Search Tips

Boolean search

You can use the AND, OR, and NOT operators to search for multiple terms. Use AND to search for articles that contain all of the search terms. Use OR to search for articles that contain any of the search terms. Use NOT to search for articles that do not contain any of the search terms. Use parentheses to group search terms. Use quotation marks to search for exact phrases. Use wildcards to search for partial matches. Use the asterisk (*) to search for all words that begin with a certain string. Use the question mark (?) to search for all words that end with a certain string. Use the dollar sign (\$) to search for all words that end with a certain string. Use the percent sign (%) to search for all words that contain a certain string.

고급검색 Tip

- 불리언 연산자 (AND, OR, NOT)
- 다수 저자 검색 방법
- 구연산자 (" ")
- 절단연산자(*,?)
- DOIs를 활용한 검색

Searching for author names

To search for author names, use the author name field. You can search for a single author or multiple authors. To search for multiple authors, use the OR operator. To search for an author whose name is spelled differently, use the wildcards * and ?. To search for an author whose name is partially known, use the wildcards * and ?. To search for an author whose name is partially known and spelled differently, use the wildcards * and ?. To search for an author whose name is partially known and spelled differently, use the wildcards * and ?. To search for an author whose name is partially known and spelled differently, use the wildcards * and ?.

Searching for phrases

Enclose your search term with quotation marks to search for an exact match of that phrase. Without quotation marks, articles including all of the search terms somewhere in the article will be listed. For example, searching for "civil war" will find articles containing that exact phrase.

Article Page

The image shows a screenshot of a journal article page from Physiology.org. The page title is "Physiology in Perspective: Homeostasis and Survival" by Gary C. Sieck, Editor-in-Chief, dated February 7, 2018. The article text begins with a quote from Charles Darwin in 1859 and Claude Bernard in 1865. The page includes a navigation menu, a search bar, and a sidebar with options like Figures, References, Related, and Information. A red box highlights the "PDF (45KB)", "TOOLS", and "SHARE" buttons. Another red box highlights the "Information" tab in the sidebar, which contains the PubMed ID 29412060. Yellow callout boxes provide instructions on how to use these features.

ISSUE ALERTS

ARTICLE ALERTS

CITATION ALERTS

APS offers two types of alerts: article alerts and issue alerts. **Article alerts** include both the early version (the manuscript as accepted) and the final article version, as it is ready (ahead of the issue). **Issue alerts** contain the final issue Tables of Contents only.

If you would like to receive **ONLY** final issue TOC alerts, select the journal titles for which you want to receive alerts, and click "Submit" at the bottom of the page. The frequency of issue alerts automatically corresponds to the frequency of the journal.

If you would like to also receive article-level alerts, move to the Article Alerts tab.
