National Association of State Boards of Accountancy (NASBA)

NASBA serves as a forum for the 54 U.S. boards of accountancy. NASBA sponsors a variety of programs and services designed to enhance the effectiveness of its member boards.

SKILLSOFT'S AFFILIATION WITH NASBA

Skillsoft is registered with the National Association of State Boards of Accountancy (NASBA) as a sponsor of continuing professional education on the National Registry of CPE Sponsors. Skillsoft's CPE/QAS Sponsor ID number is 106191.

NASBA'S CONTINUING PROFESSIONAL EDUCATION (CPE) PROGRAM

Most states require continuing professional education (CPE) for CPAs to maintain active licenses. The fundamental purpose of Continuing Professional Education (CPE) is to maintain and/or increase professional competence. The National Registry of CPE Sponsors is a program offered by NASBA to recognize sponsors who offer CPEs in accordance with nationally recognized standards. You can find more information at the CPE Registry website.

NASBA PROGRAM LEVEL

NASBA requires CPE program sponsors to equate program content and level with the backgrounds of the intended participants. Skillsoft's CPE courses have been assigned the "Overview" program level, indicating that they provide a general review of a subject area from a broad perspective and may be appropriate for professionals at all organization levels.

REQUIREMENTS TO RECEIVE CPE

Course must be "Compliant" at time it is started and must be completed within one year of first access with a score of 70% or greater. See the Skillsoft CPE Course List to find courses that are eligible for CPE credit.

Note: State boards of accountancy have final authority on the acceptance of individual courses for CPE credit, and Skillsoft's CPE Registry sponsorship alone does not guarantee that its courses are valid for CPE credits in all states. It is important for learners to check with their state boards to confirm the board's CPE requirements.
