

**CABLE ONE PRESIDENT & CEO JULIE LAULIS
JOINS C-SPAN BOARD OF DIRECTORS
--Replaces Tom Might, Who Served as Director for 22 years --**

(December 21, 2017) – C-SPAN announced today that Cable ONE President and CEO Julie Laulis is joining the C-SPAN Board of Directors, succeeding Cable ONE Executive Chairman Tom Might who will step away at the end of year.

Laulis became CEO of Cable ONE earlier this year, replacing Might after he was named Executive Chairman. Joining Cable ONE in 1999, Laulis has served in many key roles including Director of Marketing, Vice President of Operations, Chief Operating Officer and President. She's been in the cable industry for more than 30 years, previously working at Jones Communications and Hauser Communications.

"We're very thankful for Tom's years of service to C-SPAN and we're pleased to welcome Julie to the board," said C-SPAN Founder and Executive Chairman Brian Lamb. "Tom brought a unique and valuable mid-size operator perspective to our strategic thinking and we look forward to receiving that same level of insight and expertise from Julie."

Might has been a member of the C-SPAN Board of Directors since 1995. He became President and CEO of Cable ONE in 1994, serving in that capacity for 23 years prior to being named Executive Chairman in 2017.

"It has been my pleasure to be part of the C-SPAN organization and watch the great work of the same superb team for all those years," said Might.

C-SPAN's 15-member board of directors is comprised of top executives of cable operating companies. The C-SPAN Board, which has had 144 members since 1979, establishes C-SPAN policy and oversees its financial operations, but is not involved in editorial decision making.

About C-SPAN: Created by the cable TV industry and now in nearly 100 million TV households, C-SPAN programs three commercial-free public affairs television networks; C-SPAN Radio, heard in Washington D.C., at 90.1 FM and available as an App; and C-SPAN.org, a video-rich website offering live coverage of government events and access to the vast archive of C-SPAN programming.
