Workshop on Cybersecurity Providing in Information and Telecommunication Systems II (CPITS-II), ed. V. Sokolov, T. Radivilova, V. Ustimenko, M. Nazarkevych, Borys Grinchenko Kyiv University, Kyiv, Ukraine, Oct. 26, 2023.

The aim of the Cybersecurity Providing in Information and Telecommunication Systems (CPITS) workshop is to provide a forum for researchers to discuss current trends in cybersecurity and risk management, critical infrastructure security, wireless and sensor network privacy, IoT and IoMT security, routing techniques for cybersecurity, cybersecurity data science, artificial intelligence, machine learning in cybersecurity, deep-fake attacks and cryptography. In CPITS, we encourage the submission of papers in the field of Cybersecurity. Novel applications of these methods to real-world problems are welcome.

There were 47 papers submitted for peer review to this workshop. Out of these, 32 papers were accepted for this volume, 15 as regular papers and 17 as short papers.

The workshop is co-located with the International Conference “Problems of Infocommunications. Science and Technology” (IEEE PIC S&T’2023).
