

MODELS 24

22 - 27 September 2024
Linz, Austria

About

ACM/IEEE 27th International Conference on Model Driven Engineering Languages and Systems is the premier conference for model-driven software and systems engineering. MODELS 2024 is a forum for participants to share the latest research and practical experiences around modeling, modeling languages, and model-based software and systems engineering. Respective contributions advance the fundamentals of modeling and report applications of modeling in areas such as cyber-physical systems, embedded systems, socio-technical systems, cloud computing, big data, machine learning, security, open source, and sustainability.

Topics of Interest

- Fundamentals of model-based engineering
- New paradigms, formalisms, applications, approaches, frameworks, or processes for model-based engineering
- Model-based generative and re-engineering approaches
- Model-based monitoring, analysis, and adaptation towards intelligent systems
- ...

Dates

Abstract Submission	21 Mar 2024
Paper Submission	28 Mar 2024
Author responses	27-29 May 2024
Author notification	17 Jun 2024
Camera Ready	31 Jul 2024

Hosted by

General Chairs

Alexander Egyed
JKU Linz,
Austria

Manuel Wimmer
JKU Linz,
Austria

PC Chairs

Marsha Chechik
University of Toronto,
Canada

Benoit Combemale
University of
Rennes,
France
