IMD's warnings through APIs and Social media

Do you know that India Meteorological Department has taken various initiatives in recent years for improvement in data reception and dissemination of weather forecast and warning services based on latest tools and technologies? It includes dissemination of forecast and warnings through website, email, SMS and Social Media such as Facebook, Twitter, Instagram etc.

Public Website	https://mausam.imd.gov.in
IMD Apps	Mausam/ Meghdoot/DAMIN/RAIN ALARM, UMANG
Twitter	https://twitter.com/Indiametdept
Facebook	https://www.facebook.com/India.Meteorological.Department/
Blog	https://imdweather1875.wordpress.com/
Instagram	https://www.instagram.com/mausam_nwfc
Youtube	https://www.youtube.com/channel/UC_qxTReoq07UVARm87CuyQw

India Meteorological Department has developed APIs for various observations and forecast products. The detailed link is given below:

https://mausam.imd.gov.in/imd_latest/contents/api.pdf.

If any organization is interested to use these APIs following IMD's terms and condition then they can contact to the Nodal officer Dr. Sankar Nath, Sc-E, IMD, New Delhi
