Editorial Note: This manuscript has been previously reviewed at another journal that is not operating a transparent peer review scheme. This document only contains reviewer comments and rebuttal letters for versions considered at *Nature Communications*.

Reviewers' Comments:

Reviewer #1:

Remarks to the Author:

The manuscript has been heavily revised in the last iterations, and I believe the ms can be published in Nature communication with the current form without any further revision.

Revision and resubmission of manuscript NCOMMS-23-28105-T

Reviewer #1 (Remarks to the Author):

The manuscript has been heavily revised in the last iterations, and I believe the ms can be published in Nature communication with the current form without any further revision.

We thank the Referee for supporting the publication of our manuscript in Nature Communications.
