A. Percent Agreement of Classifications for Winter Metagene

$\rho = -0.82$
$P_\rho = 1.85 \times 10^{-69}$

$\rho = -0.63$
$P_\rho = 1.82 \times 10^{-32}$
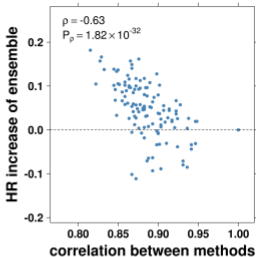

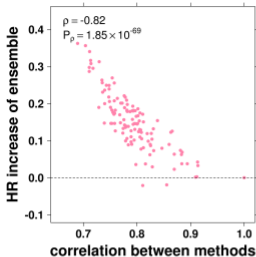

B. Spearman's Correlation Between Gene Univariate Analyses

$\rho = -0.14$
$P_\rho = 2.02 \times 10^{-2}$

$\rho = -0.23$
$P_\rho = 1.34 \times 10^{-4}$

Axis labels (all panels): x-axis: correlation between methods; y-axis: HR increase of ensemble
