Abbreviations: nb, number; p, percentile.

^a Maze A: Sum of the initial three rounds of the Maze task. Maze B: Final (fourth) round of the Maze task.

^b Lower scores indicate better performances, except for the Cards- and Marbles- composite variables, where higher scores indicate better performances.

^c $([1/(\text{incorrect answers}+1000)] / \text{time}) * 100,000$.
