemistry Laboratory
CHEM 345	Organic Chemistry

<sup>1</sup> For students choosing the Cell and Molecular Biology (CMB) option, CHEM 343, CHEM 344, and CHEM 345 are required, and a second physics lab is strongly recommended.

<sup>2</sup> For students choosing the Ecology and Evolutionary Biology (EEB) Option, there is no Organic Chemistry (Part B) requirement, though it is advised for certain subfields. Consultation with your departmental advisor is strongly recommended, particularly for students who plan to attend graduate or professional schools.

## General Biology Option

Code	Title	Credits
<b>Required Biological Sciences Courses</b>		
BIO SCI 150	Foundations of Biological Sciences I	4
BIO SCI 152	Foundations of Biological Sciences II	4
BIO SCI 325	Genetics	4
Select at least one of the following:		4-5
BIO SCI 310	General Ecology	
BIO SCI 315 & BIO SCI 316	Cell Biology and Laboratory in Genetics and Cell Biology	
BIO SCI 383	General Microbiology	
<b>Research Requirement<sup>1</sup></b>		
Select one of the following:		1-6
BIO SCI 611	Seminar on Recent Advances in Limnology and Oceanography	
BIO SCI 670	Senior Seminar in Biological Sciences	
BIO SCI 671	Undergraduate Seminar in Microbiology	
BIO SCI 672	Undergraduate Seminar in Cell and Molecular Biology	
HONORS 686	Research in Honors	
HONORS 687	Senior Honors Project	
HONORS 689	Senior Honors Thesis	

BIO SCI 695	Independent Study in Freshwater Sciences for Biological Sciences Students
BIO SCI 697	Independent Study in Cell and Molecular Biology
BIO SCI 698	Independent Study in Microbiology
BIO SCI 699	Independent Study
Research option for Biological Sciences/CES double majors only:	
CES 471	Practicum in Natural Resources Management

**Laboratory Course Requirement**

A total of 4 labs courses are required for the major. This requirement may be satisfied by the courses listed above; if not, select additional lab courses from the list below. 1-4

BIO SCI 202	Anatomy and Physiology I
BIO SCI 203	Anatomy and Physiology II
BIO SCI 310	General Ecology (if not selected above)
BIO SCI 316	Laboratory in Genetics and Cell Biology (if not selected above)
BIO SCI 383	General Microbiology (if not selected above)
BIO SCI 358	Birds of Wisconsin
BIO SCI 451	Field Methods in Conservation
BIO SCI 501	Plant and Aquatic Ecophysiology Laboratory
BIO SCI 539	Laboratory Techniques in Molecular Biology
BIO SCI 543	Scanning Electron Microscopy Laboratory
BIO SCI 544	Transmission Electron Microscopy Laboratory
BIO SCI 580	Experimental Microbiology

**Electives**

Select electives to reach a minimum of 34 credits in Biological Sciences, of which 26 must be at the advanced (300 and above) level.<sup>2,3</sup> 16

**Total Credits** 34-43

<sup>1</sup> All courses taught as independent studies intended to fulfill the research requirement must have prior departmental approval.

<sup>2</sup> Up to six credits from the following courses may be counted as electives in the major: CHEM 501, ANTHRO 301, BMS 534, BMS 535, PSYCH 254, and PSYCH 654.

<sup>3</sup> Students may elect to take these SFS courses (FRSHWTR 511, FRSHWTR 563, and FRSHWTR 567) to earn credit toward the Biology major.

**Cell and Molecular Biology Option**

Code	Title	Credits
<b>Core Courses</b>		
BIO SCI 150	Foundations of Biological Sciences I	4
BIO SCI 152	Foundations of Biological Sciences II	4
BIO SCI 315	Cell Biology	3
BIO SCI 316	Laboratory in Genetics and Cell Biology	2
BIO SCI 325	Genetics	4

**Laboratory Course Requirement**

Select at least one of the following: 1-4

BIO SCI 203	Anatomy and Physiology II
BIO SCI 383	General Microbiology
BIO SCI 501	Plant and Aquatic Ecophysiology Laboratory
BIO SCI 539	Laboratory Techniques in Molecular Biology
BIO SCI 543	Scanning Electron Microscopy Laboratory
BIO SCI 544	Transmission Electron Microscopy Laboratory
BIO SCI 580	Experimental Microbiology

**Research Requirement<sup>1</sup>**

BIO SCI 672	Undergraduate Seminar in Cell and Molecular Biology	1-3
or BIO SCI 697	Independent Study in Cell and Molecular Biology	

**Electives**

Select additional Cell and Molecular Biology courses to reach a minimum of 34 credits in Biological Sciences, of which 26 must be at the advanced (300 and above) level. 15

BIO SCI 335	Mammalian Reproductive Biology
BIO SCI 356	Developmental Biology
BIO SCI 370	Mammalian Physiology
BIO SCI 401	Immunology
BIO SCI 405	General Virology
BIO SCI 455	Cellular, Molecular and Developmental Neurobiology
BIO SCI 490	Molecular Genetics
BIO SCI 498	Genetics of Development and Cancer
BIO SCI 500	Plant Physiology
BIO SCI 529	Molecular Biology of Microorganisms
BIO SCI 535	Bacterial Pathogenesis
BIO SCI 540	Microbial Diversity and Physiology
BIO SCI 542	Biological Electron Microscopy
BIO SCI 564	Endocrinology
BIO SCI 565	Gene Regulation in Stem Cells and Regeneration
BIO SCI 566	Cell Biology of Human Disease
BIO SCI 572	Functional Genomics
CHEM 501	Introduction to Biochemistry

**Total Credits** 34-39

<sup>1</sup> All courses taught as independent studies intended to fulfill the research requirement must have prior departmental approval.

**Ecology, Evolution and Behavior Option**

Code	Title	Credits
<b>Required Biological Sciences Courses</b>		
BIO SCI 150	Foundations of Biological Sciences I	4
BIO SCI 152	Foundations of Biological Sciences II	4
BIO SCI 310	General Ecology	4
BIO SCI 325	Genetics	4

BIO SCI 465	Biostatistics	3
-------------	---------------	---

**Laboratory Course Requirement**

Select at least one of the following:		2-4
---------------------------------------	--	-----

BIO SCI 358	Birds of Wisconsin
BIO SCI 383	General Microbiology
BIO SCI 451	Field Methods in Conservation
BIO SCI 501	Plant and Aquatic Ecophysiology Laboratory
BIO SCI 502	Introduction to Programming and Modeling in Ecology and Evolution
BIO SCI 539	Laboratory Techniques in Molecular Biology
BIO SCI 543	Scanning Electron Microscopy Laboratory
BIO SCI 544	Transmission Electron Microscopy Laboratory

**Research Requirement <sup>1</sup>**

Select one of the following		1-6
-----------------------------	--	-----

BIO SCI 611	Seminar on Recent Advances in Limnology and Oceanography
BIO SCI 670	Senior Seminar in Biological Sciences
BIO SCI 695	Independent Study in Freshwater Sciences for Biological Sciences Students
BIO SCI 699	Independent Study
CES 471	Practicum in Natural Resources Management
HONORS 686	Research in Honors
HONORS 687	Senior Honors Project
HONORS 689	Senior Honors Thesis

**Additional Electives**

Select electives to reach a minimum of 34 credits in Biological Sciences, of which 26 must be at the advanced (300 and above) level.		12
--	--	----

BIO SCI 370	Mammalian Physiology
BIO SCI 401	Immunology
BIO SCI 406	Marine Biology
BIO SCI 440	Ecology and Evolution of Amphibians and Reptiles
BIO SCI 458	Community Ecology
BIO SCI 469	Genomic Data Analysis
BIO SCI 480	Ecological Genetics
BIO SCI 500	Plant Physiology
BIO SCI 505	Conservation Biology
BIO SCI 512	Limnology I
BIO SCI 532	Behavioral Ecology
BIO SCI 540	Microbial Diversity and Physiology
BIO SCI 562	Topics in Field Biology.
BIO SCI 575	Evolutionary Biology
FRSHWTR 511	Ichthyology <sup>2</sup>

<b>Total Credits</b>		<b>34-41</b>
----------------------	--	--------------

<sup>1</sup> All courses taught as independent studies intended to fulfill the research requirement must have prior departmental approval.

<sup>2</sup> Students may elect to take SFS course FRSHWTR 511 to earn credit toward the EEB option.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Department Advising

Students should contact an advisor ([uwm.edu/biology/undergraduate/advising/](http://uwm.edu/biology/undergraduate/advising/)) as soon as possible in their freshman year about required courses and the recommended course sequence within Biological Sciences programs. The student should attend fall or spring departmental Open Advising or contact a Department of Biological Sciences faculty advisor ([uwm.edu/biology/undergraduate/advising/](http://uwm.edu/biology/undergraduate/advising/)) who will then guide the student in planning his/her course choices to accomplish his/her goals. Students should consult their College academic advisors in Holton Hall and their

faculty advisors in the Department of Biological Sciences prior to each registration period.

#### Major or Minor Declaration:

Biological Sciences students should be enrolled in Bio Sci 150 before officially declaring a major in Biological Sciences. Students can declare a major or minor by contacting a faculty advisor in Biological Sciences or attending fall or spring departmental Open Advising. Students can declare more than one major or a combination of major and minors ([uwm.edu/biology/undergraduate/declare-majorminor/](http://uwm.edu/biology/undergraduate/declare-majorminor/) (<http://uwm.edu/biology/undergraduate/declare-majorminor/>)).

**Failure to complete a declaration of major may result in a delay in graduation.**

## Honors in the Major

Students in Biological Sciences who meet all of the following criteria are awarded honors in the major upon graduation:

1. 3.500 cumulative GPA in all UWM graded credits attempted;
2. 3.750 GPA in UWM courses counting toward the major;
3. 3.500 GPA in all advanced credits that count toward the major; and
4. Complete a laboratory or field research independent study (BIO SCI 695, BIO SCI 697, BIO SCI 698, or BIO SCI 699) or internship (BIO SCI 489 or CES 489).

Students who believe they may qualify for honors in Biological Sciences should apply to the Department of Biological Sciences during their last semester of study.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Biological Sciences, BS

Biology is the study of life. Biologists analyze organism functions at the cellular and molecular levels using genetics, biochemistry, and microscopy. They also study interactions between organisms and

with the environment by examining behavior, morphology, physiology and genetics. Students can take a broad curriculum within Biological Sciences or focus on specific areas, such as ecology, evolution and behavior, cell and molecular biology, or microbiology.

Studies in Biological Sciences have applications across many areas including agriculture, medicine, and the environment. Biological Sciences is a popular choice for students preparing for careers in healthcare, agriculture, natural resources and environmental sciences, food management, bioremediation, as well as the biomedical and biotechnology fields. A degree in Biological Sciences also prepares students for professional careers in medicine, dentistry, pharmacy, veterinary science, and education, and graduate studies in the life sciences.

## Course of Study – Bachelor of Science Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated Advanced Natural Science courses (<https://catalog.uwm.edu/letters-science/approved-courses-advanced-natural-science/>). The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	

MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

**Part B**

Course designated as QL-B; may be completed through a major-specific course requirement

**Arts**

Select 3 credits 3

**Humanities**

Select 6 credits 6

**Social Sciences**

Select 6 credits 6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**College of Letters & Science Requirements**

**I. English Composition Requirement**

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) placing beyond English 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

Code	Title	Credits
MATH 211	Survey in Calculus and Analytic Geometry I	4

MATH 213	Calculus with Life Sciences Applications	4
MATH 221	Honors Calculus I	5
MATH 231	Calculus and Analytic Geometry I	4

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

**III. Foreign Language Requirement**

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

**IV. International Requirement**

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways: 9		
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.		

Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.

Complete 9 credits in combination of the two options above.

## V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including laboratory or field courses from three different curricular areas. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

## VI. The Major

The College requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

## VII. The Minor

The College requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a

2.0 GPA on all minor credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation.

## Declaring the Major

To declare the major in Biological Sciences, a student must first complete BIO SCI 150 successfully with a grade of C or better.

## Biological Sciences Major Requirements

The Biological Sciences major requires the following:

- A minimum of 34 credits in Biological Sciences, of which 26 must be at the advanced (300 and above) level.
- At least 15 of the advanced credits must be taken in residence at UWM.
- Completion of four (4) laboratory courses.
- A GPA of 2.0 in Biological Sciences courses attempted at UWM.
- A GPA of at least 2.0 in all major credits attempted, including any transfer work.

No more than eight (8) credits in 100-level courses in Biological Sciences may be applied toward the major, and students may not combine BIO SCI 150, BIO SCI 202, and BIO SCI 203 for more than 9 credits toward the major. A combined limit of 6 credits in the following list count towards the major:

Code	Title	Credits
BIO SCI 290	Independent Study and Research:	
BIO SCI 489	Internship in Biological Sciences, Upper Division	
BIO SCI 695	Independent Study in Freshwater Sciences for Biological Sciences Students	
BIO SCI 697	Independent Study in Cell and Molecular Biology	
BIO SCI 698	Independent Study in Microbiology	
BIO SCI 699	Independent Study	
HONORS 686	Research in Honors	
HONORS 687	Senior Honors Project	
HONORS 689	Senior Honors Thesis	

At least 20 credits at the advanced level (300 and above) must be taken in in BIO SCI courses.

Students who plan to attend graduate or professional schools are advised to take the one-year sequence of Organic Chemistry with lab, a course in Biochemistry (CHEM 501), and two semesters of Calculus. For those pursuing the General or Cell and Molecular Biology option, CHEM 501 will also count towards the major.

Listed below are the foundational requirements for the three options, followed by the Biological Sciences major requirements for the three options:

Code	Title	Credits
<b>Math Foundation</b>		
Select one of the following:		4-5
MATH 211	Survey in Calculus and Analytic Geometry I	

MATH 213	Calculus with Life Sciences Applications
MATH 221	Honors Calculus I
MATH 231	Calculus and Analytic Geometry I

**Physical Sciences Foundation**

For students choosing the General Biology Option or the Cell and Molecular Biology (CMB) Option, select one of the following options: 9-10

Option 1:

PHYSICS 120	General Physics I (Non-Calculus Treatment)
PHYSICS 122	General Physics II (Non-Calculus Treatment)
PHYSICS 121	General Physics Laboratory I (Non-Calculus Treatment) (at least one semester)
or PHYSICS 123	General Physics Laboratory II (Non-Calculus Treatment)

Option 2:

PHYSICS 209	Physics I (Calculus Treatment)
PHYSICS 210	Physics II (Calculus Treatment)
PHYSICS 214	Lab Physics I (Calculus Treatment) (at least one semester)
or PHYSICS 215	Lab Physics II (Calculus Treatment)

Option 3:

PHYSICS 219	Physics I: Calculus-Based, Studio Format
PHYSICS 220	Physics II: Calculus-Based, Studio Format

For students choosing the Ecology and Evolutionary Biology (EEB) Option, select one of the following: 3-5

GEOG 120	Our Physical Environment
GEO SCI 100	Introduction to the Earth
GEO SCI 102	Principles of Historical Geology
GEO SCI 108	A History of Life
GEO SCI 150 & GEO SCI 151	Introduction to Ocean Sciences and Ocean Sciences Laboratory
PHYSICS 120 & PHYSICS 121	General Physics I (Non-Calculus Treatment) and General Physics Laboratory I (Non-Calculus Treatment)
PHYSICS 122 & PHYSICS 123	General Physics II (Non-Calculus Treatment) and General Physics Laboratory II (Non-Calculus Treatment)
PHYSICS 209 & PHYSICS 214	Physics I (Calculus Treatment) and Lab Physics I (Calculus Treatment)
PHYSICS 210 & PHYSICS 215	Physics II (Calculus Treatment) and Lab Physics II (Calculus Treatment)
PHYSICS 219	Physics I: Calculus-Based, Studio Format
PHYSICS 220	Physics II: Calculus-Based, Studio Format

**Chemistry Foundation**

Part A:  
For all Biological Sciences majors: 10

CHEM 102	General Chemistry
CHEM 104	General Chemistry and Qualitative Analysis

Part B (required for students choosing the General Biology Option or the Cell and Molecular Biology (CMB) Option): <sup>1,2</sup>

Select one of the following options: 5-8

Option 1:

CHEM 341	Introductory Survey of Organic Chemistry
CHEM 342	Introductory Organic Chemistry Laboratory

Option 2:

CHEM 343	Organic Chemistry
CHEM 344	Organic Chemistry Laboratory
CHEM 345	Organic Chemistry

<sup>1</sup> For students choosing the Cell and Molecular Biology (CMB) option, CHEM 343, CHEM 344, and CHEM 345 (option 2) are required, and a second physics lab is strongly recommended.

<sup>2</sup> For students choosing the Ecology and Evolutionary Biology (EEB) Option, there is no Organic Chemistry (Part B) requirement, though it is advised for certain subfields. Consultation with your departmental advisor is strongly recommended, particularly for students who plan to attend graduate or professional schools.

**General Biology Option**

Code	Title	Credits
<b>Required Biological Sciences Course</b>		
BIO SCI 150	Foundations of Biological Sciences I	4
BIO SCI 152	Foundations of Biological Sciences II	4
BIO SCI 325	Genetics	4

Select at least one of the following: 4-5

BIO SCI 310	General Ecology
BIO SCI 315 & BIO SCI 316	Cell Biology and Laboratory in Genetics and Cell Biology
BIO SCI 383	General Microbiology

**Research Requirement <sup>1</sup>**

Select one of the following: 1-6

BIO SCI 611	Seminar on Recent Advances in Limnology and Oceanography
BIO SCI 670	Senior Seminar in Biological Sciences
BIO SCI 671	Undergraduate Seminar in Microbiology
BIO SCI 672	Undergraduate Seminar in Cell and Molecular Biology
HONORS 686	Research in Honors
HONORS 687	Senior Honors Project
HONORS 689	Senior Honors Thesis
BIO SCI 695	Independent Study in Freshwater Sciences for Biological Sciences Students
BIO SCI 697	Independent Study in Cell and Molecular Biology
BIO SCI 698	Independent Study in Microbiology
BIO SCI 699	Independent Study

Research Requirement option for Biological Sciences/  
Conservation and Environmental Sciences (CES) double majors  
only:

CES 471	Practicum in Natural Resources Management
---------	--

#### Laboratory Course Requirement

A total of 4 labs courses are required for the major. This  
requirement may be satisfied by the courses listed above; if not,  
select additional lab courses from the list below. 1-4

BIO SCI 202	Anatomy and Physiology I
BIO SCI 203	Anatomy and Physiology II
BIO SCI 310	General Ecology (if not selected above)
BIO SCI 316	Laboratory in Genetics and Cell Biology (if not selected above)
BIO SCI 383	General Microbiology (if not selected above)
BIO SCI 358	Birds of Wisconsin
BIO SCI 451	Field Methods in Conservation
BIO SCI 501	Plant and Aquatic Ecophysiology Laboratory
BIO SCI 539	Laboratory Techniques in Molecular Biology
BIO SCI 543	Scanning Electron Microscopy Laboratory
BIO SCI 544	Transmission Electron Microscopy Laboratory
BIO SCI 580	Experimental Microbiology

#### Electives

Select electives to reach a minimum of 34 credits in Biological  
Sciences, of which 26 must be at the advanced (300 and above)  
level.<sup>2,3</sup> 16

**Total Credits** 34-43

<sup>1</sup> All courses taught as independent studies intended to fulfill the  
research requirement must have prior departmental approval.

<sup>2</sup> Up to six credits from the following courses  
may be counted as electives in the major:  
CHEM 501, ANTHRO 301, BMS 534, BMS 535, PSYCH 254, and  
PSYCH 654.

<sup>3</sup> Students may elect to take these SFS courses  
(FRSHWTR 511, FRSHWTR 563 and FRSHWTR 567) to earn credit  
toward the Biology major provided that they earn 30 advanced credits  
in Natural Sciences within the College of Letters and Science, as  
required for the BS degree.

### Cell and Molecular Biology Option

Code	Title	Credits
<b>Core Courses</b>		
BIO SCI 150	Foundations of Biological Sciences I	4
BIO SCI 152	Foundations of Biological Sciences II	4
BIO SCI 315	Cell Biology	3
BIO SCI 316	Laboratory in Genetics and Cell Biology	2
BIO SCI 325	Genetics	4
<b>Laboratory Course Requirement</b>		
Select at least one of the following:		1-4
BIO SCI 203	Anatomy and Physiology II	

BIO SCI 383	General Microbiology
BIO SCI 501	Plant and Aquatic Ecophysiology Laboratory
BIO SCI 539	Laboratory Techniques in Molecular Biology
BIO SCI 543	Scanning Electron Microscopy Laboratory
BIO SCI 544	Transmission Electron Microscopy Laboratory
BIO SCI 580	Experimental Microbiology

#### Research Requirement <sup>1</sup>

BIO SCI 672	Undergraduate Seminar in Cell and Molecular Biology	1-3
or BIO SCI 697	Independent Study in Cell and Molecular Biology	

#### Electives

Select additional Cell and Molecular Biology courses to reach a  
minimum of 34 credits in Biological Sciences, of which 26 must  
be at the advanced (300 and above) level. 15

BIO SCI 335	Mammalian Reproductive Biology
BIO SCI 356	Developmental Biology
BIO SCI 370	Mammalian Physiology
BIO SCI 401	Immunology
BIO SCI 405	General Virology
BIO SCI 455	Cellular, Molecular and Developmental Neurobiology
BIO SCI 490	Molecular Genetics
BIO SCI 498	Genetics of Development and Cancer
BIO SCI 500	Plant Physiology
BIO SCI 529	Molecular Biology of Microorganisms
BIO SCI 535	Bacterial Pathogenesis
BIO SCI 540	Microbial Diversity and Physiology
BIO SCI 542	Biological Electron Microscopy
BIO SCI 564	Endocrinology
BIO SCI 565	Gene Regulation in Stem Cells and Regeneration
BIO SCI 566	Cell Biology of Human Disease
BIO SCI 572	Functional Genomics
CHEM 501	Introduction to Biochemistry

**Total Credits** 34-39

<sup>1</sup> All courses taught as independent studies intended to fulfill the  
research requirement must have prior departmental approval.

### Ecology, Evolution, and Behavior Option

Code	Title	Credits
<b>Required Biological Sciences Courses</b>		
BIO SCI 150	Foundations of Biological Sciences I	4
BIO SCI 152	Foundations of Biological Sciences II	4
BIO SCI 310	General Ecology	4
BIO SCI 325	Genetics	4
BIO SCI 465	Biostatistics	3
<b>Laboratory Course Requirement</b>		
Select at least one of the following:		2-4

BIO SCI 358	Birds of Wisconsin
BIO SCI 383	General Microbiology
BIO SCI 451	Field Methods in Conservation
BIO SCI 501	Plant and Aquatic Ecophysiology Laboratory
BIO SCI 502	Introduction to Programming and Modeling in Ecology and Evolution
BIO SCI 539	Laboratory Techniques in Molecular Biology
BIO SCI 543	Scanning Electron Microscopy Laboratory
BIO SCI 544	Transmission Electron Microscopy Laboratory

**Research Requirement**<sup>1</sup>

Select one of the following: 1-6

BIO SCI 611	Seminar on Recent Advances in Limnology and Oceanography
BIO SCI 670	Senior Seminar in Biological Sciences
BIO SCI 695	Independent Study in Freshwater Sciences for Biological Sciences Students
BIO SCI 699	Independent Study
CES 471	Practicum in Natural Resources Management
HONORS 686	Research in Honors
HONORS 687	Senior Honors Project
HONORS 689	Senior Honors Thesis

**Additional Electives**

Select electives to reach a minimum of 34 credits in Biological Sciences, of which 26 must be at the advanced (300 and above) level. 12

BIO SCI 370	Mammalian Physiology
BIO SCI 401	Immunology
BIO SCI 406	Marine Biology
BIO SCI 440	Ecology and Evolution of Amphibians and Reptiles
BIO SCI 458	Community Ecology
BIO SCI 469	Genomic Data Analysis
BIO SCI 480	Ecological Genetics
BIO SCI 500	Plant Physiology
BIO SCI 505	Conservation Biology
BIO SCI 512	Limnology I
BIO SCI 532	Behavioral Ecology
BIO SCI 540	Microbial Diversity and Physiology
BIO SCI 562	Topics in Field Biology:
BIO SCI 575	Evolutionary Biology
FRSHWTR 511	Ichthyology <sup>2</sup>

**Total Credits****34-41**<sup>1</sup> All courses taught as independent studies intended to fulfill the research requirement must have prior departmental approval.<sup>2</sup> Students may elect to take SFS course FRSHWTR 511, to earn credit toward the EEB option provided that they earn 30 advanced credits in

Natural Sciences within the College of Letters and Science, as required for the BS degree.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Department Advising

Students should contact an advisor ([uwm.edu/biology/undergraduate/advising/](http://uwm.edu/biology/undergraduate/advising/)) as soon as possible in their freshman year about required courses and the recommended course sequence within Biological Sciences programs. The student should attend fall or spring departmental Open Advising or contact a Department of Biological Sciences faculty advisor ([uwm.edu/biology/undergraduate/advising/](http://uwm.edu/biology/undergraduate/advising/)) who will then guide the student in planning his/her course choices to accomplish his/her goals. Students should consult their College academic advisors in Holton Hall and their

faculty advisors in the Department of Biological Sciences prior to each registration period.

#### Major or Minor Declaration:

Biological Sciences students should be enrolled in BIO SCI 150 before officially declaring a major in Biological Sciences. Students can declare a major or minor by contacting a faculty advisor in Biological Sciences or attending fall or spring departmental Open Advising. Students can declare more than one major or a combination of major and minors ([uwm.edu/biology/undergraduate/declare-majorminor/](http://uwm.edu/biology/undergraduate/declare-majorminor/) (<http://uwm.edu/biology/undergraduate/declare-majorminor/>)).

**Failure to complete a declaration of major may result in a delay in graduation.**

## Honors in the Major

Students in biological sciences who meet all of the following criteria are awarded honors in the major upon graduation:

1. 3.500 cumulative GPA in all UWM graded credits attempted;
2. 3.750 GPA in UWM courses counting toward the major;
3. 3.500 GPA in all advanced credits that count toward the major; and
4. Complete a laboratory or field research independent study (BIO SCI 697, BIO SCI 698, or BIO SCI 699) or internship (BIO SCI 489 or CES 489).

Students who believe they may qualify for honors in biological sciences should apply to the Department during their last semester of study.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Biological Sciences, Minor

Biology is the study of life. Biologists analyze organism functions at the cellular and molecular levels using genetics, biochemistry, and microscopy. They also study interactions between organisms and with the environment by examining behavior, morphology, physiology

and genetics. Students can take a broad curriculum within Biological Sciences or focus on specific areas, such as ecology, evolution and behavior, cell and molecular biology, or microbiology.

Studies in Biological Sciences have applications across many areas including agriculture, medicine, and the environment. Biological Sciences is a popular choice for students preparing for careers in healthcare, agriculture, natural resources and environmental sciences, food management, bioremediation, as well as the biomedical and biotechnology fields. A minor in Biological Sciences also prepares students for professional careers in medicine, dentistry, pharmacy, veterinary science, and education, and graduate studies in the life sciences.

## Requirements

At least 9 credits must be taken at or above the 300 level in residence at UWM. Students must maintain a GPA of 2.0 in minor courses attempted at UWM. In addition, students must attain a GPA of 2.0 in all minor courses attempted, including any transfer work. The minor consists of 19 credits in Biological Sciences including the following:

Code	Title	Credits
<b>Core Introductory Sequence</b>		
BIO SCI 150 & BIO SCI 152	Foundations of Biological Sciences I and Foundations of Biological Sciences II	8
<b>Gateway</b>		
Select at least one of the following:		4-6
BIO SCI 310	General Ecology	
BIO SCI 315 & BIO SCI 316	Cell Biology and Laboratory in Genetics and Cell Biology	
BIO SCI 325 & BIO SCI 316	Genetics and Laboratory in Genetics and Cell Biology	
BIO SCI 383	General Microbiology	
<b>Additional Requirements</b>		
Select at least 7 additional credits in courses that carry credit toward the major		7
<b>Total Credits</b>		<b>19-21</b>

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the

program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Biological Sciences, MS

The Department of Biological Sciences offers graduate programs in biology with areas of concentration in botany; microbiology; cellular and molecular biology; genetics; physiology and morphology of plants and animals; terrestrial and aquatic ecology; behavioral biology; conservation biology; and evolution.

Both a thesis and non-thesis track are offered within the MS degree. The thesis track is a research-based degree and is intended for students pursuing careers in formal research or planning to continue study towards the PhD degree. The non-thesis track is a coursework-intensive MS degree designed for students desiring a graduate education to enhance employment opportunities or prior to obtaining a professional degree. Students may switch from the non-thesis track to the thesis track if all requirements are met and with written approval of the student's advisor and the Graduate Program Director.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

#### Fall Semester

- 12/01 - MS Thesis Track
- 05/01 - MS Non-Thesis Track

#### Spring Semester

- 10/01 - MS Non-Thesis Track

#### Thesis Track

Students are required to maintain full-time status and develop a formal thesis to earn the degree. Admission is during the fall semester only. When applying for admission, applicants should describe in their personal statement as completely as possible their specific research interests within biological sciences. Applicants are strongly encouraged to establish contact, before or during the application process, with Biological Sciences faculty members whose research interests are closest to their own, regarding the likelihood of one serving as the student's major professor. To assist the applicant in this process, a Biological Sciences Graduate Program brochure is available, which describes the research activities of the faculty. The brochure can be obtained by contacting the departmental office.

#### Non-Thesis Track

Students may enroll part-time and complete the degree at a slower pace or enroll full time to earn the degree faster. Students may be admitted during the fall or spring semesters. The accelerated degree is especially well suited for those students seeking to improve their academic record prior to applying to professional schools such as medical school, veterinary school, pharmacy school, dental school, etc. The course requirements for the program are highly adaptable to meet the student's goals such as completion of admission requirements, exploring a secondary area of interest, or gaining hands-on laboratory research experience. When applying for admission, applicants should

describe their career goals in their personal statement as completely as possible to ensure assignment of the appropriate advisor.

### Additional Admission Requirements

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements to be considered for admission to the Biological Sciences Master's program. Track-specific requirements are also noted:

1. Undergraduate coursework equivalent to the Biological Sciences major at UWM, including coursework in the following areas of plant or animal science: cellular and molecular biology or genetics; organismal biology; ecology. Additional coursework in chemistry through organic or biochemistry; mathematical preparation including at least one course in calculus, statistics, or biometry; and a year of physics are strongly encouraged.
2. Submission of official scores:
  - a. **Thesis Track:** Optional submission of official scores from the General Test of the Graduate Record Examination (GRE) (<http://uwm.edu/graduateschool/admission/#gre>).
  - b. **Non-Thesis Track:** Optional submission of official scores from the General Test of the Graduate Record Examination (GRE) (<http://uwm.edu/graduateschool/admission/#gre>), Medical College Admission Test (MCAT), Dental Admission Test (DAT), Pharmacy College Admission Test (PCAT), or Praxis test. Submitted test scores may be used as additional evidence of academic ability.
3. At least two letters of recommendation from persons familiar with the applicant's scholarship.
4. **Thesis Track:** Submission of a resume/CV.
5. International students must meet the minimum department requirements for English proficiency:
  - a. **Thesis Track:**
    - i. Completion of a baccalaureate or higher degree within the last two years from an institution where English is the sole language of instruction with a minimum of two years attendance; or
    - ii. A minimum required TOEFL score of 79 overall with a minimum required score of 23 on the Speaking portion; or
    - iii. A minimum required IELTS score of 6.5 overall with a minimum required score of 7.0 on the Speaking portion; or
    - iv. A minimum required CAE score of C1 overall with a minimum required score of 185 on the Speaking portion.
  - b. **Non-Thesis Track:**
    - i. Completion of a baccalaureate or higher degree within the last two years from an institution where English is the sole language of instruction with a minimum of two years attendance; or
    - ii. A minimum required TOEFL score of 79 overall with a minimum recommended sub-score of 18 in each skill; or
    - iii. A minimum required IELTS score of 6.5 overall with a minimum recommended sub-score of 6.0 on each skill; or
    - iv. A minimum required CAE score of C1 overall with a minimum recommended sub-score of 170 on any given language skill test.

## Credits and Courses

### Thesis Track

Minimum degree requirement is 30 graduate credits, at least 24 of which must be in biological sciences and up to 6 of which may be in related courses. Of the 30 graduate credits, 15 must be taken at the graduate-

only course level. Of the 24 biological sciences credits, at least 12 must be course or seminar credits. The student must take at least two seminars during the course of the student's program up to a maximum of 4 credits counting toward the degree; and enroll in Biology Colloquium (BIO SCI 900) each semester with a maximum of 4 colloquium credits counting toward the degree. The student must enroll in a minimum of 12 credits in research (BIO SCI 990). The student plans a program of studies in consultation with the major professor. If desired, a special area of concentration (botany, microbiology, physiology) may be declared. A cumulative GPA of a 3.0 or higher on a 4.0 scale is required to receive the MS degree.

### Non-Thesis Track

Minimum degree requirement is 30 graduate credits, at least 20 of which must be in courses offered by the Department of Biological Sciences. Of the 30 graduate credits, 15 must be taken at the graduate-only course level.

Code	Title	Credits
<b>Biological Science Requirements</b>		
Select at least one laboratory course		
Select two of the following seminars that require a presentation (up to a maximum of 4 credits):		
BIO SCI 925	Graduate Seminar in Biological Sciences	
BIO SCI 929	Special Topics in Ecology, Evolution and Behavior	
BIO SCI 931	Seminar in Systematic Biology and Evolution:	
BIO SCI 933	Seminar in Neuroscience	
BIO SCI 934	Research Advances in Cell and Molecular Biology	
BIO SCI 935	Research Advances in Ecology, Evolution and Behavior	
BIO SCI 936	Research Advances in Microbiology	
Select up to 6 credits of the following:		
BIO SCI 899	Advanced Independent Studies	
Select up to 2 credits of the following:		
BIO SCI 900	Biology Colloquium	

### Additional Requirements

Select additional graduate credits to fulfill the required total of 30 credits<sup>1</sup>

<sup>1</sup> Any remaining course work may be completed in other departments within UWM with the approval of the student's advisor and the Graduate Program Director.

A cumulative GPA of a 3.0 or higher on a 4.0 scale is required to receive the MS degree.

### Additional Graduation Requirements

All students must submit three examples of any of the following projects that have been completed and graded during their graduate studies: paper, poster or presentation. These projects must demonstrate the student's ability to read and understand current scientific literature in the biological sciences and apply this acquired knowledge. At least one of these must be from a laboratory course or experience. These documents must be submitted to the Graduate Program Director and will be used as

a portfolio to demonstrate the student's analytic and scientific writing abilities.

## Additional Requirements

### Thesis Track

#### MS Graduate Advisory Committee

The MS Graduate Advisory Committee is selected by the major professor in consultation with the student, by the end of the first year of enrollment. The MS Advisory Committee consists of the major professor and two other graduate faculty members. The Committee must meet at least once a year to monitor and formally report on the student's academic and research progress.

#### Oral Examination

The student must pass an MS oral examination. The examination should be taken by the end of the first year of enrollment and must be taken no later than the end of the second year of enrollment. The student's MS Advisory Committee administers the oral examination.

#### Thesis

Students must prepare and defend a formal thesis reporting the results of their research. During the final year of study, students must present a seminar on their research, with prior public announcement. Submission of the final thesis to the Graduate School is required to complete the MS degree.

#### Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. The Graduate Committee assigns a faculty advisor as a necessary prerequisite to admission.

#### Time Limit

Student must complete all degree requirements within five years of initial enrollment.

### Non Thesis Track

#### MS Graduate Advisor

Upon admission to the program, the student will be assigned an advisor whose research background is similar to the student's stated area of interest and career goals. Students may request a specific advisor from the faculty list; however, requesting an advisor does not guarantee availability. During the first semester of study the student and advisor must complete and submit a Plan of Study to the Graduate Program Director. The Plan of Study will detail the coursework to be taken for completion of the degree and can be modified at any time during the program.

#### Time Limit

Student must complete all degree requirements within three years of initial enrollment.

## Biological Sciences, PhD

The Department of Biological Sciences offers graduate programs in biology with areas of concentration in botany; microbiology; cellular and molecular biology; genetics; physiology and morphology of plants and animals; terrestrial and aquatic ecology; behavioral biology; conservation biology; and evolution.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus the following program requirements to be considered for admission:

- Applicant must present at least 30 credits in one or more areas of biological sciences and must show substantial evidence of scholarly potential. A master's degree is not prerequisite for admission to the PhD program.
- Other academic preparation: a year of general physics including at least one semester of laboratory; one year of general college chemistry with laboratory, plus at least one semester of organic chemistry with laboratory or biochemistry with laboratory; two courses in college mathematics chosen from among courses in calculus, biometry or statistics.
- Submission of a resume/CV.
- Optional submission of scores on the General Test of the Graduate Record Examination (<http://uwm.edu/graduateschool/admission/#gre>).
- Acceptance by a faculty member in the program who will act as major professor (sponsor): see Major Professor as Advisor.
- Three letters of recommendation from persons familiar with the applicant's scholarship, research achievements and potential.

Applicants may be admitted with specific course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements with a grade of C or better within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree. The student is expected to maintain a grade of B in all other coursework.

### Reapplication

A student in the MS program, or who receives the master's degree at UWM, must formally reapply for admission to the Graduate School before continuing studies toward the PhD.

## Credits and Courses

Minimum degree requirement is 54 credits beyond the bachelor's degree, at least 27 of which must be earned in residence at UWM.

Code	Title	Credits
	Select at least 27 credits in formal coursework and seminars	27
	Select 4 colloquium credits	4
	Select 23 credits in independent reading and/or study, or research	23
	<b>Total Credits</b>	<b>54</b>

At least 30 of the 54 credits must be in biological sciences; 12 credits may be earned in allied sciences, including those in the secondary area of concentration or minor field(s).

## Additional Requirements

### Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. The graduate committee assigns the incoming biological sciences student to an advisor whose experience and research most closely approximates the student's own career interests. Before the student's preliminary examination either this initially assigned advisor or another qualified staff member is designated as the student's major professor.

### Secondary Area of Concentration

The student must select a secondary area of concentration either within biological sciences or in an allied science, and must present at least 9 credits of coursework in that area to the departmental Graduate Committee. A university minor (option A or B) may qualify as a secondary area of concentration upon approval by the departmental Graduate Committee.

### Language or Data Analysis Proficiency

The student must demonstrate proficiency either in a foreign language or data analysis. The student can demonstrate language proficiency in one language other than English (German, French, Russian or Spanish preferred), either through examinations or through 12 credits of specified coursework, either before or after admission to the program. The student can demonstrate proficiency in data analysis by presenting 12 credits in one or more of the following: mathematics (200-level or above), statistics, computer science.

### Residence

The student must meet Graduate School residence requirements (<http://uwm.edu/graduateschool/doctors-requirements/#residence>).

### PhD Advisory Committee

The PhD Advisory Committee shall be selected by the major professor in consultation with the student by the end of the first year of enrollment. The PhD Advisory Committee shall consist of the major professor and four other graduate faculty members. One of the faculty should reflect competency in the secondary area of concentration. When the advisory committee is formed, the student must prepare a departmental "certification document" for the approval of the committee. The committee must meet at least once a year to monitor and formally report on the student's academic and research progress.

### Dissertation Proposal and Doctoral Preliminary Examination

Prior to the doctoral preliminary examination, the student submits a preliminary written dissertation proposal to the student's PhD Advisory Committee and delivers an oral presentation of relevant research in progress. The doctoral preliminary examination is in two parts. Part I is a written exam; Part II is an oral exam. Parts I and II of the doctoral preliminary examination must be taken with a warrant from the Graduate School; and must be taken before the end of the second or third year of full-time enrollment (before completion of 24 or 36 credits for students with a MS or B.S. degree, respectively). Deviation from this plan must be approved by the Graduate Committee.

### Dissertator Status

Specific requirements which must be completed before the Graduate School places a doctoral student in dissertator status are described in the Doctor of Philosophy Degree requirements (<http://uwm.edu/graduateschool/doctors-requirements/>) section.

## Dissertation

In consultation with the major professor the candidate must select a suitable research project and submit a written research plan. The final dissertation proposal constitutes the student's written research plan which is subject to approval of the PhD Advisory Committee. This plan is to be submitted to the Department. The research plan will be reviewed for progress annually. During the final year of study the candidate must present a seminar, with prior public announcement, on this research and must prepare a dissertation reporting the results of this research. The original research findings embodied in this dissertation should be acceptable for publication in a refereed journal.

## Dissertation Defense

As the final step toward the degree the candidate must defend the dissertation before the PhD Advisory Committee.

## Time Limit

All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program. For additional information on Graduate School PhD requirements, see the Doctor of Philosophy Degree requirements (<http://uwm.edu/graduateschool/doctoral-requirements/>) section.

# Microbiology, BS

Microbiology is the study of microorganisms (bacteria, archaea, protists, fungi) and viruses. The Department offers a BS in microbiology with research opportunities to conduct original research and investigate different aspects of microbial structure and function.

Microorganisms were the first living things on earth, and they remain the most abundant and the most diverse of all organisms. They can cause diseases of plants, animals and humans; they play critical roles in biogeochemical cycles and bioremediation; and they are important in the food and biotechnology industries.

As a microbiologist, students will be on the cutting edge of developments in public health, industrial production processes, biotechnology, and drug discovery. The microbiology major prepares students for a variety of careers in the fields of microbiology, virology, molecular biology, biotechnology, and health related professions, for graduate studies in medical microbiology, industrial microbiology, environmental microbiology, microbial biotechnology, and molecular biology, and for professional studies in pharmacy, dentistry, and medicine.

## Course of Study – Bachelor of Science Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated Advanced Natural Science courses (<https://catalog.uwm.edu/letters-science/approved-courses-advanced-natural-science/>). The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they

entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		
<i>Part B</i>		
Course designated as QL-B; may be completed through a major-specific course requirement		
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Select 6 credits		6
<b>Social Sciences</b>		
Select 6 credits		6
<b>Natural Sciences</b>		
Select 6 credits (at least two courses including one lab)		6
<b>UWM Foreign Language Requirement</b>		
Complete Foreign Language Requirement through:		
Two years (high school) of a single foreign language		
Two semesters (college) of a single foreign language		
Or equivalent		
<b>UWM Cultural Diversity Requirement</b>		
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement		

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) placing beyond English 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

Code	Title	Credits
MATH 211	Survey in Calculus and Analytic Geometry I	4
MATH 213	Calculus with Life Sciences Applications	4
MATH 221	Honors Calculus I	5
MATH 231	Calculus and Analytic Geometry I	4

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including laboratory or field courses from three different curricular areas. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to

select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

## VI. The Major

The College requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

## VII. The Minor

The College requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation.

# Microbiology Major Requirements

Microbiology is the study of microorganisms such as bacteria, archaea, protists, fungi, and viruses. Prospective Microbiology majors should consult with a faculty advisor as early as possible, preferably before the beginning of the junior year, in order to outline an appropriate course of study. Students should consult their advisor at least once each semester.

At least 15 credits of advanced (300 and above) Microbiology courses must be taken in residence at UWM. Students must attain an average GPA of 2.0 in Microbiology courses attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

## Requirements

The Microbiology major requires a minimum of 34 credits in Microbiology. The required and elective courses in Biological Sciences, CHEM 501, and BMS 534, BMS 535, BMS 539, and BMS 540 count as "Microbiology" courses for this purpose. A combined limit of 6 credits in BIO SCI 290, BIO SCI 695, BIO SCI 697, BIO SCI 698, and BIO SCI 699 counts toward the major.

Code	Title	Credits
<b>Required</b>		
BIO SCI 150	Foundations of Biological Sciences I	4
BIO SCI 152	Foundations of Biological Sciences II	4
BIO SCI 325	Genetics	4
BIO SCI 383	General Microbiology	4
Select two of the following:		6

BIO SCI 529	Molecular Biology of Microorganisms	
BIO SCI 535	Bacterial Pathogenesis	
BIO SCI 540	Microbial Diversity and Physiology	
<b>Research Requirement</b>		
Select credits in the following:		
BIO SCI 495	Internship in Biotechnology, Upper Division	
BIO SCI 671	Undergraduate Seminar in Microbiology	
BIO SCI 698	Independent Study in Microbiology	
BIO SCI 699	Independent Study <sup>1</sup>	
HONORS 686	Research in Honors <sup>1</sup>	
HONORS 687	Senior Honors Project <sup>1</sup>	
HONORS 689	Senior Honors Thesis <sup>1</sup>	
<b>Microbiology Electives</b>		
BIO SCI 315	Cell Biology	3
or CHEM 501	Introduction to Biochemistry	
Select one of the following:		4
BIO SCI 539	Laboratory Techniques in Molecular Biology	
BIO SCI 580	Experimental Microbiology	
Select additional elective credits (see below)		
<b>Other Requirements</b>		
CHEM 102	General Chemistry	5
CHEM 104	General Chemistry and Qualitative Analysis	5
CHEM 343	Organic Chemistry	3
CHEM 344	Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry	3
Select one of the following:		4-5
MATH 211	Survey in Calculus and Analytic Geometry I	
MATH 213	Calculus with Life Sciences Applications	
MATH 221	Honors Calculus I	
MATH 231	Calculus and Analytic Geometry I	
Select one of the following:		3-5
MTHSTAT 215	Elementary Statistical Analysis	
MATH 222	Honors Calculus II	
MATH 232	Calculus and Analytic Geometry II	
BIO SCI 465	Biostatistics	
Select one of the following options:		9-10
<b>Option 1:</b>		
PHYSICS 120	General Physics I (Non-Calculus Treatment)	
PHYSICS 122	General Physics II (Non-Calculus Treatment)	
PHYSICS 123	General Physics Laboratory II (Non-Calculus Treatment)	
<b>Option 2:</b>		
PHYSICS 209	Physics I (Calculus Treatment)	
PHYSICS 210	Physics II (Calculus Treatment)	
PHYSICS 215	Lab Physics II (Calculus Treatment)	
<b>Option 3:</b>		

PHYSICS 219	Physics I: Calculus-Based, Studio Format
PHYSICS 220	Physics II: Calculus-Based, Studio Format
<b>Total Credits</b>	<b>63-67</b>

<sup>1</sup> When determined by the student's Microbiology faculty advisor to have Microbiology content.

## Additional Electives

Students choose courses from this list to complete their 26 credits of upper-level (300 or above) microbiology courses.

Code	Title	Credits
BIO SCI 315	Cell Biology	3
BIO SCI 316	Laboratory in Genetics and Cell Biology	2
BIO SCI 401	Immunology	3
BIO SCI 405	General Virology	3
BIO SCI 465	Biostatistics	3
BIO SCI 469	Genomic Data Analysis	2
BIO SCI 490	Molecular Genetics	3
BIO SCI 529	Molecular Biology of Microorganisms (if not selected above)	3
BIO SCI 535	Bacterial Pathogenesis (if not selected above)	3
BIO SCI 539	Laboratory Techniques in Molecular Biology (if not selected above)	4
BIO SCI 540	Microbial Diversity and Physiology (if not selected above)	3
BIO SCI 542	Biological Electron Microscopy	3
BIO SCI 544	Transmission Electron Microscopy Laboratory	3
BIO SCI 572	Functional Genomics	3
BIO SCI 580	Experimental Microbiology	4
CHEM 501	Introduction to Biochemistry	3
CHEM 601	Biochemistry: Protein Structure and Function	3
BMS 534	Medical Microbiology <sup>2</sup>	3
BMS 535	Medical Microbiology Laboratory <sup>2</sup>	2
BMS 539	Public Health Microbiology <sup>2</sup>	2
BMS 540	Public Health Microbiology Lab <sup>2</sup>	2

<sup>1</sup> Only BIO SCI 699 or HONORS 686, HONORS 687, or HONORS 689 projects that are determined by the student's microbiology faculty advisor to have microbiology content count toward the major.

<sup>2</sup> Students may elect to take these BMS courses to earn credit toward the Microbiology major option provided that they earn 30 advanced credits in Natural Sciences within the College of Letters and Science, as required for the BS degree.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your

entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Department Advising

Students should contact an advisor ([uwm.edu/biology/undergraduate/advising/](http://uwm.edu/biology/undergraduate/advising/)) as soon as possible in their freshman year about required courses and the recommended course sequence within Biological Sciences programs. The student should attend fall or spring departmental Open Advising or contact a Department of Biological Sciences faculty advisor ([uwm.edu/biology/undergraduate/advising/](http://uwm.edu/biology/undergraduate/advising/)) who will then guide the student in planning his/her course choices to accomplish his/her goals. Students should consult their College academic advisors in Holton Hall and their faculty advisors in the Department of Biological Sciences prior to each registration period.

### Major or Minor Declaration:

Biological Sciences students should be enrolled in BIO SCI 150 before officially declaring a major in Biological Sciences. Students can declare a major or minor by contacting a faculty advisor in Biological Sciences or attending fall or spring departmental Open Advising. Students can declare more than one major or a combination of major and minors

([uwm.edu/biology/undergraduate/declare-major/minor/](http://uwm.edu/biology/undergraduate/declare-major/minor/) (<http://uwm.edu/biology/undergraduate/declare-major/minor/>)).

**Failure to complete a declaration of major may result in a delay in graduation.**

## Honors in the Major

Students in biological sciences who meet all of the following criteria are awarded honors in the major upon graduation:

1. 3.500 cumulative GPA in all UWM graded credits attempted;
2. 3.750 GPA in UWM courses counting toward the major;
3. 3.500 GPA in all advanced credits that count toward the major; and
4. Complete a laboratory or field research independent study (BIO SCI 697, BIO SCI 698, or BIO SCI 699) or internship (BIO SCI 489 or CES 489).

Students who believe they may qualify for honors in biological sciences should apply to the Department during their last semester of study.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Neuroscience, BS (Department of Biological Sciences)

Neuroscience is a multidisciplinary science dedicated to understanding how nervous systems are built and function at different scales, from molecules and cells to circuits and systems. Neuroscientists are involved in work to improve the human condition with new discoveries that could prevent or treat neurodevelopmental defects and disorders, psychiatric disorders, and neurodegenerative diseases.

The Neuroscience major is listed under both the Department of Biological Sciences and the Department of Psychology. The requirements are the same in both listings.

A neuroscience major is an excellent starting point for a career in human or animal medicine, psychology, medical research, pharmaceuticals, public health or science writing. Entry level jobs for students with a bachelor's degree include positions as assistants in hospitals and private healthcare clinics; as technicians in academic, governmental, or commercial research laboratories; in pharmaceutical sales and marketing; and in government agencies and nonprofits in roles related to grant writing, regulatory management, or technical assistance. Many of these occupational areas are projected to grow faster than average in the next decade. The average annual salary for a neuroscientist with a BS degree is \$66,975 (as of 2021). The major is also excellent preparation for students pursuing doctoral degrees in medicine, medical research, or professional counseling.

The courses for the major come primarily from the Department of Biological Sciences and the Department of Psychology. Students will learn about the structure and function of nervous systems, from the cellular level to the systems level; the connections between the brain and behavior; experimental design and research methods; and data analysis, interpretation, and use. Within the major students can take coursework in neuroscience subdisciplines such as cognitive, cellular and molecular, or computational neuroscience.

## Course of Study – Bachelor of Science Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated Advanced Natural Science courses (<https://catalog.uwm.edu/letters-science/approved-courses-advanced-natural-science/>). The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

**Part B**

Course designated as QL-B; may be completed through a major-specific course requirement

**Arts**

Select 3 credits 3

**Humanities**

Select 6 credits 6

**Social Sciences**

Select 6 credits 6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**College of Letters & Science Requirements**

**I. English Composition Requirement**

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) placing beyond English 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

Code	Title	Credits
MATH 211	Survey in Calculus and Analytic Geometry I	4
MATH 213	Calculus with Life Sciences Applications	4
MATH 221	Honors Calculus I	5
MATH 231	Calculus and Analytic Geometry I	4

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

**III. Foreign Language Requirement**

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

#### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		
	Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.	9
	Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.	
	Complete 9 credits in combination of the two options above.	

#### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
	Select 3 credits	3
<b>Humanities</b>		
	Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *	12
<b>Social Sciences</b>		
	Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *	12
<b>Natural Sciences</b>		
	Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including laboratory or field courses from three different curricular areas. *	12
<b>Cultural Diversity</b>		
	Complete 3 credits in a course with Cultural Diversity (CD) designation. **	3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

#### VI. The Major

The College requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires

that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

#### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

#### VII. The Minor

The College requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation.

### Declaring the Major

To be accepted as a major in Neuroscience, students must have completed both PSYCH 101 and BIO SCI 150 with a C or better in each of those classes.

### Degree Requirements

The program requires at least 120 credits, which include University-wide General Education Requirements (p. 30), 24 credits of mandatory preparatory courses, 23-24 credits of required core courses, 11 credits of elective courses within the major, a research experience course at the end of the coursework, and additional elective courses to fulfill the overall credit requirement.

An overall GPA of 2.000 on all coursework attempted at UWM is required for this degree. In addition, students must achieve a 2.000 GPA on all coursework attempted, including transfer work. A minimum 2.000 GPA must be earned on all 300-level and above courses taken to satisfy the advanced requirements. Students satisfy the residency requirement for the degree at UWM by completing at least 15 credits in the upper-division (numbered 300 or above) courses in the major.

Code	Title	Credits
<b>Preparatory courses</b>		
<i>Chemistry</i>		
CHEM 102	General Chemistry	5
CHEM 104	General Chemistry and Qualitative Analysis	5
CHEM 343	Organic Chemistry	3
CHEM 345	Organic Chemistry	3
<i>Physics</i>		
PHYSICS 120	General Physics I (Non-Calculus Treatment)	4
or PHYSICS 209	Physics I (Calculus Treatment)	
PHYSICS 122	General Physics II (Non-Calculus Treatment)	4
or PHYSICS 210	Physics II (Calculus Treatment)	
<b>Total Credits</b>		<b>24</b>
<b>Required courses</b>		
<i>Biological Sciences</i>		
BIO SCI 150	Foundations of Biological Sciences I	4
BIO SCI 152	Foundations of Biological Sciences II	4

BIO SCI 315	Cell Biology	3
BIO SCI 455	Cellular, Molecular and Developmental Neurobiology	3
<i>Psychology</i>		
PSYCH 101	Introduction to Psychology	3
PSYCH 254	Introduction to Neuroscience	3
<i>One of these courses in statistics:</i>		3-4
BIO SCI 465	Biostatistics	
MTHSTAT 215	Elementary Statistical Analysis	
PSYCH 210	Psychological Statistics	
<b>Total Credits</b>		<b>23-24</b>

Code	Title	Credits
<b>Required research experience (select one of the options below)</b>		
NEURO 690	Undergraduate Research in Neuroscience	3
BIO SCI 672	Undergraduate Seminar in Cell and Molecular Biology	1
BIO SCI 697	Independent Study in Cell and Molecular Biology <sup>1</sup>	1-3
BIO SCI 699	Independent Study <sup>1</sup>	1-3
PSYCH 654	Advanced Behavioral Neuroscience	4
PSYCH 656	Psychophysiology	4

<sup>1</sup> These independent study courses may be counted toward the research requirement in the Neuroscience major only with approval of the student's Neuroscience faculty advisor.

Code	Title	Credits
<b>Elective courses (select courses to complete 11 credits from the options below)</b>		
BIO SCI 203	Anatomy and Physiology II	4
BIO SCI 290	Independent Study and Research:	1-3
BIO SCI 316	Laboratory in Genetics and Cell Biology	2
BIO SCI 325	Genetics	4
BIO SCI 356	Developmental Biology	3
BIO SCI 370	Mammalian Physiology	3
BIO SCI 469	Genomic Data Analysis	2
BIO SCI 490	Molecular Genetics	3
BIO SCI 539	Laboratory Techniques in Molecular Biology	4
BIO SCI 542	Biological Electron Microscopy	3
BIO SCI 543	Scanning Electron Microscopy Laboratory	2
BIO SCI 544	Transmission Electron Microscopy Laboratory	3
BIO SCI 564	Endocrinology	3
BIO SCI 565	Gene Regulation in Stem Cells and Regeneration	3
BIO SCI 566	Cell Biology of Human Disease	3
BIO SCI 572	Functional Genomics	3
BIO SCI 672	Undergraduate Seminar in Cell and Molecular Biology	1
BIO SCI 697	Independent Study in Cell and Molecular Biology	1-3

BMS 610	Pharmacology	3
CHEM 501	Introduction to Biochemistry	3
PSYCH 214	Introduction to Conditioning and Learning	3
PSYCH 290	Undergraduate Research: Lower Division	1-3
PSYCH 325	Research Methods in Psychology	4
PSYCH 433	Neuropsychology	3
PSYCH 454	Psychopharmacology and Addiction	3
PSYCH 503	Perception	3
PSYCH 510	Advanced Psychological Statistics	3
PSYCH 514		4
PSYCH 610	Experimental Design	3
PSYCH 611	Current Topics:	3
PSYCH 623	Perceptual Processes	4
PSYCH 627	Cognitive Neuroscience	3
PSYCH 645	Hormones and Behavior	3
PSYCH 654	Advanced Behavioral Neuroscience <sup>2</sup>	4
PSYCH 656	Psychophysiology <sup>2</sup>	4
PSYCH 657	Neurobiology of Learning and Memory	3
PSYCH 682	The Aging Brain	3
PSYCH 690	Undergraduate Research: Upper Division	1-3

<sup>2</sup> If not taken to satisfy research experience requirement.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;

- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

# Business and Technical Communications, Undergraduate Certificate

**Effective UWinterIM 2023, the Business and Technical Communications undergraduate certificate has suspended admission.**

In today's uncertain economy, it is more important than ever for workers to be multi-skilled and flexible in their professional areas. The Business and Technical Communications Undergraduate Certificate combines an innovative approach with practical skills in writing, research, communication, and technologies that will enable students to improve their skills for working in a broad range of contexts.

Students will develop competencies in communication that are critical to a wide range of contemporary jobs and organizations:

- Business and technical communication
- Strategic writing skills
- Organizational leadership skills

- Information design
- Project management

The Certificate is available via the University of Wisconsin System's Flexible Option.

The UW Flexible Option offers a new way to earn a college degree or certificate, different from both face-to-face classroom instruction and traditional online instruction (<https://flex.wisconsin.edu/degrees-programs/business-technical-communications/>). In the UW Flexible Option program, you will:

- Earn credit for what you know
- Advance at your own pace
- Receive personalized support
- Start when you want, at the beginning of any month
- Learn skills employers value

## Eligibility

Students who wish to enroll in the Undergraduate Certificate must be admitted to the UW Flexible Option (<https://flex.wisconsin.edu/getting-started/admission/>) and will have to meet the basic prerequisites of the courses that are equivalent to each given competency set. For ENGLISH 206, that will mean having passed or tested out of ENGLISH 102. All other courses in the Certificate require ENGLISH 206 as a prerequisite. Post-baccalaureate special students and non-degree students will be awarded the Certificate upon successful completion of all program requirements.

**Effective UWinterIM 2023, the Business and Technical Communications undergraduate certificate has suspended admission.**

## Program Requirements

To obtain the certificate, students first must complete ENGLISH 206, after which they may study the additional competency sets in any order. Completing the Undergraduate Certificate means having gained credit in all six courses, with a minimum grade point average of 2.500. Students also must meet College of Letters and Science residency requirements, which means that at least nine of their Certificate upper-level (numbered 300 and above) credits must be earned at UWM.

Code	Title	Credits
ENGLISH 206	Technical Writing	3
ENGLISH 428	Strategic Writing for Organizations	3
ENGLISH 429	Technical Communications and Professional Leadership	3
ENGLISH 435	Rhetoric and Professional Writing	3
ENGLISH 437	Project Management for Professional Writers	3
ENGLISH 439	Information Design	3
<b>Total Credits</b>		<b>18</b>

## Celtic Studies

Celtic Studies examines the history, culture, and languages of the Celtic region.

The Center for Celtic Studies provides interdisciplinary, international educational opportunities for UWM students. Our program includes on-campus instruction by UWM and visiting international faculty, as well as

study-abroad options in Ireland, Great Britain, and Europe. We provide a wide range of course and research topics relating to cultures—both historical and modern—that share Celtic influence: the early Continental Celts and the Breton, Cornish, Galician, Irish, Manx, Scots, and Welsh peoples.

Students can concentrate their studies on the Celtic languages, both spoken and written, or they may choose to investigate the broader themes of the Celtic world, such as art, archaeology, literature, history, folklore, music and myth.

## Programs

- Celtic Studies, Undergraduate Certificate (p. 921)

## Celtic Studies, Undergraduate Certificate

Celtic Studies examines the history, culture, and languages of the Celtic region.

The Undergraduate Certificate in Celtic Studies is open to all students interested in learning about the history, folklore, art, language, and culture of Ireland, Scotland, and Wales. The features of the region are explored from both a historical perspective and through a modern day lens. The certificate complements a number of different majors such as history, political science, English, anthropology, and art history, and can make graduates more marketable for international careers and graduate programs.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

## Eligibility

The Undergraduate Certificate Program in Celtic Studies is open to all students seeking a bachelor's degree from UWM, to students who previously have received a bachelor's degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. To be admitted to the University as non-degree students, individuals must meet regular University admission requirements. All students will receive the certificate upon successful completion of the program requirements.

## Requirements

To obtain the certificate, students must complete 18 credits in required courses with a minimum GPA of 2.750, including CELTIC 133 and at least 9 credits in upper-division (numbered 300 and above) courses selected from Celtic courses and/or the list of approved electives. At least half the credits for the certificate must be taken in residence at UWM. All students are urged to participate in a study abroad program. Credits earned via study abroad through a UWM-sponsored program count as residence credits. No more than 9 credits from a single curricular area may count toward the certificate requirements, and students must select courses from at least three different curricular areas in completing their requirements.

Credits earned at other institutions equivalent to courses in the certificate program may be accepted in partial fulfillment of the program requirements, subject to review by the certificate program committee.

Students elect one of the following options:

### Option A: Language Emphasis

Code	Title	Credits
<b>Required</b>		
CELTIC 133	Celtic Crossings: Overview of the History and Cultures of the Celtic World	3
CELTIC 203	Third Semester Irish Gaelic	3
CELTIC 204	Fourth Semester Irish Gaelic	3
<b>Electives</b>		
Select at least 9 additional credits numbered 300 or above from Celtic courses and/or the approved Celtic studies electives list		9
<b>Total Credits</b>		<b>18</b>

### Option B: Cultural Emphasis

Code	Title	Credits
<b>Required</b>		
CELTIC 133	Celtic Crossings: Overview of the History and Cultures of the Celtic World	3
CELTIC 103	First Semester Irish Gaelic	3
<b>Electives</b>		
Select at least 12 additional credits from Celtic courses and/or the approved Celtic studies electives list		12
<b>Recommended</b>		
Students in the cultural emphasis are encouraged, but not required, to take the following course:		
CELTIC 104	Second Semester Irish Gaelic	
<b>Total Credits</b>		<b>18</b>

### Approved Celtic Studies Electives

Students may select from all Celtic courses or any of the following courses offered in other areas.

Code	Title	Credits
ANTHRO 305	The Celtic World	3
ANTHRO 306	European Archaeology	3

## Chemistry and Biochemistry

While our faculty are internationally recognized in all of the major divisions of chemistry, our department is particularly strong in Medicinal Chemistry, Biochemistry, and Surface Science. We are a midsized department where students receive advanced training and carry out cutting-edge research that crosses the bounds of traditional chemistry into the fields of physics, materials, life science and science education.

## Programs

- Biochemistry, BA (p. 923)
- Biochemistry, BS (p. 928)
- Chemistry, BA (p. 933)
- Chemistry, BS (p. 938)
- Chemistry, Minor (p. 943)

## Biochemistry, BA

The Department of Chemistry and Biochemistry curriculum provides a thorough undergraduate education for students planning careers as research scientists, industrial chemists, and educators in universities or in secondary schools. In addition, department courses provide a foundation in the basic science of chemistry to students majoring in biological or physical sciences, students planning a career in medicine or other health-related fields, students in the College of Engineering and Applied Science, and students in the liberal arts. Especially in its graduate programs, the department stresses interdisciplinary approaches, as exemplified by the Laboratory for Surface Studies and the Great Lakes WATER Institute. It also cooperates with chemists of the Milwaukee area's industrial and scientific community.

### Course of Study: Major Options in Chemistry and Biochemistry

Students may choose from four different curricular options in chemistry and biochemistry:

1. Chemistry Major
2. Chemistry Major with a Biochemical Option
3. Biochemistry Major
4. Biochemistry Major with a Clinical Pharmacology Option (BS only)

Undergraduate research is encouraged strongly for students in any of the chemistry options. In some cases, students may start research with a faculty member as early as their freshman year. Information about research opportunities may be obtained from the department office or from SAACS (the American Chemical Society student affiliate group). Pre-medical students who choose to follow one of the chemistry or biochemistry options should see the L&S pre-professional programs section in this catalog and should consult their pre-medical advisor and an advisor in chemistry regularly.

The opportunity to participate in research as an undergraduate is a distinct advantage for UWM undergraduates. At most large, research universities, research opportunities for undergraduates are limited; there are fewer of them and they often are reserved for juniors or seniors. At UWM, you can get involved as early as freshman year. Students work directly with faculty and graduate students on their current research projects, and sometimes find themselves published in a peer-reviewed journal right alongside the faculty member. Participating in

undergraduate research is an excellent way to enhance your resume for graduate school or employment.

Biochemistry is a specialty within chemistry that focuses on the basic substances and elements that make up living creatures, including plants, animals and humans.

Biochemistry is a popular major for students preparing to go on to medical school, veterinary school, dental school or other similar healthcare professional programs that require a foundation in both biology and chemistry. However, students also pursue many other types of paths including lab research in areas related to water, healthcare, and manufacturing; forensics work for municipalities or agencies; agriculture; genetics; scientific writing and promotion; sales and marketing in science fields; food safety and production; legal consulting on scientific matters; pharmaceutical production; and more.

Graduate studies in Biochemistry can be found under the Chemistry and Biochemistry (<http://uwm.edu/letters-science/programs/?classification=GRAD>) department, with both a Master of Science and the terminal PhD available.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		

ENGLISH 102	College Writing and Research (or equivalent)
-------------	--

*Part B*

Course designated as OWC-B; may be completed through a major-specific course requirement

**Quantitative Literacy***Part A*

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

*Part B*

Course designated as QL-B; may be completed through a major-specific course requirement

**Arts**

Select 3 credits 3

**Humanities**

Select 6 credits 6

**Social Sciences**

Select 6 credits 6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**College of Letters & Science Requirements****I. English Composition Requirement**

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or

3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	

POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is *NOT* the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		

Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *	12
---	----

### Natural Sciences

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *	12
--	----

### Cultural Diversity

Complete 3 credits in a course with Cultural Diversity (CD) designation. **	3
---	---

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

### Prerequisite Preparation for Majors in Chemistry and Biochemistry

General chemistry is a prerequisite to all further courses in chemistry. This requirement is satisfied by CHEM 102 and CHEM 104. Students without high school chemistry or whose background in science is weak may need to take CHEM 100 first.

Mathematics and physics also are required for a major in chemistry. Three semesters of calculus and two semesters of calculus-based physics (or equivalents) are prerequisites to physical chemistry, which, in turn, is required for the advanced chemistry courses that are part of the major.

Students considering a major in chemistry or biochemistry should enroll in general chemistry and mathematics in their first semester, if at all possible, and physics should be started as soon as its prerequisites are

met. Because the study of chemistry is cumulative, postponing one's start in math and chemistry courses is likely to delay completion of the degree. It is recommended that chemistry majors follow the suggested sequence for the Course in Chemistry degree program as closely as possible for the first two years.

Students are urged to contact the Chemistry and Biochemistry Department for academic advice as soon as they believe they have an interest in a major in chemistry.

## Declaration of Major Requirements

To declare a chemistry or biochemistry major, the following are required:

- completion of CHEM 102 and CHEM 104;
- completion or concurrent registration in CHEM 343; and
- a GPA of 2.500 or better in all Chem courses attempted.

Students who are interested in graduate work in biochemistry should follow the standard chemistry major with a biochemical option.

## Biochemistry Major Requirements

The biochemistry major differs from the standard chemistry major with a biochemical option in a number of ways intended to provide for students a more intensive education in biochemistry so that they are prepared for work in the biochemical industry upon completing their baccalaureate degree. Students who are interested in graduate work in biochemistry should follow the standard chemistry major with a biochemical option.

### Requirements

Students must complete the courses listed below, including at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

Code	Title	Credits
<b>Required</b>		
CHEM 102 & CHEM 104	General Chemistry and General Chemistry and Qualitative Analysis	10
CHEM 221	Elementary Quantitative Analysis	4
CHEM 343	Organic Chemistry	3
CHEM 344	Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry	3
CHEM 560	Biophysical Chemistry	3
CHEM 501	Introduction to Biochemistry	3
Select two of the following:		6
CHEM 601	Biochemistry: Protein Structure and Function	
CHEM 602	Biochemistry: Cellular Processes	
CHEM 604	Biochemistry: Metabolism	
CHEM 603	Introduction to Biochemistry Laboratory	2
CHEM 691 or CHEM 692	Senior Research (satisfies L&S research requirement) Senior Thesis	1-4
BIO SCI 150	Foundations of Biological Sciences I	4

BIO SCI 325	Genetics	4
PHYSICS 120 & PHYSICS 121	General Physics I (Non-Calculus Treatment) and General Physics Laboratory I (Non-Calculus Treatment)	5
PHYSICS 122 & PHYSICS 123	General Physics II (Non-Calculus Treatment) and General Physics Laboratory II (Non-Calculus Treatment)	5
MATH 205	Introductory Finite Mathematics	3
MATH 211	Survey in Calculus and Analytic Geometry I	4
MTHSTAT 215	Elementary Statistical Analysis	3
<b>Biological Science Electives</b>		
Select 7 credits (see below)		7
<b>Total Credits</b>		<b>72-75</b>

### Biological Science Electives

Code	Title	Credits
BIO SCI 315	Cell Biology	3
BIO SCI 316	Laboratory in Genetics and Cell Biology	2
BIO SCI 356	Developmental Biology	3
BIO SCI 383	General Microbiology	4
BIO SCI 401	Immunology	3
BIO SCI 405	General Virology	3
BIO SCI 490	Molecular Genetics	3
BIO SCI 529	Molecular Biology of Microorganisms	3
BIO SCI 539	Laboratory Techniques in Molecular Biology	4
BIO SCI 540	Microbial Diversity and Physiology	3
BIO SCI 564	Endocrinology	3
BIO SCI 572	Functional Genomics	3
BIO SCI 580	Experimental Microbiology	4

## Suggested Timetable for the Biochemistry Major

Year 1		Credits
<b>Semester 1</b>		
CHEM 102	General Chemistry	5
MATH 211	Survey in Calculus and Analytic Geometry I	4
BIO SCI 150	Foundations of Biological Sciences I	4
<b>Credits</b>		<b>13</b>
<b>Semester 2</b>		
CHEM 104	General Chemistry and Qualitative Analysis	5
MATH 205	Introductory Finite Mathematics	3
<b>Credits</b>		<b>8</b>
Year 2		Credits
<b>Semester 1</b>		
CHEM 221	Elementary Quantitative Analysis	4
CHEM 343	Organic Chemistry	3
PHYSICS 120 & PHYSICS 121	General Physics I (Non-Calculus Treatment) and General Physics Laboratory I (Non-Calculus Treatment)	5
MTHSTAT 215	Elementary Statistical Analysis	3
<b>Credits</b>		<b>15</b>
<b>Semester 2</b>		
CHEM 344	Organic Chemistry Laboratory	2

CHEM 345	Organic Chemistry	3
PHYSICS 122 & PHYSICS 123	General Physics II (Non-Calculus Treatment) and General Physics Laboratory II (Non-Calculus Treatment)	5
BIO SCI 325	Genetics	4
CHEM 399	Special Chemical Problems:	2
<b>Credits</b>		<b>16</b>
<b>Year 3</b>		
<b>Semester 1</b>		
CHEM 560	Biophysical Chemistry	3
CHEM 501	Introduction to Biochemistry	3
<b>Credits</b>		<b>6</b>
<b>Semester 2</b>		
BIO SCI Elective		4
CHEM 602 or CHEM 604	Biochemistry: Cellular Processes or Biochemistry: Metabolism	3
CHEM 603	Introduction to Biochemistry Laboratory	2
<b>Credits</b>		<b>9</b>
<b>Year 4</b>		
<b>Semester 1</b>		
CHEM 601	Biochemistry: Protein Structure and Function	3
CHEM 691 or CHEM 692	Senior Research or Senior Thesis	2
<b>Credits</b>		<b>5</b>
<b>Total Credits</b>		<b>72</b>

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Honors in the Major

Students in any of the chemistry or biochemistry options who meet all of the following criteria are awarded honors in the major upon graduation:

- 3.500 cumulative GPA in all UWM graded credits;
- 3.750 GPA in all UWM chemistry credits;
- 3.500 GPA in all advanced credits in chemistry (numbered above 300); and
- Six credits of senior thesis with an average grade of B or better.

Students who believe they may qualify for honors in chemistry should apply to the department during their last semester of study.

A departmental "Undergraduate Awards Program and Research Symposium" is held each spring to highlight undergraduate research accomplishments and honor students who have distinguished themselves in various areas. Among the awards are the Durward Layde Memorial Fellowship, the Chemistry Emeritus Award for the Outstanding Junior, the McFarland Awards for the best undergraduate research poster presentations, as well as awards for Outstanding Performance in Introductory Chemistry, Analytical Chemistry, Biochemistry, Inorganic Chemistry, Organic Chemistry (Kovacic Award), and Physical Chemistry (Vanselow Award).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Biochemistry, BS

The Department of Chemistry and Biochemistry curriculum provides a thorough undergraduate education for students planning careers as research scientists, industrial chemists, and educators in universities or in secondary schools. In addition, department courses provide a foundation in the basic science of chemistry to students majoring in biological or physical sciences, students planning a career in medicine or other health-related fields, students in the College of Engineering and Applied Science, and students in the liberal arts. Especially in its graduate programs, the department stresses interdisciplinary approaches, as exemplified by the Laboratory for Surface Studies and the Great Lakes WATER Institute. It also cooperates with chemists of the Milwaukee area's industrial and scientific community.

### Course of Study: Major Options in Chemistry and Biochemistry

Students may choose from four different curricular options in chemistry and biochemistry:

1. Chemistry Major
2. Chemistry Major with a Biochemical Option
3. Biochemistry Major
4. Biochemistry Major with a Clinical Pharmacology Option (BS only)

Undergraduate research is encouraged strongly for students in any of the chemistry options. In some cases, students may start research with a faculty member as early as their freshman year. Information about research opportunities may be obtained from the department office or from SAACS (the American Chemical Society student affiliate group). Pre-medical students who choose to follow one of the chemistry or biochemistry options should see the L&S pre-professional programs section in this catalog and should consult their pre-medical advisor and an advisor in chemistry regularly.

The opportunity to participate in research as an undergraduate is a distinct advantage for UWM undergraduates. At most large, research universities, research opportunities for undergraduates are limited; there are fewer of them and they often are reserved for juniors or seniors. At UWM, you can get involved as early as freshman year. Students work directly with faculty and graduate students on their current research projects, and sometimes find themselves published in a peer-reviewed journal right alongside the faculty member. Participating in undergraduate research is an excellent way to enhance your resume for graduate school or employment.

Biochemistry is a specialty within chemistry that focuses on the basic substances and elements that make up living creatures, including plants, animals and humans.

Biochemistry is a popular major for students preparing to go on to medical school, veterinary school, dental school or other similar healthcare professional programs that require a foundation in both biology and chemistry. However, students also pursue many other types of paths including lab research in areas related to water, healthcare, and manufacturing; forensics work for municipalities or agencies; agriculture; genetics; scientific writing and promotion; sales and marketing in science fields; food safety and production; legal consulting on scientific matters; pharmaceutical production; and more.

Graduate studies in Biochemistry can be found under the Chemistry and Biochemistry (<http://uwm.edu/letters-science/programs/>)

classification=GRAD) department, with both a Master of Science and the terminal PhD available.

## Course of Study – Bachelor of Science Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated Advanced Natural Science courses (<https://catalog.uwm.edu/letters-science/approved-courses-advanced-natural-science/>). The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		
<i>Part B</i>		
Course designated as QL-B; may be completed through a major-specific course requirement		
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		

Select 6 credits 6

**Social Sciences**

Select 6 credits 6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**College of Letters & Science Requirements**

**I. English Composition Requirement**

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) placing beyond English 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

Code	Title	Credits
MATH 211	Survey in Calculus and Analytic Geometry I	4
MATH 213	Calculus with Life Sciences Applications	4
MATH 221	Honors Calculus I	5
MATH 231	Calculus and Analytic Geometry I	4

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		

AFRIC 220	Introduction to Statistics in African and African Diaspora Studies
ANTHRO 568	Introduction to Anthropological Statistics
BIO SCI 465	Biostatistics
ECON 210	Economic Statistics
GEOG 247	Quantitative Analysis in Geography
HIST 595	The Quantitative Analysis of Historical Data
MTHSTAT 215	Elementary Statistical Analysis
PHILOS 211	Elementary Logic
POL SCI 390	Political Data Analysis
POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

**III. Foreign Language Requirement**

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

**IV. International Requirement**

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

**V. Breadth Requirement**

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3

**Humanities**

Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. \*

12

**Social Sciences**

Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. \*

12

**Natural Sciences**

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including laboratory or field courses from three different curricular areas. \*

12

**Cultural Diversity**

Complete 3 credits in a course with Cultural Diversity (CD) designation. \*\*

3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

**VI. The Major**

The College requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement**

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

**VII. The Minor**

The College requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation.

**Prerequisite Preparation for Majors in Chemistry and Biochemistry**

General chemistry is a prerequisite to all further courses in chemistry. This requirement is satisfied by CHEM 102 and CHEM 104. Students without high school chemistry or whose background in science is weak may need to take CHEM 100 first.

Mathematics and physics also are required for a major in chemistry. Three semesters of calculus and two semesters of calculus-based physics (or equivalents) are prerequisites to physical chemistry, which, in

turn, is required for the advanced chemistry courses that are part of the major.

Students considering a major in chemistry or biochemistry should enroll in general chemistry and mathematics in their first semester, if at all possible, and physics should be started as soon as its prerequisites are met. Because the study of chemistry is cumulative, postponing one's start in math and chemistry courses is likely to delay completion of the degree. It is recommended that chemistry majors follow the suggested sequence for the Course in Chemistry degree program as closely as possible for the first two years.

Students are urged to contact the Chemistry and Biochemistry Department for academic advice as soon as they believe they have an interest in a major in chemistry.

**Declaration of Major Requirements**

To declare a chemistry or biochemistry major, the following are required:

- completion of CHEM 102 and CHEM 104;
- completion or concurrent registration in CHEM 343; and
- a GPA of 2.500 or better in all Chem courses attempted.

Students who are interested in graduate work in biochemistry should follow the standard chemistry major with a biochemical option.

**Biochemistry Major Requirements**

The biochemistry major differs from the standard chemistry major with a biochemical option in a number of ways intended to provide for students a more intensive education in biochemistry so that they are prepared for work in the biochemical industry upon completing their baccalaureate degree. Students who are interested in graduate work in biochemistry should follow the standard chemistry major with a biochemical option.

There are two options in the biochemistry major:

- Biochemistry General Option
- Biochemistry with Clinical Pharmacology Option

**Requirements**

Students must complete the courses listed below, including at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

**Biochemistry General Option**

Code	Title	Credits
<b>Required</b>		
CHEM 102 & CHEM 104	General Chemistry and General Chemistry and Qualitative Analysis	10

CHEM 691 or CHEM 692	Senior Research or Senior Thesis	2
<b>Credits</b>		<b>5</b>
<b>Total Credits</b>		<b>73</b>

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Honors in the Major

Students in any of the chemistry or biochemistry options who meet all of the following criteria are awarded honors in the major upon graduation:

- 3.500 cumulative GPA in all UWM graded credits;
- 3.750 GPA in all UWM chemistry credits;
- 3.500 GPA in all advanced credits in chemistry (numbered above 300); and
- Six credits of senior thesis with an average grade of B or better.

Students who believe they may qualify for honors in chemistry should apply to the department during their last semester of study.

A departmental "Undergraduate Awards Program and Research Symposium" is held each spring to highlight undergraduate research accomplishments and honor students who have distinguished themselves in various areas. Among the awards are the Durward Layde Memorial Fellowship, the Chemistry Emeritus Award for the Outstanding Junior, the McFarland Awards for the best undergraduate research poster presentations, as well as awards for Outstanding Performance in Introductory Chemistry, Analytical Chemistry, Biochemistry, Inorganic Chemistry, Organic Chemistry (Kovacic Award), and Physical Chemistry (Vanselow Award).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Chemistry, BA

The Department of Chemistry and Biochemistry curriculum provides a thorough undergraduate education for students planning careers as research scientists, industrial chemists, and educators in universities or in secondary schools. In addition, department courses provide a foundation in the basic science of chemistry to students majoring in biological or physical sciences, students planning a career in medicine or other health-related fields, students in the College of Engineering and Applied Science, and students in the liberal arts. Especially in its graduate programs, the department stresses interdisciplinary approaches, as exemplified by the Laboratory for Surface Studies and the Great Lakes WATER Institute. It also cooperates with chemists of the Milwaukee area's industrial and scientific community.

### Course of Study: Major Options in Chemistry and Biochemistry

Students may choose from four different curricular options in chemistry and biochemistry:

1. Chemistry Major
2. Chemistry Major with a Biochemical Option
3. Biochemistry Major
4. Biochemistry Major with a Clinical Pharmacology Option (BS only)

Undergraduate research is encouraged strongly for students in any of the chemistry options. In some cases, students may start research with a faculty member as early as their freshman year. Information about research opportunities may be obtained from the department office or from SAACS (the American Chemical Society student affiliate group). Pre-medical students who choose to follow one of the chemistry or biochemistry options should see the L&S pre-professional programs section in this catalog and should consult their pre-medical advisor and an advisor in chemistry regularly.

The opportunity to participate in research as an undergraduate is a distinct advantage for UWM undergraduates. At most large, research universities, research opportunities for undergraduates are limited; there are fewer of them and they often are reserved for juniors or seniors. At UWM, you can get involved as early as freshman year. Students work directly with faculty and graduate students on their current research projects, and sometimes find themselves published in a peer-reviewed journal right alongside the faculty member. Participating in undergraduate research is an excellent way to enhance your resume for graduate school or employment.

Chemistry is the study of the elementary parts and substances that make up our world, both the parts that occur in nature as well as man-made objects.

Chemistry is known as the "central science" because of its relationship to all other sciences. Because it is the foundation of other sciences, UWM Chemistry alumni are prepared to go on to countless number of professional roles. While your first impression may be that chemistry majors all end up working in a laboratory surrounded by beakers and test tubes, there is more to the major than that.

Our majors go into medical research, healthcare professions, manufacturing (particularly research and development), scientific writing and marketing, law (particularly areas of law that deal with science such as intellectual property), forensics and toxicology, aspects of engineering

and production, teaching, sales, consulting, and government agency work.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		
<i>Part B</i>		
Course designated as QL-B; may be completed through a major-specific course requirement		
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Select 6 credits		6
<b>Social Sciences</b>		
Select 6 credits		6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**College of Letters & Science Requirements****I. English Composition Requirement**

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

**III. Foreign Language Requirement**

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		
0-18		
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

#### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

#### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

#### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College

requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

#### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

#### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

#### Prerequisite Preparation for Majors in Chemistry and Biochemistry

General chemistry is a prerequisite to all further courses in chemistry. This requirement is satisfied by CHEM 102 and CHEM 104. Students without high school chemistry or whose background in science is weak may need to take CHEM 100 first.

Mathematics and physics also are required for a major in chemistry. Three semesters of calculus and two semesters of calculus-based physics (or equivalents) are prerequisites to physical chemistry, which, in turn, is required for the advanced chemistry courses that are part of the major.

Students considering a major in chemistry or biochemistry should enroll in general chemistry and mathematics in their first semester, if at all possible, and physics should be started as soon as its prerequisites are met. Because the study of chemistry is cumulative, postponing one's start in math and chemistry courses is likely to delay completion of the degree. It is recommended that chemistry majors follow the suggested sequence for the Course in Chemistry degree program as closely as possible for the first two years.

Students are urged to contact the Chemistry and Biochemistry Department for academic advice as soon as they believe they have an interest in a major in chemistry.

#### Declaration of Major Requirements

To declare a chemistry or biochemistry major, the following are required:

- completion of CHEM 102 and CHEM 104;
- completion or concurrent registration in CHEM 343; and
- a GPA of 2.500 or better in all Chem courses attempted.

Students who are interested in graduate work in biochemistry should follow the standard chemistry major with a biochemical option.

#### Chemistry Major Requirements

Students must complete the courses listed below, including at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

#### Standard Chemistry Major Option

The standard chemistry major option may be followed in either the Bachelor of Science or Bachelor of Arts degree. It provides a suitable

background for students preparing for employment in chemistry and related scientific fields or for subsequent graduate study.

Code	Title	Credits
CHEM 102 & CHEM 104	General Chemistry and General Chemistry and Qualitative Analysis	10
CHEM 221	Elementary Quantitative Analysis	4
CHEM 311	Introduction to Inorganic Chemistry	3
CHEM 343	Organic Chemistry	3
CHEM 344	Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry	3
CHEM 524	Instrumental Analysis	3

Recommended course:		
MATH 234	Linear Algebra and Differential Equations	
Select one of the following options: 10		
Option 1:		
PHYSICS 209 & PHYSICS 214	Physics I (Calculus Treatment) and Lab Physics I (Calculus Treatment)	
PHYSICS 210 & PHYSICS 215	Physics II (Calculus Treatment) and Lab Physics II (Calculus Treatment)	
Option 2:		
PHYSICS 219	Physics I: Calculus-Based, Studio Format	
PHYSICS 220	Physics II: Calculus-Based, Studio Format	

**Total Credits** 63-67

### Standard Chemistry Major with a Biochemical Option

The standard chemistry major with a biochemical option differs from the standard major option in that some of the chemistry courses required by the standard option are omitted, and courses in biochemistry and biological sciences are added. Some students planning further study in biochemistry, molecular biology, or medicine may prefer this option.

Code	Title	Credits
CHEM 102 & CHEM 104	General Chemistry and General Chemistry and Qualitative Analysis	10
CHEM 221	Elementary Quantitative Analysis	4
CHEM 311	Introduction to Inorganic Chemistry	3
CHEM 343	Organic Chemistry	3

CHEM 344	Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry	3
CHEM 524	Instrumental Analysis	3
CHEM 561	Physical Chemistry I	3
CHEM 562	Physical Chemistry II	3
CHEM 563	Physical Chemistry Laboratory	1-2
CHEM 501	Introduction to Biochemistry	3
Select two of the following: 6		
CHEM 601	Biochemistry: Protein Structure and Function	
CHEM 602	Biochemistry: Cellular Processes	
CHEM 604	Biochemistry: Metabolism	
CHEM 603	Introduction to Biochemistry Laboratory	2
CHEM 691	Senior Research (satisfies L&S research requirement)	1-4
or CHEM 692	Senior Thesis	
BIO SCI 150	Foundations of Biological Sciences I	4
BIO SCI 325	Genetics	4
MATH 231	Calculus and Analytic Geometry I	4
MATH 232	Calculus and Analytic Geometry II	4
MATH 233	Calculus and Analytic Geometry III	4
Recommended course:		
MATH 234	Linear Algebra and Differential Equations	
Select one of the following options: 10		
Option 1:		
PHYSICS 209 & PHYSICS 214	Physics I (Calculus Treatment) and Lab Physics I (Calculus Treatment)	
PHYSICS 210 & PHYSICS 215	Physics II (Calculus Treatment) and Lab Physics II (Calculus Treatment)	
Option 2:		
PHYSICS 219	Physics I: Calculus-Based, Studio Format	
PHYSICS 220	Physics II: Calculus-Based, Studio Format	

**Total Credits** 77-81

## Suggested Timetables for Standard Chemistry Major, Courses in Chemistry Degree, and Standard Chemistry Major with a Biochemical Option

### Model Four-Year Program

Year 1		Credits
<b>Semester 1</b>		
CHEM 102	General Chemistry	5
MATH 115	Precalculus	4
<b>Credits</b> 9		
<b>Semester 2</b>		
CHEM 104	General Chemistry and Qualitative Analysis	5
MATH 231	Calculus and Analytic Geometry I	4
<b>Credits</b> 9		

<b>Year 2</b>		
<b>Semester 1</b>		
CHEM 343	Organic Chemistry	3
CHEM 221	Elementary Quantitative Analysis	4
MATH 232	Calculus and Analytic Geometry II	4
<b>Credits</b>		<b>11</b>
<b>Semester 2</b>		
CHEM 344	Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry	3
MATH 233	Calculus and Analytic Geometry III	4
PHYSICS 209	Physics I (Calculus Treatment)	4
PHYSICS 214	Lab Physics I (Calculus Treatment)	1
<b>Credits</b>		<b>14</b>
<b>Year 3</b>		
<b>Semester 1</b>		
CHEM 311	Introduction to Inorganic Chemistry	3
CHEM 501	Introduction to Biochemistry (or take in spring) <sup>1</sup>	3
PHYSICS 210	Physics II (Calculus Treatment)	4
PHYSICS 215	Lab Physics II (Calculus Treatment)	1
<b>Credits</b>		<b>11</b>
<b>Semester 2</b>		
CHEM 561	Physical Chemistry I	3
<b>Credits</b>		<b>3</b>
<b>Year 4</b>		
<b>Semester 1</b>		
CHEM 562	Physical Chemistry II	3
CHEM 563	Physical Chemistry Laboratory	1
CHEM 524	Instrumental Analysis	3
CHEM 582	Advanced Chemistry Laboratory I (or take in spring) <sup>1,2</sup>	2
Select one of the following:		1-2
CHEM 691	Senior Research	
CHEM 692	Senior Thesis	
CHEM 697	Senior Seminar	
<b>Credits</b>		<b>10-11</b>
<b>Semester 2</b>		
CHEM 584	Advanced Chemistry Laboratory II (or take in fall) <sup>1,2</sup>	2
CHEM 524	Instrumental Analysis	3
CHEM 582	Advanced Chemistry Laboratory I <sup>1,2</sup>	2
CHEM 524	Instrumental Analysis	3
CHEM 611	Physical Inorganic Chemistry <sup>1</sup>	3
Select one of the following:		1-2
CHEM 691	Senior Research	
CHEM 692	Senior Thesis	
CHEM 697	Senior Seminar	
<b>Credits</b>		<b>14-15</b>
<b>Total Credits</b>		<b>81-83</b>

<sup>1</sup> Courses that may be optional for standard chemistry major; required for the Course in Chemistry degree.

<sup>2</sup> Courses that are omitted for the standard chemistry major with the biochemical option. In addition, students must take CHEM 501, CHEM 603, and two courses selected from CHEM 601, CHEM 602, CHEM 604, and CHEM 614. BIO SCI 150 and BIO SCI 325 also are required for the biochemistry option.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College

Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Honors in the Major

Students in any of the chemistry or biochemistry options who meet all of the following criteria are awarded honors in the major upon graduation:

- 3.500 cumulative GPA in all UWM graded credits;
- 3.750 GPA in all UWM chemistry credits;
- 3.500 GPA in all advanced credits in chemistry (numbered above 300); and
- Six credits of senior thesis with an average grade of B or better.

Students who believe they may qualify for honors in chemistry should apply to the department during their last semester of study.

A departmental "Undergraduate Awards Program and Research Symposium" is held each spring to highlight undergraduate research accomplishments and honor students who have distinguished themselves in various areas. Among the awards are the Durward Layde Memorial Fellowship, the Chemistry Emeritus Award for the Outstanding Junior, the McFarland Awards for the best undergraduate research poster presentations, as well as awards for Outstanding Performance in Introductory Chemistry, Analytical Chemistry, Biochemistry, Inorganic

Chemistry, Organic Chemistry (Kovacic Award), and Physical Chemistry (Vanselow Award).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Chemistry, BS

The Department of Chemistry and Biochemistry curriculum provides a thorough undergraduate education for students planning careers as research scientists, industrial chemists, and educators in universities or in secondary schools. In addition, department courses provide a foundation in the basic science of chemistry to students majoring in biological or physical sciences, students planning a career in medicine or other health-related fields, students in the College of Engineering and Applied Science, and students in the liberal arts. Especially in its graduate programs, the department stresses interdisciplinary approaches, as exemplified by the Laboratory for Surface Studies and the Great Lakes WATER Institute. It also cooperates with chemists of the Milwaukee area's industrial and scientific community.

### Course of Study: Major Options in Chemistry and Biochemistry

Students may choose from four different curricular options in chemistry and biochemistry:

1. Chemistry Major
2. Chemistry Major with a Biochemical Option
3. Biochemistry Major
4. Biochemistry Major with a Clinical Pharmacology Option (BS only)

Undergraduate research is encouraged strongly for students in any of the chemistry options. In some cases, students may start research with a faculty member as early as their freshman year. Information about research opportunities may be obtained from the department office or from SAACS (the American Chemical Society student affiliate group). Pre-medical students who choose to follow one of the chemistry or biochemistry options should see the L&S pre-professional programs

section in this catalog and should consult their pre-medical advisor and an advisor in chemistry regularly.

The opportunity to participate in research as an undergraduate is a distinct advantage for UWM undergraduates. At most large, research universities, research opportunities for undergraduates are limited; there are fewer of them and they often are reserved for juniors or seniors. At UWM, you can get involved as early as freshman year. Students work directly with faculty and graduate students on their current research projects, and sometimes find themselves published in a peer-reviewed journal right alongside the faculty member. Participating in undergraduate research is an excellent way to enhance your resume for graduate school or employment.

Chemistry is the study of the elementary parts and substances that make up our world, both the parts that occur in nature as well as man-made objects.

Chemistry is known as the "central science" because of its relationship to all other sciences. Because it is the foundation of other sciences, UWM Chemistry alumni are prepared to go on to countless number of professional roles. While your first impression may be that chemistry majors all end up working in a laboratory surrounded by beakers and test tubes, there is more to the major than that.

Our majors go into medical research, healthcare professions, manufacturing (particularly research and development), scientific writing and marketing, law (particularly areas of law that deal with science such as intellectual property), forensics and toxicology, aspects of engineering and production, teaching, sales, consulting, and government agency work.

## Course of Study – Bachelor of Science Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated Advanced Natural Science courses (<https://catalog.uwm.edu/letters-science/approved-courses-advanced-natural-science/>). The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		

### Quantitative Literacy

#### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

#### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

#### Arts

Select 3 credits 3

#### Humanities

Select 6 credits 6

#### Social Sciences

Select 6 credits 6

#### Natural Sciences

Select 6 credits (at least two courses including one lab) 6

#### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

#### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) placing beyond English 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College

of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

Code	Title	Credits
MATH 211	Survey in Calculus and Analytic Geometry I	4
MATH 213	Calculus with Life Sciences Applications	4
MATH 221	Honors Calculus I	5
MATH 231	Calculus and Analytic Geometry I	4

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

#### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

#### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including laboratory or field courses from three different curricular areas. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

#### VI. The Major

The College requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether

those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

#### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

#### VII. The Minor

The College requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation.

#### Prerequisite Preparation for Majors in Chemistry and Biochemistry

General chemistry is a prerequisite to all further courses in chemistry. This requirement is satisfied by CHEM 102 and CHEM 104. Students without high school chemistry or whose background in science is weak may need to take CHEM 100 first.

Mathematics and physics also are required for a major in chemistry. Three semesters of calculus and two semesters of calculus-based physics (or equivalents) are prerequisites to physical chemistry, which, in turn, is required for the advanced chemistry courses that are part of the major.

Students considering a major in chemistry or biochemistry should enroll in general chemistry and mathematics in their first semester, if at all possible, and physics should be started as soon as its prerequisites are met. Because the study of chemistry is cumulative, postponing one's start in math and chemistry courses is likely to delay completion of the degree. It is recommended that chemistry majors follow the suggested sequence for the Course in Chemistry degree program as closely as possible for the first two years.

Students are urged to contact the Chemistry and Biochemistry Department for academic advice as soon as they believe they have an interest in a major in chemistry.

#### Declaration of Major Requirements

To declare a chemistry or biochemistry major, the following are required:

- completion of CHEM 102 and CHEM 104;
- completion or concurrent registration in CHEM 343; and
- a GPA of 2.500 or better in all Chem courses attempted.

Students who are interested in graduate work in biochemistry should follow the standard chemistry major with a biochemical option.

#### Chemistry Major Requirements

Students must complete the courses listed below, including at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

## Standard Chemistry Major Option

The standard chemistry major option may be followed in either the Bachelor of Science or Bachelor of Arts degree. It provides a suitable background for students preparing for employment in chemistry and related scientific fields or for subsequent graduate study.

Code	Title	Credits
CHEM 102 & CHEM 104	General Chemistry and General Chemistry and Qualitative Analysis	10
CHEM 221	Elementary Quantitative Analysis	4
CHEM 311	Introduction to Inorganic Chemistry	3
CHEM 343	Organic Chemistry	3
CHEM 344	Organic Chemistry Laboratory	2
CHEM 345	Organic Chemistry	3
CHEM 524	Instrumental Analysis	3
CHEM 561	Physical Chemistry I	3
CHEM 562	Physical Chemistry II	3

<b>Total Credits</b>		<b>81-83</b>

<sup>1</sup> Courses that may be optional for standard chemistry major; required for the Course in Chemistry degree.

<sup>2</sup> Courses that are omitted for the standard chemistry major with the biochemical option. In addition, students must take CHEM 501, CHEM 603, and two courses selected from CHEM 601, CHEM 602, CHEM 604, and CHEM 614. BIO SCI 150 and BIO SCI 325 also are required for the biochemistry option.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches.

Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Honors in the Major

Students in any of the chemistry or biochemistry options who meet all of the following criteria are awarded honors in the major upon graduation:

- 3.500 cumulative GPA in all UWM graded credits;
- 3.750 GPA in all UWM chemistry credits;
- 3.500 GPA in all advanced credits in chemistry (numbered above 300); and
- Six credits of senior thesis with an average grade of B or better.

Students who believe they may qualify for honors in chemistry should apply to the department during their last semester of study.

A departmental "Undergraduate Awards Program and Research Symposium" is held each spring to highlight undergraduate research accomplishments and honor students who have distinguished themselves in various areas. Among the awards are the Durward Layde Memorial Fellowship, the Chemistry Emeritus Award for the Outstanding Junior, the McFarland Awards for the best undergraduate research

poster presentations, as well as awards for Outstanding Performance in Introductory Chemistry, Analytical Chemistry, Biochemistry, Inorganic Chemistry, Organic Chemistry (Kovac Award), and Physical Chemistry (Vanselow Award).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Chemistry, Minor

Chemistry is the study of the elementary parts and substances that make up our world, both the parts that occur in nature as well as man-made objects.

Chemistry is known as the "central science" because of its relationship to all other sciences. Thus, a minor in chemistry nicely complements any other science major.

Our alumni go into medical research, healthcare professions, manufacturing (particularly research and development), scientific writing and marketing, law (particularly areas of law that deal with science such as intellectual property), forensics and toxicology, aspects of engineering and production, teaching, sales, consulting, and government agency work.

The opportunity to participate in research as an undergraduate is a distinct advantage for UWM undergraduates. At most large, research universities, research opportunities for undergraduates are limited; there are fewer of them and they often are reserved for juniors or seniors. At UWM, you can get involved as early as freshman year. Students work directly with faculty and graduate students on their current research projects, and sometimes find themselves published in a peer-reviewed journal right alongside the faculty member. Participating in undergraduate research is an excellent way to enhance your resume for graduate school or employment.

## Requirements

The minor in Chemistry consists of a minimum of 20 credits in chemistry, with at least 9 of these at or above the 300 level in residence at UWM.

Students must maintain an average GPA of 2.0 in all minor courses attempted at UWM. In addition, students must attain a 2.0 GPA on all minor courses attempted, including any transfer work. CHEM 106 does not count toward the minor and is not included in the minor GPA.

Code	Title	Credits
General Chemistry Requirement <sup>1</sup>		
CHEM 102	General Chemistry	5
CHEM 104	General Chemistry and Qualitative Analysis	5
Select one course from three of the following areas: <sup>2</sup>		5-10
<i>Analytical:</i>		
CHEM 221	Elementary Quantitative Analysis	
CHEM 524	Instrumental Analysis	
<i>Biochemistry:</i>		
CHEM 501	Introduction to Biochemistry	
CHEM 601	Biochemistry: Protein Structure and Function	
CHEM 602	Biochemistry: Cellular Processes	
CHEM 603	Introduction to Biochemistry Laboratory	
CHEM 604	Biochemistry: Metabolism	
<i>Inorganic:</i>		
CHEM 311	Introduction to Inorganic Chemistry	
CHEM 611	Physical Inorganic Chemistry	
CHEM 614	Bio-Inorganic Chemistry	
<i>Organic:</i>		
CHEM 341	Introductory Survey of Organic Chemistry	
CHEM 342	Introductory Organic Chemistry Laboratory	
CHEM 343	Organic Chemistry	
CHEM 344	Organic Chemistry Laboratory	
CHEM 345	Organic Chemistry	
<i>Physical:</i>		
CHEM 560	Biophysical Chemistry	
CHEM 561	Physical Chemistry I	
CHEM 562	Physical Chemistry II	
CHEM 563	Physical Chemistry Laboratory	
<b>Total Credits</b>		<b>15-20</b>

<sup>1</sup> Students without high school chemistry or whose background in science is weak may need to take CHEM 100 prior to enrolling in CHEM 102.

<sup>2</sup> At least one course with a laboratory, beyond general chemistry, must be taken.

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor"

button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Chemistry, MS

The Department of Chemistry and Biochemistry offers a graduate program of studies with a choice of areas of specialization in analytical, organic, inorganic and physical chemistry or in biochemistry. The student is expected to develop breadth of study beyond the boundaries of traditional areas and disciplines. The student is afforded the opportunity of interdisciplinary study in the Surface Studies Laboratory and in the Center for Great Lakes Studies.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements to be considered for admission to the program.

1. Undergraduate preparation in chemistry and related areas equivalent to a chemistry major that includes at least two courses each of physical and organic chemistry with associated laboratories, and one course each in analytical and inorganic chemistry.
2. Reason Statement.

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree. See Special Non-Thesis Option below for additional requirements for admission to that option.

### Standard Thesis Option Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. The entering student is assigned a temporary advisor; a permanent advisor

must be selected by the end of the first semester of study. The major professor serves as the student's research mentor.

\* This requirement may be modified for part-time students who may be employed during normal hours of the seminar and colloquium.

Graduate School regulations require that a majority of all courses taken be at the 700-999 level.

Prior to initial registration, the student takes advisory examinations to assess that individual's preparation in analytical, organic, inorganic, physical, and biochemistry.

In consultation with the major professor, the student plans a program based on the results of these examinations. The student also must participate in at least one term of part-time teaching as a teaching assistant.

### Thesis

The student writes a thesis, essentially a formal report of that student's research. Since the MS is largely a research degree, the quality of research reported in the thesis is an important measure of the student's success in the program.

### Comprehensive Examination

The student must pass a final oral examination in defense of the thesis. At the discretion of the examining committee, this examination may include topics in addition to the thesis.

### Special Non-Thesis Option For Students With Professional Experience In Chemistry

#### Additional Admission Requirements

In addition to the general requirements noted above for the master's degree program, applicants must have a minimum of five years of professional chemistry experience beyond the BA or BS degree, including a sizable amount of research or development laboratory work. Since the Department of Chemistry and Biochemistry believes that the problem-solving experience of research is an indispensable part of graduate study, applicants will be interviewed by a faculty committee to assess the prior research experience as appropriate background for the program.

#### Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. For this option, the major professor is chosen (by the Graduate Subcommittee) before admission to the program, and serves as a member of the committee which assesses the prior research experience of the student. The major professor should be from the area of chemistry in which the student intends to concentrate the major portion of course efforts.

## Credits and Courses

Minimum degree requirement is 30 graduate credits. Normally these include at least five 600-899 level courses, chosen by the student in consultation with the advisor. A minimum grade point average of 3.00 must be earned in formal coursework, not including research courses (CHEM 990-CHEM 996) or seminars (CHEM 912, CHEM 931-CHEM 935). Students must complete a minimum of 6 credits in research. The remaining credits are taken in research and seminars.

Code	Title	Credits
<b>Minimum Requirements</b>		
At least five 600- to 899-level courses		22

CHEM 912 Graduate Seminar (audit each semester and graded once)	8
<b>Total Credits</b>	<b>30</b>

## Additional Requirements

### Papers and Comprehensive Examinations

The student prepares two survey papers exploring subjects in more depth than the coverage in coursework. Of these, one is in a major area and one is in a minor area. These must be approved by the student's examining committee, which consists of three faculty members representing the areas of the papers. One paper must be approved at least six months before the comprehensive examination. An oral comprehensive examination covers both the areas of the papers and other areas at the discretion of the committee.

### Time Limit

The student must complete all degree requirements within five years of initial enrollment.

## Chemistry, PhD

The Department of Chemistry and Biochemistry offers a graduate program of studies with a choice of areas of specialization in analytical, organic, inorganic and physical chemistry or in biochemistry. The student is expected to develop breadth of study beyond the boundaries of traditional areas and disciplines. The student is afforded the opportunity of interdisciplinary study in the Surface Studies Laboratory and in the Center for Great Lakes Studies.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

The Ph.D. in Chemistry is divided into two tracks for the purpose of admission. This bifurcation is an acknowledgement of the highly interdisciplinary nature of modern research and that success in biochemical research often benefits from different background knowledge than would be necessary for other areas of chemistry. An applicant for the Chemistry Ph.D. program must meet all Graduate School requirements *plus* the requirements of the Chemistry or Biochemistry track to be considered for admission:

#### Chemistry Track

The Chemistry Track is designed for undergraduate chemistry majors pursuing research in Analytical Chemistry, Chemistry Education, Inorganic Chemistry, Organic Chemistry, or Physical Chemistry.

- Undergraduate preparation in chemistry that includes at least two courses each of physical and organic chemistry with associated laboratories, and one course each in analytical and inorganic chemistry.
- Reason Statement.

#### Biochemistry Track

The Biochemistry Track is designed for undergraduate biochemistry (or similar) majors pursuing research in Biochemistry, Chemical Biology, or related fields.

- Undergraduate preparation in biochemistry that includes at least two courses each of biochemistry and organic chemistry with associated laboratories, and one course in each of two of the following areas: analytical, inorganic, or physical chemistry.
- Reason Statement.

A master's degree is not a prerequisite for admission to the Ph.D. program in chemistry. Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

### Reapplication

A student who receives the master's degree must formally reapply for admission to the Graduate School before continuing studies toward the PhD.

## Credits and Courses

Minimum degree requirement is 54 graduate credits beyond the bachelor's degree, at least 27 of which must be earned in residence at UWM. The student plans an individual program of study in consultation with the major professor.

Code	Title	Credits
<b>Minimum Requirements</b>		
At least six 600- to 899-level courses		18
Research courses		28
CHEM 912 Graduate Seminar (audit each semester and graded once)		8
<b>Total Credits</b>		<b>54</b>

Coursework must include one of the following:

- a minor of 9 to 12 credits in a single department;
- a minor of 9 to 12 credits in two or more departments;
- a coherent program of at least 9 credits concentrated in an area of chemistry outside the student's principal area of emphasis.

A Program of Study, including coursework and proposed research, must be approved by the Department. A minimum grade point average of 3.00 must be earned in coursework in Chemistry, not including research (CHEM 900-CHEM 996) or seminars (CHEM 912-CHEM 935). Graduate School regulations require that a majority of all courses taken be at the 700-999 level.

The Department has no formal language requirement but the student is responsible for familiarity with published literature in the area of that student's research.

The student must also participate in at least one semester of part-time teaching as a teaching assistant. The first stage of the student's program includes general preparation as in the master's program, as well as

specialized courses in principal areas of interest and the initiation of research.

Admission to the second stage of the PhD program is based upon satisfactory performance in courses, research, and in departmental examinations. Upon entrance, the student takes proficiency examinations in analytical, inorganic, organic, and physical chemistry. Departmental approval to continue in the doctoral program is attained by passing an advanced qualifying examination in the major area. This examination must be completed by the end of the fourth semester of study. In the second stage of the program, the student concentrates on the development and execution of original research. Additional coursework may also be required to complete the program of study.

## Additional Requirements

### Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. The entering student is assigned a temporary advisor; a permanent advisor must be selected by the end of the first semester of study. The major professor serves as the student's research mentor.

### Residence

The student must meet minimum Graduate School residence requirements (<https://uwm.edu/graduateschool/students/academic-policies-and-procedures/doctoral-resources/doctoral-requirements/#residence>).

### Doctoral Preliminary Examination

The student must take a doctoral preliminary examination. This serves to qualify the student for formal admission by the Graduate School to candidacy for the degree.

### Dissertation

Candidates must each present a dissertation reporting the results of independent, original research carried out under the direction of their major professor. At least three months before the Dissertation Defense, at a time when most of the experimental work has been completed, the student meets with the Examining Committee for a preliminary review of the research to be described in the dissertation.

### Dissertation Defense

The candidate must, as the final step toward the degree, defend the dissertation in an oral examination. The candidate also presents a public dissertation seminar, describing research in completed form for the Department and others who may be interested. A student who does not pass this examination within five years of admission to candidacy may be required to take another preliminary examination and be readmitted to candidacy.

### Time Limit

All degree requirements must be completed within 10 years from the date of initial enrollment in the doctoral program. For additional information view the Graduate School PhD requirements (<https://uwm.edu/graduateschool/students/academic-policies-and-procedures/doctoral-resources/doctoral-requirements/>).

## Death Investigation, Undergraduate Certificate (College of Letters and Science, Department of Chemistry and Biochemistry)

The Biomedical Sciences Program, Criminal Justice Program, and Departments of Anthropology and Chemistry cooperate in offering three certificates in the area of forensic sciences. Sponsored jointly by the College of Letters and Science, the College of Health Professions and Sciences, and the Helen Bader School of Social Welfare, these certificate curricula are designed to train students in basic skills that will provide the foundation for careers in the fields of law enforcement, death investigation, pathology, and toxicology. Certificates are offered in Death Investigation, Forensic Science, and Forensic Toxicology. Where applicable, the curriculum meets the criteria required for professional certification examinations (Medicolegal Death Investigation, Toxicological Chemist).

### Eligibility

Undergraduate students who pursue a forensic sciences certificate maintain their identity as majors in their home departments and continue to progress toward a baccalaureate degree while in the certificate program. Courses include lecture presentations and laboratory experiences that cover fundamental areas of forensic science and provide unique instruction on techniques that are essential in the specific certificates. Students are given instruction by faculty members at UWM and forensic professionals in the Milwaukee community. Any of the programs may be pursued as a post-baccalaureate educational certificate. Individuals who are not enrolled in a degree program at UWM, but are seeking continuing education for career development, may be admitted to courses in the certificate programs by meeting prerequisites with equivalent experience or consent of the instructor.

### Requirements

To receive a certificate in Death Investigation, Forensic Science, or Forensic Toxicology, students must complete at least one half of the required credits on the UWM campus. A minimum grade point average of 2.500 must be achieved on the required credits. All options within the certificate require at least a basic knowledge of chemistry and biology. To meet this requirement, prior to registering themselves in the Forensic Sciences Certificate Program, students must successfully complete CHEM 100 or equivalent and BIO SCI 100 or equivalent.

The following courses must be completed successfully to obtain a Certificate in Death Investigation:

Code	Title	Credits
ANTHRO/BMS/CHEM/ CRM JST 281	Dead Men Do Tell Tales: An Introduction to Forensic Science	3
ANTHRO/BMS/CHEM/ CRM JST 285	Medicolegal Death Investigation	3
ANTHRO/BMS/CHEM/ CRM JST 481	Criminalistics	3
ANTHRO 403	The Human Skeleton	3
ANTHRO 405	Forensic Anthropology	3
CRM JST 110	Introduction to Criminal Justice	3
CRM JST 480	Criminal Evidence and Investigation	3

BMS 610 or HCA 212	Pharmacology Drugs Used and Abused	3
<b>Total Credits</b>		<b>24</b>

Additional courses with forensic content are listed below. Check prerequisites or consult the instructor for eligibility. These courses are recommended, but are not required, for the Certificate in Death Investigation:

Code	Title	Credits
ANTHRO/BMS/CHEM/ CRM JST 585	Internship in Forensic Toxicology	1-3
ANTHRO/BMS/CHEM/ CRM JST 589	Internship in Death Investigation	1-3
ANTHRO/BMS/CHEM/ CRM JST 594	Internship in Forensic Science	1-3
ANTHRO 404	Human Biological Variation	3
BIO SCI 539	Laboratory Techniques in Molecular Biology	4
CHEM 194	First-Year Seminar:	3
CHEM 524	Instrumental Analysis	3
CHEM 602	Biochemistry: Cellular Processes	3
BMS 555	Toxicology and Therapeutic Drug Monitoring	1
BMS 560	Molecular and Genetic Diagnostics	2
BMS 561	Molecular Diagnostics Laboratory	1

## Forensic Science, Undergraduate Certificate (College of Letters and Science, Department of Chemistry and Biochemistry)

The Biomedical Sciences Program, Criminal Justice Program, and Departments of Anthropology and Chemistry cooperate in offering three certificates in the area of forensic sciences. BMS 560	Molecular and Genetic Diagnostics	2
BMS 561	Molecular Diagnostics Laboratory	1

## Childhood and Adolescence Studies, Undergraduate Certificate

The Undergraduate Certificate in Childhood and Adolescence Studies (CAS) covers topics related to children and their social worlds. Through its classes, students examine how race, class, gender, sexuality, and disability impact development and cognition. CAS is an interdisciplinary program built around a core of liberal arts courses, with primary course offerings in sociology and psychology, and other complementary courses drawn in from health sciences, social work, education, and criminal justice.

Students complete the certificate with a better understanding of children and adolescence and how they are affected by society, culture, religion, politics, economics, health, and education policy. The certificate complements a number of different majors including education, psychology, sociology, social work and political science, and can make graduates more marketable for jobs that involve working with children.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

### Eligibility

The Childhood and Adolescence Studies Undergraduate Certificate is intended to enhance a bachelor's degree. The Program is open to all students seeking a bachelor's degree from UWM and to students who previously have received a bachelor's degree from UWM or any other accredited college or university. Students currently involved in baccalaureate studies who successfully complete the requirements of the program will be awarded the certificate at the time of graduation.

Students who already have a bachelor's degree will receive the certificate upon completion of the program requirements.

## Requirements

To obtain the certificate, the student must complete, with a minimum grade point average of 2.500, at least 18 credits in approved childhood and adolescence studies courses as indicated below. Courses for the certificate may not be taken on a credit/no credit basis.

Twelve of the 18 required credits must be earned in residence at UWM. Of these twelve residence credits, nine must be taken at the 300 level or above. Of the 18 required credits, 12 must be in the College of Letters and Science, with at least six of these at the 300 level or above. Three credits must be elected from outside the College of Letters and Science. No more than nine credits from any one department may count toward the Childhood and Adolescence Studies Certificate.

A maximum of six credits in Independent Study may count toward program requirements.

Code	Title	Credits
<b>Core</b>		
PSYCH 260	Child Psychology	3
ANTHRO 446	The Child in Different Cultures	3
<b>Electives <sup>1</sup></b>		
Select at least 6 credits from approved Letters and Science courses below		6
Select at least 3 credits from approved Non-L&S courses below		3
Select 3 additional credits from the list of approved courses below		3
<b>Total Credits</b>		<b>18</b>

<sup>1</sup> Students may petition the CAS Advisory Committee for approval of appropriate courses not on the approved list.

## Approved Courses

Independent study courses focusing on children and adolescents may be accepted with the approval of the CAS Advisory Committee. If a core course is not offered in the years an undergraduate student is pursuing the certificate, the student can petition the CAS Advisory Committee to accept another course in its stead. Other courses not on this list but relevant to the study of children and adolescents may be accepted with the approval of the CAS Advisory Committee.

Credits earned at other institutions equivalent to courses in the certificate program may be accepted in partial fulfillment of the program requirements, subject to review by the CAS Advisory Committee. Students currently enrolled at UWM who have fulfilled some of the program's requirements prior to the program's approval may have their credits applied retroactively to the certificate program.

## Committee Interdisciplinary Major, BA/BS

The Committee Interdisciplinary Major is an option for self-directed and highly motivated students whose academic interests go beyond the existing major programs at UWM.

Students interested in this major must have in mind a topic that connects ideas from more than one major and that cannot be addressed within an existing major. They should discuss this topic with a faculty member who has related research and/or teaching interests to determine whether the topic is truly interdisciplinary.

If the faculty member agrees to advise the student on their topic, the student and the faculty member will work together to identify two more faculty members to serve on the student's interdisciplinary committee. The student will also work with their faculty advisor to develop the major proposal and declare this major.

**To access the Committee Interdisciplinary Major proposal form, the student should ask their L&S advisor or look on the Letters & Science academics page.**

Past CIM topics have included Community Development, Ethical Issues and the Law, Pharmaceutical Sales and Promotion, Re-emergence of Eastern Europe, and Science and Health Communication.

Students completing the Committee Interdisciplinary Major must also complete all UWM General Education Requirements. They must also decide whether they will complete a BA or BS degree and fulfill all the requirements of the BA or BS in the College of Letters & Science.

### Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

#### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

#### Arts

Select 3 credits 3

#### Humanities

Select 6 credits 6

#### Social Sciences

Select 6 credits 6

#### Natural Sciences

Select 6 credits (at least two courses including one lab) 6

#### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

#### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing

course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

## II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete

## III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

## IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

## V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *		12
<b>Cultural Diversity</b>		

Complete 3 credits in a course with Cultural Diversity (CD) designation.\*\* 3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

#### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Course of Study – Bachelor of Science Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated Advanced Natural Science courses (<https://catalog.uwm.edu/letters-science/approved-courses-advanced-natural-science/>). The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		

Achieve a grade of C or better in the following course:

ENGLISH 102	College Writing and Research (or equivalent)
-------------	--

#### Part B

Course designated as OWC-B; may be completed through a major-specific course requirement

#### Quantitative Literacy

##### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

##### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

#### Arts

Select 3 credits 3

#### Humanities

Select 6 credits 6

#### Social Sciences

Select 6 credits 6

#### Natural Sciences

Select 6 credits (at least two courses including one lab) 6

#### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

#### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or

2) placing beyond English 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or

3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

## II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

Code	Title	Credits
MATH 211	Survey in Calculus and Analytic Geometry I	4
MATH 213	Calculus with Life Sciences Applications	4
MATH 221	Honors Calculus I	5
MATH 231	Calculus and Analytic Geometry I	4

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

## III. Foreign Language Requirement

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

## IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

## V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including laboratory or field courses from three different curricular areas. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

## VI. The Major

The College requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

## VII. The Minor

The College requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation.

## Committee Interdisciplinary Major Requirements

The Committee Interdisciplinary Major requires a minimum of 30 credits, of which at least 15 must be in upper-division (numbered 300 or above) Letters and Science courses taken in residence at UWM. The CIM must include coursework in at least two L&S academic units. All committee interdisciplinary majors must be approved by the major academic units involved. Most academic units outside the College may also be selected as part of the major. However, at least 18 credits in the major must be earned in Letters and Science courses. Non-L&S courses selected as part of a CIM will not count toward the 90 L&S credits required for the degree, but they will satisfy part of the 30 elective credits available to L&S students.

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

To propose a CIM, students should first identify a topic that cannot be studied in depth in any existing major, and a faculty member ("faculty advisor") to advise them on this interdisciplinary topic. The student should write a proposed description of the major with its goals. Then the student will work with the faculty advisor to:

- Identify a title for the major
- Finalize the description of the major
- Select the courses that will be required for the major, and
- Identify two additional faculty from two or more academic units willing to serve on the student's major committee

The student and faculty member will complete the online declaration of Committee Interdisciplinary Major form at any time between the 15th

and 75th credit. The form must be signed by the student and the three committee members before going to the L&S Associate Dean of the division most relevant to the topic for approval.

Should the proposal be denied, the student and the committee chair will receive a written explanation of the denial. The proposal may be reworked and resubmitted. Students may appeal a denial to the L&S Academic Policies and Curriculum Committee.

## Eligibility to serve on student's major committee

The committee must be composed of three individuals from two or more academic units who are willing to function as the major oversight committee. At least two committee members must be from L&S. A member of the L&S faculty serves as committee chair and major advisor ("faculty advisor"). One committee member may be instructional academic staff, but at least two must be tenure-track faculty members. All committees must be approved by the L&S Associate Dean in the division most relevant to the major topic.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Communication

The study of communication examines how language is used to generate meanings within and across various contexts, cultures, and media. The mission of the Department of Communication is to provide students with education in the theory, history, ethics and practice of communication and to prepare them for careers and leadership in a wide variety of professions.

## Communication, BA

Communication is a broad field, covering all of the different ways humans can exchange information - orally, through written word, and through nonverbal and visual cues. The study of communication involves the analysis of the communication patterns, settings, and tools that people use. Regardless of industry, in survey after survey, almost every employer ranks communication skills as one of their top three criteria when hiring.

Communication students at UWM not only graduate with top-notch communication skills, but they also have a thorough understanding of communication as a process and as a system. They are the individuals who can work with all types of people, bringing out their best. Communication majors go on to all types of work, but the common denominator is that their work most likely involves lots of interaction with others. Sales, marketing, media, public relations, human resources, mediation, law, journalism, merchandising, advertising, education, public office, and social welfare are just a few of the most popular post-college careers. At UWM, students can focus their Communication electives around four tracks: interpersonal communication; rhetoric and public communication; intercultural communication; or technology and communication. The Communication major can be completed entirely online if desired. Or, students can mix-and-match online and in-person classes in whatever combination they wish.

### Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete

University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	

MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

**Part B**

Course designated as QL-B; may be completed through a major-specific course requirement

**Arts**

Select 3 credits 3

**Humanities**

Select 6 credits 6

**Social Sciences**

Select 6 credits 6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**College of Letters & Science Requirements****I. English Composition Requirement**

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a

grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

**III. Foreign Language Requirement**

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
	Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)	
	Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)	

#### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
	Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above	
	Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.	
	Complete 9 credits in combination of the two options above.	

#### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
	Select 3 credits	3
<b>Humanities</b>		
	Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *	12
<b>Social Sciences</b>		
	Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *	12
<b>Natural Sciences</b>		
	Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *	12
<b>Cultural Diversity</b>		
	Complete 3 credits in a course with Cultural Diversity (CD) designation. **	3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

#### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

#### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

#### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

### Communication Major Requirements

A major in communication consists of at least 36 credits in communication courses. At least 18 of the 36 credits must be numbered 300 or above, 15 of these taken in residence at UWM.

Graduation with a major in Communication requires a cumulative GPA of at least 2.0 in all communication courses attempted at UWM as well as a 2.0 GPA in all major credits attempted, including any transfer work. All courses in the major, with the exception of COMMUN 298, must be taken for graded credit. The College of Letters and Science requires that students complete a research experience in their major. The Department of Communication has structured COMMUN 335, COMMUN 370, and COMMUN 372 to satisfy that requirement. In these courses, students must produce a written final research paper that involves conducting independent research in addition to evaluating research in the field and integrating it with their findings. Students will present their research in oral form to their course colleagues.

Code	Title	Credits
<b>Required</b>		
COMMUN 101	Introduction to Interpersonal Communication	3
COMMUN 103	Public Speaking	3
COMMUN 105	Business and Professional Communication	3
Select one of the following:		3
COMMUN 335	Critical Analysis of Communication	
COMMUN 370	Quantitative Research in Communication	
COMMUN 372	Qualitative Research in Communication	

#### Electives

Select 24 credits from across the communication curriculum	24
<b>Total Credits</b>	<b>36</b>

A maximum of 6 credits earned in any combination of the following courses may count toward the minimum number of credits required for the major in communication:

Code	Title	Credits
COMMUN 199	Independent Study	1-3
COMMUN 288	Research Practicum	1-3
COMMUN 296	UROB Apprenticeship	1-3
COMMUN 298	Internship in Communication	1-3
COMMUN 597	Practicum in Teaching Communication	1-3
COMMUN 588	Research Practicum	1-3
COMMUN 698	Internship in Communication	3
COMMUN 699	Advanced Independent Reading	1-3

### Cross-listed Courses

The following courses offered in other subjects may be used to fulfill the requirements of the undergraduate major in Communication.

Code	Title	Credits
JAMS 111	Gender and the Media	3
JAMS 113	Internet Culture	3

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and

- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Honors in the Major

Communication majors who want to graduate with honors in the major must attain a 3.000 GPA on all UWM graded credits attempted, a 3.750 GPA on all coursework taken to complete the major, and a 3.750 GPA on advanced (300 level and above) courses in the major. A minimum of 24 credits, at least 15 at the 300-level or above, in communication courses must be taken in residence at UWM.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

# Communication, MA

## Related Certificates

- Graduate Certificate in Mediation and Negotiation (p. 966)
- Graduate Certificate in Rhetorical Leadership (p. 967)
- Graduate Certificate in Teaching and Learning in Higher Education (p. 331)

The Department of Communication offers MA and PhD programs. The Master of Arts is designed to provide breadth and depth of study in the following areas: Organizational/Professional Communication, Intercultural/International Communication, Interpersonal Communication/Mediation, and Rhetoric/Public Communication. The

program provides initial and advanced preparation for a variety of careers including continued study leading to the PhD degree.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements to be considered for admission to the program:

1. Possess the equivalent of an undergraduate major in speech, speech communication, or related areas.
2. Possess an undergraduate grade point average of 3.00 in the major.
3. Submit a reason statement describing your qualifications and reasons for applying to this program, as well as the fit between your interests and department offerings.
4. Submit your curriculum vitae outlining relevant qualifications, employment, and experiences.
5. Submit three letters of recommendation from persons capable of judging the applicant's capacity for success in a graduate program of study.
6. Submit a sample of written work from an academic and/or professional assignment.

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

Applicants without the requisite grade point average may be considered for admission on a probationary basis.

## Credits and Courses

The minimum degree requirement is 30 credits, including 24 credits taken in the Department of Communication; that is, a maximum of 6 credits taken outside the department may count toward the total credits required. Students must take 24 of the 30 required credits in courses numbered 700 or above.

Students must complete either a professional project or a thesis.

Code	Title	Credits
<b>Required</b>		
<i>General</i>		
COMMUN 800	Proseminar: The Discipline of Communication	3
<i>Methods</i>		
Select one of the following:		3

COMMUN 700	Quantitative Research in Communication	
COMMUN 701	Critical Analysis of Communication	
COMMUN 702	Qualitative Research in Communication	
<b>Electives</b>		<b>24</b>
<b>Total Credits</b>		<b>30</b>

### Electives

Students complete 24 credits in elective courses, most of them selected from courses in the Department of Communication, with the following caveats. A maximum of 6 credits below the 700 level may be counted toward the degree. A maximum of 6 credits in courses outside the department may count toward the degree. No more than 9 credits selected from the combination of COMMUN 998, COMMUN 999, and courses outside the department may count toward the degree. In addition, the following restrictions on the number of credits that may count toward the degree are placed on these courses:

Code	Title	Credits
COMMUN 860	Seminar: Issues in Communication: (Subtitled) (6 credit maximum)	3
COMMUN 990	Research and Thesis	1-6
COMMUN 998	Communication Internship (3 credits maximum)	1-3
COMMUN 999	Independent Study (3 credits maximum)	1-3

### MA Portfolio Project

At the master's level, the MA Portfolio Project (MAPP) is designed to allow students to synthesize their accomplishments during the MA program and identify their strengths and needs as they pursue objectives beyond graduate school. In conjunction with the completion of 30-credit hours (per Department of Communication MA guidelines), students who successfully complete a MAPP will meet the requirements for the MA in Communication.

The MA Portfolio Project will provide students with an opportunity to:

- Compile documentation of academic accomplishments during the pursuit of an MA.
- Synthesize the primary contributions of MA coursework.
- Critically reflect upon accomplishments in written work.
- Reflect upon the accomplishment of their initial goals and objectives for the MA, and articulate future career goals and objectives that will utilize the skills/knowledge gained.
- Establish a connection with a field expert (e.g., an individual who works in the student's desired employment sector or a member of a community group with whom the student hopes to work) and gain additional information about activities the student may wish to pursue after graduation.
- Reflect upon one's understanding of future pursuits and draw connections between the MA experience and the nature of this type of work/service.

## Additional Requirements

### Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. The major professor should be designated no later than the end of the student's

first year of enrollment. The incoming student is assigned the Graduate Coordinator or other program faculty member as an initial advisor until a major professor is selected.

### Thesis Option

A thesis involves applied or basic research and is a proven method for developing specialized knowledge and skills that can enhance an individual's expertise within a substantive area of study. A thesis is recommended for students who intend to continue study toward the PhD degree or plan research-related employment. If the thesis option is elected, the student must initiate and write an original research project under the guidance of his/her major professor; the student also must pass an oral defense of the finished project conducted by his/her thesis committee.

### Time Limit

The student must complete all degree requirements within five years of initial enrollment.

## Communication, MA: Rhetorical Leadership

*Effective Spring 2022, the Rhetorical Leadership concentration has suspended admission.*

Interested students may complete a concentration in rhetorical leadership that will be designated on their transcripts.

## Admission Requirements

*Effective Spring 2022, the Rhetorical Leadership concentration has suspended admission.*

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

COMMUN 665	Introduction to Mediation	
COMMUN 667	Great American Speakers and Issues	
COMMUN 672	Communication and Social Order	
COMMUN 701	Critical Analysis of Communication	
COMMUN 735	Rhetorical Theory	
COMMUN 762	Argumentation in Theory and Practice (if not selected above)	
COMMUN 835	Seminar in Contemporary Public Address	
COMMUN 860	Seminar: Issues in Communication: (Subtitle, with a rhetorical topic)	
COMMUN 862	Public Deliberation	
COMMUN 865		
COMMUN 872	Rhetorics of Constituting Community and Social Controversy (if not selected above)	
COMMUN 873	The Digital Mirror	
COMMUN 874	Rhetoric of Women’s Rights in the US	
COMMUN 893	Rhetoric of/and the Internet	
COMMUN 973	Topics in Rhetorical Research:	

COMMUN 998	Communication Internship (with rhetorical leadership topic directed by a member of the Rhetorical Leadership Committee)
------------	---

**Total Credits** **15**

## Additional Requirements

### Major Professor as Advisor

The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. The major professor should be designated no later than the end of the student’s first year of enrollment. The incoming student is assigned the Graduate Coordinator or other program faculty member as an initial advisor until a major professor is selected.

### Thesis Option

A thesis involves applied or basic research and is a proven method for developing specialized knowledge and skills that can enhance an individual’s expertise within a substantive area of study. A thesis is recommended for students who intend to continue study toward the PhD degree or plan research-related employment. If the thesis option is elected, the student must initiate and write an original research project under the guidance of his/her major professor; the student also must pass an oral defense of the finished project conducted by his/her thesis committee.

### Time Limit

The student must complete all degree requirements within five years of initial enrollment.

## Communication, Minor

Communication is a broad field, covering all of the different ways humans can exchange information - orally, through written word, and through nonverbal and visual cues. The study of communication involves the analysis of the communication patterns, settings, and tools that people use. Regardless of industry, in survey after survey, almost every employer ranks communication skills as one of their top three criteria when hiring.

Communication students at UWM not only graduate with top-notch communication skills, but they also have a thorough understanding of communication as a process and as a system. They are the individuals who can work with all types of people, bringing out their best. Sales, marketing, media, public relations, human resources, mediation, law, journalism, merchandising, advertising, education, public office, and social welfare are just a few of the most popular post-college careers. At UWM, students can focus their Communication electives around four tracks: interpersonal communication; rhetoric and public communication; intercultural communication; or technology and communication.

The Communication minor can be completed entirely online if desired. Or, students can mix-and-match online and in-person classes in whatever combination they wish.

## Requirements

The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM, and at least a 2.0 GPA on all minor credits attempted when any transfer work is included along with the UWM work. A minor in communication consists of at least 18 credits in communication courses, as distributed below:

Code	Title	Credits
<b>Core</b>		
COMMUN 101	Introduction to Interpersonal Communication	3
COMMUN 103	Public Speaking	3
COMMUN 105	Business and Professional Communication	3
<b>Electives</b>		
Select 9 credits numbered 300 or above (must be taken in residence at UWM)		9
<b>Total Credits</b>		<b>18</b>

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Communication, PhD

### Related Certificates

- Graduate Certificate in Mediation and Negotiation (p. 966)
- Graduate Certificate in Rhetorical Leadership (p. 967)
- Graduate Certificate in Teaching and Learning in Higher Education (p. 331)

The Department of Communication offers MA and PhD programs. The Doctor of Philosophy in Communication provides study and training for entry into academic or professional careers that would necessitate theory-driven basic or applied research on communication practices and outcomes. The program's thrust emphasizes studying the effects of professional communication practices on organizational goals and structure, the processes of interpersonal communication and conflict resolution, and the conduct of civic practice and public communication.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

## Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>), hold a master's degree in communication or a related field, and meet these departmental requirements to be considered for admission to the program in regular status:

- Have a cumulative GPA of at least a 3.33 (B+) in course work for the master's degree.
- Submit a reason statement describing your qualifications and reasons for applying to this program, as well as the fit between your interests and department offerings.
- Submit your curriculum vitae outlining relevant qualifications, employment, and scholarly and professional activity.
- Submit letters of recommendation from at least three (3) communication professionals attesting to the student's capability to perform satisfactorily at the doctoral level (academic references preferred).
- Submit a writing sample that demonstrates the applicant's analytical and critical thinking skills.

Applicants lacking the requisite GPA, and those without the Master of Arts/Science in Communication (or an equivalent degree) may be considered for admission on probation, and may be required to complete preparatory coursework.

## Reapplication/Readmission

Students who receive the MA in Communication from UWM must reapply to be considered for admission to the PhD program.

## Credits and Courses

To fulfill the credit requirement for the PhD in Communication, a student must complete at least 54 credits beyond the master's degree, of which at least 48 credits must be in courses numbered 700 or above. Thirty-six (36) credits must be taken from the Communication Department. Students may complete 6 credit hours in courses below 700 offered outside the Department of Communication. Courses taken toward a master's degree will not apply to the doctoral program of studies. The 54 credits must be distributed as follows:

Code	Title	Credits
Select a minimum of 6 credits from communication research tools in courses numbered 900 or above <sup>1</sup>		3
COMMUN 900	Philosophy and Practice of Communication	3
Select a minimum of 18 credits reflecting the student designing a thematic program of study combining theory and praxis in the study of communication processes		18
Select a minimum of 24 additional elective credits		24
COMMUN 990	Research and Thesis <sup>2</sup>	6
<b>Total Credits</b>		<b>54</b>

<sup>1</sup> Students will determine additional research-tool credits in consultation with their advisor, so as to demonstrate methodological competence in their chosen area of study.

<sup>2</sup> No more than 12 credits of COMMUN 990 may be applied toward the 54-credit requirement.

## Additional Requirements

### Major Professor as Advisor

Initially, unless a student specifically requests a particular faculty member, all doctoral students are assigned an "interim" advisor. After the completion of 12 credits, a student is required to designate a faculty member with specialized interests compatible with those of the student to act as the major professor. The major professor is expected to assist the student in planning the remainder of the program of studies, chair the student's preliminary examination committee, supervise the completion of the PhD dissertation, and conduct of the dissertation defense meeting. All students should consult the departmental handbook for additional details on departmental policies and procedures.

### Comprehensive Preliminary Examination

A student must pass all components of a comprehensive preliminary examination to be advanced to candidacy for the doctoral degree. The examining committee is responsible for setting an examination schedule agreeable to all parties subject to the constraints that:

1. examinations must include at least 18 hours of questioning, and
2. must be completed in no longer than two (2) calendar weeks.

Each member of the examining committee must read and pass the student on all examination questions the faculty member contributes. The student must receive a passing evaluation from all members of the committee on the written portion of the examination in order to attempt an oral defense of the examination. An affirmative vote constitutes the committee's decision to advance the student to candidacy for the doctoral degree.

Students who fail the doctoral preliminary examination may not proceed to the dissertation. The exam may be retaken only once. The preliminary examination must be successfully completed within five years of initial enrollment.

### Dissertation

The candidate, under the supervision of the major professor and in collaboration with a dissertation committee, must write a dissertation that demonstrates the ability to formulate a research topic and pursue an independent and original investigation of the chosen topic. The practices for the dissertation will conform to the guidelines established by the UWM Graduate School. The dissertation committee shall be composed of the major professor and four additional graduate faculty members (at least three of whom must be from the Communication Department's graduate faculty). The dissertation committee is responsible for assessing the dissertation project, which involves approving the dissertation prospectus proposal, reviewing working drafts of research in progress, and, finally, evaluating the candidate's ability to defend decisions made during the course of research. After submission of a reading copy of the dissertation to the faculty dissertation committee, the candidate and the major professor will schedule a committee meeting for the purpose of undertaking an oral defense of the dissertation work by the candidate. At the conclusion of the candidate's oral remarks, the dissertation committee will vote on passing the candidate's dissertation work. A majority of the committee must vote to approve the dissertation and recommend granting of the Doctor of Philosophy degree.

### Residence

The student must meet minimum Graduate School residence requirements (<http://uwm.edu/graduateschool/doctoral-requirements/#residence>) of one continuous academic year of full-time graduate studies at UWM. This can be satisfied by completing at least 8 graduate

credits in each of two consecutive semesters, or 6 or more graduate credits in each of three consecutive semesters, exclusive of summer sessions. Residence credit cannot be earned at the master's level.

### Time Limit

All components of the PhD program must be completed within 10 years of matriculation.

## Communication, PhD: Rhetorical Leadership

*Effective Spring 2022, the Rhetorical Leadership concentration has suspended admission.*

Interested students may complete a concentration in rhetorical leadership that will be designated on their transcripts.

*Effective Spring 2022, the Rhetorical Leadership concentration has suspended admission.*

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>), hold a master's degree in communication or a related field, and meet these departmental requirements to be considered for admission to the program in regular status:

- Have a cumulative GPA of at least a 3.33 (B+) in course work for the master's degree.
- Submit a reason statement describing your qualifications and reasons for applying to this program, as well as the fit between your interests and department offerings.

Applicants lacking the requisite GPA, and those without the Master of Arts/Science in Communication (or an equivalent degree) may be considered for admission on probation, and may be required to complete preparatory coursework.

### Reapplication/Readmission

Students who receive the MA in Communication from UWM must reapply to be considered for admission to the PhD program.

## Credits and Courses

To fulfill the credit requirement for the PhD in Communication, a student must complete at least 54 credits beyond the master's degree, of which

at least 48 credits must be in courses numbered 700 or above. Thirty-six (36) credits must be taken from the Communication Department. Students may complete 6 credit hours in courses below 700 offered outside the Department of Communication. Courses taken toward a master's degree will not apply to the doctoral program of studies. The 54 credits must be distributed as follows:

Code	Title	Credits
Select a minimum of 6 credits from communication research tools in courses numbered 900 or above <sup>1</sup>		3
COMMUN 900	Philosophy and Practice of Communication	3
Select a minimum of 18 credits reflecting the student designing a thematic program of study combining theory and praxis in the study of communication processes		18
Select a minimum of 24 additional elective credits		24
COMMUN 990	Research and Thesis <sup>2</sup>	6
<b>Total Credits</b>		<b>54</b>

<sup>1</sup> Students will determine additional research-tool credits in consultation with their advisor, so as to demonstrate methodological competence in their chosen area of study.

<sup>2</sup> No more than 12 credits of COMMUN 990 may be applied toward the 54-credit requirement.

## Transcript-Designated Concentration in Rhetorical Leadership

Within the PhD, students may elect to fulfill a transcript-designated concentration in Rhetorical Leadership by completing 15 credits as follows:

Code	Title	Credits
<b>Required</b>		
COMMUN 772	Rhetorical Leadership and Ethics	3
COMMUN 762 or COMMUN 872	Argumentation in Theory and Practice Rhetorics of Constituting Community and Social Controversy	3
<b>Electives</b>		
Select three of the following:		9
COMMUN 701	Critical Analysis of Communication	
COMMUN 735	Rhetorical Theory	
COMMUN 762	Argumentation in Theory and Practice (if not selected above)	
COMMUN 835	Seminar in Contemporary Public Address	
COMMUN 860	Seminar: Issues in Communication: (Subtitle, with a rhetorical topic)	
COMMUN 862	Public Deliberation	
COMMUN 865		
COMMUN 872	Rhetorics of Constituting Community and Social Controversy (if not selected above)	
COMMUN 873	The Digital Mirror	
COMMUN 874	Rhetoric of Women's Rights in the US	
COMMUN 893	Rhetoric of/and the Internet	
COMMUN 973	Topics in Rhetorical Research:	

COMMUN 998	Communication Internship (with rhetorical leadership topic directed by a member of the Rhetorical Leadership Committee)
------------	---

**Total Credits**

**15**

## Additional Requirements

### Major Professor as Advisor

Initially, unless a student specifically requests a particular faculty member, all doctoral students are assigned an "interim" advisor. After the completion of 12 credits, a student is required to designate a faculty member with specialized interests compatible with those of the student to act as the major professor. The major professor is expected to assist the student in planning the remainder of the program of studies, chair the student's preliminary examination committee, supervise the completion of the PhD dissertation, and conduct of the dissertation defense meeting. All students should consult the departmental handbook for additional details on departmental policies and procedures.

### Comprehensive Preliminary Examination

A student must pass all components of a comprehensive preliminary examination to be advanced to candidacy for the doctoral degree. The examining committee is responsible for setting an examination schedule agreeable to all parties subject to the constraints that:

1. examinations must include at least 18 hours of questioning, and
2. must be completed in no longer than two (2) calendar weeks.

Each member of the examining committee must read and pass the student on all examination questions the faculty member contributes. The student must receive a passing evaluation from all members of the committee on the written portion of the examination in order to attempt an oral defense of the examination. An affirmative vote constitutes the committee's decision to advance the student to candidacy for the doctoral degree.

Students who fail the doctoral preliminary examination may not proceed to the dissertation. The exam may be retaken only once. The preliminary examination must be successfully completed within five years of initial enrollment.

### Dissertation

The candidate, under the supervision of the major professor and in collaboration with a dissertation committee, must write a dissertation that demonstrates the ability to formulate a research topic and pursue an independent and original investigation of the chosen topic. The practices for the dissertation will conform to the guidelines established by the UWM Graduate School. The dissertation committee shall be composed of the major professor and four additional graduate faculty members (at least three of whom must be from the Communication Department's graduate faculty). The dissertation committee is responsible for assessing the dissertation project, which involves approving the dissertation prospectus proposal, reviewing working drafts of research in progress, and, finally, evaluating the candidate's ability to defend decisions made during the course of research. After submission of a reading copy of the dissertation to the faculty dissertation committee, the candidate and the major professor will schedule a committee meeting for the purpose of undertaking an oral defense of the dissertation work by the candidate. At the conclusion of the candidate's oral remarks, the dissertation committee will vote on passing the candidate's dissertation

work. A majority of the committee must vote to approve the dissertation and recommend granting of the Doctor of Philosophy degree.

### Residence

The student must meet minimum Graduate School residence requirements (<http://uwm.edu/graduateschool/doctoral-requirements/#residence>) of one continuous academic year of full-time graduate studies at UWM. This can be satisfied by completing at least 8 graduate credits in each of two consecutive semesters, or 6 or more graduate credits in each of three consecutive semesters, exclusive of summer sessions. Residence credit cannot be earned at the master's level.

### Time Limit

All components of the PhD program must be completed within 10 years of matriculation.

## Media Studies, MA

*Effective Spring 2023, the Media Studies MA has suspended admission.*

Mediated communication brings information, persuasion, and entertainment to our neighborhoods, our nation, and our world. As the choices expand and the reach of the media becomes more global, media producers can be anyone from a major corporation to an individual activist with a Web site, and media consumers can interact with the products they encounter in a multitude of ways.

The MA in Media Studies offered through the Department of Journalism, Advertising, and Media Studies is wide ranging and interdisciplinary. The goal of the program is to foster knowledge and understanding of mass media and society through critical, cultural, historical, legal, ethical, or social scientific approaches. One particular emphasis of the program is the relationship between the media and the public interest.

The program is oriented toward academic study rather than instruction in technical skills. The curriculum focuses on research and critical thinking about the media. Students complete 24 credits of coursework and a 6-credit thesis. They work closely with their faculty advisors to design a course of study and to conduct original research for their theses.

Media studies graduate faculty members have national reputations for research in an array of specialties. Students in the master's program also are active in research.

The program's alumni apply what they have learned to a range of endeavors, including media-oriented careers and advanced academic work. An increasing number continue their education in PhD programs.

## Admission Requirements

*Effective Spring 2023, the Media Studies MA has suspended admission.*

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus the following departmental requirements to be considered for admission to the program:

1. Present an overall undergraduate grade point average of 3.00 or above.
2. Submit three letters of recommendation from persons capable of judging the applicant's capacity for success in a graduate program of study.
3. Submit scores from the General Test section of the Graduate Record Examination (<http://uwm.edu/graduateschool/admission/#gre>).
4. Submit a sample of original writing in English — a piece of academic or professional work, or a brief essay about a topic of the applicant's choice.

International students, in addition to satisfying the Graduate School's requirements for English language proficiency, must submit TOEFL or IELTS scores sufficiently high to meet program standards.

## Credits and Courses

Students must take 30 graduate credits, at least 24 of which must be in courses offered by the Department of Journalism, Advertising, and Media Studies.

Code	Title	Credits
<b>Required</b>		
JAMS 700	Approaches to Media Studies	3
JAMS 701	Media Studies Research Design	3
Select at least two 800-level seminars offered by the Department of Journalism, Advertising, and Media Studies		6
JAMS 990	Research and Thesis (minimum of 6 credits)	6
<b>Electives</b>		
Select 12 additional graduate credits		12
<b>Total Credits</b>		<b>30</b>

## Additional Requirements

### Advisors

The department's graduate director initially advises students and helps them find a thesis advisor. Students consult with their advisors as they prepare their course plans and consider thesis topics. The thesis advisor guides the student in preparing a thesis proposal, provides advice on the thesis research, and chairs the thesis committee. In consultation with the graduate director, students may change thesis advisors.

### Thesis

All students write a thesis based on original research. The thesis advisor chairs the thesis committee, which also includes two other members. The committee chair and at least one of the other committee members must be from the Department of Journalism, Advertising, and Media Studies. Normally, all members of a thesis committee will be members of the UWM graduate faculty. With the approval of the thesis advisor and the departmental graduate program committee, a student's thesis committee may include someone who is not a member of the UWM graduate faculty when such a person has at least a master's degree and greater expertise in the subject area than do available members of the graduate faculty.

The thesis advisor guides the student in writing a formal thesis proposal, which must be approved by the thesis committee. After the thesis proposal has been approved, the student carries out the proposed research.

The thesis committee evaluates the written thesis and conducts an oral examination at which the student defends his or her research. A student

receives credit for the thesis only if all three members of the committee approve the thesis.

### Time Limit

The student must complete all degree requirements within five years of initial enrollment.

## Mediation and Negotiation, Graduate Certificate

The Department of Communication, in cooperation with the Master's in Human Resources and Labor Relations (MHRLR) and the Sheldon B. Lubar College of Business, offers the Graduate Certificate in Mediation and Negotiation. The program of study is designed to provide practical and theoretical knowledge for students who wish to pursue or advance careers that involve managing or resolving disputes in organizational, educational, community, or family contexts. The program is designed to meet the increasing need of business, organized labor, public sector, and community organizations for people with skills in conflict resolution.

Using an interdisciplinary approach, the program offers a basic knowledge of mediation and negotiation between individuals and across organizations, allows some specialization in further coursework, and is integrated with a final course involving either field-work or a research paper written under the direction of an expert in the area. Students can complete the Graduate Certificate in Mediation and Negotiation while enrolled either part-time or full-time.

With the approval of the program, students admitted to either the Master of Arts in Communication or the Master of Human Resources and Labor Relations degree program may apply courses taken to meet certificate requirements toward their degree.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Eligibility and Admission

Students applying for the Certificate Program in Mediation and Negotiation must hold a bachelor's degree and must have earned a 2.75 GPA overall or must furnish substantial evidence of ability to succeed in graduate-level work.

### Application

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (<https://graduateschool-apply.uwm.edu/>).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.

- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted into a certificate program.

## Credits and Courses

The certificate requires 12 credits, including 9 credits of coursework and 3 credits of field work or research.

Code	Title	Credits
<b>Required</b>		
COMMUN 665	Introduction to Mediation	3
ECON 753	Collective Bargaining	3
<b>Elective</b>		
Select one of the following:		3
COMMUN 865		
IND REL 715	Workplace Dispute Resolution	
BUS ADM 737	Managerial Decisions and Negotiations	
<b>Field Work or Research Requirement</b>		
Select one of the following:		3
COMMUN 998	Communication Internship	
COMMUN 999	Independent Study	
IND REL 801	Research Project in Industrial and Labor Relations	
IND REL 921	Internship in Industrial Relations	
IND REL 999	Independent Study	
BUS ADM 799	Reading and Research	
<b>Total Credits</b>		<b>12</b>

## Recommended or Related Courses

Not required for the Certificate.

Code	Title	Credits
COMMUN 823	Seminar in Small Group Communication	3
ED POL 510	Human Relations for Community Organizations & Community Engagement	3

## Additional Requirements

### Transfer Credit

No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

### Grade Point Average Requirement

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

### Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
  - Degree programs must approve the courses from certificates that can double count toward the degree.
  - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the

degree. (Note: Students in PhD programs must still complete the minimum residency requirements)

- Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
- 2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
- 3. A course may count toward no more than one certificate and one degree.
- 4. Students may not earn a certificate subsequent to a concentration in the same area.

### Time Limit

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

## Rhetorical Leadership, Graduate Certificate

*Effective Spring 2022, the Rhetorical Leadership Certificate has suspended admission.*

Leadership is a highly valued, yet always scarce resource in all areas requiring coordinated action: civil society, professional work, profit and non-profit venues, religious and social action contexts. Communication's Rhetorical Leadership certificate program prepares leaders with humanistic knowledge, skills and attitudes through five graduate courses.

"Rhetorical Leadership and Ethics" covers rhetoric's role in and potential for responsible leadership in multiple arenas; it is informed by the long history of debate over the legitimacy of studying rhetoric as a means of promoting joint action.

"Rhetoric of Constituting Community and Social Controversy" addresses explicitly the rhetorical range available to leaders, whether their main goal is constituting communities or promoting change in ways that the existing decision-making channels cannot accommodate.

"Argumentation in Theory and Practice" integrates argumentative theory and practice in ways that are useful for potential leaders; it involves some performance-based learning that requires students to test their preferred theory alternatives in action.

*Effective Spring 2022, the Rhetorical Leadership Certificate has suspended admission.*

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

## Eligibility and Admission

Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted to a certificate program.

## Application

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (<https://graduateschool-apply.uwm.edu/>).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted into a certificate program.

## Credits and Courses

Code	Title	Credits
<b>Required</b>		
COMMUN 772	Rhetorical Leadership and Ethics	3
COMMUN 762	Argumentation in Theory and Practice	3
or COMMUN 872	Rhetorics of Constituting Community and Social Controversy	
<b>Electives</b>		
Select three of the following:		9
COMMUN 665	Introduction to Mediation	
COMMUN 667	Great American Speakers and Issues	
COMMUN 672	Communication and Social Order	
COMMUN 701	Critical Analysis of Communication	
COMMUN 735	Rhetorical Theory	
COMMUN 762	Argumentation in Theory and Practice (if not selected above)	
COMMUN 835	Seminar in Contemporary Public Address	
COMMUN 860	Seminar: Issues in Communication: (Subtitle, with a rhetorical topic)

COMMUN 893	Rhetoric of/and the Internet	
COMMUN 973	Topics in Rhetorical Research: (Subtitled)	
COMMUN 998	Communication Internship (with rhetorical leadership topic directed by a member of the Rhetorical Leadership Committee)	
<b>Total Credits</b>		<b>15</b>

## Additional Requirements

### Transfer Credit

No more than 20% of the required credits may be taken at an institution other than UWM. Courses will be considered for transfer into the certificate program only if the applicant can provide ample, acceptable evidence that the course taken is substantially the same as one of the five courses that constitute the certificate program. The Rhetorical Leadership Committee will make such determinations, and its decision is final. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program. No transfer credit is allowed for post-graduate students.

### Grade Point Average Requirement

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

### Articulation with Degree Programs

- Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
  - Degree programs must approve the courses from certificates that can double count toward the degree.
  - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in PhD programs must still complete the minimum residency requirements)
  - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
- Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
- A course may count toward no more than one certificate and one degree.
- Students may not earn a certificate subsequent to a concentration in the same area.

### Time Limit

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.

- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

## Gainful Employment Disclosure Information

- Gainful Employment Disclosure Information (<https://uwm.edu/gis-certificate/wp-content/uploads/sites/323/2019/06/gis-cert-gedt-2019.pdf>)

## Conservation and Environmental Science

The alarming rate of climate change, habitat destruction and, species extinction over the last 2 decades has catalyzed our resolve to find solutions to growing environmental problems:

- the contamination of air, water and soil;
- the spread of toxic chemicals;
- invading species driving out native populations, and
- the progressive loss of habitats that species need to grow, survive, and reproduce.

These problems are not simple; finding solutions requires the integration and interpretation of biological, chemical, geological, and social sciences. Coursework in our undergraduate interdisciplinary program provides training in areas such as ecosystem management, natural resources conservation, environmental assessment, and environmental education.

## Programs

- Conservation and Environmental Science, Minor (p. 968)
- Conservation and Environmental Sciences, BA (p. 969)
- Conservation and Environmental Sciences, BS (p. 974)

## Faculty

Name	Rank	Degree	School	Graduate Faculty	Emeritus Faculty
Glen Fredlund	Associate Professor	PhD	University of Kansas		✓
Neal T. O'Reilly	Lecturer	PhD	Marquette University		
Chris Young	Teaching Professor	PhD	University of Minnesota		

## Conservation and Environmental Science, Minor

At UWM, students with a passion for nature and the environment can obtain a solid education in the natural sciences that are central to environmental science - biology, geosciences, and chemistry - and the social sciences of geography, economics, and politics which guide the application of conservation and environmental science in the real world.

Students at UWM can focus their conservation and environmental science work around land resources, water resources, biological resources/biodiversity, or environmental analysis. Internships and field work complement classroom learning. These opportunities can be found locally at UWM's own Field Station (<http://uwm.edu/letters-science/programs/?discipline=Field+Station>), on Lake Michigan aboard UWM's R/V Neeskay vessel, and at local agencies, or abroad in places as far flung as Iceland, Africa, Romania and the Caribbean.

An active Conservation Club is another student advantage at UWM. Activities range from on-campus sustainability projects to professional networking and more.

It is recommended that students obtain at least one semester of practical work or internship experience, either as an employee or as a volunteer, with state or federal resource management agencies, consulting firms, conservation or environmental organizations, or with nature centers or local parks.

## Requirements

The Conservation and Environmental Science minor requires completion of a minimum of 25 credits distributed among CES courses and approved electives, with at least 12 credits in upper-level (numbered 300 and above) courses. Students must complete at least 9 upper-level credits for the minor in residence at UWM and must attain a 2.0 GPA on all UWM credits attempted for the minor. In addition, the College requires that students attain a 2.0 GPA on all minor credits attempted, including transfer work.

Code	Title	Credits
<b>Introductory Core Requirements</b> <sup>1</sup>		
CES 210	Introduction to Conservation and Environmental Science	3
GEO SCI 100 or GEOG 120	Introduction to the Earth Our Physical Environment	3
Select one of the following:		4-5
CHEM 100	Chemical Science	
CHEM 102	General Chemistry	
CHEM 105	General Chemistry for Engineering	
BIO SCI 102 or BIO SCI 150	Elements of Biology Foundations of Biological Sciences I	3
<b>Upper-Level Requirements</b>		
CES 471 or GEOG 350	Practicum in Natural Resources Management Conservation of Natural Resources	3-4
Select at least 9 upper-level (numbered 300 or above) credits <sup>2</sup>		9
<b>Total Credits</b>		<b>25-27</b>

<sup>1</sup> Students pursuing BS degrees and those interested in taking upper-level natural science classes such as BIO SCI 310 should take CHEM 102 and BIO SCI 150 as part of their introductory core requirements.

<sup>2</sup> Selected from the list of approved elective courses for the CES major, found here (p. 969) or here (p. 974). At least 6 of these must be taken outside the student's major program and at least 3 must be from the natural sciences.

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not

need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact let-sci@uwm.edu.

## Conservation and Environmental Sciences, BA

At UWM, students with a passion for nature and the environment can obtain a solid education in the natural sciences that are central to environmental science - biology, geosciences, and chemistry - and the social sciences of geography, economics, and politics which guide the application of conservation and environmental science in the real world.

Students at UWM can focus their conservation and environmental science work around land resources, water resources, biological resources/biodiversity, or environmental analysis. Internships and field work complement classroom learning. These opportunities can be found locally at UWM's own Field Station (<http://uwm.edu/letters-science/programs/?discipline=Field+Station>), on Lake Michigan aboard UWM's R/V Neeskey vessel, and at local agencies, or abroad in places as far flung as Iceland, Africa, Romania and the Caribbean.

An active Conservation Club is another student advantage at UWM. Activities range from on-campus sustainability projects to professional networking and more.

UWM's CES major builds on students' passion to solve environmental issues through either a BS or a BA degree. The BS requires more courses in math, biology, chemistry, and science and is suitable for careers in field or laboratory work, while the BA has fewer electives in science for a career in public programming, education, or administration.

Because of the breadth and flexibility of this major, students should consult with the Director and/or Coordinator to plan a course of study, preferably before the start of their sophomore year. It is particularly important to begin the introductory course sequences early, since they are prerequisites for advanced courses.

It is recommended that students obtain at least one semester of practical work or internship experience, either as an employee or as a volunteer, with state or federal resource management agencies, consulting firms, conservation or environmental organizations, or with nature centers or local parks.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within

five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
------	-------	---------

### Oral and Written Communication

#### Part A

Achieve a grade of C or better in the following course:

ENGLISH 102	College Writing and Research (or equivalent)	
-------------	--	--

#### Part B

Course designated as OWC-B; may be completed through a major-specific course requirement

### Quantitative Literacy

#### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		

#### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

### Arts

Select 3 credits	3
------------------	---

### Humanities

Select 6 credits	6
------------------	---

### Social Sciences

Select 6 credits	6
------------------	---

### Natural Sciences

Select 6 credits (at least two courses including one lab)	6
---	---

### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		

AFRIC 220	Introduction to Statistics in African and African Diaspora Studies
ANTHRO 568	Introduction to Anthropological Statistics
BIO SCI 465	Biostatistics
ECON 210	Economic Statistics
GEOG 247	Quantitative Analysis in Geography
HIST 595	The Quantitative Analysis of Historical Data
MTHSTAT 215	Elementary Statistical Analysis
PHILOS 211	Elementary Logic
POL SCI 390	Political Data Analysis
POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences

(SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Conservation and Environmental Science Major Requirements

For those students interested in the Water Track, please see the Bachelor of Science in Conservation and Environmental Science (p. 974) major.

### Coursework for the Major (Conservation and Natural Resources Track)

The **Conservation and Natural Resources Track** requires a minimum of 54 credits, 29 of which are advanced-level. All students in the Conservation and Natural Resources track must fulfill the required 36 credits (25 lower-level core credits, and 11 advanced-level credits) and an additional 18 advanced-level credits from among the approved Conservation and Natural Resources Track electives.

Students must complete the courses listed below, including at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

GEO SCI 696	Topics in the Geological Sciences:	1-3
GEO SCI 697	Seminar in the Geological Sciences:	1-3
MTHSTAT 215	Elementary Statistical Analysis	3
POL SCI 383	Environmental Political Theory	3

### Approved CES Course Electives Outside of the College of Letters and Science

Although the following courses may count as credits toward the CES major requirements, they do not count to satisfy the advanced L&S credits requirement for the degree. Consult the program coordinator before enrolling any of these courses.

Code	Title	Credits
ARCH 340	Urban Design	3
ATM SCI 100	Survey of Meteorology	3
ATM SCI 240	Introduction to Meteorology	4
ATM SCI 330	Air-Pollution Meteorology	3
CIV ENG 492	Environmental Impact Assessment	3

FRSHWTR 502	Aquatic Ecosystem Dynamics	3
FRSHWTR 322	Ecology and Evolution of Freshwater Organisms	3
FRSHWTR 361	Introduction to Environmental Data Systems	3
FRSHWTR 391	Water and Natural Resource Economics	3
FRSHWTR 392	Water, Energy, Food, and Climate	3
FRSHWTR 393	Water Law, Policy, and the Environment	3
FRSHWTR 471	Introduction to Sensing Networks	3
FRSHWTR 504	Quantitative Freshwater Analysis	3
PH 375	Topics in Public Health:	3
URBPLAN 591	Introduction to Urban Geographic Information Systems (GIS) in Planning	3

### Other Potential Courses

Because of the interdisciplinary nature of the Conservation and Environmental Science Program, students are encouraged to work with the program coordinator to identify classes that will enable them best to gain the knowledge to achieve their goals. CES students can petition the Program to accept many classes beyond those listed above, if they are appropriate for the major and the individual student's program of study. For example, the following courses may apply:

Code	Title	Credits
ARCH 601	Special Topics:	1-3
ANTHRO 699	Independent Work	1-3
BIO SCI 497	Study Abroad:	1-12
BIO SCI 599	Special Topics in Biological Sciences:	1-3
BIO SCI 699	Independent Study	1-3
FRSHWTR 690	Undergraduate Seminar in Freshwater Sciences:	1-3
GEOG 698	GIS/Cartography Internship	1-6
GEOG 699	Independent Work	1-3
GEO SCI 699	Advanced Independent Reading	1-3

## Declaration of Major

Students wishing to declare the major can obtain the necessary information and materials from the Biological Sciences Office (Lapham Hall, Room 181) or the CES Program Coordinator's office (Lapham Hall, Room 393) or from their College of Letters and Science advisor.

In order to be accepted into the CES program, students should be in their sophomore year and have completed:

Code	Title	Credits
CES 210	Introduction to Conservation and Environmental Science	3
BIO SCI 150	Foundations of Biological Sciences I	4
GEO SCI 100 or GEOG 120	Introduction to the Earth Our Physical Environment	3

In addition to course work in the major, good communication skills are essential; students should take courses in public speaking and technical writing. Computer literacy and knowledge of statistics also are highly desirable. Additionally, introductory courses in economics, ethics, political science, and sociology are recommended. The coordinator or a

Letters and Science advisor can provide a current list of recommended courses.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Conservation and Environmental Sciences, BS

At UWM, students with a passion for nature and the environment can obtain a solid education in the natural sciences that are central to environmental science - biology, geosciences, and chemistry - and the social sciences of geography, economics, and politics which guide the application of conservation and environmental science in the real world.

Students at UWM can focus their conservation and environmental science work around land resources, water resources, biological resources/biodiversity, or environmental analysis. Internships and field work complement classroom learning. These opportunities can be found locally at UWM's own Field Station (<http://uwm.edu/letters-science/programs/?discipline=Field+Station>), on Lake Michigan aboard UWM's R/V Neeskay vessel, and at local agencies, or abroad in places as far flung as Iceland, Africa, Romania and the Caribbean.

An active Conservation Club is another student advantage at UWM. Activities range from on-campus sustainability projects to professional networking and more.

UWM's CES major builds on students' passion to solve environmental issues through either a BS or a BA degree. The BS requires more courses in math, biology, chemistry, and science and is suitable for careers in field or laboratory work, while the BA has fewer electives in science for a career in public programming, education, or administration.

Because of the breadth and flexibility of this major, students should consult with the Director and/or Coordinator to plan a course of study, preferably before the start of their sophomore year. It is particularly important to begin the introductory course sequences early, since they are prerequisites for advanced courses.

It is recommended that students obtain at least one semester of practical work or internship experience, either as an employee or as a volunteer, with state or federal resource management agencies, consulting firms, conservation or environmental organizations, or with nature centers or local parks.

## Course of Study – Bachelor of Science Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated Advanced Natural Science courses (<https://catalog.uwm.edu/letters-science/approved-courses-advanced-natural-science/>). The College requires that students

must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
------	-------	---------

### Oral and Written Communication

#### Part A

Achieve a grade of C or better in the following course:

ENGLISH 102	College Writing and Research (or equivalent)
-------------	--

#### Part B

Course designated as OWC-B; may be completed through a major-specific course requirement

### Quantitative Literacy

#### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra

Or equivalent course

#### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

### Arts

Select 3 credits	3
------------------	---

### Humanities

Select 6 credits	6
------------------	---

### Social Sciences

Select 6 credits	6
------------------	---

### Natural Sciences

Select 6 credits (at least two courses including one lab)	6
---	---

### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) placing beyond English 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

Code	Title	Credits
MATH 211	Survey in Calculus and Analytic Geometry I	4
MATH 213	Calculus with Life Sciences Applications	4
MATH 221	Honors Calculus I	5
MATH 231	Calculus and Analytic Geometry I	4

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	

PHILOS 211	Elementary Logic
POL SCI 390	Political Data Analysis
POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including laboratory or field courses from three different curricular areas. *	12
--	----

### Cultural Diversity

Complete 3 credits in a course with Cultural Diversity (CD) designation. **	3
---	---

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation.

## Conservation and Environmental Science Major Requirements

Conservation and Environmental Sciences offers two undergraduate tracks with separate sets of required classes: **Conservation and Natural Resources** and **Water Resources**.

The **Conservation and Natural Resources Track** is the broader of the two tracks, and gives students the widest range of options. Areas of emphasis, or focus areas, within this track include Land Resources, Conservation Biology, GIS Application, Natural Resource Policy, and Environmental Interpretation.

The **Water Resources Track** provides students with knowledge and skills critical for futures relating to water resources. Within this track, students may choose to focus on Environmental Chemistry and Toxicology, Surface and Groundwater Hydrology, or Aquatic Ecology and Limnology. Completion of this track will prepare students for graduate studies in water resources.

## Coursework for the Major (Conservation and Natural Resources Track)

The **Conservation and Natural Resources Track** requires a minimum of 54 credits, 29 of which are advanced-level. All students in the Conservation and Natural Resources track must fulfill the required 36 credits (25 lower-level core credits, and 11 advanced-level credits) and an additional 18 advanced-level credits from among the approved Conservation and Natural Resources Track electives. The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

### Coursework for the Major (Water Resources Track)

The **Water Resources Track** requires a minimum of 61 credits, 29 of which are advanced-level. All students in the Water Resources Track must fulfill the required 43 credits (32 lower-level core credits, and 11 advanced-level credits) and an additional 18 advanced-level credits from among the approved Water Resources Track electives.

Code	Title	Credits
<b>Required Introductory Core</b>		
BIO SCI 150	Foundations of Biological Sciences I	4
BIO SCI 152	Foundations of Biological Sciences II	4
CES 210	Introduction to Conservation and Environmental Science	3

## Declaration of Major

Students wishing to declare the major can obtain the necessary information and materials from the Biological Sciences Office (Lapham Hall, Room 181) or the CES Program Coordinator's office (Lapham Hall, Room 393) or from their College of Letters and Science advisor.

In order to be accepted into the CES program, students should be in their sophomore year and have completed:

Code	Title	Credits
CES 210	Introduction to Conservation and Environmental Science	3
BIO SCI 150	Foundations of Biological Sciences I	4
GEO SCI 100 or GEOG 120	Introduction to the Earth Our Physical Environment	3

In addition to course work in the major, good communication skills are essential; students should take courses in public speaking and technical writing. Computer literacy and knowledge of statistics also are highly desirable. Additionally, introductory courses in economics, ethics, political science, and sociology are recommended. The coordinator or a Letters and Science advisor can provide a current list of recommended courses.

## Approved CES Course Electives for both Tracks Outside of the College of Letters and Science

**Note:** Although the following courses may count as credits toward the CES major requirements, they do not count to satisfy the advanced L&S credits requirement for the degree. Consult the Coordinator before enrolling in any of these courses.

Code	Title	Credits
ARCH 340	Urban Design	3
ATM SCI 100	Survey of Meteorology	3
ATM SCI 240	Introduction to Meteorology	4
ATM SCI 330	Air-Pollution Meteorology	3
CIV ENG 492	Environmental Impact Assessment	3

FRSHWTR 361	Introduction to Environmental Data Systems	3
FRSHWTR 391	Water and Natural Resource Economics	3
FRSHWTR 392	Water, Energy, Food, and Climate	3
FRSHWTR 393	Water Law, Policy, and the Environment	3
FRSHWTR 471	Introduction to Sensing Networks	3
FRSHWTR 502	Aquatic Ecosystem Dynamics	3
FRSHWTR 504	Quantitative Freshwater Analysis	3
FRSHWTR 506	Environmental Health of Freshwater Ecosystems	3
FRSHWTR 510	Economics, Policy and Management of Water	3
FRSHWTR 512	Freshwater Sciences Practicum:	2-4

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

# Cultures and Communities, Undergraduate Certificate

One of the most exciting things about college is the opportunity to meet and work with people from so many different backgrounds and walks of life. Cultures and Communities operates around the premise that learning to work across differences of cultural background and experience is a process essential to intellectual growth and lifelong learning, and ultimately to building a better world. The Cultures and Communities (CC) undergraduate certificate program promotes such experiences through its unique array of interdisciplinary classes, collaborative projects, and community-based learning.

The Certificate provides students with a thorough understanding of the social construction of cultural identities and their relationship to history, society, politics, and economics. Students explore the multicultural construction of America and examine the community and culture of art, sexuality, gender, race, health, ethics, religion, and technology. The

certificate is valuable and applicable in any career that involves working with people - which is almost everything.

As part of the requirements for the certificate, students complete a service learning component where they work in the community, tying their classroom learning to real world experiences. And, because so many of these classes also count as general education requirements, many students find it quite seamless to add the certificate into their education plan.

## Eligibility

The Cultures and Communities Certificate is open to all degree-seeking undergraduates at UWM to complement the student's major. All students are required to complete an exit survey before the certificate is awarded.

## Requirements

Students must complete at least 3 credits in each of the areas below, including one course with a service learning component. All students are required to complete an exit survey before the certificate is awarded.

The following list of courses approved for the CC certificate indicates which requirement of the certificate is fulfilled by each course and how each course counts toward the University General Education Requirements. L&S students who wish to have their CC courses count toward their Letters and Science breadth requirements must select L&S courses. A single course may satisfy only one area. For the most up-to-date list, contact the Cultures and Communities Program office.

GEOG 213	Geography of Asia (SS) (if not selected in Area III)	3
GEOG 350	Conservation of Natural Resources (SS)	3
Course offered by the College of Health Sciences; also available as BMS, ComSDis, HCA, Kin, OccThpy, and TherRec		
HIST 229	History of Race, Science, and Medicine in the United States (HU/CD) (if not selected in Area II)	3
L&S NS 295	Seminar in the Natural Sciences: (NS) (if not selected in Area II)	1-3
Topic: Seminar on Green Science and Urban Spaces		
NURS 101	Cultural Diversity in Health Care (SS/CD)	3
NURS 380	Honors Seminar: (SS) (Topic: Negotiating Differences: Race and Culture in Contemporary Healthcare)	3
PHILOS 244	Ethical Issues in Health Care: (subtitle) (HU)	3
PHYSICS 194	First-Year Seminar: (NS) (Topic: Physics, Science, and Technology in Our Society: Friend or Foe?)	3

## Data Analytics, BS (College of Letters and Science)

There is data all around us. Businesses are looking to hire people who can manage that data, analyze it, and use it for more effective decision making. The Bachelor of Science in Data Analytics (BSDA) is designed for you to learn those skills.

The Bachelor of Science in Data Analytics is a special degree program that includes courses from the College of Letters & Science, the College of Community Engagement & Professions, the Lubar College of Business, and the College of Engineering & Applied Science to provide a solid general education as well as an interdisciplinary approach to data analytics.

The BS in Data Analytics at UWM is unique because its goal is to train students to practice data analytics in a field they are most passionate about. If you enroll in this program, you will take foundational classes to build core data analytics skills, then specialize in data analytics for business, health, information science, natural sciences, social sciences, or geographic information sciences.

The career prospects for individuals with data analytics degrees are very positive. Data analytics skills are being used not only in industries that are obviously oriented toward using data, like information technology, sciences and business, but also in fields that more recently have begun to take full advantage of their data resources, like agriculture, atmospheric sciences, environmental sciences, geography, and healthcare.

## Requirements

The B.S. in Data Analytics requires 33 credits in General Education courses, 16 credits in Foundation courses, 33 credits in Core courses, 24 credits in a Specialization, and electives to reach a total of 120 credits.

### General Education Competency and Breadth Courses (p. 30)

Code	Title	Credits
<b>Oral and Written Communication Part A</b>		
Grade of C or better in ENGLISH 102 or equivalent		3
<b>Oral and Written Communication Part B</b>		
ENGLISH 205	Business Writing	3
<b>Quantitative Literacy Part A</b>		
Grade of C or better in one of the following:		3
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
Equivalent course		
<b>Quantitative Literacy Part B</b>		
Choose one of the following:		3
MATH 208	Quantitative Models for Business	
MATH 211	Survey in Calculus and Analytic Geometry I	
MATH 213	Calculus with Life Sciences Applications	
MATH 221	Honors Calculus I	
MATH 231	Calculus and Analytic Geometry I	
<b>Breadth Courses</b>		
Arts GER course		3
Cultural Diversity GER course		3
Humanities GER courses		6
Natural Science GER courses (including one lab or field experience)		6
Social Science GER courses		6
Language other than English (two semesters or equivalent)		0-10
<b>Total Credits</b>		<b>36</b>

### Foundation Courses

Code	Title	Credits
<b>Mathematics</b>		
MATH 240	Matrices and Applications	
MATH 212	Survey in Calculus and Analytic Geometry II (4 credits)	
<i>Choose one of the following (3 credits)</i>		
BUS ADM 210	Statistical Modeling in Business Analytics	
BUS ADM 211	Business Scholars: Statistical Modeling in Business Analytics	
ECON 210	Economic Statistics	
MTHSTAT 215	Elementary Statistical Analysis	
<b>Computer Literacy 1</b> <sup>1</sup>		<b>3</b>
<i>Choose one of the following (3 credits)</i>		
BUS ADM 230	Introduction to Information Technology Management	

HS 224	Computational Tools for Healthcare Professionals	
COMPSCI 150	Survey of Computer Science	
<b>Computer Literacy 2</b> <sup>1</sup>		<b>3</b>
<i>Choose one of the following (3 credits)</i>		
COMPSCI 202	Introductory Programming Using Python	
COMPSCI 240	Introduction to Engineering Programming	
COMPSCI 250	Introductory Computer Programming	
INFOST 350	Introduction to Application Development	
<b>Total Credits</b>		<b>16</b>

<sup>1</sup> Computer Literacy 1 and 2 can be satisfied by COMPSCI 250 and COMPSCI 251.

### Core Courses

Code	Title	Credits
<b>Programming Languages</b>		
<i>Choose two of the following (6 credits)</i>		<b>6</b>
BUS ADM 335	Introduction to Business Application Development	
BUS ADM 432	Object-Oriented Systems Development	
INFOST 350	Introduction to Application Development (Cannot be used in this category if it was used to satisfy the 'Computer Literacy 2' requirement)	
INFOST 440	Web Application Development	
BIO SCI 502	Introduction to Programming and Modeling in Ecology and Evolution	
COMPSCI 351	Data Structures and Algorithms	
MTHSTAT 216	Introduction to Statistical Computing and Data Science	
<b>Databases</b>		<b>3</b>
<i>Choose one of the following (3 credits)</i>		
BUS ADM 434	Data Base Management Systems	
INFOST 410	Database Information Retrieval Systems	
HI 537	Health Information Technology and Management	
COMPSCI 557	Introduction to Database Systems	
<b>Analytics and Big Data/Data Mining</b>		<b>6</b>
<i>Choose two of the following (6 credits)</i>		
BUS ADM 336	Enterprise Systems and Data Analytics	
BUS ADM 536	Business Intelligence	
INFOST 582	Introduction to Data Science	
INFOST 687	Data Analysis for Data Science	
INFOST 691	Special Topics in Information Science: ('Computer Forensics' is eligible. Other topics offered in a specific offering of this course must be approved for the degree by the Director of the Program.)	
ATM SCI 600	Data Analytics	
COMPSCI 411	Machine Learning and Applications	

COMPSCI 422	Introduction to Artificial Intelligence
COMPSCI 425	Introduction to Data Mining
ECON 411	Economic Forecasting Methods
GEOG 215	Introduction to Geographic Information Science
GEOG 525	Geographic Information Science (4 credits)
<b>Visualization</b>	<b>3</b>
<i>Choose one of the following (3 credits)</i>	
BUS ADM 438	Information Technology Management Topics:
INFOST 370	Data Analysis and Visualization for the Information Professional
GEOG 405	Cartography (4 credits)
<b>Statistics</b>	<b>6</b>
<i>Choose two of the following (6 credits)</i>	
MTHSTAT 361	Introduction to Mathematical Statistics I
MTHSTAT 362	Introduction to Mathematical Statistics II
ATM SCI 500	Statistical Methods in Atmospheric Sciences
ECON 413	Statistics for Economists
ECON 513	Introduction to Econometrics
<b>Communication</b>	<b>3</b>
ENGLISH 310	Writing, Speaking, and Technoscience in the 21st Century
<b>Ethics</b>	<b>3</b>
<i>Choose one of the following (3 credits)</i>	
BUS ADM 530	Privacy and Information Security for Business
INFOST 661	Information Ethics
HS 311	Law and Ethics for Healthcare Professionals
COMPSCI 395	Social, Professional, and Ethical Issues
PHILOS 237	Technology, Values, and Society
SOCIOL 327	Data, Technology, and Society
<b>Capstone/Fieldwork/Thesis</b>	<b>3</b>
<i>Choose one of the following (3 credits)</i>	
BUS ADM 389	Real Estate Internship
BUS ADM 394	Human Resources Management Internship
BUS ADM 396	Finance Internship
BUS ADM 397	Marketing Internship
BUS ADM 398	Supply Chain & Operations Management Internship
BUS ADM 400	Accounting Professional Internship
BUS ADM 439	Information Technology Management Professional Internship
BUS ADM 459	Finance Professional Internship
BUS ADM 469	Marketing Professional Internship
BUS ADM 479	Supply Chain & Operations Management Professional Internship
BUS ADM 494	International Business Internship

BUS ADM 534	Information Technology Practicum
BUS ADM 600	Management Analysis
INFOST 408	Nonprofit Information Technology
INFOST 490	Senior Capstone
INFOST 495	Information Internship
COMPSCI 595	Capstone Project
ECON 489	Internship in Economics, Upper Division
MTHSTAT 489	Internship in Mathematical Statistics, Upper Division
MATH 599	Capstone Experience (1 credit)
GEOG 600	Perspectives on Geography
GEOG 698	GIS/Cartography Internship

**Total Credits 33**

**Electives in Different Specializations (24 credits in each specialization)**

Code	Title	Credits
<b>Business</b>		<b>24</b>
Select any 24 credits; Sub-specializations are listed so students may focus their coursework.		
BUS ADM 532	Web Development for Open Business Systems	
BUS ADM 533	Introduction to Connected Systems for Business	
BUS ADM 536	Business Intelligence	
BUS ADM 537	Enterprise Systems Concepts and Issues	
BUS ADM 539	Web Application Server Development	
BUS ADM 540	ERP Certification	
<i>Supply Chain</i>		
BUS ADM 370	Introduction to Supply Chain Management	
BUS ADM 436	Systems Analysis and Design	
BUS ADM 478	Supply Chain Analytics	
BUS ADM 571	Quality and Six Sigma Tools	
<i>Marketing</i>		
BUS ADM 360	Principles of Marketing	
BUS ADM 462	Marketing Research	
<i>Finance</i>		
BUS ADM 350	Principles of Finance	
BUS ADM 450	Intermediate Finance	
BUS ADM 451	Investment Finance	
BUS ADM 457	Financial Modeling	
BUS ADM 458	Venture Finance	
<i>Recommended<sup>2</sup></i>		
BUS ADM 300	Career and Professional Development (1 credit)	
<b>Information Science and Technology</b>		<b>24</b>
INFOST 240	Web Design I	
INFOST 315	Knowledge Organization for Information Science and Technology	
INFOST 320	Web Design II	
INFOST 325	Information Security I	

INFOST 340	Introduction to Systems Analysis
INFOST 350	Introduction to Application Development (If not used already as part of the Foundations requirement)
INFOST 375	Multimedia Web Design
INFOST 383	Native Mobile Applications
INFOST 430	Multimedia Application Development
INFOST 465	Legal Aspects of Information Products and Services
INFOST 491	Advanced Topics in Information Science & Technology: <sup>3</sup>
INFOST 583	Survey of Information Security
INFOST 584	Survey of Web and Mobile Content Development
INFOST 695	Ethical Hacking I
INFOST 691	Special Topics in Information Science: <sup>3</sup>
<b>Health</b>	<b>24</b>
<i>This specialization will require 3-6 credits from a different specialization as approved by the Program Director.</i>	
HCA 307	Epidemiology for the Health Sciences
HCA 444	Introduction to Text Retrieval and Its Applications in Biomedicine
HCA 541	Healthcare Information Systems Analysis and Design
HCA 542	Healthcare Database Design and Management
PH 355	Public Health Research Methods I
PH 410	True Lies: Consuming and Communicating Quantitative Information
PH 455	Public Health Research Methods II
<i>Recommend one of the following: <sup>2</sup></i>	
HS 222	Language of Medicine
BMS 205	Introduction to Diagnostic Medicine
NURS 352	Health and Illness Concepts 1: Introduction
<b>Natural Sciences</b>	<b>24</b>
BIO SCI 469	Genomic Data Analysis (2 credits)
FRSHWTR 504	Quantitative Freshwater Analysis
FRSHWTR 514	Analytical Techniques in Freshwater Sciences
FRSHWTR 640	Sequence Analysis
MTHSTAT 563	Regression Analysis
MTHSTAT 564	Time Series Analysis
MTHSTAT 568	Multivariate Statistical Analysis
MATH 583	Introduction to Probability Models
ACTSCI 391	Investment Mathematics I (4 credits)
ACTSCI 591	Investment Mathematics II
ACTSCI 593	Actuarial Models I
ACTSCI 594	Actuarial Models II
ACTSCI 596	Actuarial Statistics I
ACTSCI 597	Actuarial Statistics II
<b>Social Sciences</b>	<b>24</b>
<i>Choose at most one of the following methods courses:</i>	

CRM JST 662	Methods of Social Welfare Research
POL SCI 203	Introduction to Political Science Research
PSYCH 325	Research Methods in Psychology (4 credits)
AFRIC 301	Research Methods in African & African Diaspora Studies
SOCIOL 361	Research Methods in Sociology
<i>Choose at most one of the following multiple regression courses</i>	
ECON 310	Research Methods for Economics
PSYCH 610	Experimental Design
SOCIOL 461	Social Data Analysis Using Regression
<i>And, take courses from the list below to complete 24 credits.</i>	
CRM JST 510	Introduction to Crime Analysis
CRM JST 520	Analysis Oriented Technology: Spatial Data Analysis; Crime Mapping; ArcGIS
GEOG 215	Introduction to Geographic Information Science
GEOG 525	Geographic Information Science (4 credits)
GEOG 547	Spatial Analysis (4 credits)
POL SCI 390	Political Data Analysis
POL SCI 392	Survey Research
PSYCH 510	Advanced Psychological Statistics
SOCIOL 352	Social Networks
<b>Geographic Information Science</b>	<b>24</b>
GEOG 403	Remote Sensing: Environmental and Land Use Analysis (4 credits)
GEOG 437	Qualitative Methods in Geography
GEOG 547	Spatial Analysis (4 credits)
GEOG 515	Watershed Analysis and Modeling
GEOG 625	Intermediate Geographic Information Science (4 credits)
URBPLAN 591	Introduction to Urban Geographic Information Systems (GIS) in Planning
CRM JST 520	Analysis Oriented Technology: Spatial Data Analysis; Crime Mapping; ArcGIS

<sup>2</sup> Recommended courses do not count toward the specialization unless approved by the Director. They are merely recommended additional courses.

<sup>3</sup> Specific topics courses need to be approved for the degree by the Program Director. A topic course cannot be used again if applied to a prior degree requirement category.

## General Electives

With the help of their academic advisor, students will select electives to complete the 120 total credits required for the degree. Electives are tailored to each student's interests and career goals.

## Second Degree

A student wishing to complete a second degree in BSDA will need to complete all 33 credits of the Core Courses. They must complete the Foundations courses to be eligible for this degree. They are not required

to complete the Electives with specialization, as their first major may fulfill that role in the degree.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Digital Arts and Culture

The Digital Arts and Culture (DAC) area is interdisciplinary, combining courses in the areas of arts, humanities, social sciences, and information studies. The undergraduate program offers two learning tracks, a certificate and an multi-disciplinary major.

## Programs

- Digital Arts and Culture, BA (p. 989)
- Digital Arts and Culture, Undergraduate Certificate (p. 994)

## Digital Arts and Culture, BA

The Digital Arts and Culture program is designed to give students a comprehensive understanding of the intersection of digital technologies, culture, and creativity. You will study and explore a variety of emerging media and systems and have exciting practical opportunities with these tools to make, analyze, and share creative works and cultural products.

Our program is student-centered, meaning that you will have the freedom to pursue your interests and tailor your coursework to meet your individual goals. Whether you want to specialize in digital storytelling, games, design, social media, or web development, our faculty, staff, and advisors will work with you to create a personalized plan of study that reflects your passion and ambition.

At the heart of the Digital Arts and Culture program is a commitment to collaboration and community-building. Throughout your academic career, you will have the chance to work with other students, faculty, and community partners on various projects to cultivate creative practices, technological skills, and a supportive network. Our program is interdisciplinary and interactive, with plenty of opportunities for hands-on learning, experimentation, and inquiry within emerging fields.

Upon completing the program, you will be well-prepared to pursue career paths within the creative industries, such as advertising, design, information technology, publishing, and entertainment, and in cultural institutions, like museums, galleries, libraries, and archives. Our graduates have gone on to work as multimedia and digital marketing specialists, editors and producers for broadcast media, graphic designers and creative directors, and more. Additionally, our program sets you up with a strong foundation for graduate programs in digital media, communication studies, rhetoric and culture, and related fields.

If you are enthusiastic about the creative potential of digital technologies and networks, and the critical ways that they shape society, the Digital

Arts and Culture may be the perfect fit for you. Come join us and explore the countless possibilities of our digital futures!

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		
<i>Part B</i>		
Course designated as QL-B; may be completed through a major-specific course requirement		
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Select 6 credits		6
<b>Social Sciences</b>		
Select 6 credits		6

### Natural Sciences

Select 6 credits (at least two courses including one lab) 6

### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College

requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Digital Arts and Culture Degree Requirements

You are strongly advised to consult both the DAC advisor and your L&S advisor to ensure you stay on track towards a degree. A total of 36 credits is required for the major, of which at least 15 upper-level L&S credits must be completed in residence at UWM. No more than 21 credits from a single curricular area may count toward the submajor. Students must earn a 2.0 GPA on all UWM credits that count toward the major. In addition, the College requires that students earn a minimum 2.0 GPA on all transfer work, counting towards the major.

**Total Credits** **36**

<sup>1</sup> ARTHIST 111/ENGLISH 111/FILMSTD 111 can be used either to fulfill the Media Systems requirement, or as an elective, but cannot be used to satisfy both.

## Advising

You are strongly advised to consult both the DAC advisor and your L&S advisor to ensure you stay on track towards a degree.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and

- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Digital Arts and Culture, Undergraduate Certificate

The Digital Arts and Culture (DAC) undergraduate certificate is an interdisciplinary degree program, combining courses in the areas of arts, humanities, social sciences, and information studies.

The program aims to empower learning communities by leading students to a variety of opportunities: to develop skills and understanding of new knowledge production and research methods; to operate with confidence as media practitioners and global communicators with a diverse range of

media literacies; and to collaborate and contribute as creative problem solvers using digital media in a networked culture.

Students in the Digital Arts & Culture program will be able to:

- Analyze digital and electronic media systems, explaining what these platforms do and how they do it.
- Engage with complex digital issues: online, offline, via ubiquitous computing hardware and software.
- Organize information, both architecturally and visually, structuring software, websites, advertisements, social media, and more.
- Demonstrate hands-on, collaborative, and cross-disciplinary, media production with artists and designers.

Coursework is drawn from three colleges at UWM: College of the Arts & Architecture (specifically the Peck School of the Arts within the College), College of Letters and Science, and the College of Community Engagement & Professions (specifically the School of Information Studies within that college), with an overarching interest in the study and practice of Arts, Information, and Media.

Five categories of courses define the themes of the program:

- **Core Culture**, introducing students to essential cultural and historical dimensions of Digital Art and network practices.
- **Media Systems**, providing an overview of media industries.
- **Digital Composition**, building on the foundations of the 100-level core culture courses, encompassing courses that set out competencies in composing with concepts and tools of digital media for students to achieve.
- **Understanding Digital Culture**, engaging at the upper levels to analyze more complex systems and issues.
- **Practicing the Digital Arts**, also engaging at the upper levels, as a means of gaining practical experience organizing and collaborating in media production processes.

## Eligibility

The certificate program is open to all students seeking a bachelor's degree from UWM, to students who previously received a bachelor's degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. To be admitted to the university as non-degree students, individuals must meet regular university admission requirements. Students who complete the certificate as part of their undergraduate work are awarded the certificate at the time of graduation. Students already possessing a bachelor's degree and non-degree students receive the certificate upon completion of the program requirements.

## Requirements

To obtain the certificate, students must complete a minimum of 24 credits with a GPA of 2.0 or above; at least 9 of these credits must be at the 300 level or above. At least 12 credits must be in courses from the College of Letters and Science, and at least 6 of the L&S credits must be at the 300 level or above. No more than 15 credits from a single curricular area may apply toward satisfaction of the certificate requirements. The following requirements must be met. All courses are 3 credits unless otherwise noted.

Code	Title	Credits
<b>Core Culture Courses</b>

THEATRE 337	Sound Production and Digital Editing for Stage and Studio
THEATRE 437	Sound Design and Digital Editing

Credits earned at other institutions equivalent to courses in the certificate program may be accepted in partial fulfillment of the program requirements, subject to review by the Certificate Program Committee.

## Economics

Economics is the study of choice. In a world with scarce resources (such as raw materials, labor, time), economists study how people choose to use those resources to make people as well-off as possible. The economics curriculum stresses both theory and application of important economic issues in society, such as unemployment, inflation, exchange rates, labor markets, economic development, environmental policies, and international trade and finance.

The Department of Economics in the College of Letters and Science offers a wide variety of courses in economic theory, policy, and statistics.

## Related Programs

A related special major is international studies (p. 1128); a related degree program is the BA in Global Studies (p. 1088).

## Programs

- Applied Econometrics and Data Analysis, Graduate Certificate (p. 998)
- Economics, BA (p. 999)
- Economics, MA (p. 1003)
- Economics, Minor (p. 1004)
- Economics, PhD (p. 1005)

## Applied Econometrics and Data Analysis, Graduate Certificate

The certificate program in applied econometrics and data analysis is designed to prepare students for the job market that emphasizes quantitative data skills. Job applicants with econometrics skills are in high demand in many occupations in business and government. In the business world, a few examples of areas in which those with econometrics training work are policy analysis, financial analysis, forecasting, market research, logistics, and quality control. Econometrics training is also useful for government jobs. Policymakers need hard evidence on which to base their decisions; data must be collected, analyzed, and presented in a convincing way. State and Federal Government departments, such as the Federal Reserve and the Bureau of Labor Statistics, regularly seek graduates with econometric and data skills.

### Admission Requirements

#### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

#### Application

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (<https://graduateschool-apply.uwm.edu/>).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted into a certificate program.

#### Admission

Adequate preparation at the undergraduate level equivalent to two semesters of course work in intermediate microeconomic theory (ECON 301 or equivalent) and intermediate macro-economic theory

(ECON 302 or equivalent), one semester of statistics, and one semester of calculus.

Applicants must possess a baccalaureate degree and have a minimum 3.0 GPA at the undergraduate level, be admitted to another UWM graduate program and have an minimum 3.0 GPA, or 6 or more graduate credits in Economics with a minimum 3.0 GPA.

### Credits and Courses

To obtain the certificate, students must complete 16 credits in approved courses in applied econometrics and data sciences as listed below, with a minimum grade point average of 3.0. Courses for the certificate may not be taken on a credit/no credit basis.

Students currently enrolled at UWM who have fulfilled some of the program’s requirements prior to the program’s approval may have their credits applied retroactively to the certificate program.

Code	Title	Credits
<b>Required</b>		
ECON 703	Econometrics	4
<b>Electives</b>		
Select four from the following:		12
ECON 710	Applied Econometrics	
ECON 734	Foundation of Econometric Methods	
ECON 735	Econometric Methods I	
ECON 835	Econometric Methods II	
ECON 915	Seminar: Econometric Methods:	
ECON 999	Independent Work <sup>1</sup>	
ECON 310G	Research Methods for Economics	
ECON 411G	Economic Forecasting Methods	
ECON 413G	Statistics for Economists	
ECON 513G	Introduction to Econometrics	
ECON 751	Labor Economics I	
ECON 752	Labor Economics II	
ECON 905	Seminar: Banking and Monetary Theory:	
BUS ADM 995	Doctoral Seminar in Decision Sciences:	
MTHSTAT 566G	Computational Statistics	
MTHSTAT 766	Computational Statistics	
<b>Total Credits</b>		<b>16</b>

<sup>1</sup> A maximum of 3 credits in ECON 999 can apply to the certificate.

## Additional Requirements

### Transfer Credit

Credits earned at other institutions equivalent to courses in the certificate program may be accepted in partial fulfillment of the program requirements, subject to review by the Graduate Committee of the Department of Economics. A maximum of three (3) credits may be transferred to count toward the Applied Econometrics and Data Analysis certificate program's 16-credit requirement.

### Grade Point Average Requirement

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

### Articulation with Degree Programs

- Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
  - Degree programs must approve the courses from certificates that can double count toward the degree.
  - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in PhD programs must still complete the minimum residency requirements)
  - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
- Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
- A course may count toward no more than one certificate and one degree.
- Students may not earn a certificate subsequent to a concentration in the same area.

### Time Limit

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

## Economics, BA

Economics is the study of choice and decision-making in the face of scarce resources, both at the individual and group levels. Economists examine tradeoffs between different actions and behaviors; analyze different scenarios such as a change in prices, cultural values, or law; and seek to explain and predict human behavior.

Students often ask what the difference is between Economics and Finance. The areas are interrelated and inform and influence each other. Professionally, there is also crossover, with economists working in financial markets and financial experts working on economic policy. In

broad terms, economics focuses on concepts related to overall markets, government policy, and decision-making influences. Finance tends to focus on individual businesses and individual people, including the study of assets and liabilities, and financial statements and reporting.

At UWM, students of economics have access to faculty members who are internationally recognized experts in their field. Focus areas for students to choose from include economic theory, quantitative methods including econometrics, public policy, law and the economy, labor economics, and international economic relations.

Many are surprised to learn about the diverse career paths a major in Economics can lead to. Individuals with strong analytical ability and skill working with data and statistics are in high demand in financial management, accounting, human resources, data management, law, marketing, insurance, and more.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	

MATH 116	College Algebra	
Or equivalent course		
<i>Part B</i>		
Course designated as QL-B; may be completed through a major-specific course requirement		
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Select 6 credits		6
<b>Social Sciences</b>		
Select 6 credits		6
<b>Natural Sciences</b>		
Select 6 credits (at least two courses including one lab)		6
<b>UWM Foreign Language Requirement</b>		
Complete Foreign Language Requirement through:		
Two years (high school) of a single foreign language		
Two semesters (college) of a single foreign language		
Or equivalent		
<b>UWM Cultural Diversity Requirement</b>		
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement		

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3

MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		
	Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)	0-18
	Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)	

#### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		
	Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above	9
	Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.	
	Complete 9 credits in combination of the two options above.	

#### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

#### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

#### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

#### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

### Economics Major Requirements

To major in economics, students must earn grades of at least C in ECON 103 and ECON 104, attain at least a 2.0 GPA on all credits in the major attempted at UWM, and attain at least a 2.0 GPA on all major credits attempted when any transfer work is included along with the UWM work. The major in economics requires a minimum of 30 credits plus a research requirement including the following:

Code	Title	Credits
<b>Required <sup>1</sup></b>		
ECON 103	Principles of Microeconomics	3
ECON 104	Principles of Macroeconomics	3
ECON 210	Economic Statistics <sup>2</sup>	3
ECON 301	Intermediate Microeconomics	3
ECON 302	Intermediate Macroeconomics	3
<b>Electives <sup>1</sup></b>		
Select at least one course at the 400 level or above (excluding ECON 415).		3
Select 12 additional credits in ECON, 3 of which must be in an approved research requirement course (see below).		12
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> At least 15 credits must be in upper-division (300 level and above) economics courses taken in residence at UWM.

<sup>2</sup> BUS ADM 210 or MTHSTAT 215 may be substituted for ECON 210 and will count in the major GPA.

#### Research Requirement

All majors in economics must complete an independent research experience by selecting, from the list below, a 400- or 500-level course in which they will write and present a research paper. The contents of the

paper and the presentation of the results will be arranged with the faculty member teaching the course.

Eligible courses include:

Code	Title	Credits
ECON 404	Economic Applications of Game Theory	
ECON 411	Economic Forecasting Methods	
ECON 413	Statistics for Economists	
ECON 426	Public Economics	
ECON 432	Industrial Organization	
ECON 447	Labor Economics	
ECON 448	Economics of Human Resources	
ECON 454	International Trade	
ECON 455	International Finance	
ECON 506	Mathematical Economics I	
ECON 513	Introduction to Econometrics	
ECON 525	The Economics of Water	
ECON 699	Independent Work	

## Optional Concentrations

The Department offers three optional concentrations within the major. While completing the major requirements outlined above, students may elect to complete one of the following sets of requirements:

### International Economic Relations

Code	Title	Credits
ECON 351	Introduction to International Economic Relations	
ECON 353	Economic Development	
ECON 454	International Trade	
ECON 455	International Finance	

### Quantitative Methods

Code	Title	Credits
ECON 310	Research Methods for Economics	
ECON 411	Economic Forecasting Methods	
ECON 413	Statistics for Economists	
ECON 513	Introduction to Econometrics	

### Graduate Preparation

Code	Title	Credits
ECON 413	Statistics for Economists	
ECON 506	Mathematical Economics I	
ECON 513	Introduction to Econometrics	
ECON 606	Mathematical Economics II	

## Additional Economics Modules

For courses that meet the requirements of the following modules:

- General Economics;
- Economic Theory;

- The Economics of Public Policy;
- Strategy, Law, and the Economy; and
- Labor Economics

Please see below.

Code	Title	Credits
<b>General Economics</b>		
ECON 100	Introductory Economics	
ECON 103	Principles of Microeconomics	
ECON 104	Principles of Macroeconomics	
ECON 110	Economics of Personal Finance	
ECON 193	First-Year Seminar:	
ECON 199	Independent Study	
ECON 210	Economic Statistics	
ECON 248	Economics of Discrimination	
ECON 258	Selected Topics in Economics:	
ECON 289	Internship in Economics, Lower Division	
ECON 297	Study Abroad:	
ECON 299	Ad Hoc:	
ECON 381	Honors Seminar:	
ECON 458	Selected Topics in Economics:	
ECON 489	Internship in Economics, Upper Division	
ECON 497	Study Abroad:	
ECON 499	Ad Hoc:	
ECON 699	Independent Work	
<b>Economic Theory</b>		
ECON 301	Intermediate Microeconomics	
ECON 302	Intermediate Macroeconomics	
ECON 404	Economic Applications of Game Theory	
ECON 506	Mathematical Economics I	
ECON 606	Mathematical Economics II	
<b>The Economics of Public Policy</b>		
ECON 325	Money and Banking	
ECON 328	Environmental Economics	
ECON 426	Public Economics	
ECON 450	Health Economics	
ECON 525	The Economics of Water	
<b>Strategy, Law, and the Economy</b>		
ECON 231	Analysis of American Industries	
ECON 335	Economics of Antitrust Laws	
ECON 432	Industrial Organization	
<b>Labor Economics</b>		
ECON 415	Economics of Employment and Labor Relations	
ECON 447	Labor Economics	
ECON 448	Economics of Human Resources	

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your

entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Accelerated Program Option

This program is offered as part of an accelerated graduate program. For more information, see Accelerated Graduate Degrees (p. 37).

## Honors in the Major

Departmental honors are awarded upon graduation to students who achieve a 3.000 GPA on all UWM graded credits attempted, a 3.500 GPA on all credits that count toward the major, and a 3.500 GPA on all credits in advanced-level (numbered 300 and above) courses that count toward the major.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Economics, MA

The Department of Economics offers graduate programs of study designed to prepare students for careers in education and for careers in administrative and research positions in government, industry and labor. The programs are built upon a solid core of training in economic theory and in quantitative analysis, with area concentrations in econometrics, economic growth and development, industrial organization, international economics, labor economics and human resources, mathematical economics, monetary theory and policy, and urban and regional economics.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements to be considered for admission to the program:

1. An undergraduate major in economics and one semester of calculus. Alternatively, adequate preparation at the undergraduate level equivalent to two semesters of coursework in intermediate economic theory, one semester of statistics, and one semester of calculus.
2. Submission of scores on the Graduate Record Examination (<http://uwm.edu/graduateschool/admission/#gre>) General Test or equivalent quantitative courses is recommended. Test of English as a Foreign Language exam is required for applicants whose native language is not English.
3. Two letters of recommendation from persons familiar with applicant's scholastic achievement and potential.

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. Deficiencies are to be made up through the following:

- in economic theory through ECON 301 and ECON 302;
- in statistics through ECON 210; and
- in calculus through MATH 211.

## Credits and Courses

### Option A: Thesis Option

Minimum degree requirement is 30 graduate credits.

Code	Title	Credits
<b>Thesis</b>		
Select 6 credits of the following:		6
ECON 990	Graduate Thesis	
<b>Required</b>		
ECON 701	Economic Theory: Microeconomics	4
ECON 702	Economic Theory: Macroeconomics	4
ECON 703	Econometrics	4
<b>Additional Requirements</b> <sup>1</sup>		
Select one of the following:		6
One area of concentration		
ECON 506 & ECON 606	Mathematical Economics I and Mathematical Economics II	
Select 6 additional credits of graduate work		6
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> The student must select one area of concentration offered by the Department and must take at least two semesters in this concentration in courses numbered 700 or above (except ECON 990, ECON 991 and ECON 999).

### Latin American Concentration

A concentration on Latin America is available. A student with previous interest and commitment in Latin American studies, who is able to demonstrate—through examination—good reading ability and fair conversational ability in Spanish or Portuguese, is permitted to select this concentration under Option A. Requirements for this concentration are:

Code	Title	Credits
<b>Thesis</b>		
Select 6 credits of the following:		6
ECON 990	Graduate Thesis	
<b>Required</b>		
ECON 774	Economic Development - Theory	3
ECON 775	Economic Development - Policy	3
<b>Electives</b>		
Select 3 credits in Interdisciplinary Seminar on Latin America		3
Select a graduate course in Latin America in some field other than economics		3
Select 9 additional credits of graduate work		9
<b>Total Credits</b>		<b>27</b>

### Option B: Non-Thesis Option

Code	Title	Credits
<b>Required</b>		
ECON 701	Economic Theory: Microeconomics	4
ECON 702	Economic Theory: Macroeconomics	4
ECON 703	Econometrics	4
<b>Additional Requirements</b>		
Select one of the following:		6
One area of concentration <sup>1</sup>		
ECON 506 & ECON 606	Mathematical Economics I and Mathematical Economics II	
Select 6 additional credits of graduate work		6
<b>700- Level and Above</b>		
Select any two courses numbered 700 or above in other areas of economics <sup>2</sup>		6
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> The student must take at least two courses in this concentration in courses numbered 700 or above.

<sup>2</sup> Except ECON 734, ECON 990, ECON 991, and ECON 999.

## Additional Requirements

### Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. In Economics the newly admitted master's student is advised by the Graduate Study advisor.

### Option A: Thesis Option

#### Thesis

An acceptable thesis must be written on the student's area of concentration.

#### Comprehensive Examination

The student must pass a final oral examination in defense of the thesis.

#### Time Limit

The student must complete all degree requirements within five years of initial enrollment.

### Option B: Non-Thesis Option

#### Thesis

No formal thesis is required. The student must submit a master's paper instead of a thesis.

#### Time Limit

The student must complete all degree requirements within five years of initial enrollment.

## Accelerated Program Option

This program is offered as part of an accelerated graduate program. For more information, see Accelerated Graduate Degrees (p. 37).

## Economics, Minor

Economics is the study of choice and decision-making in the face of scarce resources, both at the individual and group levels. Economists examine tradeoffs between different actions and behaviors; analyze

different scenarios such as a change in prices, cultural values, or law; and seek to explain and predict human behavior.

Students often ask what the difference is between Economics and Finance. The areas are interrelated and inform and influence each other. Professionally, there is also crossover, with economists working in financial markets and financial experts working on economic policy. In broad terms, economics focuses on concepts related to overall markets, government policy, and decision-making influences. Finance tends to focus on individual businesses and individual people, including the study of assets and liabilities, and financial statements and reporting.

At UWM, students of economics have access to faculty members who are internationally recognized experts in their field. Focus areas for students to choose from include economic theory, quantitative methods including econometrics, public policy, law and the economy, labor economics, and international economic relations.

## Requirements

The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM, and at least a 2.0 GPA on all minor credits attempted when any transfer work is included along with the UWM work. The minor in economics requires a minimum of 18 credits:

Code	Title	Credits
ECON 103	Principles of Microeconomics	3
ECON 104	Principles of Macroeconomics	3
ECON 210	Economic Statistics <sup>1</sup>	3
Select 9 credits in upper-division (300 level or above) economics courses taken in residence at UWM		9
<b>Total Credits</b>		<b>18</b>

<sup>1</sup> BUS ADM 210 or MTHSTAT 215 may be substituted for ECON 210 and will count in the minor GPA.

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Economics, PhD

The Department of Economics offers graduate programs of study designed to prepare students for careers in education and for careers in administrative and research positions in government, industry and labor. The programs are built upon a solid core of training in economic theory and in quantitative analysis, with area concentrations in econometrics, economic growth and development, industrial organization, international economics, labor economics and human resources, mathematical economics, monetary theory and policy, and urban and regional economics.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements to be considered for admission to the program. A master's degree is not prerequisite for admission to the PhD program in economics.

- An undergraduate major in economics with a grade point average (both overall and in economics) of 3.0 (4.0 scale) and one semester of calculus or adequate preparation at the undergraduate level equivalent to two semesters of coursework in intermediate economic theory, one semester of statistics, and one semester of calculus.
- An applicant having a master's degree in economics or graduate coursework in economic theory must have a graduate grade point average of at least 3.33 (4.0 scale).
- Submission of scores on the Graduate Record Examination (<http://uwm.edu/graduateschool/admission/#gre>) General Test and Subject Test or equivalent quantitative courses is recommended. Test of English as a Foreign Language exam is required for applicants whose native language is not English.
- Two letters of recommendation from persons familiar with applicant's scholastic achievement and potential.
- Reason statement. A personal statement that describes your research interests, qualifications, and career goals.

### Reapplication

A student who is in the master's program must formally reapply for admission to Graduate School before continuing toward the PhD. To receive doctoral student status, a student must complete the master's degree or obtain a waiver of this requirement from the admissions committee, the graduate study advisor, and the Department Chair. The waiver must be obtained before the student completes 27 credits in the MA program.

## Credits and Courses

Minimum degree requirement is 54 credits beyond the bachelor's degree, at least 27 of which must be earned in residence at UWM. Of the total credits required, a minimum of 42 must be taken in the field of economics.

Code	Title	Credits
ECON 801	Advanced Microeconomic Theory I	3
ECON 802	Advanced Macroeconomic Theory I	3
ECON 803	Advanced Microeconomic Theory II	3
ECON 804	Advanced Macroeconomic Theory II	3
Select 12 credits in quantitative theory		12
Select 15 credits in two areas of concentration		15
Select 3 credits of research skills as detailed below		3
Select one of the following:		9-12
Minor Field <sup>1</sup>		
Electives <sup>2</sup>		
<b>Total Credits</b>		<b>51-54</b>

<sup>1</sup> Minor field: 9 to 12 credits in a single department other than Economics; courses planned with a professor in the minor department and the examination, if required, is administered by the minor department.

<sup>2</sup> Electives: 9 to 12 credits in courses from any departments, including Economics, but no more than 6 credits in any one department other than Economics; courses are to be planned with the approval of the Graduate Study advisor and no examination is required.

## Additional Requirements

### Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. In Economics, the newly admitted PhD student is advised by the Graduate Study advisor.

### Research Skill

Research skill requirements are individually assigned by the graduate study advisor. Research skill requirement is fulfilled through courses in computer science, mathematics, statistics, mathematical economics (700 level or above), or econometrics (700 level or above).

### Residence

The student must meet minimum Graduate School residence requirements. The PhD student meets the continuous portion of the residence credit requirement by completing 8 to 12 credits in each of two consecutive semesters, including summer sessions. Residence credit is not earned at the master's level or prior to award of the master's degree.

### Doctoral Preliminary Examination

The student must pass doctoral preliminary examinations for formal admission to candidacy for the degree. The examinations are given in sections covering economic theory and the student's two areas of concentration. Students must take the sections in economic theory first.

Students may attempt any prelim exam twice. Any student failing a prelim exam twice may appeal to the Graduate Faculty for permission to take the exam for a third time if:

1. The student's request is accompanied by letters of support from at least two members of the faculty and where one of the faculty is a member of the prelim committee awarding the failing grade, and
2. The student is still able to satisfy the time limits outlined below. (Note: These conditions must be met before an appeal can be

considered by the Graduate Faculty. Satisfaction of these conditions in no way obligates the Graduate Faculty to grant any appeal.)

Students may not take the field exams until they have passed both theory exams. A section is also included covering the minor if there is one; this section is administered by the department concerned.

The schedule specifying the time at which these examinations are taken is as follows:

1. A doctoral student with an MA in Economics from UWM must attempt both theory prelims at the conclusion of 2 semesters or 12 credits (whichever happens last) and must pass both theory prelims prior to the start of the 5th semester or at the conclusion of 24 credits (whichever happens last).
2. A doctoral student with an MA in Economics from another institution must attempt both theory prelims at the conclusion of 3 semesters or 24 credits (whichever happens last) and must pass both theory prelims prior to the beginning of the 6th semester or at the conclusion of 36 credits (whichever happens last).
3. A doctoral student without an MA in Economics must attempt both theory prelims at the conclusion of 5 semesters or 36 credits (whichever happens last) and must pass both exams prior to the beginning of the 8th semester or at the conclusion of 48 credits (whichever happens last).

### Dissertation

The candidate must write a dissertation which demonstrates ability to formulate a research topic and pursue independent and original investigation.

### Dissertation Defense

The candidate must, as the final step toward the degree, pass an oral examination in defense of the dissertation.

### Time Limit

All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.

## English

English studies today offers a wider range of classes, topics, and projects than ever before. You can still explore the classic works of literature and the great authors, to be sure. But now our curriculum also includes film studies and media, rhetoric and professional writing, the digital humanities, critical and cultural theory, and creative writing workshops. Students can focus their studies in these areas and choose elective classes that best meet their personal and career goals.

Our courses primarily cover the language and literature of English-speaking peoples, but English is a global language - literature in English now comes from all over the world. Many of our courses feature postcolonial fiction, drama, poetry, and prose from Africa, Asia, the Caribbean and the Americas. The study of U.S.-based literature includes Native American, African American, Latinx, and Asian American works that explore the rich cultural diversity of contemporary society.

Through these courses students develop deep and broad skills in reading and writing and an eye for how to approach literature, language, and rhetoric from multiple perspectives. We encourage every student to question the meaning, context, value and aesthetics in the works they

read and apply these critical analyses tools in their professional and personal lives.

## English, BA

Majoring in English provides students with a wealth of intellectual and practical learning, a foundation to future success. In today's high-technology, interconnected world, the ability to read carefully, think imaginatively, understand others, and communicate across all types of platforms and formats is essential.

Students in the English major at UWM get to choose a track and focus their studies on an area of particular interest:

- Literature and Cultural Theory - where the reading and analysis of literature is emphasized
- Rhetoric and Writing - a broad field that includes writing for different genres
- Creative Writing - ideal for students who love fiction and poetry
- Professional and Technical Writing - with an emphasis on business documentation
- Media, Cinema, and Digital Studies - includes the many forms of communicating through media such as film, tv, games, and the web

Can't choose? In the open focus track of the major, students take a little bit of everything.

In small classes, our students learn to understand the power and possibilities of the English language across the centuries and around the world. Students learn to think critically, write persuasively, argue logically, delve deeply into history, and explore their own creativity. Students are challenged to examine their own assumptions, sharpen their writing, and learn how to read and understand even the most difficult works, from fiction to philosophy.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within

five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		
<i>Part B</i>		
Course designated as QL-B; may be completed through a major-specific course requirement		
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		

Select 6 credits 6

**Social Sciences**

Select 6 credits 6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**College of Letters & Science Requirements**

**I. English Composition Requirement**

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3

MATH 175 Mathematical Explorations for Elementary Teachers I 3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

**III. Foreign Language Requirement**

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways: 0-18		
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

#### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

#### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

#### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College

requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

#### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

#### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## English Major Requirements

Prospective majors are expected to consult with the associate chair for undergraduate studies in designing a program that satisfies their individual interests, abilities, and ambitions; if appropriate, a particular requirement may be waived to meet a student's special programmatic needs. English majors intending to continue their studies in graduate school are urged to plan with the coordinator a program that meets graduate school expectations and prepares them for the Graduate Record Exam.

Students entering with advanced standing are required to earn at least 15 credits in English courses numbered 300 and above while in residence at UWM.

#### Credit Requirements

All courses taken towards the major must be at or above the 300 level unless otherwise noted. Students must complete at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. The College requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

English majors also must complete one of the following tracks. In each track, in their senior year, majors complete a capstone course or senior seminar. This course includes one or more in-depth writing assignments or projects that include a research component, which satisfies the research requirement for the L&S degree.

Code	Title	Credits
<b>Tracks</b>		
Select one of the following tracks:		36
Track A: Literature and Cultural Theory		
Track B: Rhetoric and Professional Writing		
Track C: Creative Writing		
Track H: Media, Cinema, and Digital Studies		
Track O: Open Focus		
<b>Total Credits</b>		<b>36</b>

## Tracks

### Track A: Literary and Cultural Theory

Code	Title	Credits
ENGLISH 215	Introduction to English Studies	3
Select one of the following in English literature from before 1900 and one in pre-1800 literature:		6

ENGLISH 301	Survey of English Literature, Beginnings to 1500	ENGLISH 522	Studies in World Literature Written in English:
ENGLISH 302	Survey of English Literature, 1500-1660	ENGLISH 523	Studies in U.S. Latino/a Literature:
ENGLISH 303	Survey of English Literature, 1660-1798	ENGLISH 524	Studies in Asian-American Literature:

**Total Credits** **36**

**Track O: Open Focus**

At least 3 credits in literature must be in a period before 1900. They can be taken in American Literature, British Literature or any other literature course in the English department. Students can take up to 9 credits in 200-level English courses to satisfy the 36 credits for the major. This includes ENGLISH 215 which is a requirement and non-substitutable. ENGLISH 192 can be substituted for 3 of the 9 credits in 200-level courses.

Students must also complete a 3 credit capstone seminar at the 600 level (612, 615 - 616, 620 - 633, 685, 690), which may be in any of the areas listed below.

## Related Courses

The following courses offered by other departments may be of interest to students in English, but may not be used to fulfill the requirements of the undergraduate major or minor in English:

Code	Title	Credits
COMMUN 105	Business and Professional Communication	3
JAMS 201	Media Writing	3
JAMS 231	Publication Design	3

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and

- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Honors in the Major

English majors need to meet the following three criteria in order to graduate with Honors in the Major:

1. Minimum 3.000 cumulative GPA on all UWM graded credits attempted;
2. Minimum 3.500 GPA on all credits attempted that count toward the major; and
3. Minimum 3.500 GPA on all advanced (300+) credits that count toward the major.

Students who meet these criteria should apply to the coordinator of undergraduate studies.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## English, MA

The Department of English offers master's and doctoral degrees in several areas of specialization: Literature and Cultural Theory; Rhetoric, Professional Writing, and Community Engagement; Creative Writing; and Media, Cinema, and Digital Studies. Students apply for admission to a specific area or concentration but are encouraged to take classes in others.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements to be considered for admission to the program:

1. Undergraduate major in English or related field, with appropriate background for proposed concentration of study: Plan A, broad background in English and American literature; Plan B, literature, linguistics, and/or composition; Plan C, literature and creative writing; Plan H, background in media studies, film studies, or digital and/or popular culture.
2. Undergraduate grade point average of 3.0 (4.0 scale).
3. Reason statement.
4. Three letters of recommendation to the Department's Director of Graduate Studies from persons familiar with applicant's academic ability and achievement.
5. A sample of academic writing.
6. For Plan C admission, an applicant must also submit samples of original fiction or poetry.

For more information about how to apply to the graduate program in English, as well as admissions FAQs, please see the Students/Graduate section of the English department web site.

## Credits and Courses

Students admitted to the master's program earn the degree by completing a minimum of 30 credits of graduate coursework in English, writing a final project, and passing an oral examination at the conclusion of their coursework.

Although students must enroll initially in one of the four plans of study described below, students who demonstrate a capacity for doctoral work, and wish to earn a PhD at UWM, are advised to proceed as rapidly as possible to the PhD program. Ordinarily students are not allowed to proceed beyond 30 credits without having been admitted to the doctoral program. No more than 27 credits earned at the master's level may be included in the 54 credits required for the PhD.

### Plan A (Literature and Cultural Theory)

A minimum of 30 credits, including:

Code	Title	Credits
ENGLISH 703	Introduction to Graduate Studies in Literature (must be taken in first semester)	1
ENGLISH 720	Modern Literary Theory	3
Select 9 credits in literature courses (at least 3 credits pre-1800)		9
Select 3 credits in 800-level seminar in literature or cultural theory		3
Select 6 credits in cultural theory		6

Select 8 credits of electives <sup>1</sup>	8
<b>Total Credits</b>	<b>30</b>

<sup>1</sup> Which may include up to 5 credits of ENGLISH 790.

### Additional Requirements

- A final project, which shall be a paper of at least 30 pages which grows out of and significantly expands some aspect of the student's literary studies.
- An oral examination, usually lasting an hour and a half, which covers the final project and a separate 30-book reading list.
- All credits must be 600-level or above, with no more than 6 credits at the 600 level. (ENGLISH 701 must be counted as an elective.)

### Plan B (Rhetoric and Professional Writing)

A minimum of 30 credits, including:

Code	Title	Credits
<b>Required courses <sup>1</sup></b>		
ENGLISH 712	Theories in Public Rhetorics and Community Engagement:	3
ENGLISH 713	Research Methods in Rhetorics, Literacies, and Community Engagement:	3
ENGLISH 750	History of Rhetoric and Writing Studies:	3
<b>Select 21 credits of electives <sup>2</sup></b>		<b>21</b>
ENGLISH 427	Writing for Nonprofits	
ENGLISH 431G	Topics in Advanced Communications:	
ENGLISH 432	The Rhetoric of Argument	
ENGLISH 439	Information Design	
ENGLISH 443	Grant Writing	
ENGLISH 444	Technical Editing	
ENGLISH 633G	Seminar in Rhetoric and Professional Writing:	
ENGLISH 701	Writing Pedagogies	
ENGLISH 711	Topics in Public and Professional Writing:	
ENGLISH 749	Advanced Internship in Writing and Community Engagement	
ENGLISH 755	Issues in Writing Research:	
ENGLISH 790	Master's Project <sup>3</sup>	
ENGLISH 854	Seminar in College Writing Pedagogy:	
ENGLISH 855	Seminar in Public Rhetorics and Community Engagement:	
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> ENGLISH 712, ENGLISH 713, and ENGLISH 750 may be taken twice with different topics with the second iteration counting toward Electives.

<sup>2</sup> No more than 6 credits may be from courses below the 700 level. Students may take up to 6 credits of ENGLISH 749 and may take ENGLISH 711, ENGLISH 755, ENGLISH 854, and ENGLISH 855 up to three times with different topics.

<sup>3</sup> Electives may include up to 6 credits of ENGLISH 790. Please consult your advisor for guidance on enrolling in ENGLISH 790 and preparing for the MA project and exam.

### Additional Requirements

- A final project, which shall be a research paper appropriate to the student’s professional goals.
- An oral examination, usually lasting an hour and a half, which covers the final project.

### Plan C (Creative Writing)

A minimum of 30 credits, including:

Code	Title	Credits
Select 6 credits in 600- or 700-level literature courses (at least 3 credits at the 700 level)		6
Select one of the following:		6
ENGLISH 715 & ENGLISH 815	Narrative Craft and Theory: and Seminar in Fiction Writing:	
ENGLISH 716 & ENGLISH 816	Poetic Craft and Theory: and Seminar in Poetry Writing:	
Select 6 credits in writing courses at the 600 or 700 level		6
Select 12 credits of electives <sup>1</sup>		12
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> Which may include up to 6 credits of ENGLISH 790.

### Additional Requirements

- No more than 12 credits may be earned in 600-level courses.
- A final project, which shall be a collection of fiction and/or poetry, a novel, or other substantial work of imaginative writing.
- An oral examination, usually lasting an hour and a half, which covers the final project and a reading list of at least 30 texts representative of the student’s literary background and interests.

### Plan H (Media, Cinema, and Digital Studies)

Code	Title	Credits
<b>Core Courses</b>		
Take 15 credits across these courses:		15
ENGLISH 742	Media Studies	
ENGLISH 743	Film Theory and Criticism	
ENGLISH 876	Seminar in Media Studies:	
ENGLISH 877	Seminar in Film Studies:	
ENGLISH 887	Seminar in Digital Studies:	
<i>Proseminar (take 2 credits)</i>		2
ENGLISH 747	Proseminar in Media, Cinema, and Digital Studies	
<i>Electives: 7-12 credits electives at graduate level (can include 700 &amp; 701) *</i>		7-12
<i>Master's project: 1-6 credits of English 790 *</i>		1-6
<b>Total credits</b>		<b>30</b>

\* If students take more elective credits, then they may take fewer credits in the master’s project, or vice versa, so long as their total credits add up to 30. Students should consult the Coordinator to decide how many credits of the master’s project are recommended.

### Additional Requirements

- Master’s project, which shall be an original research paper of at least 30 pages which grows out of and significantly expands some aspect of the student’s research in media, cinema, and digital studies.

- An oral examination, usually lasting an hour and a half, which covers the final project.

## Additional Requirements

### Major Professor as Advisor

The student must have a Major Professor to advise and supervise the student’s work as specified in Graduate School regulations. The coordinator of the student’s concentration serves as an initial advisor.

### Regulations Concerning Final Projects and Oral Examinations

1. Students should consult with their advisors before completing 24 credits to determine a final project. Ordinarily, it is a revised and expanded course or seminar paper of at least 30 pages. The project should demonstrate the student’s skills in research, critical analysis, argumentation, and prose style. For students in Plan C (Creative Writing), the project is a substantial portfolio, the exact character of which is determined in consultation with the student’s MA Committee. The project serves both as a concluding effort at the master’s level and also as an indication of a student’s potential for doctoral study.
2. In consultation with the student, the Director of Graduate Studies appoints an MA Examining Committee. At least two of the three members must be English Graduate Faculty. For students in Plans B and H, the MA Examining Committee administers the final Oral Examination, covering the project. For students in Plans A and C, the MA Examining Committee administers the final Oral Examination and a separate reading list of at least 30 texts, to be selected by the student and approved by the Committee.
3. The project must be submitted and the oral examination completed within one year after the completion of 24 credits. Students should remember that a maximum of 27 credits at the master’s level is applicable to the PhD 54 credit requirement.
4. The Examining Committee offers a recommendation regarding the student’s qualifications for further graduate study at the doctoral level. The Committee Chair puts this recommendation in writing and places it in the student’s academic file.
5. Students who fail the oral examination may be required to revise their final project, retake the examination, or both. The oral examination may be retaken only once. No additional credits may be earned for the revision of the project after a failed examination. For further information regarding the MA project and examination, see the English Graduate Program Handbook.

### Time Limit

The student must complete all degree requirements within five years of initial enrollment.

## English, MA/Library and Information Science, MLIS

In collaboration with several other academic units at UW-Milwaukee, SOIS offers students the opportunity to obtain two Master’s degrees concurrently—one in Library and Information Science (MLIS) and one in a subject area.

### Degree Requirements

- The number of degree credits needed for each of the coordinated programs is usually 12 fewer than the sum of the two programs if

they were not taken simultaneously. *All degree requirements of each component must be satisfied.*

- The MLIS portion of the coordinated degrees can be completed online.
- Prerequisite to the award of either degree in this program is the simultaneous award of its counterpart degree.

## MLIS Component

The Master of Library and Information Science (MLIS) component of each of the coordinated programs includes 30 credits of SOIS courses. These include the MLIS core courses (12 credits). The remaining 18 MLIS credits are selected from the School's offerings in accordance with the student's goals in the coordinated degree program.

## MLIS/MA English

The MLIS/MA English Coordinated Degree Program prepares students for positions as humanities librarians.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet the UWM Graduate School requirements plus all admission requirements of both the School of Information Studies and the coordinated degree department. Please review the admission details of each program and contact an advisor with any questions.

## Credits and Courses

Students interested in the English MA/MLIS program are expected to follow all the requirements and standards as described in this section of the Catalog with the following exceptions: the 21 credits required for the MA in English in the coordinated degree program are to be taken within the Department. Courses in related areas must be approved by the Director of Graduate Studies in English. For more information on this program, see the Library and Information Science page.

### Basic Required MLIS Courses

Code	Title	Credits
<b>Core Courses</b>		
INFOST 501	Foundations of Library and Information Science	3
INFOST 511	Organization of Information	3
INFOST 571	Information Access and Retrieval	3
INFOST 799	Research Methods in Information Studies	3
<b>Other MLIS courses</b>		<b>18</b>
<b>Total Credits</b>		<b>30</b>

### Important

You must refer to the catalog pages of both individual master's programs to ensure that you meet all requirements for both degrees.

## English Courses

Students in the MA/MLIS program may subtract 9 elective credits from their chosen concentration below.

Students admitted to the master's program earn the degree by completing a minimum of 30 credits of graduate coursework in English, writing a final project, and passing an oral examination at the conclusion of their coursework.

Although students must enroll initially in one of the four plans of study described below, students who demonstrate a capacity for doctoral work, and wish to earn a Ph.D. at UWM, are advised to proceed as rapidly as possible to the PhD program. Ordinarily students are not allowed to proceed beyond 30 credits without having been admitted to the doctoral program. No more than 27 credits earned at the master's level may be included in the 54 credits required for the Ph.D.

### Plan A (Literature and Cultural Theory)

A minimum of 30 credits, including:

Code	Title	Credits
ENGLISH 703	Introduction to Graduate Studies in Literature (must be taken in first semester)	1
ENGLISH 720	Modern Literary Theory	3
Select 9 credits in literature courses (at least 3 credits pre-1800)		9
Select 3 credits in 800-level seminar in literature or cultural theory		3
Select 6 credits in cultural theory		6
Select 8 credits of electives <sup>1</sup>		8
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> Which may include up to 5 credits of ENGLISH 790.

### Additional Requirements

- A final project, which shall be a paper of at least 30 pages which grows out of and significantly expands some aspect of the student's literary studies.
- An oral examination, usually lasting an hour and a half, which covers the final project and a separate 30-book reading list.
- All credits must be 600-level or above, with no more than 6 credits at the 600 level. (ENGLISH 701 must be counted as an elective.)

### Plan B (Rhetoric and Composition)

A minimum of 30 credits, including:

Code	Title	Credits
<b>Required courses <sup>1</sup></b>		
ENGLISH 712	Theories in Public Rhetorics and Community Engagement:	3
ENGLISH 713	Research Methods in Rhetorics, Literacies, and Community Engagement:	3
ENGLISH 750	History of Rhetoric and Writing Studies:	3
<b>Select 21 credits of electives <sup>2</sup></b>		<b>21</b>
ENGLISH 427	Writing for Nonprofits	
ENGLISH 431G	Topics in Advanced Communications:	
ENGLISH 432	The Rhetoric of Argument	
ENGLISH 439	Information Design	
ENGLISH 443	Grant Writing	

ENGLISH 444	Technical Editing
ENGLISH 633G	Seminar in Rhetoric and Professional Writing:
ENGLISH 701	Writing Pedagogies
ENGLISH 711	Topics in Public and Professional Writing:
ENGLISH 749	Advanced Internship in Writing and Community Engagement
ENGLISH 755	Issues in Writing Research:
ENGLISH 790	Master's Project <sup>3</sup>
ENGLISH 854	Seminar in College Writing Pedagogy:
ENGLISH 855	Seminar in Public Rhetorics and Community Engagement:

**Total Credits** **30**

<sup>1</sup> ENGLISH 712, ENGLISH 713, and ENGLISH 750 may be taken twice with different topics with the second iteration counting toward Electives.

<sup>2</sup> No more than 6 credits may be from courses below the 700 level. Students may take up to 6 credits of ENGLISH 749 and may take ENGLISH 711, ENGLISH 755, ENGLISH 854, and ENGLISH 855 up to three times with different topics.

<sup>3</sup> Electives may include up to 6 credits of ENGLISH 790. Please consult your advisor for guidance on enrolling in ENGLISH 790 and preparing for the MA project and exam.

### Additional Requirements

- A final project, which shall be a research paper appropriate to the student's professional goals.
- An oral examination, usually lasting an hour and a half, which covers the final project and a reading list of at least 30 texts not listed in the project bibliography or works cited list.

### Plan C (Creative Writing)

A minimum of 30 credits, including:

Code	Title	Credits
Select 6 credits in 600- or 700-level literature courses (at least 3 credits at the 700 level)		6
Select one of the following:		6
ENGLISH 715 & ENGLISH 815	Narrative Craft and Theory: and Seminar in Fiction Writing:	
ENGLISH 716 & ENGLISH 816	Poetic Craft and Theory: and Seminar in Poetry Writing:	
Select 6 credits in writing courses at the 600 or 700 level		6
Select 12 credits of electives <sup>1</sup>		12
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> Which may include up to 6 credits of ENGLISH 790.

### Additional Requirements

- No more than 12 credits may be earned in 600-level courses.
- A final project, which shall be a collection of fiction and/or poetry, a novel, or other substantial work of imaginative writing.
- An oral examination, usually lasting an hour and a half, which covers the final project and a reading list of at least 30 texts representative of the student's literary background and interests.

### Plan H (Media, Cinema, and Digital Studies)

Code	Title	Credits
<b>Core Courses</b>		
Take 15 credits across these courses:		15
ENGLISH 742	Media Studies	
ENGLISH 743	Film Theory and Criticism (Subtitle)	
ENGLISH 876	Seminar in Media Studies:	
ENGLISH 877	Seminar in Film Studies:	
ENGLISH 887	Seminar in Digital Studies:	
<i>Proseminar (take 2 credits)</i>		2
ENGLISH 747	Proseminar in Media, Cinema, and Digital Studies	
<i>Electives: 7-12 credits electives at graduate level (can include 700 &amp; 701)</i>		7-12
<i>Master's project: 1-6 credits of English 790</i>		1-6
<b>Total credits</b>		<b>30</b>

\* If students take more elective credits, then they may take fewer credits in the master's project, or vice versa, so long as their total credits add up to 30. Students should consult the Coordinator to decide how many credits of the master's project are recommended.

## Additional Requirements

### Major Professor as Advisor

The student must have a Major Professor to advise and supervise the student's work as specified in Graduate School regulations. The coordinator of the student's concentration serves as an initial advisor.

### Final Project

A research paper or other project appropriate to the student's professional goals.

### Oral Examination

Usually lasting an hour and a half, the oral exam covers the final project and a reading list of at least 30 texts not listed in the project bibliography or works cited list.

### Regulations Concerning Final Projects and Oral Examinations

1. Students should consult with their advisors before completing 24 credits to determine a final project. Ordinarily, it is a revised and expanded course or seminar paper of at least 30 pages. The project should demonstrate the student's skills in research, critical analysis, argumentation, and prose style. For students in Plan C (Creative Writing), the project is a substantial portfolio, the exact character of which is determined in consultation with the student's MA Committee. The project serves both as a concluding effort at the master's level and also as an indication of a student's potential for doctoral study.
2. In consultation with the student, the Director of Graduate Studies appoints an MA Examining Committee. At least two of the three members must be English Graduate Faculty. The MA Examining Committee administers the final Oral Examination, covering the project and a separate reading list of at least 30 texts, to be selected by the student and approved by the Committee.
3. The project must be submitted and the oral examination completed within one year after the completion of 24 credits. Students should

remember that a maximum of 27 credits at the master's level is applicable to the PhD 54 credit requirement.

- The Examining Committee offers a recommendation regarding the student's qualifications for further graduate study at the doctoral level. The Committee Chair puts this recommendation in writing and places it in the student's academic file.
- Students who fail the oral examination may be required to revise their final project, retake the examination, or both. The oral examination may be retaken only once. No additional credits may be earned for the revision of the project after a failed examination. For further information regarding the MA project and examination, see the English Graduate Program Handbook.

## Time Limit

The student must complete all degree requirements within five years of initial enrollment.

## English, Minor

Minoring in English provides students with a wealth of intellectual and practical learning, a foundation to future success. In today's high-technology, interconnected world, the ability to read carefully, think imaginatively, understand others, and communicate across all types of platforms and formats is essential.

In small classes, our students learn to understand the power and possibilities of the English language across the centuries and around the world. Students learn to think critically, write persuasively, argue logically, delve deeply into history, and explore their own creativity. Students are challenged to examine their own assumptions, sharpen their writing, and learn how to read and understand even the most difficult works, from fiction to philosophy.

## Requirements

The College of Letters and Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. The minor in English requires 18 credits, with at least 9 in residence at UWM, as follows:

Code	Title	Credits
ENGLISH 215	Introduction to English Studies	3
Select 3 of the following courses in Literature and Cultural Theory:		9
ENGLISH 301	Survey of English Literature, Beginnings to 1500	
ENGLISH 302	Survey of English Literature, 1500-1660	
ENGLISH 303	Survey of English Literature, 1660-1798	
ENGLISH 304	Survey of English Literature, 1798-1900	
ENGLISH 305	Survey of English Literature: 1900 to the Present	
ENGLISH 306	Survey of Irish Literature	
ENGLISH 307	Survey of American Literature to 1865	
ENGLISH 308	Survey of American Literature, 1865-1965	
ENGLISH 309	Survey of Contemporary American Literature	
ENGLISH 325	The Art of Fiction:	
ENGLISH 326	The Development of the Novel:	

ENGLISH 327	The Development of the Short Story
ENGLISH 329	Film and Literature
ENGLISH 332	LGBTQ+ Literature:
ENGLISH 341	The Development of Drama:
ENGLISH 342	Comedy:
ENGLISH 344	Modern Drama:
ENGLISH 360	The Art of Poetry:
ENGLISH 361	The Development of Poetry:
ENGLISH 363	Medieval Epic and Romance
ENGLISH 372	Survey of American Indian Literature
ENGLISH 373	Survey of Ethnic Minority Literature
ENGLISH 374	Survey of U.S. Latino/a Literature
ENGLISH 375	Survey of Asian American Literature
ENGLISH 376	Survey of African-American Literature to 1930
ENGLISH 377	Survey of African-American Literature, 1930 to the Present

ENGLISH 632	Seminar in American Indian Literature:	
Select a minimum of 6 credits in additional English courses numbered 300 and above		6
<b>Total Credits</b>		<b>18</b>

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## English, PhD

The Department of English offers master's and doctoral degrees in several areas of specialization: Literature and Cultural Theory; Rhetoric, Professional Writing, and Community Engagement; Creative Writing; and Media, Cinema, and Digital Studies. Students apply for admission to a specific area or concentration but are encouraged to take classes in others.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

Students in the UWM Master of Arts degree program in English must pass an M.A. exam and be recommended for admission into the Ph.D. program by their M.A. committee. An application for the Ph.D. program also must be submitted to the Graduate School.

Applicants with master's degrees from other institutions are evaluated on the basis of standard application materials:

- GPA
- Statement of Purpose
- Three Supporting Letters
- A Sample of Academic Writing

Such applicants are admitted to doctoral study provisionally and are required to complete an Academic Review within six weeks of finishing 12 credits.

For more specific information about departmental requirements for admission, please visit the English Department's Graduate Admissions Web page (<https://uwm.edu/english/graduate/admissions/>).

The Academic Review is a one- to two-hour meeting with three faculty members of the English Graduate Faculty. At least two members come from the student's concentration. The Review covers the student's academic progress in doctoral coursework, two unrevised course papers, and a list of 20-25 books chosen by the student in consultation with the reviewers. See the English Graduate Program Handbook for further details regarding the Academic Review. Applicants should contact the Graduate Program Office for additional information and deadlines.

## Credits and Courses

The Ph.D. program requires 54 credits beyond the B.A. (56 for Literature and Cultural Theory), including no more than 27 credits earned at the master's level. Course distribution requirements vary according to the doctoral concentration a student enters.

### Doctoral Concentration

Students applying to the English doctoral program must indicate their preference for one of the following doctoral concentrations: Literature and Cultural Theory; Public Rhetorics and Community Engagement; Creative Writing; Professional and Technical Writing; Media, Cinema, and Digital Studies. The Director of Graduate Studies and a Program Coordinator for each concentration provide initial advising for the student in course enrollment and in selecting a Major Professor for long-term advising. Although a continuing doctoral student can change concentrations, such changes require approval by the Coordinator of the new concentration and the Director of Graduate Studies, and may require a substantial amount of additional coursework.

Because course requirements change frequently, students should regularly consult with Program Coordinators or the Director of Graduate Studies regarding doctoral concentration requirements. The following listings reflect current curricular requirements:

**Admission to the English PhD program under Plan G (Professional Writing) is suspended as of Fall 2023.**

### Literature and Cultural Theory

Code	Title	Credits
Select 9 credits in literature courses outside the field of emphasis (at least 3 credits pre-1800)		9
Select 9 credits in cultural theory		9
Select 9 credits in field of emphasis <sup>1</sup>		9
Select one of the following:		3
ENGLISH/HIST/ MALLT 740	Approaches to the Modern I	
ENGLISH/HIST/ MALLT 741	Approaches to the Modern II	
Select 24 credits of electives		24
ENGLISH 703	Introduction to Graduate Studies in Literature (taken during the first semester)	1

ENGLISH 820	Seminar in Advanced Topics in Literary Criticism and Research:	1
<b>Total Credits</b>		<b>56</b>

<sup>1</sup> Primary field of emphasis must be declared prior to submitting the prelim proposal and field lists to the Graduate Program Committee. Field of emphasis will be selected from among those designated by Plan A to be available on the Literature and Cultural Theory Web page.

All credits must be 600-level or above, with no more than 9 credits at the 600 level. Doctoral students may not accumulate more than 6 credits of independent study. (ENGLISH 701 must be counted as elective.)

## Public Rhetorics and Community Engagement

Code	Title	Credits
<b>Required Courses</b>		
ENGLISH 701	Writing Pedagogies	3
ENGLISH 712	Theories in Public Rhetorics and Community Engagement:	3
ENGLISH 713	Research Methods in Rhetorics, Literacies, and Community Engagement:	3
ENGLISH 750	History of Rhetoric and Writing Studies:	3
Select 24 credits from the list of core courses below (no more than 6 credits from courses below the 700 level)		24
ENGLISH 427	Writing for Nonprofits	
ENGLISH 431	Topics in Advanced Communications:	
ENGLISH 432	The Rhetoric of Argument	
ENGLISH 439	Information Design	
ENGLISH 443	Grant Writing	
ENGLISH 444	Technical Editing

<b>Core Courses</b>		
<i>Take 15 credits across these courses:</i>		15
ENGLISH 742	Media Studies	
ENGLISH 743	Film Theory and Criticism	
ENGLISH 876	Seminar in Media Studies:	
ENGLISH 877	Seminar in Film Studies:	
ENGLISH 887	Seminar in Digital Studies:	
6 credits in 700- or 800- level courses in English or related programs		6
<i>Proseminar (take 2 credits)</i>		2
ENGLISH 747	Proseminar in Media, Cinema, and Digital Studies	
<b>Electives</b>		31
31 credits of electives at the graduate level (may include ENGLISH 700 & ENGLISH 701 and up to 2 additional credits of ENGLISH 747)		
<b>Total Credits</b>		<b>54</b>

## Additional Requirements

### General Restrictions

Doctoral students may not accumulate more than 12 credits in U/G courses and not more than 6 credits in independent study without the approval of the Director of Graduate Studies. No more than 18 credits may be taken in courses outside the Department.

## Advising

Students are required to consult periodically with their Major Professor. The Major Professor helps the student to define an area of special interest within the concentration for the preliminary examination. The Major Professor also assists the student in the selection of appropriate coursework and may chair the Preliminary Examination Committee.

## Foreign Language Requirement

All Ph.D. candidates are required to demonstrate proficiency (reading knowledge) in a foreign language. The choice of a language must be approved by the student's advisor. If a student has not met this requirement in other ways (see English Graduate Program Handbook), a student must pass a two-hour written examination in the translation of a piece of literature or criticism. A student may use a dictionary and/or grammar book. The exam must be arranged in advance with the Director of Graduate Studies and must be taken before the preliminary examination. If a student's Major Professor considers proficiency in more than one language necessary to the student's specific plan of study, exams in more than one language may be required. The exam may be retaken until proficiency is attained.

## Residence

The student must meet minimum Graduate School residence requirements (<https://uwm.edu/graduateschool/students/academic-policies-and-procedures/doctoral-resources/doctoral-requirements/#residence>).

## Doctoral Preliminary Examination

The doctoral preliminary examination consists of a written examination and an oral examination designed to demonstrate the breadth of a student's knowledge and the ability to conduct advanced research in one or more areas of study. The written and oral examinations draw from field bibliographies with rationale (500 word maximum) prepared by the student and approved by the student's preliminary examination committee and the advisory committee of the student's plan.

The written examination must be at least eight hours long, and it is frequently taken as a three-day, take-home, open book exam. It may be taken at the University or at home, if the committee agrees on the location. An oral exam of two hours covering issues raised during the written exam and/or focusing on the proposed dissertation must follow the written exam within 7-10 days.

Students take the preliminary exam after completing all doctoral coursework or with no more than three credits of doctoral coursework remaining. Students cannot take the exam if they have any incomplete or unreported grades or a GPA less than 3.0. The exam must be finished within one semester after all coursework is completed, excluding summer session. Students may receive a one semester extension for additional coursework from the Director of Graduate Studies. Students who fail the preliminary examination may not proceed to the dissertation. The exam may be retaken only once. See the English Graduate Program Handbook (<http://uwm.edu/english/graduate/graduate-resources/grad-handbook/>) or the Director of Graduate Studies for specific guidelines for governing the preliminary examination process.

## Dissertation

The dissertation topic, together with a brief prospectus, must be approved by the Graduate Policy Committee. The student's major professor or a member of the dissertation committee must present the topic and prospectus to the Graduate Policy Committee. See the Director of Graduate Studies and the English Graduate Program Handbook (<http://>

[uwm.edu/english/graduate/graduate-resources/grad-handbook/](http://uwm.edu/english/graduate/graduate-resources/grad-handbook/)) for specific guidelines for selecting a doctoral committee and preparing the dissertation proposal. The Department considers 200 pages a reasonable length for the dissertation.

## Dissertation Defense

The completed dissertation is subject to an oral defense, to be arranged by the Coordinator according to Graduate School regulations. A copy of the dissertation is kept in the Department office.

## Time Limit

All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.

For additional information see the Graduate School PhD requirements (<https://uwm.edu/graduateschool/students/academic-policies-and-procedures/doctoral-resources/doctoral-requirements/>).

## English, Writing, Editing, and Publishing Minor

Whatever your major, the English Minor in Writing, Editing, and Publishing can add significantly to your career preparation. This highly flexible option lets you choose from among a broad array of classes ranging from professional and technical writing to creative writing, writing about literature and culture, magazine editing, document design, and writing about film and media. You will learn about and practice diverse genres, gaining skill in composing and revising your work in professional formats, including multimedia and web platforms as well as in traditional print publications. Students can mix professional courses with creative writing classes as they pursue development of their own interests and expressive potential.

## Requirements

The College of Letters and Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. The College requires that students complete at least 9 credits of the minor in upper-division (numbered 300 or above) courses at UWM.

Students already majoring in English may not be awarded this minor in addition to their major; a student may select this minor or a major in English, but not both.

Code	Title	Credits
<b>Requirements</b>		
ENGLISH 430	Advanced Writing Workshop	3
<b>Electives</b>		
<i>Select 2 lower division courses for a total of 6 credits from the list below.</i>		6

**18**

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact let-sci@uwm.edu.

## Comparative Ethnic Studies

The Comparative Ethnic Studies Program offers an undergraduate major through the Committee Interdisciplinary Major, an undergraduate

certificate in Comparative Ethnic Studies, and an undergraduate certificate in Hmong Diaspora Studies.

## Programs

- Committee Interdisciplinary Major, BA: Comparative Ethnic Studies (p. 1026)
- Comparative Ethnic Studies, Undergraduate Certificate (p. 1031)
- Hmong Diaspora Studies, Undergraduate Certificate (p. 1033)

## Committee Interdisciplinary Major, BA: Comparative Ethnic Studies

Comparative Ethnic Studies is an interdisciplinary field that examines issues of social identity and power, in contemporary and historical contexts. The field centers on questions of race, gender, and sexuality. Students are free to select from a range of courses in the Ethnic Studies program, and to include coursework they do from around the university their academic programs.

Unique to UWM, our program offers courses covering the Hmong diaspora. Wisconsin is home to the third largest Hmong American population in the US, making UWM a great place to learn about this population.

The Committee Interdisciplinary Major with a focus in Comparative Ethnic Studies is also one of a handful of majors that requires an internship prior to graduation, thereby ensuring that students leave college with hands-on experience from the local community. The program is administered by the College of Letters and Science interdepartmental Comparative Ethnic Studies Advisory Committee.

A certificate in Comparative Ethnic Studies is also available for students seeking something closer to a minor.

## Requirements

Code	Title	Credits
	BA Degree Requirements (p. 1026)	58-77
	Major Requirements (p. 1028)	33
	General Electives	10-29
<b>Total Credits</b>		<b>120</b>

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
------	-------	---------

### Oral and Written Communication

#### Part A

Achieve a grade of C or better in the following course:

ENGLISH 102	College Writing and Research (or equivalent)	
-------------	--	--

#### Part B

Course designated as OWC-B; may be completed through a major-specific course requirement

### Quantitative Literacy

#### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		

#### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

### Arts

Select 3 credits	3
------------------	---

### Humanities

Select 6 credits	6
------------------	---

### Social Sciences

Select 6 credits	6
------------------	---

### Natural Sciences

Select 6 credits (at least two courses including one lab)	6
---	---

### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	

BIO SCI 465	Biostatistics
ECON 210	Economic Statistics
GEOG 247	Quantitative Analysis in Geography
HIST 595	The Quantitative Analysis of Historical Data
MTHSTAT 215	Elementary Statistical Analysis
PHILOS 211	Elementary Logic
POL SCI 390	Political Data Analysis
POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is *NOT* the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Major Requirements

The Committee Interdisciplinary Major submajor in Comparative Ethnic Studies requires completion of at least 33 credits in approved Comparative Ethnic Studies and Comparative Ethnic-related courses. Students may count towards the major a maximum of 9 credits in a single curricular area outside of Comparative Ethnic Studies. A minimum of 18 credits must be completed in L&S courses, and at least 15 credits must be at the upper-division level (courses numbered 300 and above)

taken in residence at UWM. Completion of the College's research experience in the major is required. ETHNIC 550 or another suitable course approved by the coordinator satisfies this requirement. Students must attain at least a 2.0 GPA on all major credits attempted at UWM. In addition, the College requires that students earn a 2.0 GPA on all credits in the major, including transfer work.

The following are required:

Code	Title	Credits
<b>Survey</b>		
ETHNIC 101	The Multi-Racial Origins of American Cultures	3
ETHNIC 102	Transnational Migrations: People on the Move	3
<b>Comparative Methods</b>		
Select at least 3 credits from the following: <sup>1</sup>		3
ETHNIC 275	Queer Migrations	
ETHNIC 350	Advanced Topics in Comparative Ethnic Studies: (subtitle)	
*** 150	Multicultural America <sup>2</sup>	
<b>Track Electives</b>		
Select option A or B below		18
<b>Internship</b>		
ETHNIC 489	Internship in Ethnic Studies, Upper Division	3
or HMONG 489	Internship in Hmong Studies, Upper Division	
<b>Capstone</b>		
ETHNIC 550	Senior Seminar in Comparative Ethnic Studies:	3
<b>Total Credits</b>		<b>33</b>

<sup>1</sup> Students may count a maximum of three courses from this group toward the major requirements.

<sup>2</sup> Offered in the following curricular areas: Anthropology, Art, English, Film, History, Sociology, Urban Studies, Women's and Gender Studies.

## Track Electives

### A. Hmong Studies

Code	Title	Credits
ETHNIC/HMONG 265	Hmong Americans: History, Culture, and Contemporary Life	3
ETHNIC 250	Selected Topics in Ethnic Studies:	3
HIST 287	The Vietnam War	3
Select nine additional credits in consultation with the Program Coordinator		9
<b>Total Credits</b>		<b>18</b>

### B. Student-Created Focus

Students complete 18 credits selected in consultation with the coordinator from the list of approved courses.

## Approved Electives

Code	Title	Credits
ANTHRO 203	Indigenous Religions	3
AFRIC 100	Black Reality: Survey of African-American Society	3

SOCIOL 324	Race and Ethnicity in Global Contexts	3

## Learning Outcomes

Students who complete the major will be able to do the following:

- Discuss the complexities of social identity for public policy as well as cultural formations;
- Provide interdisciplinary explanations for historical and contemporary conflicts based in race, ethnicity, gender, and sexuality; and
- Identify and assess different theoretical frameworks for explaining social change and relationships between actors, institutions, and ideas of identity.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned

advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Comparative Ethnic Studies, Undergraduate Certificate

Comparative Ethnic Studies is an interdisciplinary field that examines issues of social identity and power, in contemporary and historical contexts. The field centers on questions of race, gender, and sexuality. Students are free to select from a range of courses in the Ethnic Studies program, and to include coursework they do from around the university their academic programs. The program is administered by the College of Letters and Science interdepartmental Comparative Ethnic Studies Advisory Committee.

Unique to UWM, our program offers courses covering the Hmong diaspora. Wisconsin is home to the third largest Hmong American population in the U.S., making UWM a great place to learn about this population.

The Undergraduate Certificate program in Comparative Ethnic Studies is also available for students seeking something closer to a minor. Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

## Eligibility

The Certificate in Comparative Ethnic Studies is open to all students seeking a bachelor's degree from UWM, to students who previously have received a bachelor's degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. To be admitted to the University as non-degree students, individuals must meet regular University admission requirements.

Students who complete the certificate as part of their undergraduate work are awarded the certificate at the time of graduation. Students already possessing a bachelor's degree and non-degree students receive the certificate upon completion of the program requirements.

## Requirements

To receive the certificate, the student must earn a minimum of 21 credits as stated below, at least 12 from UWM, with a grade point average of 2.750 or better. A minimum of 9 credits must be earned in upper-division (numbered 300 and above) courses. At least 18 credits must be taken in the Ethnic curricular area; the other 3 credits may be selected from the approved list of elective courses. Students may discuss their specific needs and programs of study with the program coordinator, Rachel Buff. Substitutions for credits in the Ethnic curricular area are subject to the approval of the Program Coordinator.

Students interested in the undergraduate certificate should register with the Comparative Ethnic Studies Program Coordinator by the beginning of their junior year, at the latest.

Courses for the certificate must include the following:

Code	Title	Credits
<b>Required</b>		
ETHNIC 101	The Multi-Racial Origins of American Cultures	3
ETHNIC 102	Transnational Migrations: People on the Move	3
ETHNIC 550	Senior Seminar in Comparative Ethnic Studies:	3

## Hmong Diaspora Studies, Undergraduate Certificate

The Hmong Diaspora Studies undergraduate certificate program provides students with a multidisciplinary perspective on Hmong history, culture, and contemporary life.

Wisconsin and the upper Midwest are home to large concentrations of Hmong Americans, making this area of study particularly relevant to UWM students. Political unrest and international wars forced many Hmong from Laos to leave their native land during the last quarter of the twentieth century and seek refuge in foreign nations. Hmong populations can now be found throughout the Americas, Asia, Europe, and Oceania. Each area has its own distinct social, cultural, economic, and political conditions.

The certificate program includes courses about Hmong history, language, and culture, as well as classes that discuss the societal differences encountered by Hmong people. The certificate complements many different types of majors and is valuable for individuals who intend to work with the Hmong population in careers such as social work, education, public administration, law, journalism, international affairs, travel and hospitality, and global business.

UWM students have in recent years traveled to Laos, Thailand, and Vietnam to complement their classroom experience with a study abroad trip.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

### Eligibility

The Hmong Diaspora Studies Undergraduate Certificate is open to all students seeking a bachelor's degree from UWM, to students who previously received a bachelor's degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. To be admitted as a non-degree student, the individual must meet regular UWM admission requirements. Students currently involved in baccalaureate studies who successfully complete the requirements of the program will be awarded the certificate at the time of graduation. Students who already have a bachelor's degree and

non-degree students will receive the certificate upon completion of the program requirements.

## Requirements

To obtain the certificate, the student must complete, with a minimum grade point average of 2.500, at least 18 credits in approved Hmong diaspora studies courses as indicated below. Of the 18 required credits, 12 must be taken in the College of Letters and Science, and at least six of them should be at the 300 level or above. No more than nine credits from any one curricular area may count toward the certificate. Twelve of the 18 required credits must be earned in residence at UWM. Of these 12 credits, nine must be taken at the 300 level or above. A maximum of six credits in independent study may count toward program requirements. Courses for the certificate may not be taken on a credit/no credit basis.

Independent study courses focusing on Hmong cultural groups may be accepted with the approval of the certificate program committee. Other courses that are not on the lists below but relevant to the study of Hmong people in the US and other parts of the world may be accepted with the approval of the certificate program committee.

Credits earned at other institutions equivalent to courses in the certificate program may be accepted in partial fulfillment of the program requirements with the approval of the certificate program committee. Students currently enrolled at UWM who have fulfilled some of the program's requirements prior to the creation of the program may have their credits applied retroactively to the certificate program.

Code	Title	Credits
<b>Required</b>		
ETHNIC/HMONG 265	Hmong Americans: History, Culture, and Contemporary Life	3
Select 1 semester of Hmong language and/or literacy		3
Select one of the following:		3
HIST 287	The Vietnam War	
HIST 402	Topics in Asian History: (with appropriate subtitle; consult Program Coordinator)

HIST 297	Study Abroad: (Exploring Laos – History and Culture)	1-12
HIST 377	Modern China (Exploring Laos – History and Culture)	3
HMONG XXX	All courses in the Hmong curricular area	

## Secondary Focus on Hmong Cultural Groups

Code	Title	Credits
ANTHRO 150	Multicultural America <sup>1</sup>	3
ANTHRO 250	Women's Roles in Cross-Cultural Perspective	3
ARTHIST 386	Art, Ritual, and Ethnicity of China	3
ENGLISH 150	Multicultural America <sup>1</sup>	3
ENGLISH 192	First-Year Seminar: (Southeast Asian American Life Stories)	3
ETHNIC 102	Transnational Migrations: People on the Move	3
ETHNIC 250	Selected Topics in Ethnic Studies: (with appropriate subtitle)	3
HIST 150	Multicultural America <sup>1</sup>	3
HIST 269	Asian Americans in Historical Perspective	3
HIST 287	The Vietnam War (if not selected above)	3
HIST 372	Topics in Global History: (with appropriate subtitle)	3
HIST 402	Topics in Asian History: (with appropriate subtitle) (if not selected above)	3
HIST 436	Immigrant America Since 1880	3
WGS 150	Multicultural America <sup>1</sup>	3

<sup>1</sup> Students may count credits in just one of these courses toward the certificate.

## Film Studies

The College of Letters and Science offers a unique major and minor in Film Studies. Our interdisciplinary programs are founded on a broad, international perspective on film, television, popular culture, and media forms, texts, and global industries.

After completing the required introductory courses in history, formal analysis, and theory, film studies students explore a variety of advanced topics including world cinema, the internet and media culture, theories of mass culture, film and literature, writing on film and television, classical and contemporary film theory, television criticism and theory, film genres,

and other special topic courses to suit their interests and concentrations. In addition to courses stressing cultural, historical, and theoretical approaches, students can take advantage of a range of resources and opportunities to explore and deepen their understanding of contemporary and historically significant film and television, and take part in major festivals and symposia, most recently devoted to contemporary Asian cinema, Latin American and Caribbean film and culture, and global media and technology.

## Programs

- Business of Media and Film Studies, Undergraduate Certificate (College of Letters and Science, Department of Film Studies) (p. 1035)
- Film Studies, BA (p. 1036)
- Film Studies, Minor (p. 1039)

## Faculty

Name	Rank	Degree	School	Graduate Faculty	Emeritus Faculty
Gilberto Blasini	Associate Professor	PhD	University of California, Los Angeles		
Zach Finch	Associate Lecturer	PhD	University of Wisconsin, Milwaukee		
Peter Paik	Associate Professor	PhD	Cornell University		
Jocelyn Szczepaniak-Gillece	Assistant Professor	PhD	Northwestern University		
Tami Williams	Associate Professor	PhD	University of California, Los Angeles		

## Business of Media and Film Studies, Undergraduate Certificate (College of Letters and Science, Department of Film Studies)

The Certificate Program in Business of Media and Film Studies (BMFS) prepares students to be successful in their post-college careers by uniting the study of Business with the study of a popular, accessible, and pertinent area within the Humanities, Film Studies. Business students will have more sustained study in humanistic inquiry, both of their own field and of the diverse world that the Humanities investigates. Letters and Science students will have access to professional school curricula to help them be better equipped to enter a workforce that demands flexibility and a diversity of knowledge and experience.

The certificate in BMFS includes coursework engaging the financial and industry practices and structures in film and television. It is an interdisciplinary academic program consisting of an introductory course in Film or Television Studies, introductory courses in Business Administration (accounting, management, and marketing), an intermediate level Film Studies course focused on history and representational analysis, and a set of electives from Business Administration and Film Studies.

## Eligibility

The program is open to all students seeking a bachelor's degree from UWM, to students who previously earned a bachelor's degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. Students currently involved in baccalaureate studies at UWM who successfully complete the requirements of the certificate program will be awarded the certificate at the time of graduation. Other students will receive the certificate upon completion of the program requirements.

## Requirements

To obtain the certificate, the student must complete, with a minimum grade point average of 2.25, a minimum of 19 credits in approved BMFS

courses as indicated below, 15 of which must be earned in residence at UWM. Of these 15 residence credits, 9 must be taken at the 300 level or above. Nine credits must be taken in the College of Letters and Science, and nine credits must be taken in the Lubar College of Business. Courses for the certificate may not be taken on a credit/no credit basis.

Credits earned at other institutions equivalent to courses in the certificate program may be accepted in partial fulfillment of the program requirements, subject to review by the Certificate Program Advisory Committee (BMFSAC). Students currently enrolled at UWM who have fulfilled some of the program's requirements prior to the program's approval may have their credits applied retroactively to the certificate program.

## Film Studies, BA

The Department of Film Studies' BA program focuses on the history, theory and criticism of film and television. Students learn how to critically analyze the impact of film and television on individuals and society; make connections between media, historical themes and cultural change; and compare different formats. Film and media cross time periods and locations, languages and cultures. The courses that a well-rounded Film Studies student will take are equally as diverse. The major blends courses in Film Studies with classes from English, Art History, Comparative Literature, History, Religious Studies, French, Italian, Japanese, and other languages. UWM students have the advantage of being in the heart of the largest city in Wisconsin, home to a lively art house movie scene, a growing independent film industry, and a thriving cinematic culture.

Students who are more interested in film and video production process and who are looking to become a filmmaker or videographer may wish to also explore the majors offered through UWM's Peck School of the Arts.

Additional courses that count toward the major are offered by the following departments in the College of Letters and Science:

- Art History
- English
- Foreign Languages and Linguistics
- French, Italian, and Comparative Literature
- Journalism, Advertising, and Media Studies

Lower division film production courses are offered by the Peck School of the Arts' Film Department, and may count towards a student's elective course requirements.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
------	-------	---------

### Oral and Written Communication

#### Part A

Achieve a grade of C or better in the following course:

ENGLISH 102	College Writing and Research (or equivalent)
-------------	--

#### Part B

Course designated as OWC-B; may be completed through a major-specific course requirement

### Quantitative Literacy

#### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

#### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

### Arts

Select 3 credits	3
------------------	---

### Humanities

Select 6 credits	6
------------------	---

### Social Sciences

Select 6 credits	6
------------------	---

### Natural Sciences

Select 6 credits (at least two courses including one lab)	6
---	---

### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

- Two years (high school) of a single foreign language
- Two semesters (college) of a single foreign language
- Or equivalent

### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	

BIO SCI 465	Biostatistics
ECON 210	Economic Statistics
GEOG 247	Quantitative Analysis in Geography
HIST 595	The Quantitative Analysis of Historical Data
MTHSTAT 215	Elementary Statistical Analysis
PHILOS 211	Elementary Logic
POL SCI 390	Political Data Analysis
POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation.**		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

## VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

## VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Film Studies Major Requirements

A total of 36 credits is required for the major, at least 18 in upper-level courses (numbered 300 or above), with at least 15 of them taken in residence at UWM. Students must attain a 2.0 GPA on all UWM credits attempted for the major. In addition, the College requires that students attain a 2.0 GPA on all major credits attempted, including any transfer work. Students must complete the requirements specified below.

Code	Title	Credits

FILMSTD 395	Feminist Media Criticism and Theory:	
FILMSTD 412	Global Cinema and Media:	
Or other appropriate courses approved by the Director		
Select 12 additional credits (see below)		12
<b>Total Credits</b>		<b>36</b>

<sup>1</sup> A maximum of 3 credits in Film Department courses (FILM) may count toward the intermediate-level course requirement.

## Advanced-Level Electives

The following is a partial list. Other variable content courses with appropriate subtitles may be approved on a semester-by-semester basis

to count toward the major. See the list published in the Schedule of Classes (<http://www4.uwm.edu/schedule/>) under affiliated Film Studies courses, the Film Studies website, or the program advisor.

Code	Title	Credits
ARTHIST/FILMSTD 308	Film Styles:	3
COMPLIT 360	Seminar in Literature and Cultural Experience: (New Chinese Cinemas)	3
COMPLIT 461	Film-Fiction Interaction:	3
ENGLISH/FILMSTD 312	Topics in Film, Television and Digital Studies:	3
ENGLISH/FILMSTD 316	World Cinema:	3
ENGLISH/FILMSTD 320	Studies in Film and Television Authorship:	3
ENGLISH/FILMSTD 329	Film and Literature	3
ENGLISH/FILMSTD 380	Media and Society:	3
ENGLISH/FILMSTD 383	Cinema, Television, and Genre:	3
ENGLISH/FILMSTD 391	Television Criticism and Theory	3
ENGLISH/FILMSTD 393	Entertainment Industries:	3
ENGLISH/FILMSTD 394	Theories of Digital Culture:	3
FILMSTD/JEWISH 350	Global Jewish Film and Television:	3
FILMSTD 412	Global Cinema and Media:	3
FILMSTD 489	Internship in Film Studies, Upper Division	1-6
FILMSTD 499	Ad Hoc:	1-6
FILMSTD 669	Screening Sexuality:	3
FILMSTD 699	Independent Work	1-3
FRENCH 451	Cinema of the French-Speaking World:	3
JAMS 562	Media Studies and Culture <sup>1</sup>	3
JAMS 620	Seminar in Global Media <sup>1</sup>	3

<sup>1</sup> A maximum of 3 credits in JAMS courses may count toward the advanced-level course requirement.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and

- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Honors in the Major

Film Studies majors who have maintained at least a 3.500 GPA in courses for the major, a 3.500 GPA on all advanced (300-level and above) courses in the major, and a 3.000 GPA overall on all UWM courses attempted may apply to the Film Studies undergraduate advisor to graduate with "Honors in the Major."

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Film Studies, Minor

Our Film Studies program focuses on the history, theory and criticism of film and television. Students learn how to critically analyze

the impact of film and television on individuals and society; make connections between media, historical themes and cultural change; and compare different formats.

Film and media cross time periods and locations, languages and cultures. The courses that a well-rounded Film Studies student will take are equally as diverse. The major blends courses in Film Studies with classes from English, Art History, Comparative Literature, History, Religious Studies, French, Italian, Japanese, and other languages.

UWM students have the advantage of being in the heart of the largest city in Wisconsin, home to a lively art house movie scene, a growing independent film industry, and a thriving cinematic culture.

Students who are more interested in film and video production process and who are looking to become a filmmaker or videographer may wish to also explore the majors and minors offered through UWM's Peck School of the Arts.

## Requirements

To complete the minor, students are required to take 18 credits of Film Studies Program approved courses. Students must attain a 2.0 GPA in UWM credits attempted for the minor. In addition, the College requires that students attain a 2.0 GPA in all minor credits attempted, including any transfer work.

Code	Title	Credits

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact let-sci@uwm.edu.

## General Letters, BA

The Bachelor of Arts in General Letters gives students the solid foundation of a bachelor's degree with coursework that stresses critical thinking and communication skills across disciplines, along with the flexibility of a curriculum with no major. This degree may be for you if you do not want to be limited by a major, want to take a wide range of courses, or need to make the most of credits you are transferring into UWM.

The B.A. in General Letters does not allow completion of a major but can include one or more minors, certificates, and/or microcredentials.

This degree can be completed mostly or entirely online depending on which courses the student chooses to enroll in.

To declare the B.A. in General Letters, visit the College of Letters & Sciences page on this degree (<https://uwm.edu/letters-science/general-letters/>).

## Course of Study – Bachelor of Arts in General Letters

Complete 120 credits including 90 credits in the College of Letters & Science and with 45 of the 90 credits in L&S upper-level (numbered above 300). At least 15 credits must be completed in residence at UWM. The Bachelor of Arts in General Letters does not require completion of a major. Students must attain a 2.0 GPA on all credits attempted, including any transfer work.

Upon application for graduation, students completing this degree will submit a portfolio containing summative assessment assignments from two of their 300-level or above courses, and a reflection paper in which the student discusses those assignments in relation to their learning across the degree.

Students are also required to complete University-wide General Education Requirements (p. 30) and the specific L&S requirements listed below.

## College of Letters and Science Requirements

### I. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options beyond language courses.

Code	Title	Credits
<b>Completed in one of the following ways:</b>		
	Complete 3 courses (min. 9 cr) in a single language other than English (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.	9
	Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.	
	Complete 9 credits in combination of the two options above.	

### II. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural

Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Humanities</b>		
	Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *	12
<b>Natural Sciences</b>		
	Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *	12
<b>Social Sciences</b>		
	Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *	12
<b>Cultural Diversity</b>		
	Complete 3 credits in a course with Cultural Diversity (CD) designation. **	3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### III. The Minor

If a student chooses to complete a minor, the College requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Geography

Geography is the study of the earth as created by natural forces and modified by human actions. It analyzes spatial patterns and locational associations of human and physical environments. It is concerned with people's interrelationships with their environments now, in the past, and in the future. The Department of Geography includes the Cartography and Geographic Information Science (GIS) Center and works closely with the American Geographical Society Library, one of the largest holdings of geographical materials in the world.

## Faculty

Name	Rank	Degree	School	Graduate Faculty	Emeritus Faculty
Anne Bonds	Professor	PhD	University of Washington	✓	
Woonsup Choi	Associate Professor	PhD	University of Illinois at Urbana-Champaign	✓	
Michael J. Day	Professor	PhD			✓
Alison Donnelly	Professor	PhD	Trinity College, Ireland	✓	
Glen Fredlund	Associate Professor	PhD	University of Kansas		✓
Ryan Holifield	Professor	PhD	University of Minnesota	✓	
Anna Mansson McGinty	Associate Professor	PhD	Lund University, Sweden	✓	
Judith Kenny	Associate Professor	PhD			✓
Linda McCarthy	Professor	PhD	University of Minnesota	✓	
Mark D. Schwartz	Distinguished Professor	PhD	University of Kansas	✓	
Kristin Sziarto	Associate Professor	PhD	University of Minnesota	✓	
Changshan Wu	Professor	PhD	Ohio State University	✓	
Zengwang Xu	Associate Professor	PhD	Texas A&M University	✓	
Hyejin Yoon	Associate Professor	PhD	Ohio State University	✓	

## Geographic Information Science, Minor

The Geographic Information Science (GIS) minor is available to students who want to learn GIS without majoring in geography. GIS refers to working with spatial data, which is useful in many fields, including urban planning, environmental analysis, cartography, retail and real estate, health, and military intelligence.

## Requirements

The GIS minor requires the completion of a minimum of 18 credits, at least 9 of them at the 300 level or above taken in residence at UWM. The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. The following are required:

Code	Title	Credits
GEOG 215	Introduction to Geographic Information Science	3

## Programs

- Geographic Information Science, Minor (p. 1042)
- Geographic Information Systems, Graduate Certificate (College of Letters and Science) (p. 1043)
- Geography, BA (p. 1044)
- Geography, BS (p. 1049)
- Geography, MA (p. 1053)
- Geography, MA/Library and Information Science, MLIS (p. 1055)
- Geography, Minor (p. 1056)
- Geography, MS (p. 1057)
- Geography, PhD (p. 1059)

GEOG 525	Geographic Information Science	4
GEOG 698	GIS/Cartography Internship	3
Select two of the following:		8
GEOG 403	Remote Sensing: Environmental and Land Use Analysis	
GEOG 405	Cartography	
GEOG 547	Spatial Analysis	
GEOG 625	Intermediate Geographic Information Science	

**Total Credits** 18

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree

from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the “Declare a Minor” button on the program’s website. If you have questions about the minor before then, contact let-sci@uwm.edu.

## Geographic Information Systems, Graduate Certificate (College of Letters and Science)

The Certificate in Geographic Information Systems is designed for those individuals seeking careers as GIS specialists, providing geographic data management, spatial analysis, and GIS system management support to professionals in a broad range of disciplines, such as criminal justice, health services, city and regional planning, civil and environmental engineering, transportation, and marketing. Certificate holders will seek employment in positions such as “GIS Specialist,” “GIS Analyst,” or “GIS Coordinator.”

The School of Architecture and Urban Planning in the College of the Arts & Architecture and the College of Letters and Science jointly offer the certificate. The core courses (12 credits) focus on the structure of geographic data, components for managing geographic information systems, spatial analysis, and delivery of geographic information through maps and displays. Students select the remaining 6 credits for the certificate from electives, which may include an internship, in areas such as remote sensing, map-making, and data management systems.

Upon completion of the certificate courses, a student is awarded the certificate which qualifies for 5 credential points in the GIS Certification Institute’s standards for professional certification in GIS.

### Admission Requirements

#### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

#### Application

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (<https://graduateschool-apply.uwm.edu/>).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.

- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted into a certificate program.

### Credits and Courses

A minimum of 6 credits each in Urban Planning and Geography courses are required for completion of the certificate. To earn the Certificate, one must complete six semester-long courses (with a minimum of 18 credits), satisfy graduate school criteria for successful completion and maintain at least a B (3.00) average in all courses. No more than 3 credits of Internship or Independent Study will be counted towards the Certificate. The program requirements are as follows:

Code	Title	Credits
<b>Required</b>		<b>12</b>
<i>Tier 1 (select one course)</i>		
GEOG 726	Geographic Information Science	
URBPLAN 791	Introduction to Urban Geographic Information Systems for Planning	
<i>Tier 2 (select one course)</i>		
GEOG 826	Intermediate Geographic Information Science	
URBPLAN 792	Using Urban Geographic Information Systems (GIS) for Planning	
<i>Tier 3 (Select two courses)</i>		
GEOG 704	Remote Sensing: Environmental and Land Use Analysis	
GEOG 705	Cartography	
URBPLAN 793	Applied Projects in Urban Geographic Information Systems	
URBPLAN 794	Internet Geographic Information Systems (GIS)	
ANTHRO 562	Techniques and Problems in Archaeology	
BUS ADM 749	Data and Information Management	
<b>Electives</b>		<b>6</b>
Select six credits in courses from the list below:		
GEOG 716	Watershed Analysis and Modeling	
GEOG 747	Spatial Analysis	
GEOG 798	GIS/Cartography Internship	
GEOG 804	Advanced Remote Sensing	
GEOG 999	Independent Work (with appropriate topic)	
URBPLAN 692	Special Topics in Urban Planning:	
URBPLAN 791	Introduction to Urban Geographic Information Systems for Planning	
URBPLAN 792	Using Urban Geographic Information Systems (GIS) for Planning	
URBPLAN 793	Applied Projects in Urban Geographic Information Systems	
URBPLAN 794	Internet Geographic Information Systems (GIS)	
URBPLAN 991	Legislative/Administrative Agency Internship	
URBPLAN 999	Independent Study	
ANTHRO 380	Anthropological Applications of GIS	

ANTHRO 562	Techniques and Problems in Archaeology
ANTHRO 768	Topics in Advanced Research Design in Anthropology
BUS ADM 749	Data and Information Management
CRM JST 520	Analysis Oriented Technology: Spatial Data Analysis; Crime Mapping; ArcGIS
INFOST 465	Legal Aspects of Information Products and Services
INFOST 691	Special Topics in Information Science:
INFOST 714	Metadata
Other courses as approved by the GIS Certificate Subcommittee <sup>1</sup>	
<b>Total Credits</b>	<b>18</b>

<sup>1</sup> Tier 1, 2, or 3 courses may count as electives once the Tier requirements have been satisfied.

## Advising

Students will be advised by the Geography and Urban Planning faculty who teach GIS courses.

## Additional Requirements

### Transfer Credit

No more than 20% of the required credits may be taken at an institution other than UWM. To be eligible for transfer, the course must have been completed within the last two years. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

### Grade Point Average Requirement

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

### Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
  - Degree programs must approve the courses from certificates that can double count toward the degree.
  - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in PhD programs must still complete the minimum residency requirements)
  - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

### Time Limit

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

## Gainful Employment Disclosure Information

- UWM Financial Aid Gainful Employment (<https://uwm.edu/onestop/finances/receiving-financial-aid/non-degree-students/#primary>)
- Gainful Employment Disclosure Information (<https://uwm.edu/gis-certificate/wp-content/uploads/sites/323/2019/06/gis-cert-gedt-2019.pdf>)

## Geography, BA

In high school, your geography class probably focused on maps and locations – but the field is so much broader than that. Geography bridges the physical and human world, using both scientific and humanistic methods to explain, predict, and interpret people's impact on the planet and the planet's impact on people.

UWM's geography students graduate with exceptional abilities, both intellectual and technological, to analyze data about space, place, and people - and how they relate to each other. They understand how to make sense of seemingly unrelated pieces of information by bringing together diverse facts and values. They also are adept at presenting information visually - for example, maps!

Some examples of research topics that today's geographers are tackling include climate change, land use patterns, environmental justice, racial segregation, migration and refugees, natural hazards, and animal migration.

Geographic Information Science (GIS) is a growing specialty within geography. GIS is a technical system for capturing, storing, and analyzing diverse types of data in relation to location on Earth, and it enhances decision-making in both the private and public sectors. For example, a small town may use GIS data to determine where to place fire stations and personnel based on patterns of forest fires and populations; or a corporation may use GIS to plan the location of a new store based on shopping and traffic patterns.

At UWM, students can either focus on GIS or choose another specialty track: the urban track, investigating the dynamics of cities and urbanization; the climate-environment track, for those interested in climate change, natural hazards, and environmental problems and policy; or the globalization, societies and cultures track, for a broad approach to human geography and issues like economic, social, and racial inequality; migration; and cultural change.

## Related Programs

For the teaching major and minor, see the School of Education (p. 320) section of this catalog. A related special major is International Studies (p. 1128). Related certificate programs include Asian Studies (p. 892), Latin American and Caribbean Studies (p. 1167), and Middle Eastern and North African Studies (p. 1217).

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		
<i>Part B</i>		
Course designated as QL-B; may be completed through a major-specific course requirement		
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Select 6 credits		6
<b>Social Sciences</b>		
Select 6 credits		6
<b>Natural Sciences</b>		
Select 6 credits (at least two courses including one lab)		6
<b>UWM Foreign Language Requirement</b>		

Complete Foreign Language Requirement through:
Two years (high school) of a single foreign language
Two semesters (college) of a single foreign language
Or equivalent

<b>UWM Cultural Diversity Requirement</b>
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		
0-18		
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research

requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

**VII. The Minor**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

**Geography Major Requirements**

Students must meet with the department’s undergraduate advisor to declare geography as a major. All majors must complete the 24- or 25-credit core curriculum and the additional requirements as defined in one of the three tracks:

1. Geographic Information
2. Climate-Environment
3. Human Geography

Geography majors may earn either a Bachelor of Arts or Bachelor of Science degree. In satisfying their major requirements, all students must complete at least 33 credits in geography, 18 of which must be at or above the 300 level, with at least 15 of those taken in residence at UWM. Courses taken outside geography that fulfill geography requirements will be included in the major GPA. Majors must have a 2.0 GPA in all geography credits attempted at UWM, as well as in any transfer work counting toward the Geography major.

Code	Title	Credits
<b>Core Curriculum</b>		
Select one of the following courses in human geography:		3
GEOG 105	Introduction to Human Geography	
GEOG 110	The World: Peoples and Regions	
GEOG 114	Geography of Race in the United States	
GEOG 115	Globalization and Economic Development	
GEOG 140	Our Urban Environment: Introduction to Urban Geography	
Select one of these courses in physical or environmental geography:		3
GEOG 120	Our Physical Environment	
GEOG 125	Introduction to Environmental Geography	
Select one of the following regional or world geography courses:		3
GEOG 213	Geography of Asia	
GEOG 309	Nationalities and Nations of the World	
GEOG 330	Europe: East and West	
GEOG 333	Muslim Geographies: Identities and Politics	
GEOG 410	Gendered Geographies	
The following two courses are required for all tracks.		
GEOG 215	Introduction to Geographic Information Science	3
GEOG 247	Quantitative Analysis in Geography	3
Select one of the following techniques courses:		3-4
GEOG 403	Remote Sensing: Environmental and Land Use Analysis	
GEOG 405	Cartography	

GEOG 437	Qualitative Methods in Geography	
GEOG 525	Geographic Information Science <sup>1</sup>	
GEOG 547	Spatial Analysis	
The following course is required for all tracks.		
GEOG 600	Perspectives on Geography (satisfies L&S research requirement)	3
Select one of the following upper-level experiential learning courses:		3
GEOG 650	Geography Field Work	
GEOG 698	GIS/Cartography Internship <sup>2,3</sup>	
GEOG 489	Internship in Geography, Upper Division <sup>2</sup>	
GEOG 497	Study Abroad: <sup>2</sup>	
GEOG 699	Independent Work <sup>2</sup>	
<b>Major Tracks</b>		
Select a Major Track		9-15
<b>Total Credits</b>		<b>33-40</b>

- <sup>1</sup> Students in the Geographic Information Track must take GEOG 525.
- <sup>2</sup> Students must obtain faculty approval to select one of these courses: GEOG 489, GEOG 497, GEOG 698, or GEOG 699.
- <sup>3</sup> Students in the Geographic Information track must take GEOG 698.

**Major Tracks**

**Geographic Information Track**

Code	Title	Credits
GEOG 625	Intermediate Geographic Information Science	4
Select two additional upper-level techniques courses from these:		7-8
<sup>1</sup>		
GEOG 403	Remote Sensing: Environmental and Land Use Analysis	
GEOG 405	Cartography	
GEOG 437	Qualitative Methods in Geography	
GEOG 547	Spatial Analysis	
GEOG 698	GIS/Cartography Internship	3
<b>Total Credits</b>		<b>14-15</b>

- <sup>1</sup> You will already have taken GEOG 525 as part of the core curriculum and as a prerequisite for GEOG 625.

**Climate-Environment Track**

Code	Title	Credits
Select three of the following:		
GEOG 304	Human Impact on the Environment	
GEOG 306	Natural Hazards <sup>1</sup>	
GEOG 310	General Climatology <sup>1</sup>	
GEOG 340	Biogeography <sup>1</sup>	
GEOG 350	Conservation of Natural Resources	
GEOG 415	Hydrogeography <sup>1</sup>	
GEOG 450	Climates of the Past and Climate Change <sup>1</sup>	
GEOG 464	Environmental Problems	

GEOG 515	Watershed Analysis and Modeling <sup>1</sup>
GEOG 520	Physical Geography of the City <sup>1</sup>
GEOG 564	Urban Environmental Change and Social Justice

**Total Credits** 9

<sup>1</sup> These courses are approved to satisfy the L&S Advanced Natural Sciences requirement for the B.S. Students pursuing the B.S. option will need to complete at least 15 credits in upper-division courses (numbered 300 or above) in Geography, and 30 of their 36 credits in upper-division L&S courses must be in approved L&S Advanced Natural Science courses.

## Human Geography Track

Code	Title	Credits
Select four of the following: <sup>1</sup>		
<i>Systematic Geography Focus (at least TWO courses)</i>		6
GEOG 309	Nationalities and Nations of the World	
GEOG 410	Gendered Geographies	
GEOG 441	Geography of Cities and Metropolitan Areas	
GEOG 443	Cities of the World: Comparative Urban Geography	
GEOG 540	Globalization and the City	
GEOG 564	Urban Environmental Change and Social Justice	
<i>Regional Geography Focus (at least TWO courses)</i>		6
GEOG 213	Geography of Asia	
GEOG 330	Europe: East and West	
GEOG 333	Muslim Geographies: Identities and Politics	
<b>Total Credits</b>		<b>12</b>

<sup>1</sup> In *addition* to the world or regional course taken as part of the core curriculum.

## Cross-listed Course

The following course offered by the Department of Geosciences may be used to fulfill the requirements of the undergraduate major or minor in geography.

Code	Title	Credits
GEO SCI 409	Process Geomorphology	4

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Honors in the Major

Geography majors who have maintained at least a 3.0 GPA overall and a 3.5 GPA in all courses taken for the major, including a 3.5 GPA in all advanced courses in the major, are awarded the distinction 'Honors in the Major' when they graduate.

## High Honors in the Major

Geography majors who have met the minimum stated above and achieved a 3.75 or higher GPA in all courses taken for the major are awarded the distinction 'High Honors in the Major' when they graduate.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Geography, BS

In high school, your geography class probably focused on maps and locations – but the field is so much broader than that. Geography bridges the physical and human world, using both scientific and humanistic methods to explain, predict, and interpret people’s impact on the planet and the planet’s impact on people.

UWM’s geography students graduate with exceptional abilities, both intellectual and technological, to analyze data about space, place, and people - and how they relate to each other. They understand how to make sense of seemingly unrelated pieces of information by bringing together diverse facts and values. They also are adept at presenting information visually - for example, maps!

Some examples of research topics that today’s geographers are tackling include climate change, land use patterns, environmental justice, racial segregation, migration and refugees, natural hazards, and animal migration.

Geographic Information Science (GIS) is a growing specialty within geography. GIS is a technical system for capturing, storing, and analyzing diverse types of data in relation to location on Earth, and it enhances decision-making in both the private and public sectors. For example, a small town may use GIS data to determine where to place fire stations and personnel based on patterns of forest fires and populations; or a corporation may use GIS to plan the location of a new store based on shopping and traffic patterns.

At UWM, students can either focus on GIS or choose another specialty track: the urban track, investigating the dynamics of cities and urbanization; the climate-environment track, for those interested in climate change, natural hazards, and environmental problems and policy; or the globalization, societies and cultures track, for a broad approach to human geography and issues like economic, social, and racial inequality; migration; and cultural change.

## Related Programs

For the teaching major and minor, see the School of Education (p. 320) section of this catalog. A related special major is International Studies (p. 1128). Related certificate programs include Asian Studies (p. 892), Latin American and Caribbean Studies (p. 1167), and Middle Eastern and North African Studies (p. 1217).

## Course of Study – Bachelor of Science Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated Advanced Natural Science courses (<https://catalog.uwm.edu/letters-science/approved-courses-advanced-natural-science/>). The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		
<i>Part B</i>		
Course designated as QL-B; may be completed through a major-specific course requirement		
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Select 6 credits		6
<b>Social Sciences</b>		
Select 6 credits		6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**College of Letters & Science Requirements**

**I. English Composition Requirement**

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) placing beyond English 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

Code	Title	Credits
MATH 211	Survey in Calculus and Analytic Geometry I	4
MATH 213	Calculus with Life Sciences Applications	4
MATH 221	Honors Calculus I	5
MATH 231	Calculus and Analytic Geometry I	4

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	

ANTHRO 568	Introduction to Anthropological Statistics
BIO SCI 465	Biostatistics
ECON 210	Economic Statistics
GEOG 247	Quantitative Analysis in Geography
HIST 595	The Quantitative Analysis of Historical Data
MTHSTAT 215	Elementary Statistical Analysis
PHILOS 211	Elementary Logic
POL SCI 390	Political Data Analysis
POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

**III. Foreign Language Requirement**

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

**IV. International Requirement**

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

**V. Breadth Requirement**

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		

Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. \*

**Social Sciences**

Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. \*

**Natural Sciences**

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including laboratory or field courses from three different curricular areas. \*

**Cultural Diversity**

Complete 3 credits in a course with Cultural Diversity (CD) designation. \*\*

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

**VI. The Major**

The College requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement**

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

**VII. The Minor**

The College requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation.

**Geography Major Requirements**

Students must meet with the department's undergraduate advisor to declare geography as a major. All majors must complete the 24- or 25-credit core curriculum and the additional requirements as defined in one of the three tracks:

1. Geographic Information
2. Climate-Environment
3. Human Geography

Geography majors may earn either a Bachelor of Arts or Bachelor of Science degree. In satisfying their major requirements, all students must complete at least 33 credits in geography, 18 of which must be at or above the 300 level, with at least 15 of those taken in residence at UWM. Courses taken outside geography that fulfill geography requirements will be included in the major GPA. Majors must have a 2.0 GPA in all geography credits attempted at UWM, as well as in any transfer work counting toward the Geography major.

Code	Title	Credits
<b>Core Curriculum</b>		
Select one of the following courses in human geography:		3
GEOG 105	Introduction to Human Geography	
GEOG 110	The World: Peoples and Regions	
GEOG 114	Geography of Race in the United States	
GEOG 115	Globalization and Economic Development	
GEOG 140	Our Urban Environment: Introduction to Urban Geography	
Select one of these courses in physical or environmental geography:		3
GEOG 120	Our Physical Environment	
GEOG 125	Introduction to Environmental Geography	
Select one of the following regional or world geography courses:		3
GEOG 213	Geography of Asia	
GEOG 309	Nationalities and Nations of the World	
GEOG 330	Europe: East and West	
GEOG 333	Muslim Geographies: Identities and Politics	
GEOG 410	Gendered Geographies	
The following two courses are required for all tracks:		
GEOG 215	Introduction to Geographic Information Science	3
GEOG 247	Quantitative Analysis in Geography	3
Select one of the following techniques courses:		3-4
GEOG 403	Remote Sensing: Environmental and Land Use Analysis	
GEOG 405	Cartography	
GEOG 437	Qualitative Methods in Geography	
GEOG 525	Geographic Information Science <sup>1</sup>	
GEOG 547	Spatial Analysis	
The following course is required for all tracks:		
GEOG 600	Perspectives on Geography (satisfies L&S research requirement)	3
Select one of the following upper-level experiential learning courses:		3
GEOG 650	Geography Field Work	
GEOG 698	GIS/Cartography Internship <sup>2,3</sup>	
GEOG 699	Independent Work <sup>2</sup>	
GEOG 489	Internship in Geography, Upper Division <sup>2</sup>	
GEOG 497	Study Abroad: <sup>2</sup>	
<b>Major Tracks</b>		

Select a Major Track	9-15
<b>Total Credits</b>	<b>33-40</b>

- <sup>1</sup> Students in the Geographic Information Track must take GEOG 525.  
<sup>2</sup> Students must obtain faculty approval to select one of these courses: GEOG 489, GEOG 497, GEOG 698, or GEOG 699.  
<sup>3</sup> Students in the Geographic Information Track must take GEOG 698.

## Major Tracks

### Geographic Information Track

Code	Title	Credits
GEOG 625	Intermediate Geographic Information Science	4
Select two additional upper-level techniques courses from these: <sup>1</sup>		7-8
GEOG 403	Remote Sensing: Environmental and Land Use Analysis	
GEOG 405	Cartography	
GEOG 437	Qualitative Methods in Geography	
GEOG 547	Spatial Analysis	
GEOG 698	GIS/Cartography Internship	3
<b>Total Credits</b>		<b>14-15</b>

- <sup>1</sup> You will already have taken GEOG 525 as listed in the core curriculum and as a prerequisite to GEOG 625.

### Climate-Environment Track

Code	Title	Credits
Select three of the following:		9
GEOG 304	Human Impact on the Environment	
GEOG 306	Natural Hazards <sup>1</sup>	
GEOG 310	General Climatology <sup>1</sup>	
GEOG 340	Biogeography <sup>1</sup>	
GEOG 350	Conservation of Natural Resources	
GEOG 415	Hydrogeography <sup>1</sup>	
GEOG 450	Climates of the Past and Climate Change <sup>1</sup>	
GEOG 464	Environmental Problems	
GEOG 515	Watershed Analysis and Modeling <sup>1</sup>	
GEOG 520	Physical Geography of the City <sup>1</sup>	
GEOG 564	Urban Environmental Change and Social Justice	
<b>Total Credits</b>		<b>9</b>

- <sup>1</sup> These courses are approved to satisfy the L&S Advanced Natural Sciences requirement for the B.S. Students pursuing the B.S. option will need to complete at least 15 credits in upper-division courses (numbered 300 or above) in Geography, and 30 of their 36 credits in upper-division L&S courses must be in approved L&S Advanced Natural Science courses.

### Human Geography Track

Code	Title	Credits
Select four from the following: <sup>1</sup>		
<i>Systematic Geography Focus (at least TWO courses)</i>		6
GEOG 309	Nationalities and Nations of the World	
GEOG 410	Gendered Geographies	
GEOG 441	Geography of Cities and Metropolitan Areas	
GEOG 443	Cities of the World: Comparative Urban Geography	
GEOG 540	Globalization and the City	
GEOG 564	Urban Environmental Change and Social Justice	
<i>Regional Geography Focus (at least TWO courses)</i>		6
GEOG 213	Geography of Asia	
GEOG 330	Europe: East and West	
GEOG 333	Muslim Geographies: Identities and Politics	
<b>Total Credits</b>		<b>12</b>

- <sup>1</sup> In *addition* to the world or regional course taken as part of the core curriculum.

### Cross-listed Course

The following course offered by the Department of Geosciences may be used to fulfill the requirements of the undergraduate major or minor in geography.

Code	Title	Credits
GEO SCI 409	Process Geomorphology	4

### Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with

a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Honors in the Major

Geography majors who have maintained at least a 3.0 GPA overall and a 3.5 GPA in all courses taken for the major, including a 3.5 GPA in all advanced courses in the major, are awarded the distinction 'Honors in the Major' when they graduate.

## High Honors in the Major

Geography majors who have met the minimum stated above and achieved a 3.75 or higher GPA in all courses taken for the major are awarded the distinction 'High Honors in the Major' when they graduate.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

# Geography, MA

## Related Certificates

- Certificate in Geographic Information Systems (GIS) (p. 1043)

## Overview

The Department of Geography offers both master's and doctoral programs of study across a range of systematic, regional, and technical fields, with innovative energy in the doctoral program for studying urban environments. The department's overall strengths are aligned along a theme of "Changing Environments," with three major axes, each responsive to areas with strong demand for new professionals:

- **Human Geography and Urban Environments:** This area emphasizes the spatial interactions of economic systems as well as political, social, cultural, environmental, technological, and other forces that influence the people, identities, landscape, development, and dynamics of urban areas. With the world's population becoming increasingly urbanized and globalized, courses examine the continuing challenges of urban growth and change, race, ethnicity, and gender in the city, immigration and identity politics, and spatial aspects of urban planning processes and political decision-making.
- **Physical Geography and Environmental Studies:** This area addresses the interactions among natural forms and processes on the earth's surface, the impact and implications of global climate change, and human connections with those natural phenomena. Courses on long-term atmospheric change are emphasized. Overlapping emphases include phenology, water resources, conservation, natural hazards, natural resource scarcity, and the mounting challenges of global environmental change.
- **Geographic Information Science and Remote Sensing:** This area emphasizes using geospatial technology to further understanding of spatial interactions among natural and social forces at multiple scales across the Earth's surface, and exploring the impacts of using such technology on social and cultural interactions. Courses examine geographic information collection (including remote sensing), data analysis and geocomputation (spatial analysis), information presentation (cartography), and societal implications. Our program emphasizes applications of Geographic Information Science (GIS) in urban, regional, and environmental planning, policy making, and public health.

In addition to these departmental strengths, individual faculty members apply their expertise in topics such as remote sensing, GIS, and cartography to problems of the city. Geography faculty also participate in the certificate program in Geographic Information Systems, which is jointly offered by the College of Letters and Science and the College of the Arts & Architecture.

While the master's program offers a more traditional structure within which students can strengthen their knowledge of the discipline and one or more of its subfields, the department's unique PhD program is designed to be especially attractive to forward-looking students interested in the urban environment who seek a flexible, versatile, 21st century graduate education with a strong emphasis on interdisciplinarity. The PhD program's urban-environmental theme is inclusive and encompassing of processes and problems associated with the intersection of human and natural environments, strongly focused on "the city" as the entity of engagement. The program breaks with longstanding tradition in the field of geography in stressing a balance between specialized analytical research and synthetic research, between

traditional academic research and community engagement, and between research and teaching. It relies heavily on Geographic Information Science (GIS) as a research tool and as an organizing framework.

## Facilities and Resources

The University of Wisconsin–Milwaukee is the repository of the venerable American Geographical Society Library, an internationally renowned research resource. The Department of Geography boasts a large instructional Map Collection, which functions as a federal government depository for maps; and a Soils and Physical Geography Laboratory, which supports research projects among several UWM departments.

Other research resources at UWM available to the Geography Department staff and students include the Cartography and GIS Center, the School of Freshwater Sciences, the Center for Economic Development, the Center for Latin American and Caribbean Studies, the Center for International Education, the Center for Urban Transportation Studies, Women's and Gender Studies, the Digital Humanities Lab, the Center for 21st Century Studies, and University Information Technology Services.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Master of Arts in Geography

The MA normally is awarded to those who concentrate in cultural or human geography. Students must elect to pursue either the MA or MS option during their first semester in the program. Students may also elect to complete their degree through either a thesis or non-thesis track.

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements to be considered for admission to the program:

1. Evidence of general intellectual ability and compelling interest in geography. An undergraduate major in geography is desirable as evidence of such ability and interest but is not required. Past coursework will be compared to the core requirements of the UWM Geography bachelor's degree in order to determine any deficiencies that need to be satisfied as a condition of acceptance.
2. Reason statement. This statement should outline the applicant's research interests and academic background, their goals for pursuing a graduate degree in geography, and other relevant professional and research experience. The statement should not exceed two-single sided pages.
3. A curriculum vitae (CV) detailing academic history and accomplishments and other relevant professional qualifications.
4. A writing sample. The writing sample can be a paper written for a class, a professional project, or part of longer piece of writing. It should not exceed 20 pages.
5. Three letters of recommendation.
6. Departmental approval, based on thorough evaluation of applicant's potential for professional development.

## Credits and Courses

### Standard Track

The Standard Track is the only option for MA students. Both M.A. and M.S. degrees are offered in the standard track. The M.A. normally is awarded to those who concentrate in cultural or human geography, whereas the M.S. is awarded to those who concentrate in physical geography. Students must elect to pursue either the M.A. or M.S. option during their first semester in the program. A minimum of 6 credits in physical geography or natural science courses appropriate to the student's area of study are required for the M.S. Students may also elect to complete their degree through either a thesis or non-thesis option.

The two options have the same coursework requirements except for the capstone project. Details are provided below.

Minimum degree requirement is 30 graduate credits with an average GPA of 3.0. The student, in consultation with the advisor, plans a program of studies to include:

Code	Title	Credits
GEOG 726	Geographic Information Science	4
GEOG 747	Spatial Analysis	4
GEOG 810	Introduction to Techniques of Research and Presentation	3
GEOG 870	Contemporary Geographic Approaches:	3
	12 credits in graduate-level (700 and above) courses approved by the student's advisor (at least 3 of these credits must be in one Geography-related graduate seminar course)	12
	4 credits in the student's capstone project (see Thesis Option and Non-Thesis Option information below)	4
<b>Total Credits</b>		<b>30</b>

The student also must attend Geography colloquia regularly while in residence and must present their thesis research at a departmental colloquium.

### Thesis Option

The student must register at least 4 credits of GEOG 890 Research and Master's Thesis (approved by the student's advisor). In addition, the student, through the advisor, must present a proposed thesis topic and Advisory Committee to the Graduate Faculty of the Department for its approval. For students electing the M.S. option, the Faculty will also judge the appropriateness of the thesis topic for that degree.

The student must then write a thesis acceptable to the major professor for presentation to the Advisory Committee (two faculty members in addition to the advisor). The defense date for the thesis must be set at least two weeks prior to the Graduate School deadline for completion of all work. The thesis must be approved by the advisor and delivered to the committee at least six weeks prior to the defense date. Students must submit the thesis to the advisor in sufficient time to meet the committee deadline. Exceptions to these deadlines under unusual circumstances must be approved unanimously by the student's committee. In addition to submission of the final thesis to the Graduate School (according to their required procedure), the candidate must present the Geography Department with a professionally hard-bound copy that meets Graduate School specifications for quality. This copy will remain on file in the department.

### Non-Thesis Option

This option is intended for students who are not interested in continuing their graduate education beyond the master’s degree, and plan to seek professional employment. The M.A. degree will normally be awarded upon completion of this option. Those who wish a M.S. degree must formally petition the Graduate Faculty in writing, providing a rationale as to why that degree is appropriate to their program. The student must complete at least 4 credits of graduate work (approved by the student’s advisor) as either:

- Two research papers (GEOG 999) Students pursuing the non-thesis option through the two-research paper option must choose two separate topics, and conduct extended literature reviews on the topics, although other possibilities, such as a small research project, should not be excluded. The papers are expected to be 25-50 pages apiece. The student is expected to have an oral defense with three committee members regarding the two papers. According to current guidelines, the student is not expected to present their papers to the colloquium series.

OR

- A graduate internship (GEOG 798 or GEOG 889 (note that GEOG 810 is a prerequisite for GEOG 889)). Students pursuing the non-thesis option through the graduate internship should conduct at least 180 hours of internship. The internship should be related to the student’s academic area of interest and must be approved by the advisor. The student is expected to write a scholarly paper of 25-50 pages in length that connects the internship to the appropriate literature. The student must have a committee of three faculty members, and is expected to go through an oral defense with the committee members regarding the internship paper. According to current guidelines, the student is not expected to present their internship paper to the colloquium series.

## Additional Requirements

### Major Professor and Advisory Committee

The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations. The Chair of the Geography Graduate Committee is a temporary advisor; within the first semester the student selects a major professor (advisor) in the student’s specialization.

By the time of the student’s thesis defense, the advisory committee must have at least three members, including the student’s chosen major professor. The majority of the committee members must be UWM Geography graduate faculty.

### Time Limit

This program is designed to be completed in two years of full-time attendance. The Graduate School requires that all degree requirements be completed within five years of initial enrollment.

## Geography, MA/Library and Information Science, MLIS

In collaboration with several other academic units at UW-Milwaukee, SOIS offers students the opportunity to obtain two Master’s degrees concurrently—one in Library and Information Science (MLIS) and one in a subject area.

## Degree Requirements

- The number of degree credits needed for each of the coordinated programs is usually 12 fewer than the sum of the two programs if they were not taken simultaneously. *All degree requirements of each component must be satisfied.*
- The MLIS portion of the coordinated degrees can be completed online.
- Prerequisite to the award of either degree in this program is the simultaneous award of its counterpart degree.

### MLIS Component

The Master of Library and Information Science (MLIS) component of each of the coordinated programs includes 30 credits of SOIS courses. These include the MLIS core courses (12 credits). The remaining 18 MLIS credits are selected from the School’s offerings in accordance with the student’s goals in the coordinated degree program.

### MLIS/MA Geography

The MLIS/MA Geography Coordinated Degree Program prepares students for positions as map librarians. Graduates of the program are qualified to assume positions as curators and staff in map collections of universities, governmental agencies, and industry.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

## Credits and Courses

The MA in Geography normally has a minimum requirement of 30 credits from regular geography courses (which includes 4 capstone/thesis credits). For the coordinated MA Geography/MLIS degree program, however, students can substitute 6 credits in information studies courses for 6 credits of geography. This program, therefore, requires a total of 54 credits. Students must complete the 30 credits required for the MLIS component and the 24 credits in Geography courses specified below.

Code	Title	Credits
GEOG 726	Geographic Information Science	4
GEOG 747	Spatial Analysis	4
GEOG 810	Introduction to Techniques of Research and Presentation	3
GEOG 870	Contemporary Geographic Approaches: (subtitle)	3
Select a GEOG 900-level course		3
Select any GEOG graduate course		3
GEOG 889 or GEOG 999	Internship in Geography Independent Work	4
<b>Total Credits</b>		<b>24</b>

The Geography Department offers opportunities for fieldwork that may count toward these requirements. In addition to off-campus fieldwork, the American Geographical Society Collection at the UWM Golda Meir Library

provides many unique opportunities for map librarianship fieldwork and is an appropriate site for an internship.

Graduates of the program are qualified to assume positions as curators and staff members in map collections of universities, governmental agencies, and industry. In cases where map collections are not of sufficient size to warrant separation as distinct collections, knowledge of how to store, classify, and retrieve maps will be a valuable set of skills that enhance the qualifications of the information professional.

### Basic Required MLIS Courses

Code	Title	Credits
<b>Core Courses</b>		<b>12</b>
INFOST 501	Foundations of Library and Information Science	
INFOST 511	Organization of Information	
INFOST 571	Information Access and Retrieval	
INFOST 799	Research Methods in Information Studies	
<b>Other MLIS courses</b>		<b>18</b>
<b>Total Credits</b>		<b>30</b>

### Important

You must refer to the catalog pages of both individual master's programs to ensure that you meet all requirements for both degrees.

## Geography, Minor

In high school, your geography class probably focused on maps and locations – but the field is so much broader than that. Geography bridges the physical and human world, using both scientific and humanistic methods to explain, predict, and interpret people's impact on the planet and the planet's impact on people.

UWM's geography students graduate with exceptional abilities, both intellectual and technological, to analyze data about space, place, and people - and how they relate to each other. They understand how to make sense of seemingly unrelated pieces of information by bringing together diverse facts and values. They also are adept at presenting information visually - for example, maps!

Some examples of research topics that today's geographers are tackling include climate change, land use patterns, environmental justice, racial segregation, migration and refugees, natural hazards, and animal migration.

Geographic Information Science (GIS) is a growing specialty within geography. GIS is a technical system for capturing, storing, and analyzing diverse types of data in relation to location on Earth, and it enhances decision-making in both the private and public sectors. For example, a small town may use GIS data to determine where to place fire stations and personnel based on patterns of forest fires and populations; or a corporation may use GIS to plan the location of a new store based on shopping and traffic patterns.

## Related Programs

For the teaching major and minor, see the School of Education (p. 320) section of this catalog. A related special major is International Studies (p. 1128). Related certificate programs include Asian Studies (p. 892), Latin American and Caribbean Studies (p. 1167), and Middle Eastern and North African Studies (p. 1217).

## Requirements

The geography minor requires the completion, with a GPA of 2.0 or above in all geography courses attempted at UWM, of 18 credits in geography courses, at least 9 of which must be at the 300 level or above taken in residence at UWM. In addition, students must attain a 2.0 GPA on all courses attempted in the minor, including transfer work. The following are required:

Code	Title	Credits
<b>Required</b>		
Select one of the following:		3
GEOG 105	Introduction to Human Geography	
GEOG 110	The World: Peoples and Regions	
GEOG 114	Geography of Race in the United States	
GEOG 115	Globalization and Economic Development	
GEOG 140	Our Urban Environment: Introduction to Urban Geography	
GEOG 213	Geography of Asia	
GEOG 120	Our Physical Environment	3
or GEOG 125	Introduction to Environmental Geography	
GEOG 215	Introduction to Geographic Information Science	3
or GEOG 405	Cartography	
<b>Electives</b>		
Select 9 credits		9
<b>Total Credits</b>		<b>18</b>

## Cross-listed Course

The following course offered by the Department of Geosciences may be used to fulfill the requirements of the undergraduate major or minor in geography.

Code	Title	Credits
GEO SCI 409	Process Geomorphology	4

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact let-sci@uwm.edu.

Other research resources at UWM available to the Geography Department staff and students include the Cartography and GIS Center, the School of Freshwater Sciences, the Center for Economic Development, the Center for Latin American and Caribbean Studies, the Center for International Education, the Center for Urban Transportation Studies, Women's and Gender Studies, the Digital Humanities Lab, the Center for 21st Century Studies, and University Information Technology Services.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Master of Science in Geography

The MS is awarded to those who concentrate in physical geography. Students must elect to pursue either the MA or MS option during their first semester in the program. A minimum of 6 credits in physical geography or natural science courses appropriate to the student's area of study are required for the MS. Students may also elect to complete their degree through either a thesis or non-thesis track.

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements to be considered for admission to the program:

1. Evidence of general intellectual ability and compelling interest in geography. An undergraduate major in geography is desirable as evidence of such ability and interest but is not required. 2. Reason statement. This statement should outline the applicant's research interests and academic background, their goals for pursuing a graduate degree in geography, and other relevant professional and research experience. The statement should not exceed two-single sided pages.
3. A curriculum vitae (CV) detailing academic history and accomplishments and other relevant professional qualifications.
4. A writing sample. The writing sample can be a paper written for a class, a professional project, or part of longer piece of writing. It should not exceed 20 pages.
5. Three letters of recommendation.
6. Departmental approval, based on thorough evaluation of applicant's potential for professional development.

## Credits and Courses

### Track Options

MS students may choose the Standard or the GIS Professional Track.

#### A. Standard Track

The Standard Track is the only option for MA students. Both M.A. and M.S. degrees are offered in the standard track. The M.A. normally is awarded to those who concentrate in cultural or human geography, whereas the M.S. is awarded to those who concentrate in physical geography. Students must elect to pursue either the M.A. or M.S. option during their first semester in the program. A minimum of 6 credits in physical geography or natural science courses appropriate to the student's area of study are required for the M.S. Students may also elect to complete their degree through either a thesis or non-thesis option.

The two options have the same coursework requirements except for the capstone project. Details are provided below.

Minimum degree requirement is 30 graduate credits with an average GPA of 3.0. The student, in consultation with the advisor, plans a program of studies to include:

Code	Title	Credits
GEOG 726	Geographic Information Science	4
GEOG 747	Spatial Analysis	4
GEOG 810	Introduction to Techniques of Research and Presentation	3
GEOG 870	Contemporary Geographic Approaches:	3
12 credits in graduate-level (700 and above) courses approved by the student's advisor (at least 3 of these credits must be in one Geography-related graduate seminar course)		12
4 credits in the student's capstone project (see Thesis Option and Non-Thesis Option information below)		4
<b>Total Credits</b>		<b>30</b>

The student also must attend Geography colloquia regularly while in residence and must present their thesis research at a departmental colloquium.

#### Major Professor and Advisory Committee

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. The Chair of the Geography Graduate Committee is a temporary advisor; within the first semester the student selects a major professor (advisor) in the student's specialization.

By the time of the student's oral defense, the advisory committee must have at least three members, including the student's chosen major professor. The majority of the committee members must be UWM Geography graduate faculty.

#### Thesis Option

The student must register at least 4 credits of GEOG 890 Research and Master's Thesis (approved by the student's advisor). In addition, the student, through the advisor, must present a proposed thesis topic and Advisory Committee to the Graduate Faculty of the Department for its approval. For students electing the M.S. option, the Faculty will also judge the appropriateness of the thesis topic for that degree.

The student must then write a thesis acceptable to the major professor for presentation to the Advisory Committee (two faculty members in addition to the advisor). The oral defense date for the thesis must

be set at least two weeks prior to the Graduate School deadline for completion of all work. The thesis must be approved by the advisor and delivered to the committee at least six weeks prior to the defense date. Students must submit the thesis to the advisor in sufficient time to meet the committee deadline. Exceptions to these deadlines under unusual circumstances must be approved unanimously by the student's committee. In addition to submission of the final thesis to the Graduate School (according to their required procedure), the candidate must present the Geography Department with a professionally hard-bound copy that meets Graduate School specifications for quality. This copy will remain on file in the department.

#### Non-Thesis Option

This option is intended for students who are not interested in continuing their graduate education beyond the master's degree, and plan to seek professional employment. The M.A. degree will normally be awarded upon completion of this option. Those who wish a M.S. degree must formally petition the Graduate Faculty in writing, providing a rationale as to why that degree is appropriate to their program. The student must complete at least 4 credits of graduate work (approved by the student's advisor) as either:

- Two research papers (GEOG 999) Students pursuing the non-thesis option through the two-research paper option must choose two separate topics, and conduct extended literature reviews on the topics, although other possibilities, such as a small research project, should not be excluded. The papers are expected to be 25-50 pages apiece. The student is expected to have an oral defense with three committee members regarding the two papers. According to current guidelines, the student is not expected to present their papers to the colloquium series.

OR

- A graduate internship (GEOG 798 or GEOG 889 [note that GEOG 810 is a prerequisite for GEOG 889]). Students pursuing the non-thesis option through the graduate internship should conduct at least 180 hours of internship. The internship should be related to the student's academic area of interest and must be approved by the advisor. The student is expected to write a scholarly paper of 25-50 pages in length that connects the internship to the appropriate literature. The student must have a committee of three faculty members, and is expected to go through an oral defense with the committee members regarding the internship paper. According to current guidelines, the student is not expected to present their internship paper to the colloquium series.

#### B. GIS Professional Track

This track is intended for students who plan to seek professional employment in the field of GIS and are not interested in continuing their graduate education beyond the master's degree. Only M.S. degrees are offered in the GIS professional track.

Minimum degree requirement is 30 graduate credits with an average GPA of 3.0. The student, in consultation with the advisor, plans a program of studies to include:

Code	Title	Credits
GEOG 726	Geographic Information Science	4
GEOG 747	Spatial Analysis	4
GEOG 704	Remote Sensing: Environmental and Land Use Analysis	4

GEOG 826	Intermediate Geographic Information Science	4
GEOG 705	Cartography	4
Electives		6
GEOG 798	GIS/Cartography Internship (capstone project)	4
<b>Total Credits</b>		<b>30</b>

The student also must attend Geography colloquia regularly while in residence.

### Elective Courses

Code	Title	Credits
Select two of the following:		
GEOG 804	Advanced Remote Sensing	3
GEOG 737	Qualitative Research	3
URBPLAN 791	Introduction to Urban Geographic Information Systems for Planning	3
URBPLAN 792	Using Urban Geographic Information Systems (GIS) for Planning	3
URBPLAN 793	Applied Projects in Urban Geographic Information Systems	3
URBPLAN 794	Internet Geographic Information Systems (GIS)	3
GEOG 716	Watershed Analysis and Modeling	3
BUS ADM 749	Data and Information Management	3

## Additional Requirements

### A. Standard Track

#### Comprehensive Examination

In combination with the thesis defense (or after completion of the work for the non-thesis option), the student must pass a final oral examination over the field of geography, administered by the student's Advisory Committee. Scheduling this examination during the summer is not permitted except under unusual academic circumstances and with the approval of the department faculty.

### B. GIS Professional Track

#### Capstone Project (GEOG 798)

Students pursuing the GIS professional track should conduct at least 180 hours of internship. The internship should be related to the field of GIS and must be approved by the advisor. The student is expected to write a scholarly paper of 25-50 pages in length that connects the internship to the appropriate literature. The student must have a committee of three faculty members, and is expected to go through an oral defense with the committee members regarding the internship paper. According to current guidelines, the student is not expected to present their internship paper at the colloquium series.

## Geography, PhD

### Related Certificates

- Certificate in Geographic Information Systems (GIS) (p. 1043)

### Overview

The Department of Geography offers both master's and doctoral programs of study across a range of systematic, regional, and technical

fields, with innovative energy in the doctoral program for studying urban environments. The department's overall strengths are aligned along a theme of "Changing Environments," with three major axes, each responsive to areas with strong demand for new professionals:

- **Human Geography and Urban Environments:** This area emphasizes the spatial interactions of economic systems as well as political, social, cultural, environmental, technological, and other forces that influence the people, identities, landscape, development, and dynamics of urban areas. With the world's population becoming increasingly urbanized and globalized, courses examine the continuing challenges of urban growth and change, race, ethnicity, and gender in the city, immigration and identity politics, and spatial aspects of urban planning processes and political decision-making.
- **Physical Geography and Environmental Studies:** This area addresses the interactions among natural forms and processes on the earth's surface, the impact and implications of global climate change, and human connections with those natural phenomena. Courses on long-term atmospheric change are emphasized. Overlapping emphases include phenology, water resources, conservation, natural hazards, natural resource scarcity, and the mounting challenges of global environmental change.
- **Geographic Information Science and Remote Sensing:** This area emphasizes using geospatial technology to further understanding of spatial interactions among natural and social forces at multiple scales across the Earth's surface, and exploring the impacts of using such technology on social and cultural interactions. Courses examine geographic information collection (including remote sensing), data analysis and geocomputation (spatial analysis), information presentation (cartography), and societal implications. Our program emphasizes applications of Geographic Information Science (GIS) in urban, regional, and environmental planning, policy making, and public health.

In addition to these departmental strengths, individual faculty members apply their expertise in topics such as remote sensing, GIS, and cartography to problems of the city. Geography faculty also participate in the certificate program in Geographic Information Systems, which is jointly offered by the College of Letters and Science and the College of the Arts & Architecture.

While the master's program offers a more traditional structure within which students can strengthen their knowledge of the discipline and one or more of its subfields, the department's unique PhD program is designed to be especially attractive to forward-looking students interested in the urban environment who seek a flexible, versatile, 21st century graduate education with a strong emphasis on interdisciplinarity. The PhD program's urban-environmental theme is inclusive and encompassing of processes and problems associated with the intersection of human and natural environments, strongly focused on "the city" as the entity of engagement. The program breaks with longstanding tradition in the field of geography in stressing a balance between specialized analytical research and synthetic research, between traditional academic research and community engagement, and between research and teaching. It relies heavily on Geographic Information Science (GIS) as a research tool and as an organizing framework.

### Facilities and Resources

The University of Wisconsin–Milwaukee is the repository of the venerable American Geographical Society Library, an internationally renowned research resource. The Department of Geography boasts a large instructional Map Collection, which functions as a federal government

depository for maps; and a Soils and Physical Geography Laboratory, which supports research projects among several UWM departments.

Other research resources at UWM available to the Geography Department staff and students include the Cartography and GIS Center, the School of Freshwater Sciences, the Center for Economic Development, the Center for Latin American and Caribbean Studies, the Center for International Education, the Center for Urban Transportation Studies, Women's and Gender Studies, the Digital Humanities Lab, the Center for 21st Century Studies, and University Information Technology Services.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) to be considered for admission to the program. Students from a wide range of disciplinary backgrounds may be admitted. They must present the following credentials:

1. Master's degree.
2. Reason statement. This statement should outline the applicant's research interests and academic background, their goals for pursuing a graduate degree in geography, and other relevant professional and research experience. The statement should not exceed two-single sided pages.
3. A curriculum vitae (CV) detailing academic history and accomplishments, teaching and research experience, and other relevant professional qualifications.
4. A writing sample. The writing sample can be a paper written for a class, a professional project, or part of a longer piece of writing. It should not exceed 20 pages.
5. Substantial evidence of scholarly potential and commitment.
6. Three letters of recommendation.

In some instances where the applicant's record demonstrates exceptional promise, the Department will consider applications for admission to the Ph.D. program directly from a BA/BS degree. Such admission does not constitute a waiver of any of the requirements indicated below.

The Graduate Program Committee, during the admission process, will evaluate an applicant's academic background and will assign deficiencies based on a comparison of their background and the proposed specific area of study as outlined in the student's reason statement. In general, the department seeks students with:

1. Potential for planning and successfully completing an independent research project, as evidenced by a master's thesis and/or other appropriate materials;
2. Basic statistical analysis skills;
3. Interest and/or ability in evaluating problems related to the urban environment with a spatial framework; and
4. Interest in examining research questions within a multi-disciplinary (human/physical) team environment.

## Reapplication

A student who receives a master's degree from UWM must formally reapply for admission to Graduate School before continuing studies toward the Ph.D.

## Graduate Student Orientation

All new students are expected to participate in the department orientation program, offered during the week prior to the start of fall classes. If a student enters the program in the spring, they must participate in this program during the subsequent fall semester. New students will be paired with an experienced student mentor during their first year. Instructional opportunities sponsored by the Center for Instruction and Professional Development (CIPD) and the Preparing Future Faculty (PFF) initiative will be offered to all teaching assistants and other interested students enrolled in the doctoral program.

## Credits and Courses

Minimum degree requirement is 54 graduate credits beyond the bachelor's degree, at least 27 of which must be earned in residence at UWM with a minimum GPA of 3.0.

Under the guidance of the advisory committee, the chair of which serves as the student's major professor, the student plans a program of study leading to the development of a special interest. All programs of study contain the following four elements: core concepts and methods, thematic focus, elective courses (as needed to meet the total credit requirement), and dissertation.

### Core Concepts and Methods

Code	Title	Credits
<b>Foundation</b>		
GEOG 726	Geographic Information Science	4
GEOG 870	Contemporary Geographic Approaches:	3
Select any Geography-related graduate seminar as approved by graduate advisor		3
Select one of the following:		3-4
GEOG 704	Remote Sensing: Environmental and Land Use Analysis	
GEOG 737	Qualitative Research	
GEOG 747	Spatial Analysis	
<b>Thematic Focus</b>		
Select three courses		9-12
<b>Electives</b>		
Select courses taken from geography or cognate fields to achieve the total of 54 credits required for the Ph.D. degree <sup>1</sup>		28-32
<b>Total Credits</b>		<b>50-58</b>

<sup>1</sup> Students must have the approval of their advisors for the elective courses.

### Thematic Focus

Students, in consultation with their advisor, must select a minimum of three courses that together confer specialized expert knowledge in one thematic area. The courses selected do not have to come from a single list, and they may include other courses not listed.

## Local Places: Problems and Issues

Relevant courses include:

Code	Title	Credits
GEOG 441	Geography of Cities and Metropolitan Areas	3
GEOG 464	Environmental Problems	3
GEOG 564	Urban Environmental Change and Social Justice	3
GEOG 945	The Internal Structure of the City	3
URB STD 981	Argument in Urban Studies Scholarship	3
URBPLAN 720	Urban Development Theory and Planning	3

## Global and Regional Perspectives

Relevant courses include:

Code	Title	Credits
GEOG 443	Cities of the World: Comparative Urban Geography	3
GEOG 540	Globalization and the City	3

## Monitoring and Modeling Urban Dynamics

Relevant courses include:

Code	Title	Credits
GEOG 704	Remote Sensing: Environmental and Land Use Analysis	4
GEOG 520	Physical Geography of the City	3
GEOG 747	Spatial Analysis	4
GEOG 826	Intermediate Geographic Information Science	4
GEOG 650	Geography Field Work	3
GEOG 804	Advanced Remote Sensing	3
GEOG 737	Qualitative Research	3
GEO SCI 730	Modelling Techniques for Hydrogeology	3
URBPLAN 721	Applied Planning Methods	3

## Research Techniques (Elective Course)

Students who have not taken a research techniques course in their prior graduate program should consult with their faculty advisor regarding their enrollment in GEOG 910, an introduction to theoretical and practical aspects of geographic research, funding, presentation, and publication. Ideally, students should enroll in this course after their first full year of courses, but no later than their fourth semester, after they have completed the majority of **Core** requirements. The course is designed to assist students with the initiation of their Ph.D. dissertation research.

## Additional Requirements

### Major Advisor and Committee

Students must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. Students may not register for any courses without that advisor's prior approval.

By the time of the student's preliminary exams or dissertation proposal hearing, the committee must have at least three members, including the student's chosen major professor. At least two of the committee members must be UWM Geography graduate faculty; one external

member approved by the program to possess appropriate expertise is automatically accepted by the Graduate School.

By the time the student is ready to defend their dissertation, the committee must have at least four members, including the major professor. At least three of the committee members must be UWM graduate faculty; one external member approved by the program to possess appropriate expertise is automatically accepted by the Graduate School. Students are allowed a maximum of six committee members for the defense. At least half the committee members must be UWM Geography graduate faculty.

## Foreign Language Requirement

If appropriate to the proposed area of study, the student's committee will require that they acquire the necessary competence in a foreign language. The major professor will supervise the completion of this requirement with input from the committee as necessary.

## Dissertation

The candidate must write an acceptable dissertation that demonstrates formulation, design, and independent execution of a significant research project. The dissertation must make an original contribution to knowledge in the field of geography. It may focus on geographical theory, methodology, data, or analysis, or it may involve collaborative approaches, interdisciplinary syntheses, and integrative solutions appropriate to the focus of the student's graduate program of study.

## Portfolio Evaluation

By the end of the first full academic year in the program, each student will undergo a formal portfolio evaluation by the members of the faculty in order to determine the student's readiness to continue in the program. This evaluation will include inspection of all written work produced in courses, commentary by relevant instructors, and any other materials the student chooses to submit. The possible outcomes of this review will be:

1. **Pass** (student continues with the normal second year of their program);
2. **Fail** (student is recommended for academic dismissal); or
3. **Probation** (student is counseled to take specific courses or other actions to achieve the necessary readiness to continue in the program). In the case of a recommendation of Probation, the student will be re-evaluated after an additional semester. If this second review does not result in a decision to PASS, the student will be recommended for academic dismissal.

## Residence

The student must meet minimum Graduate School residence requirements (<http://uwm.edu/graduateschool/doctoral-requirements/#residence>) of one continuous academic year of full-time graduate studies at UWM. This can be satisfied by completing 8 to 12 graduate credits in each of two consecutive semesters, or 6 or more graduate credits in each of three consecutive semesters, including summer sessions. Residence credit cannot be earned at the master's level or before the master's degree is awarded.

## Doctoral Preliminary Examination

Each student will undergo a comprehensive written and oral examination by the end of their sixth semester in the program. The student's committee, advisor, and proposed dissertation topic must be approved formally by the Geography departmental faculty prior to the scheduling of these exams. A Proposed Ph.D. Program/Plan of Study must be

filed with the major professor prior to the preliminary examination. Successful completion of these exams leads to candidacy, when work on the dissertation can commence.

The student's advisor, as chair of the advisory committee, will organize and administer the examination. The content of the examination will be determined by the area of the student's interest. The scope of the examination will be determined by the student's advisory committee. A student judged qualified by the majority of the advisory committee will be admitted to candidacy. A student judged not qualified by the majority of the advisory committee will not be admitted to candidacy at the time of the examination but will be given an opportunity to retake the examination once, after a waiting period of at least one semester. At the discretion of the advisory committee, the second examination will be either a complete reexamination or a partial examination over the parts in which the student failed to qualify. A student receiving a negative vote from the advisory committee after the second examination will be recommended for academic dismissal. The student will be informed of the reasons for failure to qualify.

## Presentations

Each student must make two presentations at department colloquia. The first presentation will be scheduled early in the student's program; it is designed to give the student experience in making formal presentations. The second presentation will communicate the student's dissertation research topic and preliminary results.

## Dissertation

As mentioned above, the candidate must write an acceptable dissertation. The defense date for the dissertation must be set at least two weeks prior to the Graduate School deadline. The dissertation must be approved by the major professor and delivered to the student's advisory committee at least six weeks prior to the defense date. A student must submit the dissertation to the advisor with sufficient time to meet the committee's deadline. Exceptions to these deadlines under unusual circumstances must be approved unanimously by the student's committee.

## Dissertation Defense

The candidate must, as the final step toward the degree, defend the dissertation before the advisory committee. If the candidate passes the defense, the advisory committee will recommend to the Graduate School that a degree of Doctor of Philosophy be conferred.

## Submission of Completed Dissertation

In addition to submission of the final dissertation to the Graduate School (according to its required procedure), the candidate must present to the Geography Department a professionally hard-bound copy that meets Graduate School specifications for quality. This copy will remain on file in the department.

## Time Limit

All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.

## Special Issues for Directly Admitted Students

Students directly admitted to the doctoral program after completion of their bachelor's degree will not earn a master's degree during the course of their studies. Further, formal doctoral status (which affects stipend rates and the ability to fulfill the residency requirement) will not be granted until the student has completed 24 credits in the program. Lastly, no more than 12 dissertation credits can be used to satisfy the 54-credit doctoral degree requirement.

# Geosciences

The Department of Geosciences is an educational community of students, researchers, and teachers focused on scientific examination of the Earth. We ask important questions, create new knowledge, and communicate information about Earth's properties and processes through deep-time. Through our research, study, and teaching, we aim to help create a scientifically informed society and enable our students to achieve their professional goals. We welcome all who share our intellectual curiosity about the Earth; our diverse community includes people from a variety of intellectual, religious, class, cultural, and political perspectives.

## Geosciences, BA

Many students are already familiar with Geosciences through what is commonly called "earth science" in high school. Geosciences covers our Planet Earth - its soil, minerals, climate change, magnetic fields, earthquakes, water, plants, fossils, volcanoes and more.

The BA degree in Geosciences requires fewer math, physics, and chemistry prerequisites and upper-level courses than the BS degree. It is designed for students who expect to use the earth sciences in preparation for a career in law, business, government, primary or secondary schools, or natural resources, or for those who start the Geosciences program later in their college careers. The BA degree in Geosciences is more easily combined with complementary majors for students to pursue a double or a triple major.

Geosciences majors at UWM can organize their electives around a particular area of interest if they wish:

- Hard Rock - the study of structural geology, mineralogy, petrology, volcanology and tectonics
- Hydrogeology - the study of water resources
- Paleontology - the study of evolutionary patterns in history
- Sedimentary Geology - the study of rocks, fossils, and landforms in the context of the biological and chemical make-up

Geosciences touches on all aspects of the other natural sciences including chemistry, biology, mathematics and physics, so the ideal student for Geosciences loves all types of science and is curious about how they interrelate. Most Geosciences students also love the outdoors and traveling off of the beaten path.

Required outdoor field work prepares students for jobs with environmental and water resource management; energy and mineral industries; and government agencies.

UWM students often participate in research abroad in places as diverse as Iceland, Turkey, South America, Ireland, and New Zealand. Others gain hands-on experience in the dirt of Montana, the hills of South Dakota or the swamps of Florida.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within

five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		
<i>Part B</i>		
Course designated as QL-B; may be completed through a major-specific course requirement		
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Select 6 credits		6
<b>Social Sciences</b>		
Select 6 credits		6
<b>Natural Sciences</b>		
Select 6 credits (at least two courses including one lab)		6
<b>UWM Foreign Language Requirement</b>		

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		
0-18		
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		
	Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above	9
	Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.	
	Complete 9 credits in combination of the two options above.	

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
	Select 3 credits	3
<b>Humanities</b>		
	Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *	12
<b>Social Sciences</b>		
	Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *	12
<b>Natural Sciences</b>		
	Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *	12
<b>Cultural Diversity</b>		
	Complete 3 credits in a course with Cultural Diversity (CD) designation.**	3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research

requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Major Requirements

All students who major in Geosciences must complete at least 15 credits in Geosciences courses at the advanced level (numbered 300 or above) in residence at UWM as part of the 36 advanced-level credits required for the L&S degree. The College requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

Code	Title	Credits
<b>Required</b>		
GEO SCI 100	Introduction to the Earth	3
GEO SCI 102	Principles of Historical Geology	3
GEO SCI 301	Principles of Mineralogy	4
GEO SCI 302	Elementary Petrology	4
GEO SCI 414	Structural Geology (satisfies L&S research requirement)	4
GEO SCI 455	Field Geology (normally taken over the summer) <sup>1</sup>	3
GEO SCI 511	Stratigraphy and Sedimentation	4
<b>Electives</b>		
	Select 9 additional credits from Geosciences Department courses at the 300 level or above	9
<b>Other Requirements</b>		
<i>Physics and Chemistry</i>		
	Select at least one laboratory course in physics and one laboratory course in chemistry selected from the courses required for the Geosciences B.S. Option.	9-10
<b>Total Credits</b>		<b>43-44</b>

<sup>1</sup> GEO SCI 455 is required but not offered at UWM. Students must enroll in a field course at another university to satisfy the requirement.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;

- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Geosciences, BS

Many students are already familiar with Geosciences through what is commonly called "earth science" in high school. Geosciences covers

our Planet Earth - its soil, minerals, climate change, magnetic fields, earthquakes, water, plants, fossils, volcanoes and more.

The Bachelor of Science (BS) degree in Geosciences is designed to prepare students to become professional Earth scientists in a wide range of disciplines, as well as to enter graduate programs for further advanced training. The BS curriculum includes more allied science requirements than the BA and is designed for students who plan professional employment or advanced study in the geosciences. Graduates seek employment with environmental and water resource management; energy and mineral industries; and government agencies.

Geosciences majors at UWM can organize their electives around a particular area of interest if they wish:

- Hard Rock - the study of structural geology, mineralogy, petrology, volcanology and tectonics
- Hydrogeology - the study of water resources
- Paleontology - the study of evolutionary patterns in history
- Sedimentary Geology - the study of rocks, fossils, and landforms in the context of the biological and chemical make-up

Geosciences touches on all aspects of the other natural sciences including chemistry, biology, mathematics and physics, so the ideal student for Geosciences loves all types of science and is curious about how they interrelate. Most Geosciences students also love the outdoors and traveling off of the beaten path.

Required outdoor field work prepares students for jobs with environmental and water resource management; energy and mineral industries; and government agencies.

UWM students often participate in research abroad in places as diverse as Iceland, Turkey, South America, Ireland, and New Zealand. Others gain hands-on experience in the dirt of Montana, the hills of South Dakota or the swamps of Florida.

## Course of Study – Bachelor of Science Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated Advanced Natural Science courses (<https://catalog.uwm.edu/letters-science/approved-courses-advanced-natural-science/>). The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		

ENGLISH 102 College Writing and Research (or equivalent)

*Part B*

Course designated as OWC-B; may be completed through a major-specific course requirement

**Quantitative Literacy**

*Part A*

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

*Part B*

Course designated as QL-B; may be completed through a major-specific course requirement

**Arts**

Select 3 credits 3

**Humanities**

Select 6 credits 6

**Social Sciences**

Select 6 credits 6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**College of Letters & Science Requirements**

**I. English Composition Requirement**

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) placing beyond English 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or

3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

Code	Title	Credits
MATH 211	Survey in Calculus and Analytic Geometry I	4
MATH 213	Calculus with Life Sciences Applications	4
MATH 221	Honors Calculus I	5
MATH 231	Calculus and Analytic Geometry I	4

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

**III. Foreign Language Requirement**

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

#### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

#### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including laboratory or field courses from three different curricular areas. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

#### VI. The Major

The College requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

#### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

#### VII. The Minor

The College requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation.

## Major Requirements

All students who major in Geosciences must complete at least 15 credits in Geosciences courses at the advanced level (numbered 300 or above) in residence at UWM as part of the 36 advanced-level credits required for the L&S degree. The College requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

Code	Title	Credits
<b>Required</b>		
GEO SCI 100	Introduction to the Earth	3
GEO SCI 102	Principles of Historical Geology	3
GEO SCI 301	Principles of Mineralogy	4
GEO SCI 302	Elementary Petrology	4
GEO SCI 316	Introduction to Geophysics	4
GEO SCI 414	Structural Geology (satisfies L&S research requirement)	4
GEO SCI 455	Field Geology (normally taken over the summer) <sup>1</sup>	4-8
GEO SCI 511	Stratigraphy and Sedimentation	4
<b>Electives</b>		
Select two (6 – 8 credits) of the following:		6-8
GEO SCI 400	Water Quality	
GEO SCI 409	Process Geomorphology	
GEO SCI 443	Glacial and Pleistocene Geology	
GEO SCI 463	Physical Hydrogeology	
GEO SCI 464	Chemical Hydrogeology	
GEO SCI 515	Physical Sedimentology	
GEO SCI 525	Terroir: Geology in a Glass	
GEO SCI 563	Field Methods in Hydrogeology	
CES 651	Principles of Stream Management and Restoration	

Select 10-12 additional credits from Geosciences Department courses at the 300 level or above, for a total of 18 elective credits.

**Other Requirements**

*Mathematics*

MATH 231	Calculus and Analytic Geometry I	4
----------	----------------------------------	---

Students are encouraged to take the following:

MATH 232	Calculus and Analytic Geometry II	
MATH 233	Calculus and Analytic Geometry III	
MATH 234	Linear Algebra and Differential Equations	

*Chemistry*

CHEM 102	General Chemistry	5
----------	-------------------	---

Students are encouraged to take the following course as well as courses in organic and inorganic chemistry:

CHEM 104	General Chemistry and Qualitative Analysis	
----------	--	--

*Physics*

Select one of the following options: 5

Option 1:

PHYSICS 120 & PHYSICS 121	General Physics I (Non-Calculus Treatment) and General Physics Laboratory I (Non-Calculus Treatment)	
---------------------------	--	--

Option 2:

PHYSICS 209 & PHYSICS 214	Physics I (Calculus Treatment) and Lab Physics I (Calculus Treatment)	
---------------------------	---	--

Students are encouraged to take:

PHYSICS 122 & PHYSICS 123	General Physics II (Non-Calculus Treatment) and General Physics Laboratory II (Non-Calculus Treatment)	
---------------------------	--	--

OR

PHYSICS 210 & PHYSICS 215	Physics II (Calculus Treatment) and Lab Physics II (Calculus Treatment)	
---------------------------	---	--

**Total Credits 60-68**

<sup>1</sup> GEO SCI 455 is required but not offered at UWM. Students must enroll in a field course at another university to satisfy the requirement.

Students are advised strongly to increase their scholastic breadth by selecting courses from among several subdisciplines of the geosciences, in consultation with Geosciences Department faculty.

Students who are interested in general geology are encouraged to include courses from among the following:

Code	Title	Credits
GEO SCI 409	Process Geomorphology	4
GEO SCI 420	Methods in Paleomagnetism and Environmental Magnetism	3
GEO SCI 515	Physical Sedimentology	4
GEO SCI 520	Introduction to Paleontology	4
GEO SCI 545	X-Ray Analytical Methods	3
GEO SCI 614	Advanced Structural Geology	3
GEO SCI 635	Volcanology	3
GEO SCI 638	Advanced Igneous Petrology	3

Students are encouraged to consider topics offered under the following:

GEO SCI 696	Topics in the Geological Sciences:	1-3
GEO SCI 697	Seminar in the Geological Sciences:	1-3

Students who are interested in environmental geology or hydrogeology are encouraged to include courses from among the following:

Code	Title	Credits
GEO SCI 400	Water Quality	4
GEO SCI 409	Process Geomorphology	4
GEO SCI 443	Glacial and Pleistocene Geology	4
GEO SCI 463	Physical Hydrogeology	4
GEO SCI 464	Chemical Hydrogeology	4
GEO SCI 545	X-Ray Analytical Methods	3
GEO SCI 562	Environmental Surface Hydrology	3
GEO SCI 563	Field Methods in Hydrogeology	4

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned

advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Geosciences, Minor

Many students are already familiar with Geosciences through what is commonly called "earth science" in high school. Geosciences covers our Planet Earth - its soil, minerals, climate change, magnetic fields, earthquakes, water, plants, fossils, volcanoes and more.

Geoscience minors at UWM can organize their electives around a particular area of interest if they wish:

- Hard Rock - the study of structural geology, mineralogy, petrology, volcanology and tectonics
- Hydrogeology - the study of water resources
- Paleontology - the study of evolutionary patterns in history
- Sedimentary Geology - the study of rocks, fossils, and landforms in the context of the biological and chemical make-up

Geosciences touches on all aspects of the other natural sciences including chemistry, biology, mathematics and physics, so the ideal student for Geosciences loves all types of science and is curious about how they interrelate. Most Geosciences students also love the outdoors and traveling off of the beaten path.

For the minor, outdoor field work is not required but is recommended as preparation for jobs with environmental and water resource management; energy and mineral industries; and government agencies.

UWM students often participate in research abroad in places as diverse as Iceland, Turkey, South America, Ireland, and New Zealand. Others gain hands-on experience in the dirt of Montana, the hills of South Dakota or the swamps of Florida.

## Requirements

The College of Letters and Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. The minor consists of a minimum of 18 credits in geosciences courses, including the following:

Code	Title	Credits
GEO SCI 100	Introduction to the Earth	3
GEO SCI 102	Principles of Historical Geology	3
Select 12 credits at the 200 level or above, with at least 9 of them at the 300 level or higher taken in residence at UWM		12
<b>Total Credits</b>		<b>18</b>

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Geosciences, MS

The Department of Geosciences offers the Master of Science (MS) degree program, which trains students for professional practice and/or continued graduate study. With the MS program of study, you will develop into a professional that is not just a technical worker, but a leader that can manage and carry out complex projects that include development, analysis, interpretation, and communication of results. The typical course of study takes two years to complete.

The Geosciences MS program provides our students with a strong scientific background and intensive research experience, culminating in a formal thesis. The MS degree requires both coursework and research. These help the student build observation, critical thinking, quantification, and presentation skills. Our goal is for students to gain deep knowledge in a subfield of geosciences and a broad understanding of the overall discipline. We strive to prepare students for scientific careers in academia, government, or industry.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found

by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

## Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus the following departmental requirements to be considered for admission to the program:

1. Hold a bachelor's degree in one of the natural sciences, engineering, or mathematics.
2. Have an appropriate background in aspects of the geosciences relevant the intended field of study.
3. Provide the names of at least three (3) people who can submit letters of recommendation speaking to your research skills and ability to succeed in a research-based MS program.
4. Provide a reason statement.

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses.

The student is expected to satisfy deficiency requirements within three enrolled semesters. No course credits earned in making up deficiencies must be counted as program credits required for the degree. A geology student who lacks field training must acquire the training not later than the summer following initial enrollment.

## Credits and Courses

Minimum degree requirement is 30 graduate credits, at least 24 of which must be earned in formal course credits and up to 6 of which may be earned through an acceptable thesis.

Code	Title	Credits
Formal Course Credits		24
GEO SCI 990 *		6
<b>Total Credits</b>		<b>30</b>

\* Only 6 credits of GEO SCI 990 may be counted toward the 30-credit requirement, though a student may enroll in the course more than twice and may take more than 6 credits.

## Additional Requirements

All students in their second or later year are required to present a public progress report annually to the Department.

## Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. The student is assigned a preliminary advisor at the time of initial enrollment based on the student's expressed research interests.

## Proposal for Thesis

Prior to the formal undertaking of thesis research, the student must prepare a written proposal for the thesis problem including an estimate of costs to be incurred. Copies of the proposal are to be distributed to the faculty advisor and the Department reading file. One copy is to be placed in the student's permanent Department file. An abstract of the proposal

is to be distributed to each Department faculty member for comment and critique.

## Thesis

The student must write an acceptable thesis embodying the results of original research completed under the direction of the advisor. The thesis must be approved by the student's examining committee, consisting of the research advisor plus two other PhD-holding scientists, one of which may be outside of UWM.

## Comprehensive Examination

The student must pass a final oral examination in defense of the thesis. At the discretion of the examining committee, this examination may include topics in addition to the thesis. The first part of this examination will be a public presentation of the thesis. Immediately after the presentation, the thesis must be orally defended before the entire examining committee in a closed session.

## Time Limit

The student must complete all degree requirements within five years of initial enrollment.

## Geosciences, PhD

The Department of Geosciences offers the Doctor of Philosophy (PhD) degree program, which is designed to produce scholars capable of independent research that deepens humanity's understanding of science, as well as practitioners capable of applying their training to achieve sound and pragmatic solutions to real problems in the field. As a PhD student, you will become an expert and scholar in your field who is starting to generate an international reputation as an independent scientist that can devise and conduct creative research, mentor and teach, and contribute to the advancement of your field. Students in the doctoral program will normally spend four years completing their degree.

The Geosciences PhD program provides our students with a strong scientific background and intensive research experience, culminating in a formal dissertation. The PhD degree requires both coursework and research. These help the student build observation, critical thinking, quantification, and presentation skills. Our goal is for students to gain deep knowledge in a subfield of geosciences and a broad understanding of the overall discipline. We strive to prepare students for scientific careers in academia, government, or industry.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

To be considered for admission to the program, an applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus the following program requirements:

1. Hold a master's degree in one of the natural sciences, engineering, or mathematics or have equivalent experience.
2. Have an appropriate background in aspects of the geosciences relevant to the intended field of study.

3. Provide the names of at least three (3) people who can submit letters of recommendation speaking to your research skills and ability to succeed in a PhD program.
4. Provide a reason statement.

Exceptional students without a M.S. degree may be considered for admission. A student who holds a master's degree from UWM must formally reapply for admission to the Graduate School before continuing studies toward the Ph.D.

## Credits and Courses

Code	Title	Credits
	Credits taken from formal master's study	24
	At least 18 formal graduate credits beyond the master's degree	18
	Elective and GEO SCI 998 Doctoral Dissertation credits	12
<b>Total Credits</b>		<b>54</b>

Doctoral students must earn 54 credits beyond the bachelor's degree, of which 24 credits may be taken from formal coursework completed as part of the master's study. At least 18 graduate credits beyond the master's degree must be earned in formal coursework.

Each student must prepare a formal Program of Study to be submitted to the Geosciences Department within the first semester in the program. Courses are selected in consultation with the student's advisor and with approval from the Doctoral Committee. Students are strongly advised to take courses from each of their committee members prior to taking the doctoral preliminary examination. For full time students, coursework should be completed within 4 semesters after admission to the Ph.D. program. In unusual situations, this timetable may be extended beyond 4 semesters. A timetable for coursework completion for part time students will be established on an individual basis.

## Additional Requirements

### Residency Requirement

The Graduate School requires satisfaction of a residency requirement. This involves completing at least 8 graduate credits in 2 consecutive semesters or 6 graduate credits in 3 consecutive semesters (including summer sessions) while in full doctoral status at UWM. In addition, at least half of the graduate credits required for the Ph.D. must be earned at UWM.

### Quantitative Skill

A working knowledge of computer programming, statistics, numerical methods, or GIS appropriate to the student's field of study is required. Standards for this requirement will be established by the student's Doctoral Committee. Undergraduate courses taken to meet this requirement do not apply to the course requirements for the Ph.D.

### Doctoral Committee

The membership of the Doctoral Committee will be established in the student's first semester. The Committee must consist of the following: the doctoral student's advisor as chair (or co-advisors as co-chairs) and least three additional graduate faculty, one of whom may be external to UWM. The student is required to arrange a meeting with the Doctoral Committee at least once each year.

The student may request a change of advisor if another faculty member is available, willing, and able to assume that role. If this change involves a significant modification of the area of specialization or research, the

student's record will be reexamined to determine whether the student's background is sufficient for the new specialty. If it is not, it may be necessary for the student to withdraw from the program and reapply in the new specialty. Normally such a change of direction will not be allowed once the dissertation proposal has been defended.

## Doctoral Preliminary Examination

Advancement to dissertator status requires that students 1) submit and successfully defend a dissertation proposal and 2) pass a doctoral preliminary examination. The doctoral preliminary examination consists of a set of written exams from the Doctoral Committee and a follow-up oral examination. The structure of the written examination will be established by the student's Doctoral Committee, and the student must demonstrate knowledge in the fields of geology and related sciences as defined by the Doctoral Committee. As part of the oral examination, the student must successfully defend their dissertation proposal, which must be approved by the doctoral committee. The dissertation proposal should be in an NSF-style format and should provide an overview of and approach to the problem being addressed, a budget, and appropriate bibliographic references. For full-time students, these examinations must be passed prior to the start of the 5<sup>th</sup> semester and after the residency requirement is fulfilled.

## Annual Presentation of Results

All students beyond their first year of study are required to present a public progress report annually to the Department.

## Dissertation

The candidate must present a written dissertation reporting the results of independent, original research carried out under the direction of the major professor. Prior to a defense, the dissertation must be reviewed by the entire Doctoral Committee.

## Dissertation Defense

The student first will give a presentation of their research results in a public forum. The dissertation must then be orally defended in a closed session before the entire Doctoral Committee. The defense may include questions related to any of the dissertator's fields of study. If the dissertation is defended and the oral examination is passed to the satisfaction of a majority of the Doctoral Committee, the candidate is passed and recommended for the degree.

## Time Limit

All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.

## Additional Requirements and Information

Detailed information about program requirements is provided to each student following admission and is available from the Department office. For additional information on Graduate School Ph.D. requirements, see the Doctoral Requirements (<http://uwm.edu/graduateschool/doctoral-requirements/>) Webpage.

# Global Health, Undergraduate Certificate (College of Letters and Science)

Anne Dressel, *Director, Center for Global Health Equity, Nursing, Certificate Coordinator*

Connor Sampson, *Advisor, Nursing*, sampsocc@uwm.edu

Global Health is an interdisciplinary undergraduate certificate administered by the Director of the Center for Global Health Equity and the Global Health Advisory Committee (GHAC).

The world is economically, politically, culturally, and technologically connected and interdependent with increasingly mobile populations seeking economic opportunity, security, and safety as a result of civil unrest, regional conflicts, diminished natural resources, poverty, and disease. Although some health problems and issues remain specific to levels and contexts of socio-cultural, economic, and political development within countries, many of the same problems, issues, and concerns transcend geographic boundaries, as should appropriate approaches and solutions. The concept of “global health” describes and addresses these realities. An undergraduate certificate in Global Health will provide students with academic inquiry into:

- the global burden of disease
- the social determinants of health in a global context
- the principles, language, and measurement tools used in global health
- ethics and global health
- the global cultural, religious, and historical contexts of health, disease, and health care

The Global Health Certificate will provide undergraduate students with an opportunity to focus on current global health issues and concerns, policies, processes, programs, and practices that contribute to and hinder global health improvement. A wide array of courses will help students better comprehend the interdisciplinary approach to understanding and addressing global health issues.

## Eligibility

The Global Health Certificate is intended to enhance a bachelor’s degree. The certificate is available to all students seeking a bachelor’s degree from UWM, to students who previously have received a bachelor’s degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. Non-degree students must meet regular University admission requirements. Students currently involved in baccalaureate studies who successfully complete the requirements of the program will be awarded the certificate at the time of graduation. Students who already have a bachelor’s degree will receive the certificate upon completion of the program requirements.

## Requirements

To obtain the certificate, the student must complete, with a minimum grade point average of 2.500, at least 21 credits in approved Global Health courses, of which 12 must be earned in residence at UWM. Of these 12 residence credits, 9 must be taken at the 300 level or above. A minimum of 6 credits must be taken in the College of Letters and Science. A minimum of 6 credits must be taken in the College of Nursing. No more than 9 credits from any one department may count toward the certificate. A maximum of 6 credits of independent study may count toward program requirements. Courses for the certificate may not be taken on a credit/no credit basis.

Independent study courses focusing on global health issues may be accepted with the approval of the Certificate Program Coordinator. Other courses not on this list but relevant to the study of global health may be accepted with the approval of the Certificate Program Coordinator.

Credits earned at other institutions equivalent to courses in the certificate program may be accepted in partial fulfillment of the program requirements, subject to review by the Certificate Program Coordinator. Students currently enrolled at UWM who have fulfilled some of the program’s requirements prior to the approval of this program may count those courses toward completion of the certificate requirements.

The following are required:

Code	Title	Credits
<b>Core</b>		
NURS 301	Introduction to Global Health	3
PH 101	Introduction to Public Health	3
<b>World Regions</b>		
Select one of the following:		3
ANTHRO 104	Lifeways in Different Cultures: A Survey of World Societies	
GEOG 110	The World: Peoples and Regions	
HIST 132	World History Since 1500	
POL SCI 106	Politics of the World’s Nations	
SOCIOL 103	World Society	
<b>Electives</b>		
Select a minimum of 6 credits		6
<b>Fieldwork</b>		
Select one of the following:		3
Internship		
Study Abroad		
Independent Study		
<b>Capstone</b>		
NURS 575	Global Health: Ethics and Human Rights	3
<b>Total Credits</b>		<b>21</b>

## Electives

Code	Title	Credits
AFRIC 329	Economic Growth and Sustainable Development in Africa	3
AFRIC 351	Sexuality, Gender, and Health in Africa and the Diaspora	3
ANTHRO 102	Introduction to Anthropology: Culture and Society	3
ANTHRO 104	Lifeways in Different Cultures: A Survey of World Societies	3
ANTHRO 440	Medical Anthropology	3
ANTHRO/GLOBAL 443	Medicine and Pharmaceuticals in the Global Age	3

NURS 690	Global Health Governance: Key Players, Financing and Challenges	3
PH 303	Climate Change, the Environment and Human Health	3
POL SCI 374	Health, Wealth, and Democracy	3
SPANISH 388	Health Issues in the Hispanic World	3

## Fieldwork

Students are required to do an internship, self-designed research project, or study abroad (for a minimum of 3 credits at the 300-level or above) in the field of global health. The purpose of this requirement is to enable the student to engage in global health work through "practical" experience or research. The area of study must be approved by the coordinator of the Global Health Certificate and must meet the requirements of the department through which it is being completed.

The fieldwork requirement can be fulfilled in one of three ways:

- Internship – A number of global health internships are available through the International Studies Major (INTLST 450), as well as other departments and organizations.
- Study Abroad – UWM offers a number of Global Health study abroad programs, through several departments.
- Independent Study – The student may propose a global health research project to a professor in an area of interest. The independent study also must be discussed with and approved by the Global Health Certificate Coordinator.

## Global Studies

The Department of Global Studies offers a range of programs exploring globalization and cross-cultural connections. Students in the department pursue majors and minors in Arabic, Comparative Literature, French, Global Studies, Italian, and Japanese, developing international experiences and perspectives as well as advanced language skills that prepare them to build careers in a wide range of social and professional settings in the United States and abroad.

Arabic is the primary language of the Middle Eastern and North African region of the globe, with over 430 million speakers, and is designated a "critical language" by the U.S. government. Additionally, its spiritual significance resonates as the liturgical language for over 2 billion Muslims globally. The Arabic program offers six semesters of language instruction along with a minor, integrating Modern Standard Arabic with exposure to the Levantine dialect, enhancing career prospects in fields such as education, international development, diplomacy, security, business, and engineering.

Comparative Literature is the study of literature and other art forms across national and linguistic borders. Students of Comparative Literature explore and analyze writing across history and around the globe while developing a global and cross-cultural perspective on human expression. This cultural dexterity, paired with the critical thinking and interpretive skills developed within the major, prepares students for the

kind of intercultural and transnational work vital to the 21st century workplace.

French is the official language of twenty-nine countries and spoken by more than 300 million people around the globe, the second-most used official language after English. Students in the French program examine French language and culture in a global context. Majors and minors develop advanced linguistic competency while developing the cultural training necessary to work or travel in the Francophone world and explore culture and society in a language that is central to art, business, and international relations.

The Global Studies program offers students a unique blend of courses across disciplines, in preparation for a career abroad or within the U.S. that crosses borders and cultures. Majors choose one of five tracks for the interdisciplinary program, specializing in Global Communications, Global Health, Global Management, Global Security, or Global Sustainability. Each track emphasizes the acquisition of leadership, systems thinking, and communication skills with an emphasis on language skills and experiential learning leading to an in-depth understanding of a particular set of global issues.

Italian is a beautiful language of global communication, business, technology, and the arts. More than 1,000 Italian companies operate in the United States and more than 7,000 American companies operate in Italy; countless artistic masterpieces have also been produced in Italian, so speaking and understanding Italian can be a valuable asset for both your career and for pleasure and enrichment. Majors and minors learn to speak, read, and write Italian while becoming familiar with Italy's cultural history and Italian influence across the globe.

Japan is a global leader in pop culture, technology, and business, and Japanese majors and minors graduate with the cultural and linguistic fluency to thrive in a Japanese environment. Students develop written and spoken Japanese to a high level while learning both Japanese cultural history and contemporary norms and etiquette. Graduates have gone on to utilize their linguistic and cultural fluency through employment in business, international relations, and education: our alumni are based in Southeast Wisconsin, across the United States, and abroad in Japan.

## Programs

- Arabic, Minor (p. 1075)
- Committee Interdisciplinary Major, BA: Japanese Language and Culture (p. 1076)
- Comparative Literature, BA (p. 1080)
- Comparative Literature, Minor (p. 1083)
- French, BA (p. 1084)
- French, Minor (p. 1088)
- Global Studies, BA (p. 1088)
- Global Studies, Minor (p. 1098)
- Italian, BA (p. 1101)
- Italian, Minor (p. 1104)
- Japanese, Minor (p. 1105)

## Arabic, Minor

Arabic is one of the main languages of the Middle East. Its influence is felt in related languages and dialects such as Urdu and Kurdish, it is the language of the Quran, and is the fifth most common language with more than 375 million native speakers. Westerners with Arabic fluency are in high demand as the global influence of the Middle East continues to grow.

The Department of Ancient and Modern Languages, Literatures, and Cultures offers six semesters of instruction in Arabic language leading to a minor.

Arabic courses may be of particular interest to students in the certificate in Middle Eastern and North African studies, the international studies major, the linguistics major, and the global studies degree program.

The U.S. State Department includes Arabic in its scholarship and training program for critically-needed languages.

## Requirements

Retro credits earned at the 200-level or above may count toward the minor. Students who begin their Arabic studies in higher-level courses may need to take additional credits, approved by the Arabic language coordinator, to reach a minimum of 18 credits in Arabic.

A minimum of nine credits must be taken at the 300-level or above in residence at UWM. The College requires that students attain at least a 2.0 GPA on all minor credits attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer

work. Students entering with no previous Arabic language experience should enroll in ARABIC 101. Students entering with previous knowledge of, or high school preparation in, Arabic, or transfer students who have studied Arabic in other colleges, are assigned to courses on the basis of a departmental placement consultation with the Arabic program coordinator. Students placed into a course beyond the 101 level who complete their first course with a grade of at least a B may receive retroactive credits, to a maximum of 16 credits (no more than 4 credits for any single course), for the courses leading to the one into which they placed.

The minor in Arabic consists of a minimum of 18 credits, with the following courses (or equivalents) required:

Code	Title	Credits
<b>Required</b>		
ARABIC 201	Third Semester Arabic	5
ARABIC 202	Fourth Semester Arabic	5
ARABIC 301	Fifth Semester Arabic	3
ARABIC 302	Sixth Semester Arabic	3
Select one of the following: <sup>1</sup>		
ARABIC 390	Islam: Religion and Culture	
ARABIC 489	Internship in Arabic, Upper Division	
ARABIC 497	Study Abroad:	
ARABIC 499	Ad Hoc:	
ARABIC 699	Advanced Independent Study	

**Total Credits** 19

<sup>1</sup> Or an upper-level culture course, at least 3 credits, approved by the Arabic Program Coordinator.

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Committee Interdisciplinary Major, BA: Japanese Language and Culture

As Japan is one of the five largest world economies, professional opportunities exist for individuals who are proficient in the Japanese language and who can understand and integrate into Japanese culture.

A Committee Interdisciplinary Major with a focus on Japanese language and culture can be the first step towards a career path in teaching, translation, interpretation, government relations, social services, the travel or hospitality industry, business, technology, finance or sales. Many students are also interested in careers related to Anime or computer technology, both large industries in Japan. A major in Japanese combined with technology and science training is excellent preparation for entry into those fields.

Many students now can find Japanese instruction in their high schools. At UWM, students can continue their high school studies or begin from the first semester of Japanese language instruction. We offer eight semesters of Japanese language plus the vitally important courses about Japanese culture, business practices, values, politics, history, and religions.

While the study of any Asian language is challenging for native English speakers because of their vast differences from English, students often find it is less difficult than they lead themselves to believe. Successful students of Japanese will dedicate the necessary daily time to practice and repeat...and practice and repeat.

Japan is a very popular destination for study abroad (<http://uwm.edu/cie/study-abroad/>), and Japanese majors are encouraged to take advantage of the opportunities available through UWM. Programs vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most

students engage in study abroad during the second half of sophomore year or during their junior year.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		
<i>Part B</i>		
Course designated as QL-B; may be completed through a major-specific course requirement		
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Select 6 credits		6
<b>Social Sciences</b>		
Select 6 credits		6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) **6**

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**College of Letters & Science Requirements**

**I. English Composition Requirement**

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

- 1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

**III. Foreign Language Requirement**

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		
0-18		
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

#### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

#### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

#### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College

requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

#### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

#### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Major Requirements

The Japanese Language and Culture program requires completion of 30 credits in approved Japanese and related courses. Students in the major must complete the fifth- through eighth-semester Japanese courses as the core of the program. In addition, culture-related courses that are taught using the target language are required. Students must complete 30 credits to graduate, at least 15 of them at the advanced (300 and above) level taken in residence at UWM. The major requires a minimum of 18 credits at the 300 level or above taught in Japanese. The College requires that students attain at least a 2.0 GPA on all major credits attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

Code	Title	Credits
<b>Required</b> <sup>1</sup>		
JAPAN 301	Fifth Semester Japanese	4
JAPAN 302	Sixth Semester Japanese	4
JAPAN 401	Seventh Semester Japanese	4
JAPAN 402	Eighth Semester Japanese	4
Select one of the following:		3
JAPAN 330	Japanese Language and Culture	
JAPAN 331	Reading Japanese Short Stories	
JAPAN 355	Seminar in Japanese Literature and Culture:	
JAPAN 361	Translating Japanese Media	
JAPAN 441	Business Japanese I	
<b>Research</b>		
Select one of the following courses to satisfy the research requirement of the L&S degree:		3
JAPAN 351	Japanese Performance Traditions <sup>2</sup>	
JAPAN 355	Seminar in Japanese Literature and Culture: <sup>2</sup>	
JAPAN 361	Translating Japanese Media <sup>2</sup>	
JAPAN 500	Research and Research Writing in Japanese	
<b>Electives</b>		
Select 8 credits (see below) <sup>3</sup>		8
<b>Study Abroad</b>		
Study Abroad is strongly encouraged <sup>4</sup>		

**Total Credits** **30**

<sup>1</sup> Students whose language skills allow them to begin their study of Japanese beyond the fifth semester course must discuss with the

advisor appropriate substitute courses in order to complete the required 30 credits.

<sup>2</sup> Japanese majors wishing to use this course for the research requirement must notify the instructor that they will complete an independent research project.

<sup>3</sup> At least one course must be taken outside the Japan curricular area.

<sup>4</sup> Up to 12 credits from study abroad programs will be accepted for the major. Any language credits acquired from study abroad must not duplicate language credits acquired from classes taken at UWM.

## Electives

Code	Title	Credits
JAPAN 100	Introduction to Japanese Literature	3
JAPAN 110	Japanese Popular Culture	3
JAPAN 221	Japanese Film: Themes and Methods	3
JAPAN 297	Study Abroad:	1-12
JAPAN 310	Enhanced Knowledge & Skills for the Japanese Language Proficiency Test <sup>1</sup>	3
JAPAN 312	Japanese Conversation II	3
JAPAN 331	Reading Japanese Short Stories (if not selected above)	3
JAPAN 332	Extensive Reading in Japanese	1
JAPAN 345	Japanese News Media	3
JAPAN 351	Japanese Performance Traditions	3
JAPAN 352	Japanese Performance Traditions: Readings	1
JAPAN 355	Seminar in Japanese Literature and Culture:	3

JAPAN 699	Advanced Independent Study	1-3
ANTHRO 325	Japanese Culture and Society	3
ARTHIST 383	Japanese Art and Architecture	3
HIST 284	Buddhism Across Asia	3

<sup>1</sup> No more than 3 credits of JAPAN 310 may count towards the total elective credits.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Honors in the Major

Japanese majors who meet the following requirements may apply to the undergraduate advisor to graduate with "Honors in the Major".

1. Maintain a 3.000 cumulative GPA on all UWM credits attempted;
2. Maintain a 3.500 GPA on all credits that count toward the major, and
3. Maintain a 3.500 GPA on all advanced credits that count toward the major.
4. Complete a research project in consultation with the major advisor. The project also serves to fulfill the L&S Research Requirement for the Japanese Major.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Comparative Literature, BA

In the Comparative Literature major, students examine literature across languages, geographic location, time periods, and genres. The discipline also explores the relationship between literature and other forms of cultural expression such as pop culture, technology, arts, music, or film, as well as the relationship between literature and other academic disciplines, like anthropology, history, religious studies, or women's and gender studies. It's a great major for anyone who loves to explore other cultures.

Students sometimes ask whether they need to be fluent in a foreign language in order to study comparative literature. Definitely not! While all of UWM's instructors and faculty in comparative literature do research in other languages, all Comparative Literature courses are taught entirely in English. Comparative Literature majors choose one of two paths - one path that requires some literature courses be taken in a foreign language program, or another path where all classes are taught in English.

Our alumni can be found working in university and K-12 education, the arts, politics, law, library services, publishing, social services, journalism and communications, editorial roles, marketing, fundraising, corporate sales, consulting, and many other fields. Their knowledge and skills in cross-cultural communication, critical analysis, reading and comprehension of complex text, and writing are highly valued.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		

ENGLISH 102	College Writing and Research (or equivalent)
-------------	--

### *Part B*

Course designated as OWC-B; may be completed through a major-specific course requirement

### **Quantitative Literacy**

#### *Part A*

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

### *Part B*

Course designated as QL-B; may be completed through a major-specific course requirement

### **Arts**

Select 3 credits 3

### **Humanities**

Select 6 credits 6

### **Social Sciences**

Select 6 credits 6

### **Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

### **UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

### **UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or

3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

## II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	

POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

## III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

## IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

## V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		

Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. \*

#### Natural Sciences

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. \*

#### Cultural Diversity

Complete 3 credits in a course with Cultural Diversity (CD) designation. \*\*

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

## VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

## VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Major Requirements

The program welcomes prospective majors who have maintained a minimum 2.0 GPA in their language and literature courses. Prospective majors can declare the major online and then meet with the Comparative Literature coordinator, either in person or online. Students are assigned a Comparative Literature advisor in their primary areas of interest. The advisor helps students design plans of study tailored to their particular interests, academic goals, and professional aspirations.

Comparative literature majors are encouraged to take additional literature courses offered in languages other than English when possible. They also are encouraged to take additional courses outside of the program in the analysis of literature and other arts. In many cases, these courses may be counted toward the comparative literature major.

All Complit courses and approved electives that a student takes will count in calculating the major GPA. The College of Letters and Science requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

The department offers two options for the major. Both major options require that, in their senior year, students complete a research project that focuses on major theoretical and critical trends in comparative literature. Students may fulfill this requirement by completing completing GLOBAL 550 with a research project on a comparative literature topic, or with a substitution approved by the Comparative Literature coordinator.

## Credit Requirements

A total of 36 credits is required for the major, including COMPLIT 207 and COMPLIT 208 and at least 24 credits at the advanced level (numbered 300 and above). At least 15 of the advanced credits must be taken in residence at UWM. Students may count toward the major up to 6 credits in the following selected in consultation with their advisor. Students will take 15 credits in Core and Foundation courses and 21 credits in either Option A or Option B for a total of 36.

Code	Title	Credits
Core and Foundation Courses		
COMPLIT 207	Global Literature from Antiquity to the 1600s:	3
COMPLIT 208	Global Literature from the 17th Century to the Present:	3
GLOBAL 550	Global Studies Integrated Capstone: <sup>1</sup>	3
Select 6 credits of lower level courses from the list below		6
COMPLIT 133	Contemporary Imagination in Literature and the Arts	
COMPLIT 135	Experiencing Literature in the 21st Century:	
COMPLIT 230	Literature and Society:	
COMPLIT 231	Literature and Religion:	
COMPLIT 232	Literature and Politics:	
COMPLIT 233	Literature and Film:	
<b>Total Credits</b>		<b>15</b>

<sup>1</sup> To fulfill the Research Requirement in the College of Letters and Science in Comparative Literature, most students should take GLOBAL 550 and complete a research project on a comparative literature topic. The Research Requirement may also be met with a substitution approved by the Comparative Literature coordinator.

### Option A

This option is recommended particularly for students who intend to pursue graduate work in comparative literature. Option A students must complete the following:

Code	Title	Credits
<b>Required</b>		
Select 9-12 credits in Complit courses numbered 300 and above		9-12
1		
Select 9-12 credits in advanced literature courses (numbered 300 and above) offered in a foreign language		9-12
<b>Total Credits</b>		<b>21</b>

<sup>1</sup> If student takes 9 credits in COMPLIT, then the student must take 12 credits of advanced literature course. If the student takes 9 credits of advanced literature courses, then the student must take 12 credits of COMPLIT courses.

### Option B

This option is offered for students with little if any training in a foreign language. Though such work normally is not considered as suitable preparation for graduate work in comparative literature, Option B offers training that is useful and applicable in many academic and professional fields. Option B students must complete the following:

Code	Title	Credits
<b>Required</b>		
	Select 12 additional credits in CompLit courses numbered 300 and above	12
	Select 9 credits in advanced courses (300 and above) in the analysis of literature or the other arts <sup>2</sup>	9
<b>Total Credits</b>		<b>21</b>

<sup>2</sup> Advanced courses (300 and above) in the analysis of literature or the other arts offered by CompLit or by other related departments and programs, with the approval of the CompLit advisor. This includes literature-in-translation courses offered by foreign language programs as well as courses in Art History, English, Film Studies, Philosophy, Religious Studies, or other disciplines that have as their focus the study of literature and/or the other arts

## Comparative Literature Advising

Students select a departmental advisor from Comparative Literature faculty and staff upon declaring a major or minor in Comparative Literature. Departmental advisors work closely with students to develop an individual course of study that will both match their interests and fulfill program requirements

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and

- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Comparative Literature, Minor

Students examine literature across languages, geographic location, time periods, and genres by pursuing the comparative literature minor. The discipline also explores the relationship between literature and other forms of cultural expression such as pop culture, technology, arts, music, or film, as well as the relationship between literature and other academic disciplines, like anthropology, history, religious studies, or women's and gender studies. It's a great major or minor for anyone who loves to explore other cultures.

Students sometimes ask whether they need to be fluent in a foreign language in order to study comparative literature. Definitely not! While all of UWM's instructors and faculty in comparative literature do research in other languages, all Comparative Literature courses are taught entirely in English.

## Requirements

The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. The minor requires 18 credits, including the following:

Code	Title	Credits
COMPLIT 207	Global Literature from Antiquity to the 1600s:	3
COMPLIT 208	Global Literature from the 17th Century to the Present:	3
Select one of the following:		3
COMPLIT 133	Contemporary Imagination in Literature and the Arts	
COMPLIT 135	Experiencing Literature in the 21st Century:	
COMPLIT 230	Literature and Society:	
COMPLIT 231	Literature and Religion:	
COMPLIT 232	Literature and Politics:	
COMPLIT 233	Literature and Film:	
Select 9 credits at the advanced level (numbered 300 or above), which must be taken in residence at UWM		9
<b>Total Credits</b>		<b>18</b>

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## French, BA

Develop global perspectives sought by companies, educational institutions and NGOs in the U.S., France and other French-speaking countries (Canada, Haiti, Belgium, Congo, etc.), and explore our many study abroad (<http://uwm.edu/cie/study-abroad/>) opportunities. Students who enter UWM with advanced French can earn both a bachelor's and master's in 5 years to become a translator/interpreter.

Fluency in French can provide a career advantage in all types of professions including business, medicine, law, the arts, politics, government work, and more. The country of France is a leader in science and high-tech, architecture, fashion, and cuisine, making French fluency valuable in these industries as well.

At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of French in order to successfully apply their fluency.

Student with no previous experience in French will start in the introductory French language class; those who have studied French in high school should take the placement exam to determine if they can start at a higher level. Students who place in a higher-level course who subsequently complete that course with a "B" or better may receive retroactive credits for the courses that were skipped.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	

MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

**Part B**

Course designated as QL-B; may be completed through a major-specific course requirement

**Arts**

Select 3 credits 3

**Humanities**

Select 6 credits 6

**Social Sciences**

Select 6 credits 6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

**UWM Foreign Language Requirement**

- Complete Foreign Language Requirement through:
  - Two years (high school) of a single foreign language
  - Two semesters (college) of a single foreign language
  - Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**College of Letters & Science Requirements**

**I. English Composition Requirement**

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

**II. Mathematics and Formal Reasoning**

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

**III. Foreign Language Requirement**

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
	Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)	
	Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)	

#### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
	Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above	
	Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.	
	Complete 9 credits in combination of the two options above.	

#### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

#### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

#### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

#### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Major Requirements

The College of Letters and Science requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

The major in French consists of 30 credits, at least 15 numbered above 303 taken in residence at UWM.

Code	Title	Credits
<b>Lower division courses</b>		
Select one of the following:		3
FRENCH 145	Views of France:	
FRENCH 192	First-Year Seminar:	
FRENCH 303	Conversation and Composition: Intermediate Level	
<b>Complete the following three courses: <sup>1</sup></b>		
FRENCH 324	Contemporary French Language and Culture	3
FRENCH 325	Intensive Grammar and Usage	3
FRENCH 332	Reading French Texts	3
<b>French upper-division electives</b>		
Select 18 credits from the following:		18
FRENCH 357	Literature of the French-Speaking World in Translation: <sup>2</sup>	
FRENCH 392	Phonetics	
FRENCH 410	French Immersion: Advanced	
FRENCH 426	Growing Up French <sup>3</sup>	
FRENCH 427	Advanced Written Expression	
FRENCH 428	Castles, Cathedrals, and Common People: The Foundations of French Culture <sup>3</sup>	

FRENCH 429	Royalty, Reason, and Revolution: The Golden Age of French Culture <sup>3</sup>
FRENCH 430	Reaction and Innovation: French Culture of the 19th and 20th Centuries <sup>3</sup>
FRENCH 431	Seminar in Literature of the Francophone World: <sup>3</sup>
FRENCH 432	Seminar in French and Francophone Cultures: <sup>3</sup>
FRENCH 433	Seminar in French Literature: <sup>3</sup>
FRENCH 450	Institutions and Culture of Contemporary France <sup>3</sup>
FRENCH 451	Cinema of the French-Speaking World: <sup>3</sup>
FRENCH 457	Topics in French and Francophone Studies in Translation: <sup>2</sup>
FRENCH 489	Internship in French
FRENCH 510	Seminar on Masterpieces of Literature Written in French: <sup>3</sup>
FRENCH 520	Seminar in Contemporary French Literature: <sup>3</sup>
FRENCH 592	Seminar in French Language: <sup>3</sup>

**Total Credits** **30**

<sup>1</sup> These courses may be taken in any order, including simultaneously.

<sup>2</sup> Only one course 'in translation' can be counted toward the 18 credits needed from this group to fulfill the major.

<sup>3</sup> Any of these designated courses can be used to satisfy the research requirement of the College of Letters and Science. Students enrolling in one of these courses and intending to use it to fulfill the research requirement should inform their instructor at the beginning of the semester.

### Additional requirements

All French majors are required to pass an advanced language proficiency examination, which they are advised to take in the second-to last semester of their BA.

## Advising

The French Faculty Advisor works closely with students to develop an individual course of study that fulfills program requirements, prepares them to meet their professional and educational goals, and incorporates opportunities to use French outside of the classroom when possible, including during international study abroad experiences or internships.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Accelerated Program Option

This program is offered as part of an accelerated graduate program. For more information, see Accelerated Graduate Degrees (p. 37).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## French, Minor

Develop global perspectives sought by companies, educational institutions and NGOs in the US, France and other French-speaking countries (Canada, Haiti, Belgium, Congo, etc.), and explore our many study abroad (<http://uwm.edu/cie/study-abroad/>) opportunities. Students who enter UWM with advanced French can earn both a bachelor's and master's in 5 years to become a translator/interpreter. Fluency in French can provide a career advantage in all types of professions including business, medicine, law, the arts, politics, government work, and more. The country of France is a leader in science and high-tech, architecture, fashion, and cuisine, making French fluency valuable in these industries as well.

At UWM, language students receive an education in not just language fluency but also in the culture surrounding that language. Context matters in communication, and we believe it is important for students to understand the history, literature, and customs of native speakers of French in order to successfully apply their fluency.

Student with no previous experience in French will start in the introductory French language class; those who have studied French in high school should take the placement exam to determine if they can start at a higher level. Students who place in a higher-level course who subsequently complete that course with a "B" or better may receive retroactive credits for the courses that were skipped.

## Requirements

The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. At least 9 credits must be taken at the 300 level or above in residence at UWM.

The minor in French consists of a minimum of 18 credits as follows:

Code	Title	Credits
<b>Required</b>		
FRENCH 204	Fourth-Semester French (or equivalent)	3
FRENCH 303	Conversation and Composition: Intermediate Level (or equivalent)	3
FRENCH 332	Reading French Texts (or equivalent)	3
Select 9 credits in French literature, language, and culture above the 300 level		9
<b>Total Credits</b>		<b>18</b>

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree

from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Global Studies, BA

UWM's Global Studies program uniquely offers students a blend of courses across disciplines and across colleges at UWM in preparation for a career abroad or within the U.S. that works on matters that cross borders and cultures. Our increasingly interconnected world demands future leaders who have global knowledge and skills including the ability to analyze problems from multiple perspectives and incorporate solutions that are inclusive of different viewpoints and cultures. Interpersonal and intercultural communication skills are also developed through our program as well as advanced competency in a language other than English.

These characteristics are valued by employers across industries and professions and are the launching pad for lifelong career growth and adaptability. There is no single job outcome for global studies graduates - you will find our alumni in all types of positions in locations around the globe. We have alumni who own international start-ups, some who work in a business management role at large multinational corporations, and others who have joined the Peace Corps or an NGO in social service types of positions.

To better serve the diverse career interests of our students, Global Studies majors choose from one of five tracks:

Global Communications - with a focus on language, culture and the technology of modern, global communication (by meeting certain requirements, students can receive a joint degree from both the College of Letters & Science and the College of Community Engagement & Professions)

Global Management - focusing on business and the world economy (a joint degree between the College of Letters & Science and the Sheldon B. Lubar College of Business)

Global Security - dealing with aspects of conflict and change such as water resources, war, human rights, borders, and global health

Global Sustainability - students develop expertise in matters of the environment and government systems

Global Health - a track for students interested in global careers in healthcare, international aid, healthcare policy, international health education, health outreach, and international health regulations (by meeting certain requirements, students can receive a joint degree from both the College of Letters & Science and the College of Health Professions & Sciences)

Students often wonder what the differences are between the Global Studies major and the International Studies major. International Studies is a more traditional broad liberal arts program that does not offer the specialties mentioned above. Courses from the College of Business,

the College of Community Engagement & Professions or the College of Health Professions & Sciences cannot count toward the International Studies major like they can for the Global Studies major. Additionally, the Global Studies major requires a higher level of world language fluency (through the sixth semester) and requires an international experience such as study abroad, an international internship, or an internship that takes place domestically but with an international aspect.

## Major Requirements

To earn the Bachelor of Arts in Global Studies, students in all tracks must complete 120 credits, including a minimum of 36 credits in upper-division courses (numbered 300 or above), while fulfilling the requirements below. GPAs of at least 2.000 overall and 2.500 in the selected track are required for graduation. Students also are responsible for completing the University-wide General Education Requirements (p. 30).

Beyond the University-wide General Education requirements, students must also complete an additional 6 credits of Humanities GER courses and an additional 6 credits of Social Science GER courses, some of which are required or elective courses in the major.

Code	Title	Credits
<b>Global Studies Core</b>		
GLOBAL 101	Introduction to Global Studies I: People and Politics (SS)	3
GLOBAL 201	Introduction to Global Studies II: Economics and the Environment (SS)	3
GLOBAL 202	Introduction to Global Studies III: Globalization and Technology (SS)	3
<b>Global Studies Capstone</b> <sup>1</sup>		
GLOBAL 550	Global Studies Integrated Capstone:	3
<b>World Regions</b>		
Select one of the following:		3
GEOG 110	The World: Peoples and Regions (SS)	
HIST 132	World History Since 1500 (HU)	
POL SCI 106	Politics of the World's Nations (SS)	
<b>Foreign Language</b>		
Six semesters (or equivalent) of a single foreign language with passing grades		
<b>International Experience</b>		
Students will be required to complete 2 of the options below:		
Option 1: 3-9 credits of study abroad		
Option 2: 1-6 credits of an international internship		
Option 3: 1-6 credits of a domestic internship with a global organization or clear international focus		
Total International Experience Credits		12
<b>Tracks</b>		
Select one of the following tracks:		
Global Communications		
Global Health		
Global Management		
Global Security		
Global Sustainability		
<b>Total Credits</b>		<b>27</b>

<sup>1</sup> GLOBAL 550 is required for all tracks except Global Management, which has a separate capstone experience.

## Tracks Core Curricula

Additional requirements designated for each track appear in the sections below. Under track core curriculum, students are required to complete only the requirements for their elected track.

### Global Communications Track

To earn the Bachelor of Arts in Global Studies through the Global Communications track, students must complete the following requirements.

Code	Title	Credits
<b>Global Communications Track Core</b>		
ECON 103	Principles of Microeconomics	3
ECON 104	Principles of Macroeconomics	3
GLOBAL 351	Language, Media, and Social Practice in Global Communications	3
GLOBAL 451	Access, Security, and Intercultural Contexts in Global Communications	3
Select two of the following:		6
BUS ADM 230	Introduction to Information Technology Management	
COMMUN 103	Public Speaking	
COMMUN 105	Business and Professional Communication	
ENGLISH 205	Business Writing <sup>1</sup>	
ENGLISH 206	Technical Writing <sup>1</sup>	
ENGLISH 214	Writing in the Professions: (with appropriate subtitle) <sup>1</sup>	
ENGLISH 431	Topics in Advanced Communications: (with appropriate subtitle) <sup>1</sup>	
ENGLISH 435	Rhetoric and Professional Writing <sup>1</sup>	
ENGLISH 436	Technical Documentation <sup>1</sup>	
ENGLISH 449	Internship in the Humanities <sup>1</sup>	
JAMS 201	Media Writing <sup>1</sup>	
INFOST 110	Introduction to Information Science and Technology	
INFOST 250	Introduction to Network and Systems Administration	
<b>Global Communications Track Electives</b>		
Select 27 credits (see below)		27
<b>Total Credits</b>		<b>45</b>

<sup>1</sup> At least one writing course must be selected.

### Global Communications Electives

Students must complete 27 credits from the following lists of courses, with a minimum of 15 credits taken from List A. There is no minimum number of credits that must be selected from Lists B-E. Electives from Lists C-E should be courses about the country or region in which the student will pursue language study and/or study abroad. Any individual course may count only once toward degree requirements. Students in this

track who are awarded their degree by L&S only must complete at least 36 credits in L&S upper-division (numbered 300 or above) courses.

### List A

(A minimum of 15 credits must be completed from the following):

Code	Title	Credits
AMLLC 216	Survey of Civilization: (with appropriate subtitle)	3

## Global Health Track

To earn the Bachelor of Arts in Global Studies through the Global Health track, students must complete the requirements listed below. Students in this track must complete at least 36 credits at the 300-level or higher, of which 24 credits must be in the College of Letters and Science.

Code	Title	Credits
<b>Global Health Track Core</b>		
NURS 301	Introduction to Global Health	3
PH 101	Introduction to Public Health	3
BMS 232	Introduction to Nutrition	3
NURS 401	Global Patterns of Disease	3
NURS 575	Global Health: Ethics and Human Rights	3
GLOBAL/ANTHRO 439	Culture and Global Health	3
Select one of the following:		3
ANTHRO 560	Introduction to Research Methods in Anthropology	
SOCIOL 361	Research Methods in Sociology	
Select three of the following:		9
HCA 502	Healthcare Delivery Systems: National and International Perspectives	
NURS 204	Global Maternal and Child Health: From Evidence to Action	
NURS 620	Global Food Security and Systems	
PH 303	Climate Change, the Environment and Human Health	
PH 319	Introduction to Health Disparities	
<b>Global Health Track Electives</b>		
Select 18 credits (see below)		18
<b>Total Credits</b>		<b>48</b>

## Global Health Electives

Code	Title	Credits
AFRIC 329	Economic Growth and Sustainable Development in Africa	3
AFRIC 351	Sexuality, Gender, and Health in Africa and the Diaspora	3
ANTHRO 156	Food and Culture	3
ANTHRO 355	Globalization, Culture, and Environment	3
ANTHRO 440	Medical Anthropology	3
ANTHRO 442	Humanitarianism in Global Perspective	3
ANTHRO/GLOBAL 443	Medicine and Pharmaceuticals in the Global Age	3
ANTHRO 448	Cultural and Human Ecology	3
CES 210	Introduction to Conservation and Environmental Science	3
ECON 353	Economic Development	3
ETHNIC 375	Global Violence, Disease, and Death	3
GEOG 115	Globalization and Economic Development	3
GEOG 215	Introduction to Geographic Information Science	3
GEOG 304	Human Impact on the Environment	3
GEOG 350	Conservation of Natural Resources	3

GEOG 464	Environmental Problems	3

**Graduation Survey & Post Study Abroad Assessment**

All Global Studies degree and minor students are required to complete an assessment assignment and a graduation survey upon completion of their required coursework. This assessment process allows Global

Studies students to reflect on their experience while providing important information to help improve the program.

The graduation survey is conducted online for a limited period of time during the fall, spring, and summer terms. Students who are about to complete or who have finished all coursework and need to take the survey should contact Christine Wolf (cawolf@uwm.edu).

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Accelerated Program Option

This program is offered as part of an accelerated graduate program. For more information, see Accelerated Graduate Degrees (p. 37).

## Honors in the Global Studies Degree

Honors in the Global Studies Degree is different from all-university honors and signifies that a student has attained a significant level of

achievement in their specific academic program. While the exact number of students who receive Honors in the Global Studies Degree will vary from year to year, on average recipients can be considered to rank among the top 10% of Global Studies graduates. Eligibility requirements for Honors in the Global Studies Degree are:

- GPA of 3.000 or higher for all graded UWM credits attempted;
- GPA of 3.500 or higher for all courses required in the Global Studies degree;
- GPA of 3.750 or higher for all upper-level courses required in the Global Studies degree (minimum of 15 credits);
- GPA of 3.750 or higher for all Global courses (minimum of 18 credits).

Non-UWM/transfer credits are excluded from GPA calculations for Honors in the Global Studies Degree.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Global Studies, Minor

The Global Studies minor at UW-Milwaukee provides an integrated international education experience incorporating Global Studies courses, an overseas experience, foreign language, and other internationally focused coursework. It is a particularly attractive option for students wishing to add a global perspective to their major, no matter what it may be.

At UWM, the Global Studies minor is a rigorous program that incorporates classes across disciplines, a required experience abroad and foreign language study. This challenging and rewarding program prepares students to excel in a job market that demands knowledge across subject areas and a culturally sensitive approach. With this minor, students enhance their analytical, communication, foreign language, and cross-cultural knowledge. This modern skill set prepares tomorrow's young professionals for future careers in a wide variety of industries and for many different roles. Career choices immediately after college are often influenced by the hands-on experiences obtained during the college years. Students are encouraged to explore all of their options through

studying abroad or overseas internships, which may be completed for credit as part of the program. These overseas experiences, coupled with interdisciplinary coursework, often open up new opportunities, making the Global Studies minor a dynamic and practical pairing with most majors at UWM.

## Requirements

A minimum of 9 credits for the minor must be taken at the 300 level or above. These credits can include foreign language or additional study abroad coursework. At least 9 credits must be completed in residence at UWM. Credits earned in a UWM study abroad or exchange program count toward this requirement. No more than 9 credits from another major, minor, or certificate program may be counted toward the Global Studies minor. The College of Letters & Science requires that students achieve at least a 2.0 cumulative GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including transfer work.

The Global Studies Minor consists of at least 18 credits, distributed as follows:

Code	Title	Credits
<b>Global Studies Core</b>		
Select 6 credits from the following:		6
GLOBAL 101	Introduction to Global Studies I: People and Politics (SS)	
GLOBAL 201	Introduction to Global Studies II: Economics and the Environment (SS)	
GLOBAL 202	Introduction to Global Studies III: Globalization and Technology (SS)	
<b>World Language</b>		
Complete the fourth semester or more advanced course in a world language at the university level <sup>1</sup>		3
<b>Study Abroad</b>		
Complete at least three credits of one of the following with approval from a Global Studies advisor:		3
Overseas academic experience		
Internship outside of the U.S.		
<b>Global Content Electives <sup>2</sup></b>		<b>6</b>
<b>Total Credits</b>		<b>18</b>

<sup>1</sup> The language requirement may be filled in one of the following ways:

- The student may take four semesters of one world language at UWM to meet this requirement; or
- The student must successfully complete at least one 3-credit, university-level foreign language course of the fourth semester of a world language or a world language course at a higher level than the fourth semester. The student will thereby demonstrate the equivalent of having taken four years of that world language at the university level.

<sup>2</sup> Select six credits from the list below.

## Approved Global Content Electives

Additional electives may be approved by a Global Studies advisor.

Code	Title	Credits

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

Global Studies minors will be advised by Christine Wolf and minor declaration can be made on the Global Studies website (<https://>

uwm.edu/global-studies/students/undergraduates/global-studies/declare-a-global-studies-minor/).

## Italian, BA

Italy has one of the ten largest economies in the world, and mastering Italian can open up a world of professional and personal opportunities.

Italian has more than 67 million native speakers worldwide. Some 120 million people speak Italian as a second language. In addition to serving as the official language of Italy, Italian is common in 29 countries, such as Switzerland, Germany, Belgium, North Africa, Brazil, Canada, and the United States.

Learning Italian serves as a gateway to a wide variety of career opportunities, in finance, marketing, journalism, translation, and computer programming. Italy is also a leader in the fields of air and water quality control, transportation technology, food and beverage fields, robotics, interior design and fashion.

The courses in the Italian Program are designed to help students become fluent in both the language and culture of Italy. On the very first day of class, students begin speaking Italian, and gain valuable communication skills as they progress through the Intermediate and advanced courses. Students may choose from an array of Italian courses on various topics that enable them to understand key turning points in Italian history, society and politics, cultural trends, and movements in such arts as film and literature. Italian courses contribute to such programs as Global Studies and the certificate program in Food Studies.

Students are also encouraged to participate in UWM's study abroad (<http://uwm.edu/cie/study-abroad/>) program. Destinations are available in more than 70 sites around the world and vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	

### Part B

Course designated as OWC-B; may be completed through a major-specific course requirement

#### Quantitative Literacy

##### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

##### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

#### Arts

Select 3 credits 3

#### Humanities

Select 6 credits 6

#### Social Sciences

Select 6 credits 6

#### Natural Sciences

Select 6 credits (at least two courses including one lab) 6

#### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

- Two years (high school) of a single foreign language
- Two semesters (college) of a single foreign language
- Or equivalent

#### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or

3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

## II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	

POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

## III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

## IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

## V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		

Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. \*

**Natural Sciences**

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. \*

**Cultural Diversity**

Complete 3 credits in a course with Cultural Diversity (CD) designation. \*\*

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

**VI. The Major**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement**

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

**VII. The Minor**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

**Major Requirements**

Students who wish to become Italian majors may do so by registering with the Italian Program Director. To be accepted and to continue as majors, students must maintain at least a 2.0 GPA in all Italian courses attempted at UWM. In addition, the College of Letters and Science requires students to attain a 2.0 GPA in all major credits attempted, including any transfer work.

Students who have never studied Italian should begin by taking Italian 103. Students who already have some knowledge of Italian should take the placement exam administered by the Italian Program to determine the language course suited to their skill level. Students placed in more advanced courses can receive up to 14 retroactive credits of Italian if they pass the course in which they are placed with a grade of B or better<sup>1</sup>.

**Course and Credit Requirements**

The major in Italian consists of 38 credits. All courses offered by the Italian Program count toward the major. Students are encouraged to take courses in other literatures and Comparative Literature. Up to 6 credits in courses offered in other departments can count toward the Italian major, with the approval of the program director.

At least 15 of the 38 total credits in Italian courses must be earned at the 300-level or above and taken in residence at UWM.

The credits are distributed as follows:

Code	Title	Credits
Select 14 credits of first- and second-year Italian language		14
Select both of the following courses		6
ITALIAN 258	Contemporary Italian Society and Culture	
ITALIAN 457	Topics in Italian Literature and Culture in Translation: <sup>2</sup>	
Select two of the following (these courses are not sequential)		6
ITALIAN 311	Advanced Conversation and Composition: Contemporary Italian Usage	
ITALIAN 312	Contemporary Italian Language and Culture	
ITALIAN 321	Introduction to Italian Literature	
ITALIAN 322	Introduction to Italian Literature and Film	
Select at least 6 additional credits in upper-level Italian electives		6
Select 6 additional credits in Italian, the courses below, or other approved electives.		6
ARTHIST 333	High Renaissance Art in Italy	
CLASSIC 202	Introduction to Roman Life and Literature	
CLASSIC 303	The Life and Literature of the Roman Empire	
CLASSIC 304	The Graeco-Roman World: (with appropriate subtitle/topic)	
<b>Total Credits</b>		<b>38</b>

<sup>1</sup> For students who do not earn retro credits, additional electives will be required to reach the total of 38 credits.

<sup>2</sup> ITALIAN 457, with a passing grade, satisfies the research requirement of the College of Letters and Science. Students will conduct independent research related to the general theme of the course, presenting their research in a final 10- to 12-page paper.

**Letters & Science Advising**

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Italian, Minor

Italy has one of the ten largest economies in the world, and mastering Italian can open up a world of professional and personal opportunities.

Italian has more than 67 million native speakers worldwide. Some 120 million people speak Italian as a second language. In addition to serving as the official language of Italy, Italian is common in 29 countries, such as Switzerland, Germany, Belgium, North Africa, Brazil, Canada, and the United States.

Learning Italian serves as a gateway to a wide variety of career opportunities, in finance, marketing, journalism, translation, and computer programming. Italy is also a leader in the fields of air and water quality control, transportation technology, food and beverage fields, robotics, interior design and fashion.

The courses in the Italian Program are designed to help students become fluent in both the language and culture of Italy. On the very first day of class, students begin speaking Italian, and gain valuable communication skills as they progress through the Intermediate and advanced courses. Students may choose from an array of Italian courses on various topics that enable them to understand key turning points in Italian history, society and politics, cultural trends, and movements in such arts as film and literature. Italian courses contribute to such programs as Global Studies and the certificate program in Food Studies.

Students are also encouraged to participate in UWM's study abroad (<http://uwm.edu/cie/study-abroad/>) program. Destinations are available in more than 70 sites around the world and vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

## Requirements

At least 9 credits must be taken at the 300 level or above in residence at UWM. The College of Letters and Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

The Italian minor requires 18 credits distributed as follows:

Code	Title	Credits
ITALIAN 311	Advanced Conversation and Composition: Contemporary Italian Usage	3
ITALIAN 312	Contemporary Italian Language and Culture	3
Select 12 additional credits within the Italian curricular area, including courses in language (beyond the first year), literature, film, culture, and civilization		12
<b>Total Credits</b>		<b>18</b>

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Japanese, Minor

As Japan is one of the five largest world economies, professional opportunities exist for individuals who are proficient in the Japanese language and who can understand and integrate into Japanese culture.

A minor in Japanese can part of the first step towards a career path in teaching, translation, interpretation, government relations, social services, the travel or hospitality industry, business, technology, finance or sales. Many students are also interested in careers related to Anime or computer technology, both large industries in Japan. A Committee Interdisciplinary Major with a focus in Japanese Language and Culture, combined with technology and science training, is excellent preparation for entry into those fields.

Many students now can find Japanese instruction in their high schools. At UWM, students can continue their high school studies or begin from the first semester of Japanese language instruction. We offer eight semesters of Japanese language plus the vitally important courses about Japanese culture, business practices, values, politics, history, and religions.

While the study of any Asian language is challenging for native English speakers because of their vast differences from English, students often find it is less difficult than they lead themselves to believe. Successful students of Japanese will dedicate the necessary daily time to practice and repeat...and practice and repeat.

Japan is a very popular destination for study abroad (<http://uwm.edu/cie/study-abroad/>), and Japanese majors are encouraged to take advantage of the opportunities available through UWM. Programs vary in length from a few week immersion, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during the second half of sophomore year or during their junior year.

## Requirements

The minor in Japanese consists of at least 18 credits. The College requires that students complete at least 9 credits of their minor in upper-division (numbered 300 or above) courses in residence at UWM to earn

a minor at UWM. The College also requires that students attain at least a 2.0 GPA on all minor credits attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

Students entering with no previous Japanese language experience should enroll in JAPAN 101. Students entering with previous knowledge of, or high school preparation in, Japanese, or transfer students who have studied Japanese in other colleges, are assigned to courses on the basis of a departmental placement consultation with the Japanese program coordinator. Students placed into a course beyond the 101 level who complete their first course with a grade of at least a B may receive retroactive credits earned at the 200 level or above to a maximum of 16 credits, for the courses leading to the one into which they are placed.

Those who are able to begin their study of Japanese by placing into JAPAN 202 or above will take sufficient elective credits, approved by the Japanese language coordinator, to complete at least 18 credits in the minor with 9 credits at the 300 level or above.

The following (or equivalent or exemption) are required:

Code	Title	Credits
<b>Required</b>		
JAPAN 201	Third-Semester Japanese	5
JAPAN 202	Fourth-Semester Japanese	5
JAPAN 301	Fifth Semester Japanese	4
JAPAN 302	Sixth Semester Japanese	4
Select 3 credits from the courses listed below:		3
JAPAN 100	Introduction to Japanese Literature <sup>1</sup>	
JAPAN 110	Japanese Popular Culture <sup>1</sup>	
JAPAN 221	Japanese Film: Themes and Methods <sup>1</sup>	
JAPAN 310	Enhanced Knowledge & Skills for the Japanese Language Proficiency Test	
JAPAN 332	Extensive Reading in Japanese	
JAPAN 345	Japanese News Media	
JAPAN 351	Japanese Performance Traditions	
JAPAN 352	Japanese Performance Traditions: Readings	
JAPAN 355	Seminar in Japanese Literature and Culture:	
JAPAN 361	Translating Japanese Media	
JAPAN 370	Fun Kanji	
ANTHRO 325	Japanese Culture and Society	
ARTHIST 383	Japanese Art and Architecture	
HIST 284	Buddhism Across Asia <sup>1</sup>	
<b>Total Credits</b>		<b>21</b>

<sup>1</sup> These 100- and 200-level courses may only be counted toward the minor if the student places into JAPAN 202 or beyond.

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## History

The study of history involves all aspects of human experience throughout time. The Department of History offers a variety of courses, defined geographically, chronologically, and thematically, through which students acquire both broad and specialized knowledge of the past.

History courses are intended to transmit knowledge about various areas and periods, to address general historical problems, and to make students more capable of reading and analyzing both primary sources and secondary literature. Students learn how to collect information independently, to present material, and to construct arguments in a literate and cogent manner. Courses also are intended to make students more understanding of the complexity of human existence and the reality of human diversity, as well as more prepared to make informed and responsible decisions about issues in the world in which they live. These provide excellent training for professional careers in education, government, business, law, and social work, as well as advanced work in academics.

## Programs

- History, BA (p. 1107)
- History, MA (p. 1113)
- History, MA/Library and Information Science, MLIS (p. 1115)
- History, MA: Public History (p. 1117)
- History, Minor (p. 1121)
- History, PhD (p. 1124)

## History, BA

Students of history do not just memorize the past. They ask questions about the past in order to solve problems of the present.

History is an original liberal arts field and is designed to prepare students for any type of profession that emphasizes critical analysis, reading of dense texts, creative problem-solving, and oral and written communication. History majors collect and analyze evidence to construct arguments, propose new interpretations, formulate conclusions, test hypotheses, and communicate new ideas.

There is no typical job for a history major. Our graduates can be found in all types of companies and in all types of roles, as well as graduate programs in history and other related humanities and social science fields. A student's career choices after college is often guided by how they applied their coursework to real world applications during college. Internships, part-time jobs, and volunteer experiences will help a student network during college and shape their career choices after graduation. The possibilities are numerous, and all students are encouraged to gain practical experience that complements the major.

At UWM, undergraduates can work on research projects such as the Encyclopedia of Milwaukee. The opportunity to participate in research as an undergraduate is a distinct advantage for UWM students. At most large, research universities, research opportunities for undergraduates are limited; there are fewer of them and they often are reserved for juniors or seniors. At UWM, you can get involved as early as freshman year. Students work directly with faculty and graduate students on their current research projects, and sometimes find themselves published in a peer-reviewed journal right alongside the faculty member. Participating in undergraduate research is an excellent way to enhance your resume for graduate school or employment.

Students intending to major in history are encouraged to enroll in several 100- and 200-level courses. Students may combine a major in history with many of the certificate programs or with another departmental major.

History is also available at UWM as an online major - all of the classes for the major can be completed online if desired, or students can mix-and-match assorted online and traditional-format classes.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		
Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)		
MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	

MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		
<i>Part B</i>		
Course designated as QL-B; may be completed through a major-specific course requirement		
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Select 6 credits		6
<b>Social Sciences</b>		
Select 6 credits		6
<b>Natural Sciences</b>		
Select 6 credits (at least two courses including one lab)		6
<b>UWM Foreign Language Requirement</b>		
Complete Foreign Language Requirement through:		
Two years (high school) of a single foreign language		
Two semesters (college) of a single foreign language		
Or equivalent		
<b>UWM Cultural Diversity Requirement</b>		
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement		

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		
	Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)	0-18
	Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)	

#### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		
	Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above	9
	Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.	
	Complete 9 credits in combination of the two options above.	

#### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
	Select 3 credits	3
<b>Humanities</b>		
	Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *	12
<b>Social Sciences</b>		
	Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *	12
<b>Natural Sciences</b>		
	Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *	12
<b>Cultural Diversity</b>		
	Complete 3 credits in a course with Cultural Diversity (CD) designation. **	3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

#### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

#### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

#### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## History Major Requirements

History majors must maintain a 2.0 GPA in all history credits attempted at UWM and a 2.0 GPA in all history credits attempted at all institutions attended, collectively. No more than 6 of the 36 credits applied to the major may be earned in independent study courses (HIST 199 or HIST 699). Note that in all courses taken in the major on a credit/no credit basis (whether applied to the major or not), regular letter grades are recorded on your transcript and are used in the calculation of your GPA. History majors must enroll in and complete least 18 credits in courses numbered 300 or above, of which 15 must be taken in residence at UWM.

*Note: Specific courses may count toward the fulfillment of more than one requirement. For example, HIST 101 counts toward the fulfillment of both requirement #1 and requirement #4.*

History majors are required to take 36 credits of coursework distributed as follows:

Code	Title	Credits
	1. Select at least 6 credits in European history <sup>1</sup>	6
	2. Select at least 6 credits in U.S. history <sup>1</sup>	6
	3. Select at least 9 credits in non-Western or global history <sup>1</sup>	9
	4. Select at least 3 credits in a course dealing with the period before 1500 <sup>1</sup>	3
	5. Electives	6
	6. Select at least one course in historical methods from the following:	3
HIST 294	Seminar on Historical Method: Research Techniques	
HIST 593	Seminar on Historical Method: Theory and Approach	
	7. Complete HIST 600	

HIST 600	Seminar in History. <sup>2</sup>	3
<b>Total Credits</b>		<b>36</b>

<sup>1</sup> Course lists delineating approved European, U.S., non-Western or global, and pre-1500 history courses offered at UWM are below.

<sup>2</sup> HIST 600 (meets the L&S requirement for a research experience in the major); prerequisite is HIST 294 or HIST 593). Students who complete the senior thesis (see below) may substitute the thesis courses for HIST 600.

**Students should pay particular attention to requirement #6. Students will not be permitted to enroll in HIST 600 until after they have taken and passed one of the courses in historical methods listed under #6. This sequence may not be reversed and students cannot take both courses in the same semester. Prospective majors should fulfill the methods requirement at an early stage of their progress in the curriculum, in no case later than the next-to-last semester before they plan to graduate.**

## Senior Thesis Option

Students choosing this two-semester sequence (HIST 681/HIST 682) write a substantial research paper on a topic of their choice in consultation with a faculty thesis advisor. The prerequisite for HIST 681 is at least one of the following courses: HIST 294 or HIST 593. Students also must receive approval from the faculty thesis advisor and department chair prior to enrolling. With the consent of the faculty thesis advisor and the department chair, history majors with a GPA of 3.333 (B+) or higher in all history credits attempted, including transfer work, may take the thesis sequence in lieu of Hist 600 to satisfy (in part) major requirements and the L&S research requirement. Access and print out the senior thesis proposal form (<http://uwm.edu/history/wp-content/uploads/sites/212/2016/01/senior-thesis-form.pdf>) (PDF).

## Independent Study

Independent study is not a substitute for courses regularly available in the curriculum. Students who wish to enroll in independent study (HIST 199 for freshmen and sophomores; HIST 699 for juniors and seniors) must have a minimum GPA of 2.500 in credits attempted at UWM. It is recommended that students work only with faculty members from whom they previously have taken regular classes. Students may not enroll in HIST 199 or HIST 699 for work already completed. When enrolling in HIST 199 or HIST 699, students shall select the section number of the faculty member who will supervise their work.

After consultation with the supervising faculty member, students must print out and complete an independent study form (<http://uwm.edu/history/wp-content/uploads/sites/212/2015/09/independentstudy.pdf>) (PDF). This form contains the description of the independent study proposal, and it should be completed during the first two weeks of the semester. The supervising faculty member must approve the proposal and return the signed form to the department office for endorsement by the department chair as well as by the Dean. A student should not take more than three credits of independent study in one semester from the same faculty member. **History majors may take no more than 6 of the required 36 credits in History in independent study, and a maximum of 3 credits of independent study may count toward the minor.**

## Ancient and Medieval History (Pre-1500) Requirements

The following courses satisfy the pre-1500 requirement of the History major:

Code	Title	Credits
HIST 101	Western Civilization: Ancient World to 1500	3
HIST 131	World History to 1500	3
HIST 175	East Asian Civilization to 1600	3
HIST 201	The Ancient World: The Near East and Greece	3
HIST 202	The Ancient World: The Roman Republic and Empire	3
HIST 203	The History of Medieval Europe: The Early Middle Ages	3
HIST 204	The History of Medieval Europe: The High Middle Ages	3
HIST 235	English History to 1688	3
HIST 274	Ancient Egyptian Civilization	3
HIST 280	Islamic Civilization: The Formative Period, ca. 500-1258	3
HIST 303	A History of Greek Civilization: The Greek City-State	3
HIST 304	A History of Greek Civilization: The Age of Alexander the Great	3
HIST 307	A History of Rome: The Republic	3
HIST 308	A History of Rome: The Empire	3
HIST 318	Medieval Civilization: The High Middle Ages	3
HIST 319	The Era of the Crusades	3
HIST 320	History of Medieval Warfare	3
HIST 376	Premodern China	3
HIST 394	History of Japan to 1600	3

The following variable topic courses satisfy the pre-1500 requirement of the History major if the specific topic deals preponderantly with the era prior to 1500:

Code	Title	Credits
HIST 192	First-Year Seminar:	3
HIST 193	First-Year Seminar:	3
HIST 199	Independent Study	1-3
HIST 200	Historical Roots of Contemporary Issues:	3
HIST 270	Topics in American History:	3
HIST 290	Topics in Global History:	3
HIST 296	UROPP Apprenticeship	1-3
HIST 297	Study Abroad:	1-12
HIST 299	Ad Hoc:	1-6
HIST 370	Topics in the History of Religious Thought:	3
HIST 371	Topics in European History:	3
HIST 372	Topics in Global History:	3
HIST 373	Topics in Gender and History:	3

HIST 398	Honors Seminar:	3
HIST 399	Honors Seminar:	3
HIST 400	Topics in Latin American and Caribbean History:	3
HIST 401	Topics in Middle Eastern History:	3
HIST 402	Topics in Asian History:	3
HIST 497	Study Abroad:	1-12
HIST 499	Ad Hoc:	1-6
HIST 594	Methods and Theory in the Historical Study of Religion:	3
HIST 600	Seminar in History:	3
HIST 681	Senior Thesis I	3
HIST 682	Senior Thesis II	3
HIST 699	Independent Reading:	1-6

Because individual student topics in Hist 600 can vary, that course, with the instructor's approval, may count toward the pre-1500 requirement for certain students, as determined by the predominant focus of their individual work in the course.

## Categorization of Courses by Geographic Area

The following lists indicate the geographic areas towards which courses count in the fulfillment of the major and minor requirements. (Note that some courses do not satisfy any of the geographic area distribution requirements and that for variable-topic courses, the geographic area is determined by the specific topic).

### European History

Code	Title	Credits
HIST 101	Western Civilization: Ancient World to 1500	3
HIST 102	Western Civilization: 1500 to the Present	3
HIST 201	The Ancient World: The Near East and Greece	3
HIST 202	The Ancient World: The Roman Republic and Empire	3
HIST 203	The History of Medieval Europe: The Early Middle Ages	3
HIST 204	The History of Medieval Europe: The High Middle Ages	3
HIST 206	Europe and the Modern World: 1815 to the Present	3
HIST 235	English History to 1688	3
HIST 236	Britain Since 1688: Rise and Decline of a Great Power	3
HIST 239	Poland and its Neighbors, 1795-1914	3
HIST 241	Women and Gender in Europe: 1350 to 1750	3
HIST 242	Women and Gender in Europe: 1750 to the Present	3
HIST 248	The First World War	3
HIST 249	The Second World War in Europe	3
HIST 303	A History of Greek Civilization: The Greek City-State	3

HIST 304	A History of Greek Civilization: The Age of Alexander the Great	3
HIST 307	A History of Rome: The Republic	3
HIST 308	A History of Rome: The Empire	3
HIST 318	Medieval Civilization: The High Middle Ages	3
HIST 319	The Era of the Crusades	3
HIST 320	History of Medieval Warfare	3
HIST 329	The Roman Catholic Church, 1500 to the Present	3
HIST 330	The Papacy in History	3
HIST 341	Imperial Russia	3
HIST 343	Russia Since 1917	3
HIST 346	Poland and Its Neighbors, 1914-1945	3
HIST 348	Poland and Its Neighbors, 1945 to the Present	3
HIST 355	Modern and Contemporary France	3
HIST 358	The Jews of Modern Europe: History and Culture	3
HIST 363	Germany: Hitler and the Nazi Dictatorship	3
HIST 364	The Holocaust: Anti-Semitism & the Fate of Jewish People in Europe, 1933-45	3
HIST 371	Topics in European History:	3
HIST 375	Contemporary European History, 1945 to the Present	3

### U.S. History

Code	Title	Credits
HIST 150	Multicultural America	3
HIST 151	American History: 1607 to 1877	3
HIST 152	American History: 1877 to the Present	3
HIST 215	History of Capitalism	3
HIST 229	History of Race, Science, and Medicine in the United States	3
HIST 243	History of Women in American Society	3
HIST 262	North American Indian History to 1887	3
HIST 263	North American Indian History Since 1887	3
HIST 267	The History of Latinos in the United States	3
HIST 268	History of the American West	3
HIST 269	Asian Americans in Historical Perspective	3
HIST 270	Topics in American History:	3
HIST 271	The 1960s in the United States: A Cultural History	3
HIST 404	Topics in American History:	3
HIST 405	The Age of the American Revolution, 1750-1789	3
HIST 409	Causes of the Civil War, 1828-1861	3
HIST 410	Civil War and Reconstruction: The United States, 1861-1877	3

HIST 418	America in Prosperity, Depression and War, 1921-1945	3	HIST 376	Premodern China	3
HIST 419	America Since 1945	3	HIST 377	Modern China	3
HIST 432	North American Environmental History	3	HIST 378	Revolution in China	3
HIST 434	The United States as a World Power in the 20th Century	3	HIST 379	Introduction to Jewish History	3
HIST 435	Ethnic America: To 1880	3	HIST 380	Buddhism: A Cultural History	3
HIST 436	Immigrant America Since 1880	3	HIST 386	Africans in World History: Communities, Cultures, and Ideas	3
HIST 440	History of the American Working Classes	3	HIST 387	Colonization in Africa: A History of Resistance and Adaptation	3
HIST 442	Beer and Brewing in America	3	HIST 392	The History of Southern Africa	3
HIST 445	African Americans from Slavery to Freedom	3	HIST 393	History of Mexico	3
HIST 446	African Americans Since the Civil War	3	HIST 394	History of Japan to 1600	3
HIST 448	Baseball in American History	3	HIST 395	History of Japan Since 1600	3
HIST 449	Popular Culture in America, 1800 to the Present	3	HIST 400	Topics in Latin American and Caribbean History:	3
HIST 450	The History of Milwaukee	3	HIST 401	Topics in Middle Eastern History:	3
HIST 451	History of Wisconsin	3	HIST 402	Topics in Asian History:	3
HIST 452	History of Religion in American Life to 1870	3	HIST 596	Maps as Historical Sources	3
HIST 453	History of Religion in American Life Since 1870	3	HIST 396	Decolonization, Revolution, and Independence in African History	3
HIST 460	The History of Poverty in America	3	PORTUGS 360	Luso-Brazilian Culture: (Topic: "History of Brazil") <sup>1</sup>	3
HIST 463	History of the American City	3	WGS 501	Advanced Humanities Seminar in Women's and Gender Studies: (Topic: "Women, Gender, & Global Revolutions") <sup>1</sup>	3
HIST 468	The American Feminist Movement	3			
HIST 473	History of Wisconsin Indians	3			
HIST 474	Topics in North American Indian History:	3			
HIST 475	American Indian History, Law, and Government	3			
HIST 597	Fields and Methods in Public History	3			

## Non-Western or Global History

Code	Title	Credits
HIST 131	World History to 1500	3
HIST 132	World History Since 1500	3
HIST 141	Global History of the Family, Gender, and Sexuality	3
HIST 175	East Asian Civilization to 1600	3
HIST 176	East Asian Civilization Since 1600	3
HIST 180	Latin American Society and Culture	3
HIST 210	The Twentieth Century: A Global History	3
HIST 274	Ancient Egyptian Civilization	3
HIST 280	Islamic Civilization: The Formative Period, ca. 500-1258	3
HIST 282	The Modern Middle East in the Nineteenth and Twentieth Centuries	3
HIST 284	Buddhism Across Asia	3
HIST 286	The Korean War	3
HIST 287	The Vietnam War	3
HIST 290	Topics in Global History:	3
HIST 295	Historical Encounters:	3
HIST 372	Topics in Global History:	3

<sup>1</sup> These courses in other subjects may be used to fulfill requirements of the undergraduate major or minor in history.

## Geographic Area Determined by Specific Topic

Code	Title	Credits
HIST 192	First-Year Seminar:	3
HIST 193	First-Year Seminar:	3
HIST 199	Independent Study	1-3
HIST 200	Historical Roots of Contemporary Issues:	3
HIST 296	UROP Apprenticeship	1-3
HIST 297	Study Abroad:	1-12
HIST 299	Ad Hoc:	1-6
HIST 370	Topics in the History of Religious Thought:	3
HIST 373	Topics in Gender and History:	3
HIST 398	Honors Seminar:	3
HIST 399	Honors Seminar:	3
HIST 497	Study Abroad:	1-12
HIST 499	Ad Hoc:	1-6
HIST 594	Methods and Theory in the Historical Study of Religion:	3
HIST 600	Seminar in History:	3
HIST 681	Senior Thesis I	3
HIST 682	Senior Thesis II	3
HIST 699	Independent Reading:	1-6

The geographic area of concentration in sections of HIST 600, where the area is not obvious in the title, by default is designated in accordance with the primary teaching and research interests of the instructor. In such cases, and with the instructor's approval, HIST 600 can count toward different areas for different students, as determined by the predominant focus of their individual work in the course. Note that a variable topic course cannot be considered "Non-Western or Global" unless at least a substantial part of the course's focus includes the study of African, Asian, Middle Eastern, or Latin American history.

## No Geographic Area

Code	Title	Credits
HIST 289	Internship in History, Lower Division	1-6
HIST 294	Seminar on Historical Method: Research Techniques	3
HIST 296	UROP Apprenticeship	1-3
HIST 489	Internship in History, Upper Division	1-6
HIST 593	Seminar on Historical Method: Theory and Approach	3
HIST 595	The Quantitative Analysis of Historical Data	3

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## History Academic Advising

For academic advice, as well as for information on how to declare a major or minor in history, visit the undergraduate program web page of the Department of History at [uwm.edu/history/undergraduate/](http://uwm.edu/history/undergraduate/) (<http://uwm.edu/history/undergraduate/>).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## History, MA

The Department of History offers master's programs that prepare students for careers in teaching, in historical research, and in archives, historical agencies, museums, libraries and government.

The History Department offers four options at the master's level:

1. A general master's degree in History;
2. A general master's degree in History with a specialization in Urban Historical Studies for students who intend to pursue a PhD in Urban Studies or in Urban History;
3. A master's degree in Public History for those interested in museum work, archival administration and historic preservation (see the catalog entry for History MA: Public History (<https://catalog.uwm.edu/letters-science/history/history-public-ma/>));
4. A coordinated Master of Arts/Master of Library and Information Science degree program (see the catalog entry for History, MA/Library

and Information Science, MLIS (<https://catalog.uwm.edu/letters-science/history/history-ma-library-information-science-mlis/>).

The Department also participates in the interdisciplinary master's and doctoral programs in Urban Studies. For more information, see Urban Studies (p. 1312).

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

To be considered for admission, an applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements:

1. An undergraduate minor or 18 credits in history or equivalent preparation.
2. Two letters of recommendation from persons familiar with the applicant's scholastic achievement and potential.
3. A sample of the applicant's written work that demonstrates their ability to conduct historical research and/or the ability to analyze critically the work of others.

Please visit the History department's website for information on the History Department Application (<http://www4.uwm.edu/letscli/history/graduate/gradapply.cfm>).

Applicants may be admitted with course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted toward the degree.

### Advising

The Director of Graduate Studies provides initial advising for students in selecting courses and assists in selecting a Major Professor for long-term advising; the Director may assign a provisional graduate advisor before students select a Major Professor. Students are required to consult periodically with, and have their schedules approved by, the Director of Graduate Studies, the provisional advisor, or the Major Professor. The Major Professor normally serves as the chair of the student's academic review and supervises either the writing of the student's thesis or the student's reading for the comprehensive exam.

## Credits and Courses

### General History: Thesis Option

Minimum degree requirement is 30 graduate credits, at least 24 of which must be taken in History. Required credit distribution:

Code	Title	Credits
HIST 712 or HIST 713	Historiography and Theory of History Historical Research Methods	3
Select 6 credits in two colloquia <sup>1</sup>		6
Select 6 credits in two seminars		6

HIST 985	Master's Capstone (Thesis option students must take 6 credits)	6
Select 9 credits in electives in consultation with the student's advisor		9
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> Students may take 3 credits of either HIST 716 or HIST 717 as a substitute for 3 credits in one colloquium.

### Academic Review and Thesis Prospectus

Within the first semester after completing 9 credits (including two of the following courses: HIST 712, HIST 713, a colloquium and/or seminar), Thesis Option students are subject to an academic review. The Review is a one- to two-hour meeting involving the student, the student's Major Professor and two other members of the History Graduate Faculty who will serve as secondary readers of the student's thesis. With the assistance of their Major Professor, the student must prepare a thesis prospectus in advance of the Review. The Review involves an evaluation of the student's academic progress in master's coursework, two unrevised course papers, and the thesis prospectus.

### General History: Master's Essay Option

Minimum degree requirement is 30 graduate credits, 24 of which must be taken in History. Required credit distribution:

Code	Title	Credits
HIST 712 or HIST 713	Historiography and Theory of History Historical Research Methods	3
Select 6 credits in two colloquia (800 numbers) <sup>1</sup>		6
Select 6 credits in two seminars (900 numbers)		6
HIST 985	Master's Capstone (Master's Essay Option students must take 3 credits)	3
Select 12 credits in electives in consultation with the student's advisor		12
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> Students may take 3 credits of either HIST 716 or HIST 717 as a substitute for 3 credits in one colloquium.

### Master's Essay Requirements

Within the first semester after completing 9 credits (including two of the following courses: HIST 712, HIST 713, a colloquium and/or seminar), Master's Essay students are subject to an academic review. The Review is a one- to two-hour meeting involving the student, the student's Major Professor and two other members of the History Graduate Faculty who will serve as examiners for the student's comprehensive exam. The Review involves an evaluation of the student's academic progress in master's coursework, two unrevised course papers, and a proposal for a Master's Essay.

A Master's Essay, in the form of an article of 7000+ words appropriate for submission to a popular or an academic history journal. The intended journal and its submission requirements should be included in the project proposal. The Master's Essay will be supervised by the student's graduate advisor. In addition, students taking the Master's Essay Option are required to create an additional scholarly resource that builds upon their article. Possible additional resources could include a lesson plan for use in the classroom with an annotated bibliography, materials for a conference poster presentation, a digital primary source collection,

or other option of the student's choosing. Students are encouraged to create an additional resource that contributes to their career goals. The Master's Essay option requires enrollment in 3 MA capstone credits. Students are responsible for submitting a proposal to their graduate advisor and securing the advisor's approval of their plans before enrolling in their MA capstone credits and beginning work. The History Graduate Program will also consider other MA capstone projects not listed above. Students interested in an alternative MA project are responsible for consulting with and securing approval from their advisor and the DGS before proceeding with an alternative project. Students who successfully propose an alternative MA project must take 3 but no more than 6 MA capstone credits.

### Urban Historical Studies Specialization

This specialization combines historical approaches with those of the social sciences in studying urban processes, organizations, and society. It is designed to meet the needs of students who intend to enter the interdisciplinary Urban Studies Ph.D. program or a similar program after completion of the Master of Arts degree. The Thesis Option is recommended for this specialization.

The minimum degree requirement is 33 graduate credits distributed in the following manner:

Code	Title	Credits
HIST 712 or HIST 713	Historiography and Theory of History Historical Research Methods	3
HIST 595	The Quantitative Analysis of Historical Data	3
Select 6 credits in History colloquia (800 numbered courses)		6
HIST 971	Seminar on the History of American Urban Problems	3
Select 3 additional credits in History seminars (900 numbered course)		3
HIST 985	Master's Capstone	6
Select three of the following:		9
URB STD 901	Urban Social Structure	
URB STD 913	Seminar in Urban Political Process	
URB STD 945	The Internal Structure of the City	
URB STD 921	Seminar: Research Methods in Urban Studies	
<b>Total Credits</b>		<b>33</b>

### Approved Cross-Listed Courses

WGS 501G, with the topic "Women, Gender, & Global Revolutions," counts as a History course.

### Additional Requirements

The History General MA, History MA/MLIS Coordinated Degree, and the Urban Historical Studies MA require the completion of a capstone to the degree program. This can take the form of either a traditional MA Thesis or a Master's Essay. For the History MA: Public History, students in all tracks *may* apply to complete a Master's Thesis if they so choose, but that option is intended primarily for those in the Cross-Disciplinary Studies Track with Thesis Option. Other Public History students pursuing the History MA: Public History will complete their degree capstone through their HIST 701 credits for the Graduate Internship in Public History.

### All MA capstones must:

- be initiated by a student's project proposal, approved by the student's faculty committee (for the MA Thesis option) or graduate advisor (for the Master's Essay option)
- engage with the relevant historiographical or theoretical literature
- justify the methodological choices reflected in the project
- integrate original research adequate to supporting the key arguments or project goals
- make an original contribution to one or more fields of historical scholarship
- clearly articulate its significance

### General History: Thesis Option

#### Thesis

The student must write an acceptable thesis.

#### Thesis Defense

The student must pass an oral examination in defense of the thesis.

#### Time Limit

The student must complete all degree requirements within five years of initial enrollment.

### General History: Master's Essay Option

#### Master's Essay

The student must complete a Master's Essay and create an additional scholarly resource that builds upon their article.

#### Time Limit

The student must complete all degree requirements within five years of initial enrollment

### Urban Historical Studies Specialization

#### Thesis

A thesis is required in this specialization.

#### Thesis Defense

The student must pass an oral defense of the thesis.

#### Time Limit

The student must complete all degree requirements within five years of initial enrollment.

## History, MA/Library and Information Science, MLIS

In collaboration with several other academic units at UW-Milwaukee, SOIS offers students the opportunity to obtain two Master's degrees concurrently—one in Library and Information Science (MLIS) and one in a subject area.

### Degree Requirements

- The number of degree credits needed for each of the coordinated programs is usually 12 fewer than the sum of the two programs if they were not taken simultaneously. *All degree requirements of each component must be satisfied.*
- The MLIS portion of the coordinated degrees can be completed online.

- Prerequisite to the award of either degree in this program is the simultaneous award of its counterpart degree.

## MLIS Component

The Master of Library and Information Science (MLIS) component of each of the coordinated programs includes 30 credits of SOIS courses. These include the MLIS core courses (12 credits). The remaining 18 MLIS credits are selected from the School's offerings in accordance with the student's goals in the coordinated degree program.

## MLIS/MA History

The Master of Arts in History/Master of Library and Information Science program consists of 54 credits.

Graduates of the program are qualified to assume positions as archivists and staff members in libraries, museums, universities, governmental agencies, and industry. For those who pursue employment opportunities beyond archives in such institutions, knowledge of how to store, classify, and retrieve archival material will be a valuable set of skills that enhance the qualifications of the information professional.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

## Credits and Courses

For the MLIS/MA in History, students complete a minimum of 54 credits total for both degrees. Within the coordinated degree program, the minimum requirement for the MA in History is 30 graduate credits, of which 24 must be within History. By completing 30 credits of coursework in SOIS and 24 credits of coursework in History, a student can combine the MLIS with the MA in History. Thus the MLIS/MA in History may be achieved with the completion of 54 credit hours, and the MA and MLIS degrees will be awarded simultaneously.

For the History, MA: Public History, students complete a minimum of 60 credits total for both degrees. The minimum degree requirement for completing the History MA with the Public History concentration is 36 graduate credits, 12 of which must be taken in General History courses, 12 in Public History courses, and the remaining 12 in the chosen area of specialization. Within the coordinated degree program the student may complete the degree requirements for the History MA with the concentration in Public History as follows: 12 credits in General History, 12 credits in Public History, and 6 credits in approved elective courses; the remaining 6 credits of specialization are to be fulfilled within the student's 30 credits of MLIS coursework. Thus, the MLIS/MA in History may be achieved with the completion of 60 credit hours, and the MA and MLIS degrees will be awarded simultaneously.

## Library and Information Science (MLIS) coursework

Code	Title	Credits
<b>Core Courses</b>		
INFOST 501	Foundations of Library and Information Science (Core Courses)	3
INFOST 511	Organization of Information	3
INFOST 571	Information Access and Retrieval	3

INFOST 799	Research Methods in Information Studies	3
------------	---	---

Electives	
Select 6 credits in courses satisfying both History MA and MLIS requirements in consultation with faculty advisor	6
Select 12 additional credits in graduate SOIS courses in consultation with faculty advisor <sup>1</sup>	12
<b>Total Credits</b>	<b>30</b>

Code	Title	Credits
<b>Courses satisfying both History MA and MLIS requirements</b>		
INFOST 650G	An Introduction to Modern Archives Administration	3
INFOST 714	Metadata	3
INFOST 750	Arrangement and Description in Archives	3
INFOST 752	Archival Outreach: Programs and Services	3
INFOST 753	Preserving Information Media	3
INFOST 855	Advanced Appraisal	3

<sup>1</sup> Students pursuing the Public History option must select 6 of these credits of SOIS electives from the list of courses satisfying both the MA in History with a concentration in Public History and the MLIS. See table below under Public History.

## General History: Thesis Option

Code	Title	Credits
HIST 712 or HIST 713	Historiography and Theory of History Historical Research Methods	3
Select 6 credits in two colloquia (800-level courses) <sup>2</sup>		6
Select 6 credits in two seminars (900-level courses)		6
HIST 985	Master's Capstone	6
Select 3 credits in History electives in consultation with the student's advisor		3
<b>Total Credits</b>		<b>24</b>

## General History: Master's Essay Option

Code	Title	Credits
HIST 712 or HIST 713	Historiography and Theory of History Historical Research Methods	3
Select 6 credits in two colloquia (800-level courses) <sup>2</sup>		6
Select 6 credits in two seminars (900-level courses)		6
Select 9 credits in History electives in consultation with the student's advisor		9
<b>Total Credits</b>		<b>24</b>

<sup>2</sup> Students may take 3 credits of either HIST 716 or HIST 717 as a substitute for 3 credits in one colloquium.

## Public History

Code	Title	Credits
<b>General History</b>		
Select 6 credits in colloquia (800-level courses) <sup>3</sup>		6

Select 6 credits in seminars (900-level courses) <sup>3</sup> 6

**Public History**

Students are advised to complete these two courses in the first year:

HIST 700	Public History Seminar	3
HIST 715	Research Methods in Local History	3

Students also complete the following, generally taken at any point after the second semester:

HIST 701	Graduate Internship in Public History <sup>4</sup>	6
----------	--	---

Select 6 credits in History electives at the graduate level 6

Select 6 credits from among the following courses approved for both the MLIS and the MA in History: Public History (if not already taken to satisfy MLIS) 6

INFOST 650G	An Introduction to Modern Archives Administration	
INFOST 714	Metadata	
INFOST 750	Arrangement and Description in Archives	
INFOST 752	Archival Outreach: Programs and Services	
INFOST 753	Preserving Information Media	
INFOST 855	Advanced Appraisal	

**Total Credits** 30

<sup>3</sup> As a substitute for one colloquium or seminar, students may take 3 credits of either HIST 716 or HIST 717 or another appropriate course, which must be approved in advance by the Public History Director.

<sup>4</sup> Students must take a total of 6 credits of HIST 701, and this requirement is generally completed as two 3-credit internships. However, an individual internship may be taken for 1 to 6 credits. Unless granted an exception by the program faculty, students complete their 701 internship(s) after having taken both HIST 700 and HIST 715.

**Approved Cross-Listed Courses**

WGS 501G, with the topic "Women, Gender, & Global Revolutions," counts as a History course.

**Additional Requirements**

**General History: Thesis Option**

**Academic Review and Thesis Prospectus Hearing**

Thesis Option students are subject to an academic review along with their thesis prospectus hearing. The Review and Prospectus hearing is a one- to two-hour meeting involving the student, the student's Major Professor and two other members of the History Graduate Faculty who will serve as examiners for the student's thesis defense. With the assistance of their Major Professor, the student must prepare a prospectus for the thesis in advance of the Review. The Review involves an evaluation of the student's academic progress in master's coursework, two unrevised course papers, and the thesis prospectus.

**Thesis**

The student must write a thesis that conforms to the guidelines above and as established at the thesis prospectus hearing.

**Thesis Defense**

The student must pass an oral examination in defense of the thesis.

**General History: Master's Essay Option**

**Academic Review**

Within the first semester after completing 9 credits (including two of the following courses: HIST 712, HIST 713, HIST 712, HIST 713, a colloquium and/or seminar), Master's Essay students are subject to an academic review. The Review is a one- to two-hour meeting involving the student, the student's Major Professor and two other members of the History Graduate Faculty. The Review involves an evaluation of the student's academic progress in master's coursework, two unrevised course papers, and the Master's Essay.

**Public History**

Students doing the Public History option are not required to take a comprehensive exam nor write a thesis; instead, they complete the required 6 credits of HIST 701.

**Time Limit**

The student must complete all requirements for the coordinated degree within seven years of initial enrollment.

**Important**

You must refer to the catalog pages of the individual master's programs to ensure that you meet all requirements for both degrees.

**History, MA: Public History**

**Public History Graduate Program**

The Public History program curriculum combines graduate-level topical and methods courses in history, core courses in public history, courses in the student's area of specialization, and internships with public-history organizations in the Milwaukee region and beyond. Coursework and internships prepare students for careers in historical societies, museums, archives, libraries, nonprofit organizations, government, and other professional fields, or for entry into a public history PhD program.

The Public History Specialization enables students to earn a master's degree in history while specializing in one of the following tracks:

- Museum Studies
- Nonprofit Administration
- Historic Preservation
- Archives
- Cross#Disciplinary Studies with Thesis

For details on the curricular requirements of each track, click on the "Requirements" tab on this page and refer to the "Credits and Courses" section.

Alternatively, a student in the coordinated degree program may combine the MLIS and the MA in History with a specialization in Public History. For more information, see the History, MA/Library and Information Science, MLIS page. (p. 1115)

Although a majority of students in our program pursue the specialization in Public History at the master's level, it is also possible for PhD students in History to pursue a Public History minor. For more information about the PhD program, see the History, PhD page. (p. 1124)

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

To be considered for admission, an applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements:

1. An undergraduate minor or 18 credits in history or equivalent preparation.
2. Two letters of recommendation from persons familiar with the applicant's scholastic achievement and potential.
3. A sample of the applicant's written work that demonstrates their ability to conduct historical research and/or the ability to analyze critically the work of others.

Please visit the History department's website for information on the History Department Application (<http://www4.uwm.edu/letsci/history/graduate/gradapply.cfm>).

Applicants may be admitted with course deficiencies provided that the deficiencies amount to no more than two courses. The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted toward the degree.

### Advising

The Director of Graduate Studies provides initial advising for students in selecting courses and assists in selecting a Major Professor for long-term advising; the Director may assign a provisional graduate advisor before students select a Major Professor. Students are required to consult periodically with, and have their schedules approved by, the Director of Graduate Studies, the provisional advisor, or the Major Professor. The Major Professor normally serves as the chair of the student's academic review and supervises either the writing of the student's thesis or the student's reading for the comprehensive exam.

### Museum Studies Track

Space is limited in this specialization, and students interested to enroll in this track must first be admitted to the History Department as an MA student with a concentration in Public History. Then prospective students must apply separately for admission to the Museum Studies Certificate Program (MSCP) (<https://uwm.edu/museum-studies/admissions/>).

### Cross-Disciplinary Studies with Thesis Track

Prospective students interested to pursue this track must contact the Public History Director prior to applying for admission to the MA program in History.

### Credits and Courses

Minimum degree requirement is 36 graduate credits, 12 of which must be taken in General History courses, 12 in Public History courses, and the remaining 12 in the chosen area of specialization. For students completing either the Museum Studies track or the Nonprofit

Administration track, an additional 3 credits in the area of specialization is required for a total of 39 credits.

Before matriculation, students should select a specialization:

- Museum Studies
- Nonprofit Administration
- Historic Preservation
- Archives
- Cross-Disciplinary Studies with Thesis

### Museum Studies Track

Space is limited in this specialization, and students interested to enroll in this track must first be admitted to the History Department as an MA student with a concentration in Public History. Then prospective students must apply separately for admission to the Museum Studies Certificate Program (MSCP) (<https://uwm.edu/museum-studies/admissions/>).

ARCH 560G	Introduction to Historic Preservation (offered every other year)	3
ARCH 760	History of Building Technology (offered every other year)	3

Students select two of the following electives: 6

ARCH 550G	Seminar in Building Types and Settings
ARCH 551	American Vernacular Architecture
ARCH 562G	Preservation Technology Laboratory
ARCH 583G	Emerging Digital Technology:
ARCH 801	Special Topics: ("Practicum in Buildings-Landscapes-Cultures" and other approved subtitles)
ARTHIST 356G	American Architecture
ARTHIST 370G	Trends in Contemporary Architecture
ARTHIST 462G	Frank Lloyd Wright
ARTHIST 750	Colloquium in American Art:
ARTHIST 760	Colloquium in Modern Art/Architecture:

**Total Credits 36**

<sup>1</sup> As a substitute for one colloquium or seminar, students may take 3 credits of HIST 716, HIST 717, or another appropriate course, which must be approved in advance by the program director.

<sup>2</sup> Students must take a total of 6 credits of HIST 701, and this requirement is generally completed as two 3-credit internships. However, an individual internship may be taken for 1 to 6 credits. Unless granted an exception by the program faculty, students complete their 701 internship(s) after having taken both HIST 700 and HIST 715.

**Archives Track**

Code	Title	Credits
<b>General History</b>		
Select 6 credits in colloquia <sup>1</sup>		6
Select 6 credits in seminars <sup>1</sup>		6
<b>Public History</b>		
Students are advised to complete these two courses in the first year:		
HIST 700	Public History Seminar	3
HIST 715	Research Methods in Local History	3
Students also complete the following, generally taken at any point after the second semester:		
HIST 701	Graduate Internship in Public History <sup>2</sup>	6
<b>Specialization</b>		
This course must be completed during the first semester of the first year:		
INFOST 650G	An Introduction to Modern Archives Administration	3
Then select three of the following: 9		
INFOST 682G	Digital Libraries	
INFOST 750	Arrangement and Description in Archives <sup>3</sup>	
INFOST 752	Archival Outreach: Programs and Services	
INFOST 753	Preserving Information Media <sup>3</sup>	
INFOST 791	Topics in Library and Information Science: (with appropriate subtitle)	
INFOST 855	Advanced Appraisal <sup>3</sup>	

INFOST 891	Advanced Topics in Library and Information Science: (with appropriate subtitle)
------------	---

**Total Credits** **36**

- <sup>1</sup> As a substitute for one colloquium or seminar, students may take 3 credits of HIST 716, HIST 717, or another appropriate course, which must be approved in advance by the program director.
- <sup>2</sup> Students must take a total of 6 credits of HIST 701, and this requirement is generally completed as two 3-credit internships. However, an individual internship may be taken for 1 to 6 credits. Unless granted an exception by the program faculty, students complete their 701 internship(s) after having taken both HIST 700 and HIST 715.
- <sup>3</sup> These electives are strongly recommended, but students with prior coursework or employment experience in archives may opt for other electives.

### Cross-Disciplinary Studies with Thesis Track

Students in the Cross-Disciplinary Studies track complete a thesis in public history, and they are required to take 6 Master’s Capstone credits and 3 credits of public-history internship. Instead of the 12-15 credits in specialized courses, students in the thesis track must also take 9 credits in cross-disciplinary courses in the humanities and/or social sciences. Selected in consultation with the Public History Director and the student’s major professor, cross-disciplinary courses may focus on culture and politics in public history, or they may include coursework in theory or methodology relevant to public history.

Code	Title	Credits
<b>General History</b>		
Select 6 credits in colloquia <sup>1</sup>		6
Select 6 credits in seminars <sup>1</sup>		6
<b>Public History</b>		
Students are advised to complete these two courses in the first year:		
HIST 700	Public History Seminar	3
HIST 715	Research Methods in Local History	3
Students also complete the following, generally taken at any point after the second semester:		
HIST 701	Graduate Internship in Public History <sup>2</sup>	3
Thesis credits may be completed after the approval of the thesis prospectus (see below):		
HIST 985	Master’s Capstone	6
<b>Cross-Disciplinary Requirement</b>		
Select 9 credits in the humanities and/or social sciences that focus on culture and politics in public history (see below)		9
<b>Total Credits</b>		<b>36</b>

- <sup>1</sup> As a substitute for one colloquium or seminar, students may take 3 credits of HIST 716, HIST 717, or another appropriate course, which must be approved in advance by the program director.
- <sup>2</sup> Students pursuing Cross-Disciplinary Studies with Thesis Track must take 3 credits of HIST 701. Unless granted an exception by the program faculty, students complete their 701 internship(s) after having taken both HIST 700 and HIST 715.

### Thesis Prospectus

Within the first semester after completing 9 credits (including two of the following courses: HIST 700, HIST 715, a colloquium, and/or a seminar), public history students who choose to write a thesis are subject to an academic review. The review is a one- to two-hour meeting involving the student, the student’s major professor, and two other members of the History Graduate Faculty who will serve as secondary readers of the student’s thesis. With the assistance of their major professor, the student must prepare a thesis prospectus in advance of the review. The review involves an evaluation of the student’s academic progress in master’s coursework, two unrevised course papers, and the thesis prospectus.

### Recommendations for Cross-Disciplinary Coursework

The following are recommended courses to fulfill the cross-disciplinary requirement (others may be chosen with the approval of the Public History Director):

Code	Title	Credits
<b>Elective courses to fulfill cross-disciplinary track requirements</b>		
ANTHRO 340	Cultures of Online Games and Virtual Worlds	3
ANTHRO 380	Anthropological Applications of GIS	3
ANTHRO 744	Theories of Social Action: Theater, Ritual, Game	3
ARCH 583G	Emerging Digital Technology:	3
ARCH 742	Professional Practice II	3
ARCH 771	Representation I	3
ARCH 772	Representation II	3
ART 312G	Intermediate Digital Studio:	3
ART 313G	Creative Coding	3
ART 316G	Creative Interfaces	3
ART 317G	3D Environments and XR	3
ART 318	Creative Electronics	3
ART 327	Digital Media Workshop:	3
ART 412G	Advanced Creative Technologies	3
ART 418G	Advanced Electronics and Sculpture:	3
ART 426G	Motion Graphics	3
ART 433G	Digital Imaging for Fabric	3
ART 452G	Contemporary Issues in Photography	3
ART 456G	Advanced Photography & Imaging:	3
ART 526G	Research in Universal Design and Fabrication	3
ARTHIST 376G	History and Theory of New Media Art	3
COMMUN 813	Seminar in Mediated Communication	3
COMMUN 873	The Digital Mirror	3
COMMUN 893	Rhetoric of/and the Internet	3
DAC 661G	Digital Engagement Seminar	3
ENGLISH 439	Information Design	3
ENGLISH 709	Rhetoric, Writing, and Information Technology	3
ENGLISH 711	Topics in Public and Professional Writing:	3
ENGLISH 713	Research Methods in Rhetorics, Literacies, and Community Engagement:	3
ENGLISH 742	Media Studies	3

ENGLISH 887	Seminar in Digital Studies:	3
FILM 420G	Intermediate Media Arts Module:	3
FILM 763	Experimental Documentary	3
FILM 764	Observational Documentary	3
FILM 782	Visual Effects	3
HIST 450G	The History of Milwaukee	3
HIST 715	Research Methods in Local History	3
HIST 717	History and the New Media	3
INFOST 661G	Information Ethics	3
INFOST 670G	Instructional Technologies	3
INFOST 682G	Digital Libraries	3
INFOST 685G	Electronic Publishing and Web Design	3
URB STD 921	Seminar: Research Methods in Urban Studies	3
URBPLAN 791	Introduction to Urban Geographic Information Systems for Planning	3
URBPLAN 792	Using Urban Geographic Information Systems (GIS) for Planning	3
WGS 500G	Advanced Social Science Seminar in Women's and Gender Studies:	3

### Approved Cross-Listed Courses

WGS 501G, with the topic "Women, Gender, & Global Revolutions," counts as a History course.

## Additional Requirements

### Internship

All internships must be approved by the Public History Director and are to be supervised and evaluated by the Public History Director and the host institution. All students must write a substantial paper as a part of their internship experience.

### Thesis Option for Students in Non-Thesis Tracks

A thesis is not required for students in the Museum Studies, Nonprofit Administration, Historical Preservation, or Archives tracks, but with the approval of the Public History Coordinator these students may write a thesis in public history, which will add 6 credits to the 36-credit Public History specialization. Public History students who write a thesis are subject to the Academic Review and Thesis Prospectus requirements outlined for the General History: Thesis (p. 1113) Option.

### Comprehensive Examination

Not required.

### Time Limit

The student must complete all degree requirements within seven years of initial enrollment.

## History, Minor

History is an ideal minor at UWM in that it pairs well with an especially wide array of majors. Every field, whether it be business, politics, the law, the arts, architecture, engineering, or the sciences, has its own history. Being able to draw on and learn from those histories is an indispensable advantage for those looking to build fulfilling careers and develop into active leaders in their communities.

Like the department's majors, History minors also enjoy the opportunity to work on research projects such as the Encyclopedia of Milwaukee. This is a distinct advantage for UWM students. At most large, research universities, research opportunities for undergraduates are limited. Participating in undergraduate research is an excellent way to enhance your resume for graduate school or employment.

History is also available at UWM as an online minor - all of the classes for the minor can be completed online if desired, or students can mix-and-match assorted online and traditional-format classes.

## Requirements

History minors are required to take a minimum of 18 credits of coursework distributed as follows:

Code	Title	Credits
	Select at least 3 credits in European history	3
	Select at least 3 credits in U.S. history	3
	Select at least 3 credits in non-Western or global history	3
	Select at least 9 credits in courses numbered 300 or above taken in residence at UWM	9
<b>Total Credits</b>		<b>18</b>

History minors must maintain a 2.0 GPA in all history courses attempted at UWM and a 2.0 GPA in all history credits attempted at all institutions attended, collectively. No more than 3 of the 18 credits applied to the minor may be earned in independent study courses (HIST 199 or HIST 699). Note that in all courses taken in the minor on a credit/no credit basis (whether applied to the requirements of the minor or not), regular letter grades are recorded on your transcript and are used in the calculation of your GPA.

Note: Specific courses may count toward the fulfillment of more than one requirement. For example, HIST 307 counts toward the European history requirement and toward credits 300 or above taken in residence.

Course lists delineating approved European, U.S., and non-Western or global history courses offered at UWM are below.

## Categorization of Courses by Geographic Area

The following lists indicate the geographic areas towards which courses count in the fulfillment of the major and minor requirements. (Note that some courses do not satisfy any of the geographic area distribution requirements and that for variable-topic courses, the geographic area is determined by the specific topic).

### European History

Code	Title	Credits
HIST 101	Western Civilization: Ancient World to 1500	3
HIST 102	Western Civilization: 1500 to the Present	3
HIST 201	The Ancient World: The Near East and Greece	3
HIST 202	The Ancient World: The Roman Republic and Empire	3
HIST 203	The History of Medieval Europe: The Early Middle Ages	3

HIST 204	The History of Medieval Europe: The High Middle Ages	3	HIST 263	North American Indian History Since 1887	3
HIST 206	Europe and the Modern World: 1815 to the Present	3	HIST 267	The History of Latinos in the United States	3
HIST 235	English History to 1688	3	HIST 268	History of the American West	3
HIST 236	Britain Since 1688: Rise and Decline of a Great Power	3	HIST 269	Asian Americans in Historical Perspective	3
HIST 239	Poland and its Neighbors, 1795-1914	3	HIST 270	Topics in American History:	3
HIST 241	Women and Gender in Europe: 1350 to 1750	3	HIST 271	The 1960s in the United States: A Cultural History	3
HIST 242	Women and Gender in Europe: 1750 to the Present	3	HIST 404	Topics in American History:	3
HIST 248	The First World War	3	HIST 405	The Age of the American Revolution, 1750-1789	3
HIST 249	The Second World War in Europe	3	HIST 409	Causes of the Civil War, 1828-1861	3
HIST 303	A History of Greek Civilization: The Greek City-State	3	HIST 410	Civil War and Reconstruction: The United States, 1861-1877	3
HIST 304	A History of Greek Civilization: The Age of Alexander the Great	3	HIST 418	America in Prosperity, Depression and War, 1921-1945	3
HIST 307	A History of Rome: The Republic	3	HIST 419	America Since 1945	3
HIST 308	A History of Rome: The Empire	3	HIST 432	North American Environmental History	3
HIST 318	Medieval Civilization: The High Middle Ages	3	HIST 434	The United States as a World Power in the 20th Century	3
HIST 319	The Era of the Crusades	3	HIST 435	Ethnic America: To 1880	3
HIST 320	History of Medieval Warfare	3	HIST 436	Immigrant America Since 1880	3
HIST 329	The Roman Catholic Church, 1500 to the Present	3	HIST 440	History of the American Working Classes	3
HIST 330	The Papacy in History	3	HIST 442	Beer and Brewing in America	3
HIST 341	Imperial Russia	3	HIST 445	African Americans from Slavery to Freedom	3
HIST 343	Russia Since 1917	3	HIST 446	African Americans Since the Civil War	3
HIST 346	Poland and Its Neighbors, 1914-1945	3	HIST 448	Baseball in American History	3
HIST 348	Poland and Its Neighbors, 1945 to the Present	3	HIST 449	Popular Culture in America, 1800 to the Present	3
HIST 355	Modern and Contemporary France	3	HIST 450	The History of Milwaukee	3
HIST 358	The Jews of Modern Europe: History and Culture	3	HIST 451	History of Wisconsin	3
HIST 363	Germany: Hitler and the Nazi Dictatorship	3	HIST 452	History of Religion in American Life to 1870	3
HIST 364	The Holocaust: Anti-Semitism & the Fate of Jewish People in Europe, 1933-45	3	HIST 453	History of Religion in American Life Since 1870	3
HIST 371	Topics in European History:	3	HIST 460	The History of Poverty in America	3
HIST 375	Contemporary European History, 1945 to the Present	3	HIST 463	History of the American City	3

## U.S. History

Code	Title	Credits
HIST 150	Multicultural America	3
HIST 151	American History: 1607 to 1877	3
HIST 152	American History: 1877 to the Present	3
HIST 215	History of Capitalism	3
HIST 229	History of Race, Science, and Medicine in the United States	3
HIST 243	History of Women in American Society	3
HIST 262	North American Indian History to 1887	3

## Non-Western or Global History

Code	Title	Credits
HIST 131	World History to 1500	3
HIST 132	World History Since 1500	3
HIST 141	Global History of the Family, Gender, and Sexuality	3

HIST 175	East Asian Civilization to 1600	3
HIST 176	East Asian Civilization Since 1600	3
HIST 180	Latin American Society and Culture	3
HIST 210	The Twentieth Century: A Global History	3
HIST 274	Ancient Egyptian Civilization	3
HIST 280	Islamic Civilization: The Formative Period, ca. 500-1258	3
HIST 282	The Modern Middle East in the Nineteenth and Twentieth Centuries	3
HIST 284	Buddhism Across Asia	3
HIST 286	The Korean War	3
HIST 287	The Vietnam War	3
HIST 290	Topics in Global History:	3
HIST 295	Historical Encounters:	3
HIST 372	Topics in Global History:	3
HIST 376	Premodern China	3
HIST 377	Modern China	3
HIST 378	Revolution in China	3
HIST 379	Introduction to Jewish History	3
HIST 380	Buddhism: A Cultural History	3
HIST 386	Africans in World History: Communities, Cultures, and Ideas	3
HIST 387	Colonization in Africa: A History of Resistance and Adaptation	3
HIST 392	The History of Southern Africa	3
HIST 393	History of Mexico	3
HIST 394	History of Japan to 1600	3
HIST 395	History of Japan Since 1600	3
HIST 400	Topics in Latin American and Caribbean History:	3
HIST 401	Topics in Middle Eastern History:	3
HIST 402	Topics in Asian History:	3
HIST 596	Maps as Historical Sources	3
HIST 396	Decolonization, Revolution, and Independence in African History	3
PORTUGS 360	Luso-Brazilian Culture: (Topic: "History of Brazil") <sup>1</sup>	3
WGS 501	Advanced Humanities Seminar in Women's and Gender Studies: (Topic: "Women, Gender, & Global Revolutions") <sup>1</sup>	3

<sup>1</sup> These courses in other subjects may be used to fulfill requirements of the undergraduate major or minor in history.

### Geographic Area Determined by Specific Topic

Code	Title	Credits
HIST 192	First-Year Seminar:	3
HIST 193	First-Year Seminar:	3
HIST 199	Independent Study	1-3
HIST 200	Historical Roots of Contemporary Issues:	3
HIST 296	UROP Apprenticeship	1-3
HIST 297	Study Abroad:	1-12

HIST 299	Ad Hoc:	1-6
HIST 370	Topics in the History of Religious Thought:	3
HIST 373	Topics in Gender and History:	3
HIST 398	Honors Seminar:	3
HIST 399	Honors Seminar:	3
HIST 497	Study Abroad:	1-12
HIST 499	Ad Hoc:	1-6
HIST 594	Methods and Theory in the Historical Study of Religion:	3
HIST 600	Seminar in History:	3
HIST 681	Senior Thesis I	3
HIST 682	Senior Thesis II	3
HIST 699	Independent Reading:	1-6

The geographic area of concentration in sections of HIST 600, where the area is not obvious in the title, by default is designated in accordance with the primary teaching and research interests of the instructor. In such cases, and with the instructor's approval, HIST 600 can count toward different areas for different students, as determined by the predominant focus of their individual work in the course. Note that a variable topic course cannot be considered "Non-Western or Global" unless at least a substantial part of the course's focus includes the study of African, Asian, Middle Eastern, or Latin American history.

### No Geographic Area

Code	Title	Credits
HIST 289	Internship in History, Lower Division	1-6
HIST 294	Seminar on Historical Method: Research Techniques	3
HIST 296	UROP Apprenticeship	1-3
HIST 489	Internship in History, Upper Division	1-6
HIST 593	Seminar on Historical Method: Theory and Approach	3
HIST 595	The Quantitative Analysis of Historical Data	3

### Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact let-sci@uwm.edu.

## History, PhD

The PhD program is for applicants desiring to be trained as independent, original scholars. Most PhD graduates seek faculty positions at colleges or universities.

PhD students are an integral part of the learning and teaching experience across the History Department. They conduct research, teach courses and work closely with various faculty members and students throughout the department. Most students complete the program in 4-5 years and come to the program with a master's degree in history.

Culminating events for the History PhD include a qualifying examination, a dissertation, and defense.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

To be considered for admission, an applicant must meet Graduate School admission requirements plus these departmental requirements:

1. A master's degree in history or a related field
2. Three letters of recommendation from persons familiar with the applicant's intellectual achievement and potential.
3. A sample of the applicant's written work that demonstrates their ability to conduct historical research and/or the ability to analyze the work of others critically.

Please visit the History department's website for information on the History Department Application (<https://uwm.edu/history/students/graduate/how-to-apply-to-the-graduate-program/>).

## Credits and Courses

To earn the Ph.D., a student must have accumulated at least 54 graduate credits, at least 30 of them taken at the post-master's level. (Precise numbers of credits and actual course requirements while in Ph.D. status will be determined after a review of the applicant's previous coursework.) Doctoral students may not accumulate more than 6 credits in U/G courses, nor more than 6 credits in independent study without the approval of the Director of Graduate Studies. Of the 54 credits, at least 9 must be in fields other than history. No more than 18 credits in courses outside of History may be counted toward the doctoral degree.

Code	Title	Credits
<b>Required</b>		
HIST 712 or HIST 713	Historiography and Theory of History Historical Research Methods	3
Select two of the following:		6
HIST 712	Historiography and Theory of History (if not taken above)	
HIST 713	Historical Research Methods (if not taken above)	
HIST 715	Research Methods in Local History	

HIST 716	Professional and Pedagogical Issues in History	
HIST 717	History and the New Media	
HIST 990	Dissertation Research (minimum 6 credits)	6
<b>Electives</b>		
Select 15 credits of electives (may include additional dissertation credits)		15
<b>Total Credits</b>		<b>30</b>

### Approved Cross-Listed Courses

WGS 501 G, with the topic "Women, Gender, & Global Revolutions," may count as either a History course, or as a WGS course to satisfy the requirement of at least 9 credits outside of History, but not as both.

### Advising

The Director of Graduate Studies provides initial advising for the student in selecting courses and assists in selecting a Major Professor for long-term advising; the Director may assign a provisional graduate advisor before students select a Major Professor.

Students are required to consult periodically with, and have their schedules approved by, the Director of Graduate Studies, the provisional advisor, or the Major Professor. The Major Professor helps the student to define a dissertation topic and assists the student in choosing appropriate courses and in selecting members of the student's Preliminary Examination and Doctoral Committees. The Major Professor normally chairs the student's Preliminary Examination and Doctoral Committees.

### Foreign Language or Data Analysis Proficiency

Students must demonstrate proficiency in one or more relevant foreign languages by passing a written examination in the translation of source materials or historical analysis. If a student's Major Professor considers proficiency in more than one language necessary to the student's specific plan of study, exams in more than one language may be required.

With the approval of the Major Professor, a student may substitute proficiency in another skill relevant to historical study; in these cases, proficiency will be demonstrated through relevant coursework.

### Minor

Students are not required to elect a minor field, but they may wish to supplement their chosen specialty in this way. Depending on the particular course array, students may need to take more than 54 credits to complete both the major and minor requirements. Those who wish to take a minor have three options:

#### Option A: Minor In One Field

Working with a minor professor, students take 8-12 credits in a single department, leading to a minor examination.

#### Option B: Interdisciplinary Minor

Students take 8-12 credits in two or more departments, selected for their relevance to the student's area of specialty. The minor will be defined in consultation with the student's Major Professor and the Director of Graduate Studies.

#### Option C: Minor in Public History

This 21-credit minor is appropriate for students planning a career in archives, museums, historic preservation, or other related specialties. It is

not available to students who already have a specialization or degree in public history at the master's level. Students in this minor are required to take 12 credits as follows:

Code	Title	Credits
<b>Required</b>		
HIST 700	Public History Seminar <sup>1</sup>	3
HIST 701	Graduate Internship in Public History	6
HIST 715	Research Methods in Local History	3
<b>Electives</b>		
Select 9 credits (see below)		9
<b>Total Credits</b>		<b>21</b>

<sup>1</sup> Students must take HIST 700 in the first semester of their first year.

### Electives

The remaining 9 credits in public history must be selected from courses that pertain to the area of public history in which the student wishes to specialize.

For students interested in careers as archivists, electives should be selected from the following courses:

Code	Title	Credits
INFOST 650	An Introduction to Modern Archives Administration	3
INFOST 850	Seminar in Modern Archives Administration	3
INFOST 753	Preserving Information Media	3
INFOST 750	Arrangement and Description in Archives	3
INFOST 759	Fieldwork in Archives and Manuscripts	3

Students interested in careers in museums are advised to take at least three of the following courses:

Code	Title	Credits
ANTHRO 720	History and Theory of Museums	2
ANTHRO 721	Administration and Organization of Museums	3
ANTHRO 722	Visitor Experience Design in Museums	3
ANTHRO 723	Museum Collections Management and Curation	3

Students interested in careers in historic preservation are advised to take at least three of the following:

Code	Title	Credits
ARCH 560	Introduction to Historic Preservation	3
ARCH 760	History of Building Technology	3
ARCH 660	Topics in Architectural History & Theory	3

## Additional Requirements

### Doctoral Preliminary Examination

The doctoral preliminary examination includes written and oral components designed to demonstrate the breadth of a student's

knowledge and the ability to conduct advanced historical research. It must be taken within five years of enrollment in the Ph.D. program.

Students who fail the doctoral preliminary examination may not proceed to the dissertation. The exam may be retaken only once. The Director of Graduate Studies provides specific guidelines for selecting the Doctoral Preliminary Examination Committee and preparing the doctoral preliminary examination proposal.

### Dissertation

The dissertation is a major piece of original research representing a substantial contribution to historical scholarship. In consultation with the Major Professor, the student chooses a dissertation committee, which must approve the prospectus. The student's Major Professor provides guidance in preparing the prospectus and in developing and writing the dissertation.

### Dissertation Defense

The candidate must pass an oral examination in defense of the dissertation.

### Time Limit and Residence

All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program. To meet the continuous-year portion of the residence credit requirement, students must complete 8 to 12 graduate credits in each of two consecutive semesters, or 6 or more graduate credits in each of three consecutive semesters, including summer sessions. In exceptional cases, modifications of the residence requirement may be requested, subject to the approval of the History Department and the Graduate School.

## Human Resources and Labor Relations

The Lubar School of Business and the College of Letters and Science offer and present jointly the Master of Human Resources and Labor Relations (MHRLR).

The MHRLR is an innovative master's program offering students an interdisciplinary blend of courses and faculty in the areas of human resources and labor relations. The MHRLR program prepares students for careers as practitioners, and emphasizes a firm educational grounding in both the liberal arts and business administration. This grounding includes knowledge of human resources, staffing, labor relations, the legal system, and statistics.

Elective courses and options within the core requirements allow students to gain the specialized knowledge needed to work in the human resource management and labor relations areas of: compensation and benefits, collective bargaining, alternative dispute resolution, recruitment and selection, training and development, occupational health and safety, equal employment opportunity, strategic human resource management, and international human resource management.

The program is designed for full-time and part-time students who seek careers in the private or public sectors, and with unions or management.

### Programs

- Human Resources and Labor Relations, MHRLR (College of Letters and Science) (p. 1126)

- International Human Resources and Labor Relations, Graduate Certificate (p. 1127)

## Faculty

Name	Rank	Degree	School	Graduate Faculty	Emeritus Faculty

## Human Resources and Labor Relations, MHRLR (College of Letters and Science)

### Related Certificates

- Graduate Certificate in Mediation and Negotiation (p. 966)
- Graduate Certificate in International Human Resources and Labor Relations (p. 1127)

Whether you are currently in the field, a recent college graduate or wish to change careers, the Master of Human Resources and Labor Relations (MHRLR) provides the knowledge necessary to thrive. Classes emphasize practical applications, case studies and engagement. Students apply their new knowledge to current workplace challenges.

The MHRLR program provides a thorough understanding of the core functions, contemporary practices and underlying theories of human resources and employment relations.

The MHRLR program values diversity, bringing together students from varying backgrounds and experiences to create a dynamic learning environment in the classroom and beyond.

**What you learn in class can be utilized the next morning at work.**

## Admission Requirements

### Application Deadline

Students may begin their studies in the Fall, Spring or Summer semesters. Applications are accepted on a continuous basis. The program does not have a specific deadline to apply.

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus the following requirements to be considered for admission to the MHRLR program:

1. Submission of two letters of recommendation to the MHRLR program.

2. Statement of reasons for graduate study.
3. Students admitted to the program will be expected to present at least three credits of prior work in both principles of microeconomics and introductory statistics.
4. Students who are deficient in the areas of principles of microeconomics or statistics at the time of admission (see above), will be expected to satisfy deficiency requirements within three enrolled semesters. Deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted for the degree.
5. Submission of GRE (<http://uwm.edu/graduateschool/admission/#gre>) or GMAT (<http://uwm.edu/graduateschool/admission/#gmat>) scores is recommended, but not required.
6. Applicants are reviewed by the MHRLR admissions committee to assess academic achievements and the ability to do intensive graduate-level work.

## Credits and Courses

The Master of Human Resources and Labor Relations degree will be awarded upon completion of 36 credits of prescribed graduate study and appropriate prerequisite coursework. The program offers a balance between liberal arts and business-based education, requiring that at least 15 credits be taken within the College of Letters and Science and at least 15 credits be taken within the Lubar College of Business. The MHRLR Program believes in a common body of knowledge and skills necessary to be an effective Human Resource or Labor Relations professional.

The program has a required core of seven courses (21 credits) and five elective courses (15 credits) for a total of 36 credits.

Code	Title	Credits
<b>Required Core</b>		
IND REL 701	Industrial and Labor Relations	3
BUSMGMT 706	Managing in a Dynamic Environment	3
BUS ADM 738	Human Resource Management	3
BUS ADM 735	Staffing Organizations	3
ECON 448G or ECON 753	Economics of Human Resources <sup>1</sup> Collective Bargaining	3

IND REL 712	Employment Law	3
IND REL 731	Research Tools for Practitioners in Human Resources and Labor Relations <sup>2</sup>	3
or BUSMGMT 731	Research Tools for Practitioners in Human Resources and Labor Relations	
<b>Electives (see list of approved electives below)</b>		<b>15</b>
<b>Total Credits</b>		<b>36</b>

<sup>1</sup> If ECON 448G and ECON 753 are both taken, one of these may be used to help fulfill elective requirements.

<sup>2</sup> The required course Research Tools for Practitioners in Human Resources and Labor Relations can be taken as either IND REL 731 or BUSMGMT 731 (but not both) to help meet the required 15 credit minimum in each of the College of Letters and Science and the Lubar College of Business.

### Elective Courses

The choice of electives to complete a MHRLR degree should reflect student interest. Students are not required to choose a specialization and are encouraged to select those electives that best suit their backgrounds and interests. A student may take up to 6 credits from the approved list of alternative electives in other schools such as the School of Nursing, the School of Education, and the School of Social Welfare.

Students without prior experience in the field are encouraged to take advantage of the program’s extensive contacts in the business and labor communities by undertaking one or more internships as either BUS ADM 799 or IND REL 921. Students may also utilize the wide range of faculty expertise available within the program for a major research paper on a human resources or labor relations topic. These papers, under the direction of a faculty advisor, are taken as either IND REL 801 or BUS ADM 799. A student may graduate with honors from the MHRLR program by maintaining a 3.5 grade-point average within the program, and by writing a 3-credit major research paper (under BUS ADM 799 or IND REL 801).

Any new course development, programmatic changes, or program name change must be approved by the appropriate curricular committees and faculty in the respective units.

The program, including admissions and course staffing, is subject to the AACSB accreditation requirements.

AD LDSP 777	Leadership in Multicultural Organizations	3

## Additional Requirements

### Major Professor as Advisor

The assistant director of the MHRLR Program advises and supervises newly admitted students. The assistant director, in consultation with the student, reviews the student’s academic background and career goals and designs an appropriate program of study consistent with degree requirements.

## International Human Resources and Labor Relations, Graduate Certificate

The Graduate Certificate in International Human Resources and Labor Relations responds to the increasing influence of globalization on the practice of Human Resource Management and the conduct of Labor Relations. Firms and unions are increasingly part of a complex web of international economic relationships. Many of the workplace innovations now taken for granted began overseas: quality circles, work groups and flatter hierarchies. Many firms operate overseas under very different labor market institutions and human resource expectations.

This program of study provides practical and theoretical knowledge designed to help students function as professionals in the increasing broad international context of human resource management and labor relations.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found

by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Eligibility and Admission

Students applying for the Certificate Program in International Human Resources and Labor Relations must hold a bachelor's degree and must have earned a 2.75 GPA overall or must furnish substantial evidence of ability to succeed in graduate-level work. Students admitted to the Certificate will be expected to present at least three credits of prior work in microeconomics and three credits in statistics.

### Application

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (<https://graduateschool-apply.uwm.edu/>).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted into a certificate program.

## Credits and Courses

Code	Title	Credits
<b>Required<sup>1</sup></b>		
IND REL 701	Industrial and Labor Relations	3
ECON 755	Comparative Labor Markets and Employment Relations	3
BUSMGMT 723	Managing and Negotiating Across Borders	3
BUS ADM 738 or BUS ADM 795	Human Resource Management Seminar-in-Management:	3
<b>Recommended</b>		
The following courses are recommended but not required:		
IND REL 999	Independent Study	
BUS ADM 799	Reading and Research	
IND REL 921	Internship in Industrial Relations	
<b>Total Credits</b>		<b>12</b>

<sup>1</sup> Course substitutions would be allowed with the consent of the MHRLR Director for those who had previously completed similar coursework.

## Additional Requirements

### Transfer Credit

No more than 20% of the required credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program.

### Grade Point Average Requirement

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

## Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
  - Degree programs must approve the courses from certificates that can double count toward the degree.
  - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the degree. (Note: Students in PhD programs must still complete the minimum residency requirements)
  - Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
3. A course may count toward no more than one certificate and one degree.
4. Students may not earn a certificate subsequent to a concentration in the same area.

## Time Limit

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

## International Studies

The International Studies (IS) Program is interdisciplinary and administered by faculty members in the College of Letters and Science. Our IS programs offer students an excellent opportunity to improve their understanding of the diverse cultures of the world and to begin developing the skills they need for careers that have an international dimension. Our IS programs have grown steadily over the past 50 years to meet the needs for a more globalized education.

All interested students should consult the International Studies advisor at the earliest opportunity.

## Programs

- International Studies, BA (p. 1128)
- International Studies, Minor (p. 1137)

## International Studies, BA

Students in UWM's international studies program take courses in history, political science, economics, anthropology, comparative literature, and foreign languages to build a program around their own specialized interests in international relations, politics, economics, development, or culture and language. The International Studies (IS) major offers a number of special options designed to help students deepen their knowledge of international affairs.

Understanding the nuances of globalization in our personal and professional lives, speaking the languages of others, and appreciating

cultural diversity are essential skills for living and working in the world today. UWM's International Studies program is based on the principles of the liberal arts with an emphasis in broad knowledge of people, places, and institutions, coupled with the skills to be an adaptable professional in a global marketplace. International studies majors have the ability to interact across cultures, converse in more than one language, analyze problems across cultural or national boundaries, adapt to new situations, appreciate differences in people and processes, and problem solve across different areas and formats.

With this background, students have job opportunities in many different industries and are prepared for many different roles. Career choices immediately after college are often influenced by the hands-on experiences obtained during the college years. Students are encouraged to explore all of their options through internships, part-time jobs, and volunteer experiences. Students may opt to complete an internship for credit as part of the International Studies major.

Similarly, a study abroad (<http://uwm.edu/cie/study-abroad/>) experience can open up new opportunities that would not have even been imagined prior to going abroad. UWM has programs at more than 70 sites around the world that vary in length from 2 to 3 weeks, to semester-long, to even a full year. Because of the complexities of planning a study abroad experience, students are encouraged to start planning early in sophomore year. Most students engage in study abroad during their junior year. Studying abroad is strongly encouraged for all International Studies majors, but not required.

Students often wonder what the differences are between Global Studies and International Studies at UWM. The foreign language requirements for the International Studies program are not as stringent as those in Global Studies. Global Studies majors also complete experiential learning credits, choosing a combination of study abroad and internship options. Both studying abroad and internships are optional for International Studies majors. In addition, International Studies coursework is focused exclusively on courses found in the College of Letters & Science.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	

*Part B*

Course designated as OWC-B; may be completed through a major-specific course requirement

#### Quantitative Literacy

##### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

##### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

#### Arts

Select 3 credits 3

#### Humanities

Select 6 credits 6

#### Social Sciences

Select 6 credits 6

#### Natural Sciences

Select 6 credits (at least two courses including one lab) 6

#### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

#### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

## II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	

Code	Title	Credits
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

## III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		
	Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)	0-18
	Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)	

## IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		
	Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above	9
	Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.	
	Complete 9 credits in combination of the two options above.	

## V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
	Select 3 credits	3
<b>Humanities</b>		
	Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *	12
<b>Social Sciences</b>		
	Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *	12
<b>Natural Sciences</b>		

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. \*

**Cultural Diversity**

Complete 3 credits in a course with Cultural Diversity (CD) designation. \*\*

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

**VI. The Major**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement**

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

**VII. The Minor**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

**International Studies Major Requirements**

The major requires 4 semesters or the equivalent in one foreign language. Students must complete at least one college course to meet this requirement; high school work alone will not suffice. Students must attain a 2.0 GPA in all UWM credits attempted for the major. In addition, the College requires that students attain a 2.0 GPA in all major credits attempted, including any transfer work.

Students may receive credit toward the International Studies (IS) major for participation in study abroad programs or the United Nations Summer Seminar. Credit towards the major also may be obtained through a semester-long internship in an international business, a government office, or a private organization with an international focus, either in Milwaukee or abroad.

Students may declare the International Studies (IS) major once they have reached 15 credits. The advisor will assist each student in preparing a logical sequence of studies.

Code	Title	Credits
<b>Introductory Requirements <sup>1</sup></b>		
ECON 103	Principles of Microeconomics	3
ECON 104	Principles of Macroeconomics	3
GEOG 110	The World: Peoples and Regions	3
Select one of the following:		3
ANTHRO 102	Introduction to Anthropology: Culture and Society	
ANTHRO 104	Lifeways in Different Cultures: A Survey of World Societies	
HIST 176	East Asian Civilization Since 1600	
HIST 180	Latin American Society and Culture	
HIST 242	Women and Gender in Europe: 1750 to the Present	
HIST 282	The Modern Middle East in the Nineteenth and Twentieth Centuries	
POL SCI 106 or POL SCI 175	Politics of the World's Nations / Introduction to International Relations	3
<b>Requirements for the Major</b>		
<i>General</i>		
INTLST 550	Senior Seminar in International Studies: (subtitle) (satisfies L&S research requirement)	3
Select one of the following:		3-4
ANTHRO 560	Introduction to Research Methods in Anthropology	
ANTHRO 561	Techniques and Problems in Ethnography	
ECON 210	Economic Statistics	
GEOG 215	Introduction to Geographic Information Science

WGS 411	Women's and Gender Studies Research Methods:	
<i>Options</i>		
Select one of the following:		18
Option A: International Politics and World Affairs		
Option B: International Economics and Development		
Option C: World Languages and Culture		
<i>Electives</i>		
Select 11-12 credits from the list of electives for a total of 36 credits		11-12
<b>Total Credits</b>		<b>50-52</b>

<sup>1</sup> The introductory courses are required and should be taken during the first two years. Credits earned in the introductory courses do not count

toward the 36 credits required for the major. They cannot be taken on a credit/no credit basis.

### Option A: International Politics and World Affairs

This option emphasizes political aspects of international studies. 18 credits are required as outlined below:

Code	Title	Credits
<b>Required</b>		
ECON 351	Introduction to International Economic Relations	3
HIST 434	The United States as a World Power in the 20th Century	3
POL SCI 359	Problems of American Foreign Policy	3
Select a minimum of three of the following:		9
ECON 353	Economic Development	
POL SCI 316	International Law	
POL SCI 337	International Organization and the United Nations	
POL SCI 338	Seminar in International Relations: (part of UN Summer Seminar)	
POL SCI 340	Politics of Nuclear Weapons	
POL SCI 361	History of International Political Thought	
POL SCI 365	Theories and Methods in International Politics	
POL SCI 370	International Conflict	
POL SCI 371	Nationalism and Ethnic Conflict	
<b>Total Credits</b>		<b>18</b>

### Option B: International Economics and Development

This option emphasizes the political, economic, and cultural aspects of developing countries as well as the economic aspects of international studies. 18 credits are required as outlined below:

Code	Title	Credits
ECON 301	Intermediate Microeconomics	3
ECON 302	Intermediate Macroeconomics	3
ECON 353	Economic Development	3
POL SCI 330	The Politics of International Economic Relations	3
Select a minimum of two of the following:		6
BUS ADM 465	International Marketing	
BUS ADM 496	International Business	
ECON 351	Introduction to International Economic Relations	
ECON 454	International Trade	
ECON 455	International Finance	
POL SCI 316	International Law	
POL SCI 370	International Conflict	
URBPLAN 315	Great Cities of the World: Their Growth and Guided Urbanization	
URBPLAN 684	Planning Local Economic Development	
<b>Total Credits</b>		<b>18</b>

### Option C: World Languages and Culture

This option emphasizes the cultural aspects of international studies, examining topics such as globalization and politics from a range of perspectives. 18 credits are required as outlined below:

Code	Title	Credits
Select four from the following list, selecting from four different disciplinary areas:		12

Current students with questions about the International Studies major can contact Assistant Director, Christine Wolf, [cawolf@uwm.edu](mailto:cawolf@uwm.edu).

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your

entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Honors in the Major

Honors and high honors in the major are awarded at graduation to students who achieve the following:

**Honors:** at least a 3.0 overall GPA with a 3.5 GPA on all credits attempted in the major and a 3.50 GPA on all advanced credits attempted in the major;

**High Honors:** at least a 3.0 overall GPA with a 3.75 GPA on all credits attempted in the major and a 3.75 GPA on all advanced credits attempted in the major.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## International Studies, Minor

Students in UWM's International Studies minor take courses in history, political science, economics, anthropology, comparative literature, and foreign languages to build a program around their own specialized interests in international relations, politics, economics, or development.

Understanding the nuances of globalization in our personal and professional lives, speaking the languages of others, and appreciating cultural diversity are essential skills for living and working in the world today. The International Studies minor is based on the principles of the liberal arts with an emphasis on broad knowledge of people, places, and institutions, making for more adaptable and marketable young professionals in a fast-moving global economy. International studies minors learn to interact across cultures, study languages, analyze problems across cultural or national boundaries, adapt to new situations, appreciate differences in people and processes, and problem solve across different areas and formats.

With this background, students enhance their skill set preparing them for today's job opportunities in many different industries and for many different roles. Career choices immediately after college are often influenced by the hands-on experiences obtained during the college years. Students are encouraged to explore all of their options through internships, which may be completed for credit as part of the program.

Similarly, while not required for the minor, a study abroad (<http://uwm.edu/cie/study-abroad/>) experience can open up new opportunities that would not have even been imagined prior to going abroad. UWM has programs at more than 70 sites around the world that vary in length from a few weeks of immersion, to semester-long, to even full year programs.

Students often wonder what the differences are between Global Studies and International Studies. The foreign language requirements for the International Studies program are not as stringent as those in Global Studies, and study abroad or internship experiences are not required for International Studies. In addition, International Studies coursework is focused exclusively on courses found in the College of Letters & Science.

## Requirements

The International Studies minor consists of a total of 18 credits, in which students must attain a GPA of 2.0 in all UWM credits attempted for the

minor. In addition, the College requires that students attain a 2.0 GPA in all minor credits attempted, including transfer work. Students must complete in residence at UWM at least 9 credits of upper-division courses (numbered 300 and above) in the minor. Students may declare the minor after completing at least 15 credits.

Code	Title	Credits
<b>Required</b>		
INTLST 550	Senior Seminar in International Studies: (satisfies L&S research requirement)	3
Select one of the following:		3-4

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Jewish Studies

UWM is one of the only places in the world where students can earn a BA in Jewish Studies completely online. If you are on campus, you can earn your degree in Jewish Studies with a mixture of online and in-

## Faculty

## Holocaust, Genocide, and Human Rights Studies, Undergraduate Certificate

The Certificate in Holocaust, Genocide, and Human Rights Studies is a multidisciplinary Certificate that confronts the social forces that lead to genocide. With the Holocaust as its foundation, the Certificate encourages students to look broadly at the moral, social, and political contexts of genocide and post-genocide memory and to use their understanding of the Holocaust and genocide to create meaningful change in our world.

## Eligibility

The program is open to undergraduates and to post-baccalaureate special students.

Undergraduate students concurrently completing a bachelor's degree receive the certificate upon completion of their degree requirements; post-baccalaureate special students receive the certificate upon completion of the required coursework.

person classes. UWM is also one of the only places where you can learn Modern Hebrew in fully online classes, allowing you to take classes from anywhere in the world and to fit language learning into the rest of your schedule. Special pricing for out-of-state students for Jewish Studies and Hebrew courses greatly reduces the cost from regular out-of-state rates.

Studying Jewish Studies at UWM allows you to engage richly with the culture and religion of the Jewish people through language, history, arts, media, politics, and literature. Our personalized program really lets you get to know your professors. Our approach to Jewish Studies is broad and inclusive, attracting Jewish and non-Jewish students.

Our students go on to careers in Holocaust education, Jewish communal services, religious education, or on to rabbinical school or advanced graduate study. Some of our students double major in Jewish Studies and History, or Jewish Studies and Religious Studies, as some of our courses count for both majors.

Contact us for more information - we look forward to speaking with you.

## Programs

- Holocaust, Genocide, and Human Rights Studies, Undergraduate Certificate (p. 1142)
- Jewish Studies, BA (p. 1143)
- Jewish Studies, Minor (p. 1147)

## Requirements

To obtain the certificate, the student must complete, with a minimum grade point average of 2.0, at least 18 credits (at least 6 courses) in courses approved for the certificate, of which at least 12 credits must be in Letters and Science courses, with 6 of those at the 300 level or above. At least 12 credits must be earned in residence at UWM, and at least 9 of the credits taken in residence must be at the 300 level or above. No more than 12 credits from any one department may count toward the certificate. Courses for the certificate may not be taken on a credit/no credit bases.

Code	Title	Credits
<b>Core Courses</b>		<b>9</b>
Select three courses from the following list. One course must be from the History curricular area.		
HIST 363	Germany: Hitler and the Nazi Dictatorship	
HIST 364	The Holocaust: Anti-Semitism & the Fate of Jewish People in Europe, 1933-45	

JEWISH 247	Topics in Jewish Literature, Art, and Culture: (w/appropriate topic)
JEWISH 261	Representing the Holocaust in Words and Images
JEWISH 321	The Holocaust and the Politics of Memory
JEWISH 368	Jewish and Christian Responses to the Holocaust
<b>Electives</b> <sup>1</sup>	<b>9</b>
AFRIC 111	Introduction to African-American History to 1865
AFRIC 112	Introduction to African-American History, 1865 to the Present
AFRIC 420	The Political Economy of Slavery
ANTHRO 426	Who Owns the Past?
ANTHRO/GLOBAL 442	Humanitarianism in Global Perspective
COMPLIT 230	Literature and Society: (with appropriate subtitle)
COMPLIT 309	Great Works of Modern Literature: (with appropriate subtitle)
COMPLIT 360	Seminar in Literature and Cultural Experience: (with appropriate subtitle)
COMPLIT 461	Film-Fiction Interaction: (with appropriate subtitle)
GLOBAL 447	The Global Politics of Human Rghts
HIST 363	Germany: Hitler and the Nazi Dictatorship (if not selected above)
HIST 364	The Holocaust: Anti-Semitism & the Fate of Jewish People in Europe, 1933-45 (if not selected above)
JEWISH 247	Topics in Jewish Literature, Art, and Culture: (w/appropriate topic, if not selected above)
JEWISH 261	Representing the Holocaust in Words and Images (if not selected above)
JEWISH 368	Jewish and Christian Responses to the Holocaust (if not selected above)
PHILOS 241	Introductory Ethics
PHILOS 242	Introduction to Social and Political Philosophy
PHILOS 243	Moral Problems:
PHILOS 341	Modern Ethical Theories
PHILOS 355	Political Philosophy
PHILOS 384	The Philosophy of Law
SOCIOL 104	Introduction to Social Psychology
<b>Total Credits</b>	<b>18</b>

<sup>1</sup> Other electives may be approved by the coordinator.

## Jewish Studies, BA

Jewish Studies majors at UWM examine the culture and religion of the Jewish people through language, history, arts, media, politics, and literature.

A major in Jewish Studies prepares students for work in a multicultural world with a skill set that includes the ability to analyze texts and weigh different interpretations, present persuasive arguments in writing and speech, and appreciate different backgrounds and viewpoints. Jewish Studies alumni have found careers in social welfare, Jewish organization administration, government, business administration, journalism, the arts, education, and other fields. Further graduate study has led others to careers in religious leadership, medicine, and the law.

UWM students can choose a Hebrew track within the major which has a focus on the foundations of Judaism, including extensive study of the Hebrew language. Or, students can opt for the Jewish Studies track with an emphasis on modern Jewish history, literature, film and politics.

Jewish Studies majors and minors can further their education by participating in UWM's Study Abroad opportunities in Israel. Majors and minors studying in Israel are eligible for travel awards from the Stahl Center for Jewish Studies. The Stahl Center for Jewish Studies also offers other scholarships and awards to outstanding Jewish Studies majors and minors, including a scholarship for majors that helps students in their final semesters, so they can progress to graduation more easily.

A major in Jewish Studies may be of particular interest to students earning a certificate in Middle Eastern and North African Studies, Cultures and Communities, and/or Comparative Ethnic Studies, or as a second major with History or Religious Studies.

The major can be completed fully online for students who need coursework that fits their schedules.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

#### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

#### Arts

Select 3 credits 3

#### Humanities

Select 6 credits 6

#### Social Sciences

Select 6 credits 6

#### Natural Sciences

Select 6 credits (at least two courses including one lab) 6

#### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

#### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing

course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete

*the BA, students must take one of the L&S approved courses. Not all of the courses listed here will satisfy the QL-B requirement.*

Complete 3 credits in a course with Cultural Diversity (CD) designation.**	3
--	---

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
	Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)	
	Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)	

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
	Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above	
	Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.	
	Complete 9 credits in combination of the two options above.	

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
	Select 3 credits	3
<b>Humanities</b>		
	Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *	12
<b>Social Sciences</b>		
	Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *	12
<b>Natural Sciences</b>		
	Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *	12
<b>Cultural Diversity</b>		

- \* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.
- \*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

#### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Major Requirements

All majors in Jewish Studies are required to register with the program at the beginning of their candidacy and are encouraged to speak to the program coordinator as early as possible to plan a course of study.

Jewish Studies majors in both tracks must complete a minimum of 15 advanced-level (numbered 300 and above) credits in L&S courses taken in residence at UWM. A GPA of 2.0 is required in courses taken for the major at UWM and in all courses that count for the major, including transfer work. All majors in Jewish Studies must complete a minimum of 30 credits in the major.

Code	Title	Credits
<b>Core</b>		
Select one of the following:		3
JEWISH 100	Introduction to Judaism	
JEWISH/HIST 358	The Jews of Modern Europe: History and Culture	
JEWISH/HIST 379	Introduction to Jewish History	
<b>Research Requirement (All research courses and projects must be approved by the coordinator)</b>		3
Select one of the following:		
JEWISH 699	Advanced Independent Study	

One of the 300 level or above courses listed below

Major Tracks	
Select one of the following:	24-26
Hebrew Studies Track	
Jewish Cultural Studies Track	
<b>Total Credits</b>	<b>30-32</b>

## Major Tracks

Students must select one of the following two tracks:

### Hebrew Studies Track

Hebrew language courses: Students are required to complete HEBREW 201 and HEBREW 202 in order to graduate in this track. HEBREW 101 and HEBREW 102 count toward the 100-200 level course requirement below.

Code	Title	Credits
HEBREW 201 & HEBREW 202	Third-Semester Hebrew and Fourth-Semester Hebrew	8
Select 6 credits of 100 or 200 level courses from the following:		6
HEBREW 101	First Semester Hebrew	
HEBREW 102	Second Semester Hebrew	
JEWISH 100	Introduction to Judaism (recommended)	
JEWISH 101	Jewish Culture in America: History, Literature, Film	
JEWISH 230	Bible Stories	
JEWISH 231	Introduction to the Old Testament/ Hebrew Bible	
JEWISH 235	The Dead Sea Scrolls and the Bible	
JEWISH 261	Representing the Holocaust in Words and Images	
HIST 282	The Modern Middle East in the Nineteenth and Twentieth Centuries	
Select 12 credits of 300 level or above courses from the following:		12
JEWISH 331	Topics in Biblical Literature:	
JEWISH 332	Women in the Bible	
JEWISH/POL SCI 328	The Arab-Israeli Conflict	
JEWISH/FILMSTD 350	Global Jewish Film and Television:	
JEWISH/HIST 358	The Jews of Modern Europe: History and Culture	
JEWISH 368	Jewish and Christian Responses to the Holocaust	
JEWISH/HIST 379	Introduction to Jewish History	
HIST 363	Germany: Hitler and the Nazi Dictatorship	
HIST 364	The Holocaust: Anti-Semitism & the Fate of Jewish People in Europe, 1933-45

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;

- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Jewish Studies, Minor

Jewish Studies minors at UWM examine the culture and religion of the Jewish people through language, history, arts, media, politics, and literature.

The Jewish Studies program prepares students for work in a multicultural world with a skill set that includes the ability to analyze texts and weigh different interpretations, present persuasive arguments in writing and speech, and appreciate different backgrounds and viewpoints. Jewish

Studies alumni have found careers in social welfare, Jewish organization administration, government, business administration, journalism, the arts, education, and other fields. Further graduate study has led others to careers in religious leadership as rabbis or cantors.

Jewish Studies minors can further their education by participating in UWM's Study Abroad opportunities in Israel. Majors and minors studying in Israel are eligible for travel awards from the Stahl Center for Jewish Studies. The Stahl Center for Jewish Studies also offers other scholarships and awards to outstanding Jewish Studies majors and minors, including a scholarship for majors that helps students in their final semesters, so they can progress to graduation more easily.

A minor in Jewish Studies may be of particular interest to students earning a certificate in Middle Eastern and North African Studies, Cultures and Communities, and/or Comparative Ethnic Studies, or a major in Religious Studies.

Both the major and minor can be completed fully online for students who need coursework that fits their schedules.

## Requirements

The minor requires completion of a minimum of 18 credits, at least 9 of which must be taken at the 300 level or above in residence at UWM, in courses approved for the major (see list below). Other courses may be counted towards the minor with approval of the coordinator. The College requires that students earn a GPA of at least 2.0 on all credits for the minor attempted at UWM. In addition, students must earn a GPA of 2.0 on all minor credits attempted, including any transfer work.

Select 18 credits from the following:

Code	Title	Credits
HEBREW 101	First Semester Hebrew	4
HEBREW 102	Second Semester Hebrew	4
HEBREW 201	Third-Semester Hebrew	4
HEBREW 202	Fourth-Semester Hebrew	4
HIST 282	The Modern Middle East in the Nineteenth and Twentieth Centuries	3
HIST 363	Germany: Hitler and the Nazi Dictatorship	3
HIST 364	The Holocaust: Anti-Semitism & the Fate of Jewish People in Europe, 1933-45	3
JEWISH 100	Introduction to Judaism	3
JEWISH 101	Jewish Culture in America: History, Literature, Film	3
JEWISH 230	Bible Stories	3
JEWISH 231	Introduction to the Old Testament/ Hebrew Bible	3
JEWISH 235	The Dead Sea Scrolls and the Bible	3
JEWISH 261	Representing the Holocaust in Words and Images	3
JEWISH/POL SCI 328	The Arab-Israeli Conflict	3
JEWISH 331	Topics in Biblical Literature:	3
JEWISH 332	Women in the Bible	3
JEWISH/FILMSTD 350	Global Jewish Film and Television:	3
JEWISH/HIST 358	The Jews of Modern Europe: History and Culture	3

JEWISH 368	Jewish and Christian Responses to the Holocaust	3
JEWISH/HIST 379	Introduction to Jewish History	3
JEWISH 699	Advanced Independent Study	1-3

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Faculty

Name	Rank	Degree	School	Graduate Faculty	Emeritus Faculty
Jackie Bradway	Lecturer	MA	Webster University		
Camila Guarda Velasco	Lecturer	MFA	Northwestern University

Jeffery Smith	Professor	PhD	University of Wisconsin-Madison		✓

## Journalism, Advertising, and Media Studies, BA

The worlds of journalism, advertising, and public relations are changing at a rapid pace with the integration of social media, mobile apps, amateur photography and video, and instant feedback. UWM's Department of Journalism, Advertising, and Media Studies (JAMS) is a great place to learn about the tools used today and to obtain the skills to adapt to the channels of tomorrow.

The Department of Journalism, Advertising, and Media Studies (JAMS) teaches students about the role of media in culture and society and offers hands-on experience in journalism and advertising/public relations.

## Journalism, Advertising, and Media Studies

The Department of Journalism, Advertising, and Media Studies offers a major or minor in journalism, advertising, and media studies that emphasizes the study of the social implications and responsibilities of the mass media, an understanding of the processes of communication, and a fundamental knowledge of media communication techniques and procedures. The program provides students with a broad background in the liberal arts and sciences, which are vital aspects of contemporary life and essential to those entering careers in media communication.

## Cross-listed Courses

The following courses offered by the Department of English may be used to fulfill curricular requirements of the undergraduate major or minor in journalism, advertising, and media studies:

Code	Title	Credits
ENGLISH 430	Advanced Writing Workshop	3
ENGLISH 435	Rhetoric and Professional Writing	3

## Programs

- Journalism, Advertising, and Media Studies, BA (p. 1148)
- Journalism, Advertising, and Media Studies, Minor (p. 1152)

The JAMS major blends liberal arts education in media studies with professional training for work in media fields.

JAMS undergraduate students choose one of three concentrations based on their interests and career aspirations: journalism, advertising/public relations, and media studies. Students have opportunities to learn from media scholars and industry professionals, and they produce media in their chosen areas of study.

Our students report news stories, run social media pages, produce short documentaries and podcasts, and research, plan, and conduct events for nonprofit organizations. JAMS students have several opportunities to learn outside the classroom through active clubs and organizations including a student chapter of the Public Relations Society of America, Ad Club, Journalism Club, The UWM Post, and the Minority Media

Association. Student work is showcased on a student-powered online news site, Media Milwaukee. Many JAMS students have internships which earn major credits.

JAMS majors excel in careers in writing, reporting, editing, marketing, advertising, broadcasting, public relations, social media management, journalism, and more.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		

#### Part A

Achieve a grade of C or better in the following course:

ENGLISH 102	College Writing and Research (or equivalent)	
-------------	--	--

#### Part B

Course designated as OWC-B; may be completed through a major-specific course requirement

#### Quantitative Literacy

##### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		

##### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

<b>Arts</b>		
Select 3 credits		3

<b>Humanities</b>		
Select 6 credits		6

<b>Social Sciences</b>		
Select 6 credits		6

<b>Natural Sciences</b>		
Select 6 credits (at least two courses including one lab)		6

<b>UWM Foreign Language Requirement</b>		
Complete Foreign Language Requirement through:		
Two years (high school) of a single foreign language		
Two semesters (college) of a single foreign language		
Or equivalent		

<b>UWM Cultural Diversity Requirement</b>		
One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement		

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3

MATH 175 Mathematical Explorations for Elementary Teachers I 3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways: 0-18		
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College

requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement**

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

**VII. The Minor**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

**JAMS Major Requirements**

Students must complete 18 or more credits in courses numbered 300 or above, and at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. Students may count a maximum of 6 credits in any combination of JAMS 399 and JAMS 600, each of which can be taken to a maximum of 6 credits. The College of Letters and Science requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. Students must attain a 2.0 GPA on all major credits attempted, including transfer work.

A Journalism, Advertising, and Media Studies (JAMS) major requires a minimum of 36 credits in JAMS and at least 12 credits in a single program other than JAMS, of which, at least 6 credits must be at the 300 level or above:

Code	Title	Credits
<b>Required</b>		
JAMS 101	Introduction to Mass Media	3
JAMS 201	Media Writing	3
JAMS 559	Freedom of Expression in the Digital Age	3
or JAMS 461	Media Ethics	
Complete 12 credits of JAMS Electives <sup>1</sup>		12
Select 12 credits in a single program outside of JAMS <sup>2</sup>		12
Select at least one JAMS 600-level course with the word "Seminar" in its title to meet the L&S requirement for a research experience in the major		3
<b>Concentration (see requirements listed below)</b>		<b>12</b>
Select one of the following:		
Journalism		
Media Studies		
Advertising/Public Relations		
<b>Total Credits</b>		<b>48</b>

<sup>1</sup> COMMUN 103 and COMMUN 105 also count as lower level JAMS electives.

<sup>2</sup> At least 6 credits must be at the 300 level or above.

**Concentration Requirements**

**Journalism**

Code	Title	Credits
JAMS 204	News Writing	3
JAMS 320	News Reporting	3

Select at least two of the following:		6
JAMS 325	Audio Storytelling	
JAMS 332	Introduction to Digital Documentary	
JAMS 342	Television News Reporting	
JAMS 500	Advanced Integrated Reporting	
JAMS 502	Specialized Reporting:	

**Total Credits 12**

**Media Studies**

Code	Title	Credits
JAMS 262	Principles of Media Studies	3
JAMS 562	Media Studies and Culture	3

Select one of the following: 3

JAMS 207	Introduction to Advertising and Public Relations	
JAMS 231	Publication Design	
JAMS 232	Photojournalism	
JAMS 302	Introduction To Video Storytelling	
JAMS 306	Feature and Magazine Article Writing:	
JAMS 325	Audio Storytelling	
JAMS 336	Media Graphics	
JAMS 370	Introduction to Social Media and Search Engine Optimization	
JAMS 504	Critical and Opinion Writing	

Select one of the following: <sup>1</sup> 3

JAMS 304	News Literacy	
JAMS 450	Race and Ethnicity in the Media	
JAMS 460	History of Mass Media	
JAMS 461	Media Ethics <sup>2</sup>	
JAMS 559	Freedom of Expression in the Digital Age <sup>2</sup>	
JAMS 614	Seminar in Media and Public Opinion	
JAMS 615	Seminar in Media and Politics	
JAMS 620	Seminar in Global Media	
JAMS 660	Seminar in Contemporary Issues in Media Studies:	
JAMS 661	Seminar in Media Communication and Society.	

**Total Credits 12**

<sup>1</sup> One Media Studies course from among the following (in addition to at least one JAMS 600-level course with the word "Seminar" in its title selected to meet the L&S requirement for a research experience in the major).

<sup>2</sup> If JAMS 461 or JAMS 559 is chosen for the Media Studies Elective, it cannot be double-counted as an Upper-Level Core Requirement.

**Advertising/Public Relations**

Code	Title	Credits
JAMS 207	Introduction to Advertising and Public Relations	3
JAMS 307	Persuasive Media Writing and Production:	3
JAMS 524	Advertising and Public Relations Campaigns	3

Select one of the following:	3
JAMS 317	Design for Advertising
JAMS 407	Media Planning
JAMS 417	Branding and Campaign Analysis
JAMS 505	Research for Advertising and Public Relations
<b>Total Credits</b>	<b>12</b>

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Journalism, Advertising, and Media Studies, Minor

The worlds of journalism, advertising, and public relations are changing at a rapid pace with the integration of social media, mobile apps, amateur photography and video, and instant feedback. UWM's Department of Journalism, Advertising, and Media Studies (JAMS) is a great place to learn about the tools used today and to obtain the skills to adapt to the channels of tomorrow.

The Department of Journalism, Advertising, and Media Studies (JAMS) teaches students about the role of media in culture and society and offers hands-on experience in journalism and advertising/public relations. The JAMS major blends liberal arts education in media studies with professional training for work in media fields.

JAMS majors choose one of three concentrations based on their interests and career aspirations: journalism, advertising/public relations, and media studies; minors take a more general array of coursework.

Our students report news stories, run social media pages, produce short documentaries and podcasts, and research, plan, and conduct events for nonprofit organizations. JAMS students have several opportunities to learn outside the classroom through active clubs and organizations including a student chapter of the Public Relations Society of America, Ad Club, Journalism Club, The UWM Post, and the Minority Media Association. Student work is showcased on a student-powered online news site, Media Milwaukee. Many JAMS students have internships which earn major credits.

JAMS majors excel in careers in writing, reporting, editing, marketing, advertising, broadcasting, public relations, social media management, journalism, and more.

## Requirements

A minor in journalism, advertising, and media studies consists of a minimum of 18 credits in journalism, advertising, and media studies including:

Code	Title	Credits
JAMS 101	Introduction to Mass Media	3
JAMS 201	Media Writing	3
Select 12 additional JAMS credits		12
<b>Total Credits</b>		<b>18</b>

### Additional Requirements

- At least 9 credits must be at the 300 level or above taken in residence at UWM.
- The College requires that students attain at least a 2.0 GPA on credits in the minor attempted at UWM.
- Students must attain a 2.0 GPA on all minor credits attempted, including transfer work.

### Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Language, Literature & Translation MA in Language, Literature, and Translation (MALLT)

The MA in Language, Literature, and Translation (MALLT) is an interdisciplinary MA degree program focused on global languages, literatures and translation. With over 50 faculty from five different departments, MALLT offers a flexible program of study tailored to your professional goals. Three departments—French, Italian and Comparative Literature, Foreign Languages and Literature and Translation & Interpreting Studies cooperate in offering this interdepartmental, interdisciplinary master's program designed for the student who wishes to focus on language, literature, and translation on a cross-cultural basis. Students may complete one of the following concentrations: Comparative Literature; French and Francophone Language, Literature, and Culture; German Language, Literature, and Culture and Translation (Professional Track or Research Track). In addition to these specific concentrations, students may pursue coursework in Classical Greek; Classics; Hebrew Studies, Italian Studies, Latin; and Slavic Languages. MALLT also allows students interested in Linguistics or Spanish to complete double concentrations, or the joint MLIS/MALLT of MBA/MALLT (Translation) coordinated degrees.

### Programs

- Language, Literature, and Translation, MA (p. 1153)
- Language, Literature, and Translation, MA/Library and Information Science, MLIS (p. 1155)
- Language, Literature, and Translation, MA: Comparative Literature (p. 1156)
- Language, Literature, and Translation, MA: French and Francophone Language, Literature, and Culture (p. 1157)
- Language, Literature, and Translation, MA: German Language, Literature, and Culture (p. 1159)
- Language, Literature, and Translation, MA: Interpreting (p. 1160)
- Language, Literature, and Translation, MA: Linguistics (p. 1162)
- Language, Literature, and Translation, MA: Spanish and Hispanophone Language, Literature, and Culture (p. 1163)
- Language, Literature, and Translation, MA: Translation (p. 1165)

departments, MALLT offers a highly flexible program of study tailored to your professional goals.

Three departments — Global Studies; Ancient and Modern Languages, Literatures, and Cultures; and Translation & Interpreting Studies cooperate to offer this interdepartmental, interdisciplinary master's program designed for the student who wishes to focus on language,

literature, and translation on a cross-cultural basis. Students may complete one of the following concentrations: Comparative Literature (p. 1156); French and Francophone Language, Literature, and Culture (p. 1157); German Language, Literature, and Culture (p. 1159), Translation (p. 1165) (Professional Track or Research Track), and Interpreting (p. 1160). In addition to these specific concentrations, students may pursue coursework in Classical Greek; Classics; Hebrew Studies, Italian Studies, Latin; and Slavic Languages. MALLT also allows students interested in Linguistics (p. 1162); Spanish (p. 1163); Translation (p. 1165) or Interpreting (p. 1160) to complete double concentrations, or the joint Master of Library Information Sciences/ MALLT coordinated degree.

Inquiries concerning this program should be directed to the Coordinator of the Language, Literature, and Translation program. Email the MALLT program ([mallt-program@uwm.edu](mailto:mallt-program@uwm.edu)) for more information.

Being bilingual is not enough to be a successful translator. Professional translators must be experts in both source and target cultures, skilled readers of the source language and superb writers of the target language. In addition, they need expertise in an area of specialization and a solid grasp of the language-services industry.

Our Translation & Interpreting Studies programs are housed in an accredited, Tier 1 Research institution and offer professional translator and interpreter training in a dynamic environment. Students collaborate with faculty and classmates from around the world to develop the skills they need to succeed in a thriving international market. Learn how to translate and/or interpret, and how to be a language professional through using leading industry computer-assisted translation tools and completing internships that often lead to employment. Our program can prepare you to:

- be an in-house translator
- be a freelancer
- be a translation company owner
- specialize in your area of interest
- pursue doctoral studies
- develop your professional skills without pursuing a degree

Please visit this page (<https://uwm.edu/translation-interpreting-studies/contact/request-for-information/>) to request more information.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these program requirements to be considered for admission to the program:

1. Knowledge of a language other than English. Entrance competencies for specific concentrations are as follows:
  - **Language concentrations:** an undergraduate major in the language, or comparable background, such as coursework, a significant immersion experience, or native fluency combined with appropriate academic training.

- **Translation tracks:** competence on a qualifying examination.
  - **Comparative Literature concentration:** an undergraduate major in comparative literature, including advanced study of a language other than English, or equivalent literary and language preparation.
  - **Linguistics concentration:** an undergraduate major in linguistics or in a related field, such as English, a foreign language, psychology, philosophy, or anthropology; and at least a basic-level familiarity with a language other than English, as evidenced by coursework, immersion experience or native fluency.
2. Submission to the MALLT Program of three letters of recommendation, at least two of which should be from instructors acquainted with the student's academic work.
  3. Submission to the MALLT Program of a well-developed statement of approximately 500 words outlining the applicant's academic background and interests, reasons for graduate study in the MALLT program, intended concentration and professional goals.

Applicants who meet general Graduate School requirements (an undergraduate grade point average of at least 2.75) and the above program requirements may be admitted in good standing.

Upon recommendation of the Coordinating Committee, an applicant lacking in course background may be admitted with specified deficiencies in the above on the condition that the deficiencies be made up by the end of the first full semester (9-12 credits). Credits earned in making up deficiencies do not count toward the degree. If an applicant furnishes substantial evidence of capacity to do satisfactory graduate work despite a deficiency in GPA on admission, probationary admission may be recommended.

## Credits and Courses

No credits carrying a grade below B- may be counted toward meeting the MALLT degree requirement of 30 credits.

The MALLT degree offers two tracks:

- the Standard Track within which students may complete one of eight concentrations and
- the Translation Track, which will be designated as a concentration on the student's transcript.

Students are not obligated to elect a concentration, but many will find it beneficial to do so. They also have the option of completing two concentrations, but, in doing so, students must complete all requirements for each concentration and a minimum of 36 credits for the degree.

### Standard Track

Thirty graduate credits are required, 6 of which must be in core seminars in the language, literature, and linguistics areas. The student develops a program of study in consultation with the Major Professor, normally including the following:

Code	Title	Credits
	Select two core seminars as a foundation in basic aspects of languages, literatures, and linguistics	6

Select five to eight courses in a language, literature, or linguistics area to permit concentration in the student's major area of interest. Select the remaining credits in related areas to give the program breadth. 24

**Total Credits** 30

## Additional Requirements

### Transfer of Credits

Any course submitted for transfer must be no more than five years old at the time of the student's admission to the MALLT Program, must have been taken at the graduate level in a recognized institution, and must have been completed with a grade of B or better. Since Graduate School regulations allow the transfer of only 12 non-degree graduate credits to a master's program, students are advised to apply for degree candidacy in the MALLT program before completion of 12 credits of coursework.

### Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations.

The Coordinating Committee refers each incoming student to a temporary advisor, normally the Graduate Advisor in the student's chosen concentration, as stated in the application. The Graduate Advisor assists in assessing the student's competencies, interests, and future academic or professional needs. Normally, the Graduate Advisor recommends a Major Professor after his/her initial meeting with the student.

The Major Professor and the student establish a plan of study by the end of the student's first semester of graduate work. The plan will be reviewed by the Major Professor and the student after the successful completion of 12 credits and the removal of any deficiencies that may have been assessed at admission. At the time of the review, the student may request another Major Professor in the event that his/her programmatic needs have been modified or altered. Subsequent minor changes must be approved by the Major Professor.

The Major Professor evaluates and updates the student's progress after completion of every six (6) credits or every semester of subsequent work. The student may not register for any courses without this advisor's prior approval.

### Time Limit

The student must complete all degree requirements within five years of initial enrollment.

## Language, Literature, and Translation, MA/Library and Information Science, MLIS

In collaboration with several other academic units at UW-Milwaukee, SOIS offers students the opportunity to obtain two Master's degrees concurrently—one in Library and Information Science (MLIS) and one in a subject area.

## Degree Requirements

- The number of degree credits needed for each of the coordinated programs is usually 12 fewer than the sum of the two programs if they were not taken simultaneously. *All degree requirements of each component must be satisfied.*

- The MLIS portion of the coordinated degrees can be completed online.
- Prerequisite to the award of either degree in this program is the simultaneous award of its counterpart degree.

## MLIS Component

The Master of Library and Information Science (MLIS) component of each of the coordinated programs includes 30 credits of SOIS courses. These include the MLIS core courses (12 credits). The remaining 18 MLIS credits are selected from the School's offerings in accordance with the student's goals in the coordinated degree program.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet the UWM Graduate School requirements plus all admission requirements of both the School of Information Studies and the coordinated degree department. Please review the admission details of each program and contact an advisor with any questions.

## Credits and Courses

### Basic Required MLIS Courses

Code	Title	Credits
<b>Core Courses</b>		
INFOST 501	Foundations of Library and Information Science	3
INFOST 511	Organization of Information	3
INFOST 571	Information Access and Retrieval	3
INFOST 799	Research Methods in Information Studies	3
<b>Other MLIS courses</b>		<b>18</b>
<b>Total Credits</b>		<b>30</b>

### Important

You must refer to the catalog pages of both individual master's programs to ensure that you meet all requirements for both degrees.

**Note:** The full requirements for MALLT concentrations appear below. Some electives are waived for the MLIS/MALLT program.

### Linguistics Requirements

The following are the minimum course requirements for a concentration within the Standard Track:

Code	Title	Credits
<b>Core Seminars</b>		
Selected two of the following:		6
LINGUIS 708	Proseminar in Linguistics	
MALLT 706	Seminar in Foreign Language Methodology and Pedagogy	

CURRINS 800	Master's Seminar in Curriculum and Instruction	
PHILOS 681	Seminar in Advanced Topics: (subtitle)	
<b>Additional Requirements</b>		
LINGUIS 461	Introduction to Phonology	3
LINGUIS 464	Introduction to Syntax	3
Select three additional courses in Linguis		9
Select three additional linguistics courses in or outside the Department of Linguistics		
<b>Electives</b>		
Select 9 credits in consultation with the student's advisor <sup>1</sup>		9
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> May include up to 6 credits in MALLT 790.

### Spanish and Hispanophone Language, Literature, and Culture Requirements

The following are the minimum course requirements for a concentration within the Standard Track:

Code	Title	Credits
Select two core seminars as a foundation in basic aspects of languages, literatures, and linguistics		6
Select at least 15 graduate credits in Spanish		15
Select three courses in related areas to give the program breadth		9
<b>Total Credits</b>		<b>30</b>

### Additional Requirements

Students interested in the MALLT/MLIS program will be expected to follow all of the requirements and standards as described in this section of the Catalog. Nine of the 30 credits normally required for a MALLT degree will be satisfied by courses taken in SOIS. In the coordinated degree program, MALLT thesis option credits will be in addition to the 21 required MALLT credits. Courses in related areas must be approved by the Coordinator of MALLT.

- See the [MALLT](#) and MLIS (p. 493) pages for more information.

## Language, Literature, and Translation, MA: Comparative Literature

The MA in Language, Literature, and Translation (MALLT) is an interdisciplinary MA degree program focused on global languages, literatures and translation. With over 50 faculty from multiple departments, MALLT offers a highly flexible program of study tailored to your professional goals.

Three departments — Global Studies; Ancient and Modern Languages, Literatures, and Cultures; and Translation & Interpreting Studies cooperate to offer this interdepartmental, interdisciplinary master's program designed for the student who wishes to focus on language, literature, and translation on a cross-cultural basis. Students may complete one of the following concentrations: Comparative Literature (p. 1156); French and Francophone Language, Literature, and Culture (p. 1157); German Language, Literature, and Culture (p. 1159), Translation (p. 1165) (Professional Track or Research Track), and

Interpreting (p. 1160). In addition to these specific concentrations, students may pursue coursework in Classical Greek; Classics; Hebrew Studies, Italian Studies, Latin; and Slavic Languages. MALLT also allows students interested in Linguistics (p. 1162); Spanish (p. 1163); Translation (p. 1165) or Interpreting (p. 1160) to complete double concentrations, or the joint Master of Library Information Sciences/ MALLT coordinated degree.

Inquiries concerning this program should be directed to the Coordinator of the Language, Literature, and Translation program. Email the MALLT program ([mallt-program@uwm.edu](mailto:mallt-program@uwm.edu)) for more information.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these program requirements to be considered for admission to the program:

1. Knowledge of a language other than English. Entrance competencies for specific concentrations are as follows:
  - **Language concentrations:** an undergraduate major in the language, or comparable background, such as coursework, a significant immersion experience, or native fluency combined with appropriate academic training.
  - **Translation tracks:** competence on a qualifying examination.
  - **Comparative Literature concentration:** an undergraduate major in comparative literature, including advanced study of a language other than English, or equivalent literary and language preparation.
  - **Linguistics concentration:** an undergraduate major in linguistics or in a related field, such as English, a foreign language, psychology, philosophy, or anthropology; and at least a basic-level familiarity with a language other than English, as evidenced by coursework, immersion experience or native fluency.
2. Submission to the MALLT Program of three letters of recommendation, at least two of which should be from instructors acquainted with the student's academic work.
3. Submission to the MALLT Program of a well-developed statement of approximately 500 words outlining the applicant's academic background and interests, reasons for graduate study in the MALLT program, intended concentration and professional goals.

Applicants who meet general Graduate School requirements (an undergraduate grade point average of at least 2.75) and the above program requirements may be admitted in good standing.

Code	Title	Credits
	Select two core seminars as a foundation in basic aspects of languages, literatures, and linguistics	6
	Select at least 15 graduate credits in German	15
	Select three courses in related areas to give the program breadth	9
<b>Total Credits</b>		<b>30</b>

## Additional Requirements

### Transfer of Credits

Any course submitted for transfer must be no more than five years old at the time of the student's admission to the MALLT Program, must have been taken at the graduate level in a recognized institution, and must have been completed with a grade of B or better. Since Graduate School regulations allow the transfer of only 12 non-degree graduate credits to a master's program, students are advised to apply for degree candidacy in the MALLT program before completion of 12 credits of coursework.

### Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations.

The Coordinating Committee refers each incoming student to a temporary advisor, normally the Graduate Advisor in the student's chosen concentration, as stated in the application. The Graduate Advisor assists in assessing the student's competencies, interests, and future academic or professional needs. Normally, the Graduate Advisor recommends a Major Professor after his/her initial meeting with the student.

The Major Professor and the student establish a plan of study by the end of the student's first semester of graduate work. The plan will be reviewed by the Major Professor and the student after the successful completion of 12 credits and the removal of any deficiencies that may have been assessed at admission. At the time of the review, the student may request another Major Professor in the event that his/her programmatic needs have been modified or altered. Subsequent minor changes must be approved by the Major Professor.

The Major Professor evaluates and updates the student's progress after completion of every six (6) credits or every semester of subsequent work. The student may not register for any courses without this advisor's prior approval.

### Time Limit

The student must complete all degree requirements within five years of initial enrollment.

# Language, Literature, and Translation, MA: Interpreting

The Interpreting Track is designed for those considering careers as professional language interpreters.

The MA in Language, Literature, and Translation (MALLT) is an interdisciplinary MA degree program focused on global languages, literatures and translation. With over 50 faculty from multiple departments, MALLT offers a highly flexible program of study tailored to your professional goals.

Three departments — Global Studies; Ancient and Modern Languages, Literatures, and Cultures; and Translation & Interpreting Studies cooperate to offer this interdepartmental, interdisciplinary master's program designed for the student who wishes to focus on language, literature, and translation on a cross-cultural basis. Students may complete one of the following concentrations: Comparative Literature (p. 1156); French and Francophone Language, Literature, and Culture (p. 1157); German Language, Literature, and Culture (p. 1159), Translation (p. 1165) (Professional Track or Research Track), and Interpreting (p. 1160). In addition to these specific concentrations, students may pursue coursework in Classical Greek; Classics; Hebrew Studies, Italian Studies, Latin; and Slavic Languages. MALLT also allows students interested in Linguistics (p. 1162); Spanish (p. 1163); Translation (p. 1165) or Interpreting (p. 1160) to complete double concentrations, or the joint Master of Library Information Sciences/ MALLT coordinated degree.

Inquiries concerning this program should be directed to the Coordinator of the Language, Literature, and Translation program. Email the MALLT program ([mallt-program@uwm.edu](mailto:mallt-program@uwm.edu)) for more information.

Being bilingual is not enough to be a successful translator. Professional translators must be experts in both source and target cultures, skilled readers of the source language and superb writers of the target language. In addition, they need expertise in an area of specialization and a solid grasp of the language-services industry.

Our Translation & Interpreting Studies programs are housed in an accredited, Tier 1 Research institution and offer professional translator and interpreter training in a dynamic environment. Students collaborate with faculty and classmates from around the world to develop the skills they need to succeed in a thriving international market. Learn how to translate and/or interpret, and how to be a language professional through using leading industry computer-assisted translation tools and completing internships that often lead to employment. Our program can prepare you to:

- be an in-house translator
- be a freelancer
- be a translation company owner
- specialize in your area of interest
- pursue doctoral studies
- develop your professional skills without pursuing a degree

Please visit this page (<https://uwm.edu/translation-interpreting-studies/contact/request-for-information/>) to request more information.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these program requirements to be considered for admission to the program:

1. Knowledge of a language other than English. Entrance competencies for specific concentrations are as follows:
  - **Language concentrations:** an undergraduate major in the language, or comparable background, such as coursework, a significant immersion experience, or native fluency combined with appropriate academic training.
  - **Translation tracks:** competence on a qualifying examination.
  - **Comparative Literature concentration:** an undergraduate major in comparative literature, including advanced study of a language other than English, or equivalent literary and language preparation.
  - **Linguistics concentration:** an undergraduate major in linguistics or in a related field, such as English, a foreign language, psychology, philosophy, or anthropology; and at least a basic-level familiarity with a language other than English, as evidenced by coursework, immersion experience or native fluency.
2. Submission to the MALLT Program of three letters of recommendation, at least two of which should be from instructors acquainted with the student's academic work.
3. Submission to the MALLT Program of a well-developed statement of approximately 500 words outlining the applicant's academic background and interests, reasons for graduate study in the MALLT program, intended concentration and professional goals.

Applicants who meet general Graduate School requirements (an undergraduate grade point average of at least 2.75) and the above program requirements may be admitted in good standing.

Upon recommendation of the Coordinating Committee, an applicant lacking in course background may be admitted with specified deficiencies in the above on the condition that the deficiencies be made up by the end of the first full semester (9-12 credits). Credits earned in making up deficiencies do not count toward the degree. If an applicant furnishes substantial evidence of capacity to do satisfactory graduate work despite a deficiency in GPA on admission, probationary admission may be recommended.

## Credits and Courses

No credits carrying a grade below B- may be counted toward meeting the MALLT degree requirement of 30 credits.

The MALLT degree offers two tracks:

- the Standard Track within which students may complete one of eight concentrations and
- the Translation Track, which will be designated as a concentration on the student's transcript.

Students are not obligated to elect a concentration, but many will find it beneficial to do so. They also have the option of completing two concentrations, but, in doing so, students must complete all requirements for each concentration and a minimum of 36 credits for the degree.

### Standard Track

Thirty graduate credits are required, 6 of which must be in core seminars in the language, literature, and linguistics areas. The student develops a program of study in consultation with the Major Professor, normally including the following:

Code	Title	Credits
	Select two core seminars as a foundation in basic aspects of languages, literatures, and linguistics	6
	Select five to eight courses in a language, literature, or linguistics area to permit concentration in the student's major area of interest. Select the remaining credits in related areas to give the program breadth.	24
<b>Total Credits</b>		<b>30</b>

### Interpreting Requirements

Students must earn thirty graduate credits, as indicated below. Admission is based in part on a qualifying examination.

Code	Title	Credits
<b>Core</b>		
TRNSLTN 820	Translation Theory	3
TRNSLTN 709	Seminar in Literary and Cultural Translation	3
<b>Required</b>		
TRNSLTN 700	Consecutive Interpreting	3
TRNSLTN 710	Comparative Systems for Translation	3
TRNSLTN 711	Ethics in Translation and Interpreting	3
TRNSLTN 722	Simultaneous Interpreting (under development)	3
TRNSLTN 730	Internship in Translation/Interpreting	3
TRNSLTN 750	Community Interpreting and Translation (under development)	3
<b>Electives</b>		
	Select 6 credits which may include the following:	6
TRNSLTN 530	Business and Professional Aspects of Translation	
TRNSLTN 727	Project Management in Translation	
TRNSLTN 728	Editing for Translation	
	Introduction to Translation <sup>1</sup>	
	Advanced Seminar in Translation <sup>1</sup>	
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> In French, German, Spanish, Russian, Arabic and Italian to English, or English to Spanish

## Additional Requirements

### Transfer of Credits

Any course submitted for transfer must be no more than five years old at the time of the student's admission to the MALLT Program, must have been taken at the graduate level in a recognized institution, and must have been completed with a grade of B or better. Since Graduate School

regulations allow the transfer of only 12 non-degree graduate credits to a master's program, students are advised to apply for degree candidacy in the MALLT program before completion of 12 credits of coursework.

### Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations.

The Coordinating Committee refers each incoming student to a temporary advisor, normally the Graduate Advisor in the student's chosen concentration, as stated in the application. The Graduate Advisor assists in assessing the student's competencies, interests, and future academic or professional needs. Normally, the Graduate Advisor recommends a Major Professor after his/her initial meeting with the student.

The Major Professor and the student establish a plan of study by the end of the student's first semester of graduate work. The plan will be reviewed by the Major Professor and the student after the successful completion of 12 credits and the removal of any deficiencies that may have been assessed at admission. At the time of the review, the student may request another Major Professor in the event that his/her programmatic needs have been modified or altered. Subsequent minor changes must be approved by the Major Professor.

The Major Professor evaluates and updates the student's progress after completion of every six (6) credits or every semester of subsequent work. The student may not register for any courses without this advisor's prior approval.

### Time Limit

The student must complete all degree requirements within five years of initial enrollment.

## Language, Literature, and Translation, MA: Linguistics

The MA in Language, Literature, and Translation (MALLT) is an interdisciplinary MA degree program focused on global languages, literatures and translation. With over 50 faculty from multiple departments, MALLT offers a highly flexible program of study tailored to your professional goals.

Three departments — Global Studies; Ancient and Modern Languages, Literatures, and Cultures; and Translation & Interpreting Studies cooperate to offer this interdepartmental, interdisciplinary master's program designed for the student who wishes to focus on language, literature, and translation on a cross-cultural basis. Students may complete one of the following concentrations: Comparative Literature (p. 1156); French and Francophone Language, Literature, and Culture (p. 1157); German Language, Literature, and Culture (p. 1159), Translation (p. 1165) (Professional Track or Research Track), and Interpreting (p. 1160). In addition to these specific concentrations, students may pursue coursework in Classical Greek; Classics; Hebrew Studies, Italian Studies, Latin; and Slavic Languages. MALLT also allows students interested in Linguistics (p. 1162); Spanish (p. 1163); Translation (p. 1165) or Interpreting (p. 1160) to complete double concentrations, or the joint Master of Library Information Sciences/ MALLT coordinated degree.

Inquiries concerning this program should be directed to the Coordinator of the Language, Literature, and Translation program. Email the MALLT program ([mallt-program@uwm.edu](mailto:mallt-program@uwm.edu)) for more information.

## Credits and Courses

No credits carrying a grade below B- may be counted toward meeting the MALLT degree requirement of 30 credits.

The MALLT degree offers two tracks:

- the Standard Track within which students may complete one of eight concentrations and
- the Translation Track, which will be designated as a concentration on the student's transcript.

Students are not obligated to elect a concentration, but many will find it beneficial to do so. They also have the option of completing two concentrations, but, in doing so, students must complete all requirements for each concentration and a minimum of 36 credits for the degree.

### Standard Track

Thirty graduate credits are required, 6 of which must be in core seminars in the language, literature, and linguistics areas. The student develops a program of study in consultation with the Major Professor, normally including the following:

Code	Title	Credits
	Select two core seminars as a foundation in basic aspects of languages, literatures, and linguistics	6

Select five to eight courses in a language, literature, or linguistics area to permit concentration in the student's major area of interest. Select the remaining credits in related areas to give the program breadth.

**Total Credits** 30

### Translation Track: Professional

The Professional track is designed for those considering careers as in-house or freelance translators who are not necessarily interested in further study at the doctoral level.

Students must earn thirty graduate credits, as indicated below; they may not count undergraduate credits earned in the Translation Certificate Program. Admission is based in part on a qualifying examination that consists of a 300-word translation from the source to the target language and one 150-word essay in the target language.

Code	Title	Credits
<b>Required</b>		
MALLT/TRNSLTN 709	Seminar in Literary and Cultural Translation	3
TRNSLTN 710	Comparative Systems for Translation <sup>1</sup>	3
TRNSLTN 726	Computer-Assisted Translation	3
TRNSLTN 730	Internship in Translation/Interpreting	3
TRNSLTN 820	Translation Theory	3
<b>Language-Specific Concentrations</b>		
Select one of the following:		6
<i>French to English</i>		
FRENCH 415	Introduction to Translation: French to English	
TRNSLTN 716	Seminar in Advanced Translation: French to English	
<i>German to English</i>		
GERMAN 425	Introduction to German Translation	
GERMAN 525		
<i>Spanish to English</i>		
SPANISH/TRNSLTN 707	Introduction to Translation: Spanish to English	
TRNSLTN 717	Seminar in Advanced Translation: Spanish to English	
<i>English to Spanish</i>		
SPANISH 348	Introduction to Translation: English to Spanish	
<b>Electives</b>		
Select three electives (see below)		9
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> Or, for German concentrators, GERMAN 474.

Work in other languages may be possible with the approval of the coordinator, depending upon the availability of appropriate faculty members for language-specific independent study.

### Electives

Select three courses from the following. Additional appropriate courses may be selected with the consent of the program coordinator.

Code	Title	Credits
<b>MALLT/Translation Courses</b>		
LINGUIS/MALLT 708	Proseminar in Linguistics	3
MALLT 790	Thesis (up to 6 credits)	1-6
TRNSLTN 530	Business and Professional Aspects of Translation (Previously FLL 525)	3
A course in the student's area of translation specialization		3
Translation course(s) in another language		3-6
<b>Other Approved Electives</b>		
ENGLISH 434	Editing and Publishing	3
ENGLISH 439	Information Design	3
ENGLISH 708	Advanced Professional Writing	3
ENGLISH 709	Rhetoric, Writing, and Information Technology	3

### Translation Track: Research

The Research track is designed for those considering further study at the doctoral level.

Students must earn thirty graduate credits, as indicated below; they may not count undergraduate credits earned in the Translation Certificate Program. Admission is based in part on a qualifying examination that consists of a 300-word translation from the source to the target language and one 150-word essay in the target language.

Code	Title	Credits
<b>Required</b>		
TRNSLTN 820	Translation Theory	3
TRNSLTN 710	Comparative Systems for Translation	3

<i>English to Spanish</i>		
SPANISH 348	Introduction to Translation: English to Spanish	
MALLT/TRNSLTN 709	Seminar in Literary and Cultural Translation	
<b>Electives</b>		

Select three electives (see below)	9
<b>Total Credits</b>	<b>30</b>

<sup>1</sup> Offered by MALLT, TRNSLTN or another department, with approval of student’s major professor.

Work in other languages may be possible with the approval of the coordinator, depending upon the availability of appropriate faculty members for language-specific independent study.

**Electives**

Select three courses from the following, in consultation with student’s major professor according to the student’s area of interest. Additional appropriate courses may be selected with the consent of the program coordinator or major professor. The list below is not exhaustive.

Code	Title	Credits
	A course in Reading Literature in Translation: Case Studies	3
	A literature course in the student’s source language area	3
	A translation course(s) in the student’s C language	3
	A course in translation or other critical theory (including courses offered by other departments and in languages other than English)	3
TRNSLTN 726	Computer-Assisted Translation	3

**Thesis**

Up to 6 graduate credits may be earned by presentation of a satisfactory thesis. The student’s Major Professor, in consultation with the student, will recommend the names of a Thesis Director and two readers who, upon approval by the Coordinating Committee, will constitute the ad hoc Thesis Committee.

**Program Requirements**

**Comprehensive Examination**

The student must pass both written and oral examinations, prepared and administered by an Examining Committee. The composition of the committee is approved by the Coordinating Committee. If the student fails the examination, they may repeat it once, but no sooner than three months from the date of the first examination.

Comparative Literature students must demonstrate a reading knowledge of a second language other than English prior to taking their Comprehensive Examinations. Reading knowledge may be demonstrated by coursework in the specific language program or by written examination, to be determined with the Major Professor.

**Additional Requirements**

**Transfer of Credits**

Any course submitted for transfer must be no more than five years old at the time of the student’s admission to the MALLT Program, must have been taken at the graduate level in a recognized institution, and must have been completed with a grade of B or better. Since Graduate School regulations allow the transfer of only 12 non-degree graduate credits to a master’s program, students are advised to apply for degree candidacy in the MALLT program before completion of 12 credits of coursework.

**Major Professor as Advisor**

The student must have a major professor to advise and supervise the student’s studies as specified in Graduate School regulations.

The Coordinating Committee refers each incoming student to a temporary advisor, normally the Graduate Advisor in the student’s chosen concentration, as stated in the application. The Graduate Advisor assists in assessing the student’s competencies, interests, and future academic or professional needs. Normally, the Graduate Advisor recommends a Major Professor after his/her initial meeting with the student.

The Major Professor and the student establish a plan of study by the end of the student’s first semester of graduate work. The plan will be reviewed by the Major Professor and the student after the successful completion of 12 credits and the removal of any deficiencies that may have been assessed at admission. At the time of the review, the student may request another Major Professor in the event that his/her programmatic needs have been modified or altered. Subsequent minor changes must be approved by the Major Professor.

The Major Professor evaluates and updates the student’s progress after completion of every six (6) credits or every semester of subsequent work. The student may not register for any courses without this advisor’s prior approval.

**Time Limit**

The student must complete all degree requirements within five years of initial enrollment.

**Latin American and Caribbean Studies**

UWM graduates in the 21st century will participate in a globalized economy with corresponding internationalization of the mass media, education and the arts. As the United States draws even closer to its neighbors in the Americas, students in the Latin American and Caribbean Studies Undergraduate Certificate Program (LACS) will be especially well prepared for this complex and ever-changing world.

**Programs**

- Latin American and Caribbean Studies, Undergraduate Certificate (p. 1167)

**Latin American and Caribbean Studies, Undergraduate Certificate**

Like a departmental minor, the LACS undergraduate certificate offers a specific academic focus but differs by being interdisciplinary, allowing students to combine related courses in different disciplines to explore common themes. Students who earn a certificate demonstrate their intellectual commitment to a subject and their competence in scholarly areas, which can prove valuable at the graduate level or in the workplace.

Numerous study abroad opportunities are available to students in any of these programs, including short-term and longer-length. Most students start planning their study abroad experience early in sophomore year for trips that take place in junior year. Popular destinations include Mexico, Cuba, Brazil, Peru, Ecuador, Argentina, and Chile.

**Eligibility**

The Certificate in Latin American and Caribbean Studies is open to all students seeking a bachelor’s degree from UWM, to those who previously received a bachelor’s degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university

degree (non-degree students) but who have a strong interest in this subject. To be admitted to the University as non-degree students, individuals must meet regular University admission requirements. Students currently involved in baccalaureate studies who successfully complete the requirements of the certificate program are awarded the certificate at the time of graduation. Students who already possess the bachelor's degree and non-degree students receive the certificate upon completion of the program requirements.

## Requirements

You are strongly advised to consult both the Latin American and Caribbean Studies advisor and your L&S advisor to ensure you stay on track towards a degree.

Proficiency in a language (other than English) widely spoken in Latin America or the Caribbean is required. Spanish, Portuguese, and French are already approved to satisfy this requirement, and the Center for Latin American and Caribbean Studies will determine additional languages that satisfy the certificate. This requirement may be fulfilled by either:

1. successful completion (with a grade of C or above) of any upper-level (numbered 300 or above) course in the target language; or
2. successful completion of a language proficiency examination. Exceptions to this requirement must be approved by the LACS Certificate Committee.

Students must complete 18 credits in Latin American and Caribbean content courses, 9 of which must be at the 300 level or above and in residence at UWM. The 18 credits include one required course, LACS 101. Students must select courses from at least three curricular areas, including LACS 101. No more than 9 credits in any one curricular area may be counted towards the certificate program. Students may count up to 3 credits of a related independent study and up to 3 credits of a related internship. In addition to any Latin American content courses taken in a semester-length, UWM-approved study abroad program in Latin America or the Caribbean, an additional three credits for participating also may be counted, if courses are taken within an immersion setting (as determined by the Center for Latin American and Caribbean Studies). A 2.00 GPA or better must be achieved in all UWM coursework and in all certificate credits.

Courses that meet the certificate requirements include, but are not limited to, those in the following list. For the most current list of Latin American and Caribbean content courses, see the Center for Latin American and Caribbean Studies (<http://uwm.edu/clacs/>).

## African and African Diaspora Studies

Code	Title	Credits
AFRIC 205	The Poetry of African, African-American, and Caribbean Writers	3
AFRIC 299	Ad Hoc: (Sex in the Caribbean)	1-6
AFRIC 311	African Religious Thought and Social Organizations	3
AFRIC 320	Black Cultures in Latin America and the Caribbean	3
AFRIC 334	Survey of Black American and Black Brazilian Societies	3
AFRIC 411	Change in African-American Communities	3
AFRIC 414	The Black Woman in America, Africa, and the Caribbean	3

AFRIC 418	Race, Class, and Gender in Latin America and the Caribbean	3
-----------	--	---

## Anthropology

Code	Title	Credits
ANTHRO 214	Ancient Civilizations of Latin America	3
ANTHRO 225	The Aztec Empire	3
ANTHRO 309	Archaeology of Central and South America	3
ANTHRO 310	Archaeology of Middle America	3
ANTHRO 311	The World of the Ancient Maya	3
ANTHRO 431	Cities and Culture	3

## Art History

Code	Title	Credits
ARTHIST 104	African, New World and Oceanic Art and Architecture	3
ARTHIST 251	Introduction to the Art and Architecture of Latin America	3
ARTHIST 343	Art and Culture of Spain and Latin America, 1500-1750	3
ARTHIST 367	Latin American Modernisms	3
ARTHIST 372	Art of the Inca and their Ancestors	3
ARTHIST 373	Art of Ancient Mexico and Central America	3
ARTHIST 375	Art of the Aztec Empire	3
ARTHIST 474	Maya Art	3
ARTHIST 499	Ad Hoc: (Modern Art of Latin America)	1-6

## Atmospheric Sciences

Code	Title	Credits
ATM SCI 297	Study Abroad: (Mexico - Air Pollution and Ancient Cultures)	1-12
ATM SCI 497	Study Abroad: (Mexico - Air Pollution and Ancient Cultures)	1-12

## Biological Sciences

Code	Title	Credits
BIO SCI 297	Study Abroad: (Ecology of Tropical Streams in Costa Rica)	1-12
BIO SCI 497	Study Abroad: (Ecology of Tropical Streams in Costa Rica)	1-12

## Comparative Literature

Code	Title	Credits
COMPLIT 135	Experiencing Literature in the 21st Century: (Women and War in Latin America and the Caribbean)	3
COMPLIT 230	Literature and Society: (Cowboys, Gauchos, and Other Narratives of the Frontier)	3
COMPLIT 232	Literature and Politics: (Gender and the Historical Novel or Women and War)	3
COMPLIT 350	Topics in Comparative Literature: (Literary and Artistic Perspectives on Prostitution)	3

COMPLIT 360	Seminar in Literature and Cultural Experience: (Narratives in Torture)	3
COMPLIT 365	Literatures and Cultures of the Americas:	3

### Conservation and Environmental Science

Code	Title	Credits
CES 297	Study Abroad: (Ecology of Tropical Streams in Costa Rica)	1-12
CES 497	Study Abroad: (Ecology of Tropical Streams in Costa Rica)	1-12

### Dance

Code	Title	Credits
DANCE 370	World Movement Traditions: (Argentinian Tango)	2-3

### Economics

Code	Title	Credits
ECON 193	First-Year Seminar: (Prosperity, Poverty, and Economic Justice)	3
ECON 353	Economic Development	3

### English

Code	Title	Credits
ENGLISH 297	Study Abroad: ("Mexico and Cuba - Comparative Globalization" subtitle)	1-12
ENGLISH 316	World Cinema:	3
	Subtitles:	
	Caribbean Cinema	
	Latin American Cinema	
	Mexican Cinema	
	Latina and Latin American Women Directors	
	Mexican and Cuban Cinema	
ENGLISH 320	Studies in Film and Television Authorship: (Cuban and Mexican Filmmakers)	3
ENGLISH 463	Writers in African-American Literature: (Caribbean Literature)	3
ENGLISH 497	Study Abroad: (Mexico and Cuba - Comparative Globalization)	1-12
ENGLISH 625	Seminar in Literary History: (Caribbean Literary History)	3

### Film Studies

Code	Title	Credits
FILMSTD 316	World Cinema:	3
	Subtitles:	
	Caribbean Cinema	
	Latin American Cinema	
	Latina and Latin American Women Directors	
	Mexican Cinema	
	Mexican and Cuban Cinema	

### French

Code	Title	Credits
FRENCH 203	Third-Semester French	3
FRENCH 204	Fourth-Semester French	3
FRENCH 210	French Immersion: Intermediate	1-2
FRENCH 303	Conversation and Composition: Intermediate Level	3
FRENCH 325	Intensive Grammar and Usage	3
FRENCH 392	Phonetics	3
FRENCH 410	French Immersion: Advanced	1-2
FRENCH 427	Advanced Written Expression	3

### Geography

Code	Title	Credits
GEOG 297	Study Abroad: (Urban Environmental Changes in Guatemala)	1-12
GEOG 497	Study Abroad: (Urban Environmental Changes in Guatemala)	1-12

### History

Code	Title	Credits
HIST 180	Latin American Society and Culture	3
HIST 393	History of Mexico	3
HIST 400	Topics in Latin American and Caribbean History:	3

### Latin American and Caribbean Studies

Code	Title	Credits
LACS 101	Introduction to Latin American and Caribbean Studies	3

### Latin American, Caribbean, and U.S. Latinx Studies

Code	Title	Credits
LACUSL 200	Special Topics in Latin American, Caribbean, and U.S. Latinx Studies:	3
LACUSL 201	Latin American, Caribbean, and U.S. Latinx Arts and Culture:	3
LACUSL 297	Study Abroad:	1-12
LACUSL 300	Advanced Topics in Latin American, Caribbean, and U.S. Latinx Studies:	3
LACUSL/THEATRE 324	Theatre in the Americas: Latin American, Caribbean, and Latinx Theatre	3
LACUSL 497	Study Abroad:	1-12

### Political Science

Code	Title	Credits
POL SCI 325	Latin American Politics	3
POL SCI 326	Brazilian Politics and Society	3
POL SCI 346	U.S.-Latin American Relations	3
POL SCI 368	Gender and Politics in Developing Nations	3
POL SCI 374	Health, Wealth, and Democracy	3

## Portuguese

Code	Title	Credits
PORTUGS 103	First-Semester Portuguese	4
PORTUGS 104	Second-Semester Portuguese	4
PORTUGS 110	Accelerated Portuguese I	3
PORTUGS 203	Third-Semester Portuguese	3
PORTUGS 204	Fourth-Semester Portuguese	3
PORTUGS 225	Understanding Brazil:	3
PORTUGS 297	Study Abroad: (The African Presence in Brazil)	1-12
PORTUGS 299	Ad Hoc: (Accelerated Portuguese)	1-6
PORTUGS 310	Advanced Composition and Conversation	3
PORTUGS 313	Advanced Speaking and Listening	3
PORTUGS 360	Luso-Brazilian Culture:	3
PORTUGS 497	Study Abroad: (The African Presence in Brazil)	1-12
PORTUGS 499	Ad Hoc:	1-6
PORTUGS 699	Independent Reading	1-3

## Spanish

Code	Title	Credits
SPANISH 203	Third-Semester Spanish	3
SPANISH 204	Fourth-Semester Spanish	3
SPANISH 308	Advanced Writing and Reading	3
SPANISH 318	Advanced Speaking and Listening	3
SPANISH 319	Advanced Speaking and Listening for Heritage Speakers	3
SPANISH 332	Using Spanish in the Business World	3
SPANISH 333	Advanced Spanish Grammar	3
SPANISH 338	Spanish for Health Professionals	3
SPANISH 341	Introduction to Hispanic Linguistics	3
SPANISH 342	Business and Legal Spanish	3
SPANISH 348	Introduction to Translation: English to Spanish	3
SPANISH 350	Introduction to Literary Analysis	3
SPANISH 388	Health Issues in the Hispanic World	3

## Faculty

Name	Rank	Degree	School	Graduate Faculty	Emeritus Faculty
Susana Antunes	Assistant Professor (Portuguese)	PhD	University of Massachusetts-Amherst		
Nancy Bird-Soto	Associate Professor (Spanish and Portuguese)	PhD	University of Wisconsin-Madison		
Gilberto Blasini	Associate Professor (Film Studies)	PhD	UCLA		
Brenda Cárdenas	Associate Professor (English)	PhD	University of Michigan-Ann Arbor		
Sarah Davies Cordova	Professor (French, Italian, and Comparative Literature)	PhD	University of California, Los Angeles		
Christopher Davis-Benavides	Professor (Art and Design)	MFA	University of Wisconsin-Madison		

SPANISH 391	Social and Historical Issues in the Hispanic World: (Latin America - Past and Present)	3
SPANISH 470	Survey of Hispanic Literature and Civilization	3
SPANISH 472	Survey of Spanish-American Literature and Civilization	3
SPANISH 491	Topics in Hispanic Culture:	3
	Subtitles:	
	The Spanish Renaissance and its Cultures, 16th and 17th Centuries	
	Exotic Stories from the Hispanic World - The Pleasure of Words	
SPANISH 507	Seminar in Spanish-American Literature:	3
SPANISH 541	History of the Spanish Language	3

## Theatre

Code	Title	Credits
THEATRE/LACUSL 324	Theatre in the Americas: Latin American, Caribbean, and Latinx Theatre	3

## Urban Planning

Code	Title	Credits
URBPLAN 692	Special Topics in Urban Planning: (Latino Cities)	1-3

## Latin American, Caribbean, and U.S. Latinx Studies

Uniquely UWM, Latin American, Caribbean, and U.S. Latinx Studies integrates the study of peoples and cultures of Latin America and the Caribbean with the study of Latinx communities in the United States. Most other programs focus on one or the other. Alumni work stateside or abroad in health services, education, nonprofits, business, and government. An accelerated program leads to both the BA and a master's in translation in five years.

## Programs

- Latin American, Caribbean, and U.S Latinx Studies, BA (p. 1171)

Raoul Deal	Senior Lecturer (Cultures and Communities)	MFA	Universidad Nacional Autónoma de México
César Ferreira	Professor (Spanish and Portuguese)	PhD	University of Texas at Austin
Simone Ferro	Professor (Dance)	MFA	University of Iowa
Jean Hudson	Associate Professor (Anthropology)	PhD	University of California, Santa Barbara
David Pacífico	Assistant Professor (Art History)	PhD	University of Chicago
Kristin Pitt	Associate Professor (French, Italian, and Comparative Literature)	PhD	University of Wisconsin-Madison
Sandra Pucci	Associate Professor (Linguistics)	PhD	University of Southern California
Joseph Rodríguez	Associate Professor (History)	PhD	University of California, Berkeley
Paru Shah	Associate Professor (Political Science and Latino Studies)	PhD	Rice University
Natasha Borges Sugiyama	Associate Professor (Political Science)	PhD	University of Texas
Erin Winkler	Associate Professor (Africology)	PhD	University of California, Berkeley

## Latin American, Caribbean, and U.S Latinx Studies, BA

UWM students interested in pursuing advanced knowledge about the varied cultures, histories, languages, and origins that are included within Latinx populations have three different programs to choose from, including a major and two different certificates.

UWM students in the Latin American, Caribbean, and U.S. Latinx Studies (LACUSL) major learn about the many different histories, cultures, and modern issues of Latinx peoples from all three regions - Latin America, the Caribbean, and the United States. It is among a small handful of programs nationwide to explore both Latinx communities in the U.S. as well as those in Latin America and the Caribbean; most programs focus on one or the other. Coursework spans several departments, including history, sociology, the arts, political science, anthropology, languages and literature, giving students many different lenses through which to look.

Many students choose this major because they intend to work with the Latinx population in some way. They may be going into health services, education, manufacturing, business, nonprofit work, social services, trade, or government work. Regardless of industry, they understand that the impact of globalization is growing and they recognize the increasing importance of Latin American countries and Latinx communities in the U.S. as political and economic forces.

Students more interested in the experience of Latinx communities within the United States might find our certificate in Latinx Studies well-suited to their personal and professional goals. A certificate is similar to a minor in terms of number of credits, but like the interdisciplinary LACUSL major mentioned above, it draws on classes from many different subject areas. Students can expect to take classes from history, English, Spanish, educational policy, and sociology.

Students more interested in the regions of Latin America and the Caribbean should explore the certificate in Latin American and Caribbean Studies in more detail.

Both certificates are excellent complements to other majors both within the College of Letters & Science as well as professional degrees such as business, education, nursing or health sciences.

Numerous study abroad (<https://uwm.edu/cie/study-abroad/>) opportunities are available to students in any of these programs, including short-term and longer-length. Most students start planning their study abroad experience early in sophomore year for trips that take place in junior year. Popular destinations include Mexico, Cuba, Brazil, Peru, Ecuador, Argentina, and Chile.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		

ENGLISH 102 College Writing and Research (or equivalent)

*Part B*

Course designated as OWC-B; may be completed through a major-specific course requirement

**Quantitative Literacy**

*Part A*

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

*Part B*

Course designated as QL-B; may be completed through a major-specific course requirement

**Arts**

Select 3 credits 3

**Humanities**

Select 6 credits 6

**Social Sciences**

Select 6 credits 6

**Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

**UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

**UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or

3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	

POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is *NOT* the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		

Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. \*

#### Natural Sciences

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. \*

#### Cultural Diversity

Complete 3 credits in a course with Cultural Diversity (CD) designation. \*\*

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

#### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Major Requirements

Students are required to complete a minimum of 33 credits in the major, at least 15 of which must be taken at the advanced level (300 and above) in residence at UWM. At least 9 of those credits must represent at least three curricular areas (i.e. one 3-credit course each in three different curricular areas) with no more than 18 credits of approved courses in a singular curricular area. Students are required to complete an e-portfolio for assessment purposes. Students will be assisted in the creation of an e-portfolio, and can ask the LACUSL advisor for direction to an appropriate faculty member.

Study of a language widely spoken in Latin America or the Caribbean is strongly encouraged, but not required. Students are strongly encouraged to pursue a combination of LAC area studies and U.S. Latinx-focused courses.

The College requires that all students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

With approval of program coordinator, a relevant course not currently listed below may be substituted.

The following are required:

Code	Title	Credits
<b>Core</b>		
<i>Introductory courses</i>		
LACS 101	Introduction to Latin American and Caribbean Studies	3
LATINX 101	Introduction to Latino Studies	3
<i>Research Requirement</i>		
LACUSL 680	LACUSL Senior Research Project	3
or one course accepted for the LACUSL major and satisfying the L&S research requirement from table below <sup>1</sup>		
<b>Electives</b>		
Select 24 credits from table of LACUSL-approved Electives below		24
<b>Total Credits</b>		<b>33</b>

<sup>1</sup> LACUSL 680 (<https://catalog.uwm.edu/search/?P=LACUSL%20680>) is the recommended research requirement course. In semesters when LACUSL 680 (<https://catalog.uwm.edu/search/?P=LACUSL%20680>) is not offered, the student may substitute an existing course from the table below, provided that the major research project undertaken as part of that course has a distinctly LACUSL topic. The student must inform the instructor they wish to fulfill the research requirement in the course.

If neither of these options is viable, students also may complete the research requirement by taking three credits of LACUSL 699 (<https://catalog.uwm.edu/search/?P=LACUSL%20699>), with an appropriate faculty member from the LACUSL associated faculty. L&S guidelines require that students will:

1. develop a research question, statement, or problem;
2. evaluate research in the field of study and integrate it with their findings; and
3. disseminate their findings orally or in writing.

### Courses accepted for the LACUSL major and the L&S research requirement

Code	Title	Credits
AFRIC 320	Black Cultures in Latin America and the Caribbean	3
AFRIC 344	Global Black Social Movements	3
AFRIC 414	The Black Woman in America, Africa, and the Caribbean	3
AFRIC 418	Race, Class, and Gender in Latin America and the Caribbean	3
POL SCI 325	Latin American Politics	3
POL SCI 326	Brazilian Politics and Society	3
POL SCI 346	U.S.-Latin American Relations	3
SPANISH 507	Seminar in Spanish-American Literature:	3

### Electives

Electives may be selected from the courses listed below. At least three different departmental curricular codes must be represented among the electives, with no more than 18 credits in any one curricular area. A maximum of 3 credits in an internship (LACS 289, LACS 489, LACUSL 289, LACUSL 489, LATINX 289 OR LATINX 489) may count as an elective for the major.

With approval of program coordinator, a relevant course not listed below may be substituted.

Code	Title	Credits
<b>Electives approved for the LACUSL major</b>		
AFRIC 205	The Poetry of African, African-American, and Caribbean Writers	3
AFRIC 311	African Religious Thought and Social Organizations	3
AFRIC 320	Black Cultures in Latin America and the Caribbean	3
AFRIC 334	Survey of Black American and Black Brazilian Societies	3

<sup>2</sup> Study abroad must be in a relevant context, for example, in a Latin American country.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Accelerated Program Option

This program is offered as part of an accelerated graduate program. For more information, see Accelerated Graduate Degrees (p. 37).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Latinx Studies

The Latinx Studies Undergraduate Certificate Program is designed for students who have an interest in Latinx studies, regardless of major or college affiliation. It utilizes an interdisciplinary approach to examining the experiences, cultures, and social conditions of Latinx communities in the United States.

## Programs

- Latinx Studies, Undergraduate Certificate (p. 1176)

## Latinx Studies, Undergraduate Certificate

Latinx communities are the fastest growing minority population in the United States, numbering between 50 and 60 million today. Our interdisciplinary program allows students in many majors to complete their existing studies while also deepening knowledge about the experience of the Latin American and Caribbean diaspora in the U.S.

With demographic trends and the need to work with diverse groups, employers will appreciate your specialized training in Latinx Studies. The certificate complements academic fields in Letters & Science (Spanish, Sociology, Anthropology, History, and Political Science among others) as well as professional fields such as Business, Criminal Justice, Health Science, Nursing, and Social Welfare. Latinx Studies courses also count towards the major in Latin American, Caribbean, and U.S. Latinx Studies.

Students will find answers to these questions:

- Who are Latinx people?
- Why has the U.S. Latinx population grown so rapidly in recent years? Which groups are growing the fastest?
- How have immigration policies affected population growth and change?
- How do Latinx people engage in politics of their communities, states, and the nation?
- Why has their growth spurred so much electoral attention?
- What challenges do Latinx communities face in terms of racism, sexism, and discrimination?
- What contributions have Latinx people made to US art, music, and literature?
- What is the history of Mexicans, Puerto Ricans, and Cubans in the U.S. from the 1600s to the present?

A certificate in Latinx Studies is similar to a minor, in that it demonstrates you've achieved substantial knowledge in this interdisciplinary area of study.

The mission of the multidisciplinary Certificate in Latinx Studies is twofold:

1. To enable students to understand and evaluate the impact of Latinx people on the history, culture, politics, and economy of the United States, and
2. To foster the development of new, critical approaches that enable students to transform their world views and apply sound principles in their professional and personal interactions.

## Eligibility

The Undergraduate Certificate Program in Latinx Studies is open to any University of Wisconsin-Milwaukee students seeking a bachelor's degree from UWM, to those who previously received a bachelor's degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. To be admitted to the University as non-degree students, individuals must meet regular University admission requirements. Students currently involved in baccalaureate studies who successfully complete the requirements of the certificate program are awarded the certificate at the time of graduation. Students who already possess the bachelor's degree and non-degree students receive the certificate upon completion of the program requirements.

## Requirements

To obtain the certificate, students must complete 18 credits in approved Latinx courses, including 9 credits at the 300 level and above in residence at UWM, with a minimum grade point average of 2.00. Students must select courses from at least three curricular areas, including LATINX 101. No more than 9 credits in a single curricular area may count toward the certificate. Students may count up to 3 credits of a related independent

study and up to 3 credits of a related internship. For additional program information, contact the Latinx Studies Coordinator (Center for Latin American and Caribbean Studies (<https://uwm.edu/clacs/>)).

## Lesbian, Gay, Bisexual, and Transgender (LGBT) Studies

Lesbian, Gay, Bisexual, and Transgender (LGBT) Studies investigates the historical and contemporary experiences of people traditionally neglected in scholarship and courses. It explores questions about sexuality as well as identity, community, representation, diversity, assimilation, and discrimination that are both academically and socially significant. Work in this innovative field includes material and methods from many disciplines: English and foreign languages, health professions, anthropology, art history, biology, communications, economics, fine arts, history, music, nursing, political science, psychology, sociology, social welfare, and women's and gender studies.

### Programs

- Lesbian, Gay, Bisexual, and Transgender (LGBT) Studies, Undergraduate Certificate (p. 1178)

## Lesbian, Gay, Bisexual, and Transgender (LGBT) Studies, Undergraduate Certificate

The Undergraduate Certificate in Lesbian, Gay, Bisexual, and Transgender (LGBT) Studies explores questions about sexuality, identity, gender, community, representation, diversity, assimilation, and discrimination that are both academically and socially significant.

This certificate is designed for all students, regardless of major, who have an interest in learning more about the history and contemporary life of LGBT individuals. Students who earn the LGBT Studies certificate are prepared for careers that involve interaction with people of diverse backgrounds in areas such as business, education, healthcare, and law. Some graduates go on to work in social services or public affairs, promoting equality in legislation and policy.

Coursework in this program is interdisciplinary and includes materials and methods from many fields, including Africology, anthropology, communication, comparative literature, economics, English, ethnic studies, film studies, health sciences, history, linguistics, music, nursing, political science, psychology, social welfare, sociology, theatre, and women's and gender studies.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

## Eligibility

The LGBT Studies Undergraduate Certificate is designed for students majoring in any field who wish to complement their study of a discipline with an additional concentration in lesbian, gay, bisexual, and transgender studies. Any student in good standing at the University of Wisconsin-Milwaukee who is seeking a bachelor's degree or who previously received a bachelor's degree from UWM or any other accredited college or university is eligible to participate in the certificate program. The program also is open to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this topic. To be admitted as non-degree students, individuals must meet regular University admission requirements.

## Requirements

The LGBT Studies Undergraduate Certificate requires completion of 18 credits in approved courses, with a minimum GPA of 2.00, as follows:

Code	Title	Credits
<b>Required</b>		
LGBT 200	Introduction to Lesbian, Gay, Bisexual, and Transgender Studies	3
WGS 301	Queer Theory	3
LGBT 599	Selected Topics in LGBT Studies:	3
<b>Electives</b>		
Select 9 credits		9
<b>Total Credits</b>		<b>18</b>

### Electives

Select 9 credits of approved LGBT Studies curricular area or cross-listed coursework, of which 3 credits must be in courses numbered 300 or above.

Students are limited to a maximum of 6 credits in independent study and no more than 9 credits from any one curricular area outside of LGBT Studies. At least half the credits must be taken in residence at UWM, and no courses may be taken on a credit/no credit basis.

Credits earned at other institutions in equivalent LGBT courses, as well as credits earned and approved through study abroad, are accepted in partial fulfillment of the requirements. Students must obtain the approval of the certificate program committee to apply more than nine credits from courses at other institutions to the program requirements.

### Approved Electives

The following courses are approved to count toward the LGBT Studies Certificate. Additional courses may be found each semester in the Schedule of Classes. In addition, students are encouraged to consult the Program Coordinator and to petition for the inclusion of relevant courses as appropriate.

Code	Title	Credits
AFRIC 344	Global Black Social Movements	3

## Adult/University Level Teaching English to Speakers of Other Languages, Graduate Certificate

*Effective Fall 2023, admission to the TESOL certificate is suspended.*

UWM's TESOL certificate prepares students for a career teaching English to non-English speaking adults. TESOL is an internationally-recognized acronym that denotes the holder of the certificate has

properties of human languages in an effort to understand that unique characteristic of human beings, the faculty of language. Recognition of the importance of modern linguistic research continues to grow today, with research results now seen to have implications for numerous additional disciplines, including anthropology, computer science, education, ethnology, psychology, sociology, and speech pathology.

Many of the courses taught in the Linguistics Department form a required or recommended portion of the curricula of other academic programs.

## Programs

- Adult/University Level Teaching English to Speakers of Other Languages, Graduate Certificate (p. 1180)
- Adult/University Level Teaching English to Speakers of Other Languages, Undergraduate Certificate (p. 1182)
- Linguistics, BA (p. 1183)
- Linguistics, MA (p. 1186)
- Linguistics, Minor (p. 1188)
- Linguistics, PhD (p. 1188)
- Teaching of English to Speakers of Other Languages and Applied Linguistics, MA (p. 1190)

received specialized training in the methodologies of teaching English, second language acquisition, bilingualism, and multicultural awareness.

The use of English as a common language of communication has risen dramatically in the last few decades, and the demand for TESOL trained instructors is high in certain parts of the world. Asia, Central America, and South America are three particular hot spots where people have a strong desire learn English or improve their English language skills.

Students who love to travel often make a career out of traveling the globe, picking up jobs in various nations. Others stay closer to home and find similar positions in the U.S. teaching English to immigrants, visitors,

foreign students, or others who have not learned English as their first language. TESOL is a dynamic profession that combines innovation and creativity with interactions in culturally-diverse communities.

The Adult/University-Level TESOL (Teaching English to Speakers of Other Languages) Graduate Certificate Program is designed to meet the needs of graduate non-degree students or graduate students concurrently enrolled in a UWM master’s or PhD program. Requirements for this program are very similar to those for the undergraduate-level “Adult/University-Level TESOL Certificate Program” but is more rigorous and can be applied (concurrently or subsequently) to the Master of Arts program in Linguistics.

## Admission Requirements

*Effective Fall 2023, admission to the TESOL certificate is suspended.*

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Application

- Students wishing to obtain this certificate must declare their intention by applying to the program office or director.
- All graduate certificate applicants—even those already enrolled in a UWM graduate program—must apply to the Graduate School through the Panthera Admission Application (<https://graduateschool-apply.uwm.edu/>).
- Graduate degree and previously admitted graduate non-degree students who decide to pursue a certificate program must submit the Panthera application before completing 6 credits in the certificate sequence.
- Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted into a certificate program.
- Submit the following materials to the TESOL Certificate Program Coordinator in the Department of Linguistics:
  - Adult/University-Level TESOL Graduate Certificate Program application form (available from the Linguistics Department office).
  - Transcripts of all college-level academic work, with evidence of a GPA of 2.75 or better.
  - A statement of purpose.
  - Two letters of recommendation from persons knowledgeable about the applicant’s recent academic and/or work experience.
  - Applicants who are not native speakers of English should also submit TOEFL scores of at least 550 (paper-based test) or 79 (internet-based test), or at least 6.5 on the IELTS exam, and 45 on the TSE, or an equivalent means of demonstrating proficiency.

### Eligibility and Admission

Applicants must possess a baccalaureate degree and have a minimum 2.75 cumulative undergraduate grade point average to be admitted in to a certificate program.

## Credits and Courses

Students are required to complete the six courses (18 credits) plus teaching internship (3 credits) outlined below.

Code	Title	Credits
<b>Required</b>		
LINGUIS/MALLT 708	Proseminar in Linguistics	3
LINGUIS 810	Methodologies in English Language Teaching	3
LINGUIS 720	Introduction to Second Language Acquisition	3
LINGUIS 741	Introduction to TESOL Methods	3
LINGUIS 430G or ANTHRO 570G	Language and Society Issues in Bilingualism	3
<b>Electives</b>		
Select one of the following:		3
CURRINS 655G	Applied Educational Linguistics	
ENGLISH 404G	Language, Power, and Identity	
LINGUIS 715	First Language Acquisition	
LINGUIS 761	Introduction to Phonology	
LINGUIS 764	Introduction to Syntax	
LINGUIS 768	Language in its Various Forms:	
LINGUIS 770	Historical and Comparative Linguistics	
LINGUIS 861	Advanced Phonology	
LINGUIS 864	Advanced Syntax	
LINGUIS/ED PSY 748		
LINGUIS 806	Seminar in Linguistics: (Subtitle)	
<b>Teaching internship</b>		
LINGUIS 869	Practicum in Teaching ESL to Adult Learners	3
<b>Total Credits</b>		<b>21</b>

## Additional Requirements

### Transfer Credit

No more than 6 credits may be taken at an institution other than UWM. These courses are subject to Graduate School transfer policy and must be approved by the director of the certificate program. Students who have completed any of the required courses for undergraduate credit must substitute other courses at the graduate level, selected in consultation with the certificate program coordinator to fulfill the credit requirements.

### Grade Point Average Requirement

A minimum cumulative 3.00 grade point average in certificate courses taken at UWM is required.

### Articulation with Degree Programs

1. Credits and courses required for a certificate may double count toward meeting UWM graduate degree requirements subject to the following restrictions:
  - Degree programs must approve the courses from certificates that can double count toward the degree.
  - All credits taken in completion of certificate requirements may count towards a UWM graduate degree as long as they do not contribute more than 90% of the total credits needed to obtain the

degree. (Note: Students in PhD programs must still complete the minimum residency requirements)

- Certificate courses used toward meeting degree requirements must be completed within the time limit for transfer credit.
2. Courses completed for a degree may be counted toward a subsequent certificate, subject to all certificate policy requirements.
  3. A course may count toward no more than one certificate and one degree.
  4. Students may not earn a certificate subsequent to a concentration in the same area.

## Time Limit

Certificate program time limits shall be established as follows:

- 18 or fewer credits/Three years from initial enrollment in the certificate sequence.
- 19 or more credits/Four years from initial enrollment in the certificate sequence.

For certificates that are designed as add-ons to degree programs and are awarded concurrent with the degree, the time limit shall be the same as that of the degree program.

# Adult/University Level Teaching English to Speakers of Other Languages, Undergraduate Certificate

*Effective Fall 2023, admission to the TESOL certificate is suspended.*

UWM's TESOL certificate prepares students for a career teaching English to non-English speaking adults. TESOL is an internationally-recognized acronym that denotes the holder of the certificate has received specialized training in the methodologies of teaching English, second language acquisition, bilingualism, and multicultural awareness.

The use of English as a common language of communication has risen dramatically in the last few decades, and the demand for TESOL trained instructors is high in certain parts of the world. Asia, Central America, and South America are three particular hot spots where people have a strong desire learn English or improve their English language skills.

Students who love to travel often make a career out of traveling the globe, picking up jobs in various nations. Others stay closer to home and find similar positions in the U.S. teaching English to immigrants, visitors, foreign students, or others who have not learned English as their first language. TESOL is a dynamic profession that combines innovation and creativity with interactions in culturally-diverse communities.

## Eligibility

The Adult/University-Level TESOL Undergraduate Certificate Program is designed to meet the needs of students who wish to teach English as a Second Language (ESL) to adults or university-level students abroad. The program is open to undergraduates with at least junior standing, to post-baccalaureate special students, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. Non-degree students must meet regular University admission requirements. Graduate students or post-baccalaureate non-degree students should pursue instead the "Adult/

University-Level TESOL Graduate Certificate." Training in the graduate certificate program is more rigorous, and some credits earned can be transferred to the Linguistics Department MA program.

Undergraduate students concurrently completing a bachelor's degree receive the certificate upon completion of their degree requirements; post-baccalaureate special students and non-degree students receive the certificate upon completion of the required coursework and internship.

*Effective Fall 2023, admission to the TESOL certificate is suspended.*

## Requirements

### Admission

Students who wish to apply to the program should submit the declaration of interest form (<https://uwm.edu/linguistics/tesol/undergraduate-certificate/certificate-application/>).

Requirements for admission include:

1. A current transcript, with evidence of a GPA of 2.50 or better;
2. A meeting with the Director of TESOL, to assess the student's interest and plan for completing the certificate.

Applicants who are not native speakers of English also should submit scores of least 550 on the TOEFL exam and 45 on the TSE.

The teaching practicum is completed at one of the institutions affiliated with the certificate program. The site of the internship may be chosen by the student, but it must be approved by the certificate program staff. The student is expected to complete between 60 and 80 hours of supervised teaching over a period of a semester. Students who previously have taken any of the required courses while enrolled as non-degree undergraduate students or students in other undergraduate programs at UWM may transfer the credits earned into the certificate program, so long as the courses have been taken within the last five years. Students who have taken comparable undergraduate-level courses at other institutions may be allowed to transfer in up to 6 credits of coursework, upon approval of the certificate program coordinator.

There is a time limit of three years from initial enrollment for completion of the certificate.

Students are required to complete the six courses (18 credits) plus teaching internship (3 credits) outlined below. All credits must be completed with a GPA of 3.0 or better.

Code	Title	Credits
<b>Required</b>		
LINGUIS 350	Introduction to Linguistics	3

<b>Total Credits</b>		<b>21</b>

## Linguistics, BA

Linguistics is the scientific study of language. Students of linguistics do not necessarily seek fluency in a second or third language. Instead, they study the components that make up any given language - the syntax, the grammar, the regional differences, the slang, the pronunciations, the symbols, the changes over time, how people learn a language, and more.

At UWM, Linguistics students can opt for a broad linguistics major which will touch on all aspects of language development and learning. Or, students can choose an applied linguistics major which will focus more on using the principles of linguistics in a business setting such as in the classroom to help students learn a second language, in a social service agency that deals with illiteracy, or at a software company working on search engine optimization terms.

Many students find that acquiring advanced fluency in a second or third language beyond their native tongue is helpful for understanding the commonalities and differences between languages. However, no additional foreign language is required beyond the standard requirement for Letters & Science students - four years in high school of the same language or four semesters in college of the same language.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		

Course designated as OWC-B; may be completed through a major-specific course requirement

### Quantitative Literacy

#### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

#### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

### Arts

Select 3 credits 3

### Humanities

Select 6 credits 6

### Social Sciences

Select 6 credits 6

### Natural Sciences

Select 6 credits (at least two courses including one lab) 6

### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

## II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	

Code	Title	Credits
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

## III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		
	Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)	0-18
	Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)	

## IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		
	Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above	9
	Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.	
	Complete 9 credits in combination of the two options above.	

## V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
	Select 3 credits	3
<b>Humanities</b>		
	Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *	12
<b>Social Sciences</b>		
	Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *	12
<b>Natural Sciences</b>		

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. \*

**Cultural Diversity**

Complete 3 credits in a course with Cultural Diversity (CD) designation. \*\*

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

**VI. The Major**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

**Research Requirement**

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

**VII. The Minor**

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

**Linguistics Major Requirements**

The undergraduate major in linguistics may be obtained by pursuing either the general major option or the applied major option. Students must complete 30 credits in either the general major option or the applied major option. Students must complete at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. The College of Letters and Science requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. The College also requires students to complete a research experience in their major.

**Major Options**

**General Linguistics Major Option**

Code	Title	Credits
<b>Basic Requirements</b>		
LINGUIS 350	Introduction to Linguistics	3
LINGUIS 450	Introduction to Phonetics	3
LINGUIS 461	Introduction to Phonology	3

LINGUIS 464 Introduction to Syntax 3

**Special Requirements**

Select at least three of the following: 9

LINGUIS 415	First Language Acquisition
LINGUIS 420	Introduction to Second Language Acquisition
LINGUIS 430	Language and Society
LINGUIS 455	Semantics
LINGUIS 468	Language in its Various Forms:
LINGUIS 470	Historical/Comparative Linguistics
LINGUIS 474	Language Typology and Language Universals
LINGUIS 561	Advanced Phonology
LINGUIS 564	Advanced Syntax
LINGUIS 590	Morphology

**Electives**

Select 9 credits <sup>1</sup> 9

**Total Credits 30**

<sup>1</sup> Coursework in linguistics and related areas, selected from the approved electives list (see below) in consultation with an advisor in the Linguistics program.

**Applied Linguistics Major Option**

Code	Title	Credits
<b>Basic Requirements</b>		
LINGUIS 350	Introduction to Linguistics	3
LINGUIS 420	Introduction to Second Language Acquisition	3
LINGUIS/ANTHRO 570 or LINGUIS 430	Issues in Bilingualism Language and Society	3
LINGUIS 450	Introduction to Phonetics	3
LINGUIS 461	Introduction to Phonology	3
LINGUIS 464	Introduction to Syntax	3

**Special Requirements**

Select at least two of the following: 6

LINGUIS 415	First Language Acquisition
LINGUIS 432	Urban Dialects
LINGUIS 440	Psycholinguistics
LINGUIS 441	Introduction to TESOL Methods
LINGUIS 468	Language in its Various Forms:
LINGUIS 510	Methodologies in English Language Teaching
LINGUIS 567	Materials and Curriculum for TESOL

**Electives**

Select 6 credits <sup>1</sup> 6

**Total Credits 30**

<sup>1</sup> Coursework in linguistics and related areas, selected from the approved electives list (see below) in consultation with an advisor in the Linguistics program.

## Linguistics Major Approved Electives

Code	Title	Credits
All linguistics courses not selected to meet a specific requirement in the option		
All language courses (does not include literature courses)		
The following courses offered by other units:		
ANTHRO 105	Introduction to Linguistic Anthropology	3
ANTHRO 362	System Failure: Globalization and Language Extinction	3
ANTHRO 641	Seminar in Anthropology: (with linguistics subtitle)	3
COMMUN 320	Nonverbal Communication	3
COMMUN 350	Intercultural Communication	3
COMSDIS 230	Introduction to Phonetics	4
COMSDIS 240	Normal Speech and Language Development	3
COMPSCI 132	Introduction to Computers and Programming	3
COMPSCI 423	Introduction to Natural Language Processing	3
COMPSCI 431	Programming Languages Concepts	3
ENGLISH 211	Aspects of the English Language:	3
ENGLISH/LINGUIS 400	Introduction to English Linguistics	3
ENGLISH 402	Theories of Language and Literature: (with language focus)	3
ENGLISH 403	Survey of Modern English Grammar	3
FRENCH 392	Phonetics	3
GERMAN 371	German Phonetics	3
GERMAN 451		3
PHILOS 211	Elementary Logic	3
PHILOS 212	Modern Deductive Logic	3
PHILOS 511	Symbolic Logic	3
PHILOS 516	Language and Meaning	3
PHILOS 517	Special Problems in the Philosophy of Language and Linguistics:	3
SPANISH 341	Introduction to Hispanic Linguistics	3
SPANISH 444	Spanish Syntax and Morphology	3
SPANISH 541	History of the Spanish Language	3

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;

- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Linguistics, MA

### Related Certificates

- Adult/University-Level TESOL Graduate Certificate (<http://uwm.edu/graduateschool/adult-university-level-tesol-certificate/>)

## Overview

The Department of Linguistics offers master's and doctoral degrees and a graduate certificate in Adult/University-Level Teaching English to Speakers of Other Languages (TESOL).

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements to be considered for admission to the program:

1. Undergraduate major in linguistics or related field (e.g. languages, psychology, anthropology, philosophy).
2. Undergraduate grade point average of 3.0 (4.0 scale).
3. Three letters of recommendation to the Department's Director of Graduate Studies from persons familiar with applicant's academic ability and achievement.
4. A sample of academic writing.
5. A reason statement.
6. Though not required, submission of scores on the Graduate Record Examination (<http://uwm.edu/graduateschool/admission/#gre>) may enhance the application.

Applicants may be admitted with course deficiencies provided that the deficiencies amount to no more than two courses.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree. Applicants should contact the Linguistics Department office for additional information and deadlines.

## Credits and Courses

Students admitted to the master's program earn the degree by completing a minimum of 30 credits of graduate coursework, submitting a final project, and passing an oral examination on the final project. Students who demonstrate a capacity for doctoral work and wish to earn a PhD at UWM are advised to proceed as rapidly as possible to doctoral status. No more than 30 credits earned at the master's level may be included in the 54 credits required for the PhD.

The MA in Linguistics requires 30 graduate credits, including:

Code	Title	Credits
<b>Core Areas of Linguistics</b>		
LINGUIS 715 or LINGUIS 720	First Language Acquisition Introduction to Second Language Acquisition	3
LINGUIS 750	Introduction to Phonetics	3
LINGUIS 755	Semantics	3
LINGUIS 761	Introduction to Phonology	3
LINGUIS 764	Introduction to Syntax	3

LINGUIS 768 or LINGUIS 770	Language in its Various Forms: Historical and Comparative Linguistics	3
-------------------------------	--	---

Electives	
Select 12 elective credits distributed among 400- to 800-level courses in linguistics and related fields as approved by the student's major professor	12

<b>Total Credits</b>	<b>30</b>
----------------------	-----------

Students who completed any of the required courses as undergraduates will substitute another course selected in consultation with their major professor.

## Additional Requirements

### Major Professor as Advisor

The student must have a Major Professor to advise and supervise the student's work as specified in Graduate School regulations. The director of graduate studies serves as an initial advisor. It is recommended that the student have a permanent advisor by the end of the second semester of enrollment.

### Final Project

A research paper or other project appropriate to the student's professional goals, to be defended in an individualized oral examination.

- Final project. The project is a research paper on a topic chosen in consultation with the student's advisor; for students specializing in Teaching ESL to Adult Learners, the project may take some other form as approved by the major professor.
- Oral examination. The oral examination, usually lasting an hour and a half, focuses on the final project but also covers other elements of the student's program of study.

Regulations concerning final projects and oral examinations

1. Students should consult with their advisors before completing 24 credits in order to determine a final project. Ordinarily, this is a revised and expanded course or seminar paper of at least 30 pages. The project should demonstrate the student's skills in research, analysis and argumentation. For students specializing in Teaching ESL to Adult Learners, the project may consist of documentation of the outcome of a pedagogical investigation undertaken during the student's internship. The project serves both as a concluding effort at the master's level and as an indication of the student's potential for doctoral study.
2. In consultation with the student, the Director of Graduate Studies appoints an MA Examining Committee. At least two of the three members must be Linguistics Department faculty members. The MA Examining Committee administers the final Oral Examination.
3. The project must be submitted and the oral examination completed within one year after the completion of 24 credits. Students should remember that a maximum of 30 credits at the master's level is applicable to the PhD 54 credit requirement.
4. Students who express intent to go on for the PhD are evaluated by the MA Examining Committee regarding their qualifications for further graduate study at the doctoral level. The Committee Chair puts the Committee's recommendation in writing and places it in the student's academic file.
5. Students who fail the oral examination may be required to revise their final project, retake the examination, or both. The oral examination may be retaken only once. Students must register for 1-3 credits when revising the final project after a failed examination; however, the

additional credit(s) may not count toward the 30 credits required for the degree.

### Time Limit

The student must complete all degree requirements within five years of initial enrollment.

## Linguistics, Minor

Linguistics is the scientific study of language. Students of linguistics do not necessarily seek fluency in a second or third language. Instead, they study the components that make up any given language - the syntax, the grammar, the regional differences, the slang, the pronunciations, the symbols, the changes over time, how people learn a language, and more.

At UWM, Linguistics students can opt for a broad linguistics minor which will touch on all aspects of language development and learning. Or, students can choose an applied linguistics minor which will focus more on using the principles of linguistics in a business setting such as in the classroom to help students learn a second language, in a social service agency that deals with illiteracy, or at a software company working on search engine optimization terms.

Many students find that acquiring advanced fluency in a second or third language beyond their native tongue is helpful for understanding the commonalities and differences between languages. However, no additional foreign language is required beyond the standard requirement for Letters & Science majors: four years in high school of the same language or four semesters in college of the same language.

## Requirements

Students must complete at least 9 upper-division (numbered 300 and above) credits in the minor in residence at UWM. The College requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including transfer work.

### General Linguistics Minor Option

Code	Title	Credits
<b>Basic Requirements</b>		
LINGUIS 350	Introduction to Linguistics	3
LINGUIS 430	Language and Society	3
Select one of the following:		3
LINGUIS 415	First Language Acquisition	
LINGUIS 461	Introduction to Phonology	
LINGUIS 464	Introduction to Syntax	
LINGUIS 468	Language in its Various Forms:	
<b>Electives</b>		
Select 9 credits <sup>1</sup>		9
<b>Total Credits</b>		<b>18</b>

<sup>1</sup> Coursework in linguistics and related areas selected in consultation with an advisor in the Linguistics program. Students are encouraged to focus their electives in an area closely aligned with the study of linguistics, including various foreign languages, English, anthropology, philosophy, computer science, and education, among others.

### Applied Linguistics Minor Option

Code	Title	Credits
<b>Basic Requirements</b>		
LINGUIS 350	Introduction to Linguistics	3
LINGUIS 420	Introduction to Second Language Acquisition	3
LINGUIS 430	Language and Society	3
ANTHRO/LINGUIS 570	Issues in Bilingualism	3
Select one of the following:		3
LINGUIS 415	First Language Acquisition	
LINGUIS 441	Introduction to TESOL Methods	
LINGUIS 461	Introduction to Phonology	
LINGUIS 464	Introduction to Syntax	
LINGUIS 468	Language in its Various Forms:	
<b>Electives</b>		
Select 3 credits <sup>1</sup>		3
<b>Total Credits</b>		<b>18</b>

<sup>1</sup> Coursework in linguistics and related areas selected in consultation with an advisor in the Linguistics program. Students are encouraged to focus their electives in an area closely aligned with the study of linguistics, including various foreign languages, English, anthropology, philosophy, computer science, and education, among others.

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Linguistics, PhD

### Related Certificates

- Adult/University-Level TESOL Graduate Certificate (<http://uwm.edu/graduateschool/adult-university-level-tesol-certificate/>)

## Overview

The Department of Linguistics offers master's and doctoral degrees and a graduate certificate in Adult/University-Level Teaching English to Speakers of Other Languages (TESOL).

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

Students wishing to enter the PhD program in Linguistics, including those who hold a master's degree from elsewhere, must satisfy the requirements for the UWM Master of Arts degree in Linguistics. Students apply to the Graduate School for admission, which, in turn, forwards completed applications to the Department. The Department faculty then evaluates the applications and decides on admissions to the PhD program in Linguistics. Occasionally, an exceptionally well-qualified student will be admitted to the PhD program with a baccalaureate degree. The student must complete the requirements of the MA degree in the course of fulfilling the requirements for the PhD

New students are admitted each year typically to begin in the Fall term. To be considered, all application materials normally must be received by the Graduate School no later than December 15. Admission materials will include:

- Completed Graduate School application.
- Official transcripts of previous work, including evidence of a master's degree either completed or in progress.
- Three letters of recommendation.
- Sample of written work.
- Statement of purpose.

In addition, students whose native language is not English must submit scores on the Test of English as a Foreign Language (TOEFL), or the equivalent. A score of at least 587 (TOEFL) is normally necessary for admission. The minimum score for the computer based TOEFL is 240, or 95 for the internet-based test (iBT).

Submission of Graduate Record Examination (GRE) results (<http://uwm.edu/graduateschool/admission/#gre>), though not required, is encouraged.

## Credits and Courses

The PhD program requires a minimum of 54 credits beyond the BA. The 54 credits are distributed as follows:

Code	Title	Credits
<b>Required</b>		
LINGUIS 715	First Language Acquisition	3
or LINGUIS 720	Introduction to Second Language Acquisition	
LINGUIS 750	Introduction to Phonetics	3
LINGUIS 755	Semantics	3
LINGUIS 761	Introduction to Phonology	3
LINGUIS 764	Introduction to Syntax	3
LINGUIS 768	Language in its Various Forms:	3
or LINGUIS 770	Historical and Comparative Linguistics	
LINGUIS 850	Advanced Phonetics	3
LINGUIS 855	Advanced Semantics	3
LINGUIS 861	Advanced Phonology	3

LINGUIS 864	Advanced Syntax	3
<b>Seminars and Independent Study</b>		
Select 12 credits in 800-level linguistics seminars (Linguis 801-806) and independent studies, at least 9 credits of which must be in seminars		12
<b>Electives</b>		
Select 12 elective credits, selected with approval of the student's major professor		12
<b>Total Credits</b>		<b>54</b>

## Additional Requirements

### Major Professor as Advisor

The student must have a major professor to advise and supervise the student's work as specified in Graduate School regulations. The Director of Graduate Studies serves as an initial advisor.

### General Restrictions

Doctoral students may not count more than 9 credits in independent study toward the degree without the approval of the Director of Graduate Studies. No more than 18 credits may be counted in courses taken outside the Department of Linguistics.

### Advising

Students are required to consult periodically with their Major Professor. The Major Professor helps the student to define an area of special interest within the concentration for the preliminary examination. The Major Professor also assists the student in the selection of appropriate coursework and may chair the Preliminary Examination Committee.

### Foreign Language Requirement

All PhD candidates are required to demonstrate proficiency (reading knowledge) in a language other than English. The choice of language, and the means of demonstrating proficiency, must be approved by the student's Major Professor in consultation with the Director of Graduate Study.

### Residence

The student must meet minimum Graduate School residence requirements.

### Doctoral Preliminary Examination

The doctoral preliminary examination consists of an oral defense of a major research paper submitted by the student typically after completing 39 to 45 credits toward the PhD degree. Though the scope of the examination, which usually lasts two hours, is open-ended, its focus is on the submitted research paper, which itself is intended to demonstrate the breadth and depth of a student's knowledge and the ability to conduct advanced research in one or more areas of study. The successfully-defended research paper should lead naturally to timely preparation of the dissertation proposal.

Students cannot take the preliminary examination if they have any incomplete or unreported grades or a GPA less than 3.0. The exam must be finished within one semester after all coursework is completed, excluding summer sessions. Students may receive from the Director of Graduate Studies a one semester extension for additional coursework. Students who do not complete the exam within this time frame will be considered to have failed the exam. The exam may be retaken only once, after making appropriate revisions to the research paper. Students who fail the preliminary examination may not proceed to the dissertation. The

exam must be passed within five years of initial enrollment in the doctoral program.

### Dissertation

The dissertation topic, together with a comprehensive prospectus, must be approved by the student's doctoral committee in a dissertation proposal hearing that should be held not later than the semester immediately following the preliminary examination. The dissertation proposal is typically, albeit not necessarily, a refinement and extension of the research paper defended in the oral preliminary examination. Though no specific length requirements are imposed on the dissertation itself, the Department considers 200 pages to be reasonable and representative.

### Dissertation Defense

The completed dissertation is subject to an oral defense, to be arranged by the Major Professor in coordination with the Director of Graduate Study according to Graduate School regulations. A copy of the dissertation is kept in the Department office.

### Time Limit

All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program.

## Teaching of English to Speakers of Other Languages and Applied Linguistics, MA

*Admission to the MA in TESOL is suspended for the 2024-2025 academic year.*

The MA in TESOL (Teaching English as a Second Language) and Applied Linguistics prepares students for careers teaching adult learners of English as a second language in a variety of contexts. The program blends essential core linguistics with highly specialized training in methodologies of teaching English, second language acquisition, bilingualism, and multicultural awareness.

The use of English as an international language of communication has increased dramatically in the last few decades, and the demand for highly trained TESOL professionals is great in many parts of the world. Graduates will be qualified for positions both abroad and in the US. Opportunities within the US may include teaching English to international students, immigrants, or other visitors. International contexts can range from university instruction, private language academies, as well as consultation with public schools. TESOL is a dynamic profession that combines innovation and creativity with interactions in culturally diverse communities.

## Admission Requirements

*Admission to the MA in TESOL is suspended for the 2024-2025 academic year.*

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

## Admission

As with admission to other graduate programs in Linguistics, admission to the MA in TESOL and Applied Linguistics program will be determined based on the education, skills, experience, past academic performance, and interests of the applicant. The Department of Linguistics faculty will review each application to determine whether a student is qualified for admission to the program. In addition to meeting graduate school requirements for admission, potential students must provide three letters of recommendation from persons familiar with the applicant's academic or professional work; a writing sample demonstrating the applicant's critical thinking, research, and writing skills; and a current resume that clearly articulates the applicant's professional, international, and intercultural experiences as well as language exposure and proficiencies.

*Admission to the MA in TESOL is suspended for the 2024-2025 academic year; no applications are being accepted at this time.*

## Credits and Courses

Code	Title	Credits
<b>Required Courses:</b>		
LINGUIS 520G	Advanced Second Language Acquisition:	3
LINGUIS 720	Introduction to Second Language Acquisition	3
LINGUIS 741	Introduction to TESOL Methods	3
LINGUIS 750	Introduction to Phonetics	3
LINGUIS 761	Introduction to Phonology	3
LINGUIS 764	Introduction to Syntax	3
LINGUIS 810	Methodologies in English Language Teaching	3
LINGUIS 867	Materials and Curriculum for TESOL	3
LINGUIS 869	Practicum in Teaching ESL to Adult Learners (take 3 credits)	1-6
<i>Elective (Choose one):</i>		
AD LDSP 757	Principles and Foundations of Adult Education	3

LINGUIS 755	Semantics	
LINGUIS 768	Language in its Various Forms:	
LINGUIS 806	Seminar in Linguistics: (Language Acquisition topic)	

**Total Credits** **30**

## Additional Requirements

### Major Professor as Advisor

The student must have a Major Professor to advise and supervise the student's work as specified in Graduate School regulations. The director of graduate studies serves as an initial advisor. It is recommended that

the student have a permanent advisor by the end of the second semester of enrollment.

## Final Project

A research paper or other project appropriate to the student's professional goals, to be defended in an individualized oral examination.

- Final project: The project is a research paper on a topic chosen in consultation with the student's advisor; for students specializing in Teaching ESL to Adult Learners, the project may take some other form as approved by the major professor.
- Oral examination: The oral examination, usually lasting an hour and a half, focuses on the final project but also covers other elements of the student's program of study.

### Regulations concerning final projects and oral examinations:

1. Students should consult with their advisors before completing 24 credits in order to determine a final project. Ordinarily, this is a revised and expanded course or seminar paper of at least 30 pages. The project should demonstrate the student's skills in research, analysis and argumentation. For students specializing in Teaching ESL to Adult Learners, the project may consist of documentation of the outcome of a pedagogical investigation undertaken during the student's internship. The project serves both as a concluding effort at the master's level and as an indication of the student's potential for doctoral study.
2. In consultation with the student, the Director of Graduate Studies appoints an MA Examining Committee. At least two of the three members must be Linguistics Department faculty members. The MA Examining Committee administers the final Oral Examination.
3. The project must be submitted and the oral examination completed within one year after the completion of 24 credits. Students should remember that a maximum of 30 credits at the master's level is applicable to the PhD 54 credit requirement.
4. Students who express intent to go on for the PhD are evaluated by the MA Examining Committee regarding their qualifications for further graduate study at the doctoral level. The Committee Chair puts the Committee's recommendation in writing and places it in the student's academic file.
5. Students who fail the oral examination may be required to revise their final project, retake the examination, or both. The oral examination may be retaken only once. Students must register for 1-3 credits when revising the final project after a failed examination; however, the additional credit(s) may not count toward the 30 credits required for the degree.

### Time Limit

The student must complete all degree requirements within five years of initial enrollment.

## Mathematical Sciences

The Department of Mathematical Sciences at the University of Wisconsin-Milwaukee is home to an active community of teachers, scholars, undergraduates, and graduate students. In addition to most traditional areas of Pure and Applied Mathematics, the department contains all UWM programs in Actuarial Science.

The department offers Bachelor's, Master's, and Doctoral studies in all of these areas, in addition to several interdisciplinary programs. Established in 1963, the PhD in Mathematics is the original doctoral program at

UWM, founded by Dr. Morris Marden (<http://uwm.edu/math/graduate/resources/history-of-our-graduate-program/morris-mardens-biography/>).

In addition, together with Computer Science (in the College of Engineering and Applied Science), we offer the Applied Math and Computer Science Bachelor of Science degree, as well as a Data Science Bachelor of Science degree.

Mathematics is the principal language of modern science and technology. In such diverse areas as physics, engineering, economics, computer science, and biology, much of the subject matter is presented in mathematical terms. In addition, mathematical techniques are now being used in many areas which formerly were non-mathematical; for example, history, political science, psychology, and medicine.

Some students are drawn to mathematics because of the beauty they find in its structure and logic, others because it allows a deeper understanding of an allied area of study.

**Actuarial science** is the mathematical analysis of problems in economics, finance, and insurance. It requires knowledge of statistics, probability, and interest theory and how they relate to financial issues.

**Data science** uses large sets of data — sometimes millions of pieces of data — to describe or solve some of the world's toughest problems. Data scientists use those large sets of information to describe what's happening, explain why it's happening, predict what's likely to happen and make decisions about what action to take.

The **Applied Mathematics and Computer Science** degree combines core subjects in the two fields, preparing students for work in industrial and technology fields.

Students of the sciences, engineering, computer science, economics, and business often complete a significant number of mathematical sciences credits. These students are encouraged to take a mathematics major or minor, which adds an official recognition of important analytical skills valued by employers and graduate schools.

Students interested in teaching mathematics at the K-12 level should consult the School of Education section of this catalog.

For the Mathematics, Actuarial Science, Applied Math & Computer Science, and Data Science programs, please visit the department web page at <https://uwm.edu/math/> and follow the links to the undergraduate program for more information.

### There are three curricular areas in the Department of Mathematical Sciences:

- Actuarial Science (ACTSCI)
- Mathematics (MATH)
- Mathematical Statistics (MTHSTAT)

### Undergraduate Studies - We offer two minors and five undergraduate degrees:

- Bachelor of Science Degrees: Mathematics; Applied Mathematics and Computer Science (AMCS); Data Science (the latter two jointly with the Computer Science department)
- Bachelor of Arts Degrees: Mathematics; Actuarial Science
- Minors: Mathematics; Actuarial Science

## Graduate Studies in Mathematical Sciences

The Department has a vibrant graduate program leading to both the Master of Science and Doctor of Philosophy degree in Mathematics. In addition to traditional areas of Mathematics and Statistics, our graduate offerings include UW-Milwaukee's Actuarial Science programs. The department also offers a newly established dual degree in mathematics with Fachhochschule Aachen (Aachen University of Applied Sciences) in Germany. Students may prepare for careers in teaching at the secondary or college level and for careers in research in the academic, industrial, government, or business communities.

- Applied Math and Computer Science, BS (College of Letters and Science, Department of Mathematical Sciences) (p. 1198)
- Data Science, BS (College of Letters and Science, Department of Mathematical Sciences) (p. 1200)

## Actuarial Science, BA

Actuarial science is the quantitative analysis of risk. In addition to mathematics and statistics courses, students in actuarial science take classes in finance, economics and computer programming.

At many universities, actuarial sciences is housed in the business department. We believe that the most successful actuaries have an extensive foundation in mathematics and in the broader liberal arts, and therefore our program is housed in our Department of Mathematical Sciences.

While you will take several business classes, you will also be heavily exposed to the broader context in which risk exists in our lives. Through economics courses and other courses in the social sciences and humanities, you will see how actuarial science is not practiced in a vacuum but has real-life implications and impact on businesses, individuals, and communities as a whole.

Students interested in actuarial science should make every effort to prepare themselves in high school by taking four years of challenging math classes. Ideally, students will enter college ready to start in the first semester of calculus.

As students progress in our program, they begin to take the professional exams required of actuaries, making themselves more attractive job candidates. Our location in Milwaukee, the largest city in Wisconsin and home to many large and small companies, also gives our students easier access to internships and part-time jobs compared to smaller cities. If you are looking for more advanced training beyond the bachelor's level, explore our Master's of Science in Mathematical Sciences (<http://uwm.edu/math/graduate/programs/ms-program/>). In this program, you can obtain graduate-level training in actuarial science.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

#### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

#### Arts

Select 3 credits 3

#### Humanities

Select 6 credits 6

#### Social Sciences

Select 6 credits 6

#### Natural Sciences

Select 6 credits (at least two courses including one lab) 6

#### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

#### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing

course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete

*the BA, students must take one of the L&S approved courses. Not all of the courses listed here will satisfy the QL-B requirement.*

Complete 3 credits in a course with Cultural Diversity (CD) designation.\*\* 3

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
	Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)	
	Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)	

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
	Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above	
	Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.	
	Complete 9 credits in combination of the two options above.	

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
	Select 3 credits	3
<b>Humanities</b>		
	Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *	12
<b>Social Sciences</b>		
	Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *	12
<b>Natural Sciences</b>		
	Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *	12
<b>Cultural Diversity</b>		

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Actuarial Science Major Requirements

Students who intend to complete the BA in Actuarial Science program in four years will need to begin taking mathematics in their first semester. Such students should have a University of Wisconsin-Milwaukee mathematics placement level of 30 (ready for precalculus) or better.

### Admission

To be eligible for admission, a student should have completed their Calculus sequence with a GPA of 2.50 or better and MATH 234 or MATH 240. In addition, students should have earned a grade of B- or better in either ACTSCI 391 or MTHSTAT 361, or should have earned a score of 4 or higher on the Society of Actuaries Exam FM or P.

### Preparatory Curriculum

Students must complete one of Calculus Sequences: MATH 211 and MATH 212, or MATH 231 (or MATH 213), MATH 232, and MATH 233 (or equivalent). MATH 221 and MATH 222 are equivalent to MATH 231, MATH 232, and MATH 233. Students majoring in actuarial science must have an average GPA of at least 2.500 in these courses. Additional preparatory curricula are required, as listed below.

### Capstone Experience

Students must complete a Capstone Experience. The aim of the capstone experience is to encourage independent learning. Students complete

a research paper in the context of this course, which satisfies the L&S research requirement. For Actuarial Science majors, the capstone is ACTSCI 599. Students must obtain consent of the instructor to enroll in ACTSCI 599.

## Requirements

Students must complete the courses listed below, including at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work.

Code	Title	Credits
<b>Additional Preparatory Curriculum</b>		
ACTSCI 290	Introduction to Actuarial Science	3
MATH 234	Linear Algebra and Differential Equations	3-4
or MATH 240	Matrices and Applications	
COMPSCI 250	Introductory Computer Programming	3
COMPSCI 251	Intermediate Computer Programming	3
BUS ADM 201	Introduction to Financial Accounting	4
ECON 103	Principles of Microeconomics	3
ECON 104	Principles of Macroeconomics	3
<b>Core Curriculum</b>		
ACTSCI 391	Investment Mathematics I	4
MTHSTAT 361	Introduction to Mathematical Statistics I	3
MTHSTAT 362	Introduction to Mathematical Statistics II	3
BUS ADM 350	Principles of Finance	3
or BUS ADM 450	Intermediate Finance	
ACTSCI 490	Introduction to Actuarial Practice	1
ACTSCI 491	Actuarial Workshop FM	1
ACTSCI 492	Actuarial Workshop P	1
ACTSCI 599	Capstone Experience	1
ACTSCI 593	Actuarial Models I	3
ACTSCI 596	Actuarial Statistics I	3
ACTSCI 594	Actuarial Models II	3
or ACTSCI 597	Actuarial Statistics II	
MTHSTAT 563	Regression Analysis	3
MTHSTAT 564	Time Series Analysis	3
MTHSTAT 568	Multivariate Statistical Analysis	3
Select one of the following three courses:		3
ACTSCI 591	Investment Mathematics II	
MATH 583	Introduction to Probability Models	
MTHSTAT 566	Computational Statistics	
<b>Total Credits</b>		<b>60-61</b>

## Recommended Electives

To achieve the best preparation for an actuarial career, students actively should pursue internship opportunities with insurance companies, consulting firms, and other organizations that require actuarial science knowledge. Once such an opportunity is secured, the student should enroll in ACTSCI 590. Students also should take courses in business communication (COMMUN 105, ENGLISH 205), computer science

(COMPSCI 351, COMPSCI 557), and expand their knowledge in economics (ECON 325, ECON 450).

## Professional Development

For future advancement in the field of actuarial science, "Validation by Educational Experience" (VEE) credits are required. VEE credits may be earned from the Society of Actuaries (SOA) and Casualty Actuarial Society (CAS) with a grade of B- or better in the following courses:

Code	Title	Credits
MTHSTAT 362	Introduction to Mathematical Statistics II (VEE-Mathematical Statistics)	3
ECON 103	Principles of Microeconomics (VEE-Economics)	3
ECON 104	Principles of Macroeconomics (VEE-Economics)	3
BUS ADM 201	Introduction to Financial Accounting (VEE-Accounting and Finance)	4
BUS ADM 450	Intermediate Finance (VEE-Accounting and Finance)	3

Courses taken at other universities may be used to meet the VEE requirement of the SOA/CAS.

Students considering a major in Actuarial Science need to come to the department to declare their major and be assigned a faculty advisor. All courses selected for the major must be approved by the advisor, and since **required courses are not offered every semester or year**, students should check regularly with their advisors to plan their courses of study in order to finish in a coherent and timely fashion.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Honors in the Major

Students in Actuarial Science who meet all of the following criteria can be awarded honors in the major upon graduation:

1. A 3.000 cumulative GPA in all UWM graded credits;
2. A 3.500 GPA over all UWM courses counting toward the Actuarial Science major;
3. A 3.500 GPA over all upper-division UWM courses counting toward the Actuarial Science major; and
4. The passing of at least three professional actuarial exams.

Students who believe they may qualify for honors in Actuarial Science should apply to the Mathematical Sciences Department during their last semester of study.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Actuarial Science, Minor

Actuarial science is the quantitative analysis of risk. In addition to mathematics and statistics courses, students in actuarial science take classes in finance, economics and computer programming.

At many universities, actuarial sciences is housed in the business department. We believe that the most successful actuaries have an extensive foundation in mathematics and in the broader liberal arts, and therefore our program is housed in our Department of Mathematical Sciences.

While you will take several business classes, you will also be heavily exposed to the broader context in which risk exists in our lives. Through economics courses and other courses in the social sciences and humanities, you will see how actuarial science is not practiced in a vacuum but has real-life implications and impact on businesses, individuals, and communities as a whole.

Students interested in actuarial science should make every effort to prepare themselves in high school by taking four years of challenging math classes. Ideally, students will enter college ready to start in the first semester of calculus.

As students progress in our program, they begin to take the professional exams required of actuaries, making themselves more attractive job candidates. Our location in Milwaukee, the largest city in Wisconsin and home to many large and small companies, also gives our students easier access to internships and part-time jobs compared to smaller cities. If you are looking for more advanced training beyond the bachelor's level, explore our Master's of Science in Mathematical Sciences (<http://uwm.edu/math/graduate/programs/ms-program/>). In this program, you can obtain graduate-level training in actuarial science.

## Requirements

Students must complete at least 9 upper-division (numbered 300 and above) credits for the minor in residence at UWM. The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

Code	Title	Credits
<b>Admission Courses</b> <sup>1</sup>		
One of the following calculus sequences (or an equivalent)		8-12
MATH 231 & MATH 232 & MATH 233	Calculus and Analytic Geometry I and Calculus and Analytic Geometry II and Calculus and Analytic Geometry III	
MATH 211 & MATH 212	Survey in Calculus and Analytic Geometry I and Survey in Calculus and Analytic Geometry II	
<b>Required Courses</b>		
ACTSCI 290	Introduction to Actuarial Science	3
ACTSCI 391	Investment Mathematics I	4
MATH 234 or MATH 240	Linear Algebra and Differential Equations Matrices and Applications	3-4
MTHSTAT 361	Introduction to Mathematical Statistics I	3

MTHSTAT 362	Introduction to Mathematical Statistics II	3
BUS ADM 450	Intermediate Finance <sup>2</sup>	3
<b>Total Credits</b>		<b>27-32</b>

<sup>1</sup> Admission to the minor requires a minimum GPA of 2.500 in these courses or an equivalent course sequence. Students who have completed these courses with the required GPA may complete a formal declaration of minor at the department office. These courses do not count in the minor GPA.

<sup>2</sup> BUS ADM 450 should be completed with a grade of B- or better.

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Applied Math and Computer Science, BS (College of Letters and Science, Department of Mathematical Sciences)

The Applied Mathematics and Computer Science (AMCS) program is a special degree program that blends courses from both the College of Letters & Science and the College of Engineering & Applied Science. It is a structured curriculum offering courses from both applied math and computer science so that students get the benefit of both majors without having to double major.

The job outlook for individuals with math majors is extremely favorable, as is the job outlook for computer science majors. A student with combined knowledge in both areas is likely to be in high demand on the job market.

Our program is highly technical in nature yet still retains elements of a classic liberal arts degree. Students take courses in the humanities, social sciences, and natural sciences on their way to a degree. Why? Because math and computer science are not applied in a world without humans. Regardless of the type of industry, the applications being worked on have impact and consequences for human beings. A broad world view of cultures, history, and society only leads to better decision-

making in scientific careers, and strong communication skills only make our graduates even more attractive.

## Applied Math and Computer Science Major Requirements

Students who intend to complete the program in four years will need to begin taking mathematics in their first semester. Such students should have a University of Wisconsin-Milwaukee mathematics placement level of 30 (ready for precalculus) or better.

### Admission

As soon as students realize their interest in the AMCS degree, they should consult with an AMCS advisor either in College of Engineering and Applied Science or College of Letters and Science, who assists in planning a program. Admission to the program requires a GPA of at least 2.500 in 8 credits of mathematics courses at or above the 200 level and 6 credits of computer science courses at or above the 200 level.

### Degree Requirements

For the BS (AMCS) degree, 120 credits are required, of which 60 must be taken from the College of Letters and Science. Students must satisfy the general education requirements (GER) (p. 29) of the University. Students must take at least 8 credits of natural sciences outside of mathematics or mathematical statistics.

An overall GPA of 2.000 on all coursework attempted at UWM is required for this degree. In addition, students must achieve a 2.000 GPA on all coursework attempted, including transfer work. A minimum 2.000 GPA must be earned on all 300-level and above courses taken to satisfy the advanced requirements. Students satisfy the residency requirement for the degree by completing at UWM both a minimum of 15 credits of the required advanced courses and one of the following:

- The last 30 credits;
- 45 of the last 60 credits;
- Any 90 credits.

Code	Title	Credits
<b>Core Requirements</b>		
COMPSCI 250	Introductory Computer Programming	3
COMPSCI 251	Intermediate Computer Programming	3
COMPSCI 317	Discrete Information Structures <sup>1</sup>	3
Select the following (or an equivalent sequence):		12
MATH 231	Calculus and Analytic Geometry I	
MATH 232	Calculus and Analytic Geometry II	
MATH 233	Calculus and Analytic Geometry III	
MATH 234	Linear Algebra and Differential Equations	4
	or MATH 240	Matrices and Applications
MATH 341	Seminar: Introduction to the Language and Practice of Mathematics	3

### Advanced Requirements

COMPSCI 351	Data Structures and Algorithms	3
COMPSCI 535	Algorithm Design and Analysis	3
Select 9 credits in COMPSCI at the 300 level or above		9
Select 12 credits from MATH and/or MTHSTAT and/or ACTSCI at the 300 level or above		12

Select 9 additional credits from CompSci, Math, MthStat, and ActSci courses at the 300 level or above, beyond the "Core" as well as the above "Advanced" Requirements; included in these 9 cr must be a Capstone or Internship Course. 9

*Capstone and Internship courses*

MATH 489	Internship in Mathematics, Upper Division
MTHSTAT 489	Internship in Mathematical Statistics, Upper Division
MATH 575	High School Mathematics from an Advanced Viewpoint
MATH 599	Capstone Experience
ACTSCI 590	Actuarial Internship
ACTSCI 599	Capstone Experience
COMPSCI 594	Capstone Project Preparation
COMPSCI 595	Capstone Project
COMPSCI 599	Senior Thesis

**Total Credits 64**

<sup>1</sup> COMPSCI 317 is waived for students who earn credit for MTHSTAT 361, which counts towards the math electives for the program. Students who have COMPSCI 317 waived in this case do not need to take any additional credits.

**Additional Requirements**

Students completing a Data Science BS who wish to also earn an AMCS BS must complete 9 credits upper division ActSci/Math/MthStat/CompSci beyond the courses in those curricular areas used to fulfill the Data Science Major requirements.

**Potential Course of Study**

Year 1		Credits
<b>Fall</b>		
COMPSCI 250	Introductory Computer Programming	3
ENGLISH 101	Introduction to College Writing	3
MATH 115	Precalculus	4
1st semester foreign language		3-5
<b>Credits</b>		<b>13-15</b>
<b>Spring</b>		
COMPSCI 251	Intermediate Computer Programming	3
ENGLISH 102	College Writing and Research (OWC-A GER)	3

<b>Credits 18-12</b>	
<b>Spring</b>	
Electives as needed to reach cr requirements <sup>1</sup>	13-12
Social Science GER	3
<b>Credits 16-15</b>	
<b>Total Credits 120</b>	

<sup>1</sup> Select a sufficient number of elective credits from the College of Letters and Science to earn a minimum of 60 L&S credits.

**Honors in the Degree**

Students in AMCS who meet all of the following criteria can be awarded honors in the degree upon graduation:

1. A 3.000 cumulative GPA in all UWM graded credits;
2. A 3.500 GPA over all UWM courses attempted that count toward the AMCS degree;
3. A 3.500 GPA over all upper division UWM courses counting toward the AMCS degree;
4. A grade of B+ or better in one of: MATH 599, MATH 699, COMPSCI 595, or COMPSCI 699;
5. Completion of 3 credits in Mathematical Sciences (curricular areas MATH or MTHSTAT) or Computer Science in a course numbered 600 or higher that is different from MATH 699 and COMPSCI 699.

Students who believe they may qualify for honors in Applied Mathematics & Computer Science should apply to the Department of Mathematical Sciences during their last semester of study.

**College of Letters and Science Dean's Honor List**

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Data Science, BS (College of Letters and Science, Department of Mathematical Sciences)

The Bachelor of Science in Data Science (BSDS) program is a special degree program that blends courses from both the College of Letters & Science and the College of Engineering & Applied Science. It is a structured curriculum offering courses from both statistics and computer science, in addition to electives from other departments and colleges.

The job outlook for individuals with data science degrees is extremely favorable. A student with combined skills in statistical analysis and computer programming is likely to be in high demand on the job market.

Our program is highly technical in nature yet still retains elements of a classic liberal arts degree. Students take courses in the humanities, social sciences, and natural sciences as part of the general education requirements, in addition to mandatory courses on the ethical implications of data science and on writing and communication. A broad world view of cultures, history, and society leads to better decision-making in scientific careers, and strong communication skills make graduates even more attractive in the job market.

## Data Science Program Requirements

Students who intend to complete the BS in Data Science (BSDS) program in four years will need to begin taking mathematics in their first semester. Such students should have a University of Wisconsin-Milwaukee mathematics placement level of 30 (ready for precalculus) or better.

### Admission

For admission to the BSDS program, students need only meet the general requirements of admission to UW-Milwaukee.

As soon as students realize their interest in the BSDS degree, they should consult with an BSDS advisor either in the College of Engineering and Applied Science or College of Letters and Science, who will assist in planning a program.

## Degree Requirements

The program requires at least 120 credits, which include University-wide General Education Requirements (<https://catalog.uwm.edu/policies/undergraduate-policies/#bachelorsdegreegeneraleducation>), 23-28 credits of mandatory preparatory courses, 36 credits of mandatory advanced core courses, a capstone course or an internship at the end of the coursework, and additional elective courses to fulfill the overall credit requirement.

An average GPA of 2.000 on all coursework attempted at UWM is required for this degree. In addition, students must achieve an average 2.000 GPA on all coursework attempted, including transfer work. A minimum 2.000 GPA must be earned, on average, on 300-level and above courses taken to satisfy the advanced requirements. Students satisfy the residency requirement for the degree by completing at UWM both a minimum of 15 credits of the required advanced courses and one of the following:

- The last 30 credits;
- 45 of the last 60 credits;
- Any 90 credits.

Code	Title	Credits
<b>Preparatory Courses</b>		
<i>Mathematics</i>		
One of the following calculus sequences (or an equivalent) <sup>1</sup>		8-12
MATH 231 & MATH 232 & MATH 233	Calculus and Analytic Geometry I and Calculus and Analytic Geometry II and Calculus and Analytic Geometry III

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Mathematics, BA

Mathematics is the international language of science and technology. Much of the subject matter in engineering and the natural sciences, as well as some social sciences such as economics, is presented in mathematical terms. Mathematical and statistical techniques are vital in fields that usually are not considered mathematical, such as biology, psychology, and political science.

Some students come to mathematical sciences with the intention of teaching in high school or college or pursuing research in mathematics. Some are attracted to mathematics for its own sake, for the beauty, discipline, logic, and problem-solving challenges. Other students pursue mathematics in order to achieve deeper understanding in their own areas of study.

Many students assume that most math majors become teachers. While many do, there are many other opportunities for math majors. The United States National Security Agency is the largest employer of math majors in the country. Math majors will also be found at NASA; in engineering firms; at insurance and risk management firms; in robotics and computer science companies; at large and small corporations working in market research, data management and web management; at social media start ups and established firms like YouTube; and any place that needs to make decisions based on numerical facts.

At UWM, the Math major has been designed to be flexible so that students could complete their major requirements via courses that match their interests and goals. Many students should find it relatively easy to complete double majors in mathematics and another subject.

Most mathematics courses belong in one of the following four groups: applied mathematics, computational mathematics, pure mathematics, and statistics.

- Applied Mathematics is a discipline using mathematical analysis to solve problems coming from outside the field of mathematics.
- Computational mathematics is closely related to applied mathematics. It emphasizes techniques of scientific computing and other computational analysis.
- Pure mathematics emphasizes the theory and structure underlying all areas of mathematics.
- Statistics is a field of mathematics that provides strategies and tools for using data to gain insight into real-world and experimental problems.

Students of the sciences, engineering, computer science, economics, and business often complete a significant number of mathematical sciences credits. These students are encouraged to take a mathematics major or minor, which adds an official recognition of important analytical skills valued by employers and graduate schools.

Students interested in teaching mathematics at the K-12 level should examine the School of Education (p. 320) programs.

Some students with an interest in computer science choose to enroll in the Applied Math and Computer Science (p. 1198) program. This program is ideal for the student who might have considered double majoring in both math and computer science; it combines applied math courses with computer science classes for you into one program.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

### University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		
<i>Part A</i>		
Achieve a grade of C or better in the following course:		
ENGLISH 102	College Writing and Research (or equivalent)	
<i>Part B</i>		
Course designated as OWC-B; may be completed through a major-specific course requirement		
<b>Quantitative Literacy</b>		
<i>Part A</i>		

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra
Or equivalent course	

#### *Part B*

Course designated as QL-B; may be completed through a major-specific course requirement

#### **Arts**

Select 3 credits 3

#### **Humanities**

Select 6 credits 6

#### **Social Sciences**

Select 6 credits 6

#### **Natural Sciences**

Select 6 credits (at least two courses including one lab) 6

#### **UWM Foreign Language Requirement**

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

#### **UWM Cultural Diversity Requirement**

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing

course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

## II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete

## III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		
	Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)	0-18
	Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)	

## IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		
	Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above	9
	Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.	
	Complete 9 credits in combination of the two options above.	

## V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
	Select 3 credits	3
<b>Humanities</b>		
	Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *	12
<b>Social Sciences</b>		
	Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *	12
<b>Natural Sciences</b>		
	Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *	12
<b>Cultural Diversity</b>		

Complete 3 credits in a course with Cultural Diversity (CD) designation.\*\* 3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

## VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

## VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

# Mathematics Major Requirements

## Preparatory Curriculum

Students in all majors in the Department of Mathematical Sciences must complete MATH 231 (or MATH 213), MATH 232, and MATH 233 (or equivalent). MATH 221 and MATH 222 are equivalent to MATH 231, MATH 232, and MATH 233. Students majoring in mathematics must have an average GPA of at least 2.500 in these courses. All majors must take either MATH 234 or MATH 240, as well as a course in computer programming in a modern, high-level language (e.g., COMPSCI 151, COMPSCI 202, COMPSCI 240, COMPSCI 250, or COMPSCI 251). The department also recommends strongly one year of calculus-based physics.

## Capstone Experience

Students in all majors and major options in the Department of Mathematical Sciences must complete a "Capstone Experience." The aim of the department's capstone experience is to encourage independent learning. Students complete a research paper in the context of this course, which satisfies the L&S research requirement. Mathematics majors may choose either MATH 599 or MATH 575. Students must obtain consent of a professor to enroll in MATH 599.

## Requirements

The following courses are required for the Mathematics major:

Code	Title	Credits
MATH 341	Seminar: Introduction to the Language and Practice of Mathematics	3
Select 24 credits in upper-division math courses (those numbered 300 and above, and in curricular areas MATH or MTHSTAT or ACTSCI). Required among these 24 upper-division math credits are at least six credits in math courses numbered 500 and above, excluding MATH 591, MATH 599, MATH 699, ACTSCI 490, or ACTSCI 599.		24
<b>Total Credits</b>		<b>27</b>

## Additional Requirements

- Note that MATH 381 is not open for credit in the Mathematics major.
- Actuarial Science majors wishing to complete Math as a second major must take 9 cr of upper div Math/MthStat courses beyond the major requirements of Actuarial Science.
- Students completing an AMCS degree who wish to add Mathematics as a second major must take 9 cr of additional upper division Math/MthStat/ActSci courses beyond those used to fulfill the AMCS degree Math/MthStat/ActSci requirements.
- Students must complete at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM.
- The College requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including transfer work.

## Recommendations

Mathematics courses fall naturally into the following groups (see below for individual courses):

- Applied Mathematics
- Computational Mathematics
- Probability and Statistics
- Pure Mathematics

*For students planning to pursue graduate studies in mathematics, we recommend students take at least 36 cr upper division mathematics courses, with as many courses as possible from Pure Mathematics, Group 1. Many PhD programs require reading knowledge of French, German, or Russian.*

*For students planning to pursue graduate studies in statistics or economics, we recommend MATH 523, MATH 524, and as many as possible of MTHSTAT 361, MTHSTAT 362, and MTHSTAT 562-MTHSTAT 568.*

*For students seeking employment in statistics after the bachelor's degree, we recommend MTHSTAT 361, MTHSTAT 362, and as many as possible of MTHSTAT 562-MTHSTAT 568, as well as courses in computer programming (COMPSCI 250, COMPSCI 251, etc.).*

*For students seeking general non-academic employment after the bachelor's degree, we recommend courses from the Probability and Statistics group (including MTHSTAT 362), the Applied Mathematics group (including both modeling and differential equations), the Computational Mathematics group, Linear Algebra (MATH 535), and courses in computer programming (COMPSCI 240, COMPSCI 250, COMPSCI 251, etc.).*

For students intending to become high school mathematics teachers, we recommend courses in algebra (MATH 431, MATH 531), geometry (MATH 451), linear algebra (MATH 535), numerical methods (MATH 413), advanced calculus (MATH 523, MATH 524), the math education capstone (MATH 575), and probability and statistics (MTHSTAT 361 & MTHSTAT 362).

For students pursuing a major in mathematics as a liberal art, for general logical and critical thinking skills, we recommend the Pure Mathematics courses.

## Mathematics Groups

### Applied Mathematics

Code	Title	Credits
MATH 305	Introduction to Mathematical and Computational Modeling	3
MATH 320	Introduction to Differential Equations	3
MATH 325	Vector Analysis	3
MATH 322	Introduction to Partial Differential Equations	3
MATH 405	Mathematical Models and Applications	3
MATH 431	Modern Algebra with Applications	3
MATH 603	Advanced Engineering Mathematics I	3
MATH 604	Advanced Engineering Mathematics II	3

### Computational Mathematics

Code	Title	Credits
MATH 313	Linear Programming and Optimization	3
MATH 315	Mathematical Programming and Optimization	3
MATH 413	Introduction to Numerical Analysis	3
MATH 415	Introduction to Scientific Computing	3
MATH 417	Computational Linear Algebra	3
MATH 610	Numerical Solution of Partial Differential Equations	3
MATH 617	Optimization	3

### Probability and Statistics

Code	Title	Credits
MATH 583	Introduction to Probability Models	3
MTHSTAT 361	Introduction to Mathematical Statistics I	3
MTHSTAT 362	Introduction to Mathematical Statistics II	3
MTHSTAT 562	Design of Experiments	3
MTHSTAT 563	Regression Analysis	3
MTHSTAT 564	Time Series Analysis	3
MTHSTAT 565	Nonparametric Statistics	3
MTHSTAT 566	Computational Statistics	3
MTHSTAT 568	Multivariate Statistical Analysis	3

### Pure Mathematics

Code	Title	Credits
MATH 523	Advanced Calculus I	3
MATH 524	Advanced Calculus II	3
MATH 531	Modern Algebra	3
MATH 535	Linear Algebra	3

MATH 551	Elementary Topology	3
MATH 623	Introduction to Analysis I	3
MATH 624	Introduction to Analysis II	3
MATH 635	Modern Algebra I	3
MATH 636	Modern Algebra II	3
MATH 451	Axiomatic Geometry	3
MATH 511	Symbolic Logic	3
MATH 537	Number Theory	3
MATH 553	Differential Geometry	3

## Mathematics Advising

Students considering a major in the Department of Mathematical Sciences need to come to the department to declare their major and be assigned a faculty advisor. All courses selected for the major must be approved by the advisor, and students should check regularly with their advisors to plan their courses of study in a coherent and timely fashion.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned

Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Honors in the Major

Students in Mathematics who meet all of the following criteria can be awarded honors in the major upon graduation:

1. A 3.000 cumulative GPA in all UWM graded credits;
2. A 3.500 GPA over all UWM courses counting toward the Mathematics major;
3. A 3.500 GPA over all upper-division UWM courses counting toward the Mathematics major; and
4. At least one of the following:
  - Successful completion of at least two semesters of research and/or internship experiences. These may include one or more of the Capstone Experience (MATH 599), a directed independent study for credit (MATH 699), an internship for credit (MATH 489), and undergraduate research for compensation.
  - Successful completion of at least 6 credits in Mathematical Sciences (curricular areas Math or MthStat) courses numbered 600 or above.
  - A score of at least the 50th percentile on the Math Subject GRE.

Students who believe they may qualify for honors in Mathematics should apply to the Mathematical Sciences Department during their last semester of study.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Mathematics, BS

Mathematics is the international language of science and technology. Much of the subject matter in engineering and the natural sciences, as well as some social sciences such as economics, is presented in mathematical terms. Mathematical and statistical techniques are vital

in fields that usually are not considered mathematical, such as biology, psychology, and political science.

Some students come to mathematical sciences with the intention of teaching in high school or college or pursuing research in mathematics. Some are attracted to mathematics for its own sake, for the beauty, discipline, logic, and problem-solving challenges. Other students pursue mathematics in order to achieve deeper understanding in their own areas of study.

Many students assume that most math majors become teachers. While many do, there are many other opportunities for math majors. The United States National Security Agency is the largest employer of math majors in the country. Math majors will also be found at NASA; in engineering firms; at insurance and risk management firms; in robotics and computer science companies; at large and small corporations working in market research, data management and web management; at social media start ups and established firms like YouTube; and any place that needs to make decisions based on numerical facts.

At UWM, the Math major has been designed to be flexible so that students could complete their major requirements via courses that match their interests and goals. Many students should find it relatively easy to complete double majors in mathematics and another subject.

Most mathematics courses belong in one of the following four groups: applied mathematics, computational mathematics, pure mathematics, and statistics.

- Applied Mathematics is a discipline using mathematical analysis to solve problems coming from outside the field of mathematics.
- Computational mathematics is closely related to applied mathematics. It emphasizes techniques of scientific computing and other computational analysis.
- Pure mathematics emphasizes the theory and structure underlying all areas of mathematics.
- Statistics is a field of mathematics that provides strategies and tools for using data to gain insight into real-world and experimental problems.

Students of the sciences, engineering, computer science, economics, and business often complete a significant number of mathematical sciences credits. These students are encouraged to take a mathematics major or minor, which adds an official recognition of important analytical skills valued by employers and graduate schools.

Students interested in teaching mathematics at the K-12 level should examine the School of Education (p. 320) programs.

Some students with an interest in computer science choose to enroll in the Applied Math and Computer Science (p. 1198) program. This program is ideal for the student who might have considered double majoring in both math and computer science; it combines applied math courses with computer science classes for you into one program.

## Course of Study – Bachelor of Science Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated Advanced Natural Science courses (<https://catalog.uwm.edu/letters-science/approved-courses-advanced-natural-science/>). The College requires that students

must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
------	-------	---------

### Oral and Written Communication

#### Part A

Achieve a grade of C or better in the following course:

ENGLISH 102	College Writing and Research (or equivalent)
-------------	--

#### Part B

Course designated as OWC-B; may be completed through a major-specific course requirement

### Quantitative Literacy

#### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II
MATH 103	Contemporary Applications of Mathematics
MATH 105	Introduction to College Algebra
MATH 108	Algebraic Literacy II
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>
or PHILOS 111	Introduction to Logic - Critical Reasoning
MATH 116	College Algebra

Or equivalent course

#### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

### Arts

Select 3 credits	3
------------------	---

### Humanities

Select 6 credits	6
------------------	---

### Social Sciences

Select 6 credits	6
------------------	---

### Natural Sciences

Select 6 credits (at least two courses including one lab)	6
---	---

### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) placing beyond English 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

Code	Title	Credits
MATH 211	Survey in Calculus and Analytic Geometry I	4
MATH 213	Calculus with Life Sciences Applications	4
MATH 221	Honors Calculus I	5
MATH 231	Calculus and Analytic Geometry I	4

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	

PHILOS 211	Elementary Logic
POL SCI 390	Political Data Analysis
POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		

Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including laboratory or field courses from three different curricular areas. *	12
--	----

### Cultural Diversity

Complete 3 credits in a course with Cultural Diversity (CD) designation. **	3
---	---

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation.

## Mathematics Major Requirements

### Preparatory Curriculum

Students in all majors in the Department of Mathematical Sciences must complete MATH 231 (or MATH 213), MATH 232, and MATH 233 (or equivalent). MATH 221 and MATH 222 are equivalent to MATH 231, MATH 232, and MATH 233. Students majoring in mathematics must have an average GPA of at least 2.500 in these courses. All majors must take either MATH 234 or MATH 240, as well as a course in computer programming in a modern, high-level language (e.g., COMPSCI 151, COMPSCI 202, COMPSCI 240, COMPSCI 250, or COMPSCI 251). The department also recommends strongly one year of calculus-based physics.

### Capstone Experience

Students in all majors and major options in the Department of Mathematical Sciences must complete a "Capstone Experience." The aim of the department's capstone experience is to encourage independent learning. Students complete a research paper in the context of this course, which satisfies the L&S research requirement. Mathematics

majors may choose either MATH 599 or MATH 575. Students must obtain consent of a professor to enroll in MATH 599.

## Requirements

The following courses are required for the Mathematics major:

Code	Title	Credits
MATH 341	Seminar: Introduction to the Language and Practice of Mathematics	3

Select 24 credits in upper-division math courses (those numbered 300 and above, and in curricular areas MATH, MTHSTAT, or ACTSCI). Required among these 24 upper-division math credits are at least six credits in math courses numbered 500 and above, excluding MATH 591, MATH 599, MATH 699, ACTSCI 490, or ACTSCI 599.

**Total Credits** 27

## Additional Requirements

- Note that MATH 381 is not open for credit in the Mathematics major.
- Actuarial Science majors wishing to complete Math as a second major must take 9 cr of upper div Math/MthStat courses beyond the major requirements of Actuarial Science.
- Students completing an AMCS degree who wish to add Mathematics as a second major must take 9 cr of additional upper division Math/MthStat/ActSci courses beyond those used to fulfill the AMCS degree Math/MthStat/ActSci requirements.
- Students must complete at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM.
- The College requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including transfer work.

## Recommendations

Mathematics courses fall naturally into the following groups (see below for individual courses):

1. Applied Mathematics
2. Computational Mathematics
3. Probability and Statistics
4. Pure Mathematics

*For students planning to pursue graduate studies in mathematics, we recommend students take at least 36 cr upper division mathematics courses, with as many courses as possible from Pure Mathematics, Group 1. Many PhD programs require reading knowledge of French, German, or Russian.*

*For students planning to pursue graduate studies in statistics or economics, we recommend MATH 523, MATH 524, and as many as possible of MTHSTAT 361, MTHSTAT 362, and MTHSTAT 562-MTHSTAT 568.*

*For students seeking employment in statistics after the bachelor's degree, we recommend MTHSTAT 361, MTHSTAT 362, and as many as possible of MTHSTAT 562-MTHSTAT 568, as well as courses in computer programming (COMPSCI 250, COMPSCI 251, etc.).*

*For students seeking general non-academic employment after the bachelor's degree, we recommend courses from the Probability and Statistics group (including MTHSTAT 362), the Applied Mathematics group (including both modeling and differential equations), the Computational*

*Mathematics group, Linear Algebra (MATH 535), and courses in computer programming (COMPSCI 240, COMPSCI 250, COMPSCI 251, etc.).*

*For students intending to become high school mathematics teachers, we recommend courses in algebra (MATH 431, MATH 531), geometry (MATH 451), linear algebra (MATH 535), numerical methods (MATH 413), advanced calculus (MATH 523, MATH 524), the math education capstone (MATH 575), and probability and statistics (MTHSTAT 361 & MTHSTAT 362).*

*For students pursuing a major in mathematics as a liberal art, for general logical and critical thinking skills, we recommend the Pure Mathematics courses.*

## Mathematics Groups

### Applied Mathematics

Code	Title	Credits
MATH 305	Introduction to Mathematical and Computational Modeling	3
MATH 320	Introduction to Differential Equations	3
MATH 322	Introduction to Partial Differential Equations	3
MATH 325	Vector Analysis	3
MATH 405	Mathematical Models and Applications	3
MATH 431	Modern Algebra with Applications	3
MATH 603	Advanced Engineering Mathematics I	3
MATH 604	Advanced Engineering Mathematics II	3

### Computational Mathematics

Code	Title	Credits
MATH 313	Linear Programming and Optimization	3
MATH 315	Mathematical Programming and Optimization	3
MATH 413	Introduction to Numerical Analysis	3
MATH 415	Introduction to Scientific Computing	3
MATH 417	Computational Linear Algebra	3
MATH 610	Numerical Solution of Partial Differential Equations	3
MATH 617	Optimization	3

### Probability and Statistics

Code	Title	Credits
MATH 583	Introduction to Probability Models	3
MTHSTAT 361	Introduction to Mathematical Statistics I	3
MTHSTAT 362	Introduction to Mathematical Statistics II	3
MTHSTAT 562	Design of Experiments	3
MTHSTAT 563	Regression Analysis	3
MTHSTAT 564	Time Series Analysis	3
MTHSTAT 565	Nonparametric Statistics	3
MTHSTAT 566	Computational Statistics	3
MTHSTAT 568	Multivariate Statistical Analysis	3

### Pure Mathematics

Code	Title	Credits
MATH 523	Advanced Calculus I	3
MATH 524	Advanced Calculus II	3

MATH 531	Modern Algebra	3
MATH 535	Linear Algebra	3
MATH 551	Elementary Topology	3
MATH 623	Introduction to Analysis I	3
MATH 624	Introduction to Analysis II	3
MATH 635	Modern Algebra I	3
MATH 636	Modern Algebra II	3
MATH 451	Axiomatic Geometry	3
MATH 511	Symbolic Logic	3
MATH 537	Number Theory	3
MATH 553	Differential Geometry	3

## Mathematics Advising

Students considering a major in the Department of Mathematical Sciences need to come to the department to declare their major and be assigned a faculty advisor. All courses selected for the major must be approved by the advisor, and students should check regularly with their advisors to plan their courses of study in a coherent and timely fashion.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Honors in the Major

Students in Mathematics who meet all of the following criteria can be awarded honors in the major upon graduation:

1. A 3.000 cumulative GPA in all UWM graded credits;
2. A 3.500 GPA over all UWM courses counting toward the Mathematics major;
3. A 3.500 GPA over all upper-division UWM courses counting toward the Mathematics major; and
4. At least one of the following:
  - Successful completion of at least two semesters of research and/or internship experiences. These may include one or more of the Capstone Experience (MATH 599 or ACTSCI 599), a directed independent study for credit (MATH 699), an internship for credit (MATH 489 or ACTSCI 590), and undergraduate research for compensation.
  - Successful completion of at least 6 credits in Mathematical Sciences (curricular areas Math, MthStat or ActSci) courses numbered 600 or above.
  - A score of at least the 50th percentile on the Math Subject GRE.

Students who believe they may qualify for honors in Mathematics should apply to the Mathematical Sciences Department during their last semester of study.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Mathematics, Minor

Mathematics is the international language of science and technology. Much of the subject matter in engineering and the natural sciences,

as well as some social sciences such as economics, is presented in mathematical terms. Mathematical and statistical techniques are vital in fields that usually are not considered mathematical, such as biology, psychology, and political science.

Some students come to mathematical sciences with the intention of teaching in high school or college or pursuing research in mathematics. Some are attracted to mathematics for its own sake, for the beauty, discipline, logic, and problem-solving challenges. Other students pursue mathematics in order to achieve deeper understanding in their own areas of study.

Many students assume that most math majors become teachers. While many do, there are many other opportunities for math majors. The United States National Security Agency is the largest employer of math majors in the country. Math majors will also be found at NASA; in engineering firms; at insurance and risk management firms; in robotics and computer science companies; at large and small corporations working in market research, data management and web management; at social media start ups and established firms like YouTube; and any place that needs to make decisions based on numerical facts.

Most mathematics courses belong in one of the following four groups: applied mathematics, computational mathematics, pure mathematics, and statistics.

- Applied Mathematics is a discipline using mathematical analysis to solve problems coming from outside the field of mathematics.
- Computational mathematics is closely related to applied mathematics. It emphasizes techniques of scientific computing and other computational analysis.
- Pure mathematics emphasizes the theory and structure underlying all areas of mathematics.
- Statistics is a field of mathematics that provides strategies and tools for using data to gain insight into real-world and experimental problems.

Students of the sciences, engineering, computer science, economics, and business often complete a significant number of mathematical sciences credits. These students are encouraged to take a mathematics major or minor, which adds an official recognition of important analytical skills valued by employers and graduate schools.

## Requirements

Students minoring in mathematics must complete 18 credits in mathematical sciences (curricular areas Math and MthStat and ActSci) courses numbered 200 and above, of which 9 credits must be upper-division (numbered 300 and above) courses taken in residence at UWM.

The minor in mathematics is not available to students pursuing the Actuarial Science major, the Applied Math and Computer Science degree, or the Bachelor of Science in Data Science. Students who wish to complete both a minor in mathematics and Actuarial Science must complete at least an additional 6 credits of upper division courses in Math/Mthstat/ActSci courses not required by the Actuarial Science minor.

The College of Letters and Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, student must attain a 2.0 GPA on all minor credits attempted, including any transfer work. The minor is available as a post-baccalaureate option for students who have graduated.

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact let-sci@uwm.edu.

## Mathematics, MS

### Mathematics MS: Standard Option (Option A).

The Requirements tab in this section of the catalog lists the requirements for the standard mathematics option for the master's degree in mathematics.

### Overview of all Mathematical Sciences Department MS programs

The Department of Mathematical Sciences offers graduate programs of study in mathematics with specializations in the fields of algebra, analysis, topology, applied mathematics, probability and statistics, and actuarial science.

The programs of study at the master's level are designed to suit both the student intending to continue toward a PhD as well as the student who wishes to begin a professional career upon completion of the master's program.

The student may prepare for a career in teaching at the secondary or college level and for a career in research in the academic, industrial, government, or business communities.

Three options for the master's degree are offered: the standard mathematics option (A), the statistics option (B), and the actuarial science option (C). Students who plan to continue for a PhD degree with a focus on mathematics/statistics should elect an option from options A, B, C, or the dual master's degree option.

### Dual Master's Degree Option

In addition to multiple options available for MS in mathematics, the Department of Mathematical Sciences at UWM and the Department of Technomathematics of Fachhochschule Aachen (FHA), Germany have recently created a Dual Master's Degree Program in Mathematics. The students enrolled in this program will be able to earn Master's degrees from both institutions upon completion of the common course requirements.

The program is designed in such a way that students typically will be able to complete all the course requirements within a two-year time period (one year at each institution). Within this program students can choose courses that will allow them to concentrate in the areas of Statistics, Numerical Analysis or General Mathematics. Complete information on the admission policy and graduation requirements, including sample schedules, is available at the Department of Mathematical Sciences web page <http://uwm.edu/math/graduate/>.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements to be considered for admission to the program:

1. Application materials require a Reason Statement.
2. Completion of three semesters of undergraduate calculus.
3. At least 18 credits of acceptable undergraduate preparation beyond calculus.

Applicants may be admitted with specific program-defined course deficiencies provided that the deficiencies amount to no more than two courses.

The student is expected to satisfy deficiency requirements within three enrolled semesters. The deficiencies are monitored by the Graduate School and the individual graduate program unit. No course credits earned in making up deficiencies may be counted as program credits required for the degree.

## Credits and Courses

Minimum degree requirement is 30 or 36 credits, depending upon which option the student chooses.

In either option, at least half of the credits earned toward the degree must be in courses numbered 700 or above.

### 30-credit option:

Code	Title	Credits
21 credits from Math and MthStat courses		21
Minimum 12 credits numbered 800 or above		
Up to 9 credits of approved coursework outside the department		9
<b>Total Credits</b>		<b>30</b>

### 36-credit option:

Code	Title	Credits
24 credits from Math and MthStat courses		24
Maximum of 12 credits numbered 499 or below		
Up to 12 credits of approved coursework outside the department		12
<b>Total Credits</b>		<b>36</b>

## Thesis

A thesis is optional. A student choosing the thesis option must enroll in **MATH 890**. A maximum of 3 credits of thesis may be counted toward the degree requirements. An acceptable thesis will represent an original contribution and may involve applications, a novel exposition, or computational aspects of a mathematical problem or theory. The student must pass an oral defense of the thesis.

## Examination or Project

Each student who does not elect the thesis option must satisfy one of the following requirements:

1. Pass a written comprehensive examination.
2. Present a satisfactory oral and written report on a comprehensive project done under the supervision of a faculty advisor.

The project option is open only to students who complete the 36-credit graduation requirement. Students electing the project should register for 1 to 3 credits of **MATH 891**. Students planning to continue for a PhD should select the written comprehensive examination option.

## Additional Requirements

### Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. The entering graduate student is assigned a temporary advisor by the Associate Chair for Graduate Programs.

### Time Limit

Under the 30-credit option, the student must complete all degree requirements within five years of initial enrollment. Under the 36-credit option, the student must complete all degree requirements within seven years of initial enrollment.

### Dual Master's Degree Option

In addition to multiple options available for the MS in mathematics, the Department of Mathematical Sciences at UWM and the Department of Technomathematics of Fachhochschule Aachen (FHA), Germany, have recently created a Dual Master's Degree Program in Mathematics. The students enrolled in this program will be able to earn Master's degrees from both institutions upon completion of the common course requirements.

The program is designed in such a way that students typically will be able to complete all the course requirements within a two-year time period (one year at each institution). Within this program students can choose courses that will allow them to concentrate in the areas of Statistics, Numerical Analysis or General Mathematics. Complete information on the admission policy and graduation requirements, including sample schedules, is available at the Department of Mathematical Sciences web page (<http://uwm.edu/math/graduate/>).

## Mathematics, MS: Actuarial Science

### Objective of Mathematics MS: Actuarial Science (Option C)

The program provides a mathematically rigorous education in actuarial science, prepares students for actuarial professional exams, and develops their economics and business reasoning skills. Students obtain thorough knowledge in the fundamentals of actuarial science such

as applied probability models, applied statistics, credibility, financial economics, life contingencies, loss models, and risk theory. Emphasis is placed on developing skills that are highly valued by employers and thus are essential for a successful career as actuary. This program is intended for students who will seek employment as an actuary upon completion of the degree. Those interested in entering the department’s Ph.D. program should consider a different Master’s option.

## Overview of Mathematical Sciences Department MS programs

The Department of Mathematical Sciences offers graduate programs of study in mathematics with specializations in the fields of algebra, analysis, topology, applied mathematics, probability and statistics, and actuarial science.

The programs of study at the master’s level are designed to suit both the student intending to continue toward a PhD as well as the student who wishes to begin a professional career upon completion of the master’s program.

The student may prepare for a career in teaching at the secondary or college level and for a career in research in the academic, industrial, government, or business communities.

Three options for the master’s degree are offered: the standard mathematics option (A), the statistics option (B), and the actuarial science option (C). Students who plan to continue for a PhD degree with a focus on mathematics/statistics should elect an option from options A, B, C, or the dual master’s degree option.

### Dual Master’s Degree Option

In addition to multiple options available for MS in mathematics, the Department of Mathematical Sciences at UWM and the Department of Technomathematics of Fachhochschule Aachen (FHA), Germany have recently created a Dual Master’s Degree Program in Mathematics. The students enrolled in this program will be able to earn Master’s degrees from both institutions upon completion of the common course requirements.

The program is designed in such a way that students typically will be able to complete all the course requirements within a two-year time period (one year at each institution). Within this program students can choose courses that will allow them to concentrate in the areas of Statistics, Numerical Analysis or General Mathematics. Complete information on the admission policy and graduation requirements, including sample schedules, is available at the Department of Mathematical Sciences web page <http://uwm.edu/math/graduate/>.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

Students with undergraduate degrees in mathematics, statistics, actuarial science, economics or a related area are eligible for admission. Applicants should have a strong mathematical background that includes three semesters of calculus, linear algebra, probability, and mathematical

statistics. Students lacking this background may be admitted provided that the deficiencies amount to no more than two courses. Although not required, having one actuarial professional exam passed would be an asset.

## Credits and Courses

The minimum degree requirement is 33 credits. In order to graduate, the following requirements must be completed:

Code	Title	Credits
The following 24 credits:		
ACTSCI 791	Investment Mathematics II	3
ACTSCI 793	Actuarial Models I	3
ACTSCI 794	Actuarial Models II	3
ACTSCI 796	Actuarial Statistics I	3
ACTSCI 797	Actuarial Statistics II	3
MTHSTAT 763	Regression Analysis	3
MTHSTAT 764	Time Series Analysis	3
MTHSTAT 768	Multivariate Statistical Analysis	3
One of the following two courses:		
ACTSCI 891	Actuarial Risk Theory	
ACTSCI 895	Topics in Actuarial Science:	
One of the following pairs: 6-8		
MTHSTAT 871 & MTHSTAT 872	Mathematical Statistics I and Mathematical Statistics II	
ECON 701 & ECON 702	Economic Theory: Microeconomics and Economic Theory: Macroeconomics	
BUS ADM 703 & BUSMGMT 705	Financial Accounting and Corporate Finance	
COMPSCI 557G & ACTSCI 790	Introduction to Database Systems and Actuarial Internship	
MATH 783 & MTHSTAT 766	Introduction to Probability Models and Computational Statistics	
<b>Total Credits</b>		<b>33-35</b>

Students who have completed program courses for undergraduate credit should discuss alternative graduate-level courses to substitute for those courses in their programs of study.

### Thesis

A thesis is not required for the actuarial science option. Rather, students must pass three departmental written proficiency exams, which are based on the learning objectives of the actuarial professional exams P, FM and one of FAM, ALTAM, ASTAM. Waivers for departmental exams are granted for students who have passed the corresponding professional exams.

### Professional Development

For future advancement in the field of actuarial science, “Validation by Educational Experience” (VEE) credits are required. VEE credits may be earned from the Society of Actuaries (SOA) and Casualty Actuarial Society (CAS) with a grade of B- or better in the following courses:

Code	Title	Credits
MTHSTAT 871	Mathematical Statistics I	3
MTHSTAT 872	Mathematical Statistics II (VEE-Mathematical Statistics)	3

ECON 701	Economic Theory: Microeconomics (VEE-Economics)	4
ECON 702	Economic Theory: Macroeconomics (VEE-Economics)	4
BUS ADM 703	Financial Accounting (VEE-Accounting and Finance)	3
BUSMGMT 705	Corporate Finance (VEE-Accounting and Finance)	3

Courses taken at other universities may be used to meet the VEE requirement of the SOA/CAS.

## Additional Requirements

### Major Professor as Advisor

The student must have a major professor, selected from the members of the Actuarial Science Committee, to advise and supervise the student's studies. The entering student is assigned an advisor by the chair of the committee. Before the start of studies, each student in the program must develop a plan of study in consultation with the Committee.

### Time Limit

Full-time students are expected to complete the program in two years. Students must complete all degree requirements within five years of initial enrollment.

## Mathematics, MS: Statistics

### Mathematics MS: Statistics (Option B)

Currently enrolled students have the option of following the old or new requirements. Students entering in **Fall 2014** or later must complete the new requirements.

## Overview of Mathematical Sciences

### Department MS programs

The Department of Mathematical Sciences offers graduate programs of study in mathematics with specializations in the fields of algebra, analysis, topology, applied mathematics, probability and statistics, and actuarial science.

The programs of study at the master's level are designed to suit both the student intending to continue toward a PhD as well as the student who wishes to begin a professional career upon completion of the master's program.

The student may prepare for a career in teaching at the secondary or college level and for a career in research in the academic, industrial, government, or business communities.

Three options for the master's degree are offered: the standard mathematics option (A), the statistics option (B), and the actuarial science option (C). Students who plan to continue for a PhD degree with a focus on mathematics/statistics should elect an option from options A, B, C, or the dual master's degree option.

### Dual Master's Degree Option

In addition to multiple options available for MS in mathematics, the Department of Mathematical Sciences at UWM and the Department of Technomathematics of Fachhochschule Aachen (FHA), Germany have recently created a Dual Master's Degree Program in Mathematics.

The students enrolled in this program will be able to earn Master's degrees from both institutions upon completion of the common course requirements.

The program is designed in such a way that students typically will be able to complete all the course requirements within a two-year time period (one year at each institution). Within this program students can choose courses that will allow them to concentrate in the areas of Statistics, Numerical Analysis or General Mathematics. Complete information on the admission policy and graduation requirements, including sample schedules, is available at the Department of Mathematical Sciences web page <http://uwm.edu/math/graduate/>.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

## Credits and Courses

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus the following departmental requirements to be considered for admission to the program: completion of three semesters of undergraduate calculus and at least 18 credits of acceptable undergraduate preparation beyond calculus; these credits should include courses on probability and statistics equivalent to the sequence MTHSTAT 361/MTHSTAT 362, and courses on advanced calculus equivalent to the sequence MATH 523/MATH 524.

Applicants with deficiencies in probability and statistics may be admitted to the program but will be required to complete the sequence MTHSTAT 361/MTHSTAT 362. Applicants with calculus deficiencies may also be admitted to the program but will be required to complete the sequence MATH 523G/MATH 524G. Students are expected to make up deficiencies within four enrolled semesters; no course credits earned in making up deficiencies may count toward the degree credit requirement.

The minimum requirement is 30 graduate credits. Students must complete the following:

Code	Title	Credits
Select one of the following:		3-6
MATH 535G	Linear Algebra	
MATH 735 & MATH 736	Modern Algebra I and Modern Algebra II	
Select one of the following		6
MATH 723 & MATH 724	Introduction to Analysis I and Introduction to Analysis II	
MATH 823 & MATH 824	Theory of Functions of a Real Variable I and Theory of Functions of a Real Variable II	
MATH 783	Introduction to Probability Models	3
MTHSTAT 763	Regression Analysis	3
MTHSTAT 764	Time Series Analysis	3
MTHSTAT 871 & MTHSTAT 872	Mathematical Statistics I and Mathematical Statistics II	6

Select at least one other 560 or 760-level MthStat course, such as the following:

MTHSTAT 562G	Design of Experiments	3
MTHSTAT 565G	Nonparametric Statistics	3
MTHSTAT 766	Computational Statistics	3
MTHSTAT 768	Multivariate Statistical Analysis	3

**Total Credits** 27-30

Students who already have taken some of these courses as undergraduates, or equivalent courses at another institution, should choose alternatives from the following list, subject to the advisor's approval:

Code	Title	Credits
MthStat courses numbered 700 or above		
Statistics course offered by the Division of Biostatistics of the Medical College of Wisconsin		
MATH 413G	Introduction to Numerical Analysis	3
MATH 415G	Introduction to Scientific Computing	3
MATH 417G	Computational Linear Algebra	3
MATH 823 & MATH 824	Theory of Functions of a Real Variable I and Theory of Functions of a Real Variable II	6
MATH 827 & MATH 828	Theory of Functions of a Complex Variable I and Theory of Functions of a Complex Variable II	6
MATH 883 & MATH 884	Theory of Probability and Stochastic Calculus and Applications	6
ACTSCI 796 & ACTSCI 797	Actuarial Statistics I and Actuarial Statistics II	6

### Thesis Option

Students have the option of writing a thesis, subject to the advisor's approval. Students who write a thesis are exempt from the Master's Proficiency Exam, and they earn 3 credits toward the degree by enrolling in MATH 890. Students who choose the thesis option must pass an oral defense of the thesis.

## Additional Requirements

### Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. Each entering graduate student is assigned a temporary advisor by the Department Graduate Program Coordinator.

### Master's Proficiency Exam

Students who do not complete the thesis option are required to pass a written comprehensive examination that tests basic knowledge of statistical theory and either mathematical analysis or algebra.

### Time Limit

Students must complete all degree requirements with 5 years of initial enrollment.

## Mathematics, PhD

The Department of Mathematical Sciences offers graduate programs of study in mathematics with specializations in the fields of algebra,

analysis, topology, applied mathematics, probability and statistics, and actuarial science.

A student may prepare for a career in teaching at the secondary or college level, and for a career in research in the academic, industrial, government, or business communities.

The programs of study at the master's level are designed to suit both the student intending to continue toward a PhD, as well as the student who wishes to begin a professional career upon completion of the master's program.

The Department has a vibrant PhD program. Mathematics research specialties available to students include:

- Actuarial Science (<http://uwm.edu/math/research/actuarial-science/>)
- Algebra (<http://uwm.edu/math/research/algebra/>)
- Analysis (<http://uwm.edu/math/research/analysis/>)
- Applied Mathematics (<http://uwm.edu/math/research/applied-mathematics/>)
- Differential Equations (<http://uwm.edu/math/research/differential-equations/>)
- Numerical Analysis (<http://uwm.edu/math/research/numerical-analysis/>)
- Probability (<http://uwm.edu/math/research/probability/>)
- Statistics (<http://uwm.edu/math/research/statistics/>)
- Topology (<http://uwm.edu/math/research/topology/>)

For more details on the Department's research groups and the research interests of its faculty members click here (<http://uwm.edu/math/research/>).

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

Applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus departmental requirements as given for admission to the master's program. A master's degree is not a prerequisite for admission to this PhD program.

Application materials require a Reason Statement.

### Reapplication

A student who receives the master's degree must formally reapply for admission to the Graduate School before continuing studies toward the PhD.

## Credits and Courses

Minimum degree requirement is 54 graduate credits beyond the bachelor's degree, at least 27 of which must be earned in residence at UWM. In addition, at least half of the credits earned toward the degree must be in courses numbered 700 or above.

The student, in consultation with the major professor, must select both a primary and a secondary area of specialization. The primary area may be chosen from one of the following seven fields:

## Transcript Designated Concentrations

### Applied Mathematics Field

Code	Title	Credits
	3 Credits in Algebra	3
	6 Credits in Complex Analysis	6
	3 Credits in Real Analysis	3
	12 Credits in Applied Mathematics	12
	3 Credits Outside the Field	3

### Probability and Statistics Field

Code	Title	Credits
	3 Credits in Complex Analysis	3
	6 Credits in Real Analysis	6
	12 Credits in Probability and Statistics	12
	3 Credits in Applied Mathematics	3

### Actuarial Science Field

Code	Title	Credits
	6 Credits in Actuarial Science	6
	6 Credits in Applied Mathematics	6
	6 Credits in Probability and Statistics	6
	6 Credits in Real Analysis	6
	3 Credits in Business or Economics	3

*NOTE:* Admission to this program is limited to students who have made significant progress towards and are close to achieving a professional designation from an internationally recognized actuarial organization.

## Non-Transcript Designated Specializations

### Algebra Field

Code	Title	Credits
	12 Credits in Algebra	12
	3 Credits in Complex Analysis	3
	3 Credits in Real Analysis	3
	3 Credits in Topology	3
	3 Credits in Applied Mathematics	3
	3 Credits Outside the Field	3

### Analysis Field

Code	Title	Credits
	3 Credits in Algebra	3
	6 Credits in Complex Analysis	6
	6 Credits in Real Analysis	6
	3 Credits in Topology	3
	3 Credits in Applied Mathematics	3
	3 Credits Outside the Field	3

### Topology Field

Code	Title	Credits
	3 Credits in Algebra	3
	3 Credits in Complex Analysis	3
	3 Credits in Real Analysis	3

	12 Credits in Topology	12
	3 Credits in Applied Mathematics	3
	3 Credits Outside the Field	3

### Industrial Mathematics Field

Code	Title	Credits
	3 Credits in Algebra or Topology	3
	3 Credits in Complex Analysis	3
	3 Credits in Real Analysis	3
	9 Credits in Applied Mathematics	9
	6 Credits in Probability and Statistics	6
	6 Credits in Approved Credits Outside Math and MthStat	6

The secondary area may be chosen from another of these fields or may be chosen from another appropriate department. Minimum course requirements for all work in both areas of specialization require approximately two full years of study.

## Additional Requirements

### Major Professor as Advisor

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. The entering graduate student is assigned a temporary advisor by the Department Graduate Program Coordinator.

### Computer Proficiency

The student shall pass an examination on a higher programming language and/or other appropriate advanced computer skills; the examinations are administered by the Department's Computer Committee. The Computer Committee may accept advanced computer science coursework in lieu of the examination.

### Residence

The student must meet minimum Graduate School residence requirements.

### Doctoral Preliminary Examination

When the student is sufficiently prepared — normally when the student has earned 24 credits in specified areas above the 800 level — a doctoral preliminary examination to determine the student's knowledge and achievement is taken. For students in mathematics, the exam evaluates the student's general knowledge of mathematics, as well as the student's knowledge of the major area of concentration. Students must pass this examination to continue in the program. With permission of the examination committee, the student may repeat this examination once. If the student does not have a master's degree in mathematics before this examination, the committee will determine whether the student's performance is sufficient to qualify for the master's degree.

### Doctoral Dissertation Proposal Hearing

After passing the language requirements and the doctoral preliminary examination, the student participates in a doctoral dissertation proposal hearing. At this hearing, the student is examined on the student's chosen area of research and a dissertation topic is approved.

### Dissertation

The primary requirement for the PhD in mathematics is the candidate's completion, under the supervision of the Department advisor, of an original and significant mathematical investigation presented in the

form of a dissertation. The investigation is to be in the field of algebra, analysis, applied mathematics, probability and statistics, topology, or actuarial science. A dissertation for the industrial mathematics field must involve an industrial problem requiring a mathematical solution.

### Dissertation Defense

The candidate must, as the final step toward the degree, present a colloquium based on the dissertation and must pass an oral examination in defense of the dissertation. If the candidate does not successfully defend a thesis within five years of admission to candidacy, the candidate may be required to take another doctoral preliminary examination and be readmitted to candidacy.

### Time Limit

All degree requirements must be completed within ten years from the date of initial enrollment in the doctoral program. Note that students seeking the PhD are limited to a maximum of seven years, inclusive of time spent in pursuit of an initial MS degree, of departmental financial support.

### Minor Area for Other PhD Majors

A doctoral student planning a physical science major other than mathematics may fulfill requirements for mathematics as the minor area of concentration by completing 12 credits of approved mathematics courses with a grade of B or better, at least 6 credits of which must be in courses 800 or above.

A doctoral student planning a non-physical science major may fulfill requirements for mathematics as the minor area of concentration by completing 12 credits with a grade of B or better in approved mathematics courses 300 or above.

For additional information on the PhD, see the Graduate School Doctoral Requirements (<https://uwm.edu/graduateschool/students/academic-policies-and-procedures/doctoral-resources/doctoral-requirements/>) page.

## Middle Eastern and North African Studies, Undergraduate Certificate

The Undergraduate Certificate in Middle Eastern and North African Studies (MENA) provides students with a thorough understanding of the languages, cultures, history, and societies of the region.

The Middle East has long played a critical role in global economics and politics. Often portrayed by the media as a place of endless conflict, the Middle East is incredibly complex and made up of numerous nations, each with its own political, religious, geographic, and economic structure and traditions. Student in the MENA certificate program explore this complex region by studying the area's literature, languages, history, politics, religion, and art.

The certificate may be of particular interest to students who plan to enter government service or global business, and complements a number of different majors including history, religious studies, political science, economics, business, geography, foreign languages, and anthropology. The program requires one year of either Arabic or Hebrew language courses.

Many students participate in a study abroad (<http://uwm.edu/cie/study-abroad/>) experience to build on their classroom learning.

Certificates are similar to minors in terms of credit requirements but draw on coursework from multiple fields of study rather than from a single department.

### Eligibility

The Undergraduate Certificate in Middle Eastern and North African Studies is open to all students seeking a bachelor's degree from UWM, to students who previously received a bachelor's degree from UWM or any other accredited college or university, and to those who do not plan to pursue a college or university degree (non-degree students) but who have a strong interest in this subject. To be admitted to the University as a non-degree student, individuals must meet regular University admission requirements. Students currently involved in baccalaureate studies who successfully complete the requirements of the program will be awarded the certificate at the time of graduation. Students who already have a bachelor's degree and non-degree students receive the certificate upon completion of the program requirements. All students are required to complete an exit survey before the certificate is awarded.

### Requirements

The program requires one year of Arabic or Hebrew language courses and a historical survey course. Upper-level courses offer students the opportunity to explore Middle Eastern literature, history, politics, religion, and art in greater depth. Courses totaling 23 credits must be completed with a GPA of 2.750 or better. At least one half of the work for the certificate must be taken at UWM. The Committee for Middle Eastern and North African Studies administers the program and advises students.

In addition to taking courses related to the Middle East and North Africa, students have opportunities to meet and study with Middle Eastern scholars who regularly visit UWM through a number of institutional partnerships with Middle Eastern universities. Students also may take advantage of study abroad programs that offer credit for academic work in the Middle East and North Africa.

Following are the detailed requirements for the certificate. For the specific content and prerequisites of each course, click on the subject code and course number below.

Code	Title	Credits
<b>Middle Eastern Language Sequence</b>		
Select one of the following sequences:		8
ARABIC 101 & ARABIC 102	First Semester Arabic and Second Semester Arabic	
HEBREW 101 & HEBREW 102	First Semester Hebrew and Second Semester Hebrew	
<b>Survey</b>		
Select one of the following:		3
HIST 280	Islamic Civilization: The Formative Period, ca. 500-1258	
HIST 282	The Modern Middle East in the Nineteenth and Twentieth Centuries	
<b>Electives</b>		
Select 12 credits		12
<b>Total Credits</b>		<b>23</b>

### Electives

At least 12 additional credits selected from the approved electives list, of which at least 9 must be at the 300 level or above. Students must include

among their credits selected for section III at least one course in Hebrew studies and one course in Arabic studies.

Code	Title	Credits
ANTHRO 641	Seminar in Anthropology: (with appropriate subtitle)	3
ARABIC 111	Cultures and Civilizations of the Muslim Middle East	3
ARABIC 201	Third Semester Arabic	5
ARABIC 202	Fourth Semester Arabic	5
ARABIC 299	Ad Hoc: (with appropriate subtitle)	1-6
ARABIC 301	Fifth Semester Arabic	3
ARABIC 302	Sixth Semester Arabic	3
ARABIC 390	Islam: Religion and Culture	3
ARABIC 499	Ad Hoc: (with appropriate subtitle)	1-6
ARTHIST 315	Art and Archaeology of Ancient Egypt	3
ARTHIST 324	Early Christian and Byzantine Art and Architecture	3
ARTHIST 327	Caliphs, Emirs, & Kings: Art & Architecture of Medieval Spain	3
CLASSIC/HIST 274	Ancient Egyptian Civilization	3
CLASSIC 390	Egyptian Mythology	3

INTLST 550	Senior Seminar in International Studies: (with appropriate subtitle)	3
JEWISH 231	Introduction to the Old Testament/ Hebrew Bible	3
JEWISH 235	The Dead Sea Scrolls and the Bible	3
JEWISH 261	Representing the Holocaust in Words and Images	3
JEWISH 321	The Holocaust and the Politics of Memory	3
JEWISH 332	Women in the Bible	3
JEWISH 368	Jewish and Christian Responses to the Holocaust	3
PHILOS 461	Islamic Philosophy and Mysticism	3
POL SCI 329	African Politics	3
POL SCI 371	Nationalism and Ethnic Conflict	3

<sup>1</sup> If not taken above.

## Philosophy

A problem may be called "philosophical" when it has depth and universality, far-reaching theoretical ramifications, human importance, and no easy solution. Philosophical problems constitute the subject matter of philosophy.

Academic courses in philosophy have the value of introducing the crucial problems in a systematic way, exposing students to fruitful methods for attacking them, to models of solid, hard-hitting argumentation, and to a literature ranging from Plato's Dialogues to current professional journals. The relevance of philosophy is nowhere better exhibited than in the distinctions ignored, the arguments overlooked, and the errors repeated by persons unfamiliar with that literature.

## Ethics, Values, and Society (CEVS), Undergraduate Certificate

The Undergraduate Certificate in Ethics, Values, and Society (CEVS) is an academic program for undergraduates to explore questions about ethics, politics, and social justice across topics and subject areas. We believe that ethics and values are an integral part of every major and discipline. In particular, the Certificate enables students to combine more practical and applied inquiries into ethical and social/political issues (perhaps pursued in the student’s major) with grounding in the theoretical foundations of such inquiries.

The grounding in the main theories of ethics and political philosophy provided in the Foundational Philosophy Courses in the Certificate will add depth and richness to the student’s studies in other, more applied and content-specific classes.

Certificate courses are organized around five themes with which most of the courses can be associated. Students are encouraged (not required) to select their Certificate courses with a thematic focus in mind:

- Institutions:** This theme concerns questions of ethics and justice in political, economic, legal, educational, and other institutions. Issues regarding international justice and human rights are also covered by this theme.
- Culture and Identity:** This theme explores and critiques conceptions of ethics and justice in relation to issues of culture and identity, including issues concerning class, race, gender, and sexual orientation.
- Environment:** This theme covers the just distribution and use of environmental resources, as well as the ethical treatment of non-human animals.
- Health:** This theme covers the just distribution and use of health resources, problems in bioethics, and related issues.
- Information Ethics:** This theme examines ethical issues regarding media and the use of information technology.

### Eligibility

The Undergraduate Certificate in Ethics, Values, and Society is meant to enhance a bachelor’s degree. The certificate is available to all students seeking a bachelor’s degree from UWM and to students who previously have received a bachelor’s degree from UWM or any other accredited college or university. Students currently involved in baccalaureate studies

who successfully complete the requirements of the program will be awarded the certificate at the time of graduation. Students who already have a bachelor’s degree will receive the certificate upon completion of the program requirements.

### Requirements

To obtain the certificate, the student must complete, with a minimum grade point average of 2.500, at least 18 credits (at least 6 courses) in approved CEVS courses, of which at least 12 credits must be in Letters and Science courses, with 6 of those at the 300 level or above. At least 12 credits must be earned in residence at UWM, and at least 9 of the credits taken in residence must be at the 300 level or above. No more than 12 credits from any one department may count toward the certificate. Courses for the certificate may not be taken on a credit/no credit bases. The following are required:

Code	Title	Credits
<b>Philosophy Foundation</b>		
<i>Ethics</i>		
Select one of the following:		3
PHILOS 241	Introductory Ethics	
PHILOS 341	Modern Ethical Theories	
PHILOS 349	Great Moral Philosophers	
<i>Social/Political Philosophy</i>		
Select one of the following:		3
PHILOS 242	Introduction to Social and Political Philosophy	
PHILOS 355	Political Philosophy	
PHILOS 384	The Philosophy of Law	
<b>Electives</b>		
Select 9 credits (at least 3 courses)		9
<b>Capstone</b>		
Select 3 credits in a 500-600 level undergraduate seminar <sup>1</sup>		3
<b>Total Credits</b>		<b>18</b>

<sup>1</sup> The capstone requirement is fulfilled through a 500-600 level undergraduate seminar focused on issues of ethics, value, and/or social justice. An appropriate seminar will be offered in the Philosophy Department at least once per academic year.

## Electives

Select from among the following courses that focus substantially on themes of ethics, value, justice, and the like.

Code	Title	Credits
AFRIC 261	Survey of African-American Political Philosophy	3
AFRIC 265	Psychological Effects of Racism	3
AFRIC 329	Economic Growth and Sustainable Development in Africa	3
AFRIC 341	Black Politics and City Government	3
AFRIC 351	Sexuality, Gender, and Health in Africa and the Diaspora	3
AFRIC 416	Race and Social Justice in the United States	3
ANTHRO 440	Medical Anthropology	3
ANTHRO 104	Lifeways in Different Cultures: A Survey of World Societies	3
COMPLIT 230	Literature and Society: (with appropriate subtitle)	3
COMPLIT 232	Literature and Politics: (with appropriate subtitle)	3
COMPLIT 309	Great Works of Modern Literature: (with appropriate subtitle)	3
COMPLIT 350	Topics in Comparative Literature: (with appropriate subtitle)	3
COMPLIT 360	Seminar in Literature and Cultural Experience: (with appropriate subtitle)	3
COMPLIT 464	Seminar in Comparative Literary Criticism:	3
ECON 328	Environmental Economics	3
GEOG 309	Nationalities and Nations of the World	3
GEOG 464	Environmental Problems	3
GEOG 564	Urban Environmental Change and Social Justice	3
GLOBAL 361	Environment and Sustainability	3
INFOST 120	Information Technology Ethics	3
INFOST 661	Information Ethics	3
ITALIAN 258	Contemporary Italian Society and Culture	3
ITALIAN 357	Topics in Italian Culture in Translation: (with appropriate subtitle)	3
JAMS 461	Media Ethics	3
JEWISH 261	Representing the Holocaust in Words and Images	3
JEWISH 321	The Holocaust and the Politics of Memory	3
JEWISH 368	Jewish and Christian Responses to the Holocaust	3
JEWISH 449	Modern Jewish Thought	3
PHILOS 235	Philosophical Aspects of Feminism	3
PHILOS 237	Technology, Values, and Society	3
PHILOS 243	Moral Problems:	1
PHILOS 244	Ethical Issues in Health Care:	3
PHILOS 337	Environmental Ethics	3

PHILOS 435	Existentialism	3
PHILOS 542	Punishment and Responsibility	3
PHILOS 562	Special Topics in Ethics and Social and Political Philosophy:	3
SOCIOL 350	Environmental Sociology	3
TRNSLTN 411	Ethics in Translation and Interpreting	3
WGS 150	Multicultural America	3
WGS 200	Introduction to Women's and Gender Studies: A Social Science Perspective	3
WGS 201	Introduction to Women's and Gender Studies: A Humanities Perspective	3
WGS 301	Queer Theory	3
WGS 302	Gendered Bodies:	3
WGS 303	Feminist Activism and Movements:	3
WGS 401	Global Feminisms	3
WGS 410	Feminist Theory	3

## Philosophy, BA

The study of philosophy can be challenging because it asks students to critically examine very fundamental questions about what it means to be human - behavior, values, ethics, logic, aesthetics. Some describe it as "thinking in slow motion" because of the way it explores in depth the human experience.

Students choose philosophy because it instills a lifelong love and quest for knowledge, it imparts a disciplined and systematic way of thinking, and it enhances critical and analytical capacities. Most graduates of philosophy describe the great personal reward that comes from exploring the great thinkers of the past in the context of modern issues. But, they also passionately value the career skills that they developed - how to read and comprehend difficult text; how to understand different interpretations of information and assess opposing viewpoints; how to craft a clear and logical position on an issue in writing and orally; and how to make connections between smaller, seemingly disparate details and the big picture.

By mid-career, philosophy majors outearn business majors, on average, largely because their knowledge and skills make them excellent leaders in business, nonprofit, law, government work, education, and more.

The undergraduate program is relatively small, resulting in more one-on-one attention from faculty than might be found at another university.

## Course of Study – Bachelor of Arts Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
------	-------	---------

### Oral and Written Communication

#### Part A

Achieve a grade of C or better in the following course:

ENGLISH 102	College Writing and Research (or equivalent)	
-------------	--	--

#### Part B

Course designated as OWC-B; may be completed through a major-specific course requirement

### Quantitative Literacy

#### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		

#### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

### Arts

Select 3 credits	3
------------------	---

### Humanities

Select 6 credits	6
------------------	---

### Social Sciences

Select 6 credits	6
------------------	---

### Natural Sciences

Select 6 credits (at least two courses including one lab)	6
---	---

### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) by placing beyond ENGLISH 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, students must satisfy the following two requirements:

1. Achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department) or earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course:

Code	Title	Credits
MATH 102	Mathematical Literacy for College Students II	3
MATH 103	Contemporary Applications of Mathematics	3
MATH 105	Introduction to College Algebra	3
MATH 108	Algebraic Literacy II	3
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	3
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	3
MATH 175	Mathematical Explorations for Elementary Teachers I	3

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

**Note:** This requirement is the same as the University General Education Requirement for Quantitative Literacy Part A, listed above.

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	

BIO SCI 465	Biostatistics
ECON 210	Economic Statistics
GEOG 247	Quantitative Analysis in Geography
HIST 595	The Quantitative Analysis of Historical Data
MTHSTAT 215	Elementary Statistical Analysis
PHILOS 211	Elementary Logic
POL SCI 390	Political Data Analysis
POL SCI 392	Survey Research
PSYCH 210	Psychological Statistics
SOCIOL 261	Introduction to Statistical Thinking in Sociology

**Note:** This requirement is *NOT* the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BA, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

Code	Title	Credits
Completed in one of the following ways:		0-18
Successful completion of the 4th semester of college work or equivalent in one language other than English (including American Sign Language)		
Successful completion of the 3rd semester of college work or equivalent in one language other than English (including American Sign Language) PLUS the 2nd semester of college work or equivalent in another language other than English (including American Sign Language)		

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including at least one laboratory or field course; no more than 6 credits from a single curricular area. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College of Letters and Science requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

## Philosophy Major Requirements

At UWM, incoming freshmen interested in studying philosophy are advised to begin with the general introductory course, PHILOS 101, though there are several courses, especially at the 200 level, that are open to students without a background in philosophy. The 300 level includes courses designed to provide more in-depth treatments of traditional philosophical areas. Courses at the 400 level are devoted to the history

of philosophy. Courses at the 500 level deal with specific issues and problems.

The College of Letters & Science requires that students complete at least 15 upper-division (numbered 300 and above) credits in the major in residence at UWM. Students also must attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, they must attain a 2.0 GPA on all major credits attempted, including any transfer work.

Students must fulfill the capstone/research requirement in the senior year. It is recommended strongly that students become proficient in at least one related academic discipline. Each major will be asked to submit a paper for inclusion in a portfolio that is kept in the department. Typically, this will be a paper written for PHILOS 685. It should be stressed that this is not an additional requirement for graduation as a major. Rather, it is part of the department's ongoing effort to evaluate and improve our major program.

A minimum of 30 credits in philosophy is required.

Code	Title	Credits
<b>Required Courses</b>		
PHILOS 211	Elementary Logic <sup>1</sup>	3
PHILOS 430	Great Thinkers of the Ancient Period	3
Select one of the following:		3
PHILOS 431	History of Medieval Philosophy	
PHILOS 432	Great Thinkers of the Modern Period	
PHILOS 433	Nineteenth-Century Philosophers	
Select one of the following:		3
PHILOS 337	Environmental Ethics	
PHILOS 341	Modern Ethical Theories	
PHILOS 349	Great Moral Philosophers	
PHILOS 355	Political Philosophy	
PHILOS 384	The Philosophy of Law	
Select one of the following:		3
PHILOS 303	Mind and Knowledge	
PHILOS 304	Buddhist Philosophy	
PHILOS 317	Metaphysics	
PHILOS 324	Philosophy of Science	
PHILOS 351	Philosophy of Mind	
PHILOS 358	Action, Will, and Freedom	
Select any philosophy course numbered 500 or above (excluding the course you choose to satisfy the capstone requirement)		3
<b>Electives</b>		
Select 9 credits of philosophy electives		9
<b>Capstone/Research Requirement</b>		
Select one of the following:		3
PHILOS 681	Seminar in Advanced Topics:	
PHILOS 685	Senior Capstone Research Seminar.	
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> PHILOS 212, or a more advanced course in logic may be substituted for PHILOS 211 with the permission of the department chair.

## Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

## Honors in the Major

Philosophy majors who maintain a minimum of 3.000 in all courses attempted at UWM, a 3.500 GPA in courses in the major, as well as a 3.500 GPA in all advanced courses in the major, will be awarded with honors in philosophy at graduation.

## College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

## Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

## Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Philosophy, MA

The Department of Philosophy offers a program of graduate study leading to the degree of Master of Arts. The general purpose of this program is to provide students with the background and stimulus for critical and original philosophical thoughts. The program is designed to serve both those students who wish to pursue a Doctor of Philosophy degree in philosophy and those students who wish either to terminate their formal philosophical studies with the Master of Arts degree or to integrate a graduate level of study in philosophy with graduate studies in other academic areas.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements to be considered for admission to the program:

- Undergraduate major in philosophy or other academic background judged suitable by the Department.
- Three letters of recommendation concerning academic qualifications.
- A Reason Statement explaining why you are interested in completing an MA in Philosophy (recommended length 250 - 500 words).
- A sample of written work.
- Submission of scores on the General Test of the Graduate Record Examination (<http://uwm.edu/graduateschool/admission/#gre>) is **optional**.
- **Language and Linguistics Concentration only:** LINGUIS 464 or an equivalent.

## Credits and Courses

### History Requirement

Students taking Option A or B will be required to demonstrate competence in history of philosophy by passing the following two courses with a grade of B or better.

Code	Title	Credits
PHILOS 430	Great Thinkers of the Ancient Period	3
PHILOS 432	Great Thinkers of the Modern Period	3

The Graduate Studies Committee may certify competence if the student has as an undergraduate taken PHILOS 430 and PHILOS 432 at UWM within the past five years or has taken their equivalent as determined by the Committee. The determination may include an equivalency exam.

Students selecting the language and linguistics concentration need only meet the requirement for PHILOS 432.

### Logic Requirement

The student is required to demonstrate competence in logic by passing with a grade of B or better.

Code	Title	Credits
PHILOS 511	Symbolic Logic	3
PHILOS 712	Fundamentals of Formal Logic	3

The Graduate Committee may certify competence if within the last five years the student has taken PHILOS 511 or PHILOS 712 or has taken an equivalent course as determined by the Committee. The determination may include an equivalency exam.

### Degree Alternatives

The Department of Philosophy offers three alternatives by which the Master of Arts degree in philosophy may be obtained: Option A, the non-thesis option; Option B, the thesis option; and a language and linguistics concentration with a thesis. There is no foreign language requirement for the completion of the Master of Arts degree in philosophy, though students are encouraged to develop proficiency in a foreign or classical language.

### Option A: Non-Thesis Option (30 Credits Plus Exam)

Minimum degree requirement is 30 credits in coursework, 21 of which must normally be in philosophy, 9 of which may be in related fields. All 30 credits must be earned with grades of B or better; and at least 12 must be in graduate seminars.

Code	Title	Credits
Courses in philosophy		21
At least 12 credits in graduate seminars <sup>1</sup>		
Related fields		9
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> The Philosophy Department Graduate Studies Committee may permit students to count PHILOS 681 or PHILOS 685 toward meeting this requirement, when the content and level of difficulty are equivalent to that of a graduate seminar.

A student proposing a program of study involving more than 9 credits of independent study, or fewer than 21 credits in philosophy courses, must gain specific approval of the student's advisory committee.

Every student choosing the non-thesis option takes a written exam of no longer than four hours on a philosophical area chosen by the student in consultation with the advisory committee. At least one full semester before the student is to take this exam, a specific list of primary and secondary sources to be covered on the exam is drawn up by the committee together with the student. The committee provides the student with sample questions.

**Option B: Thesis Option (30 Credits Plus Defense)**

Minimum degree requirement is 30 credits in coursework, 21 of which must normally be in philosophy, 9 of which may be in related fields. All 30 credits must be earned with grades of B or better; and at least 12 must be in graduate seminars.

Code	Title	Credits
Courses in philosophy		21
At least 12 credits in graduate seminars <sup>1</sup>		
Related fields		9
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> The Philosophy Department Graduate Studies Committee may permit students to count PHILOS 681 or PHILOS 685 toward meeting this requirement, when the content and level of difficulty are equivalent to that of a graduate seminar.

The thesis is to be written on a philosophical subject chosen in consultation with the student's advisory committee. The student and the committee are to meet sufficiently often so that the committee may adequately supervise the writing of the thesis. Upon completion of the thesis the student is required to defend the thesis orally.

**Language and Linguistics Concentration with Thesis (30 credits Plus Defense)**

Minimum degree requirement is 30 credits, including the writing of a thesis, plus its defense. All 30 credits must be earned with a grade of B or better. Of the 30 credits at least 18 credits must be in philosophy with the remainder in linguistics.

Code	Title	Credits
PHILOS 516	Language and Meaning <sup>1</sup>	3
Other credits in Philosophy		15
LINGUIS 455	Semantics <sup>1</sup>	3
LINGUIS 564	Advanced Syntax <sup>1</sup>	3
Graduate Seminars <sup>2</sup>		6
<b>Total Credits</b>		<b>30</b>

<sup>1</sup> May be waived if the student has taken these courses at UWM within the past five years or has taken their equivalent as determined by the Graduate Studies Committee.

<sup>2</sup> The Philosophy Department Graduate Studies Committee may permit students to count PHILOS 681 or PHILOS 685 towards meeting this requirement, when the content and level of difficulty are equivalent to that of a graduate seminar.

A student proposing a program of study involving more than 9 credits of independent study must gain specific approval of the student's advisory committee.

**Additional Requirements**  
**Major Professor as Advisor**

The student must have a major professor to advise and supervise the student's studies as specified in Graduate School regulations. At time of admission, the student's program will be supervised by the Graduate Advisor.

A student planning to work beyond the master's program should select, in consultation with the advisor, courses which will develop broad philosophical competence. A student intending to terminate studies with the master's degree may plan a more specialized program.

**Advisory Committee**

During the first year in attendance, the student chooses an advisor and an advisory committee of three faculty members. The student's advisor serves as chair of this committee. The choice of committee is made in consultation with the student's advisor, and submitted to the Department's Graduate Studies Committee for approval. No later than the second week of the student's second semester in the program, the advisory committee meets with the student to discuss the individual's background in philosophy and goals in this program. By the end of the student's second semester the committee has conferred with the student's instructors and meets with the student to discuss that individual's progress in the program. At that time the student, together with the committee, plans the balance of the student's work in the program and how all requirements can best be met. The committee continues to gather information on the student's class work from the instructors, and at least once each semester meets with the student to discuss the student's continuing progress, future plans in the program and the meeting of departmental requirements. The student may at any time petition the Graduate Studies Committee for a change in the composition of the advisory committee.

**Option A: Non-Thesis Option (30 Credits Plus Exam) Thesis**

Not required.

**Time Limit**

This program is designed to be completed in two years of full-time attendance. However, all 30 degree requirements must be completed within five years of initial enrollment.

**Option B: Thesis Option (30 Credits Plus Defense) Thesis**

Required (as above).

**Time Limit**

This program is designed to be completed in two years of full-time attendance. However, all degree requirements must be completed within five years of initial enrollment.

**Language and Linguistics Concentration with Thesis (30 credits Plus Defense)**

**Thesis**

The thesis is to be written on a language-related subject chosen in consultation with the student's advisory committee. The student and the committee are to meet sufficiently often so that the committee may

adequately supervise the writing of the thesis. Upon completion of the thesis the student is required to defend the thesis orally. PHILOS 990 may be taken only once.

### Time Limit

This program is designed to be completed in two years of full-time attendance. However, all degree requirements must be completed within five years of initial enrollment.

## Philosophy, Minor

The study of Philosophy can be challenging because it asks students to critically examine very fundamental questions about what it means to be human - behavior, values, ethics, logic, aesthetics. Some describe it as "thinking in slow motion" because of the way it explores in depth the human experience.

Students choose philosophy because it instills a lifelong love and quest for knowledge, it imparts a disciplined and systematic way of thinking, and it enhances critical and analytical capacities. Most graduates of philosophy describe the great personal reward that comes from exploring the great thinkers of the past in the context of modern issues. But, they also passionately value the career skills that they developed - how to read and comprehend difficult text; how to understand different interpretations of information and assess opposing viewpoints; how to craft a clear and logical position on an issue in writing and orally; and how to make connections between smaller, seemingly disparate details and the big picture.

The undergraduate program is relatively small, resulting in more one-on-one attention from faculty than might be found at another university.

## Requirements

At UWM, incoming freshmen interested in studying philosophy are advised to begin with the general introductory course, PHILOS 101, though there are several courses, especially at the 200 level, that are open to students without a background in philosophy. The 300 level includes courses designed to provide more in-depth treatments of traditional philosophical areas. Courses at the 400 level are devoted to the history of philosophy. Courses at the 500 level deal with specific issues and problems.

The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. Students must attain a 2.0 GPA on all minor credits attempted, including any transfer work.

Students wishing to minor in philosophy should consult with the undergraduate program coordinator in order to complete a declaration of minor form and be assigned a departmental advisor.

The minor requires 18 credits in philosophy. Nine credits are required at the 300 level or above, all of which must be taken in residence at UWM.

## Faculty

Name	Rank	Degree	School	Graduate Faculty	Emeritus Faculty
Daniel Agterberg	Professor	PhD	University of Toronto	✓	
Donald E. Beck	Professor Emeritus	PhD			✓
Patrick Brady	Professor	PhD	University of Alberta	✓	
Philip Chang	Professor, Chair	PhD	University of California-Santa Barbara	✓

PHILOS 211	Elementary Logic	
PHILOS 430	Great Thinkers of the Ancient Period	
PHILOS 432	Great Thinkers of the Modern Period	
PHILOS 433	Nineteenth-Century Philosophers	
Select five additional philosophy courses		15
<b>Total Credits</b>		<b>18</b>

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact let-sci@uwm.edu.

## Physics

The principles of physics provide the underpinnings for many of the scientific and technological advances of the last several decades.

Experimental research facilities are available in the areas of condensed matter and biophysics. Theoretical studies are conducted in relativity and cosmology, biophysics, and condensed-matter physics. Observational studies focus on relativistic astrophysics, multi-messenger astronomy, and galaxy evolution. Joint study with other departments can also be arranged.

## Physics, BS

Physics is the study of matter and energy and their interactions, both in nature and under man-made conditions. Physics provides both the fundamental foundation for science and technology, and the framework for understanding the world around us and the universe itself.

UWM students can shape their Physics major in one of two directions. The standard major provides a broad overview of all aspects of physics: mechanics, optics, thermodynamics, quantum physics, magnetism, electricity, and the mathematical principles that underlie physics. In the astronomy focused version of the major, students master these basics plus take additional coursework in astrophysics and gravitation.

UWM's program provides excellent preparation for graduate programs in physics, engineering, and math, and can also serve as a springboard to careers in diverse areas, including engineering, business, law, and medicine. All Physics undergraduates are encouraged to get involved in research as early as their freshman year as a means to enhance their education and help diversify their career options.

## Course of Study – Bachelor of Science Degree

Complete 120 credits including 90 credits in the College of Letters & Science and with 36 of the 90 credits in L&S upper-level (numbered above 300) courses and 30 of those 36 credits in designated Advanced Natural Science courses (<https://catalog.uwm.edu/letters-science/approved-courses-advanced-natural-science/>). The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major. Students are also required to complete University-wide General Education Requirements and the specific L&S requirements listed below.

To complete a major, students must satisfy all the requirements of the major as stated in this catalog. Students who declare their majors within five years of entering the UW System as a degree candidate may satisfy the requirements outlined in any catalog issued since the time they entered. Credits used to satisfy the major also may be used to satisfy other degree requirements.

## University General Education Requirements (GER)

Code	Title	Credits
<b>Oral and Written Communication</b>		

### Part A

Achieve a grade of C or better in the following course:

ENGLISH 102	College Writing and Research (or equivalent)	
-------------	--	--

### Part B

Course designated as OWC-B; may be completed through a major-specific course requirement

### Quantitative Literacy

#### Part A

Earn at least 3 credits with a grade of C or higher in one of the following courses or an equivalent course, or achieve a placement code of at least 30 on the mathematics placement test (or other appropriate test, as determined by the Mathematical Sciences Department)

MATH 102	Mathematical Literacy for College Students II	
MATH 103	Contemporary Applications of Mathematics	
MATH 105	Introduction to College Algebra	
MATH 108	Algebraic Literacy II	
MATH 111	Introduction to Logic - Critical Reasoning <sup>1</sup>	
or PHILOS 111	Introduction to Logic - Critical Reasoning	
MATH 116	College Algebra	
Or equivalent course		

#### Part B

Course designated as QL-B; may be completed through a major-specific course requirement

### Arts

Select 3 credits 3

### Humanities

Select 6 credits 6

### Social Sciences

Select 6 credits 6

### Natural Sciences

Select 6 credits (at least two courses including one lab) 6

### UWM Foreign Language Requirement

Complete Foreign Language Requirement through:

Two years (high school) of a single foreign language

Two semesters (college) of a single foreign language

Or equivalent

### UWM Cultural Diversity Requirement

One course from the Arts, Humanities, or Social Sciences must also satisfy UWM's Cultural Diversity requirement

<sup>1</sup> Math 111 and Philosophy 111 are jointly offered and count as repeats of one another. Students cannot receive credit for both courses.

## College of Letters & Science Requirements

### I. English Composition Requirement

Students must satisfy the English Composition Requirement with one of the following options:

- 1) Completing ENGLISH 102 with a grade of C or higher; or
- 2) placing beyond English 102 on the English Placement Test (EPT) (or other assessment as determined by the English Department); or
- 3) transferring a course of at least 2.5 equivalent credits from another institution that is equivalent to English 102, or a UWM higher-level expository writing course, with a grade of C or higher.

**Note:** This requirement is the same as the University General Education Requirement for Oral and Written Communication Part A. The College of Letters & Science does not have a specific requirement for a writing course beyond English 102, but students must complete the university-wide requirement for Oral and Written Communication Part B listed above.

### II. Mathematics and Formal Reasoning

To satisfy the Mathematics and Formal Reasoning Requirement, Bachelors of Sciences degree students must satisfy the following two requirements:

1. Complete one of the following courses or an equivalent course:

Code	Title	Credits
MATH 211	Survey in Calculus and Analytic Geometry I	4
MATH 213	Calculus with Life Sciences Applications	4
MATH 221	Honors Calculus I	5
MATH 231	Calculus and Analytic Geometry I	4

2. Complete one course (at least 3 credits) at the 200 level or above chosen from courses in Mathematics, PHILOS 211, or Letters and Science statistics courses:

Code	Title	Credits
Complete one of the following:		
3 or more credits in any 200-level or above Math course		
AFRIC 220	Introduction to Statistics in African and African Diaspora Studies	
ANTHRO 568	Introduction to Anthropological Statistics	
BIO SCI 465	Biostatistics	
ECON 210	Economic Statistics	
GEOG 247	Quantitative Analysis in Geography	
HIST 595	The Quantitative Analysis of Historical Data	
MTHSTAT 215	Elementary Statistical Analysis	
PHILOS 211	Elementary Logic	
POL SCI 390	Political Data Analysis	
POL SCI 392	Survey Research	
PSYCH 210	Psychological Statistics	
SOCIOL 261	Introduction to Statistical Thinking in Sociology	

**Note:** This requirement is NOT the same as the University General Education Requirement for Quantitative Literacy Part B. To complete the BS, students must take one of the L&S approved courses. **Not all of the courses listed here will satisfy the QL-B requirement.**

### III. Foreign Language Requirement

Two courses (minimum of 6 credits) in a language (including American Sign Language) other than English at the 100 level or above are required.

Placement testing may be used to satisfy all or part of this requirement. Language courses (including American Sign Language) other than English taken in high school may be used to satisfy all or part of this requirement. One year of high school language equates to one semester of college work.

Completion of the L&S Language Requirement also satisfies the university-wide Foreign Language GER, but not vice versa.

### IV. International Requirement

See Approved Courses for the L&S International Requirement (<https://catalog.uwm.edu/letters-science/approved-courses-international-requirement/>) for course options.

Code	Title	Credits
Completed in one of the following ways:		9
Complete 3 courses (min. 9 cr) in a single foreign language (not including literature-in-translation or American Sign Language) at the 3rd semester level and above.		
Complete 3 non-language courses (min. 9 credits) with an international content chosen from at least 2 curricular areas.		
Complete 9 credits in combination of the two options above.		

### V. Breadth Requirement

Along with completing the University General Education Requirements of 3 credits in the Arts (A); 6 credits in the Humanities (HU), Social Sciences (SS), and Natural Sciences (NS/NS+); and a course with the Cultural Diversity (CD/+) designation, L&S students must complete the Breadth requirement.

Code	Title	Credits
<b>Arts</b>		
Select 3 credits		3
<b>Humanities</b>		
Complete 12 credits of L&S courses with Humanities Breadth designation; no more than 6 credits from a single subject area. *		12
<b>Social Sciences</b>		
Complete 12 credits of L&S Courses with Social Science Breadth designation; no more than 6 credits from a single curricular area. *		12
<b>Natural Sciences</b>		
Complete 12 credits of L&S Courses with Natural Sciences Breadth designation, including laboratory or field courses from three different curricular areas. *		12
<b>Cultural Diversity</b>		
Complete 3 credits in a course with Cultural Diversity (CD) designation. **		3

\* Students should check their course selections carefully with the list of approved L&S Breadth Courses (<https://catalog.uwm.edu/letters-science/breadth-requirement-course-list/>). Students are advised to

select at least 6 credits worth of courses in each of the Humanities, Social Science, and Natural Sciences areas that can satisfy both the campus-wide General Education Requirements and the L&S Breadth requirement.

\*\* Students are advised to select a course that satisfies the Cultural Diversity requirement as well as a Humanities or Social Science breadth/GER requirement.

### VI. The Major

The College requires that students attain at least a 2.0 GPA in all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation. Some departmental majors require courses from other departments. Contact your major department for information on whether those credits will count as part of the major GPA. The College requires that students must complete in residence at UWM at least 15 credits in upper-division (numbered 300 or above) courses in their major.

### Research Requirement

Within their majors, students must complete a research experience approved by the L&S faculty. A list of courses satisfying the research requirement in each major can be found here (<https://catalog.uwm.edu/letters-science/approved-courses-research-requirement/>).

### VII. The Minor

The College requires that students attain at least a 2.0 GPA in all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. Individual departments or programs may require higher GPAs for graduation.

## Physics Major Requirements

Freshmen who enter with scores of 4 or 5 on the Physics Advanced Placement exam given by CEEB are given partial credit for the introductory courses.

Students who have a combined GPA of 2.500 or above in all mathematics and physics courses taken in the first two years will be approved for a major in physics. This requirement will be waived in those cases where students are able to show evidence of unusual circumstances.

The department offers two study options. The standard physics major is for students who seek a general physics degree. The physics major with astronomy emphasis is for students who wish to pursue their interest in astronomy. While the standard physics major generally is followed by students who plan to go on to graduate school, the major with astronomy emphasis also enables students to pursue graduate work in physics.

Both options require that students take at least 15 credits in advanced-level (numbered 300 and above) courses in residence at UWM. The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the major attempted at UWM. In addition, students must attain a 2.0 GPA on all major credits attempted, including any transfer work. All students in the College are required to complete a research experience in their majors. Physics majors meet this requirement by successfully completing an upper-level, 3-credit laboratory courses.

### Standard Physics Major

A minimum of 43 credits in physics, including:

Code	Title	Credits
Select one of the following options: <sup>1</sup>		10
Option 1:		
PHYSICS 209 & PHYSICS 214	Physics I (Calculus Treatment) and Lab Physics I (Calculus Treatment)	
PHYSICS 210 & PHYSICS 215	Physics II (Calculus Treatment) and Lab Physics II (Calculus Treatment)	
Option 2:		
PHYSICS 219	Physics I: Calculus-Based, Studio Format	
PHYSICS 220	Physics II: Calculus-Based, Studio Format	
PHYSICS 309	Physics III: Modern Physics	3
PHYSICS 317	Thermodynamics	3
PHYSICS 325	Optics	4
PHYSICS 370	Analytical and Numerical Methods in Physics	3
Select one of the following: <sup>2</sup>		3
PHYSICS 406	Introduction to Infrared Microspectroscopy	
PHYSICS 408	Experiments in Linear Electronics	
PHYSICS 409	Modern Physics Laboratory	
PHYSICS 670	Electron Microscopy Laboratory	
PHYSICS 391	Undergraduate Research Participation <sup>3</sup>	
PHYSICS 411	Mechanics	4
PHYSICS 420	Electricity and Magnetism I	3
PHYSICS 422	Electricity and Magnetism II	3
PHYSICS 441	Introduction to Quantum Mechanics I	4
PHYSICS 442	Introduction to Quantum Mechanics II	3
<b>Electives</b>		
Selecting electives are encouraged (see below)		
<b>Total Credits</b>		<b>43</b>

<sup>1</sup> PHYSICS 209/PHYSICS 214 and PHYSICS 210/PHYSICS 215 are strongly recommended; however, PHYSICS 219 and PHYSICS 220 may be substituted.

<sup>2</sup> These courses are **not** offered every semester; check with the undergraduate advisor to plan for completing this requirement.

<sup>3</sup> The research proposal must be approved by the undergraduate advisor and the Departmental Undergraduate Committee, and it must demonstrate pedagogical value. Unfocused laboratory internships are not acceptable.

### Electives

No elective courses are required, but students are encouraged to select electives from Physics or Astronomy courses 300 level or above from the following list. Only the courses identified in the list below with the phrase "if not selected above" will be counted in the student's major GPA. Electives may not be offered every semester; check with the undergraduate advisor to plan for completing this requirement.

Code	Title	Credits
ASTRON 400	Astrophysics I	3
ASTRON 401	Astrophysics II	3
PHYSICS 305	Medical Physics	3
PHYSICS 306	Introduction to Biophysics	3

PHYSICS 351	Basics of Condensed Matter Physics	3
PHYSICS 391	Undergraduate Research Participation	1-6
PHYSICS 406	Introduction to Infrared Microspectroscopy (if not selected above)	3
PHYSICS 408	Experiments in Linear Electronics (if not selected above)	3
PHYSICS 409	Modern Physics Laboratory (if not selected above)	3
PHYSICS 501	Special Topics: Mathematical Models of Physical Problems I	3
PHYSICS 515	Statistical Mechanics	3
PHYSICS 517	Special Relativity	3
PHYSICS 531	Principles of Quantum Mechanics I	3
PHYSICS 532	Principles of Quantum Mechanics II	3
PHYSICS 541	Elementary Particles	3
PHYSICS 551	Introduction to Solid State Physics I	3
PHYSICS 651	Introduction to Solid State Physics II	3
PHYSICS 670	Electron Microscopy Laboratory (if not selected above)	3

### Physics Major with Astronomy Emphasis

A minimum of 55 credits in physics and astronomy courses, including:

Code	Title	Credits
<b>Required</b>		
Select one of the following options: <sup>1</sup>		10
Option 1:		
PHYSICS 209 & PHYSICS 214	Physics I (Calculus Treatment) and Lab Physics I (Calculus Treatment)	
PHYSICS 210 & PHYSICS 215	Physics II (Calculus Treatment) and Lab Physics II (Calculus Treatment)	
Option 2:		
PHYSICS 219	Physics I: Calculus-Based, Studio Format	
PHYSICS 220	Physics II: Calculus-Based, Studio Format	
PHYSICS 309	Physics III: Modern Physics	3
PHYSICS 325	Optics	4
PHYSICS 317	Thermodynamics	3
PHYSICS 370	Analytical and Numerical Methods in Physics	3
Select one of the following: <sup>2</sup>		3
PHYSICS 406	Introduction to Infrared Microspectroscopy	
PHYSICS 408	Experiments in Linear Electronics	
PHYSICS 409	Modern Physics Laboratory	
PHYSICS 670	Electron Microscopy Laboratory	
PHYSICS 391	Undergraduate Research Participation <sup>3</sup>	
PHYSICS 411	Mechanics	4
PHYSICS 420	Electricity and Magnetism I	3
PHYSICS 422	Electricity and Magnetism II	3
PHYSICS 441	Introduction to Quantum Mechanics I	4
PHYSICS 442	Introduction to Quantum Mechanics II	3
ASTRON 400	Astrophysics I <sup>2</sup>	3

ASTRON 401	Astrophysics II <sup>2</sup>	3
<b>Electives <sup>2</sup></b>		
Select 6 credits from the following: 6		
ASTRON 103 or ASTRON 211	Survey of Astronomy Principles of Astronomy	
ASTRON 175	Cosmic Origins	
ATM SCI 110	The Origin, Composition, and Structure of the Planetary Atmospheres	
GEO SCI 120	Geology of the Planets	
PHYSICS 391	Undergraduate Research Participation	
PHYSICS 501	Special Topics: Mathematical Models of Physical Problems I	
PHYSICS 517	Special Relativity	
PHYSICS 541	Elementary Particles	
Or another course approved by the undergraduate advisor		
<b>Total Credits</b>		<b>55</b>

<sup>1</sup> PHYSICS 209/PHYSICS 214 and PHYSICS 210/PHYSICS 215 are strongly recommended; however, PHYSICS 219 and PHYSICS 220 may be substituted.

<sup>2</sup> These courses are **not** offered every semester; check with the undergraduate advisor to plan for completing this requirement.

<sup>3</sup> The research proposal must be approved by the undergraduate advisor and the Departmental Undergraduate Committee, and it must demonstrate pedagogical value. Unfocused laboratory internships are not acceptable.

### Possible Course Substitutions for Students with Physics and Engineering Double Majors

One of the following courses may be substituted for PHYSICS 370:

Code	Title	Credits
CIV ENG 280	Computer Based Engineering Analysis	3
COMPSCI 240	Introduction to Engineering Programming	3
COMPSCI 250	Introductory Computer Programming	3
MECHENG 101	Computational Tools for Engineers	2

The following course may be substituted for PHYSICS 317:

Code	Title	Credits
MECHENG 301	Basic Engineering Thermodynamics	3

The combination of both of the following may substitute for PHYSICS 411:

Code	Title	Credits
CIV ENG 201	Statics	3
CIV ENG 202	Dynamics	3

Upper level engineering technical electives may be substituted for PHYSICS 325 and independent study/research may be substituted for the 400-level laboratory courses.

### Letters & Science Advising

During your time at UWM, you may have multiple members of your success team, including advisors, peer mentors, and success coaches. Letters and Science students typically work with at least two different

types of advisors as they pursue their degrees: professional College Advisors and Faculty Advisors. L&S College Advisors advise across your entire degree program while departmental Faculty Advisors focus on the major.

**College Advisors** are located in Holton Hall and serve as your primary advisor. They are your point person for your questions about navigating college and completing your degree. College Advisors will:

- assist you in defining your academic and life goals;
- help you create an educational plan that is consistent with those goals;
- assist you in understanding curriculum, major and degree requirements for graduation, as well as university policies and procedures;
- provide you with information about campus and community resources and refer you to those resources as appropriate; and
- monitor your progress toward graduation and completion of requirements.

**Faculty Advisors** mentor students in the major and assist them in maximizing their development in the program. You will begin working with a Faculty Advisor when you declare your major. Faculty Advisors are an important partner and will:

- help you understand major requirements and course offerings in the department;
- explain opportunities for internships and undergraduate research and guide you in obtaining those experiences; and
- serve as an excellent resource as you consider potential graduate programs and career paths in your field.

Students are encouraged to meet with both their College Advisor and Faculty Advisor at least once each semester. Appointments are available in-person, by phone or by video.

Currently enrolled students should use the Navigate360 website (<https://uwm.navigate.eab.com/>) to make an appointment with your assigned advisor or call (414) 229-4654 if you do not currently have an assigned Letters & Science advisor. Prospective students who haven't enrolled in classes yet should call (414) 229-7711 or email [let-sci@uwm.edu](mailto:let-sci@uwm.edu).

### Accelerated Program Option

This program is offered as part of an accelerated graduate program. For more information, see Accelerated Graduate Degrees (p. 37).

### College of Letters and Science Dean's Honor List

GPA of 3.750 or above, earned on a full-time student's GPA on 12 or more graded credits in a given semester.

### Honors College Degree and Honors College Degree with Distinction

Granted to graduating seniors who complete Honors College requirements, as listed in the Honors College (p. 819) section of this site.

### Commencement Honors

Students with a cumulative GPA of 3.500 or above, based on a minimum of 40 graded UWM credits earned prior to the final semester, will receive

all-university commencement honors and be awarded the traditional gold cord at the December or May Honors Convocation. Please note that for honors calculation, the GPA is **not** rounded and is truncated at the third decimal (e.g., 3.499).

## Final Honors

Earned on a minimum of 60 graded UWM credits: Cum Laude - 3.500 or above; Magna Cum Laude - 3.650 or above; Summa Cum Laude - 3.800 or above.

## Physics, Minor

Physics is the study of matter and energy and their interactions, both in nature and under man-made conditions. Physics provides both the fundamental foundation for science and technology, and the framework for understanding the world around us and the universe itself.

A minor in physics provides an opportunity for students to complement their major course of study. The choice of advanced courses allows a student to gain a deeper understanding in specific areas of physics.

## Requirements

A minor in physics requires 18 credits of Physics courses, of which 9 credits must be in courses at the 300 level or above taken in residence at UWM. The College of Letters & Science requires that students attain at least a 2.0 GPA on all credits in the minor attempted at UWM. In addition, students must attain a 2.0 GPA on all minor credits attempted, including any transfer work. There is latitude in the choice of credits.

- Students majoring in engineering or computer science should consider PHYSICS 325 and PHYSICS 351.
- Science or math education majors should take PHYSICS 317, PHYSICS 325, and ASTRON 400.
- Math majors will find complementary subject matter in PHYSICS 411, (PHYSICS 420 and PHYSICS 422), and PHYSICS 517.

Students are required to consult with the undergraduate physics advisor (physics-ugadvisor@uwm.edu) when planning their minor programs of study.

## Letters & Science Minor Advising

Advising for the minor takes place within the department by a faculty member or staff member. Follow the steps using the "Declare a Minor" button on the department's website which may include instructions on how to select a faculty advisor if there is more than one to choose from.

Students who already have an L&S college advisor because their degree plan is in L&S can discuss the minor with them as well since they will be familiar with any minor in L&S. Students who are working on a degree from a UWM college other than the College of Letters & Science will not need an L&S college advisor for just a minor and one will not be assigned. These students should work with the faculty or staff advisor they receive as part of the minor declaration process or contact the department directly for assistance.

Applicants who have not started classes at UWM yet who wish to declare a minor should wait until they are registered for their first UWM classes and then can declare the minor using the "Declare a Minor" button on the program's website. If you have questions about the minor before then, contact let-sci@uwm.edu.

## Physics, MS

The Physics Department exhibits exceptional strength in several areas. We invite applications from able students interested in experimental and theoretical condensed matter physics; in structural biophysics and protein dynamics and function; and in cosmology, relativistic astrophysics, and gravitational-wave/multimessenger astronomy. The primary goal of our graduate education is the training of creative research scientists.

Our research in gravitational physics is in several areas: In gravitational-wave astronomy, we play a leading role in LIGO, extracting signals of gravitational-waves from the coalescence of binary neutron stars and black holes, as well as searching for electromagnetic counterparts, and in the use of pulsars to measure gravitation waves from supermassive black holes. In relativistic astrophysics we have established limits on the spin and mass of rotating neutron stars, and develop computational techniques to model merging stars. Astronomy efforts include studying early galaxy formation and evolution, and the phenomenology of neutron stars and white dwarfs.

Experimental and theoretical work in condensed matter physics is focused on quantum materials, including quantum transport phenomena, superconductivity, magnetism, and novel states of matter.

Experimental work in biophysics includes advanced optical and electrical methods for probing protein-protein interactions and protein complex structure and dynamics in vivo. Other efforts are in structural biophysics, static and time-resolved macromolecular crystallography, and XFEL-based femtosecond crystallography. Molecular biophysics studies include protein mechano-chemistry and single-molecule force spectroscopy.

Theoretical and computational work in biophysics includes advanced algorithms for signal extraction in the presence of extreme noise and timing uncertainty (XFEL and cryo-electron microscopy data) for protein crystallography, biostructure, dynamics, and function.

## Graduate Minor in Physics

A doctoral student in another department wishing to minor in Physics must choose a minor professor from among the Physics Graduate Faculty. The student and the minor professor plan a program of study consisting of 9 to 12 graduate credits in Physics and complete a Graduate Minor Program Plan for the Physics Department files.

## Admission Requirements

### Application Deadlines

Application deadlines vary by program, please review the application deadline chart (<http://uwm.edu/graduateschool/program-deadlines/>) for specific programs. Other important dates and deadlines can be found by using the One Stop calendars (<https://uwm.edu/onestop/dates-and-deadlines/>).

### Admission

An applicant must meet Graduate School requirements (<http://uwm.edu/graduateschool/admission/>) plus these departmental requirements to be considered for admission to the program:

1. Letters of Recommendation. Three letters of recommendation are required from persons familiar with the applicant's academic work.
