Premier Reference Source

Contemporary Advancements in Information Technology Development in Dynamic Environments

Part of the Advances in Systems Analysis, Software Engineering, and High Performance Computing Book Series

Mehdi Khosrow-Pour
(Information Resources Management Association, USA)

The advancement of information technology is becoming more prevalent in all aspects of the world today, including online environments. Understanding technology's effect on niche markets and all fields of research is crucial for practitioners in this area.

Contemporary Advancements in Information Technology Development in Dynamic Environments presents an in-depth discussion into the information technology revolution present in fields such as government, gaming, social networking, and cloud computing. This book's investigation into the research and application of information technology in several specific areas make this a useful resource for practitioners, professionals, undergraduate/graduate students, and academics.

Topics Covered:

- Artificial Game Intelligence
- Cloud Computing
- Computer-Aided Ceramic Design
- E-Government
- Face and Object Recognition
- Green Energy Technologies
- Mobile Social Networking Service

ISBN: 9781466662520; © 2014; 320 pp.

Print: US \$205.00 | Perpetual: US \$310.00 | Print + Perpetual: US \$410.00

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.
