The Spamhaus Project strengthens trust and safety across the internet.

We provide signal and intelligence relating to internet identifiers to help users assess how they should interact with them. We are a pivotal part of the community, shining a light on badness and effecting change for the good of the internet.

As a non-profit organization, we are independent and ethical and have been making a difference for over two decades.

Facts and figures

FOUNDED 1998

4.5 BILLION

Mailboxes protected globally

45 BILLION

Datapoints analysed every hour

25,000

Detections relating to exploited IPs every hour

8 FREE DATA SETS

> 20 MILLION

Unique domains processed every week

Internet traffic, and the abuse of internet identifiers, ebbs and flows. Likewise so do our statistics. The ones detailed above indicate an approximation, but can vary from period to period.
