REPORT

2019

A partnership between
Southwest Tech
& Area School Districts

Message from the College President

Southwest Tech is proud to partner with our k-12 school districts to serve students. The School-to-Work Annual Report for 2018-2019 summarizes our accomplishments.

Through collaboration, many currently enrolled high school students are able to earn college credits prior to their graduation. Thank you to the high school teachers and college instructors who work together to provide meaningful learning opportunities for students. We are also grateful to our partners in business and industry who support our programs with donations of equipment, funding for scholarships, and work sites for experiential learning.

Over the past year we have increased our offerings in the high schools by bringing our program courses to the high school buildings through technology and in-person. These

partnerships have helped students earn general education credits as well as advance towards degrees in Laboratory Science, Nursing, Culinary Arts, and Early Childhood Development. We also offer dynamic programming for people pursuing a high school equivalency. We are proud to help all students learn and achieve their goals.

Again, thank you to the many people who work so hard to help our high school students have access to high quality programming right here in Southwest Wisconsin.

Here's to more success in 2019-2020!

Sincerely,

JASON S. WOOD, PH.D.

DUAL CREDIT OPPORTUNITIES WITH AREA HIGH SCHOOLS

Southwest Tech partners with local high schools to offer dual credit opportunities for students allowing for a seamless transition from secondary to post-secondary education. At this time, Southwest Tech currently offers the following dual credit opportunities:

ADVANCED STANDING

High school course that meets the competencies of a technical college course. Students earning a B or better are awarded the course credit upon enrollment in a program at the technical college.

TRANSCRIPTED CREDIT

College-level course taught by a WTCS certified high school instructor at the high school during the traditional school day. Student receives technical college credit upon completion of the course.

COLLEGE UP

A program established through a partnership between Southwest Tech and CESA #3 allowing students to earn a technical diploma or portions of an associate degree program while still enrolled in high school.

START COLLEGE NOW

Program established by the State of Wisconsin that allows high school juniors and seniors to enroll in technical college courses that are not comparable to courses offered at the high school.

TRANSCRIPTED CREDIT & ADVANCED STANDING

(A) = ADVANCED STANDING (T) = TRANSCRIPTED CREDIT

The number of students applying their advanced standing or transcribed credit by enrolling at Southwest Tech following high school graduation is continuing to grow. In the fall of 2019, 240 students with transcribed credit enrolled in programs, and 25 students with advanced standing enrolled in programs. The following articulation agreements were in place during the 2018-2019 school year:

118.15 COMPULSORY EDUCATION

Since the enactment of Wisconsin State Statute 118.15 Compulsory School Attendance, Southwest Tech has been committed to providing this service for area high schools. Through a contract initiated by their local high school, students may participate in a program that assists them in earning a state-issued high school diploma. For program eligibility, a student must be age 17 or older, one year (minimum) behind their class in credits earned, at a minimum 9th grade reading level, and at-risk status. The following is a brief summary of those who participated in this program during 2018-2019.
