Southwest Wisconsin Technical College 2023 Annual Security & Fire Safety Report

Introduction

Southwest Wisconsin Technical College (Southwest Tech) has a proud history of providing a safe learning environment for its students. The safety of our students and staff is important to us. A wide variety of policies and procedures have been developed over the years to ensure the health and safety of students, employees, and visitors to the campus. In addition, numerous federal and state laws have been adopted in regard to student and employee safety. The Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act requires that specific policies, procedures, and information be provided to ensure the health and safety of persons concerned with campus life.

In addition, the Campus Sexual Violence Elimination Act (SaVE Act) was passed in March 2013, as part of the Violence Against Women Reauthorization Act (VAWA). Southwest Tech is committed to complying with the amendments and additions encompassed under the Campus SaVE Act.

Southwest Tech's Compliance Officer prepares this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act for the period from January 1, 2022, to December 31, 2022. This report is prepared in cooperation with the local law enforcement agencies within the jurisdiction of the Southwest Tech campus. Each entity provides updated information on their educational efforts and programs to comply with the Act.

Each year, a notification is distributed to all enrolled students and employees via email, portals, or in-person. The notification is accessible to all enrolled students and staff.

Questions regarding this report or a copy of this report may be obtained from the Compliance Officer located in room 468 or by calling (608) 822- 2768.

Annual Equal Opportunity/Affirmative Action Notice

Southwest Wisconsin Technical College maintains fair and impartial relations with employees and applicants for employment, and students and student applicants in any service, program, activity, course, or use of facilities on the basis of sex, age, race, color, creed, religion, national origin, disability, ancestry, political affiliation, marital status, pregnancy, sexual orientation, gender identity, parental status, arrest record, conviction record, genetic testing, and the use and non-use of lawful products off the premises during nonworking hours, and membership in National Guard, State Defense Force, or other military forces of the United States. Lack of English reading/speaking skills will not be a barrier to admission and participation in district programs.

Southwest Wisconsin Technical College 2023 Annual Security & Fire Safety Report

About Southwest Wisconsin Technical College

Southwest Wisconsin Technical College is one of 16 technical college districts that operate within Wisconsin in a statewide plan for vocational, technical and adult education. The Southwest Tech District covers a predominately rural area of 8,000 square miles in southwest Wisconsin, comprised of Grant, Crawford, Iowa, Lafayette, and Richland counties and portions of Green, Sauk, Dane and Vernon counties. The District covers an estimated population base of over 125,000 people. Thirty (30) K-12 school districts are located within the Southwest Tech District borders.

Non-campus Reporting

Southwest Tech is unable to monitor or provide security services to students and staff while off campus. Criminal activity and law enforcement services to student and staff off campus are provided by the local police departments when violations of federal, state or local laws surface. This cooperative team approach addresses situations as they arise as well as future concerns to the students, staff and community.

Southwest Tech does not have officially recognized student organizations that own or control housing facilities outside of the Southwest Tech core campus. Therefore, the local police department is not used to monitor and record criminal activity since there are no non-campus locations of student organizations.

College Access and Control

Southwest Tech uses a card access locking system as well as key system comprised of on-line and off-line locks. This allows greater access control throughout the campus and allows a faster response when an access card is lost, misplaced or stolen. All access cards and keys are property of Southwest Tech and must be returned upon request of the proper authority.

During normal business hours, Southwest Tech will be open to students, parents, employees, contractors and to the general public. During non-business hours, access to College facilities will only be given to those staff required to be present after-hours as part of their regularly scheduled job duties (i.e. Public Safety, Information Technology, Facilities, Athletics, College-Sponsored Events, etc). Anyone desiring access to the College during non-business hours who has not already been granted building access by the proper authority to do so should contact the Executive Director of Facilities, Safety and Security for further information and assistance.

Buildings and facilities are checked for any potential security related issues such as malfunctioning locks or burned-out lights, which are promptly reported to facilities management for repair. Facilities, Security, and Information Technology Services staff also monitor a closed-circuit security camera system for things such as unauthorized access to campus buildings, personal safety of staff, faculty and students, and protection of property.

Southwest Wisconsin Technical College 2023 Annual Security & Fire Safety Report

Southwest Wisconsin Technical College and the Southwest Wisconsin Technical College Real-Estate Foundation (REF) have a memorandum of understanding authorizing the college to manage REF-owned student housing. Therefore, each housing unit is key code accessed and monitored by the campus student security officer, security coordinator, and student resident advisors.

Campus Law Enforcement Policies

Southwest Tech does not have on-campus law enforcement; therefore, Southwest Tech does not have the authority to make arrests and relies on the local and state police for criminal incidents. The College has entered into a Memorandum of Understanding (MOU) with the City of Fennimore for the 2023-24 academic year to provide a liaison officer on campus for three to five hours each week. The scope of the liaison officer is to interact with employees and students and provide a visible law enforcement presence on campus. The duties may include conducting investigations and taking appropriate enforcement actions, providing resources related to issues on drugs and alcohol, preventing crime and violence as well as personal safety information and instruction, and making appropriate referrals to community agencies.

The Facilities, Safety & Security Office maintains a strong working relationship with state and local police agencies. The Fennimore Police Department incorporates the public property identified in the College's Clery Geography into their regular patrols. The local and state police investigate when criminal activity takes place on campus and in the Student Housing facilities. See the Clery Geography Map below for the patrol area.

Security of Campus

The College has implemented a Student Security Officer program with the Criminal Justice students. Student Security Officers are unarmed and patrol the campus buildings and grounds, including Student Housing, on a rotating schedule. They do not have the authority to make arrests. Student Security Officer tasks include building safety inspection, fire safety inspections (extinguisher, emergency lighting, means of egress), checking/maintaining eye wash stations, medical kit and AED inspections/stocking, developing emergency pre-incident plans, and assisting stakeholders in emergencies.

The College utilizes a security camera system to monitor internal and external activity during business hours and has the ability to go back and view any activity that happened during the nights and weekends. Access to the system is minimal with the Executive Director of Facilities, Safety & Security; Facilities Manager; Safety Coordinator; Executive Director of Information Technology Services; two Network Administrators; and Student Security Officers having access to the system.

Security Awareness & Crime Prevention Programming

One of the essential ingredients of any successful crime prevention program is an informed public. It is the intent of Southwest Tech to inform students and employees on crime prevention and security awareness practices. Southwest Tech's safety programs are designed to encourage students and employees to be responsible for their own security and the security of others.

As part of the Safety & Security department's community-oriented policing philosophy, the Safety & Security Office offers crime prevention presentations each semester to classrooms, campus clubs and student groups as requested. Topics of these presentations include Personal Safety Awareness, "If You See Something Say Something," "Run, Hide, Fight," and "Not Any More." The Safety & Security Office is available to speak in classrooms or groups on security awareness and crime prevention.

During the 2022-23 fiscal year (July 1, 2022 – June 30, 2023) various security awareness and crime prevention programming was offered to employees and students. A summary of the programming is below.

Southwest Wisconsin Technical College 2023 Annual Security & Fire Safety Report

Name of Presentation	Brief Description
Identity Theft: Protect & Prevent	A presentation at in-service for all faculty and staff. The presentation was on identity theft with this description: Identity theft continues to be the fastest growing crime in the United States. The more you learn about it, the less vulnerable you are. The Wisconsin Bureau of Consumer Protection will explain the different types of identity theft, how to recognize it and how to prevent it – including information about Fraud Alerts and Security Freezes. Receive tips for safeguarding personal information and how to recover from Identity Theft.
Cybersecurity Training	To finish, all users need to be vigilant in closely inspecting emails before you click on a link or take action on an email. Remember to look for that external banner the next time Jason asks you to pick up a dozen Apple iTunes cards for him. The same goes for what links we click on when navigating the internet. While we have technologies in place to mitigate some of these instances, they do not block every attack. Humans are normally the weakest link in cybersecurity. We hope to take that weakness and turn it into a strength here at Southwest Tech.
Charger Technology Support Center – Cyber Security Awareness Splash Screen	The splash screen is located in the Charger Technology Support where anyone (employee or student) can view it. The Information Technology staff presents information on IT-related topics including cybersecurity.
Digital Signage on Cyber Security Awareness Month	The campus-wide splash screens are in each building throughout the campus. Students, employees, and visitors are made aware of happenings around campus, promotions, and important topics focused on education and awareness for stakeholders. Cyber Security Awareness Month was promoted on the campus-wide screens in October 2022.
Education and support pods in collaboration with SWTC IT program	The Information Technology Services staff teams up with the students in the Information Technology programs to educate and support staff and students with IT-related situations, which include cybersecurity.

During the 2022-23 academic year, Southwest Tech offered crime prevention and security awareness programs. Topics such as personal safety, residence hall security, and sexual assault prevention are some examples of programs offered during the prior academic year.

All crime prevention and security awareness programs encourage students and employees to be responsible for their own security and the security of others. Participants in these programs are asked to be alert, security-conscious, and involved and are advised to call the Safety & Security Office to report suspicious behavior. For additional questions regarding crime prevention, contact the department directly at (608) 822-2097.

Southwest Wisconsin Technical College 2023 Annual Security & Fire Safety Report

Daily Crime Log

Southwest Tech maintains a daily crime log. The Safety Coordinator records the entries into the spreadsheet and notifies the Compliance Officer, who prints the Daily Crime Log. A copy of the Daily Crime Log is available at the Main Reception Desk in the College Connection (Building 400).

Maintenance of Campus Facilities

The College maintains a commitment to campus security and safety. The Facilities Department personnel monitor the campus for irregularities and needed repairs or maintenance of facilities, grounds and lighting. Safety and security are major factors in all landscaping and lighting designs. Monthly building inspections are conducted by the Student Security Officers and the Safety Coordinator. Any issues noted with safety or security of campus facilities are forwarded to the Facilities Department.

Southwest Wisconsin Technical College campus facilities are maintained in a manner that minimizes hazardous conditions. Malfunctioning lights and other unsafe physical conditions are reported to Facilities, Safety & Security Office for correction. The Facilities, Safety & Security Office conducts quarterly inspections to ensure upkeep and maintenance of buildings, grounds, parking lots, and Student Housing. Other members of the college community are helpful when they report equipment and facilities problems to Facilities, Safety & Security Office through the campus service ticketing system housed on the intranet.

Behavioral Intervention Team (BIT)

The Southwest Tech Behavioral Intervention Team (BIT) evaluates and addresses student behavior that may be inappropriate or concerning and coordinates college resources to intervene and provide necessary support.

The Behavioral Intervention Team is a cross-functional group of Southwest Tech staff whose mission is to:

- Provide a structured, positive method for addressing student behaviors that impact the college community and may involve mental health and/or safety issues.
- Meet regularly to support students by identifying patterns, trends and disturbances in the behavior of an individual or group.
- Evaluate the nature of a reported behavior or incident to assess the level of risk.
- Determine appropriate course of action to respond to behavioral concern and initiate intervention or response to prevent a situation from escalating.
- Coordinate resources to ensure a comprehensive assessment response.
- Balance the individual needs of the student and those of the greater campus community.

The team is composed of the Executive Director of Facilities, Safety & Security; the Resident Housing Manager; the Director of Student Success, a Student Advisor; and the Student

Health Records Specialist with Counseling available as a resource. Committee members have training in recognition and conflict management of student concerns. The committee addresses concerns using various methods and strategies such as a team approach, one-on-one, or a mandated referral to an outside professional agency. The result is a plan for success and a win-win for both the student and the college with the student's best interest in mind.

An email alert from the Student Alert System (SAS) is submitted to each team member when a behavioral SAS is received. Some alerts are received in person from a concerned person. One of the BIT team members will contact the student the SAS was received for in order to investigate and determine the next step in the process. Most behavioral SAS's are referred to the mental health counselor by the Behavioral Intervention Team. For those that are not referred to the mental health counselor, other referrals are made to internal departments and external agencies.

Weapons on Campus

The use, concealment, creation, manufacturing or possession of weapons, whether functional or not, in College facilities is strictly prohibited, except as expressly permitted hereafter.

Sworn Law Enforcement and On-Duty Military Personnel

A weapon or potentially dangerous device may be used or possessed, concealed or otherwise, on the campus, grounds, facilities or buildings at Southwest Tech by a certified sworn law enforcement officer or on-duty military personnel to the extent they are legally permitted to carry weapons in the State of Wisconsin.

Licensed Concealed Carry

Employees, students, and the public cannot bring their licensed concealed carry weapon into campus buildings even if they have a valid permit. Weapons may be carried and stored in a person's own motor vehicle, even if the vehicle is driven or parked on College property. If weapons are kept in an unattended vehicle, the vehicle must be locked.

Sex Offender Registry

In compliance with the Adam Walsh Child Protection & Safety Act of 2006 (42 U.S.C. 16921) and in accordance with the "Campus Sex Crimes Prevention Act" of 2000, which amends the Jacob Wetterling Crimes against Children and Sexually Violent Offender Registration Act of 2016, the Jeanne Clery Act, and the Family Educational Rights and Privacy Act of 1974, Southwest Wisconsin Technical College is providing a link below to the Wisconsin Department of Corrections Sex Offender Registry.

This act requires institutions of higher education to issue a statement advising the campus community where state law enforcement information concerning registered sex offenders

Southwest Wisconsin Technical College 2023 Annual Security & Fire Safety Report

may be obtained. It also requires registered sex offenders in a state to provide notice to each institution of higher education in the state which the person is employed, carries a vocation, or is a student.

Registry information provided under this section shall be used for the purposes of the administration of criminal justice, screening of current or prospective employees, volunteers or otherwise for the protection of the public in general and children in particular. Unlawful use of the information for purposes of intimidating or harassing another is prohibited and willful violation shall be punishable to the fullest extent of the law.

The Wisconsin Department of Corrections is responsible for maintaining this registry. Follow the link below to access the Wisconsin Department of Corrections Sex Offender Registry Website: <http://offender.doc.state.wi.us/public/>

Emergency Response and Evacuation

Southwest Wisconsin Technical College maintains an Emergency Response Plan that outlines responsibilities of campus units during emergencies. This plan outlines incident priorities, campus organization and specific responsibilities of particular units or positions. A section of the Plan is dedicated to the Student Housing Emergency Response Plan.

The Emergency Response Team is responsible for developing emergency response and continuity of operations plans for the Southwest Tech community. Campus emergency management, under the guidance of the Executive Director of Facilities, Safety & Security, provides resources and guidance for the development of these plans.

The College conducts emergency response drills and exercises each year with the Core Emergency Response Team and the Emergency Response Team. Drills and exercises include tabletop exercises, field exercises and tests of the emergency notification systems on campus. These tests, which may be announced or unannounced, are designed to assess and evaluate the emergency plans and capabilities of the institution. Each test is documented and includes a description of the exercise, the date and time of the exercise, and whether it was announced or unannounced.

The campus publicizes a summary of the emergency response and evacuation procedures via the College Intranet and website and distributes it via College email to staff and students at least once each year in conjunction with a test (exercise and drill) that meets all of the requirements of the Higher Education Opportunity Act (HEOA).

Effective August 14, 2008, the HEOA requires each institution governed by the Jeanne Clery Act to immediately notify the campus community upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students and staff *on campus*. In the event of a serious threat or emergency situation, the

Southwest Wisconsin Technical College 2023 Annual Security & Fire Safety Report

college population will be notified as to their appropriate response through various means. Some or all of our systems may be used such as: electronic communication (i.e., email or text), television and computer monitors, loudspeakers, fire alarm and emergency evacuation maps located throughout the individual sites.

Once there is confirmation of such an event by a member of the Core Emergency Response Team (CERT), the Southwest Tech Emergency Response Plan will be implemented. This plan includes written emergency procedures to be followed for foreseeable emergency situations, designates Incident Commanders, procedures for timely notification to students and staff, and a process for accurately reporting incident details to both internal and external resources. The Southwest Tech Incident Commander will determine the appropriate means of message dissemination in the swiftest manner available. If in the professional judgment of the responsible authorities, activating the notification system may compromise any efforts to mitigate the event or assist victims, notification may be delayed or not issued. Southwest Tech' Public Information Officer will, without delay and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the judgment of the first responders (including, but not limited to, Safety and Security Department, local police department, and/or the local fire and emergency medical services), hinder the efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

While it is impossible to predict every significant emergency or dangerous situation that may occur on campus, the following identified situations are examples which may warrant a timely warning or emergency notification after confirmation: armed/hostile intruder; bomb/explosives (threat); communicable disease outbreak; severe weather; terrorist incident; civil unrest; natural disaster; hazardous materials incident and a structural fire. In the event of an emergency, Southwest Tech will initiate and provide, without delay, immediate emergency notifications to the appropriate segment(s) of the College community upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students, employees, and visitors.

Southwest Tech's process to notify the campus community in cases of emergency starts with the Emergency Response Team Incident Commander confirming there is an emergency in conjunction with campus administrators, local first responders, and/or the national weather center. If the Incident Commander, in conjunction with other College administrators, local first responders, and/or the National Weather Service confirms there is an emergency or dangerous situation that poses an immediate threat to the health or safety of some or all members of the Southwest Tech Community, the Incident Commander and Public Information Officer will collaborate to determine the content of the message and will use some or all of the systems described below to communicate the threat to the Southwest Tech community or to the appropriate segment of the community, if the threat is limited to a particular building or segment of the population.

The Incident Commander and the Public Information Officer will collaborate on the message. The content of the message will vary depending on the situation. At a minimum, the messages will describe the emergency, provide basic instructions to the community, and will direct them to where they can receive additional information. Follow-up information will be distributed using the public address system and email notification.

The local news media may be utilized to disseminate emergency information to members of the larger community, including neighbors, parents and other interested parties. The larger community can also access emergency information via the Southwest Tech website and/or social media. Empathia, a crisis management service, will be used in the event of a major incident.

Southwest Wisconsin Technical College

2023 Annual Security & Fire Safety Report

The emergency evacuation procedures are tested at least twice each year, once each semester. Members from the Core Emergency Response Team and Emergency Response Team conduct the evacuation drills once each semester. The emergency notification systems are activated and all employees and students are expected to participate in the drill. During the tests, students and employees learn the locations of the emergency exits in the buildings and are provided guidance about the direction they should travel when exiting each facility for a short-term building evacuation. Building occupants are not notified in advance about the designated locations for long-term evacuations because those decisions are affected by time of day, location of the building being evacuated, the availability of the various designated emergency gathering locations on campus, and other factors such as the location and nature of the threat. In both cases, Safety & Security Office staff on the scene will communicate information to students regarding the developing situation or any evacuation status changes.

Two fire evacuation drills are annually conducted for the Southwest Tech Real-Estate Foundation Student Housing students. The Resident Life Manager, Safety Coordinator, and Facilities Manager conduct fire drills once each semester. All apartment units within each building have interconnected fire detection devices that are randomly activated during these drills. Students receive a notice at the time of the drill through the RAVE emergency notification system used by the college for emergency notifications. The students and Resident Life Manager, Safety Coordinator, and Facilities Manager meet in a designated spot on the Student Housing residential grounds and discuss safety measures in the event of an actual fire. The Student Housing Emergency Response Plan is a part of each apartment's handbook. In addition, there is an evacuation poster on the back of each apartment door for students to familiarize themselves with the evacuation plan.

The purpose of evacuation drills is to prepare building occupants for an organized evacuation in case of a fire or other emergency. Evacuation drills are used as a way to educate and train occupants on fire safety issues specific to their building. The occupants 'practice' drill procedures and familiarize themselves with the location of exits and the sound of the fire alarm.

The following procedures are used in evacuation instances:

Campus Evacuation and Housing Shelter in Place

All students and employees will be notified via Mitel Mass Notification System of the campus evacuation and should return to their residence, shelter in place and await further instructions.

- Keep everyone in the residence
- Lock the door(s),
- Close blinds or pull shades.
- Stay out of the hallway.

Campus and Housing Evacuation

All students and employees will be notified via Mitel Mass Notification System of campus and housing evacuation and the plan of action to evacuate.

Southwest Wisconsin Technical College 2023 Annual Security & Fire Safety Report

When housing is evacuated tenants may use their own transportation to immediately leave campus and may not return until notified. Tenants without transportation should report immediately to the Auto/Ag Building 1700 Walk through Area.

Anytime exiting the building is not an option students and employees should:

- Keep everyone in the residence
 - Turn off lights.
 - Lock and barricade the door(s), if possible.
 - Close blinds or pull shades, cover windows.
 - Move out of sight from the hallway and onto the floor.
 - Be prepared to defend yourself using any means necessary.
 - If needed, administer first aid until medical assistance arrives.
- Be sure to use personal protective equipment (PPE) whenever possible.**

Housing Only Evacuation

All tenants will be notified via Mitel Mass Notification System of housing evacuation and the plan of action to evacuate.

When housing is evacuated tenants may use their own transportation to immediately leave housing and may not return until notified. Tenants without transportation should report immediately to the Ag/Auto Building 1700 Walkthrough Area. (see Exhibit C map)

Notification of Emergencies

Southwest Wisconsin Technical College utilizes Timely Warnings and Emergency Notifications and Safety Alerts to protect our students, employees, visitors, and the public, if necessary, and make them aware of a security issue or an emergent situation on campus. The college will immediately notify the campus community upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on campus unless issuing a notification will, in the professional judgement of the Incident Commander and Public Information Officer, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. To reach as many people as possible, the notification of emergencies, either a Timely Warning or an Emergency Notification, will be distributed across many different media channels. Immediate issues will be distributed via a Mitel Mass Notification and/or RAVE alert and around the Southwest Wisconsin Technical College area. Follow-up warnings may be shared using any or all of the following methods: posted on exterior doors of any affected Southwest Tech location and on the Southwest Tech website, electronically mailed, provided using text messages, posted on digital signage, and media reports released to local radio and TV stations for mass broadcast.

2023 Annual Security & Fire Safety Report

Timely Warning

In compliance with the Jeanne Clery Act, for any incident on campus, in or on non-campus buildings or property, and on public property adjacent to property owned or controlled by the college that is ongoing or a continuing serious threat to the students, employees, or visitors, a timely warning will be issued. This warning will be at the discretion of the Incident Commander or the President of the College or their designee, and will be distributed to students, staff, or visitors as soon as possible after the incident is reported. The warning will provide information that will aid in the prevention of similar occurrences, while withholding the names of victims as confidential. Such reports will be limited to not compromise an ongoing investigation or violate any HIPAA or FERPA Laws.

Timely Warnings are typically issued for the following Uniform Crime Reporting Program (UCR)/National Incident Based Reporting System (NIBRS) crime classifications:

- Murder/Non-Negligent Manslaughter
- Aggravated Assault (cases involving assaults among known parties, such as two roommates fighting which results in an aggravated injury, will be evaluated on a case-by-case basis to determine if the individual is believed to be an ongoing threat to the larger Southwest Tech community)
- Robbery involving force or violence (cases including pick pocketing and purse snatching will typically not result in the issuance of a Timely Warning Notice, but will be assessed on a case-by-case basis)
- Sexual Assault (considered on a case-by-case basis depending on the facts of the case, when and where the incident occurred, when it was reported, and the amount of information known by the Title IX Coordinator and Deputy Coordinators, or designee). In cases involving sexual assault, they are often reported long after the incident occurred, thus there is no ability to distribute a “timely” warning notice to the community. All cases of sexual assault, including stranger and non- stranger/acquaintance cases, will be assessed for potential issuance of a Timely Warning Notice.
- Major incidents of Arson
- Other Clery crimes as determined necessary by the Executive Director of Facilities, Safety and Security or his or her designee in his or her absence.

Timely Warning Notices may also be posted for other crime classifications and locations, even though that is not required by the law, at the sole discretion of Southwest Tech. Timely Warning Notices are typically written and distributed by the Public Information Officer or Back-up Public Information Officer using the methods identified under Notification of Emergencies.

Please note that the College is not required to issue a Timely Warning with respect to crimes reported to a pastoral or professional counselor.

Emergency Notifications

Emergency Notifications are distributed when there is an immediate on-campus threat to the health or safety of students, employees, visitors, or the public for situations that are currently occurring on or imminently threatening the campus. The Emergency Notification may be sent

Southwest Wisconsin Technical College

2023 Annual Security & Fire Safety Report

to all stakeholders or it may be segmented to only a part of the campus community, if appropriate.

The types of incidents that may cause an immediate threat to the community (and therefore require an emergency notification) could include, but are not limited to:

- An active shooter on campus
- Hostage/barricade situation
- A riot
- Suspicious package with confirmation of a device
- A tornado/earthquake
- A fire/explosion
- Suspicious death
- Structural damage to a college-owned or controlled facility
- Outbreak of meningitis, norovirus, or other serious illness
- Biological threat (anthrax, etc.)
- Significant flooding
- A gas leak
- Hazardous materials spill, etc.
- Other risk factors, including ones that have been present in the environment for an extended period of time such as asbestos or lead paint

Emergency Notifications may also be posted for other crime classifications and locations, even though that is not required by the law, at the sole discretion of Southwest Tech. They can also be posted for severe storms, chemical spills, disease outbreaks, etc. Emergency Notifications are typically written and distributed by the Public Information Officer or Back-up Public Information Officer using the methods identified under Notification of Emergencies.

Safety Alerts

Safety alerts are issued for weather-related issues, especially during the winter, and potential severe weather and environmental health risks. Safety alerts may be segmented and will use the same notification systems for Timely Warnings or Emergency Notifications

Reporting Criminal Actions or Other Emergencies

All members of the Southwest Tech community and all visitors are encouraged to accurately and promptly report potential criminal activity, suspicious behavior, and any emergencies on campus to Safety & Security by calling 608-822-2097 or by clicking on the [Report a\(n\) Concern/Incident link](#) on the bottom of each webpage on the website.

Reporting to Meet Disclosure Requirements

Students and employees should report criminal offenses to the President's Office or Title IX Coordinator and Deputy Coordinators for the purpose of assessing the crime for potential distribution of a timely warning notice and the annual statistical disclosure.

Southwest Wisconsin Technical College

2023 Annual Security & Fire Safety Report

Members of the Southwest Tech community are encouraged to accurately and promptly report crime and emergencies to the Safety & Security Office at 608-822-2097, including when the victim of a crime elects to, or is unable to, make such a report.

Southwest Tech does not have any noncampus locations of student organizations officially recognized by the College and does not require local police agencies to report criminal activities for this purpose. For noncampus facilities owned or controlled by the College, local police agencies due report criminal activities.

Response to a Report

In response to a report, the Safety & Security Office, 608.822.2097, will take the required action, either dispatching a responder or asking the victim to report to the Safety & Security Office to file an incident report. All reported crimes will be investigated by the College and may become a matter of public record. The Safety & Security Office personnel reviews incident reports for potential action, as appropriate. Safety & Security Office Investigators will investigate a report when it is deemed appropriate. If assistance is required from the Fennimore Police Department or the Fennimore Fire Department, the Safety & Security Office will contact the appropriate unit.

Voluntary Confidential Reporting

If you are the victim of a crime and do not want to pursue action within the College system or the criminal justice system, you may still want to consider making a confidential report. With your permission, a Title IX Coordinator or Deputy Coordinator can file a report on the details of the incident without revealing your identity (except to the Title IX Coordinator in the event of a reported sex offense or sexual harassment). The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to enhance the future safety of yourself and others. With such information, Southwest Tech can keep an accurate record of the number of incidents involving students, employees and visitors; determine where there is a pattern of crime with regard to a particular location, method, or assailant; and alert the campus community to potential danger. Reports filed in this manner are counted and disclosed in the annual crime statistics for the institution.

Professional Counselors

Campus "Professional Counselors," when acting as such, are not considered to be a campus security authority for Clery Act purposes and are **not** required to report crimes for inclusion in the annual disclosure of crime statistics. As a matter of policy, the professional counselors at Southwest Tech are encouraged, if and when they deem it appropriate, to inform persons being counseled of the procedures to report crimes on a voluntary confidential basis to the Safety & Security Office.

Professional Counselor - An employee of an institution whose official responsibilities include providing psychological counseling to members of the institution's community and who is

functioning within the scope of his or her license or certification.

Southwest Tech employs a Mental Health Counselor, whose duties align with that of a professional counselor. Southwest Tech does not employ any pastoral counselors.

Please note that reports of sexual violence and other violations that may be sex- or gender-based will be reported to the Title IX Coordinator and cannot be held in confidence.

Drug and Alcohol Policy

Southwest Tech prohibits the unlawful possession, use, and sale of alcoholic beverages and illegal drugs on campus and is committed to maintaining an alcohol and drug-free learning and work environment for students, faculty, staff, and visitors. An alcohol and drug-free campus provides for a safe and healthy campus and workplace for all. This policy applies to students, employees, and the public on Southwest Tech's owned and leased property, including housing, owned, leased, or controlled by the College, Foundation or Real Estate Foundation, and, at College-sponsored activities and events. This policy also applies to College-sponsored off-campus activities and locations wherever held. The provisions of this policy are intended to comply with applicable state and federal laws including, but not limited to: the Drug Free Schools and Communities Act Amendment of 1989; the Drugfree Workplace Act of 1988; the Americans with Disabilities Act of 1990; the 1989 Wisconsin Act 121; and the Uniform Controlled Substances Act, Wisconsin Statutes Chapter 161.

Employees, students, and campus guests, regardless of age, are expected to refrain from the use of alcohol and use of drugs, other controlled substances, and/or related paraphernalia, including hookahs, on Southwest Tech-owned or leased premises including Foundation and Real Estate Foundation-owned or leased premises or at College-sponsored/supported events, while driving a College vehicle or while otherwise engaged in College business. The only exception is if alcohol is served as part of an event listed under the Allowable Use of Alcohol and Other Drugs section of the college's Alcohol & Other Drugs policy. Employees must follow the requirements related to alcohol, drugs, and controlled substances in the Employee Handbook. Students must also follow the requirements related to alcohol, drugs, and controlled substances in the Student Code of Conduct and Student Handbook. In addition, housing students must follow the requirements related to alcohol, drugs, and controlled substances in the Student Housing Lease and the Student Housing Handbook.

The College has established a [Drug & Alcohol Awareness Prevention Program](#) for all employees and students. This program includes distribution of its policies, sanctions for violations, health risks associated with alcohol and other drug use, and resources available to students and employees.

Local law enforcement is responsible for the enforcement of state underage drinking laws. Students who violate federal and state underage drinking laws are referred to Student Conduct for review and sanctions.

All students are encouraged to seek help early if they feel they have a problem with drugs

and/or alcohol and to learn how to assist others with substance abuse problems. Students have access to the Southwest Tech's Mental Health Counselor for assessment and/or intervention referral for alcohol and other drugs.

Employees who violate the Alcohol & Other Drug Policy are subject to the progressive discipline process administered by the Human Resources Office. Employees with alcohol or drug abuse problems are strongly encouraged to seek help. Alcohol and drug abuse rehabilitation and assistance programs are available through the College's health benefits program and through the College Employee Assistance Program. Employees may contact the Human Resources Office to seek assistance and/or referral to an appropriate outside agency. Employees are encouraged to use the College Employee Assistance Program for assessment and/or intervention referral.

Missing Student Notification

In accordance with the Higher Education Opportunity Act, Southwest Tech developed and implemented procedures to be followed when residential students are determined to be missing for 24 hours. Students residing in campus housing will be informed annually that each student has the option to identify a person(s) designated as a confidential missing person contact to be notified by Southwest Tech no later than 24 hours after the time the student is determined to be missing by the designated College official authorized to make that determination (specifically, the Resident Life Manager) or the local law enforcement agency in which the student went missing. When students are informed of their option to provide a confidential contact, they are advised that their contact information will be registered confidentially, and this information will be accessible only to authorized campus officials and law enforcement and it may not be disclosed outside of a missing person investigation.

The Resident Life Manager or designee will notify any missing student's confidential contact(s), if provided, within 24 hours of the determination that the student is missing. In the event a student under 18 years of age and not emancipated, Southwest Tech must notify a custodial parent or guardian within 24 hours of the determination that the student is missing, in addition to notifying any confidential contact person designated by the student. For all missing students, the Safety & Security Office will notify the local law enforcement agency within 24 hours of the determination that the student is missing, unless the local law enforcement agency was the entity that made the determination the student is missing.

Suspected missing students who live in student housing should be reported immediately to the Resident Life Manager. If members of the Southwest Tech community believe that a student has been missing for 24 hours or are missing based on other evidence, it is critical that they report that information to Resident Life Manager by calling 608-822-2366. Should the Resident Life Manager or designee investigate and determine that a residential student is missing, contact will then be made to the missing person's contact, if contact information has been provided, within twenty-four (24) hours of the determination that the student is missing by the Resident Life Manager. If the student is under the age of 18 and is not an emancipated individual, the Resident Life Manager will notify the student's parents or guardian and any other designated contact person within 24 hours. Regardless of whether the student has

Southwest Wisconsin Technical College 2023 Annual Security & Fire Safety Report

identified a contact person, is above the age of 18, or is an emancipated minor, The Safety & Security Office personnel will inform the Fennimore Police Department (or the local law enforcement with jurisdiction) that the student is missing within 24 hours.

A person compelled to engage in sexual contact by force, threat of force, or coercion has not consented to contact.

Southwest Tech uses the college's definition of consent in investigating alleged sexual misconduct and in determining sanctions against students and employees.

How to Be an Active Bystander

Bystanders play a critical role in the prevention of sexual and relationship violence. They are “individuals who observe violence or witness the conditions that perpetuate violence. They are not directly involved but have the choice to intervene, speak up, or do something about it.”¹ We want to promote a culture of community accountability where bystanders are actively engaged in the prevention of violence without causing further harm. We may not always know what to do even if we want to help. Based on Hollaback!'s 5Ds², the following will aid you in being an active bystander. If you or someone else is in immediate danger, **dial 911**. This could be when a person is yelling at or being physically abusive towards another and it is not safe for you to interrupt.

¹ Burn, S.M. (2009). A situational model of sexual assault prevention through bystander intervention. *Sex Roles, 60*, 779-792.

² Bystander intervention resources from the American Psychological Association.

Hollaback!'s 5D's

Distract

Distraction is a subtle and creative way to intervene. Derail the situation by interrupting it.

- Ignore the harasser and engage directly with the person who is being targeted. Don't talk about or refer to the harassment.
- Instead, talk about something completely unrelated. Read the situation and choose your distraction method accordingly.

The person who is being targeted will likely catch on, and hopefully your act or statement will de-escalate the situation.

Delegate

Delegation is when you ask for assistance, a resource, or for help from a third party.

- Find another person and ask them to intervene or intervene together.

Southwest Wisconsin Technical College

2023 Annual Security & Fire Safety Report

- Work together with a friend to distract the person being targeted while you find someone with more authority to delegate to.
- Call 911. Before contacting 911, use Distract to check in with the person being targeted to make sure they want you to do this. Some people may not be comfortable or feel safe with the intervention of law enforcement.

Document

It can be really helpful to record an incident as it happens to someone; however, there are a number of things to keep in mind to safely and responsibly document harassment.

- Assess the situation. Is anyone helping the targeted person? If not, use one of the other four D's to engage someone else to help out.
- ALWAYS ask the targeted person what they want to do with the recording. NEVER post it online or use it without their permission.

Delay

Even if you can't act in the moment, you can make a difference for the targeted person by checking in on them after the fact.

- Ask them if they're okay and tell them you're sorry that happened to them.
- Ask them if there's any way you can support them.
- Offer to accompany them to their destination or sit with them for awhile.
- Share resources with them and offer to help them make a report if they want to.
- If you've documented the incident, ask them if they want you to send it to them.

Direct

You may want to directly respond to a situation by naming what is happening or confronting the harasser. This tactic may be risky; the harasser may redirect their abuse towards you and may escalate the situation. Before you decide to respond directly, assess the situation to make sure you and the other victim are physically safe and the victim wants you to speak up. If you choose to directly intervene, some things you can say are:

- That's inappropriate, disrespectful, not okay, etc.
- Leave them alone.
- We don't do that here.

Keep it short and succinct. Try not to engage in dialogue, debate, or an argument to avoid escalation of the situation. Try your best to assist the person who was targeted instead of engaging the harasser. Direct intervention can be risky, so use this tactic with caution.

Risk Reduction

With no intent to victim blame and recognizing that only abusers are responsible for their abuse, the following are some strategies to reduce one's risk of sexual assault or harassment (taken from Rape, Abuse, & Incest National Network, www.rainn.org)

- a. **Be aware** of your surroundings. Knowing where you are and who is around you may help you to find a way to get out of a bad situation.

Southwest Wisconsin Technical College

2023 Annual Security & Fire Safety Report

- b. Try to **avoid isolated areas**. It is more difficult to get help if no one is around.
- c. **Walk with purpose**. Even if you don't know where you are going, act like you do.
- d. **Trust your instincts**. If a situation or location feels unsafe or uncomfortable, it probably isn't the best place to be.
- e. **Try not to load yourself down** with packages or bags as this can make you appear more vulnerable.
- f. **Make sure your cell phone is with you** and charged and that you have cash money.
- g. **Don't allow yourself to be isolated** with someone you don't trust or someone you don't know.
- h. **Avoid putting music headphones in both ears** so that you can be more aware of your surroundings, especially if you are walking alone.
- i. **When you go to a social gathering, go with a group of friends**. Arrive together, check in with each other throughout the evening, and leave together. Knowing where you are and who is around you may help you to find a way out of a bad situation.
- j. **Trust your instincts**. If you feel unsafe in any situation, go with your gut. If you see something suspicious, contact law enforcement immediately (local authorities can be reached by calling 911 in most areas of the U.S.).
- k. **Don't leave your drink unattended** while talking, dancing, using the restroom, or making a phone call. If you've left your drink alone, just get a new one.
- l. **Don't accept drinks from people you don't know or trust**. If you choose to accept a drink, go with the person to the bar to order it, watch it being poured, and carry it yourself. At parties, don't drink from the punch bowls or other large, common open containers.
- m. **Watch out for your friends, and vice versa**. If a friend seems out of it, is way too intoxicated for the amount of alcohol they've had, or is acting out of character, get him or her to a safe place immediately.
- n. **If you suspect you or a friend has been drugged, contact law enforcement immediately (local authorities can be reached by calling 911 in most areas of the U.S.)**. Be explicit with doctors so they can give you the correct tests (you will need a urine test and possibly others).
- o. If you need to get out of an uncomfortable or scary situation here are some things that you can try:
 - i. **Remember that being in this situation is not your fault**. You did not do anything wrong, it is the person who is making you uncomfortable that is to blame.
 - ii. **Be true to yourself**. Don't feel obligated to do anything you don't want to do. "I don't want to" is always a good enough reason. Do what feels right to you and what you are comfortable with.
 - iii. **Have a code word with your friends or family** so that if you don't feel comfortable you can call them and communicate your discomfort without the person you are with knowing. Your friends or family can then come to

Southwest Wisconsin Technical College 2023 Annual Security & Fire Safety Report

- get you or make up an excuse for you to leave.
- iv. **Lie.** If you don't want to hurt the person's feelings it is better to lie and make up a reason to leave than to stay and be uncomfortable, scared, or worse. Some excuses you could use are: needing to take care of a friend or family member, not feeling well, having somewhere else that you need to be, etc.
 - p. **Try to think of an escape route.** How would you try to get out of the room? Where are the doors? Windows? Are there people around who might be able to help you? Is there an emergency phone nearby?
 - q. **If you and/or the other person have been drinking,** you can say that you would rather wait until you both have your full judgment before doing anything you may regret later.

Procedures Victims Should Follow if a Crime of Domestic Violence, Dating Violence, Sexual Assault and Stalking Occurs

After an incident of sexual assault, dating violence or domestic violence, the victim should consider seeking medical attention as soon as possible at (Grant Regional Medical Center, Lancaster, Wisconsin, or hospital of choice). In Wisconsin, evidence may be collected even if you chose not to make a report to law enforcement. It is important that a victim of sexual assault not bathe, douche, smoke, change clothing or clean the bed/linen/area where they were assaulted if the offense occurred within the past 96 hours so that evidence may be preserved that may assist in proving that the alleged criminal offense occurred/or is occurring or may be helpful in obtaining a protection order. In circumstances of sexual assault, if victims do not opt for forensic evidence collection, health care providers can still treat injuries and take steps to address concerns of pregnancy and/or sexually transmitted infections. Victims of sexual assault, domestic violence, stalking, and dating violence are encouraged to also preserve evidence by saving text messages, instant messages, social networking pages, other communications, and keeping pictures, logs or other copies of documents, if they have any, that would be useful to College adjudicators/investigators or police.

As time passes, evidence may dissipate or become lost or unavailable, thereby making investigation, possible prosecution, disciplinary proceedings, or obtaining protection from abuse orders related to the incident more difficult. If a victim chooses not to make a complaint regarding an incident, he or she nevertheless should consider speaking with the Campus Safety Coordinator or law enforcement to preserve evidence in the event that the victim decides to report the incident to law enforcement or the College at a later date to assist in proving the alleged criminal offense occurred or that may be helpful in obtaining a protection order.

Involvement of Law Enforcement and Campus Authorities

Although the College strongly encourages all members of its community to report violations of this policy to law enforcement, it is the victim's choice whether or not to make such a report. Furthermore, victims have the right to decline to notify law enforcement. However, the College will assist any victim with notifying law enforcement if the victim so desires.

Fennimore Police Department may also be reached directly by calling (608) 822-3215, in person at 860 Lincoln Ave, Fennimore WI. Additional information about the Fennimore Police department may be found online at: <https://www.fennimore.com/city-government/police-department/> .

6. Before and after giving testimony, witnesses may be excluded from the room or building where the hearing occurs.

Student Code of Conduct

Southwest Wisconsin Technical College (College) promotes a learning-centered environment dedicated to the advancement of personal growth and knowledge. The College believes every student has the right to pursue an education in a community that values respect, integrity, and inclusivity. To this end, the College prohibits conduct on its campus and in its student housing, which impedes learning, disrupts a peaceful campus environment, and does not promote a cohesive culture based on professionalism, fairness, and trust.

The Student Code of Conduct (Code) sets forth the rights and responsibilities of students at the College, outlines the process for addressing unacceptable behavior, and identifies a range of disciplinary consequences. The Code is designed to provide students with due process and procedural fairness, to ensure equal protection for all students, and to ensure consistency in the process and the consequences. At the same time, the Code reflects the need to consider the individual circumstances of each student, including prior disciplinary history. Further, when possible, the Code is intended to provide students an opportunity to align their conduct with the expectations of the College.

In general, matters involving behavioral misconduct will be addressed first by the Chief Student Services Officer, Executive Director of Safety, Security and Facilities, and/or Director of Student Success, and matters involving academic misconduct will be addressed by the Chief Academic Officer. No matter the process implemented for each matter, final authority over all matters of student misconduct remains under the authority of the President of the College.

Jurisdiction

The Code applies to students (and their guests) and employees on property owned, leased, or controlled by the College, Foundation or Real Estate Foundation, at College-sponsored activities and events, and in College housing. This Code may apply to off-campus activities and locations when conduct has an actual or potential adverse

The Code applies to conduct that occurs in-person, in writing, via cellphone, and online via email or other electronic mediums including blogs, web postings, chats, and social networking sites.

Finally, the Code applies to all students enrolled in credit and non-credit courses.

Due Process

Students alleged to have violated the Code are entitled to the following due process:

- Opportunity to respond to the allegations and participate in the adjudicatory process, including the right to provide relevant information and witnesses; and

Behavioral Misconduct Procedure & Sanctions

Any member of the College community may report a violation of the Code. Individuals who report a violation are referred to as “complainants” and individuals alleged to have violated the code are referred to as “respondents.” Reports should be made using the reporting form on the college website or reported directly to the Chief Student Services Officer. Reports should be sent as soon as possible following the alleged conduct to ensure timely investigation. All reports of behavioral misconduct made to other College employees will be referred to the Chief Student Services Officer or designee.

Complaints of behavioral misconduct will be addressed through the procedures set forth below. Complaints of sexual harassment under Title IX of the Education Amendments of 1972 will be addressed under the College’s [Title IX Prohibition of Sexual Harassment](https://www.swtc.edu/uploadedpdfs/about/policies/Title-IX-Prohibition-of-Sexual-Harassment-2022.pdf) policy at: <https://www.swtc.edu/uploadedpdfs/about/policies/Title-IX-Prohibition-of-Sexual-Harassment-2022.pdf>.

Generally, the process for addressing reports of behavioral misconduct will be completed within thirty (30) business days although the College reserves the right to extend the timeline when necessary to complete an investigation.

Note: When the severity of the circumstances warrants, the Chief Student Services Officer; Executive Director of Facilities, Safety, & Security; Director of Student Success; Vice President of Administrative Services; Chief Human Resources Officer; and/or President may impose upon the respondent a temporary suspension or separation from the College, including classes and College housing.

Step 1:

Notification of Incident

- Upon receipt of a report, the Chief Student Services Officer or designee will determine if the report alleges a violation of the Code. If so, the Chief Student

Southwest Wisconsin Technical College

2023 Annual Security & Fire Safety Report

Services Officer will designate assigned College officials to take the following steps:

- Contact law enforcement, if appropriate.
- Meet with the complainant to understand the nature of the report and offer supportive services.
- Gather other relevant information, if necessary.
- Report to the Chief Student Services Officer who will determine whether to initiate an informal or formal resolution process.
- Provide written notice to the respondent and complainant of the allegations in the report and inform them whether the College will initiate a formal or informal resolution process.

Informal Resolution

- When both a complainant and respondent agree to informal resolution and an informal resolution process is warranted, the Chief Student Services Officer will conduct the informal resolution process.
- During the process, the respondent will be given the opportunity to respond and provide information relevant to the allegations in the report.
- If needed, the Chief Student Services Officer will seek additional relevant information from the complainant or other witnesses.
- Following completion of the informal resolution process, the Chief Student Services Officer will notify the complainant and respondent (if appropriate) of the outcome.
- Matters resolved through informal resolution often involve sanctions such as:
 - Service requirements
 - Restitution
 - Loss of privileges
 - Education Requirements

Step 2:

Notification & Investigation

- If a formal resolution process is warranted, the Executive Director of Safety, Security and Facilities, and/or Director of Public Safety and Advising will take the following steps:
 - Conduct a thorough investigation which includes the following:
 - Interview complainant, respondent, relevant witnesses, and College officials, if appropriate.
 - Review relevant documents including: student records, disciplinary records, police reports, and audio and video recordings.
 - Review College policies and procedures.
 - After gathering all relevant information, meet with the respondent, share the information obtained, and provide respondent an opportunity to respond to the information.
 - If needed, conduct additional interviews or gather additional information.

Step 3:

Findings & Sanctions

Southwest Wisconsin Technical College

2023 Annual Security & Fire Safety Report

- Upon completion of the investigation, the Chief Student Services Officer will review the evidence and make findings based on a preponderance of evidence standard (whether a violation is more likely than not).
- Based on the findings, the Chief Student Services Officer will determine appropriate sanctions, in conjunction with other college officials when appropriate.
 - The respondent will be notified in writing, delivered by email, mail or in person, of the findings and disciplinary sanctions (Decision).
- The Chief Student Services Officer is given broad authority to determine sanctions, based on the best interest of the respondent, complainant, other individuals, and the College. Discipline may include one or more sanctions listed below. All Decisions regarding behavioral misconduct will be maintained by the College in accordance with state and federal law.

Sanctions for Behavioral Misconduct

During the suspension period, the student is banned from property owned, leased, or controlled by the College, Foundation or

2023 Annual Security & Fire Safety Report

Real Estate Foundation, including student housing and is banned from school-sponsored events and activities. The sanction may be enforced with a trespass action as necessary. Students suspended for disciplinary reasons are not entitled to any refund of tuition or housing fees.

12. *Housing Suspension* - Separation from the student housing area for a specific period of time, after which the student may be eligible to return. During the suspension period, the student is banned from student housing. The sanction may be enforced with a trespass action as necessary. The student is banned from property owned, leased, or controlled by the College, Foundation or Real Estate Foundation, including student housing, and at College-sponsored events. This sanction may be enforced with a trespass action as necessary. Students that are expelled for disciplinary reasons are not entitled to any refund of tuition or housing fees.
14. *Housing Expulsion* - Permanent removal of the student from student housing. The sanction will most likely result in a permanent ban from all student housing properties. Students dismissed from student housing for disciplinary reasons are not entitled to any refund of housing fees.
15. *Academic Removal* - Removal of student from an academic course ("W" grade shown on transcript).
16. *Confiscation of Prohibited Property* – Confiscation of illegal or prohibited items for specified period of time. Any controlled substances, including alcohol, will be discarded or turned over to law enforcement.

Seeking an Appeal

- Within five (5) business days of the date of the Decision, the respondent may request an appeal, in writing, on the following basis:
- To consider new evidence, unavailable or not considered during the original investigation which may substantially impact the original finding or sanction. A summary of this new evidence and its potential impact must be included with the appeal request.
- A procedural or substantive error occurred that significantly impacted the outcome of the Decision. The specific error(s) alleged to have occurred must be identified in the appeal request.
- The sanctions imposed are substantially outside the guidelines set by the College for this type of offense or the cumulative conduct record of the responding student.
- Written appeals based on new evidence should be submitted to the Chief Student Services Officer.
- Written appeals based on procedural error or disproportionate sanctions should be submitted to the Chief Academic Officer
- If an appeal is not timely or warranted under these procedures, the Decision will be final.

Southwest Wisconsin Technical College

2023 Annual Security & Fire Safety Report

Step 5:

Appeal

If an appeal is warranted, the appeal process shall commence within fifteen (15) business days after the written appeal request is received by the Chief Student Services Officer or Chief Academic Officer.

See Appeals Panel Guiding principles for further details.

Step 6:

Notification of Appeal outcomes

- The decision of the Chief Student Services Officer (for appeals on the basis of new evidence) or Appeals Panel (for appeals on the basis of a procedural error or disproportionate sanctions) is final.
- Within two (2) business days following a decision by the Chief Student Services Officer or Appeals Panel, the Chief Student Services Officer shall notify the appellant, in writing, of the decision and implement any issued sanctions.

Hate Crimes

Hate crimes are reported according to the category of prejudice. A crime is a hate crime when it manifests evidence that the victim was intentionally selected because of the perpetrator's bias against the victim. Categories of bias include:

- **National Origin Bias**: A preformed negative opinion or attitude toward a group of people based on their actual or perceived country of birth. This bias may be against people that have a name or accent associated with a national origin group, or because they are married to or associate with people of a certain national origin.
- **Race Bias**: A preformed negative opinion or attitude toward a group of persons who possess common physical characteristics (e.g., color of skin, eyes, and/or hair; facial features, etc.) genetically transmitted by descent and heredity which distinguish them as a distinct division of humankind (e.g., Asians, Blacks or African Americans, Whites)

2023 Annual Security & Fire Safety Report

- **Religious Bias:** A preformed negative opinion or attitude toward a group of persons who share the same religious beliefs regarding the origin and purpose of the universe and the existence or nonexistence of a supreme being (e.g., Catholics, Jews, Protestants, atheists)
- **Ethnicity Bias:** A preformed negative opinion or attitude toward a group of people whose members identify with each other, through a common heritage, often consisting of a common language, common culture (often including a shared religion) and/or ideology that stresses common ancestry
- **Gender Identity Bias:** A preformed negative opinion or attitude toward a person or group of persons based on their actual or perceived gender identity, e.g., bias against transgender or gender non-conforming individuals

- **Gender Bias:** A preformed negative opinion or attitude toward a group of persons based on their actual or perceived gender, e.g., male or female

The following primary crimes may have been motivated by the offender's bias:

- Murder/Non-Negligent Manslaughter
- Rape
- Fondling
- Incest
- Statutory Rape
- Robbery
- Aggravated Assault
- Burglary
- Motor Vehicle Theft
- Arson
- **Larceny-Theft:** The unlawful taking, carrying, leading or riding away of property from the possession or constructive possession of another.
- **Simple Assault:** An unlawful physical attack by one person upon another where neither the offender displays a weapon, nor the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration or loss of consciousness.
- **Intimidation:** To unlawfully place another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct, but without displaying a weapon or subjecting the victim to actual physical attack.

Southwest Wisconsin Technical College

2023 Annual Security & Fire Safety Report

- **Destruction, Damage or Vandalism:** To willfully or maliciously destroy, injure, disfigure, or deface any public or private property, real or personal, without the consent of the owner or person having custody or control by cutting, tearing, breaking, marking, painting, drawing, covering with filth, or any other such means as may be specified by local law.

If a hate crime occurs where there is an incident involving larceny-theft, simple assault, intimidation, destruction, damage or vandalism of property, and other bodily injury, the law requires that the statistic be reported as a hate crime even though there is no requirement to report the crime classification in any other area of the compliance document. A bias-related (hate) crime is not a separate, distinct crime, but is the commission of a criminal offense which was motivated by the offender's bias. For example, a subject assaults a victim, which is a crime. If the facts of the case indicate that the offender was motivated to commit the offense because of their bias against the victim's race, sexual orientation, etc., the assault is then also classified as a hate crime.

Arrests and Referrals for Disciplinary Action

- **Weapon Law Violations:** The violation of laws or ordinances dealing with weapon offenses, regulatory in nature, such as: manufacture, sale, or possession of deadly weapons; carrying deadly weapons, concealed or openly; furnishing deadly weapons to minors; aliens possessing deadly weapons; all attempts to commit any of the aforementioned.

- **Incest** - Sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.
- **Statutory Rape** - Sexual intercourse with a person who is under the statutory age of consent.

Violence Against Women Reauthorization Act of 2013 (VAWA)

A Clery Geography Map is included in the Campus Law Enforcement Policies section of this document. These categories define Southwest Tech's Clery geography. The geographic categories are further defined in the Handbook for Campus Safety and Security Reporting as follows:

Assistance for Victims: Rights & Options

Regardless of whether a victim elects to pursue a criminal complaint or whether the offense is alleged to have occurred on or off campus, Southwest Tech will assist victims of sexual assault, domestic violence, dating violence, and stalking and will provide each victim with a written explanation of their rights and options.

Such written information will include:

- information about how Southwest Tech will protect the confidentiality of victims and other necessary parties,
- a statement that institution will provide written notification to students and employees about victim services within Southwest Tech and in the community, and

Key Concepts and Definitions Central to All Forms of Sexual Misconduct

Southwest Tech does not presume a student or employee is in violation of college policy. A conduct hearing or investigation will be held to take into account the totality of information available, from all relevant sources. The college will determine whether the Student Code of Conduct or the Employee Handbook Conduct Guidelines have been violated.

COMPLAINANT:	Complainant refers to the individual who reported the incident of alleged sexual misconduct.
RESPONDENT:	Respondent refers to the student, employee or faculty member who allegedly violated the sexual misconduct policy and/or has been charged with a violation of the policy.

Southwest Wisconsin Technical College 2023 Annual Security & Fire Safety Report

CONSENT:	<p>A central concept to understanding the offenses that constitute sexual misconduct under this policy is consent. Consent is the equal approval, given freely, willingly and knowingly of each participant to desired sexual involvement. Consent is an affirmative, conscious decision — indicated clearly by words or actions — to engage in mutually accepted sexual contact. A person compelled to engage in sexual contact by force, threat of force, or coercion has not consented to contact. Lack of mutual consent is the crucial factor in any sexual assault. Consent CANNOT be given if a person's ability to resist or consent is impaired because of a mental or physical condition or there is incapacitation due to drugs or alcohol or if there is a significant age or perceived power differential. Providing alcohol or drugs to facilitate sexual activity is a violation of this policy. Use of alcohol or other drugs will never function to excuse behavior that violates this policy.</p> <p>A person may not consent if s/he is:</p> <ul style="list-style-type: none">• unconscious• frightened• physically or psychologically pressured or forced• intimidated• impaired because of a psychological condition• intoxicated by use of drugs or alcohol <p>Consent to one form of sexual activity does not imply consent to other forms of sexual activity. Similarly, previous relationships or consent does not imply consent to future sexual activity.</p> <p>The requirements of this policy apply regardless of the sexual orientation of individuals engaging in sexual activity.</p>
----------	--

Sexual misconduct includes, but is not limited to, conduct prohibited in [Wisconsin Statutes 940.225](#).

1. NON-CONSENSUAL SEXUAL INTERCOURSE

The State of Wisconsin Statutes referenced above provide a comprehensive list of the behaviors that are considered non-consensual sexual intercourse.

2. NON-CONSENSUAL SEXUAL CONTACT

The State of Wisconsin Statutes referenced above provide a comprehensive list of the behaviors that are considered non-consensual sexual contact.

3. SEXUAL EXPLOITATION

Sexual exploitation as defined by this policy occurs when an individual takes non-consensual or abusive sexual advantage of another individual for his/her own advantage or benefit, or to benefit or advantage anyone other than the person being exploited.

Examples of sexual exploitation may include, but are not limited to:

Southwest Wisconsin Technical College 2023 Annual Security & Fire Safety Report

- video or audio of a person engaged in sexually explicit conduct without the consent of that individual;
- engaging in “Peeping Tommery,” or viewing other persons engaged in intimate behavior without their consent or
- knowingly transmitting a sexually transmitted disease.

4. SEXUAL HARASSMENT

Sexual harassment is defined as any unwelcome sexual advances, demands, requests for sexual favors, innuendoes or any other verbal or physical conduct of a sexual nature when:

- a) Submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s educational or residential experience or employment; or
- b) Submission to or rejection of such conduct by an individual is used as the basis for educational, residential or employment decisions affecting such individual; or
- c) Such conduct is sufficiently severe and pervasive so as to alter the conditions of, or have the purpose or effect of substantially prostituting another individual;
- d) recording, displaying or distributing in any way photos,
- e) interfering with, an individual’s academic performance or work by creating an intimidating, hostile, or offensive educational, residential or working environment.

Campus Crime Statistics

The Executive Director of Facilities, Safety & Security and the Compliance Officer (both are Clery Compliance Officers) collaborate on assigning the crimes to the annual disclosure of crime statistics. The crimes are gathered from a student behavior data system, law enforcement agencies for non-campus locations owned or controlled by the college, and from Human Resources. Seventy percent (70%) of law enforcement responded to the requests for crime statistics for locations the college held classes.

Unfounded Crimes

If a crime is reported as occurring On Campus, in On-campus Residential Facilities, in or on Non-campus buildings or property, or on Public Property, and the reported crime is investigated by sworn or commissioned law enforcement authorities and found to be false or baseless, the crime is considered to be "unfounded."

Institutions must report the total number of criminal offenses; hate crimes; and domestic violence, dating violence, or stalking incidents that have been unfounded. There were no unfounded crimes in 2020, 2021, or 2022.

Hate Crime Reporting

There were no hate crimes reported in 2019 or 2021. In 2020, one on-campus intimidation incident characterized by race was reported.

Fire Safety Education and Training Programs

Fire safety education programs for all students living in on-campus student housing and all employees that have any association with on-campus student housing are held at the beginning of each semester. These programs are designed to familiarize everyone with the fire safety system in each housing facility, train everyone on the procedures to be followed in case there is a fire and distribute information on the College's fire safety policies.

Everyone is also provided with maps of each on-campus student housing facility that illustrate evacuation routes and fire alarm equipment locations. During these programs, trainers emphasize that participating in fire drills is mandatory. Students with disabilities are given the option to have a "buddy" assigned to them. Fire safety education and training programs are taught by local fire authorities.

Faculty and staff are provided education on fire safety and information on how to report a fire, or evidence of a fire, to whom, and procedures to be followed for non-residential buildings on campus when a fire alarm signals. Safety and evacuation information is included in the Southwest Tech Emergency Response Plan and the Southwest Tech Student Housing Emergency Response Plan. Evacuation maps are posted in every classroom, lab, and office area.

Each Southwest Tech building has fire evacuation plans posted in common areas. All employees are encouraged to become familiar with the escape routes for all buildings and floors and the locations of fire extinguishers, hoses and alarms. In the event of a fire or evacuation, every employee should follow the fire safety evacuation route and vacate the premises until the official in charge (Incident Commander) declares the premises safe to enter. Exits and areas around fire extinguishers must be kept clear at all times. Monthly fire safety inspections and drills are held to test equipment and procedures. By the Security

Procedures Students and Employees Should Follow in Case of a Fire

The Student Housing Emergency Response Plan contains students and employees should follow in case of a fire are reviewed and include the following:

Fire or Explosion- Fire Drills will be conducted each semester.

In situations when a fire or explosion occurs, the primary concern is the welfare and safety of tenants and guests. Tenants should carefully assess the circumstances and use their best judgment when responding to the situation. No one should unnecessarily and unreasonably place themselves or others in jeopardy. Anytime the fire alarm sounds, all tenants and guests should be evacuated immediately. The following procedures shall serve as guidelines for staff responding in a fire or explosion emergency.

During evacuation, please be aware of tenants or guests with special needs or disabilities to assure their safety as well.

Immediate Action for Reporting a Fire

- If you live in the 6-plex or 8-plex pull the fire alarm.
- When a fire is discovered, regardless of the severity **Call 911 from a safe location to report the fire.**
- If it is safe to do so, and you are properly trained in its use, use the nearest fire extinguisher to control the fire until the fire department arrives on the scene.

Action When Alarm/Smoke Detector Sounds

- Tenants and guests should use the fastest and clear emergency exit route to evacuate the building. Move a minimum of 500 feet from the building. **Remain calm - DO NOT panic.**
- If it is safe to do so and you do not live in a building with fire alarms, alert the tenants in your building to evacuate immediately.
- If it is safe to do so, close all doors and windows, turn-off lights, and shut-off electrical and gas operated equipment when leaving the area.
- When area is evacuated the last person out will place **RED** evacuated tag on door.
- If it is safe to do so, RAs should conduct a quick walk-through inspection of common spaces to ensure that all persons have left the building.
- The RA should proceed out of the building and ensure that all persons are an adequate distance (a minimum of 500 feet) away from the building.
- Housing tenants will meet in the Ag/Auto Building 1700 Hallway (See Exhibit C)
- RA's should ensure that individuals remain outside until told to reenter the building.
- RA should contact the Resident Life Manager soon as possible

Reporting Fires

Per federal law, Southwest Tech is required to annually disclose statistical data on all fires that occur in on-campus student housing facilities. Therefore, if a live fire is encountered in one of campus facilities, immediately go to a safe place, then dial 911. Once the emergency has passed, notify the Safety & Security Office at 608.822.2097 to investigate and document the incident for disclosure in the college's annual fire statistics.

If a member of the Southwest Tech community finds evidence of a fire that has been extinguished, and the person is not sure whether the Safety & Security Office has already responded, the community member should immediately notify Safety & Security Office at 608.822.2097 to investigate and document the incident for disclosure in the on-campus residential annual fire statistics.
