

# Preface

These proceedings contain the contributed papers for the Sixth International Workshop on Narrative Extraction from Texts (*Text2Story2024*) held in conjunction with the ECIR 2024 conference in Dublin, Ireland, on the 24th of March 2024. Twenty six papers were submitted for peer-review to this workshop. Out of these, fourteen papers were accepted for this volume, ten as regular papers, and four in the category of *Work in Progress, Demos and Dissemination*. Each submitted paper was reviewed by three members of an international programme committee. In addition to the selected papers, the workshop features two invited speakers: Jochen L. Leidner and Mirela Lapata. Jochen L. Leidner gave a talk entitled “Homo Narrans: From Information to Narratives”. Mirela Lapata gave a talk entitled “Visual Storytelling with Question-Answer Plans.”

We would like to thank ECIR for hosting us, our keynote speakers, the programme committee, the paper authors, and the participants, who have made this workshop possible. Editors Ricardo Campos and Alípio Jorge were financed by National Funds through the FCT - Fundação para a Ciência e a Tecnologia, I.P. (Portuguese Foundation for Science and Technology) within the project StorySense, with reference 2022.09312.PTDC.

## Editors

Ricardo Campos (INESC TEC; University of Beira Interior, Portugal)

Alípio M. Jorge (INESC TEC; University of Porto, Portugal)

Adam Jatowt (University of Innsbruck, Austria)

Sumit Bhatia (Adobe Media and Data Science Research Lab, India)

Marina Litvak (Shamoon Academic College of Engineering, Israel)

## Proceedings Chair

Conceição Rocha (INESC TEC)

João Cordeiro (NOVA LINCS; University of Beira Interior)

## Programme Committee

Álvaro Figueira (INESC TEC & University of Porto)

Andreas Spitz (University of Konstanz)

Antoine Doucet (Université de La Rochelle)

António Horta Branco (University of Lisbon)
