

Canada Fee Policy

All fees are simple and straightforward.

It's always free to list an item for sale on Poshmark.

For Sellers, after your item sells, we deduct a small fee from the final order price. For all sales under C\$20, Poshmark takes a flat commission of C\$3.95. For sales of C\$20 or more, you keep 80% of your sale and Poshmark's commission is 20%. All orders include a GST/HST on the Poshmark fee that is deducted from the seller's earnings. The GST/HST rate is dependent on the seller's Province.

Please note, your earnings are based on the listing price and actual earnings will vary based on the final order price, seller discounts, and any other applicable taxes and discounts.

Buyers are responsible for any shipping costs incurred with respect to their purchased Item. Please see [Shipping Policy](#) for details and exceptions.
