

# Technical Education and Vocational Training in Developing Nations

Part of the Advances in Higher Education and Professional Development Book Series

Ugochukwu Chinonso Okolie (Ebonyi State University, Nigeria) and Asfa M. Yasin (PSS Central Institute of Vocational Education (NCERT), India)

## Description:

Severe economic depression and the difficulty to acquire employment with adequate income have significant impact on a nation's social welfare. The need to provide ample educational opportunities is more imperative than ever, particularly in emerging economies.

**Technical Education and Vocational Training in Developing Nations** is a comprehensive reference source for the latest literature on optimizing the implementation of curriculum development and instructional design strategies for technical and vocational education. Features innovative coverage across a range of relevant topics, such as curriculum deficiency, teacher competencies, and accessible learning.

## Readers:

This book is ideally designed for policy makers, academicians, researchers, advanced-level students, technology developers, and educators interested in the improvement of professional learning programs.
