

Master your day, in your own way.

Discover the connected suite of appliances
powered by Home Connect™

BOSCH
Invented for life

CONNECTED BY
Home Connect

Welcome to the connected home.

Smart homes help people stay in the know when it matters. That's why Bosch created a collection of connected appliances designed to make your life easier. Home Connect™ allows a variety of Bosch home appliances to be remotely monitored and controlled with a single app, for a new level of ease and convenience.

Master your day, in your own way.

You know the feeling when some days just go your way? That's the philosophy behind Bosch appliances with Home Connect™. Now you can intelligently manage and organize household tasks through the simple convenience of the Home Connect app.

Peace of mind

Because sometimes you just want the reassurance that nothing can go wrong.

Automation

Because sometimes you just want to set it and forget it.

Simplification

Because when you streamline tasks, you simplify life.

Connectivity, for your kind of control.

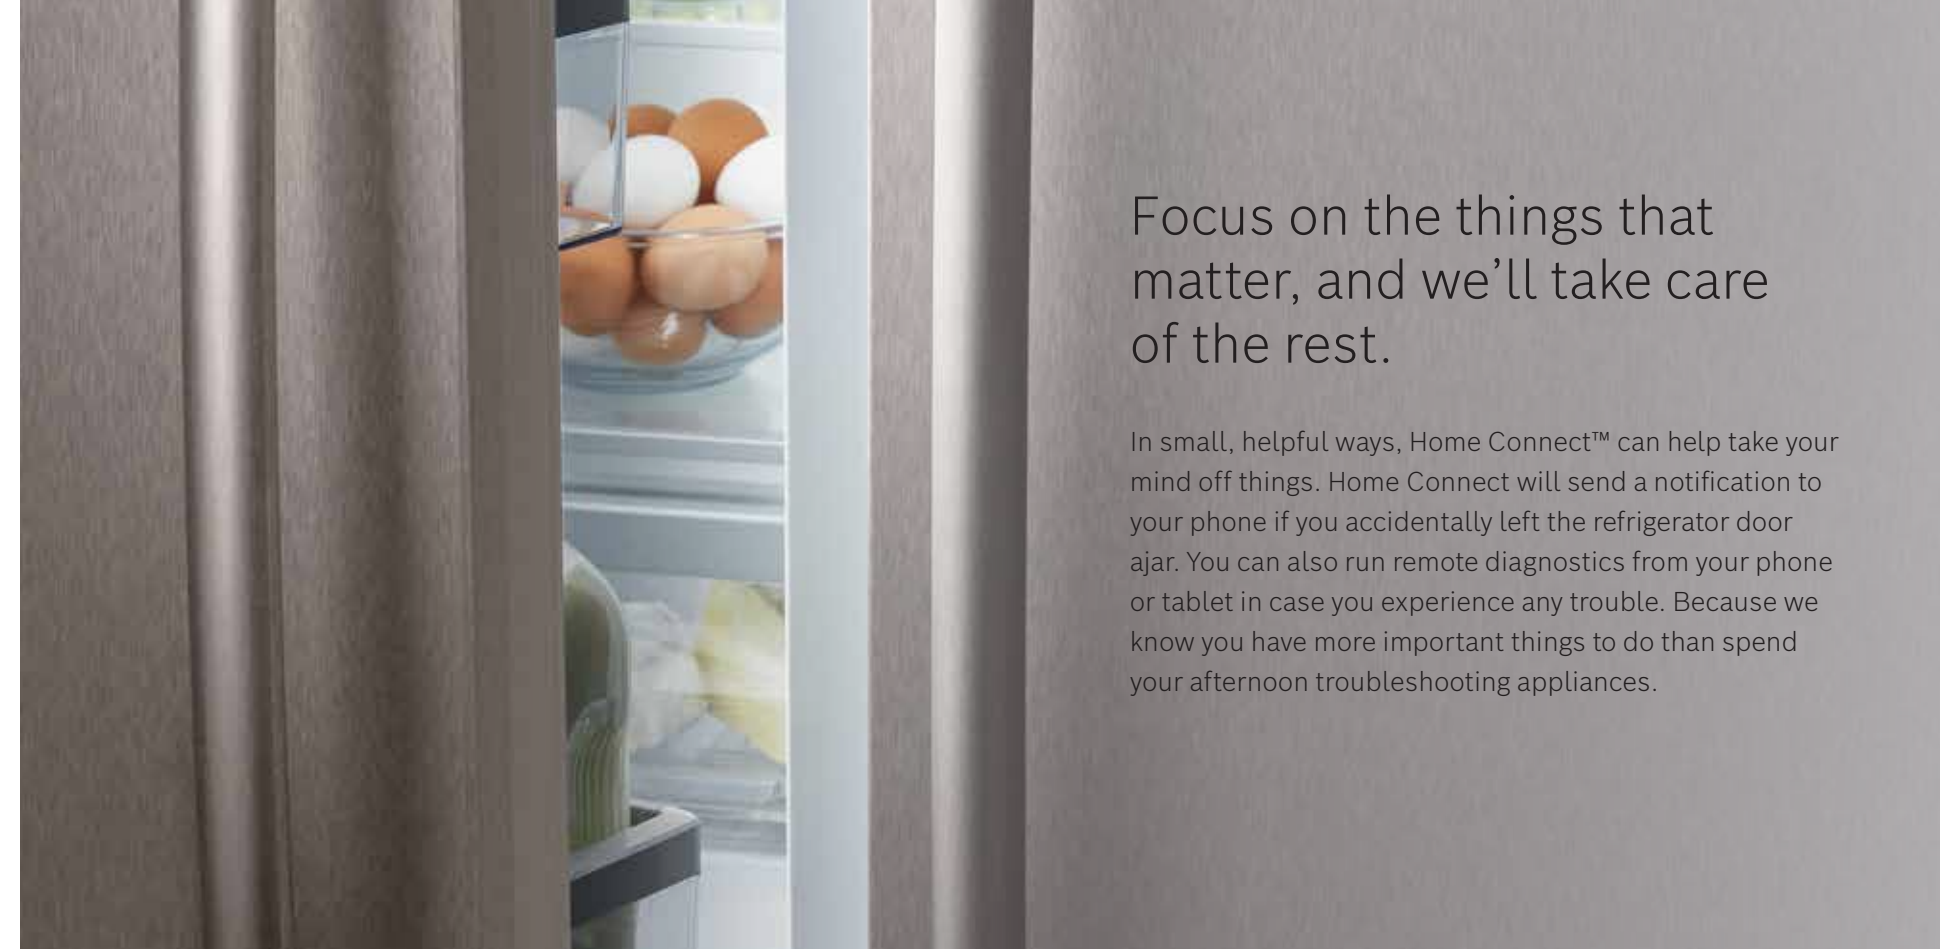

Whether you want to simplify daily tasks, set your chores on auto pilot, or take the worry out of everyday life, with Home Connect™, the day becomes yours.

Peace of mind

Ever wonder if you left the oven on or if the fridge door is still open? With the Home Connect™ app, simply check on your appliances with your smartphone from wherever you are.* You can also turn most appliances on or off with Home Connect whenever you want so you always have full control of your home when you're not there.

*Connectivity and speed varies based on network and WiFi levels.

Focus on the things that matter, and we'll take care of the rest.

In small, helpful ways, Home Connect™ can help take your mind off things. Home Connect will send a notification to your phone if you accidentally left the refrigerator door ajar. You can also run remote diagnostics from your phone or tablet in case you experience any trouble. Because we know you have more important things to do than spend your afternoon troubleshooting appliances.

 Your washing cycle is done.

Keep an eye on things even when you're not home.

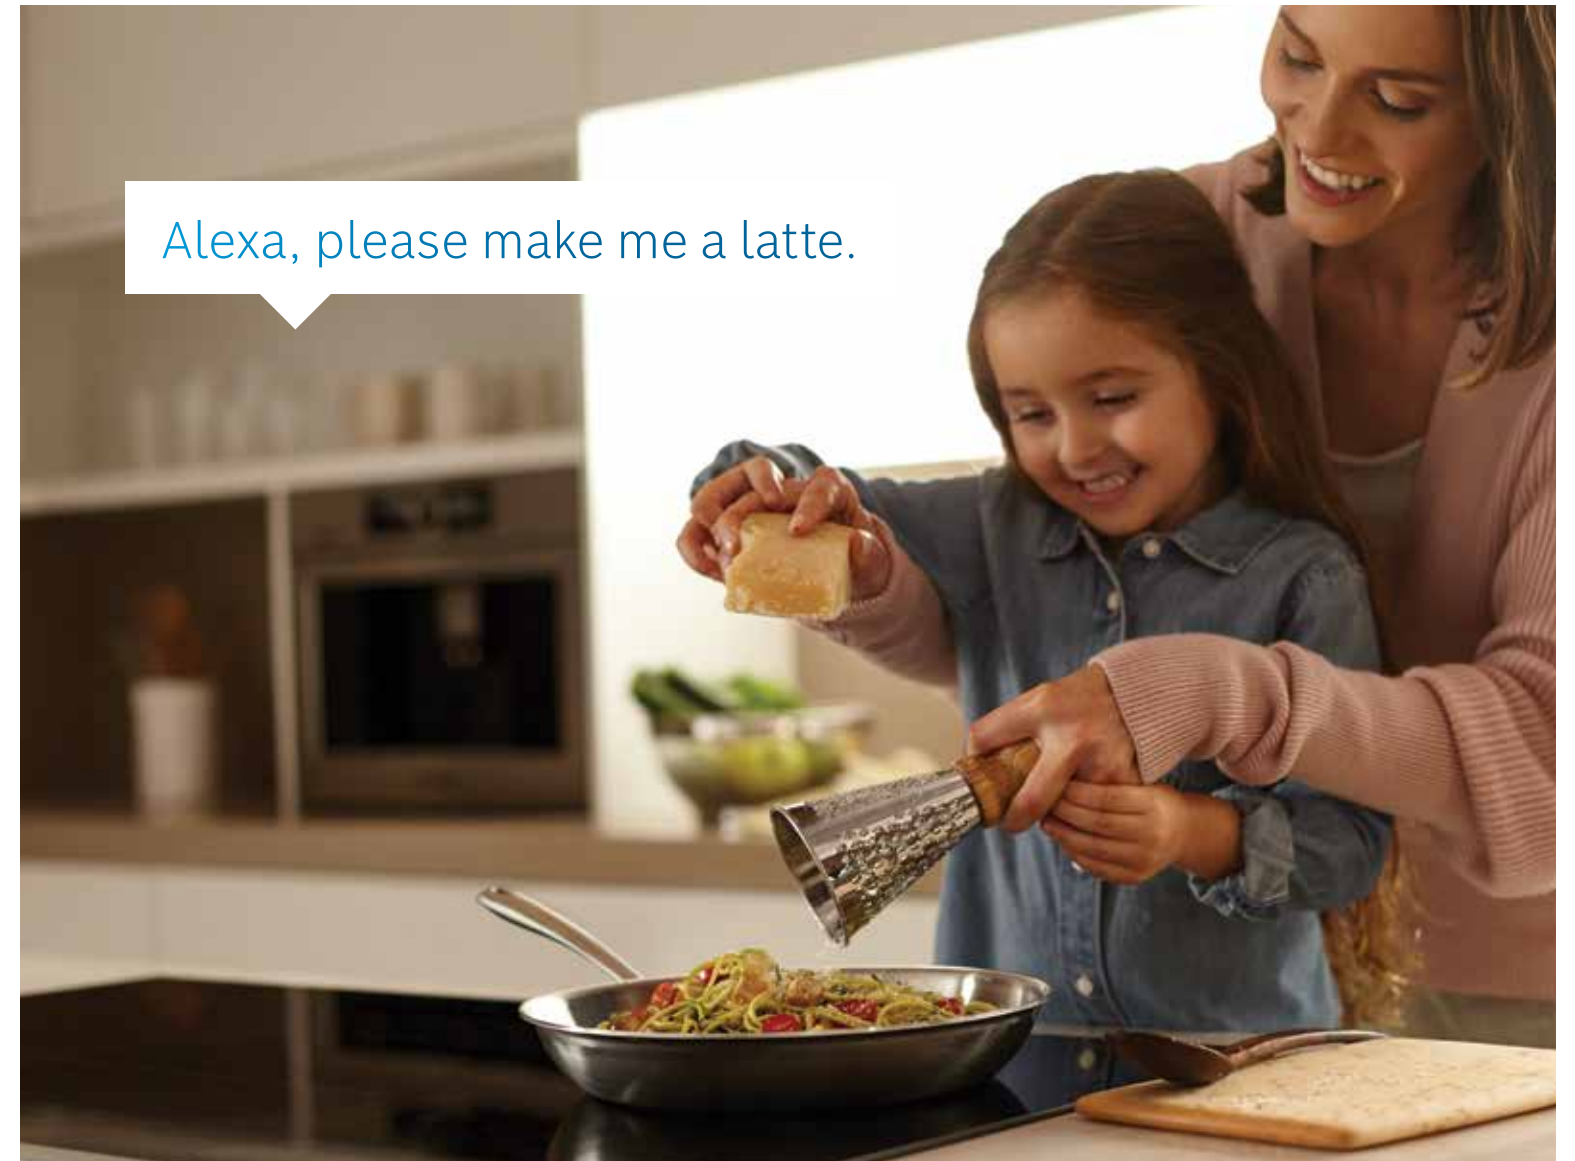

You shouldn't have to feel tied down at home when using your Bosch appliances. From your oven to dishwasher, washer to dryer, remotely monitor your Bosch appliances with Home Connect from the office, the soccer field, or anywhere else you need to be.

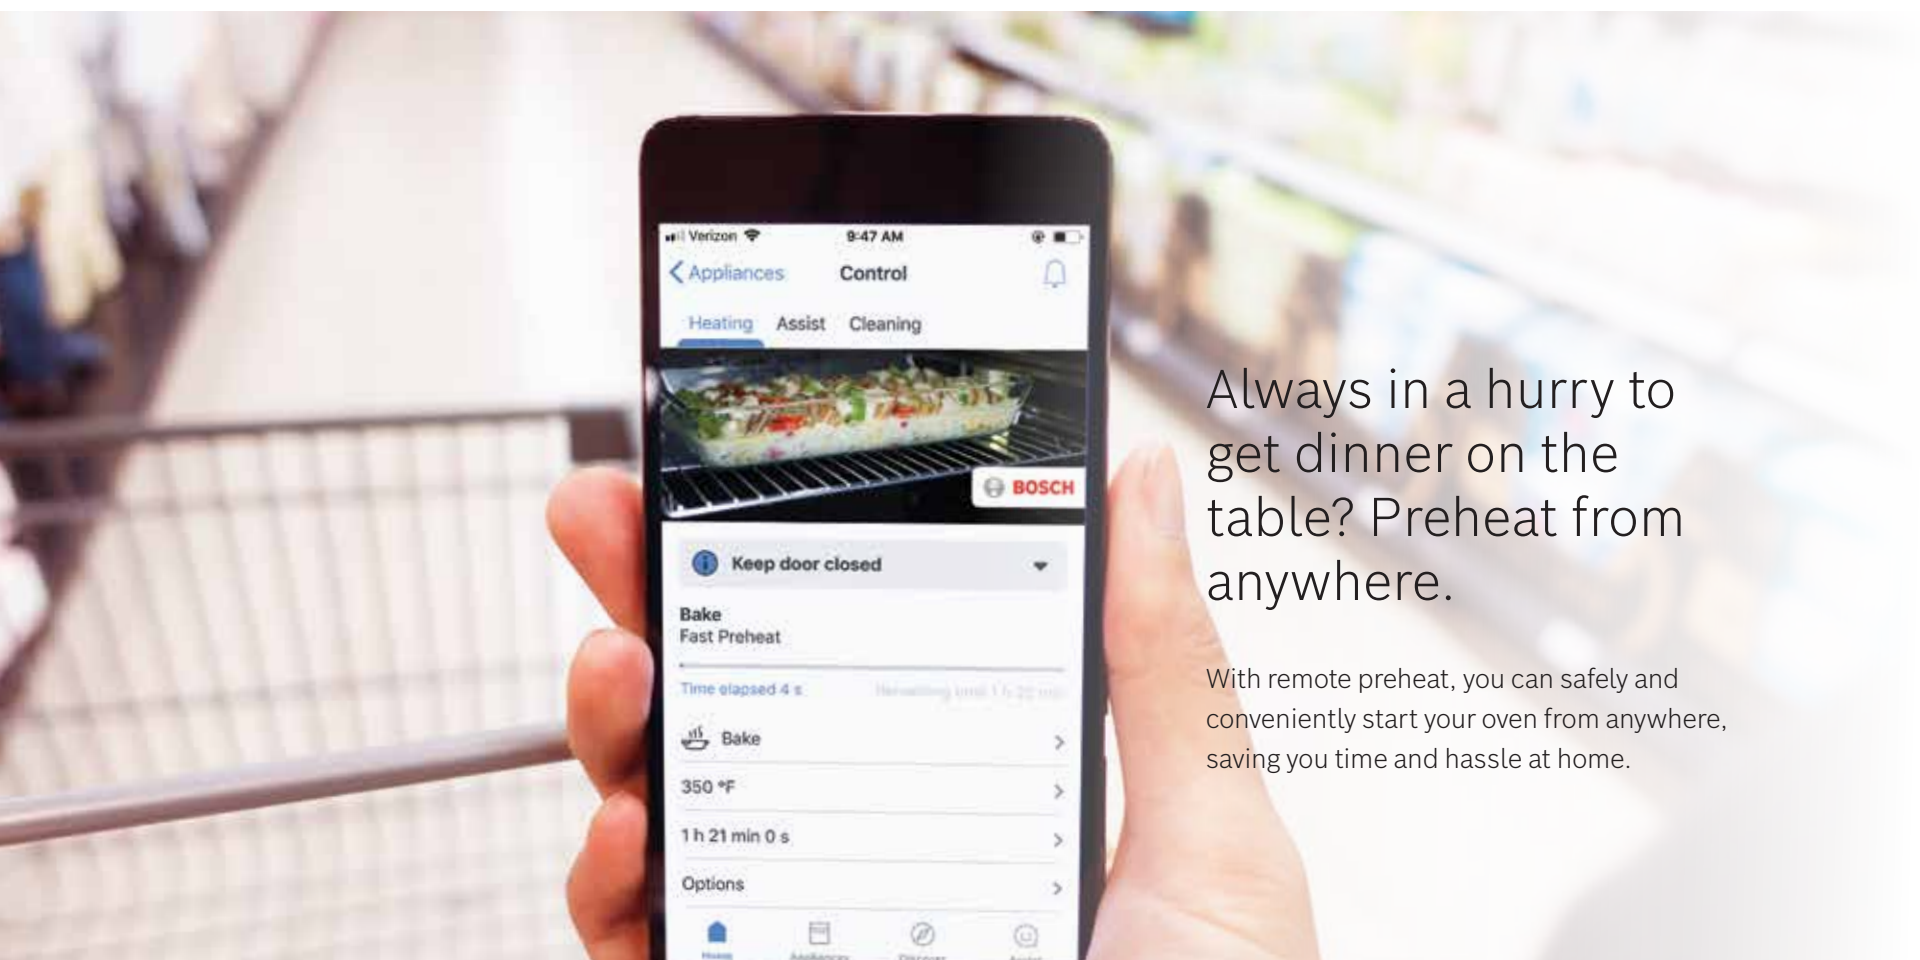

What's easier than the touch of a button? No button at all.

Your Bosch appliances with Home Connect™ work seamlessly with Amazon Alexa. Ask Alexa to preheat the oven, check on the status of dinner, start the dishwasher, or serve up a latte. Because life should be this easy.

Hey Google, please start my dishwasher.

Alexa, please make me a latte.

Always in a hurry to get dinner on the table? Preheat from anywhere.

With remote preheat, you can safely and conveniently start your oven from anywhere, saving you time and hassle at home.

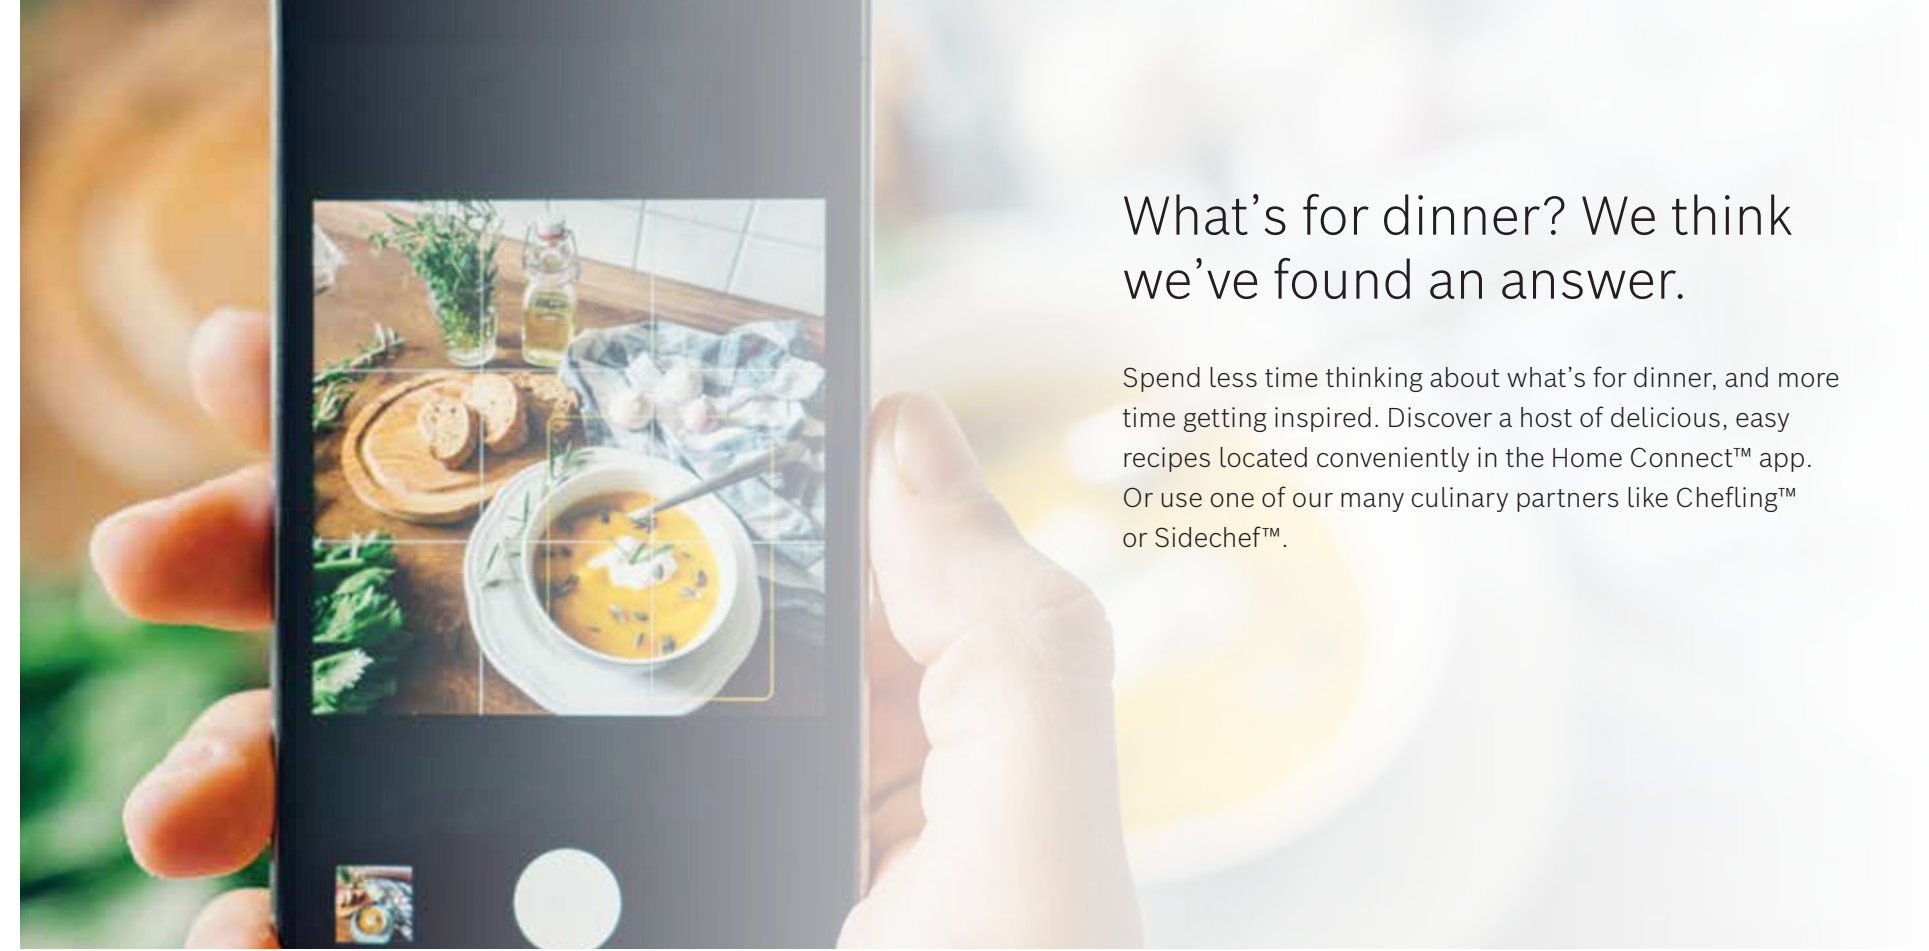

Simplification

Bosch appliances with Home Connect™ turns managing household tasks into an entirely new, simplified experience. From checking your fridge and pantry stock with Chefling™ from the produce aisle at the market, to making a latte from bed, or troubleshooting issues with remote diagnostics—it's the little things that add up to enhancing the quality of your daily life at home.

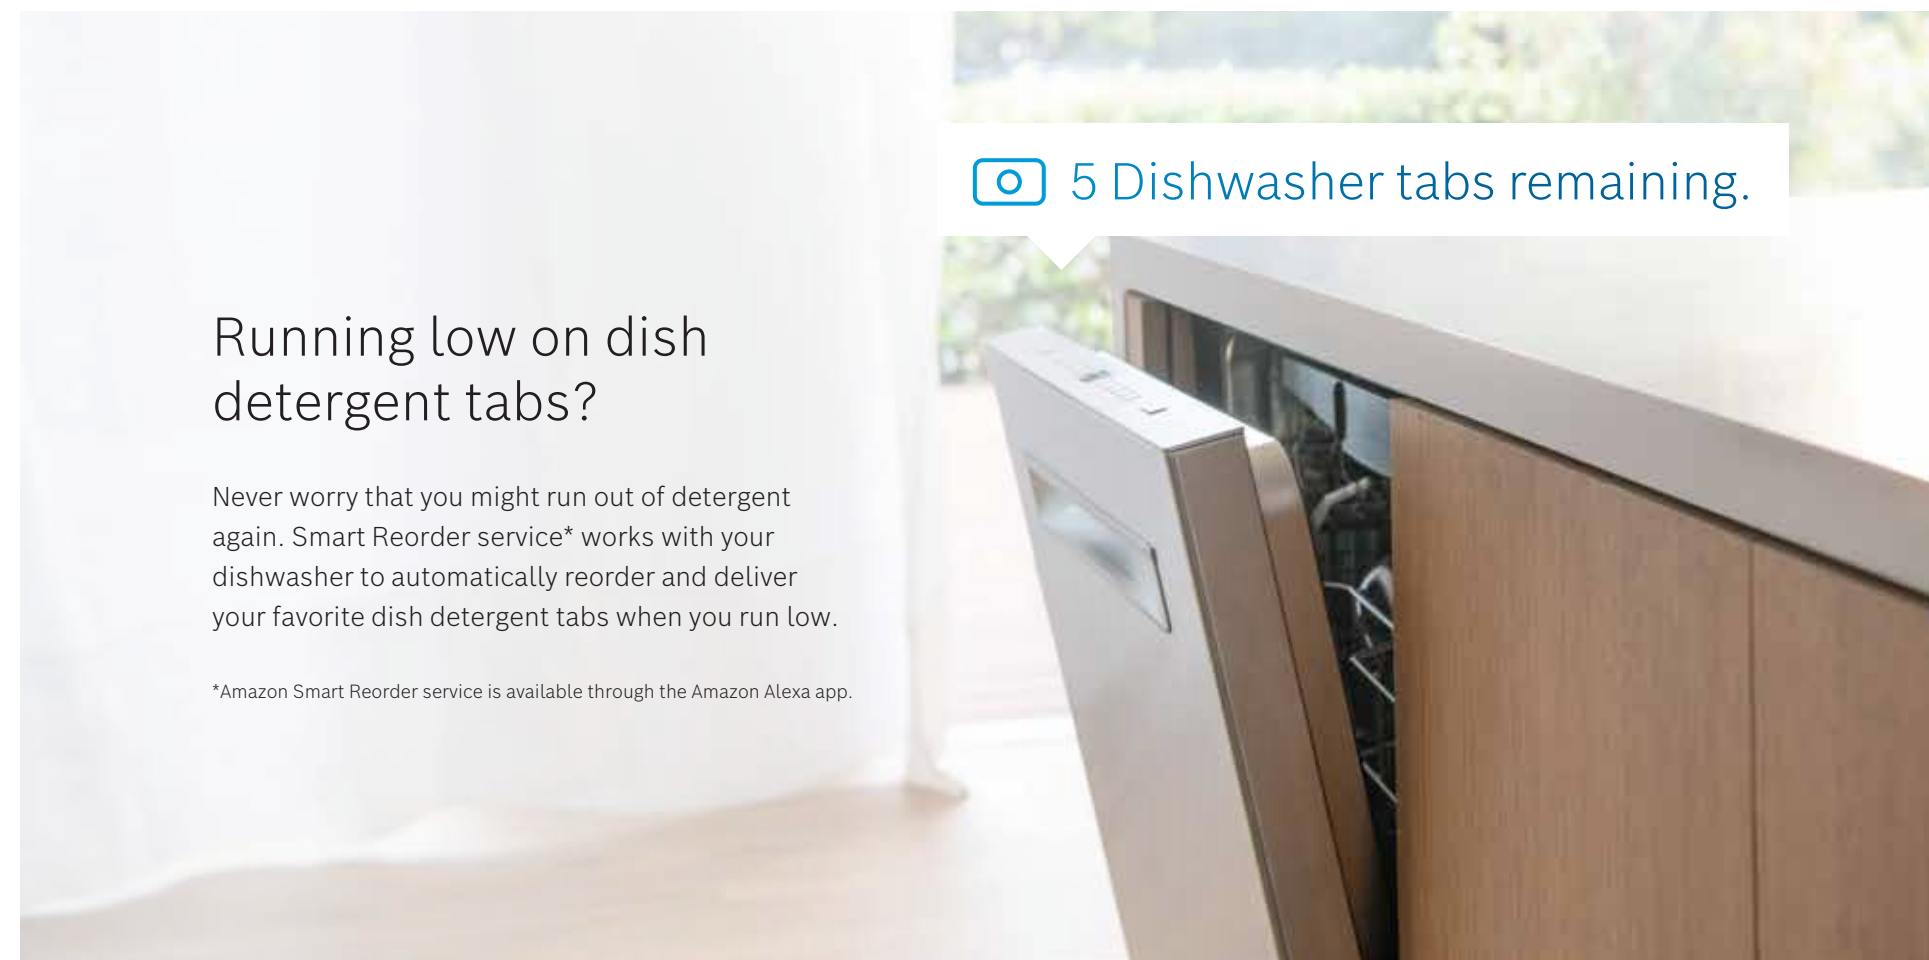

Automation

Life's busy, and sometimes you just have other things on your mind besides laundry and dishes. The automation features of Home Connect™ can tackle a wide range of household tasks, making the most of your free time. Have access to guided recipes, have dish detergent tabs delivered to your door, or start your coffee maker the moment you pull into your garage.

What's for dinner? We think we've found an answer.

Spend less time thinking about what's for dinner, and more time getting inspired. Discover a host of delicious, easy recipes located conveniently in the Home Connect™ app. Or use one of our many culinary partners like Chefing™ or Sidechef™.

 5 Dishwasher tabs remaining.

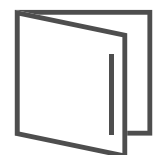

Running low on dish detergent tabs?

Never worry that you might run out of detergent again. Smart Reorder service* works with your dishwasher to automatically reorder and deliver your favorite dish detergent tabs when you run low.

*Amazon Smart Reorder service is available through the Amazon Alexa app.

Connected refrigerators.

The Home Connect™ app allows you to remotely monitor and control your Bosch refrigerator from your smartphone or tablet. Control the temperature, adjust lighting, run diagnostics—wherever you are*—for ultimate convenience.

Door-ajar notifications

Receive a notification on your phone should you accidentally leave your refrigerator door open for an extended time.

Remote diagnostics

Should you ever encounter a problem, the Bosch customer service team can use remote diagnostics to connect to your refrigerator, helping you find a solution quickly.

Water filter replacement reminders

Simply opt-in to receive a replacement reminder on your mobile device when it's time to replace your water filter.

*Connectivity and speed varies based on network and WiFi levels.

Connected dishwashers.

From remote monitoring, to cycle status notifications, to running diagnostics from the comfort of your home, the Home Connect™ app allows you to remotely monitor and control your Bosch dishwasher from your smartphone for greater convenience.

Leak Protection

In the rare event a leak should occur, your Bosch connected dishwasher will immediately send an alert on your smartphone, ensuring a little problem doesn't become a bigger one.

Automatic Reordering

Home Connect dishwashers keep tabs on themselves- quite literally. With Smart reorder service,* detergent tabs are automatically reordered and delivered to your door when you run low.

Remote Monitoring

The Home Connect app can notify you once your dishwasher's cycle is complete, so you'll know when it's ready to be unloaded.

*Amazon Smart Reorder service is available through the Amazon Alexa app.

Connected cooking.

Let Home Connect™ enhance the experience of cooking. From preheating your oven from the office, to never needing to manually adjust your hood vent, to discovering new recipes –then cooking them to automatic perfection. Even ask Alexa along the way how dinner is coming along.

Remote preheat

Get meals on the table sooner and be efficient with your time using remote preheat. Preheat your oven from anywhere* using the Home Connect app so the oven is ready to cook when you are.

Automatic cooktop-hood control

Home Connect enabled hoods automatically activate when the cooktop is turned on and adjust the blower speed to match the level of heat detected while cooking.

World of recipes

Access a world of healthy, delicious recipes from the Home Connect app, then send the appropriate settings straight to your wall oven.

*Connectivity and speed varies based on network and WiFi levels.

Connected coffee.

Coffee lovers will appreciate all the ways Bosch coffee machines with Home Connect™ elevates the art of at-home coffee. Have guests over? Send a playlist of drinks to your machine. Feel like sleeping in? Start brewing your latte from bed. Bosch coffee machines with Home Connect is like having your own personal barista—only better.

Remote brewing

The Home Connect app lets you order coffee from anywhere*, using your smartphone or tablet. So now it's easier than ever to start your mornings off right.

CoffeeWorld

The Bosch built-in coffee maker allows you to access the world of coffee without leaving your kitchen. With CoffeeWorld, explore different brew variations from around the globe. Order directly from the Home Connect app to have your coffee freshly made when you get home.

Coffee Playlist

Take the hard work out of entertaining with a Bosch connected coffee machine. You can program customized coffee and tea beverages for all your guests. So while you're busy entertaining, your coffee machine is brewing the perfect cup. When it's finished, the coffee machine will alert you in the app.

*Connectivity and speed varies based on network and WiFi levels.

Alexa, make me a cappuccino.

Connected laundry.

Bosch appliances with Home Connect™, allow you to control your laundry, rather than the other way around. Specify when you need your favorite pair of jeans finished by, take the guesswork out of selecting the right cycle, and start your washer or dryer from anywhere.* Home Connect can even help you select the right program to remove red wine and chocolate.

EasyStart

Thanks to Home Connect, you don't have to guess which setting to select for your clothes. EasyStart recommends the best program based on the types of clothes you select in the app.

Remote monitoring

With Home Connect, your device can send you status updates, including when a cycle is complete, so you can master your day.

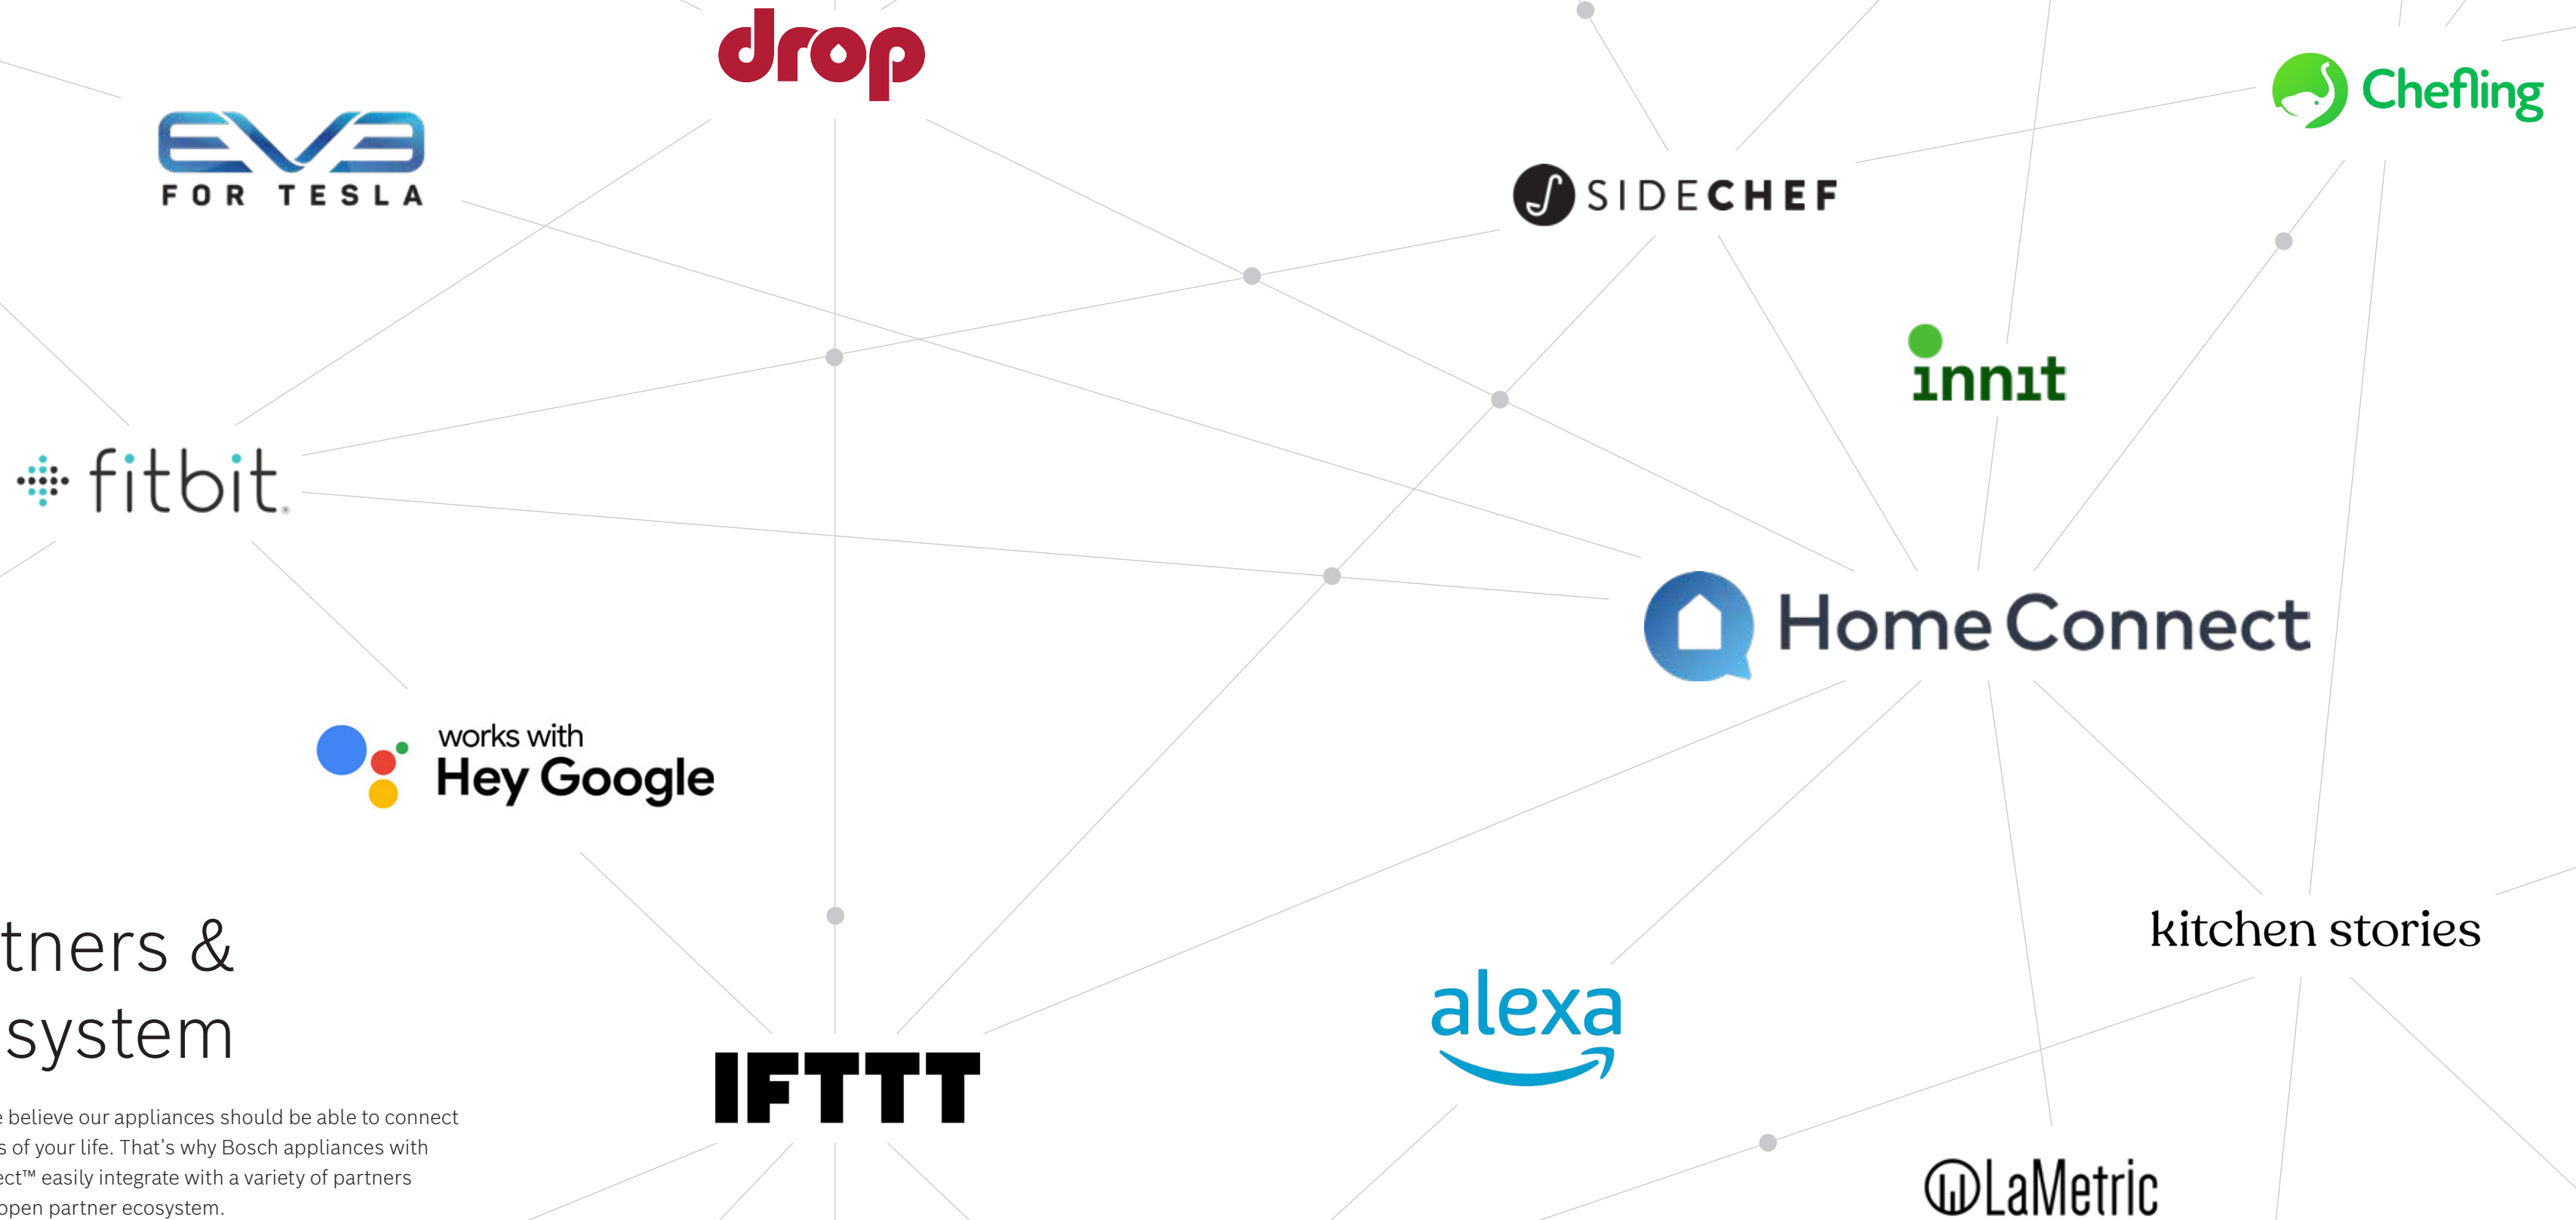

Energy usage

Home Connect provides energy and water consumption information for each laundry program within the app to help you stay on top of your energy usage.
