Message from the General Chairs

IDC predicts that total worldwide data will swell to 175 Zettabytes by 2025 in the "Data Age 2025" whitepaper. This exponential growth of data size challenges current Big Data and Analysis technologies and drives evolution of science and technology innovation. The IEEE BigDataService 2020 provides a unique platform for researchers and professionals to exchange ideas, challenges, and solutions in big data computing and application services. On behalf of the IEEE BigDataService 2020 Chairs and the Conference Steering Committees, we are very pleased to welcome you to the Sixth IEEE International Conference on Big Data Computing Service and Applications. The Steering Committee and Advisory Board members have provided excellent guidance to our Organizing Committee and Program Committee. The PC Chairs, Iraklis Varlamis, Magdalini Eirinaki, and Paul Townend, and the PC members have attracted, reviewed, and selected high quality papers from all of the world.

The successful delivery of this conference and the excellent publication of the 2020 IEEE BigDataService conference proceedings has been due to the great efforts of the PC members, and Workshop Chairs, Ping Ping and Yong Wang, Demo and Special track Chair, Katerina Potika, Website Master, Everette Li. Also, the Proceedings Chair, Guoyan Xu has worked hard to ensure the best Proceedings for the conference. In addition, the Local Arrangement Chair, Hong Zhu has made all the arrangements for ensuring excellent logistics. We are also very grateful to the workshop organizers, Ping Ping, Yong Wang, Wankou Yang, Dimosthenis Kyriazis, Richard McCreadie, and Sophia Karagiorgou. Without their dedicated efforts, it is impossible to have the workshop programs. In addition, we would like to express our thanks to the IEEE staff Momoko Vanna, Candace Lopez and Andrzej Goscinski, Patrick Kellenberger and Lisa O'Conner for their great support. We hope you enjoy the conference and contribute to future IEEE BigDataService events as authors, speakers, panelists, volunteers, and conference organizers!

We look forward to meeting you in Keble College, Oxford, United Kingdom for a great networking and productive discussions.

General Conference Chairs:

Jerry Gao
San Jose State University, USA

Taghi M. Khoshgoftaar
Florida Atlantic University, USA

Fanjing Meng
IBM Research, China

General Executive Chair:

Hong Zhu, *Oxford Brookes University, UK*
