Manual Revision: 05/16/2023

FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.

• Increase the separation between the equipment and receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

Installation

Driver Installation

If the host is running Windows or ChromeOS, the drivers should install automatically. If you are running a supported operating system that is not Windows or ChromeOS, or the drivers do not automatically install, disconnect the dock from the computer, then:

a. Navigate to www.StarTech.com/USB32DP4K or wwwStarTech.com/USB32HD4K and click the Drivers/Downloads tab.

b. Under Driver(s), download the Driver Package for your operating system. Follow the steps outlined in the Installation guide that is included in the Driver Package to install the drivers/software.

Multiple USB Video Adapter Installation

Ensure you have the latest version of the drivers installed; otherwise, please download them from the StarTech.com website (www.startech.com).

1. Complete the standard driver installation steps up to the point of connecting the first USB Video Adapter.

2. Connect another monitor/display to the second USB Video Adapter, and turn on the display.

3. Connect the USB connector on the second USB Video Adapter to an available USB port on the host computer. The driver installation will begin automatically.

Repeat these steps for each additional USB Video Adapter you wish to install. Once all USB Video Adapters are installed, reboot the computer. After rebooting, you may be prompted to reboot one final time; please do so.

Configure the Display

To arrange, extend, duplicate or change other display settings related to the USB Video Adapter, use the operating system's Display Settings.
