

TRYBE Cowl Induction Muzzle Brakes Now Available On OpticsPlanet

**FOR IMMEDIATE RELEASE**

*OpticsPlanet.com introduces the latest addition from TRYBE Defense, caliber-specific CIB Muzzle Brakes that stop recoil in its tracks.*

**Northbrook, IL, Nov. 12, 2021** – OpticsPlanet.com continues to expand its product selection with the newest innovation from TRYBE Defense, CIB Cowl Induction Muzzle Brakes. Built with a proprietary design, these caliber-specific muzzle devices offer unparalleled recoil reduction and performance for your AR platform.

"The Cowl Induction Muzzle Brake is one of the most effective inventions in the firearms industry in recent years," said Alex Royzen, Managing Director, Head of Supply Chain Management at OpticsPlanet, Inc. "When we heard TRYBE Defense was bringing this product back to market after a long hiatus, we knew our customers would be excited!"

Clocking in at just over an inch in diameter, the ultra-slim TRYBE Defense CIB boosts your rifle's performance without adding bulk. These brakes are made of 4140 alloy steel and finished with a matte black QPQ coating for maximum durability and resistance to corrosive elements.

What makes the TRYBE Defense Cowl Induction Muzzle Brakes stand out from the pack is their proprietary design that is built for your specific caliber, offering personalized recoil reduction for your favorite cartridges. Upon launch, the TRYBE Defense CIB will be available in .223 Remington, 5.56mm NATO, 6mm/6.5mm Creedmoor, .308 Winchester, and .338 Lapua Magnum calibers.

The TRYBE Defense CIB boasts an industry-leading recoil reduction rate of up to 83%, providing shooters with first-rate accuracy, faster follow-up shots, and advanced recoil control. What's more, these muzzle brakes result in a mere 0.253 inches of recoil per shot, while the standard for competing brakes is around 4 whole inches.

Tested, tried, and true, the TRYBE Defense CIB Cowl Induction Muzzle Brake makes for an excellent addition to your AR, providing exceptional weapon control and comfort while using your preferred rifle rounds. The TRYBE Defense CIB Muzzle Brake is currently available on OpticsPlanet.com at a retail price of \$179.00.

## About OpticsPlanet.com

OpticsPlanet, Inc. is the Destination for Gear™ and the leading online retailer of tactical, hunting, and outdoor goods. Since 2000, its flagship store [www.OpticsPlanet.com](http://www.OpticsPlanet.com) has offered a diverse product selection for those who play, work, and serve with passion.

Today, OpticsPlanet.com offers items from over 4,000 brands in 600 specialized categories, providing customers with high-quality optics, gun parts, shooting accessories, hunting and outdoor gear, apparel and footwear, and ammunition to fulfill their professional or recreational needs.

The company's success created new opportunities to give back to the community that helped them get this far, including their OpticsPlanet Cares program that has provided over \$500,000 to various organizations that aid those who serve and their families.
