# Product of deployment vs. Deployed Product

The screenshot shows the SAP License Keys interface. The left sidebar contains navigation options: Request License Key, History of Requests, Favorites, Help, User Mode, and Tools. The main content area is titled '1- Installations' and includes a search bar and filter options. The filter options are: Customer (Not applicable), Product of Installation Number (Not applicable), Installation Number (Not applicable), and Deployed Product (Please select or type...). A 'NEW' section is also present with a link 'How to use this option'. The interface includes a 'Search' button and 'Reset' and 'Cancel' options.

**Display / Hide main menu**

Click to go back to <http://support.sap.com/licensekey>

Use "Product of Installation number" to filter for specific installation product types. This is **not** a list of every product in your contract. Leave field as "All" so that all installation numbers remain selectable.

Use "Deployed Product" to select the product for which you want to request a license key. This will list the relevant Installation Numbers that are linked to licensed products in your contract.

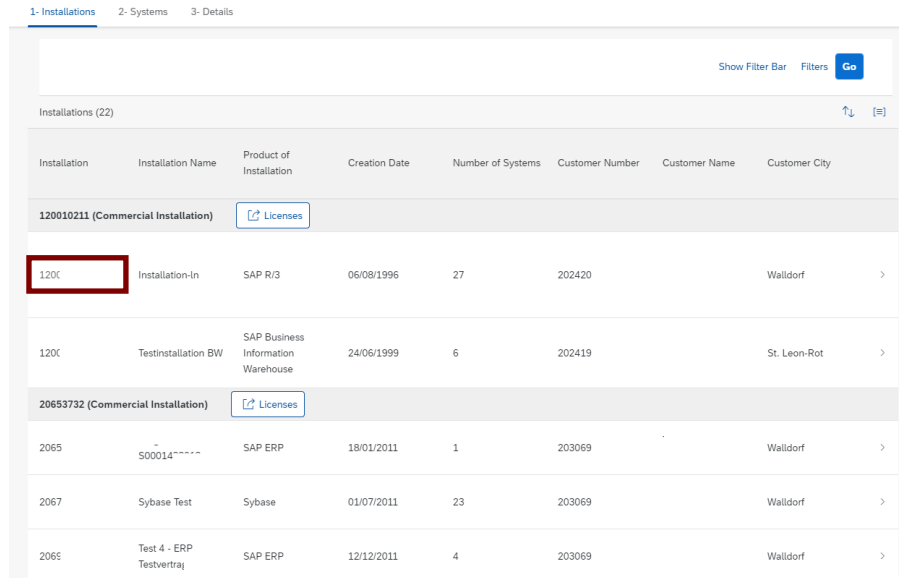

# How to use this option – Deployed Product

The screenshot shows the SAP License Keys interface. At the top, there is a header with the SAP logo and 'License Keys'. Below the header, there is a search bar and a navigation menu with '1- Installations', '2- Systems', and '3- Details'. The main content area is titled 'Simulation for User' and contains several sections for filtering installations. The first section is 'Select the installation number using filters', which includes three dropdown menus: 'Customer', 'Product of Installation Number', and 'Installation Number'. The second section is 'or enter the installation/system number directly', which includes a text input field for 'Installation Number or System Number'. The third section is 'Or select the product for which you are licensed', which includes a dropdown menu for 'Deployed Product'. A callout box with a red border and yellow background is overlaid on the 'Deployed Product' dropdown, containing the text: 'Use "Product of Deployment" to select the product for which you want to request a license key. This will list the relevant Installation Numbers that are linked to licensed products in your contract.' At the bottom right, there are buttons for 'Search', 'Reset', and 'Cancel'.

This screenshot is a zoomed-in view of the 'Simulation for User' page. It shows the same navigation and filter sections as the first screenshot. The 'Deployed Product' dropdown menu is highlighted with a red box. A callout box with a red border and yellow background is overlaid on the dropdown, containing the text: 'Select the product for which you want to request a license key'. At the bottom right, there are buttons for 'Click Search', 'Search', 'Reset', and 'Cancel'. The 'Search' button is highlighted with a red box.

## How to use this option – Deployed Product

A list is generated with Installation Number(s) grouped by the Commercial Installation

The screenshot shows a table of installations in SAP S/4HANA. The table is titled 'Installations (22)' and has columns for Installation, Installation Name, Product of Installation, Creation Date, Number of Systems, Customer Number, Customer Name, and Customer City. The table is grouped by Commercial Installation. The first group is '120010211 (Commercial Installation)' and the second is '20653732 (Commercial Installation)'. The first row in the first group is highlighted with a red box, indicating it is selected. The 'Licenses' button is visible next to the group headers.

Installation	Installation Name	Product of Installation	Creation Date	Number of Systems	Customer Number	Customer Name	Customer City
<b>120010211 (Commercial Installation)</b> <a href="#">Licenses</a>							
1200	Installation-In	SAP R/3	06/08/1996	27	202420		Walldorf
1200	Testinstallation BW	SAP Business Information Warehouse	24/06/1999	6	202419		St. Leon-Rot
<b>20653732 (Commercial Installation)</b> <a href="#">Licenses</a>							
2065	S00014****	SAP ERP	18/01/2011	1	203069		Walldorf
2067	Sybase Test	Sybase	01/07/2011	23	203069		Walldorf
2066	Test 4 - ERP Testvertrag	SAP ERP	12/12/2011	4	203069		Walldorf

Select the Installation Number by clicking the line and start the license key request

### IMPORTANT:

The license key information contains licenses in your license contract and components of those licenses, which require keys for activation. This is not a list of all the licenses in your contract with SAP, it is a list of licenses available for key requests on this installation number. For further information check [License Key Help](#)

# List of all Technical Installation(s) and related Commercial Installation

## How to create a list:

Option 1:  
Click SEARCH w/o any preselection

Option 2:  
Use the Installation List in the menu  
under Request License Key

All preselection on the landing page will  
reduce the content in the downloaded file.

## Overview of Contracts – Commercial Installation – T-Installation Numbers

- The Commercial Installation provides the link between x number of contracts to x number of T Installations
- A Commercial Installation can be assigned to multiple contracts and multiple Installations
- A contract and/or a Technical Installation can only be assigned to one Commercial Installation
- Multiple different Technical Installations may allow access to the same contracts through the Commercial Installation
